## 2022 MASSEY UNIVERSITY CALENDAR | MARAMATAKA

### THE ARMS AND COLOURS OF THE UNIVERSITY TE TOHU ME NGĀ TAE O TE WHARE WĀNANGA

By the authority of the Duke of Norfolk, Earl Marshal and Hereditary Marshal of England, the Kings of Arms assigned arms to Massey University on the 10th day of May 1967. The arms are defined as:

Gyronny of 10 argent and azure a mullet gules fimbriated argent and irradiated or and for the crest on a wreath of the colours issuant from flames proper a ram's head argent horned and ensigned by the horns of the African long-legged ram.

On a scroll appear the words 'floreat scientia', which means, translated from Latin, 'Let knowledge flourish'.

The symbolism of the design is interpreted as follows:

The star is from the Arms of New Zealand. Here it also represents knowledge and learning and so has been irradiated. It is in the centre of the shield, being the central theme of the University. The background, a gyronny of 10 pieces in blue and white, represents the 10 degrees first offered by the University. The crest is the ram's head that was used in former years by the students' association. This, with its four horns, is unusual and memorable and provides a link with agriculture and the former college. There are many ram's head crests used in heraldry, so this one is made distinctive by proceeding from flames of learning. The flames also suggest, phoenix-like, the idea of a new body being born out of an old.

The University colours and their British Colour Council reference numbers are:

	BCC Name	BCC Number
University blue	midnight	90
Light blue	forget-me-not	84
White

## University Council

Massey University's governing body is the University Council. Council members include lay, academic and student members and are responsible for overseeing the management and control of the affairs, concerns and property of the University. Its Chair and ceremonial head of the University is the Chancellor, elected by Council from within its ranks. Council meets in March, May, July, September, November and December unless otherwise notified. The University Council is established consistent with Sections 271 to 283 of the Education and Training Act 2020.

## The Council

### Appointed by the Minister of Education

Michael Ahie, BBS(Hons)  
 Colin Harvey, ONZM, BAgSc, BCC *Auck.*  
 Ben Vanderkolk, LLB *Cant.*  
 Oriana Paewai

### Vice-Chancellor of the University

Professor Jan Thomas, BSc *Murd.*, BVMS *Murd.*, MVS *Melb.*, PhD *Murd.*, MACVS, FAICD, FAIM

### Elected by Permanent Members of the Academic Staff

Professor Sarah Leberman, MA (*Cambridge*) *UK*, MA (Applied), PhD (*VUW*)

### Elected by Permanent Members of the Professional Staff

Nigel Barker MALP, BBS, CertATchg, Grad IFE

### Elected by Massey University students and appointed by Council

Ngahuia Kirton

### Appointed by the Massey University Council on the Nomination of the Vice-Chancellor

Alistair Davis, LLB, B.C.A *Well.*  
 Ian Marshall, BCom *Natal*, CAANZ, CASA  
 Traci Houpapa, MBA

## Council Committees

### Finance and Assurance Committee

#### Chairperson

Ian Marshall, BCom *Natal*, CAANZ

### Performance and Remuneration Review Committee

#### Chairperson

Ben Vanderkolk, LLB *Cant.*

### Disciplinary Committee

#### Chairperson

Paul W. Rieger, QSO, JP

### Academic Board

#### Chairperson

Associate Professor Claire Matthews,  
 DipBusAdmin, DipBankStud, BA, MBS, PhD, FINSIA, INFINZ.

## Academic Board

The Academic Board is established pursuant to Sections 283 (4) and 285 and Schedule 11(18) of the Education and Training Act 2020. The membership of the Board shall be comprised as follows:

- Vice-Chancellor
- Provost
- Deputy Vice-Chancellor (Māori)

- Pro Vice-Chancellors (Business, Creative Arts, Health, Humanities and Social Sciences, Sciences)
- Dean Pasifika
- Deputy Vice-Chancellor Students and Global Engagement
- Three Māori Academic staff representatives
- Three elected Academic staff, from each College (15)
- Five student representatives

## Academic Board Committees

There are 8 permanent sub-committees of Academic Board:

### Academic Committee

#### Chairperson

Professor Giselle Byrnes, BA *Waik.*, MA *Waik.*, PhD *Auck.*

### Teaching and Learning Committee

#### Chairperson

Damian Lodge, AssDipApplSc *TasTAFE*, BBus *RMIT*, MApplSc *CSU*, MBA *RMIT*

### University Research Committee

#### Chairperson

Professor Giselle Byrnes, BA *Waik.*, MA *Waik.*, PhD *Auck.*

### College of Business College Board

#### Chairperson

Associate Professor Jo Cullinane, Cert *Oxf.*, BMS(Hons) *Waik.*, MMS *Waik.*, MSc *Glam.*, PhD *Waik.*

### College of Creative Arts College Board

#### Chairperson

Professor Claire Robinson, BDes, BA(Hons), PhD

### College of Health College Board

#### Chairperson

Professor Jill McCutcheon, BSc, DVM *Guelph*, PhD, *WSU*

### College of Humanities and Social Sciences College Board

#### Chairperson

Professor Cynthia White, BA (Hons) *Well.* DipTESL *Well.*, PhD

### College of Sciences College Academic Board

#### Chairperson

Professor Simon Hall, MSC, PhD *Auck.*, CChem, FRSC, FNZIC, MRSNZ, MInstD

## Officers of the University

### Chancellor

Michael Ahie, BBS(Hons)

### Pro Chancellor

Ben Vanderkolk, LLB *Cant.*

### Vice-Chancellor

Professor Jan Thomas, BSc *Murd.*, BVMS *Murd.*, MVS *Melb.*, PhD *Murd.*, MACVS, FAICD, FAIM

### Deputy Vice-Chancellor, Students and Global Engagement

Tere McGonagle-Daly, BLibs *Waik.*, PGDipMgtSys *Waik.*, MRes *Lond.*

## Legislative and Regulatory Framework

### A Tiriti- Led University

Ū ai a Te Kunenga ki Pūrehuroa kia aratakina e ngā mātāpono o Te Tiriti o Waitangi ki roto ki ngā kaupapa here me ngā mahi a te Whare wānanga, ā, ka ngākau kotahi te aro ki ngā painga ka puta. Ka whakatairanga ake i te whanaketanga o te Māori, ā, te tino whai wāhi puta noa me te tiaki i te reo Māori hei reo whai mana o te Whare wānanga, ka poipoi ngātahitia ngā tūmanako me te māramatanga ki te mātauranga ake me ngā kōrero tuku iho, ka aro ki te mana whenua o ia whenua kei a Te Kunenga, ka rapu kaupapa kia whaihua tahi ai me te Māori, ā, ka tautoko i ngā hōtaka whakaako, hōtaka rangahau e hāngai ana ki ō te Māori wawata me ōna tikanga.

Massey University is committed to being guided by the principles of Te Tiriti o Waitangi within the policies and practices of the University and to recognising the mutual benefits that follow. It will promote Māori development and full Māori participation across the University, maintain the Māori language as an official language of the University, foster mutual regard and understanding for academic knowledge and customary Māori knowledge, recognise and acknowledge the special status of tangata whenua in the mana whenua of each campus, seek opportunities for mutually beneficial partnerships with Māori, and facilitate teaching and research programmes consistent with Māori aspirations and processes.

### Ngā Ture o te Whare Pāremata – Acts of Parliament

Me ū Te Kunenga ki Pūrehuroa, pērā i ngā Kura Mātauranga Tuatoru o Aotearoa, ki ngā kōrero o te Ture Mātauranga Ture Whakangungu 2020 (tae atu ki ngā whakatika). Ka tautuhi tēnei Ture i te kaupapa ture me ngā mahi a te Kaunihira me ētahi atu kaupapa e pā ana ki ngā kura tuatoru.

Kua whakatūria Te Kunenga ki Pūrehuroa ki raro ki te Ture Massey University 1963 me te Wāhanga 162(1)(a) o te Ture Mātauranga Ture Whakangungu 2020.

Massey University, like all tertiary education institutions in New Zealand, is subject to the provisions of the Education and Training Act 2020 (including amendments). This Act specifies the constitution, functions and duties of the Council and other matters relating to tertiary institutions.

Massey University is constituted by the Massey University Act 1963 and the Education and Training Act 2020.

### Policy Guide

The Massey University Policy Guide is the authorised and definitive catalogue of approved policies within Massey University. Policies articulate the principles, values, and statements of intent and compliance requirements of the University. All members of the University community are expected to comply with relevant policies, including Academic, Campus Facilities, Contract Management, Finance, Health, Safety and Wellbeing, Information Technology Services, International, People and Culture, Research, Risk Management, and University Management. The policies of the University are available from [www.massey.ac.nz/policies/](http://www.massey.ac.nz/policies/).

### Privacy at Massey University

#### Privacy of Personal Information

Massey University cares about privacy and we are committed to the protection of personal information. The University takes all reasonable steps to ensure that personal information we hold is protected against loss, and unauthorised access, release, use or modification.

Our Privacy Statements describe how we collect, use and share personal information and explains an individual’s rights in relation to those activities. The Privacy Statements can be found at: [massey.ac.nz/privacy](https://massey.ac.nz/privacy)  
 If you wish to seek access to or request correction of your personal information, or inquire about the handling of personal information, you can email us at [privacy.officer@massey.ac.nz](mailto:privacy.officer@massey.ac.nz) or call **0800 MASSEY** (0800 627 739).

### Academic Dress Regulations

1. Graduates shall appear at all public ceremonies of the University in the academic dress proper to their degree. Graduates of other Universities may wear the academic dress of their own university.

2. The form of the principal officers’ robes and hats shall be as follows:

#### Chancellor

Regalia made in Merino wool, in a Poutama design weave using rich blues. Pleats in the gown are suspended from a plain blue Merino wool yoke. Sleeve cape across the shoulders references the Korowai and is embellished with Massey University’s Coat of Arms. Gold satin front neck bands (70mm) are embroidered with an interpretation of the Whakarare pattern in metallic threads of gold and blue. Gold satin sleeve cape border is ornamented with three embroideries. Gold satin sleeve border is embroidered in a repeat pattern. Gown body is lined in light blue satin and sleeves are lined in navy satin. Gown front is edged with plain blue Merino wool.

A wide-brimmed round plain blue Merino wool Tudor bonnet with gold tassels hanging from a cord encircling the puggaree of the hat.

#### Pro-Chancellor

Regalia made in Merino wool, in a Poutama design weave using rich blues. Pleats in the gown are suspended from a plain blue Merino wool yoke. Sleeve cape across the shoulders references the Korowai and is embellished with Massey University’s Coat of Arms. Gold satin front neck bands (45mm) are embroidered with an interpretation of the Whakarare pattern in metallic threads of gold and blue. Gold satin sleeve cape border is ornamented with one embroidery motif. Gold satin sleeve border is embroidered in a repeat pattern. Gown body is lined in light blue satin and sleeves are lined in navy satin. Gown front is edged with plain blue Merino wool.

A wide-brimmed round plain blue Merino wool Tudor bonnet with gold tassels hanging from a cord encircling the puggaree of the hat.

#### Vice-Chancellor

Regalia made in Merino wool, in a Poutama design weave using rich blues. Pleats in the gown are suspended from a plain blue Merino wool yoke. Sleeve cape across the shoulders references the Korowai and is embellished with Massey University’s Coat of Arms. Silver satin front neck bands (70mm) are embroidered with an interpretation of the Whakarare pattern in metallic threads of silver and blue. Silver satin sleeve cape border is ornamented with one embroidery motif. Silver satin sleeve border is embroidered in a repeat pattern. Gown body is lined in light blue satin and sleeves are lined in navy satin. Gown front is edged with plain blue Merino wool.

A wide-brimmed round plain blue Merino wool Tudor bonnet with silver tassels hanging from a cord encircling the puggaree of the hat.

#### Deputy Vice Chancellor Students and Global Engagement

Regalia made in Merino wool, in a Poutama design weave using rich blues. Pleats in the gown are suspended from a plain blue Merino wool yoke. Sleeve cape across the shoulders references the Korowai and is embellished with Massey University’s Coat of Arms. Silver satin front neck bands (45mm) are embroidered with an interpretation of the Whakarare pattern in metallic threads of silver and blue. Sleeve cape is without satin border. Silver satin sleeve border is without embroidered ornamentation. Gown body is lined in light blue satin and sleeves are lined in navy satin. Gown front is edged with plain blue Merino wool.

A wide-brimmed round plain blue Merino wool Tudor bonnet with silver tassels hanging from a cord encircling the puggaree of the hat.

#### Director, Student Services

Of plain all-silk University blue ottoman without ornamentation, but facings and shoulder wings to be of light blue taffeta and shall bear the University’s Coat of Arms on each shoulder.

The hat of these officers shall be a trencher of the materials as used for the robe.

#### University Council Members

The academic dress is as for the Cambridge Bachelor of Arts but with a facing of light blue satin (50mm wide, BCC 84 forget-me-not) edged with an additional dark blue satin (25mm wide, BCC 90 midnight), the full length of the front. Graduates may wear the hat and hood of their own degree. Council members may wear academic regalia of their qualification if preferred.

### Marshal

The academic dress shall be the academic regalia of their own university, including the hat and hood of their own degree, and shall bear the University’s Coat of Arms on each shoulder.

3. (a) The gown for an undergraduate or for a Bachelor’s Degree is as for the Cambridge Bachelor of Arts.
- (b) The gown for a Master’s Degree is as for the Cambridge Master of Arts.
- (c) The gown for the degrees of Doctors of Business and Administration, Clinical Psychology, Education, Philosophy and Social Work is as for the Cambridge Master of Arts, but with a facing of cloth ‘post office red’ (BCC No. 209) ten centimetres wide the full length of the front.
- (d) The gown for all other Doctors Degrees is as for the Cambridge Master of Arts, but the colour is ‘post office red’ (BCC No. 209).
4. (a) The hood for every degree is of the same size and shape as the Cambridge Master of Arts.
- (b) The hood for Masters Degrees shall be made of material of the colour ‘university blue’ (BCC No. 90) and shall be lined with material of the colour appropriate to the degree, except for Master of Philosophy, which shall be lined with material of the colour ‘post office red’ (BCC No. 209).
- (c) The hood for a Bachelor’s Degree or a Bachelor’s Degree with Honours shall be as for the Master’s hood, but bordered with a 40mm white fur.
- (d) The hood for a Bachelor Honours Degree shall be as for the Master’s hood, but bordered with a 40mm white silk.
- (e) The hood for a PhD Degree shall be made of material of the colour ‘post office red’ (BCC No. 209) and shall be lined with ‘university blue’ (BCC No. 90).
- (f) The hood of other Doctor’s Degrees shall be the Master’s hood appropriate to the discipline in which the degree was taken.
5. The colours of the linings of the hoods for the Bachelor’s, Master’s and Doctor’s Degrees other than PhD are as follows:

# KEY DATES 2022 –STUDENT AND ADMINISTRATIVE CALENDAR

## NGĀ TINO RĀ – MARAMATAKA MĀ NGĀ TAUIRA ME TE WHAKAHAERE

For start and end dates of semesters and mid-semester breaks, students should check course and programme details on the Massey website as some programmes of study do not follow the dates given here. Selected individual programme dates are provided following the Diary of Key Dates.

<b>2021</b>					
<b>October 2021</b>					
1	Course enrolment opens for 2022 academic year (unless otherwise stated for programmes requiring selected entry).			12	Graduation, Wellington
1	Applications for University Halls of Residence and Apartments submitted by this date will be included in the first round of offers for 2022.			15	Good Friday
1	Final date for international student applications to Air Transport Pilot programme selection.			18	Easter Monday
25	Labour Day			11-22	Mid-Semester One study period (study and field trips, internal; distance learning contact workshops).
31	Due date for all new international students to apply for admission in Semester One or Double Semester 2022 conditional upon availability of remaining places.*			13-22	Conferences at the Manawātū campus
				25	ANZAC Day
<b>November</b>				26	Semester One resumes
1	Final date for domestic student applications to Air Transport Pilot programme selection for semester one 2022.			<b>May</b>	
15	Summer School commences.			1	Final date for domestic student application to Air Transport Pilot programme selection for Semester Two.
26	Graduation Palmerston North.			1	Due date for all new international students to apply for admission in Semester Two 2022 conditional upon availability of remaining places.*
<b>December</b>				2-4	Graduation ceremonies, Palmerston North.
3	Semester Two and Double Semester examination results notified about this date.			24-26	Graduation ceremonies, Auckland.
10	Final date for applications to Teaching programme selection.			<b>June</b>	
10	University closes 5pm except for Summer School and associated services			3	Final day of Semester One lectures.
23	University closes at 5pm.			6	Queen's Birthday observance.
				7-10	Study break
<b>2022</b>				13-23	Semester One examinations.
<b>January 2022</b>				23	Due date for domestic and returning international students to apply for admission for study commencing in Semester Two 2022, conditional on availability of remaining places.*
5	University re-opens for Summer School and associated services.			23	Due date for all Transfer of Academic Credit/Cross Credit applications related to commencing study in Semester Two.**
5	Reporting in person for Summer School January-February classes if required.			23	Semester One concludes.
10	All University re-opens.			24	Matariki Public Holiday
24	Wellington Anniversary Day Holiday, Manawātū and Wellington campuses.			27	June–15 July
31	Auckland Anniversary Day Holiday, Auckland campus				Mid-year break (Distance learning campus courses).
<b>February</b>				<b>July</b>	
1	Final date for applications to graduate at the Wellington ceremony.			4	Course Guides normally available on Stream for Semester Two courses.
1	Final day of Summer School lectures.			7	Semester One examination results notified about this date.
4	Due date for domestic and returning international students to apply for admission for study commencing in Semester One or Double Semester 2022, conditional on availability of remaining places.*			13	Due date for returning students to apply for course enrolment in Semester Two 2022, conditional on availability of remaining places.*
4	Due date for all Transfer of Academic Credit/Cross Credit applications related to commencing study in Semester One.**			15	Reporting in person all campuses if required.
2-4	Study Break.			18	Semester Two commences.
6	Waitangi Day (observed Monday 7 February).			22	Final date for students to add a Semester Two course online conditional on availability of remaining places.***
8-11	Summer School examinations.			31	Final date for payment of outstanding fees for Semester Two courses.
11	Summer School concludes.			<b>August</b>	
14	Course Guides normally available on Stream for Semester One and Double Semester courses.			1	Deadline for submission of Academic Proposals for CUAP Round Two.
18	Due date for students to apply for course enrolment in Semester One or Double Semester 2022, conditional on availability of remaining places.*			29 August–9 September	Mid-Semester Two study period (study and field trips, internal; distance learning contact workshops).

## Admission Regulations

- Every applicant must complete enrolment requirements which include submission of an Admission Application, written acceptance of an Offer of Place in a qualification [unless waived in writing by the University], submission of an Enrolment Application and acceptance of an Offer of Enrolment. Applicants returning to enrol in the same qualification submit an Enrolment Application and accept an Offer of Enrolment each academic year.
- Admission Applications normally proceed directly to an Offer of Place in a qualification unless withdrawn by the applicants in writing or unless the approvals required from the University are not obtained.
- Admission may be granted conditionally in the case of students who have not yet met the requirements for entry to University or to a specific qualification. At the appropriate time prior to the commencement of an enrolment period the University initiates offers of places in programmes in response to Admission Applications.
- Applicants who intend to enrol for tuition in an imminent enrolment period in a qualification they have not enrolled in before should submit an Admission Application and accept an Offer of Place in a qualification if granted.
- The final dates by which Applications must be made are specified in the Enrolment Regulations.
- Admission to Massey University does not constitute entitlement to be enrolled for tuition in any particular qualification or enrolment period.
- Massey University operates a preferential score admission scheme for admission to undergraduate qualifications. Applicants to undergraduate qualifications will be assessed and eligible applicants will be offered a place in a qualification.

## Matriculation Regulations

### Matriculation

- Every candidate for an undergraduate degree, undergraduate diploma, undergraduate certificate, or for a certificate of proficiency in a course of any degree, diploma or certificate shall have matriculated or been admitted with equivalent status. Candidates for sub-degree certificates and sub-degree diplomas must meet the published admission requirements of the selected programme.

### Matriculation Requirements

- Every person shall be academically qualified to matriculate at the University who:
  - is academically qualified for entrance to a university on the basis of the National Certificate of Educational Achievement (NCEA) as promulgated by the New Zealand Qualifications Authority at [www.nzqa.govt.nz](http://www.nzqa.govt.nz) or equivalent; or
  - has qualified for entrance to a university on the basis of the New Zealand University Entrance, Bursaries and Scholarships Examination prior to 2005, or the University Bursaries Examination prior to 1993, or New Zealand University Entrance (by accrediting or examination) prior to 1986; or
  - has matriculated at any university in New Zealand; or
  - is granted Special Admission; or

- is granted Discretionary Entrance under the Discretionary Entrance regulations or Provisional Entrance under the regulations applying in 2003; or
- is a New Zealand Citizen or Permanent Resident and has attained the age of 20 years by the final date for acceptance of late Enrolment Applications for the enrolment period in which study is commenced.

### Minimum Age

- Applicants shall not be eligible to matriculate unless they have attained the age of 16 years by the start of their study.

### Responsibilities

- At the time of accepting an offer, every student shall promise to obey the statutes, regulations, policies, codes and rules of the University. Prior to enrolment being finalised, every student shall provide evidence of date of birth and citizenship and of eligibility to meet programme admission requirements.
- Persons who are eligible to matriculate under these Regulations may matriculate by having their names enrolled on the books of the University as matriculated students. The University Council (or its delegate) may decline (under statutory authority) to matriculate a person in special cases.

## English Language Competency

- Both English and Te Reo Māori are recognised as official languages in New Zealand. Tuition, examination and assessment at Massey University is normally in the English language, although students may be required to write or speak Te Reo Māori or foreign languages in some courses. Procedures also exist for those students who wish to submit written work, assignments or examinations in Te Reo Māori.
- It is expected that on entry to Massey University all students will be able to:
  - write grammatically correct English. Students must be able to develop ideas and to express themselves in well-structured, accurate and extended written English. Typically essays or reports of about 1,000 words are expected of first-year students. Even in courses

- where mathematical and scientific symbols are the main means of expression, the ability to write clear, accurate English is still needed. Most assignments and examinations use essays and reports as the main type of written work. Equivalent criteria apply for students who choose to submit their work in Te Reo Māori.
- read English actively and with understanding. Students must be able to find relevant information, without special guidance, to follow the structure of a narrative, and to comprehend and analyse a line of argument.
  - listen to and discern key points in English. Students must be able to follow complex and technical discussion in both formal lectures and informal groups.

- (d) speak freely and clearly in English. Students will be expected to contribute actively to discussion and to present ideas in classes.
- The University does not accept responsibility for academic failure that is attributable to a student's lack of competence in English. Students whose prior education was not in English are advised to take 192.101 English for Academic Purposes for Speakers of Other Languages in their first year at Massey to improve their preparedness to study at university level. Students who submit their work in Te Reo Māori are expected to meet equivalent standards in Te Reo Māori.
  - International students – all international students whose first language is not English will be required to provide satisfactory evidence of their proficiency in English, in the form of an Academic IELTS or TOEFL score, an equivalent recognised English language test, or other such evidence that is acceptable to Academic Board. Satisfactory evidence from IELTS and TOEFL is as follows:
    - IELTS – Academic IELTS (International English Language Testing System) score of 6.0 for undergraduate programmes with no band less than 5.5, and 6.5 for postgraduate programmes with no band less than 6.0.  
The Massey University Centre for Professional and Continuing Education is a registered IELTS testing Centre.
    - TOEFL – (Princeton Test of English as a Foreign language) score of 550 paper-based test (213 computer-based test or 80 internet-based test) for undergraduate students and 575 paper-based test (232 computer-based test or 90 internet-based test) for postgraduate students. An additional TWE (Test of Written English) score of

4 (Essay Rating 4.0 or Writing 19 for undergraduate students, 20 for postgraduate students) is required. TOEFL tests listening comprehension, knowledge of grammar, vocabulary and reading comprehension. TWE (Essay Rating or Writing) tests ability to write sustained English prose.

- Satisfactory evidence of proficiency in English includes
- Satisfactory completion of the Massey University Foundation Certificate in Academic English for undergraduate programme entry.
  - Satisfactory completion of the Massey University Foundation Certificate in Advanced Academic English for postgraduate programme entry or equivalent recognised qualification in Te Reo Māori

Some programmes have higher English language entry requirements. Contact Student Administration for details.

- New Zealand school leavers – New Zealand students (including permanent residents) and international students must gain a university entrance qualification in either English or Te Reo Māori, which includes literacy and numeracy requirements, as set out by the NZQA.
- Other students whose first language is not English, and who have not gained a New Zealand university entrance qualification, or an overseas entrance qualification in a country where the main language is English, will also be required to provide satisfactory evidence of their proficiency in English in the form of an academic IELTS or TOEFL score or other such evidence that is acceptable to the Academic Board.
- English language competency requirements for foundation studies and pre-degree level programmes are available from Student Administration.

## Discretionary Entrance Regulations

- A person under the age of 20 years who does not meet the University Entrance standard may apply for discretionary entrance if they:
  - are a citizen or permanent resident of New Zealand or Australia\*;
  - are at least 16 years of age and under 20 on the first day of the semester in which they wish to study, and
  - have not otherwise qualified for admission  
\*Australian applicants' most recent year of schooling must have been in New Zealand.
- Discretionary Entrance applicants are expected to have a very good academic record. The normal criteria for consideration for Discretionary Entrance are:
  - has received secondary schooling to at least New Zealand Year 12 level (or its equivalent overseas); and
  - has achieved a minimum of 72 credits at NCEA Level 2 including 14 credits in each of four subjects (three of which must be approved subjects) with a majority of credits at Merit or Excellence; and
  - has met the literacy and numeracy standards required for University Entrance, or their equivalents.
- Discretionary Entrance is granted to a nominated under-graduate qualification.
- Persons who attempt to qualify for University Entrance in Year 13, but who fail to do so, may be considered for mid-year admission in the year following their NCEA assessment in universities where this is permitted. Admission will be at the discretion of the university concerned.
- By decision of the Committee of University Academic Programme (CUAP) Sub-committee on University Entrance this proviso is waived for year 13 students at a New Zealand secondary school in 2020, due to the impact of COVID-19.
- A person studying at a New Zealand secondary school, who is attempting to qualify for entrance to university, may apply for Discretionary Entrance in the same year for the purpose of enrolling in courses offered in a Summer School by a university. Any person admitted under this Regulation who does not, in the following January, meet the University Entrance standard will be required to withdraw from the university and may re-apply for admission at mid-year. Students required to withdraw may complete their Summer School programme before doing so, but any courses passed will not be credited to a qualification until a University Entrance qualification is gained.

## Admission with Equivalent Status Regulations

- Subject to the provisions of the Education and Training Act 2020 and to the provisions of these Regulations, the Academic Board may admit any person with equivalent status to candidature in any degree or other academic qualification or part thereof. Admission with equivalent status (AES) means 'admission granted to applicants with the status equivalent to that of the holder of the required qualification'. AES admission is usually programme-specific and may have conditions attached.
- An applicant for Admission with Equivalent Status shall lodge an Application by the published due dates in order for the applications to be fully considered and processed.

### Admission at Sub-Degree Level

- The Academic Board (or its delegate) may grant admission to a sub-degree diploma or sub-degree certificate based on the published admission requirements. In the case of holders of overseas diplomas or certificates, applications shall be considered on the basis of academic work completed and not on qualifications obtained. Credit may be awarded for tertiary study on the basis of the Recognition of Formal and Informal Prior Learning regulations.

### Admission at Entrance Level

- The Academic Board may grant admission to an undergraduate degree, diploma or certificate, or for a certificate of proficiency in a course of any degree, diploma or certificate with status equivalent to that of a person academically qualified for entrance to a university in New Zealand on

the basis of study at a secondary or tertiary institution in New Zealand or overseas. In the case of holders of overseas diplomas or certificates, applications shall be considered on the basis of academic work completed and not on qualifications obtained. Credit may be awarded for tertiary study on the basis of the Recognition of Formal and Informal Prior Learning regulations.

### Admission for International Students

- Admission for international students to study at Massey University at the first year undergraduate degree level is by:
  - completing an overseas qualification recognised in New Zealand as equivalent to the New Zealand University entrance standard; OR
  - completing work overseas, recognised in New Zealand as equivalent to the New Zealand University entrance standard; OR
  - attending secondary school in New Zealand and achieving the University entrance standard; OR
  - completing a foundation programme at a University in New Zealand; OR
  - completing a foundation programme offered by a non-University provider in New Zealand and that programme is recognised by Universities in New Zealand,
 AND where applicable having the minimum English language requirements specified for entrance to the University and qualification, AND by meeting the requirements to study a specific qualification.

**Admission with Graduate Status**

## 6. Admission with Graduate Status for Postgraduate Degrees

The Academic Board may grant a candidate admission to the status of the holder of a degree with the right to proceed to a specific higher degree with or without Honours, provided that the applicant complies with any prerequisite prescribed or required by Academic Board for such degree. The University will normally consider applications for admission with equivalent status to postgraduate degrees on the basis of completed academic work that is equivalent, or substantially corresponds to coursework in this University. Where appropriate, the University

may consider applications based on extensive practical or professional experience of an appropriate kind.

## 7. Admission with Graduate Status for Graduate Qualifications, Postgraduate Diplomas and Postgraduate Certificates

Academic Board may grant a candidate admission to the status of the holder of a degree with the right to proceed to a specific graduate diploma or certificate, or postgraduate diploma or postgraduate certificate to an applicant who demonstrates practical, professional or scholarly experience of an appropriate kind and equivalent to that of a graduate. The applicant may be required to comply with any prerequisite prescribed for such diploma or certificate, or for any specific course.

**Special Admission Regulations**

1. In exceptional cases, a New Zealand Citizen or Permanent Resident who does not hold a university entrance qualification and who does not qualify under Matriculation Regulation 2(f) may apply for special permission to enter the university. In assessing whether to grant Special Admission in a particular case, the Provost will consider:

- (a) whether the applicant has met a standard equivalent to that required under the Matriculation regulations; and
- (b) evidence of the applicant's preparedness for university study.

**Personal Interest**

Applicants who wish to enrol in courses that would normally lead to the award of a qualification, but who do not wish to complete a qualification, may

be considered for enrolment in accordance with the Certificate of Proficiency Regulations in which case the Admission Regulations apply.

**General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates**

These General Regulations are to be read in conjunction with all other Statutes and Regulations of the University and the Qualification Regulations specific to each Undergraduate Degree, Diploma and Certificate, Graduate Diploma and Graduate Certificate offered by the University.

**Admission**

1. Students must satisfy the admission requirements of the University and the programme in which they wish to enrol.

**Academic Requirements**

2. An undergraduate or graduate qualification will consist of a number of credits accumulated from courses, as specified in the Qualification Regulations.
3. Every programme of study will comply with any specified prerequisites, corequisites and restrictions requirements. This applies to courses specific to that qualification or, where allowed within the relevant regulations, to approved courses able to be selected from other qualifications or subjects.

**Specialisations**

4. Qualifications for which specialisations, such as majors, minors, subjects or endorsements, are listed may have these specified at the time of programme approval by the Academic Board. With the exception of minors, the degree, diploma, or certificate completed by the student will state the specialisation.

**Student progression**

5. Students may not enrol for any 200-level course unless they have passed at least 45 credits at 100-level, nor enrol for any 300-level course unless they have passed at least 45 credits at 200-level.
6. Students who wish to take a course for which they do not have the prerequisite(s) may make a case for enrolment to the relevant Head of Academic unit or Programme Director, or equivalent concerned.
7. Students who have been inactive for a period of three consecutive years will be deemed to have abandoned their qualification. Abandonment releases the University from its obligation to ensure a qualification can be completed. Students may be permitted to be readmitted in a subsequent current qualification should they meet the entry requirements; credits previously achieved will be assessed and applied in accordance with current regulations.

**Variations and Personal Programme Approvals**

8. The Academic Board may, in such cases as it thinks fit, approve a personal programme of study which does not conform with the General Regulations or the Qualification Regulations for that degree, diploma or certificate while still conforming to the academic standards of the qualification.

The following rules will apply:

- (a) There must be a compelling academic case to merit the variation; or
- (b) There must be evidence of exceptional circumstances and/or hardship to the student.

- (c) Variations will receive appropriate academic authorisation under delegation from Academic Board and be formally documented.
  - (d) The variation will be recorded on the student's academic record.
  - (e) Personal programme approvals will not permit a reduction in the total amount of credit required to complete a qualification.
  - (f) The extent of variation cannot jeopardise the integrity of the qualification. To this end there will be a limit on the extent to which a qualification can be varied. The maximum amount of credit varied will relate to the size of the qualification as follows:  
120 credit qualification: 15 credits  
240 credit qualification: 30 credits  
360 credit qualification: 45 credits  
480 credit qualification: 60 credits
  - (g) Variations will not be permitted in 60-credit qualifications.
  - (h) Except where the special circumstances apply to a cohort of students (for example when transitioning students as a result of programme closure or course unavailability) variations will only be considered on a case-by-case basis and will not set a precedent.
9. Subject to any Maximum Time to Completion and Abandonment of Studies provisions specified in the Part II qualification regulations, where a student has completed a course towards a qualification or specialisation and that course has subsequently been removed from the schedule, unless otherwise specified in the regulations, the student will be permitted to substitute the completed course for a non-compulsory, elective/subject course(s) at the same or lower level and of the same total credit value, included in the schedule.

**Transitional Provisions**

10. The University reserves the right to introduce such changes as it may judge to be necessary or desirable, including the addition, restructuring or withdrawal of qualifications, regulations and/or courses. Reasonable provisions will be made to enable students to complete any qualification which is discontinued or has its structure substantially altered, but such provision will not extend beyond the permitted time to completion.
11. Candidates who have been awarded with Restricted Passes prior to the commencement of the 2017 academic year may continue to credit these to their programme of study in accordance with the following regulations:
  - (a) A student with a restricted pass in any course may subsequently enrol in the same course in order to attempt to improve the grade of pass. However, the course can be credited only once.
  - (b) The maximum credits able to be credited from restricted passes are 60 for a 480 credit degree; 45 for a 360 credit degree; 30 for a 240 credit diploma and 15 for a 120 credit certificate or diploma; No R passes are permitted in a 60 credit certificate.
  - (c) A restricted pass will not qualify as a pass for prerequisite purposes.
  - (d) This regulation will expire at the end of the 2025 academic year.

**Limitation of Entry**

12. For any programmes of study offered by the University, the University Council (by its delegate) may limit the number of students enrolled in the programmes of study or training each year because of insufficiency of staff, accommodation, or equipment. Accordingly, where the number of applications for the particular programmes exceeds the number of places available, then Massey University will select from the applicants the students to be enrolled in the programme of study.

**Public health considerations**

13. Where required under the COVID-19 Public Health Response (Vaccinations) Order 2021, or by any additional Government orders or Massey University Council requirements, admission to specified programmes of study within Massey University, and continued enrolment and progression in those programmes, requires evidence of full and current COVID-19 vaccination status. This requirement will be applied to any and all programmes in accordance with Government orders or Massey University mandates.

## General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates

These General Regulations are to be read in conjunction with all other Statutes and Regulations of the University and the Qualification Regulations specific to each Postgraduate Degree, Diploma and Certificate offered by the University.

**Admission**

1. Admission to a Postgraduate certificate, Postgraduate diploma, 120-credit Bachelor (Honours) or a Master's degree requires that the student will:
- (a) have made formal application for admission to postgraduate study for the specified programme; and
  - (b) (i) have qualified for the award of a relevant Bachelor's degree with a grade average that demonstrates an adequate level of preparation for the postgraduate programme; or (ii) have an approved academic qualification of similar standing to the relevant Bachelor's degree; or (iii) have been granted admission with equivalent status as entitled to proceed to the specified Postgraduate degree, diploma or certificate; and where appropriate to a specific qualification:
  - (c) (i) provide evidence of practical/professional experience of an acceptable standard in an area(s) relevant to the qualification; or (ii) on the request of the Academic Board, carry out such work and satisfy such assessments as the Board may determine to be necessary for admission.

**Academic Requirements**

2. (a) A postgraduate qualification will consist of a number of credits accumulated from taught courses and/or research courses, at 700-level or above, as specified in the Qualification Regulations.
- (b) For the award of the degree, diploma or certificate a pass is required in each course in the qualification. A student may re-enrol and be re-examined only once in a failed course.

**Research Reports and Theses**

3. (a) A research report will consist of a minimum of 30 credits; a thesis will consist of a minimum of 90 credits.
- (b) The research component of postgraduate programmes will be 0, 30, 45, 60, 90 or 120 credits with the proviso that the Bachelor (Honours) degree will have a minimum research component of 30 credits and those Master's degrees that require a research component will have a minimum of 45 credits of research.
- (c) Postgraduate diplomas and certificates may have a research component of zero credits and consist entirely of taught courses.
- (d) For thesis courses that are offered for enrolment as Part One and Part Two, candidates are required to precede their enrolment in Part Two with enrolment in Part One.

**Student Progression**

4. (a) Students will have completed their 700-level course requirements prior to enrolling in the thesis course.
- (b) (i) 120-credit Bachelor (Honours) degrees will be awarded as First Class Honours, Second Class Honours Division I, Second Class Honours Division II or Third Class Honours. Bachelor (Honours) degrees must be completed within one year of first enrolling in full-time study or within three years of first enrolling in part-time study.
- (ii) Postgraduate diplomas and 120-credit Master's degrees will carry the award of Distinction if completed at a superior standard (equivalent to First Class Honours), or Merit (equivalent to Second Class Honours, Division One) within one year of first enrolling in full-time study or within three years of first enrolling in part-time study.
- (iii) 180-credit Master's degrees will carry the award of Distinction if completed at a superior standard (equivalent to First Class Honours), or Merit (equivalent to Second Class Honours, Division One) within eighteen months of first enrolling in full-time study or within four years of first enrolling in part-time study.

(iv) 240-credit Master's degrees will be awarded with First Class Honours, Second Class Honours Division I, Second Class Honours Division II or a pass. To qualify for the award of honours, 240-credit Master's degrees must be completed within two years of first enrolling for full-time study or within five years of first enrolling for part-time study.

(v) These periods may, in special circumstances, be amended/extended by the Academic Board. The Academic Board may also in special circumstances permit students to suspend their programme of studies for an approved period.

**Specialisations**

5. Qualifications for which specialisations, such as endorsements or subjects, are listed may have these specified as specialisations at the time of programme approval. The degree, diploma, or certificate completed by the student will state the specialisation.

**Maximum Time to Completion**

6. Unless otherwise specified in the Qualification Regulations there will be time limits for completion as follows:
- (a) 60-credit Postgraduate Certificates must be completed within a maximum of two years.
  - (b) 120-credit Postgraduate Diplomas must be completed within a maximum of four years.
  - (c) 120-credit Masterates must be completed within a maximum of four years.
  - (d) 180-credit Masterates must be completed within a maximum of five years.
  - (e) 240-credit Masterates must be completed within a maximum of six years.
  - (f) 120-credit Bachelor (Honours) must be completed within one year of first enrolling for full-time study or within three years of first enrolling for part-time study.

Where credit has been transferred in accordance with Recognition of Prior Learning Regulation 16, the above time limits may be pro-rated when calculating maximum time limits for completion.

Time limits may be waived, at the discretion of the University, where a student exits with a qualification of lesser credit.

7. Students who have been inactive for a period of three consecutive years will be deemed to have abandoned their qualification. Abandonment releases the University from its obligation to ensure a qualification can be completed. Students may be permitted to be readmitted to a subsequent current qualification should they meet the entry requirements; credits previously achieved will be assessed and applied in accordance with current regulations.

**Variations and Personal Programme Approvals**

8. The Academic Board may, in such cases as it thinks fit, approve a personal programme of study which does not conform with the General Regulations or the Regulations for that degree, diploma or certificate while still conforming to the academic standards of the qualification. The following rules will apply:
- (a) There must be a compelling academic case to merit the variation, or;
  - (b) There must be evidence of exceptional circumstances and/or hardship to the student.
  - (c) Variations will receive appropriate academic authorisation under delegation from Academic Board and be formally documented.
  - (d) The variation will be recorded on the student's academic record.
  - (e) Personal programme approvals will not permit a reduction in the total amount of credit required to complete a qualification.
  - (f) The extent of variation cannot jeopardise the integrity of the qualification. To this end there will be a limit on the extent to which a qualification can be varied. The maximum amount of credit variation permitted for qualifications which have a total credit value higher than 60 credits is 30 credits.

- (g) Variations will not be permitted in qualifications which have a total credit value of 60 credits or lower.
  - (h) Except where the special circumstances apply to a cohort of students (for example when transitioning students as a result of programme closure or course unavailability) variations will only be considered on a case-by-case basis and will not set a precedent.
9. Subject to any Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I qualification regulations, where a student has completed a course towards a qualification or specialisation and that course has subsequently been removed from the schedule, unless otherwise specified in the regulations, the student will be permitted to substitute the completed course for a non-compulsory, elective/subject course(s) at the same or lower level and of the same total credit value, included in the schedule.

#### Transitional Provisions

10. The University reserves the right to introduce such changes as it may judge to be necessary or desirable, including the addition, restructuring or withdrawal of qualifications, regulations and/or courses. Reasonable provisions will be made to enable students to complete any qualification

which is discontinued or has its structure substantially altered, but such provision will not extend beyond the permitted time for completion.

#### Limitation of Entry

11. For any programmes of study offered by the University, the University Council (by its delegate) may limit the number of students enrolled in the programmes of study or training each year because of insufficiency of staff, accommodation, or equipment. Accordingly, where the number of applications for the particular programmes exceeds the number of places available, then Massey University will select from the applicants the students to be enrolled in the programme of study.

#### Public health considerations

12. Where required under the COVID-19 Public Health Response (Vaccinations) Order 2021, or by any additional Government orders or Massey University Council requirements, admission to specified programmes of study within Massey University, and continued enrolment and progression in those programmes, requires evidence of full and current COVID-19 vaccination status. This requirement will be applied to any and all programmes in accordance with Government orders or Massey University mandates.

## Cases of Hardship – Vice-Chancellor’s Power

In any case where it is shown to the satisfaction of the Vice-Chancellor that any alteration or amendment of a University statute or Regulation involving a change in a programme or in examination requirements has caused hardship to a student, the Vice-Chancellor may make such provisions as is thought fit

for the relief of such hardship. The student may appeal the decision of the Vice-Chancellor to the Council, which may make such provisions as it thinks fit.

## Recognition of Formal and Informal Prior Learning

Types of Massey University Credit That May Be Awarded

1. Recognition of prior formal and informal learning may be awarded as credit to a programme of study or awarded as credit to a micro-credential.
2. Recognition of prior formal and informal learning may also be used to grant entry into a programme of study at either undergraduate or postgraduate level, see Admission Regulations and the regulations for the qualification involved.

#### Formal Prior Learning

3. Any credit awarded under these regulations will be calculated based on the prior learning as a proportion of the full-time workload of study at the institution from which prior learning was achieved.
4. Any credit awarded under these regulations is to be at the same or lower level as was undertaken by the student at the institution from which prior learning was achieved.
5. Formal prior learning includes completed courses that are standalone, or part of a finalised or incomplete qualification at Massey University or elsewhere.
6. Where a student is completing programmes of study for two qualifications at the same time whether at Massey or with a partner institution, they may be permitted to credit one or more courses to both qualifications.
7. Students shall not credit multiple courses, either completed at Massey University or elsewhere, with substantially the same content to the same qualification.

#### Informal Prior Learning

8. Informal learning acknowledges relevant knowledge, skills and other attributes obtained through any and all training, work experience and life experiences.

#### Awarding Credit

9. A key consideration in determining whether learning outcomes or the graduate profile have been met, is confidence that the prior learning provides an adequate foundation for the continued success of the student in their chosen course of study at Massey.
10. Credit will be awarded at an appropriate level for qualifying formal or informal prior learning. Credit may be:
  - (a) For a specified Massey University course, identified by course number.
  - (b) In a specified subject at a specified level, but not specifying a course number.
  - (c) Specified by level, but not by subject (elective credits).
  - (d) No credit is to be awarded for a portion of a Massey University course.
11. For formal prior learning:
  - (a) credit can be awarded from a completed qualification (formerly referred to as Cross-Credit) or an incomplete qualification (formerly referred to as Transfer of Credit) and the regulations apply equally to each form of credit.

- (b) credit that has been awarded to a student toward a particular qualification will be transferred to a new qualification on the request of the student, providing the credit fits the regulations of the new qualification.
12. Credit will be awarded upon consideration of the prior learning meeting:
  - (a) the learning outcomes of a particular course or courses, or
  - (b) the qualification graduate profile, or
  - (c) both as will maximise the opportunity for the student to receive credit or entry.
13. An award of credit for formal prior learning does not require the surrender of any prior qualification.
14. Conferred qualifications may not be exchanged for qualifications introduced subsequently unless further credits are completed toward the new qualification in line with the minimum credits to be completed requirements.
15. Applications for credit for informal learning will be assessed using an appropriate method or methods; examples may include, but are not limited to:
  - (a) assessment of a portfolio; or
  - (b) use of a challenge examination; or
  - (c) quality assured micro-credential assessments; or
  - (d) quality assured short course assessments; or
  - (f) a combination of methods.

#### Minimum Credits to be Completed Through Massey University

16. Unless otherwise stated in the Regulations for a particular qualification or an approved dual award arrangement, and subject to Regulations 9 to 15, a student will usually be required to complete at least the following through Massey University to be awarded a Massey University qualification:
  - (a) For a 360-credit undergraduate degree, at least 105 credits.
    - (i) At least 60 300-level credits in the degree, including the 300-level credits required for a major subject(s).
    - (ii) Where a minor subject(s) is required or permitted within the degree, at least 30 credits in the minor subject including at least 15 300-level credits, unless otherwise specified in the degree regulations.
  - (b) For a 480-credit undergraduate degree, 120 credits, including at least three-quarters of the highest-level courses.
  - (c) For a postgraduate or graduate qualification, half of the credits required, including all the research credits for a postgraduate qualification.
    - (i) Students who have completed a 120-credit postgraduate diploma or a 120-credit bachelor honours degree at Massey University may be permitted to credit the full 120 credits toward a 180-credit masters. In this case, students must complete all the research or professional practice credits required for the Masters.

- (d) For a sub-degree or degree-level diploma or certificate, half of the credits required.
17. A student who earned transfer credit to an undergraduate degree while on an official approved Massey University Student Exchange programme shall be required to complete at least the following through Massey University to be awarded a Massey University qualification.
- (a) For a 360-credit undergraduate degree, normally 105 credits including 30 300-level credits, which must be part of the majoring

requirements unless a major is not required by the degree Regulations.

- (b) For a 480-credit or 600-credit undergraduate degree, normally 120 credits including at least 60 credits from the fourth year of the degree.

#### Transitional Provisions

18. Any credit previously awarded and applied, will continue to be recognised.

## Academic Progress Regulations

- Massey University Te Kunenga ki Pūrehuroa is committed to providing a learning environment which facilitates students achieving to their fullest potential.
- All students at Massey are expected to make a genuine effort in their studies and all students are expected to achieve at least satisfactory academic progress in each study period in which they are enrolled in order to continue studying at Massey.
- Students' published course results at the end of each study period will be evaluated by the Academic Progress Committee (APC) and/or its sub-committees (which consider specific programme regulations).

### Evaluating Student Academic Progress

- The process of general evaluation of Academic Performance is called the 'Evaluating Student Academic Progress' (ESAP) process.
- The ESAP process will involve the regular evaluation of results based on general thresholds of expectations outlined in the Academic Progress Policy. These evaluations will result in APC determining if a student is:
  - Excelling i.e. performing above expectations; or
  - Achieving Satisfactory Performance; or
  - Performing at levels Below Expectations.
- Where results received by APC or one of its subcommittees indicate that a student's course results may be below expectations, or contrary to specific programme regulations, the evaluation processes shall involve inviting a student to make a written submission explaining their situation.
- Where APC evaluates a student's performance for the period of study under review is:
  - Excelling relative to the thresholds: APC will initiate acknowledgment of excellence procedures to signify the accomplishment, and initiate any rights and entitlements that ensue from this status. This will result in an 'Excelling Status' being added to the student's record in the Student Management System, visible in the Student Portal, and noted on the student's Academic Record (transcript).
  - Satisfactory relative to the thresholds: APC will initiate acknowledgement of the accomplishment. It is likely this status will also be noted on the student's record in the Student Management System, visible in the Student Portal, but not noted on the student's Academic Record (transcript).
  - Below expectations relative to the thresholds: APC will initiate procedures to signify a concern, and initiate formal student support processes where appropriate. This will be indicated by a 'Status of Concern' being added to the student's record in the Student Management System, visible in the Student Portal, but there will be nothing recorded on the student's Academic Record (transcript).
- Whenever APC determines a Status of Concern should be added to a student's record, those statuses will accumulate over time if a student's performance continues to fall below expectations in concomitant situations. Concomitant situations are defined in the Academic Progress Policy Section 5.3.
  - The oldest Status of Concern will de-activate and only be seen in a student's background history when a student achieves three successive periods of enrolment\* with Satisfactory Status.  
\* In this case meaning sequentially one after each other with no intervening Status of Concern, but also with no negative impact if a student takes a break and does not study in consecutive enrolment periods.
  - Once three Statuses of Concern have been placed on a student's record, the APC will apply restrictions and exclusions as specified by the Academic Progress Policy.
- Whenever a student is recorded as having a Status of Concern, APC will refer that student into a Case Management process. This process will result in formal and personalised 'Provision of Support Offers' (PSOs) for the student. The intent of this process is to support students while they seek to improve their performance, or where students have had a restriction or exclusion applied to them.

### Performance on Professional and Accredited Qualifications

- A small number of qualifications offered by the University have specific performance and competence requirements in their Programme Regulations. For these qualifications, a process known as 'Performance on Professional and Accredited Qualifications' (P-PAQ) will evaluate the relevant aspects of student performance. APC will work with expert programme sub-committees which will make evaluations of students' performance in compliance with those specific performance and competence requirements listed in the Programme Regulations.
- P-PAQ processes will determine whether a student's performance in relation to the specific performance and competence requirements is:
  - Satisfactory relative to the specific programme regulations.
  - Below expectations relative to the specific programme regulations.

Following a hearing process in cases where a P-PAQ outcome is below expectations APC shall initiate procedures to signify this by recording a Status of Concern and initiating Case Management and PSOs or, if so indicated in the relevant programme regulations, will institute restrictions or exclusions.

### Right to Appeal

- Students will have the right to appeal the determinations of APC, including those of the P-PAQ subcommittees, to the Provost or Nominee. Appeals must be made in writing within the timeframe designated by the Provost or Nominee. Appeals will only be valid where the student can show they have suffered actual disadvantage, and that
  - the student can demonstrate that the determination was incorrect, and/or
  - new evidence that was not known or available at the time of the original Academic Progress Committee determination is now available and could have affected the determination.
- The Provost or Nominee will have the power to determine whether an appeal meets these validity rules and may decline any appeal that does not meet the validity criteria without substantive consideration.
- If an appeal is successful, remediations outlined in the Academic Progress Policy will be applied.

## Kaupapa Here Aratohu | Code of Student Conduct

Ko tā Te Kunenga ki Pūrehuroa Kaupapa Here Aratohu he rārangi kaupapa here tino whai mana nō roto mai o Te Kunenga ki Pūrehuroa. Ko tā ngā kaupapa here, he whakahua i ngā mātāpono, ngā uara, ngā tauākī whai mana me ngā tikanga o te Whare Wānanga me whai. Ka whakahua ngā kaimahi katoa o Te Kunenga ki Pūrehuroa kia tautuku ki ngā kaupapa here e tika ana, tae atu ki: Pūmātauranga, Rawa o te Whare wānanga, Whakahaere Kirimana, Pūtea, Hauora me te Haumaruru, Ratonga Hangarau Mōhiohio, Ao Whānui, Ohu Tangata, Rangahau, Ārai Whatitata me te Whakahaere Whare wānanga. Ka tāia ngā kaupapa here o te Whare wānanga ki te Kaupapa Here Aratohu ki:

### Tikanga Taurira

- Ko te Tikanga nei he akiaki:
  - kia mahi tika i te akoranga me te rangahau;
  - kia pono, kia whakaaro nui hoki ki te tukanga whakaako me te tukanga ako;
  - kia atawhai ngā taurira, kia haumaruru, kia whai ngākau tētahi ki tētahi, ki te Whare wānanga hoki; me te tautuhi;
  - i ngā āhuatanga whanonga me ū e te taurira ki roto ki āna akoranga, i āna rangahau me ērā atu whanonga e pā ana ki āna kaupapa ako, tōna tū hei kanohi mō te Whare wānanga;
  - i ngā Tukanga Whiu o te Whare wānanga ka whāia hei whakatau i ngā whakapae mō te hīanga.

### Ngā Paearu Tikanga Taurira

- Me pēnei ngā Taurira:
  - me ū ki tēnei Tikanga, ki ngā kaupapa here katoa e hāngai ana, ngā tikanga, ngā ture me ngā tukanga o te Whare wānanga e tika ana kia ūngia, tae atu hoki ki ngā paearu matatika, paearu ngaio me te kawa o ngā kaupapa rangahau;
  - me ū ki ngā ture hāngai katoa, tae atu ki ngā ture matatapu mō te tūmataiti me te mōhiohio;
  - kia atawhai atu, kia whai ngākau atu hoki ki ngā hoa taurira, ki ngā kaimahi o te Whare wānanga me te marea;
  - kia whai ngākau atu ki ngā rawa a ngā hoa taurira, a ngā kaimahi o te Whare wānanga, a tāngata atu anō hoki me a te marea;
  - kia pono te mahi, kia tika hoki te mahi ina whakamahi mai i ngā pūnaha o te Whare wānanga;

- kia pono te mahi, kia tika hoki te mahi ina tukua mai he kōrero, ina whakaputa rānei he mōhiohio.
- Kei [www.massey.ac.nz/policies/](http://www.massey.ac.nz/policies/) ngā kōrero katoa mō Ngā Ture Whakawhiu Taurira, Te Kaupapa Here Mātauranga Pono me te Tukanga hei Whakahaere i ngā Whatinga Mātauranga Pono
  - The purpose of the Code is to encourage:
    - ethical conduct in undertaking academic studies and research;
    - integrity and respect in the teaching and learning process;
    - courtesy, safety and respect amongst students and between students and the University;
 and to specify:
    - certain required standards of student conduct in respect of academic studies, research and other behaviour connected with a student's course of studies or status as a member of the University;
    - the University Disciplinary Procedures by which complaints of misconduct by students shall be resolved.

### Required standards of student conduct

- Students shall:
  - comply with this Code, and all other relevant University policies, codes, regulations and procedures, including ethical and professional standards and specific protocols for particular research projects;
  - comply with all relevant laws, including laws relating to the privacy and confidentiality of information;
  - treat other students, the University staff, other members of the University community and the public with courtesy and respect;
  - treat the property of other students, University staff, other members of the University community and the public with respect;
  - act with honesty and integrity when accessing and using the University systems;
  - act with honesty and integrity in submitting material or imparting information to the University.
- A full copy of the Student Disciplinary Regulations, the Academic Integrity Policy and the Procedure for Managing Breaches of Academic Integrity can be found at: [www.massey.ac.nz/policies/](http://www.massey.ac.nz/policies/)

## Tā te Taura Kirimana | Student Contract

The University and the Student form a contractual relationship when the Student accepts an Offer of Enrolment. That Contract is subject to the University, issuing a Confirmation of Enrolment once all requirements have been satisfied. If no Confirmation of Enrolment is issued then the Contract is at an end. If the University issues a Confirmation of Enrolment, the following are the terms of that Contract which the University and the Student accept are to govern their relationship, along with statute, and with the Regulations and Rules of the University.

### The University will:

- Use best endeavours to provide the Student with tuition and supervision of a professional standard in the course(s) in which the Student is enrolled.
- Act reasonably and fairly in exercising its powers under the regulatory framework and this Contract.
- Advise the Student of any changes in the course(s) required because of changes in funding, staffing or other reasonable cause.

### The Student will:

- Use best endeavours to fulfil the requirements prescribed by the University for the course(s).

- Observe the Regulations and Rules of the University and accept the jurisdiction of the University in all matters connected with academic progress and with discipline.
- Pay the fees prescribed by the University for the course(s).

### The University and the Student also agree:

- The Contract is formed when the Student accepts the Offer of Enrolment. That Contract is subject to the University issuing a Confirmation of Enrolment. If a Confirmation of Enrolment is issued these are the terms of the Contract that apply.
- The Contract will continue for the period for which the Student is enrolled by the University and will then end. However, clause 12 will continue to apply after the Contract ends.
- The University and the Student may enter into further contracts, in subsequent periods, by repeating the process in clause 7.
- The relevant Admission Application, Enrolment Application, Offer of Place in a qualification, Offer of Enrolment, Confirmation of Enrolment, regulations, codes, policies, rules of the University and material published in the Calendar also form part of this Contract but nothing else shall be

- incorporated into the contractual relationship between the Student and the University.
11. Liability for failure to perform this Contract is excluded where that failure has been caused by circumstances beyond the control of the University or the Student.
  12. Any dispute arising out of or in connection with this Contract, or otherwise relating to the performance by the University or its staff of their responsibilities to the Student, shall be resolved through the Grievance Procedures prescribed by the University Calendar, **calendar.massey.ac.nz/** which shall be the exclusive procedures for resolution of such a dispute.

## Student Disciplinary Regulations

The University has Student Disciplinary Regulations, available at: [www.massey.ac.nz/policies/](http://www.massey.ac.nz/policies/)

### Academic Integrity

1. All students are required to comply with the principles of Academic Integrity as published from time to time.
2. Failure to comply with the principles of Academic Integrity may be considered to be Academic Misconduct.
3. Examples of Academic Misconduct include but are not limited to:
  - (a) Plagiarism: Presenting the work of others as one's own or without appropriate acknowledgement. This applies to material presented in any medium – works in textual, musical, visual, spoken, or performance format. Examples of plagiarism may be –
    - (i) copying of sentences, paragraphs, computer files, research data or creative products that are the works of other persons, without appropriate acknowledgement;
    - (ii) closely paraphrasing sentences, paragraphs or themes without appropriate acknowledgement;
    - (iii) submitting all or parts of other students work;
    - (iv) self-plagiarism, i.e. submitting one's own previously-assessed or published work for assessment or publication elsewhere, without appropriate acknowledgement and/or approval;
    - (v) submission of work overly reliant on model answers or sample solutions provided in the learning resources.
  - (b) Cheating in any examination or test. For example, the use of notes written on the body, crib cards, mobile phones or sheets of paper, or the use of pre-programmed electronic devices and mobile phones without permission, or positioning answers so others can see and make use of them.
  - (c) Collusion: Where one or more individuals set out to deceive an assessor as to the responsibility for a submitted piece of assessment work. This deception may be overt or covert and includes the following but is not limited to:
    - (i) any assistance given by a current student to another student to be dishonest or fraudulent with academic assessment;
    - (ii) collaborative projects falsely representing the individual contributions of each person or presenting as one's own the work of others in an associated individual report. Students are required to complete assessment tasks individually and submit individual work unless the Course Guide advises that assessments are group assessments.
  - (d) Contract plagiarism: Submitting material obtained from essay depositories (paper mills) or from another person. Submitting an assignment where all or part has been purchased from a third party service. The offering or advertising by students for students to engage in fraudulent activities.
  - (e) Presenting data with respect to laboratory work, clinical placements, practica, field trips, or other work that has been copied or falsified.
  - (f) Presenting data obtained improperly, e.g. data collected without ethical consideration.
  - (g) Any misrepresentation in relation to academic achievement or records.
  - (h) Disclosing or assigning Intellectual Property in which the University can reasonably be said to have an interest outside the channels prescribed by the University's Intellectual Property Policy.
  - (i) Any breach of the Code of Responsible Research Conduct by a student.
4. Breaches of Academic Integrity will be managed in accordance with the Procedures for Managing Student Breaches of Academic Integrity and any determination of Academic Misconduct by a student may result in academic penalties being imposed.
5. Academic penalties include but are not limited to:
  - (a) capped mark for an assessment component of a course;
  - (b) remedial advice to be sought from a University Learning Consultant;
  - (c) requirement to attend an appropriate workshop or other type of learning activity, either online or face-to-face;
  - (d) repeat or resubmission of assessment or part thereof, and re-presentation for marking;
  - (e) repeat assessment, or part thereof, and present for marking with capped mark;
  - (f) reduced mark (nil for affected section of the assessment task);
  - (g) zero marks for the piece of assessment;
  - (h) fail grade for the course;
  - (i) period of suspension from the University;
  - (j) exclusion from the University.
6. The University may rescind a qualification already awarded to a student or former student, where Academic Misconduct of a serious nature is revealed post-graduation.
7. Failure of a student to participate in a remedial activity required by the University under these regulations may result in an escalation of penalties.
8. A record of a finding of Academic Misconduct may be maintained on the University's Academic Misconduct Register.
9. Notwithstanding Regulations 1 to 8, Academic Misconduct may also be addressed through the Student Disciplinary Procedures or other relevant disciplinary processes, including recourse to the civil and/or criminal justice systems.
10. Appeals may be made by students in accordance with the process described in the Student Disciplinary Regulations.

### Use of Information

#### Library Regulations

1. The University Library is provided for the purpose of study and research by the University's students and staff and is a shared resource for the Massey community. Every authorised user of the Library has both a right to use the Library without undue disturbance or distraction and a concomitant duty to respect the rights of others. Not all services are available to all categories of users. The Library subscribes to electronic resources whose licences stipulate how and by whom they may be used. If a licence is violated by anyone inside or outside the University, there may be serious consequences for the University, including suspension of all University access to the resource by the Publisher. Note: 'University Librarian' or delegate means the person performing the duties of the University Librarian. 'Library' means any room used

primarily for the purposes of the University Library. 'Library material' means any item, whether print, electronic or other format, provided by the Library for information, study or research.

#### Authorised Users – the Library's Physical Collections

2. The following persons shall be entitled to use the Library and the Library's print resources:
  - (a) academic, adjunct, and professional staff of the University;
  - (b) honorary and approved visiting academic staff
  - (c) currently enrolled students at the University;
  - (d) community members of University Council and University Ethics Committees;
  - (e) prospective Masters and PhD students (for a limited period)

- (f) staff and students of institutions that have a reciprocal agreement with Massey University Library, including Palmerston North-based scientific and technical staff of the Fonterra Research Centre, the local divisions of the Crown Research Institutes, and the Leather and Shoe Research Association; members of ULANZ (University Libraries of Australia and New Zealand);
- (g) retired members of staff;
- (h) external members, including Alumni, (fees may apply)
- (i) other persons at the discretion of the University Librarian.

#### Authorised Users – the Library’s Licenced Electronic Resources

3. The following persons shall be entitled to use the Library’s electronic resources, for the purpose of Massey University related study and research only:
  - (a) academic, adjunct, and professional staff of the University (as named in the University Calendar);
  - (b) honorary and approved visiting academic staff
  - (c) currently enrolled students at the University
  - (d) approved prospective Masters and PhD students (for a limited period)
  - (e) community members of the University Council and University Ethics Committees;
  - (f) Alumni (only for specified resources)

#### Hours of Opening

4. Hours of opening shall be posted at each Library and on the Library website. The hours may be varied at the discretion of the University Librarian.

#### Library Cards

5. All authorised users shall carry a current library card and produce it upon request. For most staff and students the library card is the University ID card.  
Where a library card is lost, the user shall report that loss to the University Librarian.

#### Borrowing

6. No library material shall be removed from the Library without the loan first being properly recorded.  
Library material shall be returned by the due date. The person in whose name material is borrowed is responsible for its safekeeping for the duration of the loan and for its return.

#### Loan Periods

7. Notices advising loan periods are displayed on the Library website.  
Library material on loan may be subject to recall at any time, including study breaks and summer vacation. Recalled material must be returned by the notified date. Failure to do so will incur a fine.
8. Loans may be renewed up to four times, provided that the items are not required by another user. After four renewals they must be returned for re-issue.

#### Lost or Damaged Material

9. Loss of, or damage to, library material shall be reported immediately to the Library. Borrowers shall be required to pay such costs as may be determined by the University Librarian for lost or damaged material, together with the prescribed administration fee. These costs shall not exceed the reasonable cost of restoring an equivalent item to the collection.  
Such material remains the property of the University, notwithstanding payment of the bill for its replacement, and must, if found, be returned. A refund in whole or part will be made (depending upon the condition of the items), but the associated administration fee may be retained. No refunds will be made if more than a year has elapsed since the original payment.

#### Fines and Sanctions

10. Borrowers who fail to return or renew any borrowed material may be liable to a fine unless they satisfy the University Librarian that circumstances have prevented them from returning the material at the appropriate time.  
The University Librarian is under no obligation to notify borrowers when material is overdue and fines may still be imposed when material is returned after the due date, even though no notice has been received by the borrower.
11. Fines shall be payable for each day or period (or part thereof) that the material is overdue until it has been returned to the Library. Notices advising fines charges are displayed on the Library website.
12. Where library material is not returned or a charge levied remains unpaid, borrowing privileges may be withheld.

#### Conduct of Persons Using the Library

13. No person shall create any unnecessary noise or disturbance or behave in a disruptive, disorderly or improper manner in the Library.
14. No person shall deliberately or carelessly mutilate, deface or misplace any library material or equipment.

15. Consumption of food and drink is permitted provided drinks are in spill-proof containers, and food does not interfere with the cleanliness of the building or the study environment of Library users. Cellphones, laptops and other devices should not be used in the Library in a manner which may disturb others.
16. No person shall distribute or post any notices except on public noticeboards in the Library, except with the prior authorisation of the University Librarian.
17. All persons shall, when so requested by the Library staff, present their bags and personal belongings for inspection.
18. All persons who use the Library shall identify themselves on request to a member of the Library staff.
19. No person shall reserve a place by leaving books or other articles on desks or seats for longer than 30 minutes. Material so left may be removed.
20. In the case of any person using the Library who behaves in a disorderly or improper manner or otherwise in breach of these Regulations, the University Librarian may require that person to withdraw from the Library.

#### Use of Subscribed Electronic Resources (e-journals, e-books and article databases)

21. Access to Library-licenced electronic resources is limited to currently-enrolled students and current members of Massey University staff or as otherwise stated in clause 3 or in the resource-specific permissions and restrictions available to view via the Library Catalogue.
22. Publishers, Massey University Library, and ITS staff can monitor the use of all Massey staff and students. If licences are breached by anyone inside or outside the University, publishers can suspend all University access to the resource in question. Licence violations traced back to specific users may result in the suspension of individual accounts or other disciplinary measures.
23. When accessing subscribed electronic resources the following must be observed:
  - (a) No person shall share their Massey University username and password with another person;
  - (b) No person shall systematically download, print, or copy substantial portions of electronic resources (e.g. entire journal issues or books);
  - (c) No person shall post content from electronic resources to any website or application.
  - (d) No person shall use content from electronic resources for commercial purposes (as resources are accessed under an educational-use licence).
  - (e) No person shall share content from electronic resources with people who are not Massey University staff or students.
  - (f) No person shall modify content or create derivative works except where licences allow.
  - (g) All users should seek advice from the Library before making multiple paper copies of an article from an electronic resource, or including a copy of an article in a course pack, study guide or online course.

#### Copyright

24. All persons who use a copying device in the Library shall observe the limits described in the Copyright Act 1994.

#### Theses and Research Papers

##### Research Papers and Dissertations

25. Research papers and dissertations may be deposited in the Library.  
A digital copy may be loaded on the University’s institutional repository, Massey Research Online, and may be made openly available with appropriate document security.

##### Master’s and Doctoral Theses

26. Subject to clause 16(c) and (d) of the Assessment and Examinations Regulations and unless otherwise approved by the Librarian, one digital copy of a thesis which has been accepted for the award of Doctoral or Master’s degree must be deposited in the Library. Such submissions must be in accordance with the Guide to the Presentation of Theses (available from the Library website), and should be in an approved format. Each copy must contain the name of the author and the title, and contain a short abstract.
27. Where theses are provided in a digital format that relies on non-standard technology, the Library provides no guarantee that formats will be shifted to ensure access in the future.
28. Copies of Master’s and Doctoral theses will be catalogued with metadata tags added and lodged permanently in the University’s digital research repository. Unless the Provost has approved an embargo, theses will be publicly accessible.
29. Theses may be embargoed for a period of time only if approved by the Provost. It is possible with digital theses to embargo part of the thesis (e.g. an appendix) while allowing the general text to be made available to

the public. A thesis that is embargoed will have the author, title, abstract and metadata publicly available through the University's institutional repository. If the full abstract contains information that needs to be covered by the embargo, students should supply a short, bland abstract for this purpose (e.g. a doctoral citation).

#### University Archives

30. The University Archives is a preservation and information unit. It serves as the official repository of all archival records of the University and as a collecting archive by collecting and preserving selected material for research purposes.
31. The resources of the Archives shall be available to the University community and the general public for the purposes of genuine research. Access to archival material may be restricted for preservation purposes, for reasons agreed to with donors of archival material, or in accordance with New Zealand legislation. The regulations governing access to and the use of archival sources of information are available on the Archives website and in the Archives reading room.
32. Archival material must be consulted in the Archives reading room; no items may be removed from the University Archives.
33. Hours of opening of the reading room are posted at the Archives and on the Archives website.
34. Entry to the University Archives and access in person to holdings is free of charge. Enquiries from people who cannot visit the Archives in person are free for the first hour.
35. The following clauses of the Library Regulations also apply to the Archives: 13, 14, 17, 18, 20 and 24.

#### Intellectual Property

The University operates the Intellectual Property Policy and students are subject to its provisions. Copies of this Policy are available at:

[www.massey.ac.nz/policies/](http://www.massey.ac.nz/policies/)

The general provisions are as follows:

The University claims legal and beneficial ownership of all New Intellectual Property Rights generated under the auspices of the University. However, Staff and Students retain ownership of copyright and other rights in certain works.

The Provost will take all reasonable steps to fairly and transparently allocate the benefits of the New Intellectual Property Rights to all parties with an interest.

All students are reminded of their responsibility to abide by the Intellectual Property Policy of the University, which they accept by enrolling at the University. In particular, staff and students are bound by obligations of confidentiality in relation to Intellectual Property Rights or other commercially-sensitive information they become aware of during their work or study at the University. In addition, staff and students may be bound by contractual obligations with third parties relating to their research or study.

#### Law of Copyright

The law of copyright allows the University under certain conditions to supply material to students in which copyright works or parts of copyright works are reproduced. Students are reminded of the obligations they must accept on enrolment that materials supplied to them are to be used only for research or private study and for no other purpose.

Massey University takes out a licence with Copyright Licensing New Zealand, Australasian Performing Right Association (APRA), Australasian Mechanical Copyright Owners Society (AMCO) Recorded Music New Zealand, Screenrights, and various electronic resources annually. These licences stipulate requirements for reproduction of copyright print works, music, broadcast sound and television works, and electronic resources for educational purposes only, and indemnifies the University and staff against any prosecution for any alleged breach of copyright while acting under the conditions of the licences. The licences do not lessen the obligation of students mentioned above.

#### Policy on Electronic Information Access Control

The purpose of this policy is to establish and operate effective access control methods across IT Systems, to reflect and mitigate the associated information security risks. The objective being to limit and manage access to data and information processing facilities based on business information security needs. It is intended that this policy be read in conjunction with the Data Management Policy. Both policies are available at:

[www.massey.ac.nz/policies/](http://www.massey.ac.nz/policies/)

## Assessment and Examination Regulations

### Assessment in Taught Courses

#### Eligibility for Assessment

1. Students who enrol for a course, pay their fees and do not withdraw will be awarded a grade in that course.
2. Some courses require compulsory attendance at classes, including laboratories, field trips, practical exercises, contact workshops or block courses. In such courses, course co-ordinators shall advise students in writing at the commencement of tuition that non-attendance, without exemption having been granted, constitutes failure in the course, regardless of the rest of the assessment procedure. In this case, students shall receive a DC for the course.
3. Course coordinators shall advise students at the commencement of tuition which elements of the assessed course work will contribute towards the final grade for the course, and which elements, if any, are compulsory. Unless otherwise stated all final exams are compulsory. Without exemption having been granted, failure to:
  - (a) attend a compulsory exam; or
  - (b) submit a compulsory assessment element; or
  - (c) complete assessment components totalling 51 percent or more of the total assessment; or
  - (d) submit an Aegrotat application; constitutes failure in the course, regardless of the rest of the assessment procedure, and will result in a DC for the course.

#### Key to Grading System

Pass Grades	Marks*
A+	90–100
A	85–89.99
A-	80–84.99
B+	75–79.99
B	70–74.99
B-	65–69.99
C+	60–64.99
C	55–59.99
C-	50–54.99

AG	Aegrotat Pass
P	Ungraded Pass
<b>Fail Grades</b>	
D	Fail 40–49.99
E	Low Fail 0–39.99
F	Ungraded Fail
DC	Did Not Complete
<b>Other Entries</b>	
WD	Withdrew without academic Penalty
NF	Not finalised
CT	Continuing enrolment

\*The University applies the Swedish Rounding system to final grades.

#### Re-marking of Assessed Course work

4. Students who seek to have an assessed course work component re-marked should consult with the course coordinator to clarify the feedback and/or the mark awarded. Re-marking of course work is offered in exceptional circumstances only; the onus is on the student to justify the request. Cases based on calculation errors within the original marking of the course work should be forwarded to the course coordinator. For coursework to be eligible for re-marking it must:
  - (a) be the original work submitted for assessment together with the marker's comments;
  - (b) normally contribute at least 15 percent towards the final grade for the course;
  - (c) must have been formally assessed only once previously;
  - (d) be submitted within one week from the date of release of the original assessment result.

As a result of a re-mark, the grade for the course work could remain unchanged, or be amended upwards or downwards.

Students in named Doctoral degrees must refer to the specific doctoral degree regulations for separate details of remarking provisions as the above regulations do not apply to named Doctoral students.

## Examinations in Taught Courses

### Time and Venue

1. (a) The examinations conducted by the University shall be held at the places and times specified in the examination timetables authorised by the Council.
- (b) College-administered examinations will be held in accordance with each College's timetable and process.

### Written Entry

2. (a) Students enrolled in an internal offering of a course are not required to give notice in writing of intention to present themselves for examination.
- (b) (i) Students enrolled in a distance or block mode offering of a course are required to elect the centre where they propose to sit their examinations (from the published list of centres) when completing the Enrolment Application.
- (ii) When subsequently advising a change of address, students must either confirm or amend the proposed examination centre.

### Examination Procedure

3. The examinations shall consist of such written, oral and practical examinations as the examiners may determine.
4. Candidates shall answer questions in the presence of a supervisor, who shall be appointed or approved by and in accordance with such detailed instructions as may be furnished by the Council.
5. Candidates must comply with the Examination Rules, copies of which are available from Assessment Services, Student Administration, and from the University website.
6. No candidate shall communicate with an examiner in regard to an examination until after grades are published, except through Assessment Services, Student Administration or the relevant College Office or their delegate.
7. Any candidate who has a permanent disability which could be considered to adversely affect performance under ordinary examination conditions must inform Assessment Services, Student Administration, at least six weeks prior to the commencement of the examination period and supply such documentary evidence as is required.
8. The examination scripts shall be transmitted to the examiners, who shall report the results for the course according to published dates.
9. Assessments (including major tests) and examination scripts not routinely returned to students are retained by academic departments for a period of 12 months.

### Re-marking of Examination Scripts

10. Any student may have their examination script re-marked by the examiners, followed by a recalculation of the final grade where appropriate. Application must be made via the student homepage; the following conditions must be met:
  - (a) The examination must have been formally assessed only once previously.
  - (b) No additional information from the student shall be placed before the examiners.
  - (c) Application must be made within four weeks from the release of the official results of examinations.
  - (d) Payment of the prescribed fee must accompany the application.
 As a result of a re-mark, the final grade could remain unchanged, or be amended upwards or downwards. The application fee will be refunded if there is a change of final grade.

### Withholding of Grades

11. If, in the event of overseas examination, the completion of marking and assessment falls outside the normal time period, provision of final grades for awards or Academic Standing will be deferred.
12. In exceptional circumstances, the University may withhold the award of a grade in accordance with the Procedures for Withholding of Grades (located in the Massey University Assessment Handbook) to allow the student to complete an outstanding component of the course regulations.

### Aegrotat/Impaired Performance Consideration

13. Subject to these Regulations, students may apply for Aegrotat/Impaired Performance consideration, in relation to assessment or examination activity and compulsory learning experiences where such activity is at a fixed time and place as defined in the Course Guide.

### Aegrotat/Impaired Performance Applications

- (a) May only be made for assessment or examination activity which is at a fixed time and place as defined in the Course Guide. All other assessments are not eligible for Aegrotat and Impaired Performance and must be referred to the course co-ordinator for consideration.
- (b) May not be made for an assessment or examination activity that constitutes less than 10% of the total assessment for a course. An alternative arrangement may be offered at the University's discretion.

- (c) May not be made on the grounds of long term illness, long term injury, or disability or learning impairment unless successful completion of the learning experience, assessment or examination activity is compromised by a temporary acute episode of impairment, or at the onset of a long term condition where diagnosis or injury occurred after the date for withdrawal with a refund in the course which is the subject of the application.
- (d) May not be made under these Regulations by Doctoral candidates or students enrolled in postgraduate theses, dissertations, research reports, or project courses. Students enrolled in postgraduate theses, dissertations, research reports, and project courses, are referred to the Carry Forward of Postgraduate Enrolment regulations; Doctoral candidates are referred to the Doctoral Journey Steam site.
- (e) Where made on the grounds of illness or injury must be accompanied by a certificate from a relevant approved health professional whereby the health professional must have assessed the student at the earliest practicable opportunity but no later than seven days from the date of the assessment or examination activity for which Aegrotat or Impaired Performance consideration is sought.
- (f) Where an application is made on the grounds of critical personal circumstances other than illness or injury it must be accompanied by corroborative evidence of the circumstances and a statutory declaration. The statutory declaration should be obtained no later than seven days from the date of the assessment or examination activity for which Aegrotat or Impaired Performance consideration is sought.
- (g) Must be made on a Aegrotat and Impaired Performance Application form completed by the student or (in circumstances where an illness, injury, or critical personal circumstance prevents them from doing so) by their authorised representative, and received along with accompanying documents as specified under clause 13(e) or (f) no later than 14 days after the assessment activity to which the Application relates, or as otherwise recommended by the Academic Standing Hearing Committee, together with the University fee prescribed (if any) for the Application.
- (h) A valid application will be submitted in the manner required, meet the conditions specified, and upon grounds that are acceptable to the University.
- (i) For the avoidance of doubt, an Aegrotat or Impaired Performance consideration will not result in a passing grade for a course where the student has not completed all compulsory elements excepting the subject(s) of the Application(s), or where achievement of the learning outcomes has not been attained, or where the Academic Board or its delegate cannot be satisfied on reasonable grounds that the student would otherwise have passed the course.

### Aegrotat Consideration

- (j) Subject to clauses 13(a) to (i) above, students who have been prevented by illness, injury, or critical personal circumstances from presenting themselves at any assessment or examination activity or compulsory learning experience, where such activity is at a fixed time and place as defined in the Course Guide, may apply for Aegrotat consideration.
- (k) Subject to clause 13(a) to (i) above, the Academic Board or its delegate, at its discretion may decide to award a grade or to require the student to complete the activity that is the subject of the application. The Academic Board or its delegate must have regard to the proportion and quality of the student's course work as completed, whether the learning outcomes have been attained, and any other concessions granted. Activities required to be undertaken in accordance with this regulation must be completed prior to the end of the enrolment period as specified by the end date for the course that is the subject of the application, unless the conditions of Regulation 13(m) are met.
- (l) Grades that may be awarded following an Aegrotat consideration are: a letter grade, AG pass, or DC. A passing letter grade (i.e. A+ to C-) may only be considered for award where 60% of the assessment value for a course has been completed and all compulsory elements required under the course description except the subject of the application, have been undertaken to a pass standard. An AG pass may only be considered for award where 40% of the assessment value for a course has been completed and all compulsory elements required under the course outline, except the subject of the application, have been undertaken to a pass standard.
- (m) Under limited circumstances a NF (Not Finalised) may be recorded until such time as an equivalent learning experience or assessment activity takes place, which shall be no later than the next available offering of a course. This option will apply where each compulsory

element, except the subject of the application, has been undertaken to a pass standard, and less than 60% of the total assessment of the course has been completed by the student.

- (n) May only be appealed once in writing to the Academic Board or its delegate (normally the Chief Examiner of the relevant College) within 4 weeks of the release of the final grade for the course.

#### Impaired Performance Consideration

- (o) Subject to clauses 13(a) to (i) above, students who consider that their performance in, or preparation for, any assessment or examination activity, where such activity is at a fixed time and place as defined in the Course Guide, has been impaired due to illness, injury, or Critical Personal Circumstances may apply for Impaired Performance consideration.
- (p) Subject to clause 13(a) to (i) above, the Academic Board or its delegate, at its discretion may decide to alter a mark, and if so the quantum of the alteration, or not to alter a mark. The Academic Board or its delegate must have regard to the student's course work as completed, whether performance in the assessment is atypical compared to other assessments completed, and in relation to the overall class performance for the assessment completed, and any other concessions granted.
- (q) May only be appealed once in writing to the Academic Board or its delegate (normally the Chief Examiner of the relevant College) within 4 weeks of the release of the final grade for the course.

#### Assignments and Examinations in Te Reo Māori

14. The Māori language is an official language (he reo whai mana) of Aotearoa. The University endeavours to recognise this and support the revitalisation and retention of Te Reo Māori with respect to Te Tiriti o Waitangi. Students who are proficient in Te Reo Māori and have the necessary level of competency are encouraged to write assignments, tests, examinations, and text accompanying creative works, in Te Reo Māori, subject to approval and where the subject is considered to be appropriate. Students wishing to pursue this option should make application to the Assessment Manager, Student Administration, by 31 January for Semester One and Double Semester courses and by 16 June for Semester Two and Summer School courses.

Doctoral theses may be submitted in Te Reo Māori, English, or in both languages. The oral examination may also be conducted in Te Reo Māori. Candidates intending to submit their doctoral thesis in Te Reo Māori, or in a substantial combination of English and Te Reo Māori, must indicate this intention within two months of provisional registration. They should supply a letter from the DVC (Māori and Pasifika) or a staff member fluent in Te Reo Māori, affirming that they have the required level of competency in Te Reo Māori, will be working in an area where the language is considered to be appropriate, and that supervisory expertise is available in the Māori language.

#### Examination – Research Reports, Dissertations, Master's and Doctoral Theses

##### Research Reports and Dissertations

15. (a) All research reports and dissertations (up to 60 credits) shall be graded by two examiners, at least one of whom shall be independent of the research work, with external moderation undertaken in accordance with College policies.
- (b) At the discretion of the examiner(s), a candidate may be examined orally on the subject of the research report or dissertation.

- (c) At the discretion of the chief examiner, a failed research report or dissertation may be revised and resubmitted once and may be subject to re-examination. Following successful re-examination the candidate will not be eligible for Honours or Distinction.

#### Master's and Doctoral Theses

##### 16. General

- (a) The use of Te Reo in a thesis will follow the guidelines set out in Massey University's Māori Language Policy: Matua Reo Kaupapa.
- (b) Theses shall, unless the Librarian otherwise approves, conform with the format requirements as detailed in the current library handbook a Guide to the Presentation of Theses.
- (c) Master's and Doctoral Theses shall be submitted in digital form.
- (d) University records of the examiner's assessment of the thesis shall be retained and disposed of in accordance with the University General Disposal Authority as required under the Public Records Act 2005. The student academic transcript shall be archived in accordance with the University General Disposal Authority as required under the Public Records Act 2005.

##### 17. Master's Theses

- (a) A candidate whose examination includes the presentation of a thesis (≥90 credits) shall have an approved supervisor(s) before commencing work on the research. A thesis may comprise a creative work and exegesis.
- (b) Before the thesis is forwarded to the examiners, the candidate, Supervisor and Head of Academic Unit shall certify that the thesis embodies original work carried out by the candidate under direct supervision.
- (c) All Master's theses shall be graded by two examiners who are independent of the research work and one of whom is external to the University.
- (d) At the discretion of the examiner(s), a candidate may be examined orally on the subject of the Master's thesis.
- (e) At the discretion of the chief examiner, a failed Master's thesis may be revised and re-submitted once and may be subject to re-examination. Following successful re-examination the candidate will not be eligible for Honours or Distinction.
- (f) For the purposes of the assessment of the Master's degree thesis a candidate shall be required to submit their thesis online or as otherwise agreed by the Chief Examiner.
- (g) For Master's theses, if the thesis has been accepted with no emendations or amendments, the student has finished. If emendations or amendments are required once the final version is approved, the supervisor shall be responsible for presenting a final digital copy of the thesis.

##### 18. Doctoral Theses

- (a) For the purposes of the assessment of the Doctoral degree thesis a candidate shall be required to submit a PDF digital copy of their thesis via the student portal. For theses with a creative art component, the format will be as agreed by the Doctoral Research Committee.
- (b) As soon as the assessment has been completed, and the final version approved, in the case of successful candidates, the candidate or the candidate's supervisor shall be responsible for submission of one digital copy of the final approved thesis, as accepted under clause 16(c), and a citation, via the Library portal.

## Student Complaints and Grievance Procedures

#### Purpose

Massey University's Student Grievance Procedures are for all domestic and international students and cover programmes including not-for-credit, undergraduate and postgraduate programmes and related services. They are designed to ensure students receive a quality education and that relations between staff and students are equitable. The Procedures can be accessed from the University's Policy Guide at [www.massey.ac.nz/policies/](http://www.massey.ac.nz/policies/)

#### Objective

To foster the fair, speedy, and informal resolution of disputes at Massey University, and an academic culture which will prevent such grievances.

#### Definition

A Grievance means any grievance, which a student (whether or not that person has any other role within the university) has against the University and/or a staff member because of a claim that he/she has sustained academic disadvantage. This includes claims which are sometimes referred to as Student Complaints.

Such grievances may include but are not confined to:

- The unfair assessment of course work not otherwise governed by University assessment and examination regulations.
- An unfair refusal or failure of the staff member to make him/herself available to assist a student with difficulties regarding his/her course work.
- Unreasonable delays in the assessment of course work.
- Inadequate course materials.
- Inadequate teaching.
- Deficient performance of associated administrative services.

#### International Students

- International students must follow these procedures if they have a Grievance with the University. However, should International Students find that their Grievance is not resolved by the University, students can elect to use the Student Complaints Scheme set up by the Government to resolve contractual and financial disputes. Further information is available at <http://www.istudent.org.nz/>

## Jurisdiction

The Student Grievance Procedures are distinct from, and may not be used with respect to, any questions relating to the following rules, regulations, statutes or procedures of the University including:

- Cases of hardship – Vice-Chancellor’s Powers.
- Disciplinary procedures.
- Harassment procedures.
- examination regulations.
- Registration regulations.
- Student fees.

## Principles of Application

At all times the procedures will be carried out according to the following principles:

### Protection of Persons

When a Grievance is taken to the University Grievance Committee all persons who may be affected shall have their rights protected. Persons who may need protection are:

1. The Complainant(s).
2. The Subject(s) of Complaint (Respondents).
3. Heads of Departments, Institutes and Schools.
4. Pro Vice-Chancellors (or their nominees) of Colleges.
5. Provost, Deputy Vice-Chancellors (or their nominees).
6. The University.
7. Student representatives.
8. Staff representatives.
9. The Chairperson of the Grievance Committee.

### Statutory Protection

The affected persons are entitled to the protection provided by:

- (a) The Official Information Act 1982
- (b) The Local Government Official Information and Meetings Act 1987
- (c) The Employment Relations Act 2000
- (d) The Human Rights Act 1993
- (e) The Privacy Act 2020
- (f) Consumer Guarantees Act 1993
- (g) The Protected Disclosures Act 2000
- (h) The Education (Pastoral Care of Tertiary International Learners) Code of Practice 2021
- (i) Any other relevant statutes.

### Due Dispatch

The rights of all affected persons are enhanced by a prompt investigation and resolution of the Grievance.

### Due Process

The procedures will follow the principles of natural justice, namely:

1. Notice of any Grievance shall be given to the party/parties as soon as reasonably practicable (subject to consistency with “Time Limits” below).
2. Any persons directly adversely affected by a Grievance shall be adequately informed of the Grievance arising and be given an opportunity to respond.
3. The process for resolving the Grievance will be conducted fairly.
4. The avoidance of bias or conflict of interest.

### Time Limits

A grievance should be brought to the attention of the University within one year of the occurrence or circumstances to which the grievance refers (Note that assessments (including major tests) and examination scripts not routinely returned to students should be retained by academic departments for a period of 12 months). Thereafter a grievance may be considered only with the consent of the Provost. In deciding whether a grievance will be considered, the Provost will consider:

1. The seriousness of the alleged grievance;
2. The availability of relevant information including witnesses and documents;
3. The prejudice to any other parties; and
4. Any reasons for the delay in bringing the grievance to the attention of the University.

## Procedures

- Step 1 The student(s) and/or their representative approaches the staff member concerned. If the approach is in writing the staff member should acknowledge the receipt of the complaint within 7 days. (Mediation preferred forum for resolution.) Students may approach their Students Association representative for support, advice and advocacy.

↕↔ University Disputes Advisor for referral to a Mediator agreed upon by the Parties.

- Step 2 If no resolution, or Step 1 is inappropriate, complainant approaches Head of Department/School/Institute/Section or, where the Head is the respondent or there is no settlement of the Grievance, the Pro Vice-Chancellor of the College. (Mediation preferred forum for resolution.)

↕↔ University Disputes Advisor

- Step 3 If no resolution, complainant approaches Provost or their nominee who may, after consultation with the University Disputes Advisor, initiate the convening of the University Grievance Committee.

↓

- Step 4 University Grievance Committee decision, which is final and binding.

1. Students, whenever practicable, should in the first instance approach the University staff member concerned about any Grievance.
2. If the Grievance is unresolved with the staff member concerned, the student may approach the relevant Head of Department/School/Institute/Section, or where this is inappropriate, the relevant Pro Vice-Chancellor. It is anticipated that the vast majority of Grievances will be resolved at this stage. The preferred forum for grievance resolution is mediation.
3. In the absence of extraordinary circumstances, the presence of which will be determined (if necessary) by the Provost, a complaint relating solely to the grade of a piece of course work will not proceed beyond the relevant Pro Vice-Chancellor.
4. The following may at any time request through the University Disputes Advisor the assistance of a University Mediator:
  - (a) complainant(s);
  - (b) staff member affected; or
  - (c) Head of Department/School/Institute/Section; or
  - (d) relevant Pro Vice-Chancellor (or their nominee).
5. If a Grievance is unresolved at the Pro Vice-Chancellor level, it may be referred to the Provost. The Provost or their nominee will review the case, determine that all reasonable steps for resolution have been addressed, and may then either determine an outcome, or convene the University Grievance Committee. That step will not be taken unless and until the University Disputes Advisor has established that all reasonable steps to resolve the problem consensually have been attempted and exhausted.
6. The University Grievance Committee will have the responsibility of enquiring into the subject matter of the grievance and determining the outcome of the complaint.
 

It may:

  - (a) conduct that inquiry (including the hearing of the respective cases of the student complainant and the staff member affected) in such manner as, consistent with the principles of natural justice, it thinks fit.
  - (b) receive such material relevant to the subject of the inquiry as it thinks fit;
  - (c) meet with the parties and any other persons considered able to assist the inquiry.
7. The University Grievance Committee may meet with the parties separately or together. However, any material relevant to the complaint received from one party in the absence of the other must be either:
  - (a) disclosed to the other party and an opportunity to comment given; or
  - (b) excluded from consideration.
8. Each party will have the right to have a support person present at any meeting with the University Grievance Committee.
9. The University Grievance Committee may delegate to and authorise its chairperson to carry out such aspects of its investigatory functions as it thinks fit.
10. The University Grievance Committee will, following the inquiry, prepare a report which will be issued to the parties and contain its decision on the complaint.

11. The decision of the University Grievance Committee will be final and binding. There will be no right of further appeal or review.
12. The proceedings of the University Grievance Committee shall be private, confidential and privileged.
13. Any student with a Grievance should try and keep notes of details, including times, dates, places and keep copies of any documentation related to the Grievance.

### Notes to Procedures

1. Students may in the first instance approach their Student Association representative for support, advice and advocacy. Students may either act alone or be accompanied by a representative through all steps of these Grievance procedures.
2. The complainant should also specify the remedies sought to resolve the submitted Grievance.
  - (a) Outcomes arising from the procedures prior to the convening of the University Grievance Committee will be such as the parties may agree consensually.
 

These may include but are not confined to:

    - (i) a written or verbal apology;
    - (ii) opportunity to receive a second opinion on assessed work;
    - (iii) substitution of a higher mark;
    - (iv) opportunity to resubmit an assignment;
    - (v) initiation of a student feedback mechanism;
    - (vi) extensions of deadlines for assignment;
    - (vii) opportunity to re-sit an examination (subject to University regulations).
  - (b) If the Grievance comes for resolution to the University Grievance Committee it may make such decisions and give such directions as it thinks fit.
3. If not resolved at a lower level, the Grievance must be presented in writing to the Provost. The documentation provided to the University Grievance Committee should contain the following information:
  - (a) the complainant's full home address, contact phone number and student ID number;
  - (b) where appropriate the title and number of the course, the name of the department or the name of the College in which the Grievance concerns;
  - (c) the nature of the Grievance including the specific academic disadvantage claimed;
  - (d) as many details regarding examples and instances of the Grievance as possible (e.g. dates, times);

- (e) any other relevant information.
4. On receipt of the written complaint, the University Grievance Committee shall within 14 days:
  - (a) acknowledge the receipt of the complaint;
  - (b) inform the parties of their right to access a representative or other support person if they have not already done so;
  - (c) provide all relevant written documentation to the staff member(s) concerned for written response.

### University Grievance Committee

#### Membership

1. The University Grievance Committee consists of:
  - (a) an independent chairperson appointed by the Vice-Chancellor in accordance with Note (i), who shall have both a deliberative and casting vote;
  - (b) one staff member nominated by the Provost;
  - (c) one member nominated by the appropriate student organisation.

#### Note:

- (i) The independent chairperson shall in any specific case be selected from a panel of not less than three persons (who shall not be current students or staff members) of appropriate standing, qualifications and experience, appointed by the Vice-Chancellor.
- (ii) Members of this panel shall be appointed annually by the Vice-Chancellor, upon the recommendation of the Chair of Academic Board following consultation. Members shall be eligible for reappointment. The independent chairpersons shall sit in rotation.
- (iii) Members of the University Grievance Committee shall operate independently and impartially and not as representatives of those responsible for appointing, nominating or electing them.

#### Powers

2. The Committee, subject to compliance with the principles of natural justice, shall:
  - (a) (i) determine the conduct of its own procedures; and  
(ii) receive such information, as it considers relevant to the Grievance.
  - (b) receive and investigate Grievances at all Massey University campuses and through all modes of delivery of academic programmes;
  - (c) make decisions relating to Grievances;
  - (d) report annually to the Vice-Chancellor through Academic Board on the nature of Grievances and policy issues that have risen during the year.

# ENROLMENT AT MASSEY UNIVERSITY | KIA WHAKAURU

Planning a Programme of Study .....	27	Certificate of Proficiency Regulations .....	30
Semesters .....	27	Conferment and Graduation Regulations.....	30
The Credits System.....	27	University Fee Regulations.....	30
Enrolment Regulations.....	27		

## Planning a Programme of Study

University programmes exist inside a regulatory framework with all degrees, diplomas and certificates having a set structure. Some programmes are tightly circumscribed in terms of the courses that must be included, while others offer a great deal of flexibility.

The University has a detailed set of Regulations for each qualification that specify the number of credits allotted to courses that must be selected.

Typically there is a core area of specialisation (the major, minor, subject, or the endorsement) as well as a number of associated courses that may be taken from other areas. When enrolling in a programme of study, students must keep in mind not only the number of credits but also the combination of credits and courses necessary to complete the requirements for their particular qualification.

There may also be requirements to be observed at a course level, namely prerequisites (courses that must be completed to a defined standard before enrolment in another course is confirmed), corequisites (courses that must be attempted in the same semester as another course unless the corequisite course has previously been passed) and restrictions (where courses are similar in content and therefore students may not count both courses to a qualification). Professional programmes will also have required practical components that must be met.

The University Calendar remains the definitive document for all Qualification Regulations.

Students are encouraged to seek advice to ensure they plan their programme of study well.

## Semesters

The Massey University academic year is divided into distinct enrolment periods, which are Semester One, Semester Two and Summer School. Semesters One and Two consist of twelve teaching weeks and conclude with their own examination periods. In addition, a longer enrolment period, the Double Semester, parallels Semesters One and Two with an examination period at the end of Semester Two. Summer School comprises a condensed study period – November to February, including an examination period – and includes a limited number of offerings. Planning for enrolment in summer school courses should take into account workload considerations where students intend to enrol in more than one course.

A winter break of three weeks is normally scheduled between the Semester One examination period and the start of Semester Two. Within Semester One, a two-week mid-semester study period is linked to the Easter holiday break. Within Semester Two, there is a two-week mid-semester study period. Some programmes and courses do not conform to these standard semester periods and therefore have different start and end dates. Professional programmes in particular may have a longer instructional year to accommodate practical requirements.

## The Credits System

Every course has a credit value that indicates its contribution to the qualification enrolled for (or to any other qualification to which that course can contribute). These values have been derived on the basis of an equivalent full-time year for a degree being 120 credits.

The credit value also gives an indication of the total amount of time that a student might reasonably expect to have to spend on each course in order to satisfactorily complete the assessment requirements (including lecturer and tutor contact hours, workshops and tutorials, tests and assignments, supervised practical placements, study time). Converted into a number of hours per week, this is referred to as the effective weekly hours for the course.

The total hours required for the course can be calculated at 10 hours per credit, or 150 effective hours for a 15 credit course. The weekly hours for a course will depend on the number of weeks over which it is intended to spread the study programme during the year. For example, over 15 weeks (the number per semester) an average total commitment of 10 effective hours per week is required for a 15 credit course. The Course Guide provided for each course should indicate the effective weekly hours and how these might typically be spent.

All undergraduate and taught postgraduate courses (with the exception of a small number of courses) have a 15-credit value or multiples thereof.

## Enrolment Regulations

- Enrolment at Massey University requires completion of admission to the University, admission to a specific qualification, and enrolment in a programme.
- Every applicant must complete enrolment requirements which include submission of an Admission Application, written acceptance of any Offer of Place in a qualification (unless waived in writing by the University), submission of an Enrolment Application and acceptance of any Offer of Enrolment. Applicants returning to enrol in the same qualification submit an Enrolment Application and accept an Offer of Enrolment each academic year.
- Applicants who wish to study full-time ought to apply to enrol for 120 credits of study in an academic year.
- Massey University has an on-line system for admission and enrolment. A paper-based enrolment system will be used which comprises the same steps as the on-line system when the on-line system is inoperative for any reason or in other special circumstances as permitted by the Deputy Vice-Chancellor, Students and Global Engagement.

### Due Date for Admission and Enrolment Applications

- Generally, all applicants are expected to submit their Applications so that they are received by the University on or before the due date. For most students the due dates for 2022 are as listed below:

#### Due dates for admission applications

For Qualifications starting in	New and Returning Applicants applying for a new qualification
Semester One/ Double Semester	31 October 2021 (New International students) 4 February 2022 (Domestic and returning International students)
Semester Two	1 May 2022 (New International Students) 23 June 2022 (International and Domestic students)
Summer School	31 October 2022 (International and Domestic students)

**Due date for enrolment into courses**

For Courses in	All Applicants
Semester One/ Double Semester	18 February 2022 (Domestic and International students)
Semester Two	13 July 2022 (Domestic and International students)
Summer School	9 November 2022

- Some qualifications require applicants to apply in advance of the standard due dates for selection and some courses do not follow standard semester dates. The relevant enrolment dates for these qualifications and/or courses are available from enrolment material on the University website or by contacting the University.
- Doctoral candidates need to submit Admission Applications to study a doctoral programme, accept any Offer of Place in a doctoral programme, submit their Enrolment Applications and accept any Offer of Enrolment, within three weeks of the commencement date specified by the Doctoral Research Committee. Candidates will need to enrol for each successive year by submitting their Enrolment Applications, accepting any Offer of Enrolment and receive a Confirmation of Enrolment. Details of fees will be available each year before enrolment is completed.

**Final Dates**

- Addition or Substitution of Course(s):
  - Enrolled students may, at the University’s discretion, be permitted to add or substitute courses. If students also wish to apply for admission to a graduate or postgraduate level qualification they must apply by the dates given in Enrolment Regulation 5 or, for Doctoral students, by the dates outlined on the relevant programme webpage;
  - Except where stated otherwise in programme material, any applications for adding or substituting courses must be received by the University no later than the dates below, which are the first Friday of the semester for internal courses, or Wednesday prior to semester start for distance and block courses;
  - For information about withdrawal from courses see Enrolment Regulations 28 to 34. Dates for applying to add or substitute courses in 2021 are:

For courses in	Adding a course after the final date
Semester One /Double Semester	4 March 2022
Semester Two	22 July 2022
Summer School	16 November 2022

Note: Some courses do not follow standard semester dates and students seeking to add courses should refer to programme material, the University website or contact the University for due dates.

**Limitation of Student Numbers**

- The University Council (by its delegate) may limit the number of students enrolled in any programme each year because of insufficiency of staff, accommodation or equipment. Accordingly, where the number of applicants for the programme exceeds the number of places available, then Massey University will select from the applicants those students who may be enrolled in the programme each year.

**Late Enrolment**

- Applications for enrolment received after the final date are deemed to be Late Enrolments. Students may only apply via Special Permission with supporting documentation. The University may, at its discretion, consider approving a late enrolment.
- Late Enrolment applications will usually be considered when they are received no later than four weeks after the final date.

**Completion of Enrolment**

- After acceptance of the Offer of Place in a qualification, students are required to select courses for their programme(s) by submitting an Enrolment Application. Even when that selection is made the University may not permit the student to study the course(s) selected but the University may require the student to select course(s) that they can study.
- The University assesses the Enrolment Application in relation to its regulations, capacity to provide tuition and its other requirements. The University may approve only those parts of the application that can be assessed as complying with course regulations and otherwise meeting its requirements.
- Each applicant will be informed of the outcome of his or her Enrolment Application by either a written Offer of Enrolment or, when the applicant’s selected courses do not meet University requirements, a response in writing. The Offer of Enrolment will advise applicants of the programme(s), qualification(s) and course(s) (if any) that they may study, the terms of their agreement with Massey University and provide instructions on how to respond. Applicants are required to submit to the

University acceptance of the Offer of Enrolment, and the University must receive it, by the due dates specified in the Offer of Enrolment in the manner required, unless this requirement is waived or varied by written notice by the University. On accepting the Offer of Enrolment, students agree to pay the tuition fees and non-tuition fees and agree to the terms of their enrolment.

- The Offer of Enrolment may be subject to conditions which conditions are inserted for the sole benefit of the University and may be waived by the University by written notice. When the University receives the acceptance of the Offer of Enrolment, the University and the student have a contractual relationship. When the Offer of Enrolment is subject to conditions those conditions must be satisfied or waived by the University, by written notice, or the contract is at an end.
- A Confirmation of Enrolment is issued by the University to the student when the Offer of Enrolment is accepted and is unconditional or when there are no conditions to be satisfied. Within a defined period following the acceptance of the Offer of Enrolment by the student, and the issue of a Confirmation of Enrolment by the University, the student may propose changes to the programme (e.g. by adding or substituting courses) by submitting a further Enrolment Application. If the University agrees to the changes proposed by the student, any such changes are recorded and a new Offer of Enrolment is generated, which offer of enrolment must be accepted and a new Confirmation of Enrolment is issued.
- The dates for Students to add or substitute courses are given in Enrolment Regulation 5. The dates and manner for students to withdraw from courses are given in Enrolment Regulations 28–34. When a student has received a Confirmation of Enrolment but then does not pay tuition fees or non-tuition fees, or does not meet the requisites for one or more courses, the University may, in writing, cancel that student’s enrolment in a course or programme at the University. Cancellation of enrolment means the person is still liable to pay the University tuition fees and non-tuition fees unless cancellation is during the period students are eligible for a tuition fees refund. If the University cancels a person’s enrolment in all courses in an academic year, during the period students are eligible for a tuition fees refund, a withdrawal fee is payable.

**Mixed Delivery Modes**

- Applicants may apply to be enrolled simultaneously in courses offered in different delivery modes. Such applications are subject to the usual provisions of the General Regulations governing Admission, Enrolment and Examinations.
- In exceptional circumstances applicants may apply to be enrolled in the internal mode while not attending regularly scheduled classes on campus. All such applications are subject to approval of Academic Board (through the Pro Vice-Chancellor of the relevant College). In giving approval, the Pro Vice-Chancellor shall ascertain that appropriate arrangements have been made for tuition or supervision and for the provision of services required to enable the applicant to undertake the study with a reasonable likelihood of success. Except as set out in this Regulation, students must abide by the conditions applying to the particular mode in which each course is offered.

**Concurrent Programmes**

- Students normally enrol for a single programme of study. With the approval of Academic Board (through the Pro Vice-Chancellor of the relevant College), it is possible to enrol concurrently in courses for credit to a second programme of study.

**Concurrent Enrolment**

- Students who wish to be concurrently enrolled at Massey University and another New Zealand University must obtain prior approval of both institutions. Applications must be made in writing to the Pro Vice-Chancellor’s office of the relevant College as well as the other institution.
- Normally enrolment is for credit to a Massey University qualification. Students intending to complete a qualification from another New Zealand tertiary institution may apply to be enrolled in courses taught by distance at Massey University for credit to the other institution’s qualification.
- Permission to credit specific courses to the qualification must be obtained from the institution offering the qualification. This permission can be sought at any time prior to enrolment. Enrolment by Massey University does not mean that courses will be credited by another institution to its qualifications.

**Approval**

- The personal programme of every applicant shall require the approval of the Council of the University or its delegate. This is exercised as part of the administrative procedures at enrolment. Approval will normally be granted for study in accordance with the programme regulations. Students’ progress to completion will be assessed under the current year of regulations unless a transition pathway for the student is defined. For general provisions affecting their programme, students are referred

to the General Regulations governing Matriculation, Enrolment and Examinations.

25. Students who propose to change from one programme to another ought to contact the University to determine which of the courses they have passed may be credited to the new programme before they submit Admission Applications or Enrolment Applications. Students applying for loans and/or allowances should contact StudyLink to check their eligibility for assistance.
26. Enrolment in a programme at Massey University requires:
  - (a) approval of admission to the University and to the qualification by the Council of the University (or its delegate) (this includes applicants not being of bad character, no misconduct or breach of discipline, and sufficient progress in study);
  - (b) assurance from the relevant academic unit that the financial, human and physical resources relevant to the proposed programme are available; and
  - (c) enrolment in courses that meet the academic requirements of the qualification.

#### Withdrawal

27. Withdrawals may only be notified by students using the online enrolment facility accessible from the University website or, as an exception, by written notification of withdrawal received by the University. Doctoral students must advise the Graduate Research School of their intention to withdraw on the appropriate form. The date of withdrawal is deemed to be the date on which the notice of withdrawal is received by the University. All distance students are required to return their study materials to the University.
28. When the University receives written notification of withdrawal from course(s), comprising part but not all of a student's programme(s) for the year, before 17 percent of the study period has elapsed for the courses concerned (as defined by the course start and end dates), the student will be eligible to receive a refund of tuition fees paid for the courses concerned and no academic penalty shall apply. Students will not receive a refund of non-tuition fees paid, and are still required to pay non-tuition fees, but non-tuition fees may be reduced subject to the number of credits remaining in the student's programme.
29. When the University receives written notification of withdrawal from course(s), comprising all of a student's programme(s) for the year, before 17 percent of the study period has elapsed for all course(s) (measured from course start date), the student will be eligible to receive a refund of tuition fees and non-tuition fees paid and no academic penalty shall apply. A withdrawal fee remains payable. Should the student be eligible for a refund, where possible the withdrawal fee will be deducted.
30. When the University receives written notification of withdrawal from a course(s) after 17 percent of the study period has elapsed but before 75 percent of the study period has elapsed for the course(s) concerned (as defined by the course start and end dates) the student shall be withdrawn without academic penalty but will remain liable to pay all University prescribed fees and will not be entitled to a refund.
31. When the University receives written notification of withdrawal from a course(s) after 75 percent of the study period has elapsed for the course(s) concerned (as defined by the course start and end dates) the student shall be withdrawn with academic penalty and remain liable to pay all University prescribed fees and will not be entitled to a refund.
32. Students who do not attend a course, where they have accepted an Offer of Enrolment and where they have received a Confirmation of Enrolment, will be liable to pay all fees prescribed by the University and are not entitled to any tuition fee refund for that course unless the correct withdrawal procedures are followed and unless the University receives notice of withdrawal before 17 percent of the study period has elapsed (as defined by the course start and end dates).
33. Withdrawal after 75 percent of the study period is termed 'withdrawal with academic failure'. The academic record will therefore show DC (Did Not Complete). Repeated DC or academic failure in the same course may result in the University refusing to enrol that person in the course again. Refusal is notified to the student concerned in writing after first giving the Applicant an opportunity to be heard. Students remain eligible to apply to re-enrol in the future.

#### Fee Appeals

34. The University recognises that Exceptional Personal Circumstances may arise that make it impossible for a student to continue with his or her study. Where such circumstances arise after the date by which students may withdraw from study with a refund, the University may, at its sole discretion, consider alternative arrangements.
35. Students are eligible to submit a Fee Appeal who have experienced exceptional personal circumstances, and have already withdrawn from the course(s) in question prior to the examination. Appeals must be received

by the University within six weeks of withdrawal from the course, or as otherwise recommended by the Academic Standing Hearings Committee. Where relevant, the Fee Appeal application must be supported by documented evidence of the exceptional circumstances. Whether a refund or partial refund is granted is determined by the University following the Fee Appeal process.

#### Carry Forward of Postgraduate Enrolment

36. Postgraduate students enrolled in theses, dissertations, research reports, or project courses (other than for Doctoral degrees), may apply to carry forward their enrolment into an enrolment period following the enrolment period where the student paid tuition fees in order to complete the requirements of a thesis, dissertation, research report, or project course, where one of the following conditions applies:
  - (a) exceptional personal circumstances arise that prevent a student from completing the requirements of a thesis, dissertation, research report, or project course within the relevant enrolment period;
  - (b) a thesis, dissertation, research report, or project course is being undertaken on a part-time basis and completion within the relevant enrolment period is not possible. The part-time classification must be established at enrolment;
  - (c) the start date of the thesis, dissertation, research report, or project course has been approved to be different from the start date of the first or only such course. This does not apply to thesis courses of 90 or 120 credits; or
  - (d) unanticipated problems with the conduct of research or with supervision or support which are beyond the control of the student.
37. Applications for Carry Forward of Postgraduate Enrolment with exceptional personal circumstances are subject to approval by the Pro Vice-Chancellor. No further tuition fees are due for the enrolment period in which Postgraduate Enrolment is carried forward. An application fee is payable at the time that the application is made. An application will only be approved where the Pro Vice-Chancellor is satisfied the student has been making satisfactory progress.

#### Enrolment of School Students

38. Students who are enrolled for full-time instruction in a secondary school may in conjunction with their school be permitted to study concurrently at the University. All such enrolments must be approved by the secondary school involved. The following conditions apply:
  - (a) Students may be permitted to enrol in courses in accordance with the Certificate of Proficiency - Secondary Tertiary Alignment Resource regulations.
  - (b) Students allowed to enrol in courses under Regulation 38(a) must matriculate before they are formally admitted to a university. When they have matriculated they may apply to credit to a qualification courses passed under this Regulation.

#### Enrolment of International Students

39. Massey University has agreed to observe and be bound by the Education (Pastoral Care of International Students) Code of Practice 2021 published by the New Zealand Qualifications Authority. Copies of the Code are available on request or from the New Zealand Qualifications Authority website at <http://www.nzqa.govt.nz/providers-partners/caring-for-international-students/>
40. International students must have compliant insurance cover whilst studying in New Zealand in accordance with the Pastoral Care of International Students Code of Practice.
41. Prior to enrolment, international students must hold a valid visa which entitles them to study at Massey University.

#### Persons Resident Outside New Zealand Enrolling for Distance Study

42. New Zealand citizens and holders of New Zealand resident class visas residing outside New Zealand are entitled to pay domestic fees provided they are enrolled:
  - (a) in a course(s) leading to the award of a recognised qualification offered by a New Zealand Tertiary Education Organisation (TEO); and
  - (b) at a New Zealand campus of a New Zealand TEO\*

Additional non-tuition fees may apply  
\*Note: Distance is recognised as a New Zealand campus
43. Australian citizens living outside New Zealand who are enrolled for tuition must pay fees at the rate for international students.
44. Distance enrolment may be permitted for applicants living outside New Zealand who are not New Zealand citizens. The process for setting tuition fees due for such enrolments are the same as for other international full fee-paying students studying at Massey University. Enrolment in international off-shore distance programmes may be subject to special terms and conditions as determined and approved by Academic Board. Particular programmes of study and courses may have an attendance or contact workshop requirement which has a face-to-face dimension.

Approval of offshore distance education initiatives are subject to the requirements of the University's Policy relating to the International Delivery of Qualifications.

**Note:** Enrolment by distance education will not normally be approved for citizens of the People's Republic of China in order to ensure degree recognition. Any exception requires approval by the Pro Vice-Chancellor (or nominee) of the College responsible for the student's programme of study.

#### International Students Resident in New Zealand Enrolling for Distance Study

45. Restricted distance enrolment may be permitted for students residing in New Zealand who are not citizens or permanent residents of New Zealand. Such students will be required to hold an appropriate visa that permits study and will pay international student fees.

**Note:** Enrolment by distance education for citizens of the People's Republic of China requires additional completion of a declaration by students to confirm they are fully informed of issues related to degree recognition. Approval is granted by the Pro Vice-Chancellor (or delegate) of the College responsible for the programme.

#### Maximum Student Workload

46. Subject to the student's Academic Standing:

- (a) The maximum credits students may take in Semester One, Semester Two and the Double Semester shall not exceed 150 credits. Students shall not enrol in more than 75 credits per semester. Students shall not enrol in more than 60 credits for Summer School. Students shall not enrol in more than 180 credits in an academic year;
- (b) Students will not be permitted to enrol in more than 120 credits in Semester One, Semester Two and the Double Semester, more than 60 credits per semester, more than 30 credits for Summer School or more than 150 credits in an academic year unless they have passed 100% of credits in their most recent enrolment period having achieved at least a B grade average across the courses in which they were enrolled.
- (c) Credits for double semester courses are assigned in equal parts per semester; and
- (d) Applicants shall not enrol in the same year for more than two distinct programmes of study for degrees and diplomas.
- (e) The Maximum Student Workload Regulations apply to undergraduate and postgraduate students.

## Certificate of Proficiency Regulations

1. An applicant who intends to register for tuition without fulfilling the requirements of a full programme leading to a Massey University qualification may be permitted to enrol for no more than 30 credits per year on a Certificate of Proficiency basis, unless applicants are International students attending the University under a Study Abroad or Student Exchange agreement in which case a higher workload may be required.
2. Notwithstanding Regulation 1, and with the permission of the Academic Board or its delegate, candidates may study 45 or 60 credits per year on a Certificate of Proficiency basis as long as the programme of study for that year, or in total, is not substantially similar to an existing qualification on the New Zealand Qualifications Framework, or has outcomes which are more suited to being listed as an existing qualification on the New Zealand Qualifications Framework.
3. Except as permitted by the Enrolment of School Students regulation, applicants are required to satisfy Regulation 1 of the Matriculation Regulations.
4. Applicants for a Certificate of Proficiency shall pay fees, complete compulsory requirements and give notice of their intention to enter for examinations, where appropriate, as if they were proceeding to a degree, diploma or certificate. The Enrolment and Examination Regulations shall apply to such candidates.
5. Where required under the COVID-19 Public Health Response (Vaccinations) Order 2021, or by any additional Government orders or Massey University Council requirements, admission to specified programmes of study within Massey University, and continued enrolment

and progression in those programmes, requires evidence of full and current COVID-19 vaccination status. This requirement will be applied to any and all programmes in accordance with Government orders or Massey University mandates.

#### Approval of Course

6. The personal course of study of every applicant for a Certificate of Proficiency shall require the approval of the Academic Board. Normally approval is exercised as part of the enrolment process.

#### Status of Certificate of Proficiency Pass

7. A student who has passed in a course for a Certificate of Proficiency may at a later date have the course credited towards a degree or diploma provided that the necessary conditions for the course as a part of the degree or diploma were fulfilled at the time when the course was passed for a Certificate of Proficiency.

#### Aligned Resource Management

In keeping with principles of sound management, Massey University wishes to ensure that it can adequately resource the programmes of study it offers. Accordingly, the University reserves the right under Section 255 (4) (a) of the Education and Training Act 2020 to control the number of enrolments it will accept in any programme.

The number of places to be funded in any programme and the criteria for student selection will be available on application from Student Administration prior to each enrolment period. Every endeavour will be made to meet the academic needs of students where this does not prejudice the proper presentation or the academic standing of a programme.

## Conferment and Graduation Regulations

1. Any person wishing to have a degree conferred or a diploma presented at the annual graduation ceremonies must make application in the year of the ceremony not later than 1 February for Wellington ceremonies, 1 March for the May ceremonies at Manawatū and Auckland, and 1 September for the November ceremony in Manawatū. Applications should be submitted to the University on time; late applications will only be considered in exceptional circumstances.
2. Any person who has completed the qualifications for a degree, diploma or certificate, who does not wish to attend a graduation ceremony in person, may at any time apply to have the degree, diploma or certificate conferred 'in Council' at the next appropriate meeting of Academic Board.
3. The University may initiate the award of a qualification by issuing a notification to the student of the intent to award that qualification. The student has 30 days to respond to the notification of intent to award the qualification or they will be recommended for an award 'in Council' at the next opportunity.
4. Students who have met all the requirements for a qualification for which they have not enrolled may be awarded that qualification. The qualification must be approved for teaching in the year in which they apply to graduate.

## University Fee Regulations

#### Fees Payment Regulations

1. Tuition fees and non-tuition fees are subject to annual adjustment by the University Council and the student agrees to pay the tuition fees and non-tuition fees as set each year. Tuition and non-tuition fees are calculated on an academic year basis not by enrolment period. Where a student's study spans two academic years, e.g. student enrolls for Semester Two and later enrolls for Semester One of the following academic year, the student will be liable for the tuition and non-tuition fees as set for each academic year.
2. All University fees are payable upon the University issuing a Confirmation of Enrolment and before the start of study, or earlier if required by the University and specified in an Offer of place and/ or Enrolment. Each student's fee account will remain in credit for any amount tendered in payment for University fees until their programme has received academic approval.
3. Unless otherwise advised in writing by the University, students must pay all University fees to the University directly and not to any recruitment

agent or other party. For international transactions there may be a bank fee charged which is payable by the student.

4. Students who enrol at the same time for courses in more than one enrolment period (for example, Semester One and Semester Two) may, at the time of their Enrolment Application in the first period, elect to defer payment of tuition fees for the later period (for example Semester Two).
5. For students who are paying all or part of their fees through the Studylink Student Loans Scheme, University fees inclusive of tuition fees, non-tuition fees plus student association fees (if any) for the full year will be requested on approval of their loan application. When student loans are declined in full or in part students are still responsible for any outstanding fees.
6. For students who are paying all or part of their fees through TEC Fees Free Scheme, payment of University fees inclusive of tuition fees, non-tuition fees plus student association fees (if any) for the full year will be requested on approval of their fees free eligibility. If a student is ineligible for Fees Free or has consumed their entitlement, they are responsible for any outstanding fees.
7. Enrolment may proceed in advance of receipt of fee payment in circumstances that:
  - (a) the fees due are to be paid from a student loan but if a student loan is not approved in full or in part the student remains responsible for any outstanding fees;
  - (b) the fees due are to be paid from TEC Fees Free scheme but if the student is ineligible or has consumed their entitlement, the student remains responsible for any outstanding fees
  - (c) the fees due are to be paid on behalf of the student by a sponsor. A sponsor is normally an employer or a training body, a government agency or a trust or Iwi authority. When the University fees are not paid by the specified due date on behalf of the student, the student remains responsible for any outstanding fees; or
  - (d) the student would suffer unreasonable hardship by being required to pay fees before enrolment period start date.
8. Application to add courses after the original Enrolment Application has been lodged must be accompanied by the additional tuition fees estimated or determined to be due. If the student has accepted an Offer of Enrolment and then wants to add courses or substitute courses, if the University agrees then a new Offer of Enrolment is generated and must be accepted and a Confirmation of Enrolment issued.
9. Students who withdraw from a particular course or all or part of their programme after the final withdrawal date for a tuition fee credit, shall remain liable for the fees associated with the withdrawn course(s).
10. Delivery of any services or teaching material does not, in itself, constitute an undertaking by the University that a student's enrolment for tuition will be continued if fee payment is not completed. The University may, at the University's option, cancel the student's enrolment if any of the University fees are not received. If cancellation occurs after the final withdrawal date for a credit then all University fees are payable.
11. Invoices will be issued on confirmation of enrolment and when changes are made to enrolment to all students. A Statement of Account will be available to all students which will present the current status of an account. When any fees are 60 days or more overdue the University may, at the University's option cancel the enrolment of the student or suspend the enrolment. Suspension means that students:
  - (a) no longer have access to certain University facilities;
  - (b) will not receive grades for courses;
  - (c) will not have access to their academic records; and
  - (d) may not re-enrol at Massey University until the fees due have been paid in full.

Cancellation means the person concerned is no longer a student at Massey University and has no right to engage in any courses and no privileges afforded to students. Even when enrolment is cancelled or suspended, all fees owing to the University must be paid.

12. A credit of tuition fees shall be made to students who withdraw in the manner required from their course(s) before 17 percent of the study period has elapsed as defined by the course start and end dates (see Enrolment Regulations).

Commission paid by Massey University to agents for international students will also be deducted from any refund in respect of the courses withdrawn from. Note that Doctoral students are subject to different fee refund provisions.

International students who withdraw from all of their study at Massey University within the time and in the manner required to obtain a tuition fee credit may be required to pay an International Administration Fee. International students studying in New Zealand must have attained permanent residence in New Zealand or Australia before the course has started to be eligible for domestic tuition fees. Students must present

evidence prior to the end of the relevant enrolment period for Semester One and Two enrolments, or prior to the close of business in December for those students enrolled in Summer School.

Refunds due for overpayment of fees or in the event of withdrawal with a credit of tuition fees are made as soon as possible once enrolments and financial support provisions have been established for a particular study period. In any case, where a specific request is made for a refund that has been approved, such refund will be made within 28 days. If the refund cannot be made a written statement shall be provided to the student as to why the refund cannot be made, together with a date by which the refund shall be made.

Withdrawal by the University: if the University withdraws a student from a course after 17 percent of the study period, the student is eligible for a credit. If they have paid fees, they will be refunded.

13. Massey University accepts no liability to pay interest or other consideration in respect of monies held in full or part payment of University fees and is not liable to the student or anyone else for exchange rate movement, conversion charges, bank fees, or fees paid to recruitment or immigration agents. This also includes charges incurred by students through Studylink.
14. Partial refunds are normally made directly to the student who is enrolled. Any sponsored student to whom a partial refund is made shall be responsible for reimbursing any other party (such as a sponsor or government agency) who has paid fees on their behalf. However, where practicable, partial refunds will be made direct to the government agency responsible for any fees paid where the University is party to such an agreement.
 

When international students withdraw from their programme of study at Massey University, in the manner required, before 17 percent of the study period has elapsed, and cannot provide evidence of a long term visa to remain in New Zealand, partial refunds will be made to a bank account in the student's home country, as nominated by the student. Where students withdraw from Massey University and enrol at another institution in New Zealand, partial refunds will be made directly to the relevant institution. In the case of students who are deceased, partial refunds, where applicable, are made to the estate of the person concerned, care of the next of kin as notified to the University.
15. Where students are enrolled principally because of an agreement between Massey University and another entity the payment and refund of fees will be governed by that other agreement.

#### PhD Doctoral Students

16. (a) Fees for PhD candidates are due on initial enrolment pro-rated to the end of the academic year in which they are commencing (i.e. based on EFTS consumption), with fees invoiced at the beginning of each academic year for subsequent years. Fees for any period of suspension or extension will be calculated at the time of application for extension or suspension. Applications for suspension will receive a credit for the period of suspension in the next academic year.
- (b) Candidates will be charged in line with their EFTS consumption pro-rated for the calendar year. Full-time candidates will be charged for one EFT per full year. Part-time candidates will be charged at the applicable rate (currently 0.6666) each academic year.
- (c) Candidates undertaking Named Doctorate programmes are required to pay their course work, practicum, internship, tuition and thesis fees as required by each programme.
- (d) Candidates who have had their oral examination and are required to complete further work on their thesis and be re-examined, will be re-enrolled, and must pay the full tuition fee for the duration of the re-examination period until re-submission of the thesis. Provisions in clause 15(d) will apply from the date the candidate is notified of the required further work.

#### Postgraduate Students

17. (a) Masters students pay tuition fees for the actual credits/courses for which they are enrolled each year. Fees do not maximise at 1.0 EFTS (120 credits).
- (b) When theses, dissertations, research reports, or project courses are not submitted by the end date of the course, the student must re-enrol for a further enrolment period of one semester or one year (as appropriate) and pay tuition fees.
- (c) A one-month extension may be granted without penalty.
- (d) If a student qualifies for Carry Forward of Postgraduate Enrolment, they will be re-enrolled but are not required to pay fees.
- (e) These regulations do not apply to Doctoral students.

#### Fee Grandparenting Regulations

18. Council may at its discretion grandparent fees for any group of students. Fee grandparenting means that tuition fees will be held at the same level as that set for the programme of study concerned at the time Council

grandparents fees. Fee grandparenting will apply for the period set by Council.

#### **Students' Association Fee Regulations**

19. Students may elect to join a Student Association. Annual subscriptions, if any, can be paid directly to the Student Association at any time during the academic year (unless otherwise advised).

#### **Halls of Residence Fees Regulations**

1. Accommodation fees for each semester shall be paid as scheduled.
2. Any resident whose accommodation fees are not paid by the due date may be debarred from residence unless special arrangements have been made with the Accommodation Team.
3. Any resident intending to withdraw from study will be required to withdraw from University accommodation. Application forms for release from University student accommodation are available from the Accommodation Team.

#### **Financial Support**

Student Allowances and Loans are administered and paid by StudyLink. Student Allowances and Loans can be applied for online:

**[www.studylink.govt.nz](http://www.studylink.govt.nz)**

#### **Scholarships**

Details on the scholarships available from Massey University are published on the Internet: **[awards.massey.ac.nz/](http://awards.massey.ac.nz/)**

Further information is available from Massey Contact at each campus or telephone 0800 MASSEY.

### The Degree of Doctor of Business and Administration

#### DBA

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

##### Admission

- Admission to the Degree of Doctor of Business and Administration requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor Honours Degree, or Master's Degree, or an equivalent, with the award of First Class or Second Class Division I Honours; and
  - have sufficient background and good standing in senior management to satisfy the Doctoral Research Committee they have the capacity to successfully undertake the programme.

##### Qualification Requirements

- Candidates for the Degree of Doctor of Business and Administration shall follow a parts-based programme of study, which shall consist of courses and a thesis, totalling 360 credits, comprising:
  - Part One: Provisional registration; and
  - Part Two: Full registration.
 and including:
  - the courses listed in the Schedule for the Qualification;
  - a thesis;
  - participation in required activities including presentation of a proposal at a confirmation event and defending a thesis in an oral examination.

##### Specialisations

- The Degree of Doctor of Business and Administration is awarded without specialisation.

##### Thesis Requirements

- The thesis must demonstrate the candidate's ability to carry out independent research, which must make a significant contribution to knowledge and understanding in business and administration. The thesis shall be a cohesive and integrated report of the candidate's supervised work and may consist of several studies or cases, and will include the candidate's published or unpublished material or a combination of both.
- There shall be one main supervisor, who shall be a member of the academic staff of the University, and at least one co-supervisor who shall also be a member of the academic staff of the University.
- The thesis must comply with the following requirements:
  - the work on which the thesis is based has not been accepted either in whole or in part for any other degree or diploma; and
  - must clearly define the nature and extent of any assistance the candidate has received in pursuing the research on which the thesis is based;
  - reference to work other than that of the candidate must be appropriately acknowledged;
  - all relevant policies underpinning research practice have been complied with;
  - the thesis must not exceed 65,000 words (excluding appendices and bibliography);
  - the thesis must be submitted for examination in the manner specified by the Doctoral Research Committee in accordance with the published guidelines.

- The thesis will be independently examined by an Examination Committee experienced in the subject area, appointed by the Doctoral Research Committee in accordance with published guidelines, and will include an oral examination of the candidate on the thesis and the subject area. The oral examination will not proceed if the examiners agree that the thesis is of an inadequate standard.
- The Thesis Examination Committee shall make a recommendation to the Doctoral Research Committee on the whole examination and will advise the result of the examination by using one of the following categories:
  - Pass without emendation;
  - Minor emendations required;
  - Major emendations required;
  - Further research and re-examination required;
  - Fail. The candidate shall not be awarded the degree and shall not be permitted to apply for re-examination.
- If minor emendations are required the candidate will have a maximum of three months full time, or five months part time, to complete the emendations. The candidate must complete the emendations to the satisfaction of the examination panel within the specified time period or the candidate will be failed.
- If major emendations are required the candidate will have a maximum of six months full time, or nine months part time, to complete the emendations. The candidate must complete the emendations to the satisfaction of the examination panel within the specified time period or the candidate will be failed.
- If further research and re-examination is required, the candidate will have a maximum of one-year full time and eighteen months part time to conduct the required additional research and/or revisions. The candidate must re-enrol and pay tuition fees on a pro-rata basis. A candidate may only revise and resubmit a thesis for re-examination once. If the candidate does not complete the revisions to the satisfaction of all the examiners, within the specified time frame the candidate will be failed.
- No appeals are allowed except on completion of the examination process on the grounds of procedural irregularities in the examination process. For an appeal to be considered, applications must be received by the Doctoral Research Committee within three months of formal notification of the examination result by the Graduate Research School.

##### Student Progression

- For progression from Provisional Registration to Full Registration candidates must have:
  - achieved a grade average of B+ or higher across the courses specified for the Provisional Registration;
  - participated in a confirmation event, during which they have presented their proposal to, and had it accepted by, a confirmation committee;
  - their proposed main supervisor and co-supervisor(s) approved by the Doctoral Research Committee.
- Any candidate who fails to achieve a B+ grade in just one course will be permitted to re-enrol and repeat that course on only one occasion. Should the candidate fail to achieve a B+ grade in more than one course, fail to achieve a B+ grade in the repeated course on the second attempt, or subsequently fail to achieve a B+ grade for any other course, the candidate's registration will be terminated.
- Candidates are required to make successful progress in the thesis as determined by six-monthly progress reports in accordance with the guidelines published by the Doctoral Research Committee and assessed by the Supervisors, Head of Academic Unit, and the Doctoral Research Committee.

**Completion Requirements**

16. A candidate’s period of registration (including provisional registration) shall be a minimum period of three years (36 months) and a maximum of four years (48 months) if full time, and a minimum period of four years (48 months) and a maximum of six years (72 months) if part-time, unless a specified time of suspension or extension has been approved by the Doctoral Research Committee. Suspensions or extensions granted will appear on the academic transcript.
17. The maximum period of registration shall include:
  - (a) completion of courses as listed in the Schedule to the Qualification;
  - (b) submission of a thesis in the manner required under the published Doctoral Research Committee guidelines;
  - (c) application to be examined;
  - (d) examination (including, completion of any emendations or re-examination);
  - (e) submission of two bound copies and one PDF copy of the final thesis, as approved by the Examination Committee.
18. Candidates may be graduated when they meet the Admission, Qualification and Thesis requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Business should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

19. For candidates enrolled in the Degree of Doctor of Business and Administration, the following will lead to termination of registration:
  - (a) failure to achieve a B+ or higher grade on the first attempt in more than one of the courses specified for the Provisional Registration in Part One;
  - (b) failure to achieve a B+ or higher grade in the one permitted repeated course after the second attempt;
  - (c) failure to make adequate progress as required by the six-monthly progress reports in accordance with the guidelines published by the Doctoral Research Committee as assessed by the Supervisors, Head of Academic Unit, and the Doctoral Research Committee.

**Schedule for the Doctor of Business and Administration**

**Part One: Provisional Registration**

115.901 Introduction to Applied Doctoral Research.....	30 credits
115.902 Understanding Applied Research Design and Research Methodologies .....	30 credits
115.903 Writing a Literature Review .....	30 credits
115.910 The Research Proposal.....	30 credits

**Part Two: Full Registration (At least 240 credits from)**

115.999 Thesis .....	120 credits
P 115901, 115902, 115903, 115910	

R Restriction

C Corequisite

P Prerequisite

**The Degree of Doctor of Clinical Psychology**

**DClinPsych**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

1. Admission to the Degree of Doctor of Clinical Psychology requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for a Bachelor Honours degree or Master’s degree in Psychology with the award of First Class or Second Class Division I Honours, or equivalent; and
  - (c) have passed the following courses or their equivalent, in their qualifying degree: 175.738, 175.781, 175.782, and 175.783; and
  - (d) have sufficient personal qualities, ethical standards, and professional potential to satisfy the Doctoral Research Committee they have the capacity to successfully undertake the programme, and to satisfy the requirements for eligibility to practice as a Registered Psychologist in accordance with the Health Practitioners Competence Assurance Act of 2003, or as amended.

**Qualification Requirements**

2. Candidates for the Degree of Doctor of Clinical Psychology shall follow a parts-based programme of study, which shall consist of courses and a thesis, totalling 360 credits, comprising:
  - (a) Part One: Provisional Registration, and
  - (b) Part Two: Full Registration and including:
    - (c) the courses listed in the Schedule for the Qualification;
    - (d) a thesis;
    - (e) participation in required activities including presentation of a research report at a confirmation event, defending a thesis in an oral examination, and demonstrating the competencies required of a Professional Clinical Psychologist at a practical oral examination.

**Specialisations**

3. The Degree of Doctor of Clinical Psychology is awarded without specialisation.

**Thesis Requirements**

4. The thesis must demonstrate the candidate’s ability to carry out independent research, which must make a significant contribution to knowledge and understanding in clinical psychology. The thesis shall be a cohesive and integrated report of the candidate’s supervised work, and may consist of several studies or cases, and will include the candidate’s published or unpublished material or a combination of both.

5. There shall be one main supervisor, who shall be a member of the academic staff of the University, and at least one co-supervisor who shall also be a member of the academic staff of the University. At least one supervisor must be a registered senior clinical psychologist. All supervisors, including any additional co-supervisors, must be approved by the Doctoral Research Committee.
6. The thesis must comply with the following requirements:
  - (a) the work on which the thesis is based has not been accepted either in whole or in part for any other degree or diploma; and
  - (b) must clearly define the nature and extent of any assistance the candidate has received in pursuing the research on which the thesis is based;
  - (c) reference to work other than that of the candidate must be appropriately acknowledged;
  - (d) all relevant policies underpinning research practice have been complied with;
  - (e) the thesis must not exceed 65,000 words (excluding appendices and bibliography);
  - (f) the thesis must be submitted for examination in the manner specified by the Doctoral Research Committee in accordance with the published guidelines.
7. The thesis will be independently examined by an Examination Committee experienced in the subject area, appointed by the Doctoral Research Committee in accordance with published guidelines, and will include an oral examination of the candidate on the thesis and the subject area. The oral examination will not proceed if the examiners agree that the thesis is of an inadequate standard.
8. The Thesis Examination Committee shall make a recommendation to the Doctoral Research Committee on the whole examination and will advise the result of the examination by using one of the following categories:
  - (a) Pass without emendation.
  - (b) Minor emendations required.
  - (c) Major emendations required.
  - (d) Further research and re-examination required.
  - (e) Fail. The candidate shall not be awarded the degree and shall not be permitted to apply for re-examination.
9. If minor emendations are required the candidate will have a maximum of three months full time to complete the emendations. The candidate must complete the emendations to the satisfaction of the examination panel within the specified time period or the candidate will be failed.
10. If major emendations are required the candidate will have a maximum of six months full time to complete the emendations. The candidate must complete the emendations to the satisfaction of the examination panel within the specified time period or the candidate will be failed.
11. If further research and re-examination is required, the candidate will have a maximum of one year full time to conduct the required additional

research and/or revisions. The candidate must re-enrol and pay tuition fees on a pro-rata basis. A candidate may only revise and resubmit a thesis for re-examination once. If the candidate does not complete the revisions to the satisfaction of all the examiners within the specified time period, the candidate will be failed.

12. No appeals are allowed except on completion of the examination process on the grounds of procedural irregularities in the examination process. For an appeal to be considered, applications must be received by the Doctoral Research Committee within three months of formal notification of the examination result by the Graduate Research School.

#### Student Progression

13. For progression from Provisional Registration to Full Registration, candidates must have:
- achieved pass grades in courses 175.935 and 175.920;
  - participated in a confirmation event, during which they have presented their research report to, and had it accepted by, a confirmation committee;
  - their proposed main supervisor and co-supervisor(s) approved by the Doctoral Research Committee.
14. Candidates are required to make successful progress in the thesis as determined by six-monthly progress reports in accordance with the guidelines published by the Doctoral Research Committee and assessed by the Supervisors, Head of Academic Unit, and the Doctoral Research Committee.
15. Candidates are required to successfully complete courses 175.935 (taught) and 175.920 (practicum) before progressing to 175.936 (taught) and 175.921 (practicum). Candidates are required to successfully complete courses 175.936 (taught) and 175.921 (practicum) prior to enrolling in 175.922 (internship) and undertaking clinical case study research. Any candidate who fails one taught or practicum course will be permitted to repeat that course once. If the second attempt is unsuccessful, the candidate's registration will be terminated.
16. Eligibility to present for the final examination of 175.922 (internship) is dependent on the candidate having reached a satisfactory standard of achievement in the internship, to the satisfaction of the Director of Clinical Training.
17. A candidate who fails the internship will be permitted to re-enrol for the internship once. Should the candidate fail to successfully complete the internship following the second attempt, the candidate's registration will be terminated.
18. Candidates must continue to satisfy the requirements for eligibility to practice as a Registered Psychologist in accordance with the Health Practitioners Competency Assurance Act of 2003, or as amended, throughout the duration of their studies.

#### Completion Requirements

19. A candidate's period of registration (including provisional registration) shall be a minimum period of three years (36 months) and a maximum of four years (48 months) full time, unless a specified time of suspension or extension has been approved by the Doctoral Research Committee.
20. The maximum period of registration shall include:

- passing courses as listed in the Schedule to the Qualification;
- submission of a thesis in the manner required under the published Doctoral Research Committee guidelines;
- application for the thesis to be examined;
- thesis examination (including, completion of any emendations or re-examination);
- submission of one PDF copy of the final thesis, as approved by the Examinations Committee;
- practical oral examination of professional clinical competencies by an examination committee of qualified clinical psychologists including at least one external academic clinical psychologist from another University training programme and at least one external senior consultant clinical psychologist with prior experience of intern field supervision.

21. Candidates may be graduated when they meet the Admission, Qualification and Thesis requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be eligible to be awarded an alternative qualification should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

22. For candidates enrolled in the Degree of Doctor of Clinical Psychology, the following will lead to termination of registration by the Doctoral Research Committee:
- failure to pass any of the taught courses in the Schedule for the Qualification in two successive attempts;
  - failure to pass any of the practicum courses or the internship course in the Schedule for the Qualification in two successive attempts.
23. In the following circumstances, a candidate enrolled in the Degree of Doctor of Clinical Psychology will either be permitted to withdraw without prejudicing future doctoral applications, or have their registration terminated by the Doctoral Research Committee:
- failure to make adequate progress in the research thesis as required by the six-monthly progress reports in accordance with the guidelines published by the Doctoral Research Committee as assessed by the Supervisors, Head of Academic Unit, and the Doctoral Research Committee.

### Schedule for the Doctor of Clinical Psychology

## The Degree of Doctor of Education

### Edd

#### No new enrolments

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

#### Admission

1. Admission to the Degree of Doctor of Education requires that the candidate will:
- meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor of Education or Teaching with Honours, or Master of Education, or an equivalent, with the award of First Class or Second Class Division I Honours; and

- have sufficient background and good standing in professional leadership in education to satisfy the Doctoral Research Committee they have the capacity to successfully undertake the programme.

#### Qualification Requirements

2. Candidates for the Degree of Doctor of Education shall follow a parts-based programme of study, which shall consist of courses and a thesis, totalling at least 360 credits, comprising:
- Part One: Provisional Registration; and
  - Part Two: Full Registration and including:
  - the courses listed in the Schedule for the Qualification
  - a thesis
  - participation in required activities including presentation of a proposal at a confirmation event and defending a thesis in an oral examination.

#### Specialisations

3. The Degree of Doctor of Education is awarded without specialisation.

#### Thesis Requirements

4. The thesis must demonstrate the candidate's ability to carry out independent research, which must make a significant contribution to

knowledge and understanding in education. The thesis shall be a cohesive and integrated report of the candidate's supervised work and may consist of several studies or cases, and will include the candidate's published or unpublished material or a combination of both.

5. There shall be one main supervisor, who shall be a member of the academic staff of the University, and at least one co-supervisor who shall also be a member of the academic staff of the University.
6. The thesis must comply with the following requirements:
  - (a) the work on which the thesis is based has not been accepted either in whole or in part for any other degree or diploma; and
  - (b) must clearly define the nature and extent of any assistance the candidate has received in pursuing the research on which the thesis is based;
  - (c) reference to work other than that of the candidate must be appropriately acknowledged;
  - (d) all relevant policies underpinning research practice have been complied with;
  - (e) the thesis must not exceed 65,000 words (excluding appendices and bibliography);
  - (f) the thesis must be submitted for examination in the manner specified by the Doctoral Research Committee in accordance with the published guidelines.
7. The thesis will be independently examined by an Examination Panel experienced in the subject area, appointed by the Doctoral Research Committee in accordance with published guidelines, and will include an oral examination of the candidate on the thesis and the subject area. The oral examination will not proceed if the examiners agree that the thesis is of an inadequate standard.
8. The Thesis Examination Panel shall make a recommendation to the Doctoral Research Committee on the whole examination and will advise the result of the examination by using one of the following categories:
  - (a) Pass without emendation.
  - (b) Emendations required
  - (c) Further research and re-examination required.
  - (d) Fail. The candidate shall not be awarded the degree and shall not be permitted to apply for re-examination.
9. If emendations are required the candidate will have a maximum of six months full time, or nine months part time, to complete the emendations and during this time the candidate will not be required to re-enrol. The candidate must complete the emendations to the satisfaction of the nominated examiner(s) or the candidate will be failed. Under these circumstances the candidate shall not be permitted to be re-examined. A candidate may only submit emendations for re-examination once.
10. If further research and re-examination is required, the candidate will have a maximum of one year full time and eighteen months part time to conduct the required additional research and/or revisions. The candidate must re-enrol and pay tuition fees on a pro-rata basis. A candidate may only revise and resubmit a thesis for re-examination once. If the candidate does not complete the revisions to the satisfaction of all the examiners, the candidate will be failed. Under these circumstances the candidate shall not be permitted to be re-examined.
11. No appeals are allowed except on completion of the examination process on the grounds of procedural irregularities in the examination process. For an appeal to be considered, applications must be received by the Doctoral Research Committee within three months of formal notification of the examination result by the Graduate Research School.

#### Student Progression

12. For progression from Provisional Registration to Full Registration candidates must have:

- (a) achieved a grade average of B+ or higher across the courses specified for the Provisional Registration;
- (b) participated in a confirmation event, during which they have presented their proposal to, and had it accepted by, a confirmation committee;
- (c) their proposed main supervisor and co-supervisor(s) approved by the Doctoral Research Committee.

13. Candidates are required to make successful progress in the thesis as determined by six-monthly progress reports in accordance with the guidelines published by the Doctoral Research Committee and assessed by the Supervisors, Head of Academic Unit, and the Doctoral Research Committee.

#### Completion Requirements

14. A candidate's period of registration (including provisional registration) shall be a minimum period of three years (36 months) and a maximum of four years (48 months) if full time, and a minimum period of four years (48 months) and a maximum of six years (72 months) if part-time, unless a specified time of suspension or extension has been approved by the Doctoral Research Committee. Suspensions or extensions granted will appear on the academic transcript.
15. The maximum period of registration shall include:
  - (a) completion of courses as listed in the Schedule to the Qualification;
  - (b) submission of a thesis in the manner required under the published Doctoral Research Committee guidelines;
  - (c) application to be examined;
  - (d) examination (including, completion of any emendations or re-examination);
  - (e) submission of four bound copies and one electronic copy of the final thesis.
16. Candidates may be graduated when they meet the Admission, Qualification and Thesis requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Education should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

17. For candidates enrolled in the Degree of Doctor of Education, the following will lead to termination of registration:
  - (a) failure to pass any one of the courses in Part One;
  - (b) failure to make adequate progress as required by the six-monthly progress reports in accordance with the guidelines published by the Doctoral Research Committee as assessed by the Supervisors, Head of Academic Unit, and the Doctoral Research Committee.

## The Degree of Doctor of Literature

### DLit

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

##### Admission

1. Admission for consideration for the Degree of Doctor of Literature requires that the candidate will:

- (a) meet the University admission requirements as specified; and will:
- (b) be a graduate of a Massey University degree; or
- (c) be a graduate of another University and have a substantial, demonstrable, formal association with Massey University; and will:
- (d) not present themselves for consideration until at least 10 years after graduation in a qualifying degree; and
- (e) not previously have applied for examination within the preceding five years, and only then will application be considered on the basis of significant new work.

**Qualification Requirements**

2. The Degree of Doctor of Literature shall be awarded for original contribution(s) of special excellence to knowledge in the fields of Humanities, Arts or Social Sciences. This will have been published in the form of scholarly papers and/or books or creative works or performances. Additional unpublished work may be submitted in support of the application.

**Specialisations**

3. The Degree of Doctor of Literature is awarded without specialisation.

**Examination Requirements**

4. The submitted work(s) must comply with the following requirements:
  - (a) the work(s) has not been accepted either in whole or in part for any other degree or diploma; and
  - (b) must clearly define the nature and extent of any assistance the candidate has received in pursuing the research on which the work(s) is based;
  - (c) reference to work other than that of the candidate must be appropriately acknowledged;
  - (d) all relevant policies underpinning research practice have been complied with;

- (e) must be submitted for examination in the manner specified by the Doctoral Research Committee in accordance with the published guidelines.
5. The work(s) will be independently examined by an Examination Committee experienced in the subject area, appointed by the Doctoral Research Committee in accordance with published guidelines.
6. The Examination Committee shall make a recommendation to the Doctoral Research Committee on the whole examination and will advise the result of the examination by using one of the following categories:
  - (a) Pass.
  - (b) Fail.
7. No appeals are allowed except on completion of the examination process on the grounds of procedural irregularities in the examination process. For an appeal to be considered, applications must be received by the Doctoral Research Committee within three months of formal notification of the examination result by the Graduate Research School.

**Student Progression**

8. Applications will only proceed to Examination at the discretion of the Doctoral Research Committee on the recommendation of an Assessor appointed by this Committee to judge the suitability of the application, the key elements of the work(s), and the contribution to knowledge.

## The Degree of Doctor of Philosophy

### PhD

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

1. Admission to the Degree of Doctor of Philosophy requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for a Master's degree or Bachelor Honours degree with First or Second Class Honours Division One, or an equivalent qualification; and
  - (c) have sufficient independent research experience to satisfy the Doctoral Research Committee that they have the capacity to successfully undertake the programme.

**Qualification Requirements**

2. Candidates for the Doctor of Philosophy shall follow a parts based programme of study which shall consist of a thesis totalling 360 credits, comprising:
  - (a) Part One: Provisional Registration;
  - (b) Part Two: Full Registration;
 and including:
  - (c) a thesis;
  - (d) participation in required activities including presentation of a research report at a confirmation event and defending a thesis in an oral examination.

**Specialisations**

3. The Degree of Doctor of Philosophy is awarded without specialisation.

**Thesis Requirements**

4. The thesis must demonstrate the candidate's ability to carry out independent research, which must make a significant contribution to knowledge and understanding of a field of study. The thesis shall be a cohesive and integrated report of the candidate's supervised work and may consist of several studies or cases, and will include the candidate's published or unpublished material or a combination of both.
5. Theses with publications must have an appropriate introduction, including research objectives, and a comprehensive conclusion which clearly identifies the original contribution to knowledge of the subject with which it deals. The thesis must work as an integrated whole, and linking sections may also be used to this end.
6. Candidates submitting a thesis in the creative and performing arts shall prepare a presentation which consists of creative component and exegesis. The creative works and/or performance should take a form appropriate to the discipline.
7. There shall be one main supervisor, who shall be a member of the academic staff of the University, and at least one co-supervisor who shall

- also be a member of the academic staff of the University; all supervisors, including any additional co-supervisors, must be approved by the Doctoral Research Committee.
8. The thesis must comply with the following requirements:
    - (a) the work on which the thesis is based has not been accepted either in whole or in part for any other degree or diploma; and
    - (b) must clearly define the nature and extent of any assistance the candidate has received in pursuing the research on which the thesis is based;
    - (c) reference to work other than that of the candidate must be appropriately acknowledged;
    - (d) all relevant policies underpinning research practice have been complied with;
    - (e) the thesis must not exceed 100,000 words (excluding appendices and bibliography);
    - (f) the thesis must be submitted for examination in the manner specified by the Doctoral Research Committee in accordance with the published guidelines;
    - (g) for candidates submitting a thesis in creative and performing arts, the thesis must include a permanent record of the performance/exhibition.
  9. The thesis will be independently examined by an Examination Panel experienced in the subject area, appointed by the Doctoral Research Committee in accordance with published guidelines, and will include an oral examination of the candidate on the thesis and the subject area. Any aspect of the thesis for which public performance is an integral part will be examined in that context.
  10. The oral examination will not proceed if the examiners agree that the thesis is of an inadequate standard.
  11. The Thesis Examination Panel shall make a recommendation to the Doctoral Research Committee on the whole examination and will advise the result of the examination by using one of the following categories:
    - (a) Pass without emendation.
    - (b) Minor emendations required.
    - (c) Major emendations required.
    - (d) Further research and re-examination required.
    - (e) Fail. The candidate shall not be awarded the degree and shall not be permitted to apply for re-examination.
  12. If minor emendations are required the candidate will have a maximum of three months full time, or five months part time, to complete the emendations. The candidate must complete the emendations to the satisfaction of the examination panel within the specified time period or the candidate will be failed.
  13. If major emendations are required the candidate will have a maximum of six months full time, or nine months part time, to complete the emendations. The candidate must complete the emendations to the satisfaction of the examination panel within the specified time period or the candidate will be failed.

14. If further research and re-examination is required, the candidate will have a maximum of one year full-time and eighteen months part time to conduct the required additional research and emendations. The candidate must re-enrol and pay tuition fees on a pro-rata basis. A candidate may only revise and resubmit a thesis for re-examination once. If the candidate does not complete the emendations to the satisfaction of all the examiners within the specified time period, the candidate will be failed.
15. No appeals are allowed except on completion of the examination process on the grounds of procedural irregularities in the examination process. For an appeal to be considered, applications must be received by the Doctoral Research Committee within three months of formal notification of the examination result by the Graduate Research School.

#### Student Progression

16. Candidates are required to make successful progress in the thesis as determined by six-monthly progress reports in accordance with the guidelines published by the Doctoral Research Committee and assessed by the Supervisors, Head of Academic Unit, and the Doctoral Research Committee.
17. For progression from Provisional Registration to Full Registration candidates must have participated in a confirmation event, during which they have presented their research report to, and had it accepted by, a confirmation committee; the confirmation event must be held within 12 months from commencement of provisional registration if candidacy is full time and within 18 months if part time. unless the Doctoral Research Committee has approved a period in which the candidate's provisional registration is deferred.

#### Completion Requirements

18. A candidate's period of registration (including provisional registration) shall normally be a minimum period of three years (36 months) and

a maximum of four years (48 months) if full time, and a minimum period of 55 months and a maximum period of six years (72 months) if part-time, unless a specified time of suspension or extension has been approved by the Doctoral Research Committee.

19. The maximum period of registration shall include:
  - (a) submission of a thesis in the manner required under the published Doctoral Research Committee guidelines;
  - (b) application to be examined, including submission of the thesis for examination;
  - (c) examination (including, completion of any emendations or re-examination);
  - (d) submission of one PDF copy of the final thesis as approved by the Examination Committee.
20. Candidates may be graduated when they meet the Admission, Qualification and Thesis requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an exit qualification should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

21. In the following circumstances a candidate enrolled in the Degree of Doctor of Philosophy will either be permitted to withdraw without prejudicing future doctoral applications, or have their provisional or full registration terminated by the Doctoral Research Committee:
  - (a) failure to make adequate progress as required by the six-monthly progress reports in accordance with the guidelines published by the Doctoral Research Committee as assessed by the Supervisors, Head of Academic Unit, and the Doctoral Research Committee;
  - (b) failure to successfully complete the confirmation event within the stated timeframes.

## The Degree of Doctor of Science DSc

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

1. Admission for consideration for the Degree of Doctor of Science requires that the candidate will:
  - (a) meet the University admission requirements as specified; and will:
  - (b) be a graduate of a Massey University degree; or
  - (c) be a graduate of a degree of another University and have a substantial, demonstrable, formal association with Massey University;
 and will:
  - (d) not present themselves for consideration until at least 10 years after graduation in a qualifying degree; and
  - (e) not previously have applied for examination within the preceding five years, and only then will application be considered on the basis of significant new work.

##### Qualification Requirements

2. The Degree of Doctor of Science shall be awarded for original contribution(s) of special excellence to knowledge in science. This will have been published in the form of scholarly papers and/or books. Additional unpublished work may be submitted in support of the application.

##### Specialisations

3. The Degree of Doctor of Science is awarded without specialisation.

##### Examination Requirements

4. The submitted work(s) must comply with the following requirements:
  - (a) the work(s) has not been accepted either in whole or in part for any other degree or diploma; and
  - (b) must clearly define the nature and extent of any assistance the candidate has received in pursuing the research on which the work(s) is based;
  - (c) reference to work other than that of the candidate must be appropriately acknowledged;

- (d) all relevant policies underpinning research practice have been complied with;
- (e) must be submitted for examination in the manner specified by the Doctoral Research Committee in accordance with the published guidelines.

5. The work(s) will be independently examined by an Examination Committee experienced in the subject area, appointed by the Doctoral Research Committee in accordance with published guidelines.
6. The Examination Committee shall make a recommendation to the Doctoral Research Committee on the whole examination and will advise the result of the examination by using one of the following categories:
  - (a) Pass;
  - (b) Fail.
7. No appeals are allowed except on completion of the examination process on the grounds of procedural irregularities in the examination process. For an appeal to be considered, applications must be received by the Doctoral Research Committee within three months of formal notification of the examination result by the Graduate Research School.

#### Student Progression

8. Applications will only proceed to Examination at the discretion of the Doctoral Research Committee on the recommendation of an Assessor appointed by this Committee to judge the suitability of the application, the key elements of the work(s), and the contribution to knowledge.

# The Degree of Doctor of Social Work

## DSW

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Doctor of Social Work requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Master of Applied Social Work or Master of Social Work, or an equivalent Social Work qualification which includes a research component, with the award of First Class or Second Class Division I honours; and
  - have sufficient background and good standing in professional social work to satisfy the Doctoral Research Committee they have the capacity to successfully undertake the programme.

##### Qualification Requirements

- Candidates for the Degree of Doctor of Social Work shall follow a parts-based programme of study, which shall consist of courses and a thesis totalling 360 credits, comprising:
  - Part One: Provisional Registration; and
  - Part Two: Full Registration; and including:
    - the courses listed in the Schedule for the Qualification;
    - a thesis;
    - participation in required activities including presentation of a research report at a confirmation event and defending a thesis in an oral examination.

##### Specialisations

- The Degree of Doctor of Social Work is awarded without specialisation.

##### Thesis Requirements

- The thesis must demonstrate the candidate's ability to carry out independent research, which must make a significant contribution to knowledge and understanding in professional social work. The thesis shall be a cohesive and integrated report of the candidate's supervised work and may consist of several studies or cases, and will include the candidate's published or unpublished material or a combination of both.
- There shall be one main supervisor, who shall be a member of the academic staff of the University, and at least one co-supervisor who shall also be a member of the academic staff of the University. All supervisors, including any additional co-supervisors, must be approved by the Doctoral Research Committee.
- The thesis must comply with the following requirements:
  - the work on which the thesis is based has not been accepted either in whole or in part for any other degree or diploma; and
  - must clearly define the nature and extent of any assistance the candidate has received in pursuing the research on which the thesis is based;
  - reference to work other than that of the candidate must be appropriately acknowledged;
  - all relevant policies underpinning research practice have been complied with as appropriate; and
  - the thesis must not exceed 65,000 words (excluding appendices and bibliography);
  - the thesis must be submitted for examination in the manner specified by the Doctoral Research Committee in accordance with the published guidelines.
- The thesis will be independently examined by an Examination Committee experienced in the subject area, appointed by the Doctoral Research Committee in accordance with published guidelines, and will include an oral examination of the candidate on the thesis and the subject area. The oral examination will not proceed if the examiners agree that the thesis is of an inadequate standard.
- The Thesis Examination Committee shall make a recommendation to the Doctoral Research Committee on the whole examination and will advise the result of the examination by using one of the following categories:
  - Pass without emendation.
  - Minor emendations required.

- Major emendations required.
  - Further research and re-examination required.
  - Fail. The candidate shall not be awarded the degree and shall not be permitted to apply for re-examination.
- If minor emendations are required the candidate will have a maximum of three months full time, or five months part time, to complete the emendations. The candidate must complete the emendations to the satisfaction of the examination panel within the specified time period or the candidate will be failed.
  - If major emendations are required the candidate will have a maximum of six months full time, or nine months part time, to complete the emendations. The candidate must complete the emendations to the satisfaction of the examination panel within the specified time period or the candidate will be failed.
  - If further research and re-examination is required, the candidate will have a maximum of one year full-time or eighteen months part time to conduct the required additional research and/or revisions. The candidate must re-enrol and pay tuition fees on a pro-rata basis. A candidate may only revise and resubmit a thesis for re-examination once. If the candidate does not complete the revisions to the satisfaction of all the examiners within the specified period, the candidate will be failed.
  - No appeals are allowed except on completion of the examination process on the grounds of procedural irregularities in the examination process. For an appeal to be considered, applications must be received by the Doctoral Research Committee within three months of formal notification of the examination result by the Graduate Research School.

##### Student Progression

- For progression from Provisional Registration to Full Registration candidates must have:
  - achieved a B+ or higher for each of the courses specified for the Provisional Registration;
  - participated in a confirmation event, during which they have presented their research report to, and had it accepted by, a confirmation committee;
  - their main proposed supervisor and co-supervisor(s) approved by the Doctoral Research Committee.
- Any candidate who fails to achieve a B+ grade in just one course will be permitted to re-enrol and repeat that course on only one occasion. Should the candidate fail to achieve a B+ grade in more than one course, fail to achieve a B+ grade in the repeated course on the second attempt, or subsequently fail to achieve a B+ grade for any other course, the candidate's registration will be terminated.
- Candidates are required to make successful progress in the thesis as determined by six-monthly progress reports in accordance with the guidelines published by the Doctoral Research Committee and assessed by the Supervisors, Head of Academic Unit, and the Doctoral Research Committee.

##### Completion Requirements

- A candidate's period of registration (including provisional registration) shall be a minimum period of three years (36 months) and a maximum of four years (48 months) if full time, and a minimum period of four years (48 months) and a maximum of six years (72 months) if part-time, unless a specified time of suspension or extension has been approved by the Doctoral Research Committee.
- The maximum period of registration shall include:
  - completion of courses as listed in the Schedule to the Qualification;
  - submission of a thesis in the manner required under the published Doctoral Research Committee guidelines;
  - application to be examined;
  - examination (including, completion of any emendations or re-examination);
  - submission of one PDF copy of the final thesis, as approved by the Examination Committee.
- Candidates may be graduated when they meet the Admission, Qualification and Thesis requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Social Work or Postgraduate Certificate in Social Work should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

19. For candidates enrolled in the Degree of Doctor of Social Work, the following will lead to termination of registration by the Doctoral Research Committee:
- failure to achieve a B+ or higher on the first attempt in more than one of the courses specified for the Provisional Registration in Part One;
  - failure to achieve a B+ grade in the one permitted repeated course after the second attempt.
20. In the following circumstances a candidate enrolled in the Degree of Doctor of Social Work will either be permitted to withdraw without prejudicing future doctoral applications, or have their registration terminated by the Doctoral Research Committee:
- failure to make adequate progress in their research thesis with the objectives established in the six-monthly progress reports in accordance with the guidelines published by the Doctoral Research Committee as assessed by the Supervisors, Head of Academic Unit and the Doctoral Research Committee.

**Transitional Provisions**

21. Candidates who commenced their provisional registration in the Doctor of Social Work prior to 01 January 2021 may be exempt from the

Regulation 19 requirement to achieve the specified grade average on the first attempt, or after repeating one course as permitted. Such candidates are required to achieve a B+ or higher grade for each of the courses specified for the Provisional Registration in Part One.

# The Degree of Executive Master of Business Administration

## EMBA

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the degree of Executive Master of Business Administration requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a relevant Bachelor's degree, or equivalent;
  - have completed at least seven years business experience, at least three of which must be at management level; and
  - have been selected into the programme on the basis of a selection process which may include a written application, interview and practical exercises.

##### Qualification Requirements

- Candidates for the degree of Executive Master of Business Administration shall follow a parts-based programme of study, totalling at least 240 credits comprising:
  - Parts One and Two as specified in the Schedule to the Degree; and including:
  - the compulsory courses as specified in the Schedule to the Degree;
  - attending contact workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.

##### Specialisations

- The Executive Master of Business Administration is awarded without a subject specialisation.

##### Academic Requirements

- Over the entire period of enrolment in the degree, every candidate for the Executive Master of Business Administration shall complete, to the satisfaction of the Academic Board or their delegate, a Personal Learning Journey portfolio to be assessed in accordance with the requirements of one or more of the Part Two courses.

##### Student Progression

- For progression to Part Two candidates must have achieved a B- grade average across 105 credits completed in Part One.
- In cases of sufficient merit, the degree of Executive Master of Business Administration may be awarded with a class of honours provided that the requirements for the award of the Executive Master of Business Administration are completed within the timeframes specified in Regulation 7.

##### Completion Requirements

- Unless a specified time of suspension or extension has been approved by the Academic Board a candidate's programme of study may not exceed two calendar years plus six months (30 months).
- Permission must be sought in advance of any suspension or extension by applying in writing to the Academic Board or their delegate. Suspensions or extensions granted will appear on the academic transcript.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Business should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- For candidates enrolled in the degree of Executive Master of Business Administration the following will lead to exclusion from the qualification: failure to complete the degree within either the specified timeframes or within the timeframes specified by Academic Board or their delegate when a period of extension or suspension has been approved.

### Schedule for the Executive Master of Business Administration

# The Degree of Master of Advanced Leadership Practice

## MALP

### No new enrolments

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Master of Advanced Leadership Practice requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor's degree, having achieved a grade average of at least a B in the highest level courses, or equivalent;

- provide evidence that they are recognised by an organisation as having a relationship with them akin to employment, cadetship, or other, whereby access to data, operations, and decision-making processes, are made available;
  - be selected into the programme on the basis of an interview and written exercise.
- Notwithstanding the requirements of Regulation 1(c), candidates may be admitted to the Degree without such recognition, should an alternative placement structure be approved by Academic Board.

##### Qualification Requirements

- Candidates for the Master of Advanced Leadership Practice shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits at 700 and 800 level comprising:
  - Part One and Part Two as defined by the Schedule to the Degree;
  - attending field trips, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

- The Degree of Master of Advanced Leadership Practice is awarded without specialisation.

**Student Progression**

- For progression from Part One to Part Two, candidates must have achieved a Grade of at least B for the Part One courses.
- In cases of sufficient merit, the Degree of Master of Advanced Leadership Practice may be awarded with Distinction or Merit.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for

graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Business or the Postgraduate Certificate in Business should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

## The Degree of Master of Agribusiness

### MAgribus

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Degree of Master of Agribusiness requires that the candidate will:
  - meet the University admission requirements as specified; and shall have been:
  - awarded or qualified for an agricultural or business-related Bachelor's degree having achieved a B+ grade average or higher over the 300-level courses, or equivalent; or
  - awarded or qualified for a Bachelor's degree or equivalent having achieved a B+ grade average or higher over the 300-level courses and have completed at least three years of relevant work experience; or
  - awarded or qualified for a Bachelor of AgriCommerce with Honours having achieved Second Class Honours, Division I or higher or a Postgraduate Diploma in Agribusiness having achieved a B+ grade average or higher, or equivalent.

**Qualification Requirements**

- Candidates for the Degree of Master of Agribusiness shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - completion of Part One and Part Two as defined by the Schedule of the Degree; and including:
  - no more than a total of 30 credits of approved Special Topic or professional development courses.
- Notwithstanding Regulation 2, candidates admitted under Regulation 1(d) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

**Specialisations**

- The Degree of Master of Agribusiness is awarded without specialisations.

**Student Progression**

- For progression from Part One to Part Two, candidates must have achieved a Grade Average of B+ or higher over the first 60 credits undertaken for Part One.
- In cases of sufficient merit, the Degree of Master of Agribusiness may be awarded with Distinction or Merit.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Agribusiness should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Master of AgriCommerce prior to 1 January 2020 may satisfy the admission requirements in place prior to this date and may be permitted to graduate under the name Master of AgriCommerce once they have completed the requirements of the degree.
- Such candidates undertaking study in conjunction with the Research Pathway, who have completed at least 90 credits towards the qualification, may substitute a course already passed for 112.702.
- Such candidates who were undertaking study in conjunction with the Professional Pathway, who have completed at least 15 credits towards the qualification, may fulfil the professional pathway requirements as defined by Schedule B, including the progression criteria in place prior to 1 January 2020.
- These transitional arrangements expire 31 December 2023.

## The Degree of Master of Agriculture

### MAgr

#### No new enrolments

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

##### Admission

- Admission to the Master of Agriculture requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for the Bachelor of Agricultural Science with a major in the intended postgraduate subject, or equivalent; and
  - have achieved a B grade average over the 300-level majoring courses of the qualification(s) considered for admission, or equivalent.

##### Qualification Requirements

- Candidates for the Master of Agriculture shall follow a parts-based programme of study, which shall consist of 700- and 800-level courses totalling at least 180 credits, comprising:
  - Parts One and Two as specified in the schedule to the degree;
  - at least 60 credits at 800 level; including:
    - one of the compulsory courses listed in Schedule A to the Qualification;
    - at least 150 credits from the Schedule for the Qualification;
    - no more than 45 credits of Special Topic courses;
    - no more than 30 credits of professional development (5 credit) courses;
    - attending field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

- The degree of Master of Agriculture may be awarded with or without a subject.
- Candidates may complete a subject by passing at least 105 credits in a subject, including a research report of 60 credits in that subject. The requirements for each subject are set out in the Schedule for the Qualification.
- Subjects available in the Master of Agriculture are: Agriculture, Equine, Horticulture and Life Cycle Management.

##### Student Progression

- For progression from Part One to Part Two, candidates must have achieved a Grade Average of B over the first 90 credits undertaken for Part One, which must include the compulsory course, either 119.720 or 119.728.
- In cases of sufficient merit, the Degree of Master of Agriculture may be awarded with Distinction or Merit.

##### Completion Requirements

- The timeframes for completion as outlined in General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

## The Degree of Master of Analytics

### MAnalyt

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

##### Admission

- Admission to the Degree of Master of Analytics requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor's degree in the subject in which they intend to specialise, or equivalent, with a B grade average across the higher level courses;
  - have sufficient background in statistical analysis tools to satisfy the Academic Board that they have the capacity to undertake the programme.

##### Qualification Requirements

- Candidates for the Degree of Master of Analytics shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - Part One and Part Two as defined by the Schedule to the Qualification; and including:
  - any compulsory courses listed in the Schedule for the Qualification;
  - at least one subject;

- attending field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

- Candidates may complete a subject by passing at least 120 credits in a specialisation including the Applied Analytics Project from Part Two. The requirements for each subject are set out in the Schedule for the Qualification. Approved subjects are: Business, Health, Public Policy

##### Academic Requirements

- Every candidate for the Degree of Master of Analytics shall complete to the satisfaction of the Academic Board, a minimum of 600 hours in approved practica and associated reports in accordance with the following courses:
  - 115.801 Applied Analytics Project
  - 115.802 Applied Analytics Project Part 1
  - 115.803 Applied Analytics Project Part 2

##### Student Progression

- In cases of sufficient merit, the Degree of Master of Analytics may be awarded with Distinction or Merit.
- For progression from Part One to Part Two, candidates must have maintained a B- grade average over the Core compulsory courses undertaken in Part One.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.

8. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded a relevant postgraduate diploma should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

9. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

10. Subject to any Maximum Time to Completion and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Health subject within the Master of Analytics prior to 1 January 2022 who have successfully completed 250.702 or 250.704 may substitute either of these for 250.706 in order to fulfil the subject requirements until 31 December 2025.

### Schedule for the Master of Analytics

#### Part One

##### Core compulsory courses

158.739 Introduction to Analytics R 161750	15 credits
161.762 Multivariate Analysis for Big Data R 161323, 161772	15 credits
161.777 Practical Data Mining R 161223 and 161324	15 credits
178.724 Applied Econometric Methods	15 credits

##### Subject courses

##### Business (60 credits)

##### Either Option One: Marketing

156.761 Customer Insights	30 credits
---------------------------	------------

156.762 Return on Marketing Investment	30 credits
--	------------

#### Or Option Two: Finance

##### Compulsory course

125.788 Big Data in Finance and Banking	30 credits
<b>30 credits from</b>	
125.700 Managerial Finance P Appraisal Required R 125330	30 credits
125.740 Advanced Investment Analysis P 125700 or 125330 or Appraisal Required	30 credits
125.781 Advanced Financial Risk Management P 125700 or 125330 or Appraisal Required C 125700	30 credits

#### Health (60 credits)

##### 60 credits from

250.701 Quantitative Methods in Public Health	30 credits
250.703 Health Communication	15 credits
250.706 Applied Health Analytics	15 credits

#### Public Policy (60 credits)

##### No new enrolments

##### 60 credits from

230.704 Public Policy Analytics: Methodology, Design and Data	30 credits
230.705 Interpretation in Geospatial Analytics	15 credits
230.706 Integrated Data Infrastructure P 230704 C 230704	15 credits

#### Part Two (60 credits from)

115.801 Applied Analytics Project R 115802, 115803	60 credits
115.802 Applied Analytics Project Part 1 R 115801	30 credits
115.803 Applied Analytics Project Part 2 C 115802 R 115801	30 credits

## The Degree of Master of Applied Linguistics MAppLing

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Master of Applied Linguistics requires that the candidate:
  - meet the University admission requirements as specified; and shall have:
  - been awarded or qualified for a Bachelor's degree with at least a B grade average across the 200-300 level courses, or equivalent; and
  - have completed relevant teaching and related experience approved by Academic Board or their delegate as appropriate for entry; or
  - been awarded or qualified for a Postgraduate Diploma in Second Language Teaching or a Postgraduate Diploma in Applied Linguistics, with at least a B+ grade average for entry to the Master of Applied Linguistics Research Pathway or at least a B grade average for entry to the Coursework Pathway.

##### Qualification Requirements

- Candidates for the Master of Applied Linguistics shall follow a parts-based programme of study totalling at least 180 credits, comprising completion of Part One and Part Two as detailed in the Schedule for the Qualification.
- Notwithstanding Regulation 2, candidates admitted under Regulation 1(d) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

##### Specialisations

- The Master of Applied Linguistics is awarded with or without a subject.
- Candidates for the Degree of Master of Applied Linguistics may complete a subject by passing at least 180 credits in the subject.
- The requirements for each subject are set out in the Schedule for the Degree.

- The subject available for the Master of Applied Linguistics is: Teaching English to Speakers of Other Languages.

##### Student Progression

- For progression to Part Two in the Master of Applied Linguistics (Coursework Pathway), candidates must have achieved a B grade average in the Part One courses.
- For progression to Part Two in the Master of Applied Linguistics (Research Pathway), candidates must have achieved a B+ grade average in the first 60 credits of courses completed in Part One.
- In cases of sufficient merit, the Degree of Master of Applied Linguistics may be awarded with Distinction or Merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Applied Linguistics should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

## The Degree of Master of Applied Social Work

### MAppSW

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

##### Admission

1. Admission to the Degree of Master of Applied Social Work requires that the candidate will:
  - (a) meet the University admission requirements as specified;
  - (b) have been awarded or qualified for an undergraduate degree, either in the social sciences (such as social and cultural studies, psychology, human development) or an alternative degree with substantial relevant experience in a social or community setting;
  - (c) hold a driver's licence that is valid in New Zealand unless otherwise exempted;
  - (d) provide satisfactory evidence of their proficiency in English, if English is not the applicant's first language, in the form of:
    - (i) an overall academic score of at least 6.5 in an IELTS assessment with no band score less than 6.5 within the preceding two years; or
    - (ii) A TOEFL internet-based test (iBT) score of 85 or higher with a writing score of 22; or
    - (iii) at least two years of successful study in a New Zealand secondary school, with at least ten Level 2 NCEA credits in Literacy (five reading and five writing) or equivalent; and
  - (e) be selected into the programme.

##### Qualification Requirements

2. Candidates for the Degree of Master of Applied Social Work shall follow a programme of study comprising of courses totalling at least 240 credits including:
  - (a) any compulsory courses identified in the Schedule for the Qualification;
  - (b) attending contact or block courses, field trips, workshops, tutorials, and practice laboratories as required.

##### Specialisations

3. The Degree of Master of Applied Social Work is awarded without specialisation.

##### Academic Requirements

4. Every candidate for the Master of Applied Social Work shall perform at least 120 days of approved supervised field education and associated reports, in accordance with the requirements of the following courses:
  - (a) 179.789 Field Work Practice I
  - (b) 179.890 Field Work Practice II.

##### Student Progression

5. Candidates must continue to meet the requirements for registration as set down by the New Zealand Social Workers Registration Board in terms of candidates being 'fit and proper persons to practice social work'. Candidates must advise the Programme Coordinator of any change to their circumstances in this regard within seven days, including any conviction or criminal charges pending. Annual confirmation of eligibility is required.
6. The Degree of Master of Applied Social Work may be awarded with or without a class of Honours.

##### Completion Requirements

7. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
8. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Arts should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

9. For candidates enrolled in the Degree of Master of Applied Social Work, the following will lead to exclusion from the qualification:
  - (a) Failure to meet the requirements for registration as set down by the New Zealand Social Workers Registration Board in terms of candidates being 'fit and proper persons to practice social work';
  - (b) Failure to obtain a pass in a compulsory course for which they have been enrolled for on two occasions;
  - (c) Persons excluded under clause 9(b) will only be re-admitted to the Degree of Master of Applied Social Work with approval of the Academic Board, which may be declined, or granted under such conditions as it may determine.

##### Transitional Provisions

10. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled prior to 1 January 2020 who have successfully completed 179.790 may substitute this for 179.890 in order to fulfil the qualification and academic requirements until 31 December 2022.

#### Schedule for the Master of Applied Social Work

##### Compulsory courses (240 credits from)

179.781 Social and Community Work Theory and Practice I .....	30 credits
179.782 Social Policy Analysis .....	30 credits
179.783 Māori Development and the Social Services .....	30 credits

# The Degree of Master of Arts

## MA

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Master of Arts requires that the candidate:
  - meets the University admission requirements as specified; and shall have:
  - been awarded or qualified for a Bachelor of Arts with a major in the intended postgraduate subject with at least a B grade average across the 200-300 level specialisation courses; or equivalent; or
  - been awarded or qualified for a Bachelor of Arts (Honours) with a subject in the intended postgraduate subject, or a Postgraduate Diploma in Arts with an endorsement in the intended postgraduate subject, or an equivalent qualification, with at least a B+ grade average across the 700-level courses for entry to the Research Pathway or a B grade average across the 700-level courses for entry to the Coursework Pathway.
- Notwithstanding Regulation 1(b), in order to be admitted to the Psychology subject, candidates must have been awarded or qualified for a Bachelor's degree with a major in Psychology having achieved at least a B grade average in the 300-level Psychology specialisation courses, or equivalent.

##### Qualification Requirements

- Candidates for the Master of Arts shall follow a parts-based programme of study totalling at least 180 credits, comprising:
  - completion of Part One and Part Two as detailed in the Schedule for the Qualification;
  - completion of a subject.
- Notwithstanding Regulation 3, candidates admitted under Regulation 1(c) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

##### Specialisations

- Candidates for the Degree of Master of Arts must complete the requirements for one subject.
- The requirements for each subject are set out in the Schedule for the Qualification.
- Subjects available are: Defence and Security Studies, Economics, Education, English, Geography, History, Māori Knowledge, Media Studies, Museum Studies, Philosophy, Politics and International Relations, Psychology, Second Language Teaching, Social Anthropology, Social Policy, Sociology and Spanish.

##### Student Progression

- For progression to Part Two in the Master of Arts (Coursework Pathway), candidates must have achieved at least a B grade average in the first 60 credits of courses completed in Part One.
- For progression to Part Two in the Master of Arts (Research Pathway), candidates must have achieved at least a B+ grade average in the first 60 credits of courses completed in Part One.
- Candidates who do not meet the criteria for progression to Part Two, but who have achieved at least a C grade average in the first 60 credits of courses in Part One, may transfer to the Postgraduate Diploma in Arts.

11. In cases of sufficient merit the Degree of Master of Arts may be awarded with Distinction or Merit.

#### Completion Requirements

12. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
13. Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Arts or the Postgraduate Diploma in Arts should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

14. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

15. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who commenced study towards the Politics subject prior to 1 January 2020 who have completed 219.708 and/or 200.762 will be permitted to substitute one or both of these courses for 200.701 and/or 200.702. These transition arrangements expire 31 December 2022.
16. Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Māori Knowledge subject prior to 01 January 2020 may elect to be awarded the alternative specialisation title of Māori Studies on completion. These transition arrangements expire 01 December 2022.
17. Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Politics and International Relations subject prior to 01 January 2021 may elect to be awarded the alternative specialisation title of Politics on completion. These transition arrangements expire 01 December 2023.

## Schedule for the Master of Arts

## The Degree of Master of Aviation

### MAv

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Degree of Master of Aviation requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor of Aviation, Bachelor of Aviation Management or equivalent degree or qualification, having achieved a grade average of at least a B- in the highest level courses.

###### Qualification Requirements

- Candidates for the Master of Aviation shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits comprising:
  - Part One and Part Two as defined by the Schedule to the Degree; and including:
  - at least 60 credits at 800 level in accordance with either the Research pathway or the Professional pathway;
  - attending field trips, studios, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 2, candidates who have been awarded the Degree of Bachelor of Aviation Management with Honours, or the equivalent degree of another recognised university, may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

###### Specialisations

- The Degree of Master of Aviation is awarded without specialisation.

###### Student Progression

- For progression from Part One to Part Two in the Master of Aviation (Research Pathway), candidates must have achieved a Grade Average of at least B over the first 60 credits of courses completed in Part One, including the compulsory course.
- For progression from Part One to Part Two in the Master of Aviation (Professional Pathway), candidates must have achieved a Grade Average of at least B- over the courses completed in Part One, including the compulsory courses.
- In cases of sufficient merit, the Degree of Master of Aviation may be awarded with Distinction or Merit.

###### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression

from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Aviation or the Postgraduate Certificate in Business should they meet the relevant Qualification requirements.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

#### Schedule for the Master of Aviation

##### Master of Aviation (Research Pathway)

###### Part One (At least 60 credits from)

## The Degree of Master of Business Administration

### MBA

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the degree of Master of Business Administration requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a relevant Bachelor's degree, having achieved at least a B- grade average in the highest level courses, or equivalent; and

- (c) have completed at least three years of relevant postgraduate practical experience; and
- (d) have been selected into the programme on the basis of selection process which may include a written application, referee reports and practical exercises.

**Qualification Requirements**

2. Candidates for the degree of Master of Business Administration shall follow a parts based course of study, totalling at least 180 credits; comprising:
  - (a) Parts One and Two as specified in the schedule to the Degree; and including:
  - (b) the compulsory courses specified in the Schedule to the Degree;
  - (c) attending contact courses, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

3. The Degree of Master of Business Administration may be awarded with or without a subject.
4. The requirements for each subject are set out in the Master of Business Administration Schedule.
5. Subjects available are: Business Sustainability, Digital Transformation, Global Business.

**Student Progression**

6. For progression to Part Two candidates must have achieved a B- grade average across the courses completed in Part One.
7. In cases of sufficient merit, the degree of Master of Business Administration may be awarded with Distinction or Merit, in accordance with the provisions of the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Completion Requirements**

8. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Business or the Postgraduate Certificate in Business should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

10. The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

11. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the International Marketing subject within the Master of Business Administration prior to 1 January 2022 may graduate under this name, until 31 December 2024.

**The Degree of Master of Business Studies**

**MBS**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

1. Admission to the Master of Business Studies requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for a relevant Bachelor's degree or equivalent qualification, having achieved a grade average of at least a B- in the highest level courses.

**Qualification Requirements**

2. Candidates for the Master of Business Studies shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits comprising:
  - (a) Part One and Part Two as defined by the Schedule to the Degree
  - (b) completion of a subject.
3. Notwithstanding Regulation 2, candidates who have been awarded the Degree of Bachelor of Business Studies with Honours, or the equivalent degree of another recognised university, may apply for credit towards

Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

**Specialisations**

4. Candidates for the Degree of Master of Business Studies may complete a subject by passing at least 180 credits in a subject including:
  - (a) Thesis or Research Report of at least 60 credits;
  - (b) any compulsory courses identified in the Schedule to the Degree.
 The requirements for each subject are set out in the Schedule for the Qualification.
5. Notwithstanding Regulation 4, candidates admitted under Regulation 3 may complete a subject by passing at least 120 credits in a subject including a Thesis or Research Report of at least 60 credits.
6. Subjects available in the Master of Business Studies are: Accountancy, Banking, Communication, Economics, Finance, Human Resource Management, Management, and Marketing.

**Student Progression**

7. For progression from Part One to Part Two, candidates must have achieved a Grade Average of B- over 60 credits of the Part One courses, including the compulsory courses.
8. In cases of sufficient merit, the Degree of Master of Business Studies may be awarded with Distinction or Merit.

**Completion Requirements**

9. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
10. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Business or the Postgraduate Certificate in Business should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

11. The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

12. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Master of Business Studies prior to January 01 2019 may be permitted to substitute a course or courses already completed towards the Marketing subject for a course or courses included in the Marketing schedule. These transitional provisions expire 31 December 2022.
13. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Human Resource Management subject prior to 1 January 2022 who have successfully completed 114.894 or 114.897 and 114.898 or 114.899 may substitute these for 152.896 (in the case of 114.894), 152.804 and 152.805 (in the case of 114.897 and 114.898) and 152.800 (in the case of 114.899). Candidates currently enrolled in 114.897 may enrol in 114.898 in 2022 and substitute it for 152.800. These transition provisions expire 31 December 2024.

## The Degree of Master of Clinical Practice (Nursing)

### MClinPrac

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Degree of Master of Clinical Practice (Nursing) requires that the candidate will:
  - meet the University admission requirements as specified;
  - have been awarded or qualified for a Bachelor's degree or an equivalent qualification with a grade average of at least a B over the highest two levels of courses;
  - meet Health Clearance and Police Vetting requirements as specified by the Academic Board or their delegate;
  - meet the requirements for registration as a nurse in New Zealand as set down by the Nursing Council of New Zealand in terms of good character and fitness to be a nurse;
  - have achieved an IELTS of 7 with no band less than 7 within the preceding three months, if English is not the applicant's first language and the language of instruction in previous schooling is not English; and
  - be selected into the programme on the basis of a selection process which includes a written application, and may include an interview and practical exercises as determined by the Academic Board or their delegate.

###### Qualification Requirements

- Candidates for the Degree of Master of Clinical Practice shall follow a parts-based programme of study, which shall consist of courses totalling at least 240 credits, comprising:
  - Part One and Part Two as defined by the Schedule for the Qualification; and including:
    - the compulsory courses listed in the Schedule for the Qualification;
    - attending Contact Workshops, block courses, field trips, workshops, tutorials, laboratories and clinical experiences as required.

###### Specialisations

- The Degree of Master of Clinical Practice (Nursing) is awarded without specialisation.

###### Academic Requirements

- Every candidate for the Degree of Master of Clinical Practice (Nursing) shall complete to the satisfaction of Academic Board a minimum of 1100 hours of approved clinical practice and associated reports in accordance with the following courses:
  - 168.742: Fundamental Partnerships I
  - 168.743: Fundamental Partnerships II
  - 168.747: Complex Partnerships I
  - 168.847: Complex Partnerships I

###### Student Progression

- Candidates must maintain their eligibility for registration with the Nursing Council of New Zealand in terms of good character and fitness to be a nurse, throughout the duration of their enrolment in the programme.

- In cases of sufficient merit, the Master of Clinical Practice may be awarded with a class of Honours.

###### Completion Requirements

- A candidate's course of study shall not exceed five calendar years unless a specified time of suspension or extension is approved by the Academic Board and the Nursing Council of New Zealand. Permission must be sought in advance of any suspension or extension by applying in writing to the Master of Clinical Practice (Nursing) Programme Director. Suspensions or extensions granted will appear on the academic transcript.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Science and Technology or the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

###### Unsatisfactory Academic Progress

- For candidates enrolled in the Degree of Master of Clinical Practice (Nursing), the following will lead to exclusion from the qualification:
  - failure to obtain a pass in any of the Master of Clinical Practice (Nursing) courses for which they have been enrolled on two occasions;
  - failure to pass courses totalling at least 75 academic credits or failure to pass at least 60% of an approved part-time programme of study in any academic year; or
  - failure to complete the Degree within five years from the date of first enrolment.

Candidates excluded under (a), (b), or (c) above will only be re-admitted to the Master of Clinical Practice (Nursing) with the approval of the Academic Board.

## The Degree of Master of Clinical Psychology

### MClinPsych

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the degree of Master of Clinical Psychology requires that the candidate will:
  - have met the University admission requirements as specified; and
  - have been awarded or qualified for a Master's degree with First Class or Second Class Division I Honours in Psychology with at least 90 credits of research or the equivalent or a PhD in Psychology; and
  - have been selected following a selection process which will include a written application, selection panel interview, and consideration

of prior professional experience (if any), a personal statement of intent and career goals, and letters of recommendation from relevant professionals familiar with the candidate's academic and practical work; and

- (d) on the basis of 1(c), have satisfied the Academic Board, or their delegate, that they have sufficient personal qualities, ethical standards, and professional potential, and are suitable to undertake a professional programme of study which satisfies the eligibility requirements to practice as a Registered Psychologist in accordance with the Health Practitioners Competence Assurance Act of 2003, or as amended; and
- (e) have completed the following courses, or their equivalents, obtaining at least a B+ average within the previous three years: 175.781 Understanding Mental Distress; 175.782 Clinical Psychology Assessment and 175.783 Clinical Psychology Interventions.

**Qualification Requirements**

- 2. Candidates for the degree of Master of Clinical Psychology shall follow a parts-based course of study, which shall consist of courses totalling at least 240 credits, comprising:
  - (a) completion of Part One and Part Two as detailed in the Schedule for the Qualification;
  - (b) attending training activities as required.

**Specialisations**

- 3. The Master of Clinical Psychology is awarded without a subject.

**Academic Requirements**

- 4. Candidates must achieve specified performance standards in the academic courses, the clinical practicum courses, the internship, and research case studies.

**Student Progression**

- 5. For progression from Part One to Part Two, candidates must pass all of the Part One courses.

- 6. The Master of Clinical Psychology is awarded without a class of honours.

**Completion Requirements**

- 7. The Academic Board or their delegate shall determine the minimum period of enrolment, normally two years (24 months), and conditions of studentship for each candidate.
- 8. A candidate's course of study may not exceed three years (36 months) from date of first enrolment in a course to be credited to the Master of Clinical Psychology unless, under exceptional circumstances, a programme of up to four years (48 months) is approved by the Academic Board or their delegate.
- 9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

- 10. For candidates enrolled in the Master of Clinical Psychology the following will lead to exclusion from the qualification:
  - (a) failure to complete any Part One course in two successive attempts;
  - (b) failure to complete the Clinical Psychology Internship in two successive attempts.

**Schedule for the Master of Clinical Psychology**

**Part One (120 credits from)**

175.811 Clinical Assessment Skills ..... C 175812, 175813	30 credits
175.812 Clinical Intervention Skills..... C 175811 and 175813 R 175936	30 credits
175.813 Clinical Psychology Practica ..... C 175811 and 175812	60 credits

**Part Two (120 credits from)**

175.814 Clinical Psychology Internship.....	120 credits

**The Degree of Master of Communication**

**MC**

**No new enrolments**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

- 1. Admission to the Degree of Master of Communication requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for a university Bachelor's degree or an equivalent qualification in a field relevant to the study of communication and have achieved a B grade average over the 300-level majoring courses; or
  - (c) have been awarded or qualified for a Bachelor of Communication with Honours or equivalent, or a Postgraduate Diploma in Communication or equivalent, having achieved a B grade average.
- 2. In addition, candidates will be required to have achieved an IELTS of 7 with no band less than 6.5 within the preceding five years if English is not the applicant's first language and the qualifying degree was not completed at a University where English was the medium of instruction.

**Qualification Requirements**

- 3. Candidates for the Degree of Master of Communication shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - (a) Part One and Part Two as specified by the Schedule to the Qualification;
  - (b) at least 60 credits at 800 level; and including:
    - (c) the core courses listed in Schedule A to the Qualification;
    - (d) a maxima of 30 credits from Schedule C to the Qualification;
    - (e) attending field trips, Contact Workshops, studios, workshops, tutorials, and laboratories as required.

- 4. Notwithstanding Regulation 3, candidates admitted under Regulation 1(c) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

**Specialisations**

- 5. The Degree of Master of Communication is awarded without specialisation.

**Student Progression**

- 6. For progression to Part Two, candidates must have achieved a B grade average over Part One (120 credits) of the qualification. Students not meeting this criterion but who have completed 120 credits in accordance with the Part One regulations may be eligible to exit with a Postgraduate Diploma in Communication.
- 7. In cases of sufficient merit, the Degree of Master of Communication may be awarded with Distinction or Merit.

**Completion Requirements**

- 8. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- 9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Communication should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- 10. The general Unsatisfactory Academic Progress regulations will apply.

## The Degree of Master of Construction

### MConstr

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Degree of Master of Construction requires that the candidate will:
  - meet the University admission requirements as specified; and For entry into the Thesis Pathway:
  - have been awarded or qualified for a construction related four year Bachelor with Honours degree or a Bachelor of Construction (Honours) or equivalent qualification with a minimum grade average of B over the contributing courses for the Honours year; or
  - have been awarded or qualified for a relevant Bachelor's degree followed by a relevant Postgraduate Certificate with a minimum grade average of B+ over the contributing courses for the Postgraduate Certificate, or equivalent.
 For entry into the Coursework Pathway:
  - have been awarded or qualified for the Bachelor of Construction or equivalent qualification with a minimum grade average of B across the highest level courses; or
  - have been awarded or qualified for the Bachelor of Construction or equivalent qualification and have completed at least two years of relevant professional experience; or
  - have been awarded or qualified for a construction related four year Bachelor with Honours degree or a Bachelor of Construction (Honours) or equivalent qualification; or
  - have been awarded or qualified for the Bachelor of Construction followed by the Postgraduate Diploma in Construction or equivalent qualification with a minimum grade average of B over the contributing courses for the Postgraduate Diploma; or
  - have been awarded or qualified for a relevant Bachelor's degree followed by a relevant Postgraduate Certificate with a minimum grade average of B over the contributing courses for the Postgraduate Certificate, or equivalent.

**Qualification Requirements**

- Candidates for the Degree of Master of Construction shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - courses selected from the Schedule for the Qualification;
  - at least 45 credits from Schedule C;
 and including:
  - attending workshops, block courses, tutorials, or laboratories as required.
- The programme of study for the Master of Construction without a subject must include 218.717 for the Coursework Pathway, and both 218.717 and 218.718 for the Thesis Pathway.
- Notwithstanding Regulation 2, candidates admitted under Regulation 1(b), (c), (f), (g) or (h) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.
- Notwithstanding Regulation 2, the programme of study for candidates admitted under Regulation 1(e) or (f) may consist of 120 credits selected from the Schedule for the Qualification including at least 45 credits from Schedule C.

**Specialisations**

- The Degree of Master of Construction may be awarded with or without a subject.
- Candidates may complete a subject by passing at least 75 credits in a subject; the requirements for each subject are set out in Schedule A for the Qualification.
- Subjects available are: Building Technology\*, Construction Law, Construction Project Management, Digital Built Environment, Facilities Management\*, Quantity Surveying, Sustainable Built Environment.  
\*No new enrolments

**Student Progression**

- For progression from Part One to Part Two of the Master of Construction (Coursework Pathway) candidates must have achieved a minimum B grade average over the first 60 credits in Part One.
- For progression from Part One to Part Two of the Master of Construction (Thesis Pathway) candidates must have achieved a minimum B+ grade average over the first 60 credits in Part One.
- In cases of sufficient merit, the Degree of Master of Construction may be awarded with distinction or merit.

**Completion Requirements**

12. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
13. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Construction or Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

14. The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

15. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates enrolled in the Master of Construction prior to 1 January 2022 may fulfil the credit requirements of the qualification (and the subject in which they were enrolled, if applicable) and entry requirements prior to this time, and are exempt from taking 218.717 and 218.718 and from progression requirements. Such candidates may substitute a course or courses already completed for a course or courses at the same level and of the same value in the schedule and may take 218.820 in order to fulfil Part Two requirements. This transition expires 31 December 2025.

## The Degree of Master of Counselling Studies

### MCounsStuds

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

1. Admission to the Master of Counselling Studies requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for either:
    - (i) the Postgraduate Diploma in Education (Counselling and Guidance); or
    - (ii) the Postgraduate Diploma in Rehabilitation (Rehabilitation Counselling); or
    - (iii) an approved equivalent qualification; and
  - (c) have achieved at least a B grade average across all courses in the qualifying programme of study; and
  - (d) have satisfied the Academic Board that they have sufficient background of professional experience to be likely to successfully engage in the programme.
2. Admission to the qualification will be granted or withheld on consideration of the admission requirements specified under Regulation 1, a police vetting report and a selection process that may include a written application, interview, and practical exercises as may be determined by the College Pro Vice-Chancellor or their delegate.

**Qualification Requirements**

3. Candidates for the Master of Counselling Studies shall follow a fixed programme of study, which shall consist of:
  - (a) courses totalling at least 120 credits as specified in the Schedule to the degree.

- (b) attending workshops, tutorials, and laboratories as required;
- (c) completion of supervised practice as specified in the requirements for the Professional Development in Counselling I and Professional Development in Counselling II courses.

**Specialisations**

4. There are no specialisations for this degree.

**Academic Requirements**

5. The degree shall be awarded on the basis of the whole examination which shall include the evaluation of the separate courses and of the research project, with the proviso that all components shall be at least of pass standard.
6. A candidate may be permitted to revise an unsatisfactory Research Project and to resubmit it for assessment on one occasion.

**Student Progression**

7. The Master of Counselling Studies is not awarded with honours, distinction or merit.

**Completion Requirements**

8. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

10. The general Unsatisfactory Academic Progress regulations will apply.

**Schedule for the Master of Counselling Studies**

## The Degree of Master of Creative Enterprise

### MCE

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

1. Admission to the Degree of Master of Creative Enterprise requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for a relevant bachelor's degree, with a grade average of at least a B in the highest level courses, or equivalent.
  - (c) have been awarded or qualified for the Bachelor of Design with (Honours) or the Bachelor of Fine Arts (Honours), with a grade average of at least a B in the Part Four courses, or equivalent qualification(s) and grade average; or
  - (d) have been awarded or qualified for a relevant Postgraduate Diploma, with a grade average of at least a B, or equivalent;

- (e) have been granted admission under the Admission with Equivalent Status regulations and demonstrate practical, professional and scholarly experience at an appropriate level.
2. In all cases candidates must be selected into the programme on the basis of an interview and, for candidates seeking entry under Regulations 1(c) or (d), submission of a satisfactory project proposal.

**Qualification Requirements**

3. Candidates for the Degree of Master of Creative Enterprise shall follow a parts-based course of study, which shall consist of courses totalling at least 180 credits, comprising:
  - (a) Part One and Part Two as specified in the Schedule for the Qualification;
  - (b) attending contact courses, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
4. Notwithstanding Regulation 3, the programme of study for a candidate admitted under Regulation 1 (c) or (d), shall consist of 120 credits from courses listed in the Master of Creative Enterprise schedule, including 293.703, 293.731, and completion of all of Part Two as specified.

**Specialisations**

5. The Degree of Master of Creative Enterprise Candidates is awarded without a specialisation.

**Student Progression**

6. For progression to Part Two, candidates must have achieved at least a B grade average in the first 60 credits completed in Part One (293.701, 293.702, 293.730) and presented a satisfactory project proposal.
7. In cases of sufficient merit, the Degree of Master of Creative Enterprise may be awarded with distinction or merit on the basis of the grade average achieved across 293.703, 293.731 and the Part Two project, in accordance with the provisions of the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Completion Requirements**

8. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Creative Arts, should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

10. The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

11. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Master of Creative Enterprise prior to 1

January 2020 are exempt from the requirement to have been admitted on the basis of the achievement of a grade average of at least a B across all courses contributing to the entry qualification, but must have achieved a grade average of at least a B across the highest level courses contributing to that degree, or equivalent. Such candidates are exempt from the requirement to be selected on the basis of an interview and from the requirement to present a satisfactory proposal in order to progress to Part Two. These transition arrangements expire 31 December 2023.

**Schedule for the Master of Creative Enterprise**

**The Degree of Master of Creative Writing  
MCW**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

1. Admission to the Master of Creative Writing requires that the candidate will:
  - (a) meet the University admission requirements as specified; and will have:
  - (b) been awarded or qualified for a Bachelor's degree with at least a B grade average across the 200- and 300-level specialisation courses, or equivalent; or
  - (c) been awarded or qualified for a Bachelor's with Honours degree in Creative Writing, Expressive Arts or English, with at least a B grade average for the qualification, or equivalent; or
  - (d) been awarded or qualified for a Postgraduate Diploma in Arts in Creative Writing, Expressive Arts or English, with at least a B grade average for the qualification, or equivalent;
 and will have:
  - (e) been selected into the programme on the basis of an assessment of the substance and quality of a portfolio of creative writing prepared by the candidate.

**Qualification Requirements**

2. Candidates of the Degree of Master of Creative Writing shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - (a) completion of Part One and Part Two as detailed in the Schedule for the Qualification;
  - (b) attendance of a compulsory workshop either on-line or in person.
3. Notwithstanding Regulation 2, candidates admitted under Regulation 1(c) or (d) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

**Specialisations**

4. The Master of Creative Writing is awarded without a specialisation.

**Student Progression**

5. In cases of sufficient merit, the Degree of Master of Creative Writing may be awarded with distinction or merit.

6. For progression to Part Two of the Master of Creative Writing candidates must have maintained a grade average of at least a B+ over the 60 credits undertaken for Part One.

**Completion Requirements**

7. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.
8. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate Arts, should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

9. The general Unsatisfactory Academic Progress regulations will apply.

## The Degree of Master of Design

### MDes

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Degree of Master of Design requires that the candidate will:
  - meet the University admission requirements as specified; and will:
  - have been awarded or qualified for a relevant Bachelor's degree or equivalent qualification with a grade average of at least B; or
  - have been awarded or qualified for the Bachelor of Design (Honours) or the Bachelor of Fine Arts (Honours) with a grade average of at least B in Part 4 courses, or equivalent; or
  - have been awarded or qualified for the Postgraduate Diploma in Design with a grade average of at least B, or equivalent; or
  - have been granted admission under the Admission with Equivalent Status regulations and demonstrate practical, professional and scholarly experience at an appropriate level; and will have:
    - been selected into the programme on the basis of an interview and assessment of a portfolio of design work prepared by the candidate.

###### Qualification Requirements

- Candidates for the Degree of Master of Design shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 approved credits and include completion of Part One and Part Two. The requirements for Part One and Part Two are prescribed in the Schedule for the Qualification.
- Notwithstanding Regulation 2, the programme of study for a candidate who has been awarded or qualified for the Bachelor of Design (Honours), Bachelor of Fine Arts (Honours), Postgraduate Diploma in Design, or equivalent, shall consist of thesis courses totalling 120 credits, as prescribed in Part Two in the Schedule for the Qualification.

###### Specialisations

- This qualification is awarded without specialisation.

###### Student Progression

- In cases of sufficient merit, the Degree of Master of Design may be awarded with distinction or merit.
- For progression to Part Two of the Master of Design, candidates must have maintained a grade average of at least B over the 60 credits undertaken for Part One.

###### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

# The Degree of Master of Education

## MEd

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Master of Education requires that the candidate will:
  - meet the University admission requirements as specified; and shall have
  - been awarded or qualified for the Bachelor of Education with a grade average in the highest level courses of at least a B, or equivalent; or
  - been awarded or qualified for any other Bachelor's degree with a grade average in the highest level courses of at least a B, or equivalent, and hold a professional qualification in teaching; or
  - been awarded or qualified for any other Bachelor's degree with a grade average in the highest level courses of at least a B, or equivalent, and have professional experience relevant to the intended postgraduate subject; or
  - been awarded a Postgraduate Diploma in Education, or equivalent, with a grade average across all courses of at least B (Coursework pathway) or at least B+ (Research pathway).

##### Qualification Requirements

- Candidates for the Degree of Master of Education shall follow a parts-based programme of study totalling at least 180 credits from the Master of Education Schedule, comprising:
  - completion of Part One and Part Two as specified in the Schedule for the Degree; and including
  - at least 15 credits (Coursework Pathway) or 30 credits (Research Pathway) of research methods course(s) as listed in the Schedule for the Degree.
- Notwithstanding Regulation 2, candidates admitted under Regulation 1(e) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

##### Specialisations

- The Degree of Master of Education may be awarded with or without a subject.
- A candidate may complete a subject by completing at least 135 credits (Coursework pathway) or at least 150 credits (Thesis pathway) in a subject including Part Two. The requirements for each subject are set out in the Schedule for the Degree.
- Subjects available for the Master of Education are: Digital Education, Early Years, Educational Administration and Leadership, Inclusive Education, Literacy Education, Māori Education, Mathematics Education, Teaching and Learning, Teaching English to Speakers of Other Languages Leadership, and Tertiary Education.

##### Student Progression

- For progression to Part Two in the Master of Education (Coursework pathway), candidates must have achieved a B grade average in the first 120 credits of courses completed in Part One.
- For progression to Part Two in the Master of Education (Research pathway), candidates must have achieved a B+ grade average in the first 90 credits of courses completed in Part One.
- In cases of sufficient merit, the Degree of Master of Education may be awarded with Distinction or Merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Education or the Postgraduate Diploma in Education should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Candidates enrolled in the Master of Education prior to 1 January 2019 who have completed at least 30 credits towards the Tertiary Education subject may be permitted to substitute a course or courses already completed for a course or courses in the Tertiary Education Schedule. For such candidates, the substitution of a course already completed towards the subject for the compulsory course 273.785 may be permitted. These transitional arrangements expire on 31 December 2023.
- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Master of Education prior to 1 January 2019 who have completed at least 30 credits towards the E-Learning subject may choose to graduate with either the E-Learning or Digital Education subject title. These transition arrangements expire 31 December 2022.
- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Master of Education, Inclusive Education subject prior to 1 January 2020 will be permitted to substitute 256.756 for 263.704. These transition arrangements expire 31 December 2023.

## The Degree of Master of Educational and Developmental Psychology

### MEdDevPsych

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the degree of Master of Educational and Developmental Psychology requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor's degree in Education, Psychology, Counselling, Social Work, Speech Language Therapy, or a related relevant discipline, having achieved a grade average of at least a B in the highest level courses, or equivalent; and
  - have completed at least 60 credits of Academic Board or delegate approved psychology courses including at least 45 credits at 200 level or higher.

**Qualification Requirements**

- Candidates for the Master of Educational and Developmental Psychology shall follow a flexible programme of study, which shall consist of courses totalling at least 240 credits, comprising:
  - Part One and Part Two as specified in the schedule; and including:
  - any compulsory courses listed in the Schedule to the degree;
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.

- Notwithstanding Regulation 2, candidates who have been awarded or qualified for the Postgraduate Diploma in Resource Teacher: Learning and Behaviour (RTLb) or the Postgraduate Diploma Resource Teacher: Literacy (RTLit), with a grade average of at least a B, or equivalent, shall follow a flexible programme of study which shall consist of courses totalling at least 180 credits, comprising courses from the schedule, including:
  - Part Two as specified in the Schedule to the Degree; and including:
  - attending contact workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.

**Specialisations**

- The Master of Educational and Developmental Psychology is awarded without a subject.

**Student Progression**

- In cases of sufficient merit, the Master of Educational and Developmental Psychology may be awarded with a class of Honours.

6. For progression from Part One to Part Two of the Master of Educational and Developmental Psychology candidates must have maintained a B+ grade average over the Part One courses.

#### Completion Requirements

7. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
8. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Education without an endorsement should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

9. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

10. Candidates who have completed the Postgraduate Diploma in Education (Educational Psychology) and satisfy the entry requirements for the Master of Educational and Developmental Psychology may transfer and complete the following 120 credits: 30 credits of 256.7xx courses, 256.855, and 256.847.
11. Candidates who have not yet completed the Postgraduate Diploma in Education (Educational Psychology) may apply to transfer to the Master of Educational and Developmental Psychology providing they meet the entry requirements and can satisfy all requirements as specified in the regulations.

12. In all cases candidates must complete the requirements within the timeframes for completion as specified in the Transitional Provisions or the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

### Schedule for the Master of Educational and Developmental Psychology

#### Part One

## The Degree of Master of Educational Psychology MEdPsych

### No new enrolments

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Before enrolling candidates shall:
  - have qualified for an approved undergraduate degree in Education, Educational Psychology, Psychology or Teaching with a minimum B average; and
  - have been granted admission to postgraduate study as entitled to proceed to the degree of Master of Educational Psychology; and
  - have satisfied the Academic Board that they have sufficient background of professional experience to be likely to benefit from the programme; and
- Candidates for the degree of Master of Educational Psychology shall normally be enrolled in the Postgraduate Diploma in Education (Educational Psychology) in the first instance.
  - Transfer into the Master of Educational Psychology will be based on academic performance in the Postgraduate Diploma in Education (Educational Psychology). A minimum performance of B+ average or equivalent is required.
  - Candidates intending to apply for selection and admission into the Postgraduate Diploma in Educational Psychology (the internship) are required to have successfully completed 45 credits in approved undergraduate psychology courses with a minimum B average.

##### Notes

- Successful completion of the Master of Educational Psychology will not give automatic entry into the Postgraduate Diploma in Educational Psychology.
- Admission to the Postgraduate Diploma in Education Psychology is by selection.

##### Qualification Requirements

- A candidate shall follow for not less than two calendar years a programme of study of 240 credits comprising courses to the value of 150 credits and a research thesis to the value of 90 credits (267.880 or 267.881 and 267.882) in accordance with the Schedule below.

### Academic Requirements

#### Notes

- Entry to the thesis options is dependent on at least a B+ average performance being attained.
- Students will normally enrol in the thesis 1 and 2 in consecutive semesters/years. They may not enrol into 267.881 and 267.882 concurrently.
- Those students intending on proceeding to the Postgraduate Diploma in Educational Psychology (Internship) are required by the Psychologists Registration Board to have completed three full year or equivalent 200- or 300-level undergraduate psychology courses e.g. organisational/social psychology, abnormal/clinical psychology, neuropsychology, developmental psychology prior to enrolling in the PGDipEdPsych programme.
- Subject to the approval of the College Pro Vice-Chancellor or nominee, a student may select approved courses up to the value of 60 credits from those courses listed in the other Masterate Schedules. This option is not available for students who have been granted an exemption for some prescribed courses as outlined in the following Concession 4 and 5.

#### Concessions

- Candidates who have completed the Massey University degree of Postgraduate Diploma in Education (Educational Psychology) or equivalent and who are eligible for admission to the Master of Educational Psychology degree shall follow an official programme of study for not less than one year, consisting of at least 120 credits. For such a candidate the Qualification Regulations for the Master of Educational Psychology shall be deemed to apply from the date of enrolment for the postgraduate diploma. Such candidates who surrender the scroll awarded on completion of the qualifying programme of study will be eligible for the award of honours in cases of sufficient merit.
- Candidates who have been awarded a Resource Teacher: Learning and Behaviour (RTL B), Resource Teacher: Literacy (RTLit) postgraduate diploma or an approved equivalent qualification from another institution and who are eligible for entry to the Master of Educational Psychology degree shall follow an approved programme of study of at least 120 credits, which together with the qualifying programme of study shall form a coherent programme of 240 credits, provided that a specified minimum standard of performance has been met (i.e. 'B' average). Candidates will not be eligible for Honours but the degree may be awarded with distinction in cases of sufficient merit.

## The Degree of Master of Emergency Management

### MEmergMgt

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Master of Emergency Management requires that the candidate will:
  - meet the University admission requirements as specified; and have been awarded or qualified for;
  - an undergraduate degree with a minimum grade average of B across 200-300-level major courses and have completed at least two years of relevant industry or professional experience, or equivalent; or
  - the Postgraduate Diploma in Emergency Management having achieved at least a B grade average, or equivalent.

##### Qualification Requirements

- Candidates for the Master of Emergency Management shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits comprising:
  - completion of Part One and Part Two as detailed in the Schedule for the Qualification; and including:
  - any compulsory courses;
  - attending field trips, studios, workshops, tutorials and laboratories as required.
- Notwithstanding Regulation 2, candidates admitted under Regulation 1(c) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

##### Specialisations

- The Master of Emergency Management is awarded without a specialisation.

##### Student Progression

- For progression to Part Two in the Master of Emergency Management (Coursework Pathway) candidates must have achieved a B grade average across the first 60 credits of courses completed in Part One.
- For progression to Part Two in the Master of Emergency Management (Research Pathway) candidates must have achieved a B+ grade average across the first 60 credits of courses completed in Part One.

- In cases of sufficient merit, the Degree of Master of Emergency Management may be awarded with Distinction or Merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Emergency Management or the Postgraduate Certificate in Emergency Management should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Master of Emergency Management

#### Part One: Coursework Pathway (120 credits) or Research Pathway (90 credits)

##### Compulsory courses (60 credits from)

130.705 Emergency Management .....30 credits	
230.703 Techniques and Methods in Evaluation Research .....30 credits	

##### Elective courses

130.701 Natural Hazards .....30 credits	
130.702 Coping with Disasters .....30 credits	
130.706 Emergency Management in Practice .....30 credits	
130.707 Professional Inquiry in Emergency Management .....30 credits	
P 130705 and 230703	
132.751 Natural Hazards and Resilient Communities .....30 credits	

#### Part Two: Coursework Pathway (60 credits from)

130.800 Advanced Leadership in Emergency Management 1 .....30 credits	
P 230703, 130705	
130.802 Advanced Leadership in Emergency Management 2 .....30 credits	
P 130800	

#### Part Two: Research Pathway (90 credits from)

130.881 Thesis 90 Credit Part 1 .....45 credits	
130.882 Thesis 90 Credit Part 2 .....45 credits	
C 130881	
130.883 Thesis .....90 credits	

## The Degree of Master of Engineering

### ME

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Master of Engineering requires that the candidate will:

- meet the University admission requirements as specified; and have
- been awarded or qualified with the Bachelor of Engineering with Honours or equivalent with a minimum B grade average over the highest level majoring courses; or
- been awarded or qualified for the Postgraduate Diploma in Engineering or equivalent with a minimum B grade average; or
- been awarded or qualified with the Bachelor of Engineering with Honours or equivalent and have significant professional experience; or

- (e) been awarded or qualified for the Postgraduate Diploma in Engineering or equivalent and have significant professional experience.

#### Qualification Requirements

2. Candidates for the Master of Engineering shall follow a fixed programme of study, which shall consist of courses totalling at least 120 credits, comprising:
- completion of a thesis as defined by the Schedule to the Qualification; and including:
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

#### Specialisations

3. The Master of Engineering will be awarded with a subject.  
4. The subject will follow the name of a major in the Bachelor of Engineering with Honours degree.

#### Student Progression

5. In cases of sufficient merit, the Master of Engineering may be awarded with distinction or merit.

#### Completion Requirements

6. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.  
7. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

#### Unsatisfactory Academic Progress

8. The general Unsatisfactory Academic Progress regulations will apply.

#### Schedule for the Master of Engineering

228.897 Thesis 120 Credit Part 1 .....	60 credits
228.898 Thesis 120 Credit Part 2 .....	60 credits
C 228897	
228.899 Thesis .....	120 credits

## The Degree of Master of Engineering Studies

### MEngSt

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

#### Admission

1. Admission to the Master of Engineering Studies requires that the candidate will:
- meet the University admission requirements as specified; and shall have been awarded or qualified for a relevant:
  - four-year Bachelor's degree with Honours or equivalent; or
  - three-year Bachelor's degree plus an Honours Degree, or equivalent; or
  - Postgraduate Diploma or equivalent.

#### Qualification Requirements

2. Candidates for the Master of Engineering Studies shall follow a parts-based programme of study, which shall consist of courses totalling at least 120 credits, comprising:
- Part One consisting of 75 credits at 700 level from courses listed in the Schedule to the Degree;
  - Part Two consisting of 45 credits at 800 level as specified in the Schedule to the Degree; and including:
  - any compulsory courses listed in the Schedule for the Degree;
  - attending field trips, studios, workshops, tutorials, and laboratories as required.

#### Specialisations

3. The degree of Master of Engineering Studies may be awarded with or without a subject.  
4. Candidates may complete a subject by passing at least 45 credits in a subject as specified in the Master of Engineering Studies schedule.  
5. The subjects available for the Master of Engineering Studies are: Electronics and Computer Engineering; Energy Management; Engineering and Innovation Management; Life Cycle Management; Mechatronics; Packaging Technology; Renewable Energy Systems.

#### Student Progression

6. The candidate must complete within one year of first enrolling in full-time study or within three years of first enrolling in part-time study to be eligible for Distinction or Merit.  
7. For progression to Part Two, candidates must have maintained a grade average of at least a B- over the first 60 credits of courses completed in Part One, including at least a B grade in 228.797.

#### Completion Requirements

8. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.  
9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the

Postgraduate Certificate in Science and Technology or the Postgraduate Diploma in Engineering should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

10. The general Unsatisfactory Academic Progress regulations will apply.

#### Schedule for the Master of Engineering Studies

##### Part One (75 credits from)

#### Compulsory Research Methods course

228.797 Research Methods in Engineering and Technology .....	15 credits

## The Degree of Master of Environmental Management

### MEnvMgmt

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Degree of Master of Environmental Management requires that the candidate will:
  - meet the University admission requirements as specified; and shall have been awarded or qualified for a:
  - Relevant Bachelor's degree or an equivalent qualification, having achieved a B grade average or higher, over the qualifying 300-level courses; or
  - Postgraduate Diploma in Environmental Management with a grade average of B or higher (Applied Pathway) or B+ or higher (Research Pathway), or equivalent; or

- Bachelor of Environmental Management (Honours), having achieved Second Class Honours Division II or higher (Applied Pathway) or Second Class Honours Division I or higher (Research Pathway), or an equivalent qualification.

**Qualification Requirements**

- Candidates for the Degree of Master of Environmental Management shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - completion of Part One and Part Two as defined by the Schedule to the Degree;
  - courses selected from the Schedule to the Degree; and including:
  - any compulsory courses listed in the Schedule to the Degree;
  - attending field trips, studios, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 2, candidates admitted under Regulation 1(c) or (d) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

- Notwithstanding Regulation 2, a candidate admitted to the Master of Environmental Management Research Pathway under Regulation 1(c) or (d) may be permitted to complete a programme comprising the 120 credit thesis course 188.889 or 188.897 and 188.898 and 60 credits from Part One, which must include 188.764 and 188.765.
- Notwithstanding Regulations 2 and 3, and at the discretion of Academic Board, candidates may be required to complete one or more bridging courses, 188.707 and/or 188.708, should their entry qualification be deficient in important aspects of environmental science.

**Specialisations**

- The Degree of Master of Environmental Management is awarded without specialisations.

**Student Progression**

- For progression from Part One to Part Two (Research Pathway), candidates must have achieved a Grade Average of B+ or higher over the first 60 credits undertaken for Part One.
- For Progression from Part One to Part Two (Applied Pathway), candidates must have achieved a Grade Average of B or higher over the first 120 credits undertaken for Part One.
- In cases of sufficient merit, the Degree of Master of Environmental Management may be awarded with Distinction or Merit.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Environmental Management should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates enrolled in the Master of Environmental Management prior to 1 January 2022 may substitute a course or courses already passed for a course or courses in Part One of the Schedule until 31 December 2025.
- Candidates who commenced the Master of Environmental Management prior to 1 January 2022 may substitute 188.885 and 188.886 for 188.881 and 188.882, until 31 December 2024.

**Schedule for the Master of Environmental Management**

**Part One**

**Core Courses**

**30 credits from**

188.764 Advanced Environmental Management I	15 credits
R 188763	
188.765 Advanced Environmental Management II	15 credits
R 188763	

**At least 60 credits from**

176.718 Environmental Sociology	30 credits
178.742 Environmental Economics for Non-Economists	15 credits
R 178360 and 178762	
188.705 Environmental Policy	15 credits
188.707 Environmental Management Principles and Practice	15 credits

188.708 Land System Change	15 credits
188.751 Advanced Zero Waste for Sustainability	30 credits
189.730 Sustainable Land and Water Management	15 credits
232.701 Conservation Biology	30 credits
R 196719	
233.712 Environmental Geographic Information Systems	15 credits
R 233706	
235.701 Māori Values and Resource Management	15 credits
R 188704	
238.700 Life Cycle Assessment (LCA) and Footprinting Principles	15 credits

**Elective Courses (No more than 30 credits from)**

119.710 Nutrient Management in Grazed Pasture Systems	30 credits
119.731 Topics in Agricultural Extension and Consultancy	15 credits
R 111755	
119.752 Advanced Farm and Horticultural Management	15 credits
P 119381, 119382, 119358 R 111752, 119751	
130.705 Emergency Management	30 credits
131.704 Sustainable Development	30 credits
132.735 Natural Resource Policy and Planning	30 credits
145.710 Consumption and Place	30 credits
145.739 GIS Principles and Applications	30 credits
R 132738	
145.740 GIS Programming and Practice	30 credits
P 132738 or 145739 R 132740	
152.704 Business and Sustainability	30 credits
R 115783	
152.730 Advanced Contemporary Issues in Sustainability	30 credits
152.752 Project Management	30 credits
158.740 Location Systems: Spatial Databases, Tools and Applications	15 credits
158.741 Location Data: Mapping, Analysis and Visualisation	15 credits
175.729 Psychology and Culture	15 credits
175.733 Sustainable Livelihood	15 credits
178.719 Climate Change Economics and Policy	30 credits
189.731 Advanced Studies in Soil Science	15 credits
196.713 Ecology	30 credits
P 1963xx or 1993xx	
218.769 Energy-Efficient Building Design	15 credits
R 228769	
232.703 Wildlife Management	30 credits
C 232701 or 196713 R 199715	
233.713 Environmental Remote Sensing	15 credits
R 233707	
233.714 Advanced Geoscience Techniques	15 credits
233.715 Environmental and Geological Hazards	15 credits

188.898 Thesis 120 Credit Part 2	60 credits
C 188897	

**Applied Pathway (60 credits from)**

188.863 Environmental Research and Data Analysis	60 credits
P 188763 or (188764 and 188765)	

**The Degree of Master of Finance**

**MFin**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

- Admission to the Master of Finance requires that the candidate will:
  - meet the University admission requirements as specified;
  - have been awarded or qualified for a relevant Bachelor's degree or equivalent qualification, having achieved a grade average of at least a C+ in the highest level courses.

**Qualification Requirements**

2. Candidates for the Master of Finance shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits comprising:
  - (a) completion of Part One and Part Two as defined by the Schedule to the Degree;
  - (b) courses selected from the Schedule to the Degree;
  - (c) completion of a subject and including:
  - (d) any compulsory courses listed in the Schedule to the Degree.
3. Notwithstanding Regulation 2, candidates admitted who have been awarded or qualified for the Degree of Bachelor of Business Studies with Honours, or the equivalent degree of another recognised university, may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.
4. Candidates who have completed 125.330 (Advanced Business Finance) or an equivalent course as part of their undergraduate degree will be exempt from the course 125.700 but will be required to take the course 125.785 in their first semester of the programme.

**Specialisations**

5. The Degree of Master of Finance is awarded with a specialisation.
6. The requirements for each subject are set out in the Schedule for the Qualification
7. Subjects available are: Financial Analytics and Research, and Risk Analytics

**Student Progression**

8. For progression from Part One to Part Two for the Risk Analytics subject, candidates must have achieved a minimum C+ grade average in the first 60 credits of study in Part One.
9. For progression from Part One to Part Two for the Financial Analytics and Research subject, candidates must achieve a minimum B grade average in the first 60 credits of study, including a B for the course 125.785.
10. Notwithstanding Regulation 9, candidates who were enrolled in the Master of Finance prior to 1 January 2021 and who are enrolled in Financial Analytics and Research (formerly the Research Pathway) may meet the progression criteria outlined in Regulation 15.
11. In cases of sufficient merit, the Degree of Master of Finance may be awarded with Distinction or Merit.

**Completion Requirements**

12. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
13. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Business or the Postgraduate Certificate in Business should they meet the relevant qualification requirements.

**Unsatisfactory Academic Progress**

14. The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

15. Subject to any Maximum Time to Completion and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who were enrolled in the Master of Finance prior to 01 January 2021 and who were undertaking study in conjunction with the Research Pathway (now the Research and Analytics subject) may be permitted to progress to Part Two if they have achieved a grade of at least a B- in each course undertaken in the first 60 credits of Part One, including the compulsory course. Such candidates may substitute a course or courses already taken for a course or courses at the same level within the Schedule. These transition arrangements expire 31 December 2023.

**The Degree of Master of Fine Arts****MFA****Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

1. Admission to the Degree of Master of Fine Arts requires that the candidate will:
  - (a) have been awarded or qualified for the Bachelor of Fine Arts (Honours) or Bachelor of Design (Honours) or equivalent with a grade average of at least B; or
  - (b) have been awarded or qualified for the Postgraduate Diploma in Fine Arts or the Postgraduate Diploma in Design or equivalent with a grade average of at least B; or

- (c) have been awarded an undergraduate degree in design, fine arts, visual arts or equivalent with a grade average of at least B and provide evidence of professional experience of an appropriate kind and duration in an area relevant to the qualification; or
- (d) have been granted admission under the Admission with Equivalent Status regulations and demonstrate practical, professional, and scholarly experience at an appropriate level; and
- (e) be selected into the programme through an interview and the assessment of a portfolio of art or design work prepared by the applicant.

**Qualification Requirements**

2. Candidates for the Master of Fine Arts shall follow a parts-based programme of study, which shall consist of courses totalling at least 240 approved credits, and include completion of Part One and Part Two. The requirements for Part One and Part Two are prescribed in the Schedule to the Degree.

**Specialisations**

- The Master of Fine Arts may be awarded with a subject in either Fine Arts or Design. The subject will be specified following the successful completion of Part One.
- The Master of Fine Arts may be awarded without a subject.

**Student Progression**

- Progression to Part Two will be conditional upon achievement of a B Grade Average over Part One. In special circumstances this may be varied with the approval of the Academic Board.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Diplomas, and Certificates will apply.
- Candidates may be graduated when they meet the Qualification requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an appropriate exit qualification, should they meet its qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Schedule for the Master of Fine Arts****Part One (120 credits from)**

## The Degree of Master of Food Safety and Quality

### MFoodSafQual

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Degree of Master of Food Safety and Quality requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelors with Honours degree in food engineering, food science or food technology, or equivalent; or
  - have been awarded a Bachelor's degree in engineering, science, technology, or equivalent and completed at least 36 months relevant professional experience in the food or biological products industry.

**Qualification Requirements**

- Candidates for the Degree of Master of Food Safety and Quality shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - completion of Part One and Part Two as defined by the Schedule of the Degree;
  - courses selected from the Schedule of the Degree; and including:
  - any compulsory courses listed in Part One of the Schedule for the Qualification;
  - attending field trips, studios, workshops, tutorials and laboratories as required.

**Specialisations**

- The Degree of Master of Food Safety and Quality is awarded without specialisation.

**Student Progression**

- For progression to Part Two of the Degree of Master of Food Safety and Quality, candidates must have maintained a minimum of a B Grade Average over the Part One courses.
- In cases of sufficient merit, the Degree of Master of Food Safety and Quality may be awarded with Distinction or Merit.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I qualification regulations, candidates enrolled in the Master of Food Safety and Quality prior to January 2021 who have completed 287.730 may substitute it for 231.730

and 231.731. Students who have completed 287.731 may substitute it for either 285.742 or two of 151.716, 231.733 or 287.741.

- These transition arrangements expire 31 December 2023.

## The Degree of Master of Food Technology

### MFoodTech

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Degree of Master of Food Technology requires that the candidate will:
  - meet the University admission requirements as specified;
  - have been awarded or qualified for a Bachelor's degree in food engineering, food science or food technology having achieved a B grade average over the 200- and 300-level courses, or equivalent; or
  - have been awarded or qualified for the Bachelor of Food Technology with Honours having achieved at least Second Class Honours, or equivalent.

###### Qualification Requirements

- Candidates for the Degree of Master of Food Technology shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - completion of Part One as defined by the Schedule of the Degree;
  - completion of Part Two;
  - courses selected from the Schedule to the Degree; and including:
    - any compulsory courses listed in Part One of the Schedule for the Qualification;
    - attending field trips, studios, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 2, the programme of study for candidates admitted under Regulation 1(c) will consist of courses totalling 120 credits, comprising:
  - Part Two as detailed in the Schedule for the Qualification; and including:
    - attending field trips, studios, workshops, tutorials, and laboratories as required.

###### Specialisations

- The Degree of Master of Food Technology is awarded without specialisation.

##### Student Progression

- For progression to Part Two of the Degree of Master of Food Technology, candidates must have maintained a B Grade Average over the Part One courses.
- In cases of sufficient merit, the Degree of Master of Food Technology may be awarded with Distinction or Merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

## The Degree of Master of Health Science

### MHlthSc

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Degree of Master of Health Science requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a relevant health related Bachelor's degree or equivalent with a minimum B- grade average over the 200 and 300 level courses; or
  - have been awarded or qualified for a relevant health related Bachelor's degree or equivalent and have extensive relevant professional experience; or
  - have been awarded or qualified for a Postgraduate Diploma in a relevant health related discipline; or
  - have been awarded or qualified for the Degree of Bachelor of Health Science with Honours.

- Notwithstanding Regulation 1, candidates for the Nursing subject will be a registered nurse with a practising certificate from the Nursing Council of New Zealand.

- Notwithstanding Regulation 1, candidates for the Medical Laboratory Research subject will hold a current Annual Practising Certificate (APC) for employment in the Scope of Practice of "Medical Laboratory Scientist" and have been practicing as a Medical Laboratory Scientist in an ISO15189 accredited NZ Diagnostic Medical Laboratory for at least one year.

- Notwithstanding regulation 1(b) and (c) in order to be admitted to the Psychology subject, candidates must have been awarded or qualified for:
  - a relevant health related Bachelor's degree having achieved at least a B grade average in the 300-level level courses, or equivalent; or
  - a relevant health related Bachelor's degree and have extensive relevant professional experience; or
  - a Postgraduate Diploma in a relevant health related discipline or the Bachelor of Health Science with Honours, having achieved at least a B grade average, or equivalent.

##### Qualification Requirements

- Candidates for the Degree of Master of Health Science shall follow a parts-based programme of study, which shall consist of 700- and 800-level courses totalling at least 180 credits, comprising:
  - Part One and Part Two as specified for the Qualification;
  - completion of a subject;

- and including
- (c) any compulsory courses listed in the Schedule for the Qualification; and
- (d) attending contact workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
6. Notwithstanding Regulation 5, candidates admitted under Regulation 1(d) or (e) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

#### Specialisations

7. Candidates for the Degree of Master of Health Science must complete the requirements for one subject.
8. The requirements for each subject are set out in the Schedule for the Degree.
9. Subjects available are: Environmental Health, Māori Health, Psychology, Rehabilitation, Sport and Exercise, Bioscience, Medical Laboratory Research, Nursing, and Occupational Health and Safety.

#### Student Progression

10. For Professional pathway route, progression from Part One to Part Two, candidates must have achieved a minimum B- grade in the Part One Core course 168.713.
11. For research pathway route progression from Part One to Part Two, candidates must have achieved a minimum B grade in the Part One Core course, one of 168.711, 179.702, 150.714, 175.738.
12. In cases of sufficient merit, the Degree of Master of Health Science will be awarded with distinction or merit.

#### Completion Requirements

13. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
14. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of the Academic Board, be awarded the Postgraduate Diploma in Health Science or the Postgraduate Diploma in Nursing should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

15. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

16. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations or the degree, candidates enrolled in the Master of Health Science prior to January 2019 may substitute a course or courses already taken for a course or courses at the same level within Part One of the Schedule until December 2022.
17. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Māori Health subject prior to 1 January 2022, who are undertaking study in conjunction with the Professional Pathway may continue in the Professional Pathway by completing 168.713 and 250.816. For those students who have successfully completed 250.817, this may be counted instead of 250.816. These transitional arrangements expire 31 December 2025.
18. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree candidates enrolled in the Nursing subject prior to 1 January 2022 who have successfully completed 168.890 may substitute this for 250.816. These transitional arrangements expire 31 December 2025.
19. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree candidates enrolled in the Occupational Health and Safety subject prior to 1 January 2022 who are undertaking study in conjunction with the Professional Pathway and who have successfully completed 250.817 may count this towards Professional Pathway requirements. These transitional arrangements expire 31 December 2025.
20. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree candidates enrolled in the Sport and Exercise subject prior to 1 January 2022 who have successfully completed either 234.860 or 234.870 may substitute either of these for 250.816. These transitional arrangements expire 31 December 2025. Candidates who have successfully completed 234.897 and 234.898 may count these towards the requirements of Part Two. Candidates who are part way through 234.898 may complete this and count both 234.897 and 234.898 towards the requirements of Part Two. These transitional arrangements expire 31 December 2025.

## Schedule for the Master of Health Science

### Part One

#### Core courses: Professional Pathway

168.713 Evidence-Based Practice ..... 30 credits

#### or (Psychology specialisation only)

175.738 Psychological Research: Principles of Design ..... 15 credits

#### Core courses: Research Pathway

168.711 Health Research Design and Method ..... 30 credits  
R 168810, 168710

179.702 Advanced Research Methods ..... 30 credits

#### or (Māori Health specialisation only)

150.714 Ta Te Māori Rangahau Korero: Māori Research Methodologies ..... 30 credits

#### or (Psychology specialisation only)

175.738 Psychological Research: Principles of Design ..... 15 credits

### Subjects

#### Bioscience (150 credits)

##### Compulsory course

214.781 Advanced Topics in Health Science ..... 30 credits

##### Subject courses

##### Research Pathway (No more than 60 credits from)

117.709 Biometrics for the Animal and Nutritional Sciences ..... 15 credits

## The Degree of Master of Health Service Management MHSM

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Master of Health Service Management requires that the candidate will:
  - meet the University admission requirements as specified; and will have
  - been awarded or qualified for a relevant Bachelor's degree, having achieved a grade average of at least a B- in the highest level courses, or equivalent; or
  - been awarded or qualified for a Postgraduate Diploma in Health Service Management with a B- grade average, or equivalent.

**Qualification Requirements**

- Candidates for the Master of Health Service Management shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits comprising:
  - Part One and Part Two as defined by the Schedule to the Degree;
  - at least 60 credits at 800 level; and including:
    - any compulsory courses listed in the Schedule to the degree;
    - attending field trips, contact workshops, studios, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 2, candidates admitted under Regulation 1(c) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.
- Candidates who wish to meet the requirements for accreditation by the Royal Australasian College of Medical Administrators (RACMA) must complete all of the following courses in Part One of the programme: 152.742, 157.701, 178.718, 152.743.

**Specialisations**

- The Master of Health Service Management is awarded without a specialisation.

**Student Progression**

- For progression from Part One to Part Two, candidates must have achieved a grade average of at least a B- over the Part One courses.

- In cases of sufficient merit, the Degree of Master of Health Service Management may be awarded with Distinction or Merit.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Health Service Management should they meet the Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

# The Degree of Master of Information Sciences

## MInfSc

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Master of Information Sciences requires that the candidate will:
  - meet the University admission requirements as specified; and will either
  - have been awarded or qualified for the Bachelor of Information Sciences or an equivalent qualification, having achieved a B- grade average or higher over the qualifying 300-level majoring courses; or
  - have been awarded or qualified for a Bachelor's degree or an equivalent qualification, having achieved a B- grade average or higher over the 300-level majoring courses, and have at least two years' relevant professional experience demonstrated via a portfolio, and an interview at the discretion of the University; or
  - have been awarded or qualified for the Bachelor of Information Sciences with Honours or the Postgraduate Diploma in Information Sciences, or the equivalent qualifications, having achieved a B- grade average or higher over the qualifying 700-level courses.

##### Qualification Requirements

- Candidates for the Degree of Master of Information Sciences shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - Part One and Part Two as defined by the Schedule to the degree; and including:
    - at least 60 credits from Part Two;
    - any compulsory courses listed in the Schedule for the Qualification;
    - attending workshops, block courses, tutorials or laboratories as required.

##### Specialisations

- The Degree of Master of Information Sciences is awarded without a subject.
- Notwithstanding Regulation 3, the following subjects and joint subjects are available in accordance with transitional provisions outlined in Regulation 11: Computer Science; Information Technology; and Software Engineering.

##### Student Progression

- In cases of sufficient merit, the Degree of Master of Information Sciences may be awarded with Distinction or Merit.
- For progression to Part Two, candidates must have maintained a B- grade average or higher in the Part One courses.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Information Sciences should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I qualification regulations, candidates enrolled in the Master of Information Sciences prior to 1 January 2020 may substitute a course or courses already completed for a course or courses at the same level in the same schedule. For students completing without a subject, the course or courses that are substituted may be from any part of the Part One schedule. These transition arrangements expire on 31 December 2022.
- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I qualification regulations, candidates enrolled in a subject or joint subject prior to 1 January 2022

may complete that subject or joint subject by fulfilling the requirements of Schedule B. These transitional arrangements expire 31 December 2024.

### Schedule for the Master of Information Sciences

#### Part One

##### Professional Pathway (120 credits) or Research Pathway (60 credits)

##### Computer Science courses

159.709 Computer Graphics .....	15 credits
159.731 Studies in Computer Vision .....	15 credits
159.735 Studies in Parallel and Distributed Systems .....	15 credits
159.736 Studies in Operating Systems and Architecture .....	15 credits
159.740 Studies in Intelligent Systems .....	15 credits

##### Data Science courses

158.739 Introduction to Analytics .....	15 credits
R 161750	
158.755 Data Science - Making Sense of Data .....	15 credits
161.762 Multivariate Analysis for Big Data .....	15 credits
R 161323, 161772	
161.777 Practical Data Mining .....	15 credits
R 161223 and 161324	

##### Information Systems courses

157.701 Health Information Management .....	30 credits
R 157711, 157733, 158759	
157.748 Advanced Management, Analytics, and Decision Making .....	30 credits
R 157216	
157.749 Technology Innovation Management .....	30 credits

##### Information Technology courses

158.736 Advanced Machine Learning .....	15 credits
158.738 Implementation and Management of Systems Security .....	15 credits
R 157738	
158.740 Location Systems: Spatial Databases, Tools and Applications .....	15 credits
158.741 Location Data: Mapping, Analysis and Visualisation .....	15 credits
158.750 Information Sciences Research Methods .....	15 credits
R 157750	
158.751 Object-Oriented Software Development - Theory and Practice .....	15 credits
158.757 User Interface Design and Evaluation .....	15 credits
R 157757	
158.780 Information Technology Project Part 1 .....	15 credits
158.781 Information Technology Project Part 2 .....	15 credits
P 158780	

##### Business courses

152.700 Organisation and Management .....	30 credits
156.700 Essentials of Marketing .....	30 credits
R 156741, 115104, 115116	

#### Part Two

##### Professional Pathway (60 credits from)

158.888 Information Technology Professional Project .....	60 credits
159.870 Research Report .....	60 credits
159.888 Computer Science Professional Project .....	60 credits

##### Research Pathway (120 credits from)

158.897 Thesis 120 Credit Part 1 .....	60 credits
158.898 Thesis 120 Credit Part 2 .....	60 credits
C 158897	
159.897 Thesis 120 Credit Part 1 .....	60 credits
159.898 Thesis 120 Credit Part 2 .....	60 credits
C 159897	

#### Schedule B: Master of Information Sciences Available under Transition Arrangements

##### Computer Science (180 credits)

##### No new enrolments

##### Computer Science Part One

158.736 Advanced Machine Learning .....	15 credits
---	------------

158.751 Object-Oriented Software Development - Theory and Practice.....	15 credits
158.755 Data Science - Making Sense of Data.....	15 credits
159.709 Computer Graphics.....	15 credits
159.731 Studies in Computer Vision.....	15 credits
159.735 Studies in Parallel and Distributed Systems.....	15 credits
159.736 Studies in Operating Systems and Architecture.....	15 credits
159.740 Studies in Intelligent Systems.....	15 credits
159.794 Project.....	15 credits

## The Degree of Master of International Development

### MIntDev

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

##### Admission

1. Admission to the Master of International Development requires that the candidate will:
  - (a) meet the University admission requirements as specified; and shall have
  - (b) been awarded or qualified for a Bachelor of Arts with a major in Development Studies, with a B grade average or above across the 200 and 300 level specialisation courses; or
  - (c) have been awarded or qualified for any Bachelor's degree, with a B grade average or above across the relevant 200 and 300 level courses, and have relevant field or industry experience of an appropriate kind and duration; or
  - (d) been awarded or qualified for a Postgraduate Diploma in International Development, or equivalent, with a B grade average or above.

##### Qualification Requirements

2. Candidates for the Master of International Development shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits comprising:
  - (a) completion of Part One and Part Two as detailed in the Schedule for the Qualification; and including
  - (b) any compulsory courses.

3. Notwithstanding Regulation 2 (b) candidates may, with the permission of the Academic Board or their delegate, be exempt from the requirement to complete the 131.707 Development Research Design if they have already completed a relevant research methods course at the same level, or have extensive research experience. Such candidates must complete an approved alternative 700-level course.
4. Notwithstanding Regulation 2, candidates admitted under Regulation 1(d) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations

##### Specialisations

5. The Master of International Development is awarded without a specialisation.

##### Student Progression

6. For progression to Part Two in the Master of International Development (Coursework pathway) candidates must have achieved a B grade average across the first 120 credits of courses completed in Part One.
7. For progression to Part Two in the Master of International Development (Research Pathway), candidates must have achieved a B+ grade average across the first 120 credits of courses completed in Part One.
8. In cases of sufficient merit, the Degree of Master of International Development may be awarded with Distinction or Merit.

##### Completion Requirements

9. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.

10. Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in International Development or the Postgraduate Diploma in International Development should they meet the relevant qualification requirements.

#### Unsatisfactory Academic Progress

11. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

12. All candidates who commenced study towards the Master of International Development on or after 1 January 2015 must satisfy the requirements as specified in these regulations.
13. Candidates who have completed at least 30 credits towards the Master of International Development prior to 1 January 2020 may be exempt from the requirement to complete 131.707 Development Research Design. This transition provision expires 31 December 2024.

## Schedule for the Master of International Development

### Part One (120 credits from)

#### Compulsory courses (90 credits from)

131.701 Development and Underdevelopment.....	30 credits
131.702 Development Management.....	30 credits
131.707 Development Research Design.....	30 credits

#### Subject courses (30 credits from)

## The Degree of Master of International Security MIntlSy

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

1. Admission to the Master of International Security requires that the candidate shall meet the University admission requirements as specified, and shall have:
- completed a relevant Bachelor's degree with a grade average of at least B-; or
  - been awarded or qualified for the Postgraduate Certificate in International Security, or an equivalent qualification, with at least a B- grade average; or
  - been awarded or qualified for the Postgraduate Diploma in International Security, or an equivalent qualification, with at least a B- grade average; or
  - demonstrated scholarly work in conjunction with extensive relevant professional experience and standing in leadership, managerial and planning positions in government or non-government security agencies appropriate for Admission with Equivalent Status.

##### Qualification Requirements

2. Candidates for the Master of International Security shall follow a parts-based course of study, which shall consist of courses totalling at least 180 credits from the Schedule to the Degree, comprising:
- Parts One and Two as specified in the Schedule to the Degree; and including:
  - any compulsory core courses listed in Schedule to the Degree;
  - attending, as required, contact courses, block courses, field trips, studios, workshops, tutorials, and laboratories.
3. Notwithstanding Regulation 2, candidates admitted under Regulation 1 (b) or (c) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

##### Specialisations

4. The Degree of Master of International Security may be awarded with or without a subject.
5. Candidates may complete a subject by passing at least 120 credits in a subject including a research project of 60 credits in that subject. The requirements for each subject are set out in Part II of the Schedule for the Degree.
6. Subjects available in the Master of International Security are: Defence, Border and Biosecurity, Intelligence, Counter-Terrorism.

##### Student Progression

7. For progression to Part Two in the Master of International Security candidates must have achieved a grade average of B- in the first 90 credits of courses completed in Part One.

8. In cases of sufficient merit, the Degree of Master of International Security may be awarded with Distinction or Merit.

##### Completion Requirements

9. The timeframes for completion are as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.
10. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in International Security or the Postgraduate Diploma in International Security should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

11. The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

12. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, all candidates who commenced study towards the Master of International Security prior to January 2019 and who have completed at least 60 credits towards the degree may be permitted to substitute courses already completed for courses included in the Schedule to the degree. These transitional provisions expire 31 December 2022.
13. Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Terrorism subject prior to 01 January 2021 may elect to be awarded this specialisation title rather than the title 'Counter-Terrorism' on completion of the subject. These transition arrangements expire 31 December 2025.
14. Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Defence Studies subject prior to 01 January 2021 may elect to be awarded this specialisation title rather than the title 'Defence' on completion of the subject. These transition arrangements expire 31 December 2025.
15. Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Border and Biosecurity subject prior to 01 January 2022 may substitute 294770 (if already completed) for 294716. These transition arrangements expire 31 December 2026.

## The Degree of Master of Journalism

### MJ

**No new enrolments**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

1. Admission to the Master of Journalism (180 credits) requires that candidates shall have:
  - (a) been awarded or qualified for a Bachelor's degree or equivalent, with at least a B grade average in the 300-level majoring courses or equivalent, and
  - (b) been selected into the programme on the basis of a written application and, at the University's discretion, an interview.
  - (c) have been awarded or qualified for a Massey University Postgraduate Diploma in Journalism, with a grade average across all 700-level courses of at least B;
 

or

  - (d) have been awarded or qualified for a Massey University Postgraduate Diploma in Communication or a Massey University Postgraduate Diploma in Business with equivalent communication content or Postgraduate Diploma in Business and Administration with equivalent communication content, with a grade average across all 700-level courses of at least B;
 

and

  - (e) have completed at least three years of professional experience as a journalist.
2. In all cases candidates must meet the University admission requirements as specified.
3. Candidates whose first language is not English, and who have not gained a New Zealand university entrance qualification, or an overseas entrance qualification in a country where the main language is English, will be required to provide satisfactory evidence of their proficiency in English in the form of an academic IELTS with a minimum score of 7 with no bands less than 6.5 within the preceding five years, or an equivalent TOEFL score, or other such evidence that is acceptable to Academic Board.

**Qualification Requirements**

4. Candidates for the Master of Journalism shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits comprising Part One and Part Two as defined in the Schedule to the Degree.
5. Notwithstanding Regulation 4, candidates admitted under Regulation 1(c) may apply for credit towards the 700-level courses component for the degree in accordance with the limits specified in the Recognition of Prior Learning regulations.

**Specialisations**

6. There are no specialisations for this qualification.

**Student Progression**

7. In cases of sufficient merit, the Degree of Master of Journalism may be awarded with Distinction or Merit.
8. For progression to Part Two, candidates must have achieved a B grade average in the Part One courses.

**Completion Requirements**

9. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
10. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Journalism should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

11. The general Unsatisfactory Academic Progress regulations will apply.

## The Degree of Master of Management

### MMgt

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

1. Admission to the Master of Management requires that the candidate will:
  - (a) meet the University admission requirements as specified; and will have

- (b) been awarded or qualified for a relevant Bachelor's degree or equivalent qualification, having achieved a grade average of at least a B- in the highest level courses; or
  - (c) been awarded or qualified for a Postgraduate Diploma in Business with a B- grade average, or equivalent.
2. Admission to the Master of Management Journalism subject requires that the candidate will have:
- (a) met the requirements specified in Regulation 1; and
  - (b) achieved an academic IELTS of at least 7.0 in all bands, or an equivalent TOEFL score, or other evidence that is acceptable to Academic Board or its delegate, if English is not the applicant's first language.

#### Qualification Requirements

3. Candidates for the Master of Management shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits comprising:
- (a) Part One and Part Two as defined by the Schedule to the Degree;
  - (b) at least 60 credits at 800 level; and including:
  - (c) except as provided under Regulations 4 and 6, the core course(s) as listed in Schedule A, including 295700 if completing the Journalism subject;
  - (d) completion of a subject as specified in Schedule B;
  - (e) attending field trips, contact workshops, studios, workshops, tutorials, and laboratories as required.
4. Notwithstanding Regulation 3, candidates admitted under Regulation 1 (c) may apply for credit towards Part One of the qualification, in a single subject. Such credit may be awarded in accordance with the limits specified in the Recognition of Prior Learning regulations. For such candidates who are awarded credit the degree will be awarded without a subject.

#### Specialisations

5. Candidates for the Degree of Master of Management may complete a subject by passing at least 150 credits in a subject including:
- (a) a Professional Practice course of 60 credits;
  - (b) any compulsory courses identified in the Schedule to the Degree, or an approved alternative 700-level course.
- The requirements for each subject are set out in the Schedule for the Qualification.
6. Notwithstanding Regulations 3(c) and 5, the course of study for candidates completing the Accountancy or Enterprise Development subject will consist of 180 credits in a subject including:
- (a) a Professional Practice course of 60 credits;
  - (b) any compulsory courses identified in the Schedule for the subject.
- The requirements for each subject are set out in the Schedule for the Qualification.
7. Subjects available in the Master of Management are: Accountancy, Agribusiness, Banking and Finance, Communication, Enterprise Development, Financial Economics, Health Service Management, Human Resource Management, International Business, Journalism, Management, Marketing, Organisational Technology Management, Sustainability.

#### Student Progression

8. Candidates must complete the qualification core courses and any compulsory courses for the relevant subject prior to enrolling in the Part One subject courses.
9. For progression from Part One to Part Two, candidates must have achieved a Grade Average of B- over the Part One courses.
10. In cases of sufficient merit, the Degree of Master of Management may be awarded with Distinction or Merit.

#### Completion Requirements

11. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
12. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Accountancy or the Postgraduate Diploma in Business or the Postgraduate Diploma in Health Service Management or the Postgraduate Certificate in Business should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

13. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

14. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I qualification regulations, candidates enrolled in the Human Resource Management subject within the Master of Management prior to 1 January 2021, who have completed 114.895, may substitute it for 152.894. This transition expires 31 December 2023.

**The Degree of Master of Māori Visual Arts****MMVA****Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Master of Māori Visual Arts requires that the candidate will meet the University admission requirements as specified; and will
  - have been awarded or qualified for a Bachelor of Māori Visual Arts degree, or equivalent; or will
  - have been awarded or qualified for a Bachelor's degree, or equivalent, and provide evidence of professional experience of an appropriate kind and duration in an area relevant to the qualification; or
  - have been granted admission under the Admission with Equivalent Status regulations and demonstrate practical, professional, and scholarly experience at an appropriate level; and
  - have been awarded or qualified for the Postgraduate Diploma in Māori Visual Arts having achieved at least a B grade average.
- In considering applications for admission to the Degree of Master of Māori Visual Arts, the University shall pay due regard to indigenous systems for the acquisition of knowledge and shall apply a fair, large and liberal interpretation to the concepts of "scholarly experience" and "academic work".

**Qualification Requirements**

- Candidates for the Degree of Master of Māori Visual Arts shall follow a parts-based course of study, which shall consist of courses totalling at least 240 credits, comprising:
  - completion of Part One and Part Two as specified in the Schedule to the degree; and including
  - attending contact courses, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 3, the course of study for candidates entering the degree under Regulation 1(d) shall consist of courses from the schedule to the degree totalling at least 120 credits, including:
  - completion of Part Two as specified in the Schedule to the degree; and including
  - attending contact courses, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

- The Master of Māori Visual Arts is awarded without a subject.

**Student Progression**

- For progression from Part One to Part Two, candidates must have achieved a grade average of at least a B over the first 120 credits completed in Part One.
- In cases of sufficient merit, the Master of Māori Visual Arts may be awarded with Merit, Distinction or Honours in accordance with the General Regulations for Postgraduate Qualification Degrees, Postgraduate Diplomas and Postgraduate Certificates.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Qualification Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic Requirements within the prescribed time frames; candidates who do not meet the requirements for graduation, may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Māori Visual Arts should they meet the relevant Qualification requirements.

## The Degree of Master of Nursing

### MN

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

#### Admission

1. Admission to the degree of Master of Nursing requires that the candidate will meet the University admission requirements as specified and will have been awarded or have qualified for a:
- Bachelor's degree with a minimum grade average of B over the 300-level courses, or equivalent;
  - or
  - Postgraduate Certificate in Nursing, with a minimum B grade average over all courses, or equivalent;
  - or
  - Postgraduate Diploma in Nursing, with a minimum B grade average over all courses, or equivalent.
2. In all cases the candidate shall:

- be a registered nurse with a practising certificate from the Nursing Council of New Zealand, or equivalent; and
- have completed at least two years of professional experience in a relevant nursing specialty within the previous five years.

#### Qualification Requirements

3. Candidates for the Degree of Master of Nursing shall follow a parts-based programme of study, which shall consist of 700- and 800-level courses totalling at least 240 credits from the Schedule to the Degree, comprising:
- Parts One and Two as specified in the Schedule to the Degree; and including:
  - any compulsory courses listed in Schedule to the Degree;
  - attending contact workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
4. Candidates who, in the opinion of the Academic Board or its delegate, have passed with sufficient merit courses as part of a completed Postgraduate Certificate or Postgraduate Diploma in Nursing, or equivalent, may be permitted to cross-credit courses not exceeding a total of 60 or 120 credits respectively. The programme of study for candidates credited 60 credits shall not exceed four calendar years and for candidates credited 120 credits shall not exceed three calendar years.

#### Specialisations

5. The Master of Nursing is awarded without a subject.

**Student Progression**

- For progression from Part One to Part Two, candidates must have achieved a B grade average over the courses completed in Part One.
- In cases of sufficient merit, the Degree of Master of Nursing may be awarded with a class of Honours.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Nursing or the Postgraduate Certificate in Nursing should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

## The Degree of Master of Philosophy

### MPhil

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Candidates for the degree of Master of Philosophy shall, before enrolment, have:
  - been admitted or qualified for admission in the College in which it is proposed to enrol to either a Bachelor's Degree or to an Honours Degree; or
  - been granted admission with equivalent status as entitled to pursue a programme of study for the degree in a College other than that in which they qualified for admission either to a Bachelor's Degree or to an Honours Degree; or
  - such other qualifications as the Academic Board may accept.

**Qualification Requirements**

- Except as provided in Regulations 1, 3 and 4, candidates shall comply with the Course Regulations for a Master's Degree in the College in which they pursue the programme of study.
- Candidates who have been enrolled on the basis of a Bachelor's Degree for which the required programme of study was of three years' duration shall be required to take the examinations in an approved set of advanced level courses in the proposed field of study equivalent in amount to one year of full-time study.
- In special circumstances, and subject to Regulation 3, the Academic Board may at its discretion modify for candidates the requirements of the Course Regulations for a Master's Degree in the College in which they pursue their programme of study. Modifications that may be permitted under this Regulation are substitution, wholly or in part, of a thesis for required course work, and substitution of other requirements for a thesis.

**Completion Requirements**

- The degree shall be awarded on the combined result of the courses (where applicable) and a pass in the thesis (where applicable). In Colleges where the College Masterate is awarded with classes of honours, the Master of Philosophy degree may be awarded with distinction for a result of the same standard as that required for first class honours in the College Masterate.

## The Degree of Master of Professional Accountancy

### MPAcc

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Master of Professional Accountancy requires that the candidate will:
  - meet the University admission requirements as specified; and

- (b) have completed a Bachelor's degree achieving minimum B grade average in the highest two levels of the majoring subject, or equivalent.

#### Qualification Requirements

2. Candidates for the Master of Professional Accountancy shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising Part One and Part Two including all of the courses specified in the Schedule to the Qualification.

#### Specialisations

3. The Degree of Master of Professional Accountancy is awarded without specialisation.

#### Student Progression

4. In order to progress from Part One to Part Two, candidates must have achieved a minimum grade average of B- over the courses taken in Part One.
5. In case of sufficient merit, the Master of Professional Accountancy may be awarded with distinction or merit.

#### Completion Requirements

6. Any timeframes for completion as outlined in General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
7. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the

Postgraduate Diploma in Business or the Postgraduate Certificate in Business should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

8. The general Unsatisfactory Academic Progress regulations will apply.

## The Degree of Master of Professional Accountancy and Finance

### MPAF

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

#### Admission

1. Admission to the Master of Professional Accountancy and Finance requires that the candidate will:
- meet the University admission requirements as specified; and
  - have completed an Undergraduate degree achieving at least a B grade average in the highest two levels of the majoring subject.

#### Qualification Requirements

2. Candidates for the Master of Professional Accountancy and Finance shall follow a fixed programme of study, which shall consist of courses totalling at least 240 credits, comprising Part A and Part B, including all of the courses specified in the Schedule to the Qualification.
3. If a candidate has already passed a course with substantially the same prescription and at the same level as one or more of those offered in the Master of Professional Accountancy and Finance then the candidate may be permitted to complete another approved course or courses that they have not already passed.

#### Specialisations

4. There are no specialisations for this qualification.

#### Academic Requirements

5. There are no additional academic requirements for this qualification.

#### Student Progression

6. In order to progress from Part A to Part B, candidates must have maintained a B- grade average in Part A of the qualification.
7. The Master of Professional Accountancy and Finance may be awarded with or without Honours.

#### Completion Requirements

8. The timeframes for completion as outlined in General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Business or to the Postgraduate Certificate in Business should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

# The Degree of Master of Public Health

## MPH

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Master of Public Health requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor's degree in the health sciences with a minimum grade average of B-, or equivalent; or
  - have been awarded or qualified for a Bachelor's degree in the health sciences or other relevant discipline, and have relevant professional experience, or equivalent; or
  - have been awarded or qualified for a Postgraduate Diploma in Public Health with a minimum Grade Average of B-, or equivalent.

##### Qualification Requirements

- Candidates for the Master of Public Health shall follow a parts-based programme of study, which shall consist of 700 and 800 level courses totalling at least 240 credits, comprising:
  - Parts One and Two as specified in the Schedule for the Qualification; and including:
    - any compulsory courses listed in the Schedule for the Qualification; and
    - attendance at contact workshops, block courses, field trips, studios, workshops, tutorials, laboratories and practical work as required.
- Notwithstanding Regulation 2, the programme of study for a candidate admitted under Regulation 1(c) will consist of at least 180 credits, including:
  - Parts One and Two as specified in the Schedule for the Qualification; and including:
    - any compulsory courses not already completed or waived listed in the Schedule for the Qualification; and
    - attendance at contact workshops, block courses, field trips, studios, workshops, tutorials, laboratories and practical work as required.
- Notwithstanding Regulation 2, the programme of study for a candidate admitted under Regulation 1(d) will consist of at least 120 credits, including:
  - at least 60 credits from Part Two; and including:
    - any compulsory courses not already completed or waived listed in the Schedule for the Qualification; and
    - attendance at contact workshops, block courses, field trips, studios, workshops, tutorials, laboratories and practical work as required.

##### Specialisations

- The Master of Public Health is awarded without a specialisation.

##### Student Progression

- For progression to Part Two of the degree, candidates must have achieved a minimum Grade Average of B over the courses completed in Part One.
- In cases of sufficient merit, the Master of Public Health may be awarded with a class of award in accordance with the general regulations for Postgraduate Degrees, Postgraduate Diplomas and Postgraduate Certificates.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Qualifications will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of the Academic Board, be awarded the Postgraduate Diploma in Public Health should they meet the relevant qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, all candidates who commenced study towards the Master of Public Health prior to January 2017 and who have completed at least 60 credits may be

permitted course substitution beyond the normal limits. These transition arrangements expire on 31 December 2022.

- Subject to any Maximum Time to Completion and the Abandonment of Studies provisions specified in the Part I regulations for the degree, all candidates enrolled in the Master of Public Health prior to 1 January 2022, may satisfy the admission requirements in place prior to this date.
  - Candidates who have successfully completed 30 credits of elective courses may substitute these for 231.704.
  - Candidates who have successfully completed 15 credits of elective courses are permitted to take a further 15 credit elective course and substitute this, together with the elective course already taken, for 231.704. The 15 credits must be at 700-level from either the 231, 250, 251 or 252 discipline area, excluding those courses from the 231 discipline already in Part One of the Schedule.
  - Candidates who have successfully completed 231.730 and 231.731 may substitute these for 231.727. Candidates who have only taken 231.730 are permitted to take to 231.731, and then substitute 231.730 and 231.731 for 231.727.

These transition arrangements expire 31 December 2025.

- In all cases candidates must complete the qualification within the timeframes for completion as specified in the Completion Requirements.

### Schedule for the Master of Public Health

#### Part One

##### Compulsory courses (120 credits from)

231.704 Hauora Māori .....	30 credits
231.725 Foundations of Public Health .....	15 credits

# The Degree of Master of Quality Systems

## MQS

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Master of Quality Systems requires that the candidate will:
  - meet the University admission requirements as specified; and
  - shall have been awarded or qualified for a relevant Bachelor's degree or equivalent with a minimum B grade average over the 300-level majoring courses plus two years' relevant professional experience; or
  - shall have been awarded or qualified for a Bachelor's degree or equivalent with a minimum B grade average over the 300-level majoring courses plus five years' relevant professional experience; or
  - shall have been awarded or qualified for a relevant Postgraduate Diploma or equivalent with a minimum B grade average plus two years' relevant professional experience; or
  - shall have been awarded or qualified for a relevant Bachelor's degree or equivalent with a minimum A- grade average over the 300-level majoring courses plus two years' relevant professional experience; or
  - shall have been awarded or qualified for a Bachelor's degree or equivalent with a minimum A- grade average over the 300-level majoring courses plus five years' relevant professional experience.

##### Qualification Requirements

- Candidates for the Degree of Master of Quality Systems shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - Part One and Part Two as defined by the Schedule to the Degree, and including:
    - courses selected from the Schedule to the Degree;
    - any compulsory courses identified in the Schedule to the Degree;
    - attending field trips, studios, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 2, candidates admitted under Regulation 1 (d) or 1 (e) or 1(f) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations. The programme of study for such candidates must include 240.758.

##### Specialisations

- The Master of Quality Systems is awarded without specialisation.

##### Student Progression

- For progression to Part Two, candidates must achieve at least a B- grade average over courses completed in Part One and at least a B grade for the methods course, 240.758.
- In cases of sufficient merit, the Master of Quality Systems may be awarded with Merit or Distinction.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Quality Systems should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to the recommended time to completion and abandonment of studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Master of Quality Systems prior to 1 January 2021 may satisfy the admission and qualification requirements in place in the 2020 regulations.
- Such candidates who were undertaking study in conjunction with the Professional Pathway may substitute a course or courses already taken for courses in the Compulsory course schedule.

- Such candidates who were undertaking study in conjunction with the Research Pathway, who have completed at least 15 credits towards the qualification, may fulfil the Research Pathway requirements as defined by Schedule B, including the progression criteria in place prior to 1 January 2021. Those candidates who have completed one or more of 287.730, 287.731, 287.736, 287.737, and 287.738 may substitute the course or courses taken for a course or courses in the Qualification Schedule of the same value.
- These transitional provisions expire 31 December 2024.

# The Degree of Master of Resource and Environmental Planning

## MRP

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Master of Resource and Environmental Planning requires that the candidate will:
  - meet the University admission requirements as specified; and shall
  - have been awarded or qualified for a Bachelor's degree with at least a B grade average across the highest level courses, or equivalent; or
  - have been awarded or qualified for the Bachelor of Resource and Environmental Planning, with at least a B+ grade average across the highest level courses, or equivalent; or
  - have been awarded or qualified for the Postgraduate Diploma in Planning with at least a B grade average (Professional Pathway) or a B+ grade average (Research Pathway), or equivalent.
- In all cases, if English is not the applicant's first language and the admission qualification was not completed at a University where English is the medium of instruction, the applicant shall have achieved an IELTS of at least 7 with no band less than 6 within the preceding five years.

##### Qualification Requirements

- Candidates for the Master of Resource and Environmental Planning shall follow a parts-based programme of study, which shall consist of courses totalling at least 240 credits, comprising:
  - completion of Part One and Part Two as defined in the Schedule to the Degree; and including:
    - the compulsory courses identified in the Schedule for the degree;
    - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 3, candidates admitted under Regulation 1 (c) or 1 (d) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

##### Specialisations

- The degree of Master of Resource and Environmental Planning is awarded without specialisation.

##### Student Progression

- For progression to Part Two in the Master of Resource and Environmental Planning (Professional Pathway), candidates must have achieved at least a B grade average in the courses completed in Part One.
- For progression to Part Two in the Master of Resource and Environmental Planning (Research Pathway), candidates must have achieved at least a B+ grade average in the courses completed in Part One.
- In cases of sufficient merit, the Master of Resource and Environmental Planning may be awarded with a class of Honours.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Planning should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

# The Degree of Master of Science

## MSc

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Master of Science requires that the candidate will have:
  - been awarded or qualified for the Bachelor of Science with a major in the intended postgraduate subject, or equivalent; and

- achieved at least a B grade average over the 300 level majoring courses of the qualification(s) considered for admission, or equivalent;
- or will have:
- been awarded or qualified for either the Bachelor of Science with Honours or the Postgraduate Diploma in Science and Technology in the intended MSc subject, or equivalent, having achieved at least a B grade average over the contributing courses and at least a B grade in an approved research methods course or equivalent; or
  - been awarded or qualified for the Postgraduate Certificate in Science and Technology comprising courses in the intended MSc subject, or equivalent, having achieved at least a B grade average over the

- contributing courses and at least a B grade in an approved research methods course or equivalent.
- In all cases the candidate will be required to meet the University admission requirements as specified and to have an approved research supervision plan.
  - Admission to the Degree of Master of Science (Nutrition and Dietetics) requires that the candidate will:
    - meet the requirements of Regulation 1; and
    - meet all the requirements as defined by the New Zealand Dietitians Board for registration as an Entry-level Dietitian, in terms of good character and fitness to be a dietitian; and
    - be selected into the programme conditional upon the availability of approved clinical placements.
  - Notwithstanding Regulation 1 (c), admission to Part Two of the Degree of Master of Science (Psychology) requires that the candidate will have been awarded or qualified for the Bachelor of Science with Honours or the Postgraduate Diploma in Science and Technology with an endorsement in Psychology, or an equivalent qualification, having achieved at least a B+ grade average over the contributing courses.
  - Notwithstanding Regulation 1 (c), admission to the Degree of Master of Science (Psychology – Health Psychology) requires that the candidate will have been awarded or qualified for the Bachelor of Science with a major in Psychology, having achieved at least a B+ grade average over the 300 level majoring courses of the qualification(s) considered for admission, or equivalent; or will have been awarded or qualified for the Bachelor of Science with Honours or the Postgraduate Diploma in Science and Technology with an endorsement in Psychology, or an equivalent qualification, having achieved at least a B+ grade average over the contributing courses.
  - Notwithstanding regulation 1, admission to the Degree of Master of Science (Mathematics) requires that the candidate will have been awarded or qualified for the Bachelor of Science with Honours or the Postgraduate Diploma in Science and Technology with an endorsement in Mathematics, or equivalent, having achieved at least a B grade average over the contributing courses.
  - Notwithstanding regulation 1, admission to the Degree of Master of Science (Statistics) requires that the candidate will have been awarded or qualified for the Bachelor of Science with Honours or the Postgraduate Diploma in Science and Technology with an endorsement in Statistics, or equivalent, having achieved at least a B grade average over the contributing courses.

#### Qualification Requirements

- Candidates for the Degree of Master of Science shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - Part One and Part Two as defined by the Schedule to the Degree;
  - completion of a Subject.
- Notwithstanding Regulation 8, the programme of study for candidates admitted to the Mathematics or Statistics subject will consist of a thesis totalling at least 120 credits as included in the Schedule to the degree.
- Notwithstanding Regulations 1(c) and 1(d), and at the discretion of Academic Board, candidates may be required to complete a research methods course, should their entry qualification be deficient in research methods.
- Notwithstanding Regulation 8, candidates admitted under Regulations 1(c), 1(d), 4 or 5 may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations.

#### Specialisations

- Except as provided under Regulation 9, candidates must complete a subject by passing at least 180 credits in a subject including:
  - a thesis of at least 90 credits (Thesis Pathway) or a research report of at least 60 credits (Coursework Pathway);
  - at least 60 credits at 700 level, including, where identified in the Schedule to the Degree, a Research Methods course and any compulsory courses. The requirements for each subject are set out in the Schedule for the Qualification.
- Notwithstanding Regulation 12, candidates may complete the subject Nutrition and Dietetics by passing 240 credits in that subject including:
  - a thesis of at least 90 credits;
  - 150 credits at 700 level, including where identified in the Schedule to the Degree, any compulsory courses.
- Notwithstanding Regulation 12, candidates may complete the subject Psychology by passing at least 240 credits in that subject including:
  - a thesis of at least 120 credits;
  - 120 credits at 700 level, including where identified in the Schedule to the Degree, any compulsory courses.

- Notwithstanding Regulation 12, candidates may complete the subject Mathematics or Statistics by passing a thesis of at least 120 credits in that subject as identified in the Schedule to the Degree.
- Subjects available are: Agricultural Science, Animal Science, Biological Sciences, Chemistry, Conservation Biology, Earth Science, Ecology, Horticultural Science, Human Nutrition, Mathematics, Nutrition and Dietetics, Plant Breeding, Psychology, Statistics and Zoology.
- Notwithstanding Regulation 16, the following subjects are available under Transitional Provisions: Biochemistry, Computer Science, Exercise and Sport Science, Genetics, Geography, Microbiology, Nanoscience, Physics, Physiology, Plant Biology, Soil Science.

#### Student Progression

- In cases of sufficient merit, the Degree of Master of Science may be awarded with a class of Honours, or with Distinction or Merit, in accordance with the provisions specified in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.
- For the Coursework Pathway, progression to Part Two of the Degree of Master of Science requires that candidates will have achieved at least a B grade average over the Part One courses including at least a B grade for the research methods course.
- For the Thesis Pathway, progression to Part Two of the Degree of Master of Science requires that candidates will have achieved at least a B grade average over the first 60 credits of Part One courses including at least a B grade for the research methods course.
- Notwithstanding Regulation 19, progression to Part Two of the Degree of Master of Science (Psychology) and the Degree of Master of Science (Health Psychology) requires that candidates will have achieved at least a B+ grade average over the Part One courses.

#### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification, and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Science and Technology or the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates enrolled in the Master of Science prior to 1 January 2022 may satisfy admission and progression requirements in place in the 2021 Calendar. Such candidates may substitute a course or courses already completed towards the qualification for a course or courses at the same level and credit value within the Schedule for the degree.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates enrolled in the Master of Science prior to 1 January 2022 in either the Mathematics or the Statistics subject may satisfy the credit requirements in place in the 2021 regulations by either:
  - completing 160.870, or 160.875 (or 160.871 and 160.872) or 160.899 (or 160.897 and 160.898) and between 60 and 120 credits as defined by Part One of the Master of Science (Mathematics) schedule within the 2021 Calendar; or
  - completing 161.893, or 161.875 (or 161.871 and 161.872) or 161.899 (or 161.897 or 161.898) and between 60 and 120 credits as defined by Part One of the Master of Science (Statistics) schedule within the 2021 Calendar.
- These transitions arrangements expire 31 December 2025.

### Schedule for the Master of Science

#### Subjects

##### Agricultural Science (180 credits)

##### Part One (At least 60 credits from)

##### At least 15 credits from

119.728 Research Methods in Animal, Veterinary and Agricultural Sciences	15 credits
R 119729, 162760, 162761, 162762	
119.729 Research Methods	15 credits
R 119728, 162760, 162761, 162762	

162.760 Research Methods and Communication in the Biosciences.....30 credits  
R 162761, 162762, 119728, 119729

### Subject courses

**At least 30 credits at 700 level from the 117, 119, 189, 283, 285, 286 prefixes**

#### Part Two (At least 60 credits from)

##### Option A: Animal Science

117.873 Thesis 90 Credit Part 1 (30 credits).....30 credits  
R 117871, 117872  
117.874 Thesis 90 Credit Part 2 (60 credits).....60 credits  
C 117873 R 117871, 117872  
117.875 Thesis .....90 credits  
117.887 Research Report .....60 credits  
117.897 Thesis 120 Credit Part 1 .....60 credits  
117.898 Thesis 120 Credit Part 2 .....60 credits  
C 117897  
117.899 Thesis .....120 credits

##### Option B: Agriculture/Horticulture Plants

171.873 Thesis 90 Credit Part 1 (30 credits).....30 credits  
R 171871, 171872  
171.874 Thesis 90 Credit Part 2 (60 credits).....60 credits  
C 171873 R 171871, 171872  
171.875 Thesis .....90 credits  
171.887 Research Report .....60 credits  
171.897 Thesis 120 Credit Part 1 .....60 credits  
171.898 Thesis 120 Credit Part 2 .....60 credits  
C 171897  
171.899 Thesis .....120 credits

##### Option C: Soil Science

189.873 Thesis 90 Credit Part 1 (30 credits).....30 credits  
R 189871, 189872  
189.874 Thesis 90 Credit Part 2 (60 credits).....60 credits  
C 189873 R 189871, 189872  
189.875 Thesis .....90 credits  
189.887 Research Report .....60 credits  
189.895 Thesis 120 Credit Part 1 .....60 credits  
189.896 Thesis 120 Credit Part 2 .....60 credits  
C 189895  
189.899 Thesis .....120 credits

### Animal Science (180 credits)

#### Part One (At least 60 credits from)

##### Compulsory courses (30 credits from)

117.709 Biometrics for the Animal and Nutritional Sciences .....15 credits  
R 151709  
119.728 Research Methods in Animal, Veterinary and Agricultural Sciences.15 credits  
R 119729, 162760, 162761, 162762

##### At least 30 credits from

117.710 Reproduction, Lactation and Fertility .....15 credits  
R 117767, 117769  
117.711 Nutrition, Growth and Meat Science .....15 credits  
R 117761, 117762, 117764  
117.765 Genetics and Breeding .....15 credits  
P 117345  
117.768 Metabolism and Endocrinology .....15 credits  
P 117348

##### Subject courses

**Courses at 700 level from the 117, 122, 194, 199, 283 prefixes**

#### Part Two

##### Either (120 credits from)

117.897 Thesis 120 Credit Part 1 .....60 credits  
117.898 Thesis 120 Credit Part 2 .....60 credits  
C 117897  
117.899 Thesis .....120 credits

##### Or (At least 60 credits from)

117.873 Thesis 90 Credit Part 1 (30 credits).....30 credits  
R 117871, 117872  
117.874 Thesis 90 Credit Part 2 (60 credits).....60 credits  
C 117873 R 117871, 117872  
117.875 Thesis .....90 credits  
117.887 Research Report .....60 credits

### Biochemistry (180 credits)

#### No new enrolments

#### Part One (At least 60 credits from)

##### Compulsory course selection (At least 60 credits from)

122.703 Gene Expression .....30 credits  
P One of 122303, 203342, 203340  
122.704 Molecular Cell Biology .....30 credits  
P One of 122322, 122327, 123326, 203307, 203340, 203342, 162312, 194346  
247.712 Advanced Topics in Molecular Biology .....30 credits  
P One of 122303, 122322, 122327, 123326, 194346, 203300, 203307, 203340, 203341, 203342, 203343

##### Subject courses

122.713 Advanced Topics in Biochemistry .....15 credits  
P One of 122303, 122322, 122327, 123326, 203300, 203307, 203340, 203342  
122.798 Research Report .....30 credits  
P Two of 122322, 122327, 122303, 203340, 203341, 203342, 203343  
162.760 Research Methods and Communication in the Biosciences.....30 credits  
R 162761, 162762, 119728, 119729  
247.782 Special Topic.....15 credits  
247.783 Special Topic.....15 credits

#### Part Two

##### Either (120 credits from)

122.897 Thesis 120 Credit Part 1 .....60 credits  
122.898 Thesis 120 Credit Part 2 .....60 credits  
C 122897  
122.899 Thesis .....120 credits  
**Or (At least 60 credits from)**  
122.870 Research Report .....60 credits  
122.871 Thesis 90 Credit Part 1 .....45 credits  
122.872 Thesis 90 Credit Part 2 .....45 credits  
C 122871  
122.875 Thesis .....90 credits

### Biological Sciences (180 credits)

#### Part One (60 credits from)

##### Compulsory course (30 credits from)

162.760 Research Methods and Communication in the Biosciences.....30 credits  
R 162761, 162762, 119728, 119729

##### Subject courses (30 credits from)

**700 level from 120, 122, 162, 194, 196, 199, 203, 232, 247 prefixes**

#### Part Two (120 credits from)

**Thesis of 120 credits (XXX.899, or XXX.897 and XXX.898) from one of 120, 122, 162, 194, 196, 199, 203, 232 prefixes**

### Chemistry (180 credits)

#### Part One (60 credits from)

##### Compulsory courses

123.711 Research Methods in Chemistry and Nanoscience .....30 credits  
123.713 Advanced Chemical Synthesis .....30 credits

#### Part Two (120 credits from)

123.897 Thesis 120 Credit Part 1 .....60 credits  
123.898 Thesis 120 Credit Part 2 .....60 credits  
C 123897  
123.899 Thesis .....120 credits

### Computer Science (180 credits)

#### No new enrolments

#### Part One (At least 60 credits from)

159.702 Knowledge Engineering.....15 credits  
159.703 Advanced Computer Systems.....15 credits  
159.704 Systems Programming.....15 credits  
159.707 Advanced Software Design and Construction .....15 credits  
159.709 Computer Graphics .....15 credits  
159.710 User Interface Design.....15 credits  
159.731 Studies in Computer Vision .....15 credits  
159.732 Studies in Computer Programming .....15 credits  
159.735 Studies in Parallel and Distributed Systems .....15 credits  
159.736 Studies in Operating Systems and Architecture .....15 credits  
159.737 Studies in Compilers and Grammars.....15 credits  
159.738 Special Topic.....15 credits  
159.739 Special Topic.....15 credits  
159.740 Studies in Intelligent Systems.....15 credits  
159.794 Project.....15 credits  
159.795 Project.....15 credits

#### Part Two

##### Either (120 credits from)

159.897 Thesis 120 Credit Part 1 .....60 credits

159.898 Thesis 120 Credit Part 2 C 159897	60 credits
159.899 Thesis	120 credits
<b>Or (At least 60 credits from)</b>	
159.870 Research Report	60 credits
159.871 Thesis 90 Credit Part 1	45 credits
159.872 Thesis 90 Credit Part 2 C 159871	45 credits
159.875 Thesis	90 credits

**Conservation Biology (180 credits)**

**Part One (At least 60 credits from)**

**Compulsory courses (60 credits from)**

232.701 Conservation Biology R 196719	30 credits
232.703 Wildlife Management C 232701 or 196713 R 199715	30 credits

**Subject courses**

145.739 GIS Principles and Applications R 132738	30 credits
158.740 Location Systems: Spatial Databases, Tools and Applications	15 credits
158.741 Location Data: Mapping, Analysis and Visualisation	15 credits
161.731 Biostatistics for Researchers R 161331	15 credits
161.762 Multivariate Analysis for Big Data R 161323, 161772	15 credits
188.764 Advanced Environmental Management I R 188763	15 credits
188.765 Advanced Environmental Management II R 188763	15 credits
199.714 Animal Behaviour P 199312	30 credits
235.701 Māori Values and Resource Management R 188704	15 credits

**Part Two**

**Either (120 credits from)**

232.897 Thesis 120 Credit Part 1	60 credits
232.898 Thesis 120 Credit Part 2 C 232897	60 credits
232.899 Thesis	120 credits

**Or (90 credits from)**

232.873 Thesis 90 Credit Part 1 (30 credits) R 232871, 232872	30 credits
232.874 Thesis 90 Credit Part 2 (60 credits) C 232873 R 232871, 232872	60 credits

171.897 Thesis 120 Credit Part 1 .....	60 credits
171.898 Thesis 120 Credit Part 2 .....	60 credits
C 171897	
171.899 Thesis .....	120 credits

##### Or (At least 60 credits from)

171.873 Thesis 90 Credit Part 1 (30 credits) .....	30 credits
R 171871, 171872	
171.874 Thesis 90 Credit Part 2 (60 credits) .....	60 credits
C 171873 R 171871, 171872	
171.875 Thesis .....	90 credits
171.887 Research Report .....	60 credits

### Human Nutrition (180 credits)

#### Part One (At least 60 credits from)

##### Compulsory courses (45 credits from)

151.704 Human Nutrition .....	15 credits
151.717 Selected Topics in Public Health Nutrition .....	15 credits
151.741 Research Methods and Statistics for Dietetics .....	15 credits
R 151708, 151709, 117709	

#### Subject courses

231.705 Pacific Health .....	30 credits
231.726 Health Systems and Policy .....	15 credits
R 231701	
231.728 Public Health Practice .....	15 credits
231.733 Big Public Health Issues .....	15 credits
250.703 Health Communication .....	15 credits

#### Part Two (At least 90 credits from)

151.871 Thesis 90 Credit Part 1 .....	45 credits
151.872 Thesis 90 Credit Part 2 .....	45 credits
C 151871	

151.875 Thesis .....	90 credits
----------------------	------------

151.897 Thesis 120 Credit Part 1 .....	60 credits
--	------------

151.898 Thesis 120 Credit Part 2 .....	60 credits
C 151897	

151.899 Thesis .....	120 credits
----------------------	-------------

### Mathematics (180 credits)

#### No new enrolments

#### Part One (At least 60 credits from)

160.702 Advanced Algebra .....	15 credits
P 160302	
160.703 Advanced Analysis .....	15 credits
P 160301	
160.704 Studies in Theoretical Mathematics .....	15 credits
P 160301 and 160302	
160.715 Advanced Computational Methods .....	15 credits
P 160211 and 160318	
160.733 Methods of Applied Mathematics .....	15 credits
P 160301 and 160318	
160.734 Studies in Applied Differential Equations .....	15 credits
P 160211, 160301, 160318	
160.737 Studies in Mathematical Physics .....	15 credits
P Two of 160301, 160302, 160318, 124332	
160.783 Mathematics Project .....	30 credits
247.792 Special Topic .....	15 credits
247.793 Special Topic .....	15 credits

#### Part Two

##### Either (120 credits from)

160.897 Thesis 120 Credit Part 1 .....	60 credits
160.898 Thesis 120 Credit Part 2 .....	60 credits
C 160897	

160.899 Thesis .....	120 credits
----------------------	-------------

##### Or (At least 60 credits from)

160.870 Research Report .....	60 credits
160.871 Thesis 90 Credit Part 1 .....	45 credits
160.872 Thesis 90 Credit Part 2 .....	45 credits
C 160871	
160.875 Thesis .....	90 credits

### Microbiology (180 credits)

#### No new enrolments

#### Part One (At least 60 credits from)

##### Compulsory courses (60 credits from)

162.704 Current Topics in Microbiology .....	30 credits
P Two of 141311, 162301, 162303, 162304, 162307, 162312 or 203300 R 162702	
162.760 Research Methods and Communication in the Biosciences .....	30 credits
R 162761, 162762, 119728, 119729	

#### Subject courses

122.703 Gene Expression .....	30 credits
P One of 122303, 203342, 203340	

122.704 Molecular Cell Biology .....	30 credits
P One of 122322, 122327, 123326, 203307, 203340, 203342, 162312, 194346	
122.713 Advanced Topics in Biochemistry .....	15 credits
P One of 122303, 122322, 122327, 123326, 203300, 203307, 203340, 203342	
162.798 Research Report .....	30 credits
P Two of 141311, 162301, 162303, 162304, 162307, 162312 or 203300	
247.712 Advanced Topics in Molecular Biology .....	30 credits
P One of 122303, 122322, 122327, 123326, 194346, 203300, 203307, 203340, 203341, 203342, 203343	
247.782 Special Topic .....	15 credits
247.783 Special Topic .....	15 credits

**Part Two****Either (120 credits from)**

162.897 Thesis 120 Credit Part 1 .....	60 credits
162.898 Thesis 120 Credit Part 2 .....	60 credits
C 162897	
162.899 Thesis .....	120 credits

**Or (At least 60 credits from)**

162.870 Research Report .....	60 credits
162.871 Thesis 90 Credit Part 1 .....	45 credits
162.872 Thesis 90 Credit Part 2 .....	45 credits
C 162871	
162.875 Thesis .....	90 credits

**Nanoscience (180 credits)****No new enrolments****Part One (At least 60 credits from)****An approved selection of 700-level courses from the 122, 123, 124 prefixes****Part Two****Either (120 credits from)**

236.897 Thesis 120 Credit Part 1 .....	60 credits
236.898 Thesis 120 Credit Part 2 .....	60 credits
C 236897	
236.899 Thesis .....	120 credits

**Or (At least 60 credits from)**

236.870 Research Report .....	60 credits
236.871 Thesis 90 Credit Part 1 .....	45 credits
236.872 Thesis 90 Credit Part 2 .....	45 credits
C 236871	
236.875 Thesis .....	90 credits

**Nutrition and Dietetics (240 credits)****Part One (105 credits from)**

151.717 Selected Topics in Public Health Nutrition .....	15 credits
151.741 Research Methods and Statistics for Dietetics .....	15 credits
R 151708, 151709, 117709	
151.742 Nutrients for Health and Disease .....	15 credits
R 151718, 151719	
151.743 Foodservice Management .....	15 credits
151.744 Medical Nutrition Therapy 1 .....	15 credits
151.745 Medical Nutrition Therapy 2 .....	15 credits
P 151744	
151.746 Communications in Dietetic Practice .....	15 credits

**Part Two (135 credits from)**

151.750 Professional Dietetic Practice .....	45 credits
P 151717, 151743, 151744, 151746	
151.891 Thesis 90 Credit Part 1 .....	45 credits
151.892 Thesis 90 Credit Part 2 .....	45 credits
C 151891	
151.895 Thesis .....	90 credits

**Physics (180 credits)****No new enrolments****Part One (At least 60 credits from)**

124.712 Condensed Matter Physics .....	15 credits
P 124325 and one of 124327, 124332, 124316	
124.721 Quantum Mechanics and Group Theory .....	15 credits
P 124325 and one of 124327, 124332, 124316	
124.722 Relativistic Quantum Mechanics and Field Theory .....	15 credits
P 124325 and one of 124327, 124332, 124316	
124.761 Topics in Statistical Physics and Random Processes .....	15 credits
P 124325 and one of 124327, 124332, 124316	
124.762 Chemical Physics .....	15 credits
P 124325 and one of 124327, 124332, 124316	
124.798 Research Report .....	30 credits
247.782 Special Topic .....	15 credits
247.783 Special Topic .....	15 credits

**Part Two****Either (120 credits from)**

124.897 Thesis 120 Credit Part 1 .....	60 credits
124.898 Thesis 120 Credit Part 2 .....	60 credits
C 124897	
124.899 Thesis .....	120 credits

**Or (At least 60 credits from)**

124.870 Research Report .....	60 credits
124.871 Thesis 90 Credit Part 1 .....	45 credits
124.872 Thesis 90 Credit Part 2 .....	45 credits
C 124871	
124.875 Thesis .....	90 credits

**Physiology (180 credits)****No new enrolments****Part One (At least 60 credits from)****At least 15 credits from**

119.728 Research Methods in Animal, Veterinary and Agricultural Sciences. 15 credits	
R 119729, 162760, 162761, 162762	
119.729 Research Methods .....	15 credits
R 119728, 162760, 162761, 162762	
162.760 Research Methods and Communication in the Biosciences .....	30 credits
R 162761, 162762, 119728, 119729	

**Subject courses**

194.703 Neurophysiology and Neuroendocrinology .....	30 credits
194.704 Reproductive Physiology .....	30 credits
194.705 Digestive Physiology .....	30 credits
194.707 Perinatal Physiology .....	30 credits
194.709 Conservation Endocrinology and Reproductive Biology .....	30 credits
194.731 Animal Welfare Science .....	30 credits
194.732 Advanced Cell Physiology .....	30 credits
194.799 Research Report .....	30 credits
247.782 Special Topic .....	15 credits
247.783 Special Topic .....	15 credits

**Part Two****120 credits from**

194.897 Thesis 120 Credit Part 1 .....	60 credits
194.898 Thesis 120 Credit Part 2 .....	60 credits
C 194897	
194.899 Thesis .....	120 credits

**At least 60 credits from**

194.870 Research Report .....	60 credits
194.871 Thesis 90 Credit Part 1 .....	45 credits
194.872 Thesis 90 Credit Part 2 .....	45 credits
C 194871	

**Plant Biology (180 credits)****No new enrolments****Part One (At least 60 credits from)****Compulsory courses (60 credits from)**

120.713 Advanced Topics in Plant Biology .....	30 credits
P 1203xx	
162.760 Research Methods and Communication in the Biosciences .....	30 credits
R 162761, 162762, 119728, 119729	

**Subject courses**

120.714 Botanical Evolution .....	15 credits
P 1203xx R 120711	
120.715 Advanced Topics in Evolutionary Genetics .....	30 credits
P One of 1203xx or 2033xx or 1963xx	
120.798 Research Report .....	30 credits
P 1203xx	
122.703 Gene Expression .....	30 credits
P One of 122303, 203342, 203340	
122.704 Molecular Cell Biology .....	30 credits
P One of 122322, 122327, 123326, 203307, 203340, 203342, 162312, 194346	
162.704 Current Topics in Microbiology .....	30 credits
P Two of 141311, 162301, 162303, 162304, 162307, 162312 or 203300 R 162702	
203.762 Genetic Analysis .....	30 credits
P One of 122303, 203300, 203305, 203307, 203340, 203341, 203342, 203343	
247.712 Advanced Topics in Molecular Biology .....	30 credits
P One of 122303, 122322, 122327, 123326, 194346, 203300, 203307, 203340, 203341, 203342, 203343

## The Degree of Master of Social Work

### MSW

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Degree of Master of Social Work requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for the Bachelor of Social Work or Bachelor of Social Work with Honours or equivalent; or
  - have been awarded or qualified for the Postgraduate Diploma in Social Work with a B grade average across all courses, or equivalent.

**Qualification Requirements**

- Candidates for the Degree of Master of Social Work shall follow a parts-based programme of study, which shall consist of courses totalling at least 240 credits, comprising:
  - Part One and Part Two as prescribed in the Schedule to the qualification degree; and including:
    - courses selected from the Schedule to the Degree;
    - any compulsory courses listed in the Schedule to the Degree.
- Notwithstanding Regulation 2, candidates admitted under regulation 1(c) shall follow of programme of study which shall consist of courses totalling at least 120 credits, comprising:
  - Part Two as prescribed in the Schedule to the degree; and including:
    - the compulsory course 179.702, unless this course has already been completed as part of the qualifying postgraduate diploma.

**Specialisations**

- The Degree of Master of Social Work is awarded without specialisation.

**Student Progression**

- For progression to Part Two of the degree, candidates must have achieved a minimum of a B grade average over the courses completed in Part One.
- The Degree of Master of Social Work may be awarded with or without a class of Honours.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Social Work or the Postgraduate Certificate in Social Work should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

## The Degree of Master of Specialist Teaching

### MSpecTchg

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

1. Admission to the Master of Specialist Teaching requires that the candidate will meet the University admission requirements as specified; and shall have:
  - (a) been awarded or qualified for a Bachelor's degree with at least a B grade average across the highest level courses, or equivalent; and
  - (b) been awarded or qualified for a relevant professional qualification; and
  - (c) have completed at least two years of relevant professional experience; or will have:
    - (d) been awarded or qualified for the Postgraduate Diploma in Specialist Teaching with at least a B grade average, or equivalent.
2. For entry into the Adviser on Deaf Children subject candidates shall have:
  - (a) been awarded or qualified for the Postgraduate Diploma in Specialist Teaching (Deaf and Hard of Hearing), with at least a B grade average, or equivalent; or
  - (b) been awarded or qualified for a Bachelor of Speech and Language Therapy Honours degree with at least Second Class Honours, or equivalent; or
  - (c) been awarded or qualified for a Master of Speech and Language degree having achieved at least a B grade average, or equivalent.
3. For entry into the Te Korowai Mokopuna subject candidates shall have:
  - (a) been awarded or qualified for the professional qualification Te Tohu Mātauranga Whakapakari Tino Rangatiratanga o Te Kōhanga Reo with at least a B grade average across the highest level courses, or equivalent; and
  - (b) have completed at least two years of relevant professional experience in Kōhanga Reo; and
  - (c) hold a current letter of endorsement from Te Kōhanga Reo National Trust.
4. In all cases candidates will be required to:
  - (a) be selected on the basis of a selection process which may include written application, interview, referee reports and practical exercises; and
  - (b) meet requirements equivalent to those set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in terms of values, fitness and disposition to teach, and will:
  - (c) hold current relevant New Zealand Professional Registration; or
  - (d) be required to undergo police vetting prior to gaining entry into the programme.
5. All candidates whose first language is not English or Te Reo Māori, who have not gained a New Zealand university entrance qualification or an overseas entrance qualification in a country where the main language is English, will be required to provide evidence of their proficiency in English in the form of an academic IELTS (International English Language Testing System) score of 7.0 with no band less than 7.0 or other evidence that is acceptable to Academic Board.

#### Qualification Requirements

6. Candidates for the Master of Specialist Teaching shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - (a) completion of Part One and Part Two as detailed in the Schedule for the Qualification; and including completion of
  - (b) a subject
  - (c) any compulsory courses as listed in the Schedule for the Degree.
7. Notwithstanding Regulation 6, the programme of study for candidates admitted under Regulation 1(d) will be at least 120 credits including:
  - (a) 249.770 or 249.771; and
  - (b) completion of a subject as specified in the schedule for the Degree; and
  - (c) Part Two as detailed in the Schedule for the Degree.
8. Notwithstanding Regulation 6, the programme of study for candidates admitted under Regulation 2(a), (b) or (c) will be at least 120 credits including:
  - (a) 249.770 or 249.771; and
  - (c) completion of the Adviser Deaf Children subject as specified in the Schedule for the Degree; and
  - (d) Part Two as detailed in the Schedule for the Degree.

#### Specialisations

9. The Master of Specialist Teaching is awarded with a subject.
10. The requirements for each subject are set out in the Schedule for the Degree.
11. Subject specialisations available for the Master of Specialist Teaching are: Adviser on Deaf Children, Autism Spectrum Disorder, Blind and Low Vision, Complex Educational Needs, Deaf and Hard of Hearing, Early Intervention, Te Korowai Mokopuna, Gifted Education, Learning and Behaviour.
12. A candidate admitted under Regulation 1(d) will complete the Master of Specialist Teaching without a specialisation.

#### Student Progression

13. In cases of sufficient merit, the Degree of Master of Specialist Teaching may be awarded with Distinction or Merit.
14. For progression to Part Two of the Master of Specialist Teaching candidates must have maintained a grade average of at least a B over the first 120 credits undertaken for Part One.

#### Completion Requirements

15. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.
16. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Specialist Teaching or the Postgraduate Diploma in Specialist Teaching, should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

17. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

18. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who commenced study towards the Postgraduate Diploma in Specialist Teaching or the Master of Specialist Teaching prior to 01 January 2021 will be permitted to substitute a completed course or courses as follows: 254.765 for 254.766, and/or 249.749 or 249.751 or

249.761 or 262.752 or 249.754 for 254.767. Such candidates transferring credit from the Postgraduate Diploma in Specialist Teaching Autism Spectrum Disorder endorsement will be permitted to complete the Master of Specialist Teaching in that subject. These transition arrangements expire 31 December 2023.

19. Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Gifted and Talented Education subject prior to 01 January 2022 may elect to be awarded this specialisation title rather than the title 'Gifted Education' on completion of the subject. These transition arrangements expire 31 December 2025.

## The Degree of Master of Supply Chain Management

### MSCM

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Master of Supply Chain Management requires that the candidate:
  - meets the University admission requirements as specified and shall have:
  - been awarded or qualified for a relevant Bachelor's degree or equivalent with a minimum B grade average over the 300-level majoring courses plus two years' relevant professional experience; or

- (c) been awarded or qualified for a Bachelor's degree or equivalent with a minimum B grade average over the 300-level majoring courses plus five years' relevant professional experience; or
- (d) been awarded or qualified for a relevant Postgraduate Diploma or equivalent with a minimum B grade average plus two years' relevant professional experience; or
- (e) been awarded or qualified for a relevant Bachelor's degree or equivalent with a minimum A- grade average over the 300-level majoring courses plus two years' relevant professional experience; or
- (f) been awarded or qualified for a Bachelor's degree or equivalent with a minimum A- grade average over the 300-level majoring courses plus five years' relevant professional experience.

#### Qualification Requirements

2. Candidates for the Degree of Master of Supply Chain Management shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - (a) Part One and Part Two as defined by the Schedule of the Degree; and including:
    - (b) courses selected from the Schedule to the Degree;
    - (c) any Compulsory Courses listed in the Schedule to the Degree;
    - (d) attending field trips, studios, workshops, tutorials, and laboratories as required.
3. Notwithstanding Regulation 2, candidates admitted under Regulation 1 (d), 1 (e), or 1 (f) may apply for credit towards Part One of the qualification in accordance with the limits specified in the Recognition of Prior Learning regulations. The programme of study for such candidates must include 240.758.

#### Specialisations

4. The Degree of Master of Supply Chain Management is awarded without specialisations.

#### Student Progression

5. For progression from Part One to Part Two, candidates must have achieved a minimum Grade Average of B- over courses undertaken for Part One, and a minimum B grade for the methods course, 240.758.
6. In cases of sufficient merit, the Degree of Master of Supply Chain Management may be awarded with Distinction or Merit.

#### Completion Requirements

7. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
8. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Supply Chain Management should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

9. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

10. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Master of Supply Chain Management prior to 1 January 2021 may satisfy admission, qualification and progression requirements in place prior to this date.
11. Such candidates undertaking study in conjunction with the Professional Pathway may substitute a course or courses already taken for a course or

courses of the same value within the Qualification schedule. Candidates who have already completed 240.752 may substitute it for 240.759 and another 15 credit course.

12. Such candidates who were undertaking study in conjunction with the Thesis Pathway, who have completed at least 15 credits towards the qualification, may fulfil the Thesis Pathway requirements as defined by Schedule B, including the progression criteria in place prior to 1 January 2021. Those candidates who have completed 240.754 may substitute the course for another course in the Schedule of the same value.
13. These transitional provisions expire 31 December 2024.

## The Degree of Master of Sustainable Development Goals

### MSDG

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

##### Admission

1. Admission to the Master of Sustainable Development Goals requires that the candidate will:
  - (a) meet the University admission requirements as specified; and will have

- (b) been awarded or qualified for a Bachelor's degree or equivalent, having achieved a grade average of at least a B in the highest level courses.

##### Qualification Requirements

2. Candidates for the Master of Sustainable Development Goals shall follow a parts-based programme of study, which shall consist of courses totalling at least 180 credits comprising:
  - (a) Part One and Part Two as defined by the Schedule to the Degree;
  - (b) at least 60 credits at 800 level;
 and including:
  - (c) the core courses listed in Schedule A;
  - (d) completion of a subject as specified in Schedule B;
  - (e) attending field trips, contact workshops, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

- Candidates for the Degree of Master of Sustainable Development Goals may complete a subject by passing at least 120 credits in a subject including:
  - an 800 level Practicum inquiry course of 60 credits;
  - any compulsory courses identified in the subject schedule.
 The requirements for each subject are set out in the Schedule for the Degree.
- Subjects available in the Master of Sustainable Development Goals are: Business and Sustainability, Disaster Management, Economics for Sustainability, Environmental Sustainability, Global Development, and Peace and Security.

**Student Progression**

- For progression from Part One to Part Two, candidates must have achieved a Grade Average of at least a B over the Part One courses.
- In cases of sufficient merit, the Degree of Master of Sustainable Development Goals may be awarded with Distinction or Merit in accordance with the provisions of the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for progression from Part One to Part Two, or who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Arts, Postgraduate Diploma in Business, Postgraduate Diploma in Science and Technology, Postgraduate Certificate in Arts, Postgraduate Certificate in Business, or Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Schedule for the Master of Sustainable Development Goals**

**Schedule A: Part One Core courses (60 credits from)**

131.704 Sustainable Development .....	30 credits
131.709 Sustainable Development Goals in Practice .....	30 credits

**The Degree of Master of Veterinary Medicine**

**MVM**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

- Admission to the Degree of Master of Veterinary Medicine requires that the candidate will:
  - meet the University admission requirements as specified; and

- shall have been awarded or qualified for the Bachelor of Veterinary Science or a veterinary degree considered by the Academic Board to be equivalent to the Massey University Bachelor of Veterinary Science.

**Qualification Requirements**

- Candidates for the Degree of Master of Veterinary Medicine shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - courses selected from the Schedule to the Qualification;
  - at least 45 credits from Schedule C for the Qualification;
  - any compulsory courses identified in the Schedule to the Qualification.

**Specialisations**

- The Degree of Master of Veterinary Medicine may be awarded with or without a subject.
- Candidates may complete a subject by passing at least 90 credits in a subject including a research or professional practice course from Schedule C. The requirements for each subject are set out in Schedule A for the Qualification. Candidates must undertake research projects or practica that align with the focus of the subject. Approved subjects are: Companion Animal, Companion Animal Surgery, Production Animal, Equine, Veterinary Business Administration.

**Student Progression**

- In cases of sufficient merit, the Degree of Master of Veterinary Medicine may be awarded with distinction or merit.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**The Degree of Master of Veterinary Science****MVSc****No new enrolments****Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Candidates for the Degree of Master of Veterinary Science shall have completed a veterinary degree.

**Qualification Requirements**

- Candidates who have completed a Massey University BVSc, or a veterinary qualification that can be registered by the New Zealand Veterinary Council and is considered by the Academic Board to be equivalent to the Massey University BVSc, or a Postgraduate Diploma in an area of Veterinary Science, shall complete an MVSc programme consisting of a Research Methods course of 15 credits

and a thesis to the value of 120 credits in some branch of Veterinary Science.

- (b) Veterinary graduates who do not meet the requirements in 1(a) shall complete an MVSc programme consisting of courses to the value of 120 credits and a thesis to the value of 120 credits.

### Schedule for the Master of Veterinary Science

1. Courses shall be selected from the 118.7xx, 118.8xx, series and any other courses deemed appropriate by the Graduate Subject Adviser.
2. The selection of courses must be approved by the Academic Programme Director or equivalent.

## The Degree of Master of Veterinary Studies

### MVS

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

##### Admission

1. Admission to the Degree of Master of Veterinary Studies requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for a Bachelor of Veterinary Science with at least a B grade average, or equivalent.
2. Admission into the Master of Veterinary Studies (Advanced Veterinary Practice) requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for a Bachelor of Veterinary Science with at least a B grade average, or equivalent; and
  - (c) be selected into the programme on the basis of an interview.

##### Qualification Requirements

3. Candidates for the Degree of Master of Veterinary Studies shall follow a flexible programme of study, which shall consist of courses totalling at least 180 credits, comprising:
  - (a) completion of Part One and Part Two as defined by the Schedule to the Degree;
  - (b) courses selected from the Schedule to the Degree; and including:
    - (c) any compulsory courses listed in the Schedule to the Degree;
    - (d) at least 60 credits at 800 level;
    - (e) attending field trips, studios, workshops, tutorials and laboratories as required.

##### Specialisations

4. The Degree of Master of Veterinary Studies is awarded with or without a subject.
5. Candidates may complete a subject by passing at least 180 credits, including 60 credits at 800-level, in a subject. The requirements for each subject are set out in the Schedule to the Degree.
6. The subjects available are: Advanced Veterinary Practice, Conservation Veterinary Medicine\*, Epidemiology, Veterinary Pathology, and Veterinary Public Health.

\*No new enrolments

##### Student Progression

7. In cases of sufficient merit, the Degree of Master of Veterinary Studies may be awarded with Distinction or Merit.
8. For progression to Part Two of the Degree of Master of Veterinary Studies, candidates must have maintained at least a B grade average over the Part One courses.

##### Completion Requirements

9. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.
10. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Diploma in Veterinary Science or Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

11. The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

12. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in Part I regulations for

the degree, candidates who commenced study towards the Master of Veterinary Studies prior to January 2021 and have completed at least 45 credits may be permitted variation in excess of the stated limits.

13. These transition arrangements expire on 31 December 2024.
14. In all cases candidates must complete the qualification within the timeframes for completion as specified in the Completion Requirements.
15. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Master of Veterinary Studies prior to 1 January 2022 may proceed to Part Two on the basis of a minimum grade average of B over their first 60 credits of study, until 31 December 2025.

### Schedule for the Master of Veterinary Studies

## The Degree of Bachelor of Arts (Honours) BA(Hons)

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Arts with Honours requires that the candidate will:
  - meet the University admission requirements as specified; and
  - shall have been awarded or qualified for the Bachelor of Arts with a major in the intended postgraduate subject or close equivalent; or
  - shall have been awarded or qualified for the Bachelor of Arts with a minor in the intended postgraduate subject, followed by a Graduate Certificate in Arts with an endorsement in the intended postgraduate subject, or close equivalent; or
  - shall have been awarded or qualified for the Bachelor of Arts, followed by a Graduate Diploma in the Arts with an endorsement in the intended postgraduate subject, or close equivalent; and in all cases, will have:
    - achieved a B grade average over the 200- and 300-level specialisation courses of the qualification(s) considered for admission in Regulations 1(b) to (d);
    - achieved an IELTS of 7.0 with no band less than 6.5, if English is not the applicant's first language and the qualifying degree was not completed at a University where English is the medium of instruction.
- Notwithstanding Regulation 1(e), in order to be admitted to the Psychology subject, candidates must have been awarded or qualified for a Bachelor's degree with a major in Psychology having achieved at least a B+ grade average in the 300-level psychology specialisation courses, or equivalent.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Arts with Honours shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - a research report of at least 30 credits;
  - any compulsory courses identified in the Schedule for the Qualification.

##### Specialisations

- Candidates for the Degree of Bachelor of Arts with Honours must complete the requirements for one subject.
- The requirements for each subject are set out in the Schedule for the Qualification.
- Subjects available are: Defence and Security Studies, Economics, Education, English, Geography, History, Māori Knowledge, Media Studies, Philosophy, Politics, Psychology, Social Anthropology, Social Policy, Sociology and Spanish.

##### Student Progression

- The Degree of Bachelor of Arts with Honours will be awarded with a class of Honours.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

- Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation, may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Arts should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, all candidates who commenced study towards the Bachelor of Arts with Honours prior to January 2019 and who have completed at least 60 credits towards the degree may be permitted to substitute courses already completed for courses included in the Schedule to the degree. These transitional provisions expire 31 December 2022.
- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who commenced study towards the Bachelor of Arts (Honours) prior to 1 January 2020 who have completed 200.762 will be permitted to substitute this course for 200.701 or 200.702. These transition arrangements expire 31 December 2023.
- Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Māori Knowledge subject prior to 01 January 2020 may elect to be awarded the alternative specialisation title of Māori Studies on completion. These transition arrangements expire 01 December 2023.
- Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Politics and International Relations subject prior to 01 January 2021 may elect to be awarded the alternative specialisation title of Politics on completion. These transition arrangements expire 01 December 2023.
- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I qualification regulations, candidates who commenced study towards the Psychology subject prior to 1 January 2022 are exempt from the requirements of Regulation 2. These transition provisions expire 31 December 2024.

#### Subjects

##### Defence and Security Studies (120 credits)

##### Compulsory courses (90 credits from)

294.711 Theories in Defence and Security .....	30 credits
294.790 Research Methods in Defence and Security Studies .....	30 credits

##### Compulsory course selection (Between 30 and 60 credits from)

294.798 Research Report (30) .....	30 credits
R 294799	
294.799 Research Report (60) .....	60 credits
R 294798	

##### Subject courses

294.701 New Zealand National Security .....	30 credits
294.704 Command, Leadership and Management .....	30 credits
294.709 Terrorism .....	30 credits
294.712 Economic and Environmental Security .....	30 credits
294.713 Counter-Terrorism .....	30 credits
R 149740	

294.715 Asia-Pacific Security Environment .....	30 credits
294.716 Securing Mobility in an Uncertain World.....	30 credits
294.717 Human Security in Application.....	30 credits
294.741 Intelligence in the International Security Environment.....	30 credits
294.744 Intelligence Operations.....	30 credits

## Economics (120 credits)

### Compulsory course

178.799 Research Project.....	30 credits
P Appraisal Required	

### 30 credits from

125.785 Research and Analytics in Economics and Finance .....	30 credits
178.732 Advanced Econometrics.....	30 credits
P 125785 or any 300-level Econometrics course	

### Subject courses

178.703 The Theory and Practice of Economics .....	30 credits
178.712 International Monetary Economics .....	30 credits
P 178703 or 125700 or 125330 or Appraisal Required	
178.718 Health Economics.....	30 credits
178.719 Climate Change Economics and Policy.....	30 credits
178.755 Economic Growth, International and Development Economics .....	30 credits

## Education (120 credits)

### Compulsory course

267.792 Research Exercise .....	30 credits
P 180790, 185/186788, 267788 or an approved research methods course R 180792	

### Subject courses

254.702 Facing Big Questions in Education.....	30 credits
254.744 Educational Issues Among Pacific Islands Peoples in New Zealand.....	30 credits
254.773 Educational Policy Analysis.....	30 credits
254.774 Evaluation of Educational Organisations.....	30 credits
254.775 Management of Human Resources in Educational Organisations.....	30 credits
261.765 Trends in Digital Education.....	30 credits
263.704 Advanced Studies in Motivation and Learning .....	30 credits
265.737 Young Children and Their Families.....	30 credits
267.782 Quantitative Research in Education .....	15 credits
R 267720; 267788; 267723; 267780	
267.783 Qualitative Research in Education .....	15 credits
R 267720; 267723; 267780; 267788	
269.733 Mana Motuhake: Contemporary Issues in Māori & Indigenous Education .....	30 credits

## English (120 credits)

### Compulsory course

139.799 Research Report (30).....	30 credits
-----------------------------------	------------

### Subject courses

#### List A: Subject courses (At least 60 credits from)

139.703 Critical and Creative Research.....	30 credits
139.710 Rhetoric, Composition and the Teaching of Writing.....	30 credits
139.724 Literary Revolutions: Romantic and Victorian Literature .....	30 credits
139.728 Early Modern Drama: Form and Performance.....	30 credits
139.750 Contemporary New Zealand Writers in an International Context.....	30 credits
139.758 Postcolonial Theory and Writing.....	30 credits

#### List B: Subject courses (No more than 30 credits from)

139.763 Community Theatre.....	30 credits
139.765 New Directions in Creative Writing.....	30 credits
154.708 Modern Fiction, Popular Culture and the Media.....	30 credits

## Geography (120 credits)

### Compulsory course

145.799 Research Report (30).....	30 credits
-----------------------------------	------------

### Subject courses

145.710 Consumption and Place.....	30 credits
145.711 Foundations in Human Geography .....	30 credits
R 145706	
145.712 Frontiers in Human Geography.....	30 credits
R 145701	
145.730 Applied Coastal Geomorphology.....	15 credits
R 145705	
145.731 Applied Fluvial Geomorphology.....	15 credits
R 145705	
145.732 Landslide Investigation and Management.....	15 credits
R 145705	
145.734 Paleoecology, Palynology and Biogeography .....	15 credits
R 145704	

145.735 Detecting Geomorphic Change .....	15 credits
R 145702	
145.736 Advanced Physical Geography Techniques .....	15 credits
R 145702	
233.721 Global Climate Change.....	15 credits
P 145320 or 233310 R 145704, 233702	

## History (120 credits)

### Compulsory courses (120 credits from)

148.720 Advanced Historiography .....	30 credits
148.730 Advanced Historical Methodology.....	30 credits
148.799 Research Report (60).....	60 credits

## Māori Knowledge (120 credits)

### Compulsory courses (60 credits from)

150.714 Ta Te Māori Rangahau Korero: Māori Research Methodologies.....	30 credits
150.799 Research Report (30).....	30 credits

### Subject courses

150.701 Tino Rangatiratanga: Strategic Māori Development .....	30 credits
150.702 Pae Ora: Māori Health Advancement.....	30 credits
150.710 Te Reo Whakawhitwhiti: The Language of Everyday Communication .....	30 credits
P Appraisal Required.....	30 credits
150.711 Te Tau-Ihu o te Reo: Advanced Māori Literature .....	30 credits
P Appraisal Required	
150.715 Taonga Tuku Iho: Heritage Aotearoa.....	30 credits

## Media Studies (120 credits)

### Between 30 and 60 credits from

154.797 Research Report (60).....	60 credits
154.798 Research Report (30).....	30 credits

### Subject courses

154.701 Modern and Postmodern Visual Cultures.....	30 credits
154.702 Advanced Film Studies.....	30 credits
154.704 Researching Media and Cultural Studies .....	30 credits
154.707 The World of Noir.....	30 credits
154.708 Modern Fiction, Popular Culture and the Media.....	30 credits
154.709 Technology and Cultural Change.....	30 credits
154.747 Media Practice and Global Culture .....	30 credits
P 154204 or 154224 or 154304	
219.705 Advanced News Media Processes.....	30 credits

## Philosophy (120 credits)

### Compulsory course

134.710 Philosophical Research .....	30 credits
--------------------------------------	------------

### Between 30 and 60 credits from

134.798 Research Report (30).....	30 credits
134.799 Research Report (60).....	60 credits

### Subject courses

134.740 Advanced Study of Philosophical Topics.....	30 credits
134.750 Advanced Study of Philosophical Texts.....	30 credits
134.760 Advanced Philosophical Inquiry.....	30 credits

## Politics and International Relations (120 credits)

### Compulsory course (30 credits from)

200.798 Research Report (30).....	30 credits
-----------------------------------	------------

### Subject courses (90 credits from)

176.702 Advanced Social Inquiry.....	30 credits
200.701 Advanced Political Thought.....	30 credits
200.702 Comparative Politics.....	30 credits
R 200762	
200.761 International Relations: Theory and Practice.....	30 credits

## Psychology (120 credits)

### Compulsory courses (45 credits from)

175.738 Psychological Research: Principles of Design.....	15 credits
175.799 Research Report (30).....	30 credits

### Subject courses

175.718 Postmodernism and Psychology .....	15 credits
175.719 Applied Criminal Psychology .....	15 credits
175.720 Advanced Psychology of Women .....	15 credits
175.721 Child and Family Therapy .....	15 credits
175.722 Principles of Clinical Neuropsychology .....	15 credits
175.724 Advanced Experimental Psychology.....	30 credits
P 175203 and either 175205 or 175206	
175.725 Advanced Social Psychology .....	30 credits
175.729 Psychology and Culture .....	15 credits
175.730 Professional Practice in Psychology .....	15 credits

175.732 Psychological Well-being in Organisations.....	15 credits
175.733 Sustainable Livelihood .....	15 credits
175.734 Child Clinical Neuropsychology.....	15 credits
175.737 Occupational Psychology.....	15 credits
175.739 Health Psychology: Understanding Health and Illness.....	15 credits
175.740 Occupational Health Psychology.....	15 credits
175.741 Psychological Assessment in Organisations.....	15 credits
175.743 Health Psychology: The Social Context.....	15 credits
175.744 Health Psychology: Promoting Health.....	15 credits
175.746 Psychological Research: Quantitative Data Analysis.....	15 credits
175.747 The Psychology of Sport and Exercise.....	15 credits
175.748 The Psychology of Organisational Change.....	15 credits
175.750 Qualitative Methods in Psychology.....	15 credits
175.751 Neuropsychological Rehabilitation.....	15 credits
175.761 Theory and Practice of Cognitive Behaviour Therapy.....	15 credits
175.781 Understanding Mental Distress.....	15 credits
175.782 Clinical Psychology Assessment.....	15 credits
175.783 Clinical Psychology Interventions.....	15 credits

**Social Anthropology (120 credits)****Compulsory courses (60 credits from)**

146.701 Contemporary Approaches in Anthropological Theory.....	30 credits
146.703 The Practice of Anthropology.....	30 credits

**Between 30 and 60 credits from**

146.798 Research Report (60).....	60 credits
146.799 Research Report (30).....	30 credits

**Social Policy (120 credits)****Compulsory courses**

179.702 Advanced Research Methods.....	30 credits
279.701 Social Policy and Political Economy.....	30 credits
279.703 Social Policy Studies.....	30 credits
279.796 Research Report (30).....	30 credits

## The Degree of Bachelor of Commercial Music (Honours)

### BCommMus(Hons)

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Bachelor of Commercial Music (Honours) requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor of Commercial Music, having achieved at least a B grade average over the highest level courses, or equivalent.

**Qualification Requirements**

- Candidates for the Commercial Music Honours shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - at least 120 credits at 700 and 800 levels from the Schedule to the degree; and including:
  - the compulsory courses as listed in the Schedule; and
  - attending contact workshops, block courses, field trips, studios, workshops, tutorials, and/or laboratories as required.

**Specialisations**

- The Bachelor of Commercial Music (Honours) is awarded without a subject.

**Student Progression**

- The Degree of Bachelor of Commercial Music (Honours) is awarded with a class of Honours.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation, may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Creative Arts should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Schedule for the Bachelor of Commercial Music (Honours)****Compulsory Courses (105 credits from)**

133.701 Prototyping and Development for Advanced Music Projects.....	30 credits
133.702 Critical Frameworks for Music.....	15 credits
133.803 Advanced Music Research Project.....	60 credits
P 133701	

**Compulsory Course Selection (15 credits from)**

133.703 Contemporary Music Project.....	15 credits
P Permission Head of School	
197.705 Independent Study.....	15 credits

## The Degree of Bachelor of Communication (Honours)

### BC(Hons)

**No new enrolments****Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Degree of Bachelor of Communication (Honours) requires that the candidate:
  - meet the University admission requirements as specified; and
  - shall have been awarded or qualified for the Bachelor of Communication or close equivalent; or by permission of Head of School; and

- (c) have achieved at least a B grade average in the 300-level majoring courses of the intended primary subject area; and
- (d) have achieved at least 15 credits at 300-level with a B grade average in the intended secondary subject area.

**Qualification Requirements**

2. Candidates for the Degree of Bachelor of Communication (Honours) shall follow a flexible programme of study, which shall consist of courses totalling at least of 120 credits, comprising:
  - (a) at least 30 credits of taught courses from one of the subject areas in the Schedule to the Bachelor of Communication with Honours;
  - (b) the relevant Research Report for that subject area;
  - (c) at least 30 approved credits from: 139.703 Critical and Creative Research, 154.704 Researching Media and Cultural Studies, 156.776 Research Methods in Marketing, 219.790 Research Methods in Communication;
  - (d) at least 30 credits of taught courses from a secondary subject area in the Schedule to the Bachelor of Communication (Honours).

**Specialisations**

3. Students whose primary subject area is Communication Management, Journalism Studies, Marketing Communication or Public Relations must select Expressive Arts, Linguistics, or Media Studies as their secondary area of study.
4. Students whose primary subject area is Expressive Arts, Linguistics, or Media Studies must select Communication Management, Journalism Studies, Marketing Communication or Public Relations as their secondary area of study.
5. The Bachelor of Communication (Honours) will be awarded with a subject in the primary area of study.

**Student Progression**

6. In cases of sufficient merit, the Bachelor of Communication (Honours) may be awarded with a specified class of honours.

**Completion Requirements**

7. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
8. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Arts should they meet the relevant qualification requirements.

**Unsatisfactory Academic Progress**

9. The general Unsatisfactory Academic Progress regulations will apply.

**The Degree of Bachelor of Information Sciences (Honours)  
BlInfSc(Hons)**

**No new enrolments**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

- Admission to the Degree of Bachelor of Information Sciences (Honours) requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for the Bachelor of Information Sciences having achieved a B+ grade average over the 300-level majoring courses of the intended subject area; or
  - have passed 240 credits towards the Degree of Bachelor of Information Sciences having achieved an A- grade average, and including at least 195 credits above 100 level and having met the requirements for at least one major.

**Qualification Requirements**

- Candidates for the Degree of Bachelor of Information Sciences (Honours) shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:

- (a) 120 credits at 700 level selected from the Schedule for the Qualification; and including:
- (b) any compulsory courses listed in the Schedule for the Qualification;
- (c) completion of a subject;
- (d) attending workshops, block courses, tutorials or laboratories as required.

#### Specialisations

3. Candidates shall complete a subject by passing at least 120 credits in a subject including completion of a research or project course. The requirements for each subject are set out in the Schedule for the Qualification.
4. Approved subjects are: Computer Science, Information Technology.
5. Approved joint subject is Software Engineering.

#### Student Progression

6. Candidates admitted to the Degree under Regulation 1(c) must maintain an A- grade average over the remaining Bachelor of Information Science requirements to remain in the programme.

#### Completion Requirements

7. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
8. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology, or for candidates admitted under Regulation 1(c) the award of Bachelor of Information Sciences, should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

9. The general Unsatisfactory Academic Progress regulations will apply.

159.731 Studies in Computer Vision	15 credits
159.732 Studies in Computer Programming	15 credits
159.735 Studies in Parallel and Distributed Systems	15 credits
159.736 Studies in Operating Systems and Architecture	15 credits
159.737 Studies in Compilers and Grammars	15 credits

##### Information Technology component (45 credits from)

158.738 Implementation and Management of Systems Security	15 credits
R 157738	
158.751 Object-Oriented Software Development - Theory and Practice	15 credits
158.752 Agile Software Engineering	15 credits
158.753 Software Development Paradigms	15 credits
158.755 Data Science - Making Sense of Data	15 credits
158.757 User Interface Design and Evaluation	15 credits
R 157757	
158.758 Mobile Systems Development	15 credits
R 157758	
158.762 Software Quality and Reliability	15 credits
R 157762	

## The Degree of Bachelor of Science (Honours)

### BSc(Hons)

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

1. Admission to the Degree of Bachelor of Science with Honours requires that the candidate will:
  - (a) meet the University admission requirements as specified, and;
  - (b) have been awarded or qualified for the Bachelor of Science with a major in the intended postgraduate subject, or equivalent, having

achieved a minimum B+ grade average over the 300-level majoring courses of the qualifying programme; or

- (c) have been awarded or qualified for a Bachelor's degree, followed by a Graduate Diploma in Science and Technology comprising approved 300-level courses in the intended postgraduate subject, or equivalent, with a minimum B+ grade average over the 300-level courses.

###### Qualification Requirements

2. Candidates for the Degree of Bachelor of Science with Honours shall follow a flexible course of study, which shall consist of courses totalling at least 120 credits, comprising:
  - (a) 120 credits at 700-level selected from the Schedule for the Qualification;
  - and including:
  - (b) completion of a subject;
  - (c) a research report or project of at least 30 credits; and

- (d) attending contact workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

### Specialisations

- Candidates must complete a subject by passing at least 120 credits in a subject, including any compulsory courses and a research report of at least 30 credits. The requirements for each subject are set out in the Schedule for the Qualification.
- Notwithstanding Regulations 2 and 3, and subject to academic merit, approval of the relevant Postgraduate Subject Leader, availability of a suitable project, and availability of appropriate supervision, candidates may be invited to complete the Degree by completing 30 credits of 700-level taught courses in a subject and a 90-credit research course selected from Schedule B.
- Subjects available are: Agricultural Science, Animal Science, Biochemistry, Biological Sciences, Chemistry, Computer Science, Earth Science, Ecology, Exercise and Sport Science, Genetics, Geography, Horticultural Science, Human Nutrition, Mathematics, Microbiology, Nanoscience, Physics, Physiology, Plant Biology, Psychology, Soil Science, Statistics, Zoology.

### Student Progression

- The Degree of Bachelor of Science with Honours will be awarded with a class of Honours.

### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology or Postgraduate Diploma in Science and Technology should they meet the relevant Qualification requirements.

### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

## Schedule for the Bachelor of Science (Honours)

### Schedule A

#### Agricultural Science (120 credits)

##### No new enrolments

##### Compulsory course

238.798 Research Report ..... 30 credits

##### At least 15 credits from

119.728 Research Methods in Animal, Veterinary and Agricultural Sciences. 15 credits  
R 119729, 162760, 162761, 162762

119.729 Research Methods ..... 15 credits  
R 119728, 162760, 162761, 162762

162.760 Research Methods and Communication in the Biosciences ..... 30 credits  
R 162761, 162762, 119728, 119729

##### Subject courses

117.761 Ruminant Livestock Feeding ..... 15 credits  
P 117342 or 117371 or 117381

117.762 Intensive Livestock Feeding ..... 15 credits  
P 117342

117.764 Growth and Meat Science ..... 15 credits  
P 117344

117.765 Genetics and Breeding ..... 15 credits  
P 117345

117.767 Reproduction and Fertility ..... 15 credits  
P 117347

117.768 Metabolism and Endocrinology ..... 15 credits  
P 117348

117.769 Lactation and Milk Production ..... 15 credits  
P 117347

117.771 Dairy Production ..... 15 credits  
P 117351 or 117371 or 117381

117.772 Sheep Production ..... 15 credits  
P 117352 or 117371 or 117381

117.773 Beef Cattle Production ..... 15 credits  
P 117353 or 117371 or 117381

117.774 Pig Production ..... 15 credits  
P 117354 or 117371 or 117381

117.775 Deer Production ..... 15 credits  
P 117355 R 117755

117.776 Poultry Production .....	15 credits
P 117354 or 117371 or 117381	
117.783 Advanced Studies in Animal Science.....	15 credits
117.784 Advanced Studies in Animal Science.....	30 credits
119.710 Nutrient Management in Grazed Pasture Systems.....	30 credits
119.711 Nutrient Management in Arable Systems .....	15 credits
189.752 Advanced Soil Fertility.....	30 credits
189.753 Soil and Land Evaluation.....	30 credits
P 189364	
189.755 Soil and Water Pollution .....	30 credits
P 189363	
189.757 Advanced Soil Conservation.....	15 credits
P 189252	
189.758 Advanced Soil Water Management.....	15 credits
P 189252	
283.701 Advanced Pasture Production and Practice.....	15 credits
P 171301 or 283301 R 171707	
283.702 Advanced Agronomy.....	30 credits
P 283301 or 283311 or 283305	
283.704 Urban and Farm Forestry .....	15 credits
P 283101 or 283321 or 283311 or 284322 R 284721	
283.708 Quantitative Plant Breeding .....	30 credits
P One of 1203xx, 283305, 284301 or 284342 R 171754	
284.703 Vegetable Production Science.....	15 credits
R 171722; 171724; 284701; 284702	
284.704 Fruit Production Science.....	15 credits
R 171722; 171724; 284701; 284702	
284.741 Post-harvest Physiology.....	30 credits
R 171749	
285.742 Topics in Advanced Plant Protection.....	30 credits
P 199310 or 283311 or 285301	
286.701 Advanced Equine Production.....	15 credits
R 117777	
286.711 Equine Science .....	15 credits
R 117763	

#### Animal Science (120 credits)

##### No new enrolments

##### Compulsory courses (60 credits from)

117.709 Biometrics for the Animal and Nutritional Sciences ..... 15 credits  
R 151709

117.799 Research Report ..... 30 credits

119.728 Research Methods in Animal, Veterinary and Agricultural Sciences. 15 credits  
R 119729, 162760, 162761, 162762

##### At least 30 credits from

117.761 Ruminant Livestock Feeding ..... 15 credits  
P 117342 or 117371 or 117381

117.762 Intensive Livestock Feeding..... 15 credits  
P 117342

117.764 Growth and Meat Science..... 15 credits  
P 117344

117.765 Genetics and Breeding ..... 15 credits  
P 117345

117.767 Reproduction and Fertility ..... 15 credits  
P 117347

117.768 Metabolism and Endocrinology..... 15 credits  
P 117348

117.769 Lactation and Milk Production ..... 15 credits  
P 117347

##### Subject courses

117.771 Dairy Production ..... 15 credits  
P 117351 or 117371 or 117381

117.772 Sheep Production ..... 15 credits  
P 117352 or 117371 or 117381

117.773 Beef Cattle Production ..... 15 credits  
P 117353 or 117371 or 117381

117.774 Pig Production..... 15 credits  
P 117354 or 117371 or 117381

117.775 Deer Production ..... 15 credits  
P 117355 R 117755

117.776 Poultry Production ..... 15 credits  
P 117354 or 117371 or 117381

117.783 Advanced Studies in Animal Science..... 15 credits

117.784 Advanced Studies in Animal Science..... 30 credits

122.703 Gene Expression..... 30 credits  
P One of 122303, 203342, 203340

122.704 Molecular Cell Biology	30 credits
P One of 122322, 122327, 123326, 203307, 203340, 203342, 162312, 194346	
122.713 Advanced Topics in Biochemistry	15 credits
P One of 122303, 122322, 122327, 123326, 203300, 203307, 203340, 203342	
194.703 Neurophysiology and Neuroendocrinology	30 credits
194.704 Reproductive Physiology	30 credits
194.705 Digestive Physiology	30 credits
194.707 Perinatal Physiology	30 credits
194.709 Conservation Endocrinology and Reproductive Biology	30 credits
194.731 Animal Welfare Science	30 credits
194.732 Advanced Cell Physiology	30 credits
199.714 Animal Behaviour	30 credits
P 199312	
199.717 Entomology	30 credits
P 199310 or 285301	
199.719 Topics in Biodiversity	15 credits
P 199317 or 120303 or 196318 R 199718	
283.701 Advanced Pasture Production and Practice	15 credits
P 171301 or 283301 R 171707	
283.702 Advanced Agronomy	30 credits
P 283301 or 283311 or 283305	
283.704 Urban and Farm Forestry	15 credits
P 283101 or 283321 or 283311 or 284322 R 284721	

### Biochemistry (120 credits)

#### No new enrolments

#### Compulsory courses (60 credits from)

122.703 Gene Expression	30 credits
P One of 122303, 203342, 203340	
122.798 Research Report	30 credits
P Two of 122322, 122327, 122303, 203340, 203341, 203342, 203343	

#### At least 30 credits from

122.704 Molecular Cell Biology	30 credits
P One of 122322, 122327, 123326, 203307, 203340, 203342, 162312, 194346	
247.712 Advanced Topics in Molecular Biology	30 credits
P One of 122303, 122322, 122327, 123326, 194346, 203300, 203307, 203340, 203341, 203342, 203343	

#### Subject courses

122.713 Advanced Topics in Biochemistry	15 credits
P One of 122303, 122322, 122327, 123326, 203300, 203307, 203340, 203342	
162.760 Research Methods and Communication in the Biosciences	30 credits
R 162761, 162762, 119728, 119729	

### Biological Sciences (120 credits)

#### No new enrolments

#### Compulsory course selection (30 credits from)

175.747 The Psychology of Sport and Exercise.....	15 credits
175.748 The Psychology of Organisational Change.....	15 credits
175.750 Qualitative Methods in Psychology .....	15 credits
175.751 Neuropsychological Rehabilitation .....	15 credits
175.761 Theory and Practice of Cognitive Behaviour Therapy .....	15 credits
175.781 Understanding Mental Distress .....	15 credits
175.782 Clinical Psychology Assessment .....	15 credits
175.783 Clinical Psychology Interventions .....	15 credits

## Soil Science (120 credits)

### No new enrolments

#### Compulsory course

189.798 Research Report .....	30 credits
-------------------------------	------------

#### Subject courses

119.710 Nutrient Management in Grazed Pasture Systems .....	30 credits
119.711 Nutrient Management in Arable Systems .....	15 credits
189.752 Advanced Soil Fertility.....	30 credits
189.753 Soil and Land Evaluation .....	30 credits
P 189364	
189.755 Soil and Water Pollution .....	30 credits
P 189363	
189.757 Advanced Soil Conservation.....	15 credits
P 189252	
189.758 Advanced Soil Water Management .....	15 credits
P 189252	

233.701 Advanced Pedology .....	30 credits
P 189364	
233.705 Volcanology and Tephrochronology.....	30 credits
233.706 Environmental Geographical Information Systems .....	30 credits
233.707 Environmental Remote Sensing .....	30 credits
233.708 Geochemistry.....	30 credits
233.721 Global Climate Change.....	15 credits
P 145320 or 233310 R 145704, 233702	
233.722 Advanced Quaternary Geology .....	15 credits
P 233310 R 233702	

## Statistics (120 credits)

### No new enrolments

#### Compulsory courses (45 credits from)

161.705 Advanced Statistical Inference .....	15 credits
161.782 Statistical Analysis Project .....	30 credits

#### Subject courses

161.704 Bayesian Statistics .....	15 credits
161.709 Topic in Statistical Theory .....	15 credits
161.725 Statistical Quality Control .....	15 credits
161.729 Topics in Applied Statistics .....	15 credits
161.743 Statistical Reliability and Survival Analysis.....	15 credits
161.744 Statistical Genetics .....	15 credits
161.770 Statistical Consulting .....	15 credits

#### Subject courses (No more than 15 credits from)

161.762 Multivariate Analysis for Big Data .....	15 credits
R 161323, 161772	
161.777 Practical Data Mining.....	15 credits
R 161223 and 161324	

## Zoology (120 credits)

### No new enrolments

#### Compulsory course

199.798 Research Report .....	30 credits
-------------------------------	------------

#### At least 45 credits from

199.714 Animal Behaviour .....	30 credits
P 199312	
199.717 Entomology.....	30 credits
P 199310 or 285301	
199.719 Topics in Biodiversity .....	15 credits
P 199317 or 120303 or 196318 R 199718	

#### Subject courses

194.709 Conservation Endocrinology and Reproductive Biology .....	30 credits
---	------------

#### No more than 30 credits from

194.703 Neurophysiology and Neuroendocrinology .....	30 credits
194.704 Reproductive Physiology.....	30 credits
194.705 Digestive Physiology.....	30 credits
194.707 Perinatal Physiology .....	30 credits
194.731 Animal Welfare Science.....	30 credits
194.732 Advanced Cell Physiology.....	30 credits
196.712 Aquatic Ecology .....	30 credits

# BACHELOR'S DEGREES WITH HONOURS

The Degree of Bachelor of Design with Honours .....	119	The Degree of Bachelor of Food Technology with Honours.....	129
The Degree of Bachelor of Engineering with Honours .....	124	The Degree of Bachelor of Speech and Language Therapy with Honours .....	131
The Degree of Bachelor of Fine Arts with Honours.....	128		

## The Degree of Bachelor of Design with Honours BDes(Hons)

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Design (Honours) requires that the candidate will:
  - meet the University admission requirements as specified; and
  - be selected into the Qualification based partially on the assessment of a portfolio of work submitted by the applicant.
- An applicant who holds the degree of Bachelor of Design shall not be admitted to the Bachelor of Design with Honours.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Design (Honours) shall follow a parts-based programme of study, which shall consist of courses totalling at least 480 credits, comprising:
  - Part One, Part Two, Part Three, and Part Four as specified in Schedules A and B,
  - elective courses from Schedule C or other courses from Massey University; and including
    - not more than 180 credits at 100 level;
    - at least 90 credits at 200 level;
    - at least 90 credits at 300 level;
    - at least 120 credits at 400 level or above;
    - completion of at least one major.
- Notwithstanding Regulation 3 holders of a Massey University Diploma in Fashion Design and Technology may be permitted to credit up to 120 credits at 100 level, and include up to 195 credits at 100 level in a Bachelor of Design with Honours, fashion design major.
- Notwithstanding Regulation 3 holders of a Massey University Diploma in Photography may be permitted to credit up to 120 credits at 100 level and up to 120 credits at 200 level to the Bachelor of Design with Honours, Photography major.
- Candidates, who in the opinion of the Academic Board have passed with sufficient merit subjects for NZQF recognised qualifications at Level 5 or above in creative arts subjects or equivalent, may be granted specified or unspecified credit for part or all of the First and Second Parts. The credit granted will be determined by Academic Board after taking into account the areas of study, the quantum of study and the standard of pass attained, normally 120 credits but in exceptional circumstances, up to a maximum of 240 credits.

##### Specialisations

- Candidates may complete a major by passing Parts One, Two, Three, and Four specified for a major selected from: Concept Design, Integrated Design, Fashion Design, Fashion Design and Business, Industrial Design, Photography, Spatial Design, Textile Design and Visual Communication Design. The requirements for each major are set out in Schedule B to the Qualification.
- Candidates may include a minor from any undergraduate degree within the University for which recognised minors are specified, in accordance with the following requirements:
  - the overall balance of credits as specified in Regulation 3 are maintained;
  - the minor must be in a different subject area from the major(s);
  - where the minor is from another undergraduate degree the regulations of that programme for the minor will apply;
  - no course may be credited to both a major and a minor.

##### Student Progression

- In order to progress to Part Two the candidate shall have passed a total of 75 credits at 100 level with at least 60 credits from the Part One courses including one of 237.130 or 237.131 and the Schedule B course relevant to the major to be taken.
- For progression to Part Four of the Bachelor of Design with Honours, the candidate must have achieved a weighted grade average of at least a B- across the Part Three course 237.330 and the Design Studio IIIB course relevant to the major being taken.
- The Academic Board may grant exemptions to the requirements in Regulations 9 and 10 based on the subjects studied and prior performance of the student.
- The Degree of Bachelor of Design with Honours may be awarded with First Class Honours or with Second Class Honours Division I or Second Class Honours Division II or with Third Class Honours. The class of Honours awarded shall be determined by the examiners on the performance of the candidate in Part Four of the programme.

##### Completion Requirements

- The Bachelor of Design with Honours normally must be completed within the following timeframes:
  - five consecutive academic years for full-time students;
  - eight consecutive academic years for part-time students.
- Candidates may be graduated when they meet the Qualification requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Bachelor of Design or an alternative creative arts qualification should they meet the relevant qualification requirements.

##### Unsatisfactory Academic Progress

- The Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Bachelor of Design with Honours

#### Schedule A: Core courses

##### Part One

##### 30 credits from

237.130 Communication for Makers .....	15 credits
R 237101, 237114	
237.131 Conversations in Creative Cultures .....	15 credits
R 237102	

##### 60 credits from

198.157 Studio I (Object).....	15 credits
R 197132	
212.157 Studio I (Dress).....	15 credits
R 197135	
213.157 Studio I (Art Lab).....	15 credits
R 197132	
213.158 Studio I (Art Place).....	15 credits
R 197131	
221.157 Studio I (Lens).....	15 credits
R 221101	
222.157 Studio I (Screen).....	15 credits
R 197131	
222.158 Studio I (Type).....	15 credits
R 197131, 222100	
223.157 Studio I (Material).....	15 credits
R 197133	
224.157 Studio I (Space).....	15 credits
R 197131	
296.157 Studio I (Imagine).....	15 credits

**Part Two****15 credits from**

237.230 Creative Cultures & Contexts I	15 credits
P 75 credits at 100-level R 198281, 212202, 213252, 221281, 222281, 223202, 224281

## The Degree of Bachelor of Engineering with Honours BE(Hons)

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Engineering with Honours requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Engineering with Honours shall follow a parts-based programme of study, which shall consist of courses totalling at least 480 credits, comprising:
  - a First Part, Second Part, Third Part, and Fourth Part;
  - at least 4 years of study; and including:
    - 800 hours of practical work experience;
    - completion of one major;
    - attending field trips, studios, workshops, tutorials and laboratories as required.
- The following minors are available under Transitional Provisions:
  - Chemical and Bioprocess Engineering
  - Electronics and Computer Engineering
  - Mechatronics.
- Candidates who, in the opinion of the Academic Board, have passed with sufficient merit subjects for the New Zealand Certificate in Science, The National Diploma in Engineering, or an equivalent qualification, may be granted credit, including part or all of the First and Second Parts. The credit granted will be determined by Academic Board after taking into account the areas of study of the certificate and the standard of pass attained.
- Notwithstanding Regulation 2, candidates who, in the opinion of the Academic Board, have achieved the admission requirements for the Degree of Bachelor of Engineering with Honours to an excellent standard, may be admitted to the programme after the commencement of Part One, but no later than the start of Part Two, and may be granted an exemption, including part or all of the First Part. The exemption granted will be determined by Academic Board after taking into account the level of achievement in the subjects passed prior to, and subsequent to, admission. Alternative courses of an equivalent credit value must be substituted for the exempted courses.
- Notwithstanding Regulation 2, candidates who have passed courses in engineering from a recognised overseas tertiary institution with which Massey University has a cross-crediting agreement may cross-credit up to 240 credits at 100-, 200- or 300-level as permitted by the terms of the agreement.
- The maximum credit or exemption granted under any credit recognition process shall be 240 credits.

##### Specialisations

- Candidates shall complete one of the following majors:
  - Chemical and Bioprocess Engineering

Electronics and Computer Engineering  
Engineering and Innovation Management  
Mechatronics.

The requirements for each major are set out in the Schedule for the Degree of Bachelor of Engineering with Honours.

##### Academic Requirements

- Every candidate for the Degree of Bachelor of Engineering with Honours shall complete to the satisfaction of Academic Board a minimum of 800 hours of approved practical work and associated reports in accordance with the following courses:
  - 228.210 Practicum I;
  - 228.310 Practicum II.
 Passes in these courses will be awarded on the basis of practical work completed in accordance with the guidelines governing the practical work requirements.

##### Student Progression

- Candidates may progress from Part One to Two, Two to Three, and Three to Four, by passing all courses in the prior part, either by examination or by the award of a combined results pass.
- Candidates who fail to pass a complete Part in accordance with Regulation 10 shall re-enrol in the remaining unpassed course(s) at the next available offering of the course(s).
- Candidates who are retaking courses from Part One in accordance with Regulation 11 may not progress to Part Two until all of Part One has been successfully completed.
- Candidates who are retaking courses in Parts Two and Three in accordance with Regulation 11 may apply for permission to enrol in courses from the subsequent part, where the nominated courses are from different areas of study to the courses not passed; permission will only be granted where, in the opinion of Academic Board, the academic record of the candidate shows proven merit.
- The Degree of Bachelor of Engineering with Honours may be awarded with First Class Honours or with Second Class Honours (Division I) or with Second Class Honours (Division II) or with Third Class Honours. The class of Honours shall be determined by the candidate's performance in the Second, Third and Fourth Parts of the Degree.
- Candidates who have passed all courses and completed all other requirements for a Bachelor of Engineering with Honours but whose performance in the courses is deemed by the Academic Board, upon recommendation of the examiners, not to be of Honours standard will be awarded the Degree of Bachelor of Engineering.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Bachelor of Science should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress Regulations will apply.

##### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations of

this degree, candidates who commenced study towards the Engineering and Innovation Management major prior to 1 January 2019 will be permitted to complete one of the minors by satisfying the requirements as specified by Schedule B.

20. These transition arrangements expire on 31 December 2023.

21. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who were enrolled in the Bachelor of Engineering with Honours prior to 1 January 2020 may substitute 100-level courses already taken for 100-level courses included in the Part One schedule until December 2023.

22. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who were enrolled in the Electronics and Computer Engineering major prior to 1 January 2021 may substitute a course or courses already passed towards the major for courses of the same credit value and at the same level included in the schedule for the major until December 2024.

## Schedule for the Bachelor of Engineering with Honours Specialisations

### Chemical and Bioprocess Engineering (480 credits)

#### First Part

##### Auckland and Manawātū Campuses

123.104 Chemistry for Biological Systems.....	15 credits
R 123101, 123171	
123.105 Chemistry and the Physical World .....	15 credits
R 123102, 123172	
124.104 Physics 1A: Mechanics and Thermodynamics .....	15 credits
R 124101, 124111, 124171	
160.101 Calculus .....	15 credits
R 160112, 160133, 228172	
160.102 Algebra .....	15 credits
R 160112, 160133, 228172	
228.115 Engineering and Technology Principles .....	15 credits
R 141111 and 228111	
247.114 Science and Sustainability for Engineering and Technology .....	15 credits
R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247111, 247112, 247113	

#### 15 credits from

120.101 Plant Biology.....	15 credits
159.100 Programming for Engineering and Technology.....	15 credits
R 159101	

#### Second Part

##### Auckland and Manawātū Campuses

123.201 Chemical Energetics.....	15 credits
P One of (123102, 123105, 124104 or 123172) and one of (160101, 160102, 160105, 160132 or 160133)	
123.271 Molecules to Materials .....	15 credits
P (123101, 123104 or 123171) and (123102, 123105 or 123172)	
141.212 Food Technology 4: Manufacturing.....	15 credits
P (123105 or 123172), (124104 or 124172), (160102 or 228172) and (141112 or 228112 or 228115) C 123201, 280201, 280272 R 228212	
228.211 Engineering Practice 3: Product Development.....	15 credits
P (228115, 247114) or (124172, 228172, 228112 and (123172 or 159172) R 141211	
228.271 Engineering Mathematics 2 .....	15 credits
P 228172 or (160101 and 160102) R 228222, 228223	
280.201 Industrial Microbiology.....	15 credits
P (123101 or 123104 or 123171) and (123102 or 123105 or 123172 or 122102) R 162212, 162214	
280.271 Heat and Mass – Conservation and Transfer.....	15 credits
P (124104, 160102 and 228115) OR (124172 and 228172)	
280.272 Fluid Flow and Particle Technology.....	15 credits
P (123104 or 123172), (124104 or 124172), (160102 or 228172)	

#### Third Part

##### Manawātū Campus

228.312 Engineering Practice 5: Process Engineering with Constraints.....	30 credits
P 280271, 280272, 228211, 141212 C 280341 R 280394, 280346	
228.371 Statistical Modelling for Engineers and Technologists .....	15 credits
P 228271 R 228340	
280.304 Bioseparation and Purification Processes.....	15 credits
P (141294 and (280299 or 141221)) or (280271 and 280272) R 142304	
280.341 Environmental Technology.....	15 credits
P 142201 or 280201	

280.371 Process Engineering Operations .....	15 credits
P 280271 and 280272 R 280391	
280.372 Reaction Technologies and Process Modelling.....	15 credits
P 123201, 123271, 228271, 280271, 280272, 280201 R 280391 and 280392	

#### 15 credits from

123.202 Organic and Biological Chemistry .....	15 credits
P 123101 or 123171	
228.741 Energy Systems .....	15 credits
P 228743 or 228769 or 280271	
236.201 Nanoscience.....	15 credits
P 123102 (or 123172), 124101 (or 124111 or 124171) R 142312, 280312	
280.760 Industrial Refrigeration .....	15 credits
R 142760	

#### Fourth Part

##### Manawātū Campus

228.711 Engineering Practice 6: Design Capstone Project.....	30 credits
P 228311 or 228312 R 228485, 280430	
228.798 Individual Research Project.....	30 credits
P 228311 or 228312	
280.702 Process Control.....	15 credits
P (228222 or 228271) and (280371 or 280391) R 142402	
280.721 Process Improvement .....	15 credits
P 228312, 280371, 280372 R 142400, 142405, 142411, 280400, 280405, 280411	
280.771 Chemical and Bioprocess Engineering.....	15 credits
P 280371 and 280372 R 280403	

#### 15 credits from

141.710 Food Packaging Engineering and Legislation.....	15 credits
141.723 Industrial Systems Improvement.....	15 credits
R 287342	
228.741 Energy Systems .....	15 credits
P 228743 or 228769 or 280271	
228.744 Case Studies of Renewable Energy Systems.....	15 credits
R 142744	
228.750 Renewable Energy and Sustainable Development .....	15 credits
P 228312 R 142750	
280.760 Industrial Refrigeration .....	15 credits
R 142760	
282.758 Simulation, Modelling and Optimisation .....	15 credits
R 143458, 282458	
287.740 Innovation Management.....	15 credits
P 228311 or 228312 R 287703	

### Electronics and Computer Engineering (480 credits)

#### First Part

124.104 Physics 1A: Mechanics and Thermodynamics .....	15 credits
R 124101, 124111, 124171	
124.105 Physics 1B: Electricity, Waves and Modern Physics .....	15 credits
R 124102, 124172	
159.100 Programming for Engineering and Technology.....	15 credits
R 159101	
160.101 Calculus.....	15 credits
R 160112, 160133, 228172	
160.102 Algebra .....	15 credits
R 160112, 160133, 228172	
228.115 Engineering and Technology Principles.....	15 credits
R 141111 and 228111	
247.114 Science and Sustainability for Engineering and Technology .....	15 credits
R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247111, 247112, 247113	

#### Any 100-level 15 credit course

#### Second Part

158.222 Data Wrangling and Machine Learning.....	15 credits
P (159101 or 159100) and one of (1611xx, 160101, 160102)	
159.270 Hardware-Oriented Computing .....	15 credits
P 159100 or 159101 or 159172 R 159236	
228.211 Engineering Practice 3: Product Development.....	15 credits
P (228115, 247114) or (124172, 228172, 228112 and (123172 or 159172) R 141211	
228.212 Engineering Practice 4: Materials & Manufacturing .....	15 credits
P Three of 228211, 228271, 281281, 282260 R 141212	
228.271 Engineering Mathematics 2 .....	15 credits
P 228172 or (160101 and 160102) R 228222, 228223	
281.272 Signals and Systems .....	15 credits
P 281281 and (228271 or 160204) R 124344, 143227, 143333, 281227, 281333	

281.281	Analogue Electronic Systems	15 credits
	P (124171 and 124172) or 124105 R 124241, 124251, 281251	
281.282	Digital Electronic Systems	15 credits
<b>Third Part</b>		
158.235	Networks, Security and Privacy	15 credits
	P 1581xx or 1591xx or 157150 or 157151 or 115107	
158.333	Applied Machine Learning and Big Data Processing	15 credits
	P 158222	
218.741	Light & Lighting	15 credits
	R 140741	
228.311	Engineering Practice 5: Engineering Design with Constraints	30 credits
	P 281281, 281282, 228211, 228212 C 281384 or 280341 or 287342	
228.371	Statistical Modelling for Engineers and Technologists	15 credits
	P 228271 R 228340	
281.353	Control Engineering	15 credits
	P 281272 R 143335, 143346, 281335, 282346	
281.384	Embedded Systems Design	15 credits
	P 159270, 281282 R 140320, 143339, 281320, 281339	
<b>Fourth part</b>		
228.711	Engineering Practice 6: Design Capstone Project	30 credits
	P 228311 or 228312 R 228485, 280430	
228.798	Individual Research Project	30 credits
	P 228311 or 228312	
281.755	Digital Signal Processing	15 credits
	P 281272 R 124344, 143333, 281333	
281.785	Advanced Computer Engineering	15 credits
	P 281384 R 143474, 281474	
<b>30 credits from</b>		
281.756	Image and Video Processing	15 credits
	P 281272 R 281473	
281.776	Advanced Communication Engineering	15 credits
	P 281374 or 158235	
281.786	Advanced Micro- and Nano-electronics	15 credits
	P 281281 R 124345, 143457, 281457	
<b>Any 700-level 15 credit course selected from the following prefixes: 158 Information Technology, 159 Computer Science.</b>		
<b>Engineering and Innovation Management (480 credits)</b>		
<b>No new enrolments</b>		
<b>Schedule A</b>		
<b>First Part</b>		
124.104	Physics 1A: Mechanics and Thermodynamics	15 credits
	R 124101, 124111, 124171	
124.105	Physics 1B: Electricity, Waves and Modern Physics	15 credits
	R 124102, 124172	
159.100	Programming for Engineering and Technology	15 credits
	R 159101	
160.101	Calculus	15 credits
	R 160112, 160133, 228172	
160.102	Algebra	15 credits
	R 160112, 160133, 228172	
228.115	Engineering and Technology Principles	15 credits
	R 141111 and 228111	
247.114	Science and Sustainability for Engineering and Technology	15 credits
	R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247111, 247112, 247113	
<b>Any 100-level 15 credit course</b>		
<b>Second Part</b>		
159.270	Hardware-Oriented Computing	15 credits
	P 159100 or 159101 or 159172 R 159236	
228.211	Engineering Practice 3: Product Development	15 credits
	P (228115, 247114) or (124172, 228172, 228112 and (123172 or 159172) R 141211	
228.212	Engineering Practice 4: Materials & Manufacturing	15 credits
	P Three of 228211, 228271, 281281, 282260 R 141212	
228.271	Engineering Mathematics 2	15 credits
	P 228172 or (160101 and 160102) R 228222, 228223	
281.272	Signals and Systems	15 credits
	P 281281 and (228271 or 160204) R 124344, 143227, 143333, 281227, 281333	
281.281	Analogue Electronic Systems	15 credits
	P (124171 and 124172) or 124105 R 124241, 124251, 281251	
281.282	Digital Electronic Systems	15 credits
282.260	Manufacturing Engineering and Computer Aided Design	15 credits
	P (124104 or 124172) and (160101 or 228172)	

**Third Part**

125.230	Business Finance	15 credits
	P 115114	
228.311	Engineering Practice 5: Engineering Design with Constraints	30 credits
	P 281281, 281282, 228211, 228212 C 281384 or 280341 or 287342	
228.371	Statistical Modelling for Engineers and Technologists	15 credits
	P 228271 R 228340	
281.353	Control Engineering	15 credits
	P 281272 R 143335, 143346, 281335, 282346	
282.371	Mechanics and Materials	15 credits
	P 124172 or 124104	
287.320	Product Design	15 credits
	P 228211 & 228212	
287.342	Agile Manufacturing	15 credits
	R 143329, 143342	

**Fourth Part**

228.711	Engineering Practice 6: Design Capstone Project	30 credits
	P 228311 or 228312 R 228485, 280430	
228.798	Individual Research Project	30 credits
	P 228311 or 228312	
238.700	Life Cycle Assessment (LCA) and Footprinting Principles	15 credits
282.778	Mechatronics	15 credits
	P 281353, 282371 R 143478, 282478	
287.706	New Product Development Practices	15 credits
	P 228311 or 228312	
287.740	Innovation Management	15 credits
	P 228311 or 228312 R 287703	

**Schedule B: Engineering and Innovation Management under transition regulations****First Part****Core courses (90 credits from)**

124.171	Physical Principles for Engineering & Technology 1	15 credits
	R 124101	
124.172	Physical Principles for Engineering & Technology 2	15 credits
	P 124171 R 124102	
228.111	Engineering Practice 1: Global Perspectives	15 credits
	C 123171 or 159171, 124171, 228171 R 141111, 228125 and 228150	
228.112	Engineering Practice 2: Creative Solutions	15 credits
	P 141111 or 228111 or 228125 or 228150 C 123172 or 159172, 228172, 124172 R 141112, 228120, 228152	
228.171	Engineering Mathematics 1A	15 credits
	R 160101, 160102, 160111	
228.172	Engineering Mathematics 1B	15 credits
	P 228171 R 160112, 160133, 160101, 160102	

**Minor specialisation courses (30 credits from)****Chemical and Bioprocess Engineering minor**

123.171	Chemistry for Biological Systems 1	15 credits
	R 123101	
123.172	Chemistry for Biological Systems 2	15 credits
	R 123102	

**Electronics and Computer Engineering minor**

159.171	Computational Thinking and Programming 1	15 credits
159.172	Computational Thinking and Programming 2	15 credits
	P 159171 R 159102	

**Mechatronics minor**

159.171	Computational Thinking and Programming 1	15 credits
159.172	Computational Thinking and Programming 2	15 credits
	P 159171 R 159102	

**Second Part****Core courses (45 credits from)**

228.211	Engineering Practice 3: Product Development	15 credits
	P (228115, 247114) or (124172, 228172, 228112 and (123172 or 159172) R 141211	
228.271	Engineering Mathematics 2	15 credits
	P 228172 or (160101 and 160102) R 228222, 228223	

**And for the Chemical and Bioprocess Engineering minor**

141.212	Food Technology 4: Manufacturing	15 credits
	P (123105 or 123172), (124104 or 124172), (160102 or 228172) and (141112 or 228112 or 228115) C 123201, 280201, 280272 R 228212	

**Or for either Electronics and Computer Engineering or Mechatronics minors**

228.212	Engineering Practice 4: Materials & Manufacturing	15 credits
	P Three of 228211, 228271, 281281, 282260 R 141212	

**Minor specialisation courses (75 credits from)****Chemical and Bioprocess Engineering minor**

123.201 Chemical Energetics.....	15 credits
P One of (123102, 123105, 124104 or 123172) and one of (160101, 160102, 160105, 160132 or 160133)	
123.271 Molecules to Materials.....	15 credits
P (123101, 123104 or 123171) and (123102, 123105 or 123172)	
280.201 Industrial Microbiology.....	15 credits
P (123101 or 123104 or 123171) and (123102 or 123105 or 123172 or 122102) R 162212, 162214	
280.271 Heat and Mass – Conservation and Transfer.....	15 credits
P (124104, 160102 and 228115) OR (124172 and 228172)	
280.272 Fluid Flow and Particle Technology.....	15 credits
P (123104 or 123172), (124104 or 124172), (160102 or 228172)	

**Electronics and Computer Engineering minor**

159.270 Hardware-Oriented Computing.....	15 credits
P 159100 or 159101 or 159172 R 159236	
281.272 Signals and Systems.....	15 credits
P 281281 and (228271 or 160204) R 124344, 143227, 143333, 281227, 281333	
281.273 Communication Network Architectures.....	15 credits
P 160101 or 228172	
281.281 Analogue Electronic Systems.....	15 credits
P (124171 and 124172) or 124105 R 124241, 124251, 281251	
281.282 Digital Electronic Systems.....	15 credits

**Mechatronics minor**

159.270 Hardware-Oriented Computing.....	15 credits
P 159100 or 159101 or 159172 R 159236	
281.272 Signals and Systems.....	15 credits
P 281281 and (228271 or 160204) R 124344, 143227, 143333, 281227, 281333	
281.281 Analogue Electronic Systems.....	15 credits
P (124171 and 124172) or 124105 R 124241, 124251, 281251	
281.282 Digital Electronic Systems.....	15 credits
282.260 Manufacturing Engineering and Computer Aided Design.....	15 credits
P (124104 or 124172) and (160101 or 228172)	

**Third Part****Core courses (90 credits from)**

125.230 Business Finance.....	15 credits
P 115114	
228.371 Statistical Modelling for Engineers and Technologists.....	15 credits
P 228271 R 228340	
287.320 Product Design.....	15 credits
P 228211 & 228212	
287.342 Agile Manufacturing.....	15 credits
R 143329, 143342	

**And for the Chemical and Bioprocess Engineering minor**

228.312 Engineering Practice 5: Process Engineering with Constraints.....	30 credits
P 280271, 280272, 228211, 141212 C 280341 R 280394, 280346	

**Or for either Electronics and Computer Engineering or Mechatronics minors**

228.311 Engineering Practice 5: Engineering Design with Constraints.....	30 credits
P 281281, 281282, 228211, 228212 C 281384 or 280341 or 287342	

**Minor specialisation courses (30 credits from)****Chemical and Bioprocess Engineering minor**

280.371 Process Engineering Operations.....	15 credits
P 280271 and 280272 R 280391	
280.372 Reaction Technologies and Process Modelling.....	15 credits
P 123201, 123271, 228271, 280271, 280272, 280201 R 280391 and 280392	

**Electronics and Computer Engineering minor**

281.374 Communication Systems.....	15 credits
P 281272, 281273 R 143332, 281332	
281.385 Advanced Electronic Circuits.....	15 credits
P 281281, 281282, 281272	

**Mechatronics minor**

281.353 Control Engineering.....	15 credits
P 281272 R 143335, 143346, 281335, 282346	
282.371 Mechanics and Materials.....	15 credits
P 124172 or 124104	

**Fourth Part****Core courses (60 credits from)**

228.711 Engineering Practice 6: Design Capstone Project.....	30 credits
P 228311 or 228312 R 228485, 280430	
228.798 Individual Research Project.....	30 credits
P 228311 or 228312	

**Minor specialisation courses (15 credits from)****Chemical and Bioprocess Engineering minor**

280.702 Process Control.....	15 credits
P (228222 or 228271) and (280371 or 280391) R 142402	

**Electronics and Computer Engineering minor (15 credits)**

281.755 Digital Signal Processing.....	15 credits
P 281272 R 124344, 143333, 281333	
281.785 Advanced Computer Engineering.....	15 credits
P 281384 R 143474, 281474	

**Mechatronics minor**

282.778 Mechatronics.....	15 credits
P 281353, 282371 R 143478, 282478	

**Engineering and Innovation Management elective courses (45 credits from)**

238.700 Life Cycle Assessment (LCA) and Footprinting Principles.....	15 credits
287.706 New Product Development Practices.....	15 credits
P 228311 or 228312	
287.740 Innovation Management.....	15 credits
P 228311 or 228312 R 287703	
287.741 Quality System Development and Management.....	15 credits
R 287730	
287.742 Business Process Improvement.....	15 credits
P 228371 R 287730	
287.743 Lean Operations.....	15 credits
P 228311 or 228312 R 143331, 143343, 287343	
287.744 Advanced Manufacturing Strategies.....	15 credits
P 228311 or 228312 R 287463	

**Mechatronics (480 credits)****First Part**

124.104 Physics 1A: Mechanics and Thermodynamics.....	15 credits
R 124101, 124111, 124171	
124.105 Physics 1B: Electricity, Waves and Modern Physics.....	15 credits
R 124102, 124172	
159.100 Programming for Engineering and Technology.....	15 credits
R 159101	
160.101 Calculus.....	15 credits
R 160112, 160133, 228172	
160.102 Algebra.....	15 credits
R 160112, 160133, 228172	
228.115 Engineering and Technology Principles.....	15 credits
R 141111 and 228111	
247.114 Science and Sustainability for Engineering and Technology.....	15 credits
R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247111, 247112, 247113	

**Any 100-level 15 credit course****Second Part**

159.270 Hardware-Oriented Computing.....	15 credits
P 159100 or 159101 or 159172 R 159236	
228.211 Engineering Practice 3: Product Development.....	15 credits
P (228115, 247114) or (124172, 228172, 228112 and (123172 or 159172) R 141211	
228.212 Engineering Practice 4: Materials & Manufacturing.....	15 credits
P Three of 228211, 228271, 281281, 282260 R 141212	
228.271 Engineering Mathematics 2.....	15 credits
P 228172 or (160101 and 160102) R 228222, 228223	
281.272 Signals and Systems.....	15 credits
P 281281 and (228271 or 160204) R 124344, 143227, 143333, 281227, 281333	
281.281 Analogue Electronic Systems.....	15 credits
P (124171 and 124172) or 124105 R 124241, 124251, 281251	
281.282 Digital Electronic Systems.....	15 credits
282.260 Manufacturing Engineering and Computer Aided Design.....	15 credits
P (124104 or 124172) and (160101 or 228172)	

**Third Part**

228.311 Engineering Practice 5: Engineering Design with Constraints.....	30 credits
P 281281, 281282, 228211, 228212 C 281384 or 280341 or 287342	
228.371 Statistical Modelling for Engineers and Technologists.....	15 credits
P 228271 R 228340	
281.353 Control Engineering.....	15 credits
P 281272 R 143335, 143346, 281335, 282346	
281.384 Embedded Systems Design.....	15 credits
P 159270, 281282 R 140320, 143339, 281320, 281339	
282.371 Mechanics and Materials.....	15 credits
P 124172 or 124104	
282.372 Mechanism and Component Design.....	15 credits
P 282260	

282.373 Fluid Mechanics & Thermodynamics .....	15 credits
P 124104 or 124172	
<b>Fourth Part</b>	
228.711 Engineering Practice 6: Design Capstone Project .....	30 credits
P 228311 or 228312 R 228485, 280430	
228.798 Individual Research Project .....	30 credits
P 228311 or 228312	
282.762 Robotics and Automation .....	15 credits
P 281384, 282372 R 143462, 282462	

282.772 Industrial Systems Design and Integration .....	15 credits
P 159270, 282371, 282372 R 143472, 282472	
282.778 Mechatronics .....	15 credits
P 281353, 282371 R 143478, 282478	
<b>Any 700-level 15 credit course selected from the following prefixes:</b>	
<b>158 Information Technology, 159 Computer Science, 281 Electronics and Information Engineering, 282 Mechatronics and Automation Engineering, 287 Industrial Innovation.</b>	

## The Degree of Bachelor of Fine Arts with Honours

### BFA(Hons)

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

- Admission to the Degree of Bachelor of Fine Arts with Honours requires that the candidate will:
  - meet the University admission requirements as specified; and
  - be selected into the Qualification based partially on the assessment of a portfolio of work submitted by the applicant, and an interview at the discretion of the University.
- An applicant who holds the degree of Bachelor of Fine Arts shall not be admitted to the Bachelor of Fine Arts with Honours.

###### Qualification Requirements

- Candidates for the Degree of Bachelor of Fine Arts with Honours shall follow a parts based programme of study, which shall consist of courses totalling at least 480 credits, comprising:
  - Part I, Part II, Part III, and Part IV as specified in Schedule A;
  - elective courses from Schedule B to the Degree; and/or elective courses from Schedule C to the Degree of the Bachelor of Design with Honours; or any other course. And including:
    - not more than 165 credits at 100 level;
    - at least 90 credits at 200-level;
    - at least 105 credits at 300-level;
    - at least 120 credits at 400 level or above.
- Notwithstanding Regulation 3, holders of a Massey University Diploma in Photography who are admitted to the Degree of Bachelor of Fine Arts with Honours may be permitted to credit up to 120 credits at 100-level and up to 75 credits at 200-level to the Bachelor of Fine Arts with Honours.

###### Specialisations

- The Degree of Bachelor of Fine Arts with Honours is awarded without specialisation.

###### Student Progression

- In order to progress to Part II the candidate shall have passed a total of 75 credits at 100 level with at least 60 credits from the Part I courses including one of 237.130 or 237.131.
- For progression to Part IV of Bachelor of Fine Arts with Honours, candidates must have passed the Part III credits from Schedule A.
- The Academic Board may grant exemptions to the requirements of Regulations 6 and 7 based on the subjects studied and prior performance of the student.
- The Degree of Bachelor of Fine Arts with Honours may be awarded with First Class Honours or with Second Class Honours Division I or Second Class Honours Division II or with Third Class Honours. The class of Honours awarded shall be determined by the examiners on the performance of the candidate in Part IV of the programme.

###### Completion Requirements

- The Bachelor of Fine Arts with Honours must be completed within the following timeframes:
  - five consecutive academic years for full time students
  - eight consecutive academic years for part-time students unless a specified time of suspension or extension has been approved by the Academic Board. Permission must be sought in advance of any suspension or extension by applying in writing to the Programme

Director. Suspensions or extensions granted will appear on the academic record.

- Candidates may be graduated when they meet the Qualification requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Bachelor of Fine Arts should they meet the relevant qualification requirements.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

#### Schedule for the Bachelor of Fine Arts with Honours

##### Schedule A

###### Part One

###### Compulsory courses

237.130 Communication for Makers .....	15 credits
R 237101, 237114	
237.131 Conversations in Creative Cultures .....	15 credits
R 237102	

###### Plus one of

213.157 Studio I (Art Lab) .....	15 credits
R 197132	
213.158 Studio I (Art Place) .....	15 credits
R 197131	

###### Plus three of

198.157 Studio I (Object) .....	15 credits
R 197132	
212.157 Studio I (Dress) .....	15 credits
R 197135	
213.157 Studio I (Art Lab) .....	15 credits
R 197132	
213.158 Studio I (Art Place) .....	15 credits
R 197131	
221.157 Studio I (Lens) .....	15 credits
R 221101	
222.157 Studio I (Screen) .....	15 credits
R 197131	
222.158 Studio I (Type) .....	15 credits
R 197131, 222100	
223.157 Studio I (Material) .....	15 credits
R 197133	
224.157 Studio I (Space) .....	15 credits
R 197131	

###### Part Two

###### Compulsory courses

213.241 Art Studio IIA .....	30 credits
P 213157 or 213158 or (197131 and 197132) R 213251	
213.242 Art Studio IIB .....	30 credits
P 213241 R 213251	
237.230 Creative Cultures & Contexts I .....	15 credits
P 75 credits at 100-level R 198281, 212202, 213252, 221281, 222281, 223202, 224281	

###### Plus one of

197.288 Creative Collaboration .....	15 credits
P 75 credits at 100 level	

237.231 Creative Cultures & Contexts II ..... 15 credits P 75 credits at 100 level	213.151 Contemporary Sculpture ..... 15 credits R 213204
<b>Part Three</b>	213.154 Contemporary Drawing ..... 15 credits
<b>Compulsory courses</b>	213.155 Drawing the Body I ..... 15 credits
213.341 Art Studio IIIA ..... 30 credits P 213242 or (213251 or 213201) R 213300, 213351	213.211 Fine Arts Special Topic II ..... 15 credits P Appraisal Required
213.342 Art Studio IIIB ..... 30 credits P 213341 R 213300, 213351	213.254 Drawing in Practice ..... 15 credits P 75 credits at 100 level from College of Creative Arts
213.357 Introduction to Fine Arts Research Methods and Practices ..... 15 credits P 213352 or 237330	213.255 Drawing the Body II ..... 15 credits P 213155 or 197101 R 197200
237.330 Creative Cultures & Ideas ..... 15 credits P 237230 or 237231	213.256 Contemporary Art Projects A ..... 15 credits P 75 credits at 100 level from College of Creative Arts
<b>Plus one of</b>	213.257 Contemporary Art Projects B ..... 15 credits P 75 credits at 100 level from College of Creative Arts
197.388 Creative Communities ..... 15 credits P 75 Credits at 200 Level R 198481, 212425, 221382, 222382, 223425, 224382	213.258 Contemporary Art Projects C ..... 15 credits P 75 credits at 100 level from College of Creative Arts
237.331 Creative Cultures & Display ..... 15 credits P 75 credits at 200-level	213.259 Contemporary Art Projects D ..... 15 credits P 75 credits at 100 level from College of Creative Arts
<b>Part Four</b>	213.260 Fine Arts Special Topic IIB ..... 30 credits
<b>Compulsory Courses</b>	213.261 Contemporary Art Projects F ..... 15 credits P 75 credits at 100-level from College of Creative Arts
213.441 Art Studio IV A Research ..... 30 credits P (213342 or 213351) and 213357 C 213463 R 213401, 213451	213.262 Contemporary Art Projects G ..... 15 credits P 75 credits at 100-level from College of Creative Arts
213.442 Art Studio IV B ..... 45 credits P 213440 or 213441 R 213401, 213461	213.263 Contemporary Art Projects H ..... 15 credits P 75 credits at 100-level from College of Creative Arts
213.463 Fine Arts Research Seminar ..... 15 credits P 213357 or Appraisal Required C 213441	213.264 Contemporary Art Projects I ..... 15 credits P 75 credits at 100-level from College of Creative Arts
<b>Plus one of</b>	213.265 Contemporary Art Projects J ..... 15 credits P 75 credits at 100-level from College of Creative Arts
197.465 Creative Leadership ..... 15 credits P 198358 or 212358 or 213342 or 221358 or 222358 or 223358 or 224358 or 296358	213.311 Fine Arts Special Topic III ..... 15 credits P Appraisal Required
213.465 Exhibition ..... 15 credits C (198454 or 198455 or 212454 or 212455 or 213442 or 221454 or 221455 or 222454 or 222455 or 223454 or 223455 or 224454 or 224455 or 296454 or 296455) or Permission Head of School	213.355 Drawing the Body III ..... 15 credits P 213255 or 197200 R 197301
237.465 Creative Exposition ..... 15 credits P [237330 and (198358 or 212358 or 213342 or 221358 or 222358 or 223358 or 224358 or 296358)] or Appraisal Required	213.356 Contemporary Art Projects E ..... 15 credits P 75 credits at 200 level from College of Creative Arts
<b>Schedule B</b>	213.358 Fine Arts Internship ..... 15 credits P 60 credits at 200 level from the College of Creative Arts R 213412
213.150 Painting ..... 15 credits R 213203	213.359 Contemporary Art Projects K ..... 15 credits P 75 credits at 200-level from College of Creative Arts
	213.360 Fine Arts Special Topic IIIB ..... 30 credits
	213.411 Fine Arts Special Topic IV ..... 15 credits P Appraisal Required
	213.464 Art in Context ..... 15 credits P 75 credits at 300-level

## The Degree of Bachelor of Food Technology with Honours

### BFoodTech(Hons)

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

- Admission to the Degree of Bachelor of Food Technology with Honours requires that the candidate will meet the University admission requirements as specified.

###### Qualification Requirements

- Candidates for the Degree of Bachelor of Food Technology with Honours shall follow a parts-based programme of study, which shall consist of courses totalling at least 480 credits, comprising:
  - a First Part, Second Part, Third Part and Fourth Part;
  - at least four years of study; and including:
  - a minimum of 800 hours of practical work experience;
  - completion of one major; and
  - attending field trips, studios, workshops, tutorials and laboratories as required.

- Candidates, who in the opinion of the Academic Board, have passed with sufficient merit subjects for the New Zealand Certificate in Science, the National Diploma in Engineering or an equivalent qualification, may be granted credit, including part or all of the First and Second Parts. The credit granted will be determined by Academic Board after taking into account the areas of study of the certificate and the standard of pass attained.
- Notwithstanding Regulation 2, candidates who, in the opinion of the Academic Board, have achieved the admission requirements for the Degree of Bachelor of Food Technology with Honours to an excellent standard, may be admitted to the programme after the commencement of Part One but no later than the start of Part Two, and may be granted an exemption, including part or all of the First Part. The exemption granted will be determined by Academic Board after taking into account the level of achievement in the subjects passed prior to, and subsequent to, admission. Alternative courses of an equivalent credit value must be substituted for the exempted courses.
- Notwithstanding Regulation 2, candidates who have passed courses in food technology or food science from a recognised overseas tertiary institution with which Massey University has a cross-crediting agreement may cross-credit up to 240 credits at 100-, 200- or 300-level as permitted by the terms of the agreement.
- The maximum credit or exemption granted under Regulations 3, 4 or 5 or any other credit recognition process shall be 240 credits.

**Specialisations**

7. Candidates shall complete one of the following majors:  
Food Product Technology; or  
Food Process Engineering.  
The requirements for each major are set out in the Schedule for the Degree of Bachelor of Food Technology with Honours.

**Academic Requirements**

8. Every candidate for the Degree of Bachelor of Food Technology with Honours shall complete to the satisfaction of Academic Board a minimum of 800 hours of approved practical work and associated reports in accordance with the following courses:  
(a) 228.210 Practicum I;  
(b) 228.310 Practicum II.  
Passes in these or approved equivalent courses will be awarded on the basis of practical work completed in accordance with the guidelines governing the practical work requirements.

**Student Progression**

9. Candidates may progress from Part One to Two, Two to Three, and Three to Four, by passing all courses in the prior part, either by examination or by the award of a combined results pass.
10. Candidates who fail to pass a complete Part in accordance with Regulation 9 shall re-enrol in the remaining unpassed course(s) at the next available offering(s) of the course(s).
11. Candidates who are re-taking courses from Part One in accordance with Regulation 10 may not progress to Part Two until all of Part One has been successfully completed.
12. Candidates who are re-taking courses in Parts Two and Three in accordance with Regulation 10 may apply for permission to enrol in courses from the subsequent part, where the nominated courses are from different areas of study to the courses unpassed; permission will only be granted where, in the opinion of Academic Board, the academic record of the candidate shows proven merit.
13. The Degree of Bachelor of Food Technology with Honours may be awarded with First Class Honours or with Second Class Honours (Division I) or with Second Class Honours (Division II), or with Third Class Honours. The class of Honours shall be determined by the candidate's performance in the Second, Third and Fourth Parts of the Degree.
14. Candidates who have passed all courses and completed all other requirements for a Bachelor of Food Technology with Honours but whose performance in the courses is deemed by the Academic Board, upon recommendation of the examiners, not to be of Honours standard will be awarded the Degree of Bachelor of Food Technology.

**Completion Requirements**

15. The timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
16. Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Bachelor of Science should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

17. The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

18. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who were enrolled in the Bachelor of Food Technology with Honours prior to 1 January 2020 may substitute 100-level courses already taken for 100-level courses included in the Part One schedule until December 2023.

**Regulation Notes****Specific Regulations for the Degree of Bachelor of Food Technology with Honours jointly delivered and awarded with the Singapore Institute of Technology****Part IA**

For the degree of Bachelor of Food Technology with Honours jointly delivered and awarded with the Singapore Institute of Technology, the regulations are to be read in conjunction with the regulations relating to Massey University's qualifications and with all other Statutes and Regulations of the Singapore Institute of Technology.  
The programme of study for the degree of Bachelor of Food Technology with Honours jointly delivered and awarded with the Singapore Institute of Technology will consist of modules/courses totalling 240 Singapore Institute of Technology credits/480 Massey University credits, completed

in accordance with Regulations 1 to 17 for the degree. Notwithstanding Regulation 13, students from the Singapore Institute of Technology may be awarded higher distinction or distinction, in accordance with Singapore Institute of Technology regulations.

**Schedule for the Bachelor of Food Technology with Honours****Part One (120 credits from)**

120.101 Plant Biology.....	15 credits
123.104 Chemistry for Biological Systems.....	15 credits
R 123101, 123171	
123.105 Chemistry and the Physical World.....	15 credits
R 123102, 123172	
124.104 Physics 1A: Mechanics and Thermodynamics.....	15 credits
R 124101, 124111, 124171	
160.101 Calculus.....	15 credits
R 160112, 160133, 228172	
160.102 Algebra.....	15 credits
R 160112, 160133, 228172	
228.115 Engineering and Technology Principles.....	15 credits
R 141111 and 228111	
247.114 Science and Sustainability for Engineering and Technology.....	15 credits
R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247111, 247112, 247113	

**Part Two (120 credits from)**

123.201 Chemical Energetics.....	15 credits
P One of (123102, 123105, 124104 or 123172) and one of (160101, 160102, 160105, 160132 or 160133)	
123.271 Molecules to Materials.....	15 credits
P (123101, 123104 or 123171) and (123102, 123105 or 123172)	
141.211 Food Technology 3: Product Development.....	15 credits
P (228115, 247114) OR (123172, 124172, 228172, 141112) R 228211	
141.212 Food Technology 4: Manufacturing.....	15 credits
P (123105 or 123172), (124104 or 124172), (160102 or 228172) and (141112 or 228112 or 228115) C 123201, 280201, 280272 R 228212

280.771 Chemical and Bioprocess Engineering.....	15 credits
P 280371 and 280372 R 280403	
287.741 Quality System Development and Management.....	15 credits
R 287730	

### Schedule for the Degree of Bachelor of Food Technology with Honours jointly awarded with the Singapore Institute of Technology

#### Food Product Technology

##### Part One

##### Compulsory modules/courses:

FTE1011 Chemistry for Food Technology
FTE1013 Mass and Energy Balance
FTE1014 Food Technology 1 and 2: Global and Creative Solutions
FTE1015 Engineering Mathematics 1

FTE1016 Biochemistry
FTE1021 Engineering Fundamentals (Mechanics and Electricity)
FTE1022 Food Technology 3: Product Development
FTE1023 Programming for Engineering
FTE1024 Industrial Microbiology

##### Part Two

##### Compulsory modules/courses:

FTE2011 Chemical Energetics.....	P FTE1011, FTE1015
FTE2012 Molecules to Materials.....	P FTE1011, FTE1016
FTE2013 Technical Writing and Communication	
FTE2014 Heat and Mass – Conservation and Transfer	
P FTE1013, FTE1015, FTE1021, FTE1023	
FTE2015 Fluid Flow and Particle Technology.....	P FTE1015, FTE1021, FTE1023
FTE2021 Food Technology 4: Manufacturing ....	P FTE1013, FTE1015, FTE1021, FTE1023
FTE2022 Food Technology 5: Food Microbiology and Safety.....	P FTE1016, FTE1024
FTE2023 Food Chemistry.....	P FTE1011, FTE1016
FTE2024 Career and Professional Development	
FTE2025 Engineering Maths 2.....	P FTE1015, FTE1023

##### Part Three

##### Compulsory modules/courses:

FTE3001 Nutrition and Food Choice	
FTE3002 Food Formulation Technology.....	P FTE2023
FTE3003 Food Technology 6: Food Characterisation.....	P FTE2011, FTE2012, FTE2023
FTE3004 Statistical Modelling for Engineers and Technologists.....	P FTE2025
FTE3011 Food Packaging Engineering and Legislation.....	P FTE2014
FTE3012 Industrial Systems Improvement	
FTE3013 Process Engineering Operations.....	P FTE2014, TE2015
FTE3014 Reaction Technology and Process Modelling.....	P FTE2014, FTE2015, FTE2025
FTE3021 Integrated Work Study Programme.....	P FTE2024

##### Part Four

##### Compulsory modules/courses:

FTE4012 Food Technology Project	
P FTE2022, FTE3001, FTE3002, FTE3003, FTE3004, FTE3013, FTE3014	
FTE4021 Advanced Food Technology	
P FTE3002, FTE3003, FTE3004, FTE3011, FTE3012, FTE3013, FTE3014	
FTE4022 Innovative Food Design and Development	
P FTE2021, FTE3001, FTE3002, FTE3003, FTE3004, FTE3011, FTE3012, FTE3013, FTE3014, FTE3021	

##### An approved elective from:

141.755 Added-Value Processing of Food Products.....	P FTE2022
119.792 International Food Production Systems	
FTE4103 Crystallisation in Foods	
FTE4104 Food Law and Regulations	
FTE4105 Conventional and Emerging Food Processing Technologies.....	FTE3013
Modules/Courses Total: 240 SIT credits/480 Massey University credits.	

## The Degree of Bachelor of Speech and Language Therapy with Honours BSpchLangTher(Honours)

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Speech and Language Therapy with Honours requires that the candidate will:
  - meet the University admission requirements as specified; and will have:
  - been selected into the Qualification based on a selection process that will include a written application, criminal record check, interview and referee checks; and
  - achieved an IELTS of 7.0 with no band less than 7.0 within the preceding two years if English is not the applicant's first language.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Speech and Language Therapy with Honours shall follow a parts-based programme of study, which shall

consist of courses totalling at least 480 credits, comprising Part 1, Part 2, Part 3, Part 4 courses, as specified in the Schedule to the Qualification; and including attending field trips, workshops, tutorials, and laboratories as required.

##### Specialisations

- There are no specialisations for this qualification.

##### Academic Requirements

- Every candidate for the Degree of Bachelor of Speech and Language Therapy with Honours shall perform to the satisfaction of Academic Board or their delegate supervised clinical practice, in accordance with the requirements of the following courses:
  - 271.256 Field Work and Clinical Skills I
  - 271.396 Field Work and Clinical Skills II
  - 271.796 Advanced Clinical Practicum I
  - 271.798 Advanced Clinical Practicum II

##### Student Progression

- In order to progress from Part 1 to Part 2, or Part 2 to Part 3 a candidate must have passed all courses in the preceding Part.
- For progression to Part 4 of Bachelor of Speech and Language Therapy with Honours, candidates must have maintained at least a B+ grade average in the Part 3 courses.

7. The Degree of Bachelor of Speech and Language Therapy with Honours may be awarded with First Class Honours or with Second Class Honours Division I or Second Class Honours Division II or with Third Class Honours. The class of Honours awarded shall be determined by the examiners on the performance of the candidate in Part 4 of the programme.

#### Completion Requirements

8. A candidate's programme of study may not exceed eight consecutive years, unless a specified time of suspension or extension has been approved by the Academic Board. Permission must be sought in advance of any suspension or extension by applying in writing to the College Pro Vice-Chancellor or their delegate. Suspensions or extensions granted will appear on the academic transcript.
9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Bachelor of Speech and Language Therapy should they meet the relevant qualification requirements.

#### Unsatisfactory Academic Progress

10. For candidates enrolled in the Bachelor of Speech and Language Therapy with Honours the following will lead to exclusion from the qualification:
- failure to complete a compulsory course in two successive attempts;
  - failure to pass courses totalling at least 75 credits or failure to pass at least 60 percent of an approved part-time programme of study in any academic year;
  - failure to complete the degree within eight consecutive years, unless a suspension or extension has been granted under Regulation 8.

#### Transitional Provisions

11. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Bachelor of Speech and Language Therapy with Honours prior to 01 January 2021 will be permitted to substitute 271151, if already completed, for 214101. These transition arrangements expire 01 December 2027.

### Schedule for the Bachelor of Speech and Language Therapy with Honours

#### Part One

172.133 Introduction to Language Studies .....	15 credits
172.234 Phonetics .....	15 credits
175.102 Psychology as a Natural Science .....	15 credits
214.101 Human Bioscience: Normal Body Function .....	15 credits
R 194101, 117155	

230.110 Tūrangawaewae: Identity & Belonging in Aotearoa NZ .....	15 credits
254.102 Introduction to Professional and Ethical Practice in Education and Health Contexts .....	15 credits
271.150 Holistic Approaches to Communication Disorders .....	15 credits
271.154 Communication Development in Children .....	15 credits

#### Part Two

175.206 Memory and Cognition .....	15 credits
P 175102	
271.253 Early Years Language and Communication Support .....	15 credits
271.254 Speech Sound Disorders in Children .....	15 credits
271.255 Assessment Frameworks and Procedures for Speech-language Therapy Practice .....	15 credits
C 271253 and 271254	
271.256 Introduction to Speech-language Therapy Practice .....	15 credits
P 271255	
271.257 Language and Communication Support in Educational Contexts .....	15 credits
P 271253	
271.258 Neurogenic Communication Disorders I .....	15 credits
271.259 Deaf and Hard of Hearing .....	15 credits
P Completion of BSLT Hons Part 1	

#### Part Three

172.233 Language Learning Processes .....	15 credits
271.392 Augmentative and Alternative Communication .....	15 credits
271.393 Neurogenic Communication Disorders II .....	15 credits
271.394 Motor Speech Disorders .....	15 credits
271.395 Fluency Disorders .....	15 credits
271.396 Field Work and Clinical Skills II .....	15 credits
271.397 Adult Dysphagia .....	15 credits
271.398 Research Methods for Speech and Language Therapy .....	15 credits

#### Part Four

271.720 Research Report .....	30 credits
P 271398	
271.786 Advances in SLT and Diverse Clinical Populations .....	15 credits
R 271486	
271.787 Advanced Paediatric Dysphagia and Feeding Disorders .....	15 credits
R 271487	
271.788 Advances in Aural Rehabilitation .....	15 credits
R 271488	
271.789 Advanced Voice Disorders, Assessment and Treatment .....	15 credits
R 271489	
271.796 Advanced Clinical Practicum 1 .....	15 credits
R 271496	
271.798 Advanced Clinical Practicum II .....	15 credits
R 271498

## The Degree of Bachelor of Accountancy

### BAcc

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

##### Admission

1. Admission to the Bachelor of Accountancy requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

2. Candidates for the Bachelor of Accountancy shall follow a programme of study, which shall consist of courses totalling at least 360 credits, comprising:
- not more than 135 credits at 100 level;
  - at least 75 credits at 300 level;
- and including:
- all of the core courses listed in Schedule A of the Schedule to the Qualification (285 credits);
  - courses as specified in Schedule B to the Qualification (45 credits), including at least 30 credits from 110.369, 110.379 or 110.389 and no more than 15 credits from 125.320 or 125.330;

(e) one numeracy course as specified in Schedule C to the Qualification (15 credits);

(f) One course with a 114, 115, 125, 127, 152, 153, 155, 156, 157, 178 or 295 prefixes at 100-level or above 100 level (15 credits).

##### Specialisations

3. There are no specialisations for this degree.

##### Student Progression

4. Progression requirements as specified in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.

##### Completion Requirements

5. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
6. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Business Studies should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

7. The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

8. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for

the degree, candidates who commenced study towards the Bachelor of Accountancy prior to 1 January 2020 who have completed 161.120 will be permitted to substitute this course for one of the Schedule C Numeracy courses. These transition arrangements expire 31 December 2023.

## Schedule for the Bachelor of Accountancy

### Schedule A: Core courses (285 credits from)

110.109 Introductory Financial Accounting.....	15 credits
P 115112 or 115102 or 110100 C 115112 or 115102 R 110215, 110,230, 110213 (1999)	
110.209 Intermediate Financial Accounting.....	15 credits
P 110109 or 110215 or 110230 R 10210, 10213 (Pre 1999), 110313	
110.229 Management Accounting.....	15 credits
P 110109 or 110215 or 110230 R 10200, 10220, 110223	
110.249 Accounting Information Systems.....	15 credits
P 110109 or 110215 or 110230 R 10240, 110243	
110.279 Auditing.....	15 credits
P 115112 or 115102 or 110100 or 110230 R 110274	
110.289 Taxation.....	15 credits
P 110100 or 110230 or 115102 or 115112 R 10283, 110274	
110.303 Integrative Accounting.....	15 credits
P 240 credits inclusive of 110209 or 110313; 110229 or 110223; and at least 15 credits at 300-level with a 110 prefix from the BBS Schedule	
110.309 Advanced Financial Accounting.....	15 credits
P 110209 or 110313 R 110713, 10310	
110.329 Advanced Management Accounting.....	15 credits
P 110229 or 110223 R 110320	
115.111 Communication Theory and Practice.....	15 credits
R 219100 and 219203	
115.112 Accounting for Business.....	15 credits
R 115102	
115.113 Economics for Business.....	15 credits
R 115106	
115.114 Finance Fundamentals.....	15 credits
R 115105	

115.115 Management in Context.....	15 credits
R 115108	
115.116 Introduction to Marketing.....	15 credits
R 115104	
115.211 Business Law.....	15 credits
P 90 credits at 100-level R 115103, 155110	
125.230 Business Finance.....	15 credits
P 115114	
155.203 Law of Business Organisations.....	15 credits
P 115211 or 115103 or 155202 R 155200, 155700	
155.210 Commercial Law.....	15 credits
P 115211 or 115103 or 155202 R 155200, 155700	

### Schedule B: Accountancy and Finance courses (45 credits from)

#### At least 30 credits from

110.369 Forensic Accounting.....	15 credits
P 110279	
110.379 Advanced Auditing.....	15 credits
P 110109 or 110215 or 110230; and 110279 or 110274	
110.389 Advanced Taxation.....	15 credits
P 110109 or 110215 or 110230; and 110289 or 110274 R 110783	

#### No more than 15 credits from

125.320 International Finance.....	15 credits
P 125230; and one of 125220 or 125241 or 110209 or 152261	
125.330 Advanced Business Finance.....	15 credits
P 125230; and one of 125320 or 125340 or 125350 or 125364 or 110309 C 125320 or 125340 or 125350 or 125364 or 110309	

### Schedule C: Numeracy courses (15 credits from)

161.101 Statistics for Business.....	15 credits
R 115101, 161100, 161111, 161120, 161122, 161130, 161140	
161.111 Applied Statistics.....	15 credits
R 115101, 161101, 161120, 161122, 161130, 161140	
178.111 Quantitative Methods for Economics.....	15 credits

## The Degree of Bachelor of Agribusiness BAgribusiness

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Bachelor of Agribusiness requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Agribusiness shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - not more than 165 credits at 100 level;
  - at least 75 credits at 300 level; and including:
  - the core courses as defined by Schedule A for the Qualification;
  - completion of one major;
  - attending field trips, studios, workshops, tutorials and laboratories as required.
- Candidates who, in the opinion of the Academic Board, have passed with sufficient merit subjects for either a Diploma in Farm or Horticultural Management from a New Zealand university, or relevant subjects from some other recognised tertiary qualification, may be cross-credited with specified or unspecified courses not exceeding a total of 120 credits.

##### Specialisations

- Candidates must complete a major by completing the requirements for a major set out in Schedule B for the Qualification.
- No course may be credited to more than one major subject.
- Majors available are Farm Management, International Agribusiness, and Rural Valuation.

- Candidates who complete the Rural Valuation major must additionally meet the non-academic requirements specified by the Valuers Registration Board for eligibility to apply for registration.
- Notwithstanding Regulation 6, the following majors are available in accordance with transitional provisions outlined in Regulation 21: Agricultural Economics, Food Marketing and Retailing and Māori Agribusiness.
- Candidates may include a minor in the Bachelor of Agribusiness.
  - A minor must include a minimum of 60 credits, including at least 45 credits above 100 level, of which at least 15 credits must be at 300 level.
  - The requirements for each minor are set out in Schedule B for the Qualification.
  - The minor must be in a different subject area from the major.
  - Minors may be included from any undergraduate degree within the University for which recognised minors are specified.
  - Where the minor is from another undergraduate degree the regulations of that programme for the minor will apply.
  - No course may be credited to both a major and a minor.
  - No course may be credited to more than one minor subject.
- Minors available are: International Agribusiness, Māori Agribusiness and Rural Valuation.
- Notwithstanding Regulation 10, the following minors are available in accordance with transitional provisions outlined in Regulation 21: Agricultural Economics, and Food Marketing and Retailing.

##### Academic Requirements

- Candidates must complete to the satisfaction of the Academic Board a period of not less than 26 weeks of approved practical work experience and associated reports in accordance with the requirements of 119.150 Practicum I, and 119.250 Practicum II.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Qualifications will apply.
- Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes. Candidates

who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Science and Technology should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

15. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

16. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who have passed at least 15 credits towards the Bachelor of AgriCommerce prior to 1 January 2020 will be permitted to substitute one or more of 117152 Animals and Agriculture, 283101 Plants in Agriculture, and 284101 Production Horticulture for 117153 Introduction to Animal Production in New Zealand, 119120 Plants for Agriculture and Horticulture or 189151 Principles of Soil Science. In addition, students who have passed or been permitted substitution for 189151 Principles of Soil Science will be permitted to substitute an elective course for 123103 Chemistry for Modern Sciences or 123104 Chemistry for Biological Systems. These transition arrangements expire 31 December 2023.
17. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who have passed at least 15 credits towards the Agricultural Economics major prior to 1 January 2020 will be permitted to include 178242 Land Economics towards the major. These transition arrangements expire 31 December 2023.
18. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Bachelor of AgriCommerce prior to 1 January 2021 may substitute a course or courses already passed towards the qualification for a course or courses at the same level from the Schedule for the degree. Such candidates may be permitted to graduate under the title Bachelor of AgriCommerce.
19. Candidates enrolled in the Farm Management, International Agribusiness or Rural Valuation majors prior to 1 January 2021, who have completed at least 135 credits towards the Bachelor of AgriCommerce, may satisfy the credit requirements for the major as specified in the 2020 Calendar. Such candidates may substitute a course or courses already passed for a course or courses at the same level from the schedule for the major.
20. Candidates enrolled in the Māori Agribusiness, International Agribusiness or Rural Valuation minors prior to 1 January 2021 may substitute a course or courses already passed for a course or courses at the same level in order to complete the requirements of the minor.
21. Candidates enrolled in any majors and/or minors listed in Regulations 8 and 11 prior to 1 January 2021 will be permitted to complete the majors and/or minors by completing the requirement of Schedule C for the degree.
22. These transition arrangements expire 31 December 2024.

### Schedule for the Bachelor of Agribusiness

#### Schedule A: Core courses (135 credits from)

112.248 Food and Agribusiness Value Chains P 119180	15 credits
115.112 Accounting for Business R 115102	15 credits
115.113 Economics for Business R 115106	15 credits
115.114 Finance Fundamentals R 115105	15 credits
115.211 Business Law P 90 credits at 100-level R 115103, 155110	15 credits
117.153 Introduction to Animal Production in New Zealand R 117152, 117155, 199101	15 credits
119.120 Plants for Agriculture and Horticulture R 283101, 284101	15 credits
119.150 Practicum I	0 credits
119.180 Introduction to Agribusiness	15 credits

117.254 Principles of Animal Science and Production P 194101 or 199101 or 119154 or 117152	15 credits
285.201 Understanding Plant Protection P 119120 or 120101 or 283101 or 284101 R 171284	15 credits

##### 15 credits from

283.201 Pasture and Crop Agronomy P 283101 or 120101 or 119120 R 171202	15 credits
284.201 Horticultural Production Systems P 119120 or 284101	15 credits

#### International Agribusiness (165 credits)

##### Compulsory courses (105 credits from)

112.301 International Food and Agribusiness Strategies P 112248	15 credits
112.302 Food and Agribusiness Strategies P 112248	15 credits
115.116 Introduction to Marketing R 115104	15 credits
152.261 International Business	15 credits
156.231 Strategic Marketing Management P 115116 or 156200	15 credits
161.140 Agri-Statistics R 161100, 161101, 161111, 161120, 161122, 161130, 115101, 195101	15 credits
178.358 International Trade in Agri-food Products P Any 1781xx course or 119156 R 178357	15 credits

##### Compulsory course selection (45 credits from)

125.230 Business Finance P 115114	15 credits
152.233 Fundamentals of Entrepreneurship and Innovation R 152230	15 credits
152.355 Sustainability Issues, Challenges and Responses P Any 200 level course from the 152 course prefix series R 152392	15 credits
156.232 Consumer Behaviour P 115116 or 156200	15 credits
178.360 Environmental Economics	15 credits
<b>15 credits from</b>	
119.281 Decision Tools for Primary Industries P 119180 or 117155	15 credits
127.242 Introduction to Property Valuation R 127255	15 credits
138.255 Applied Engineering in Agriculture and Horticulture Systems	15 credits

**Rural Valuation (165 credits)****Compulsory courses (135 credits from)**

119.281 Decision Tools for Primary Industries	15 credits
P 119180 or 117155	
119.381 Decision-Making in Primary Industry	15 credits
P 119281	
119.382 Opportunity Analysis in Primary Industry	15 credits
P 119381	
127.100 Introduction to Property and Real Estate	15 credits
127.242 Introduction to Property Valuation	15 credits
R 127255	
127.356 Rural Valuation	15 credits
P 127242 or 127255	
155.201 Law of Property	15 credits
P 115211 or 115103 or 155202 R 155216, 155700	
189.151 Principles of Soil Science	15 credits
P One of 119153, 119158, 123101, 123103 or 123104	
218.102 Construction Technology and Services I	15 credits
R 218172	

**15 credits from**

123.103 Chemistry for Modern Sciences	15 credits
R 119153, 119158 123103 may not be taken after 123101, 123102, 123104, 123105, 123171 or 123172 have been passed	
123.104 Chemistry for Biological Systems	15 credits
R 123101, 123171	

**15 credits from**

127.378 Property Economics and Planning	15 credits
132.221 Planning Studies	15 credits

**Minors****International Agribusiness (60 credits)****Compulsory courses (45 credits from)**

112.301 International Food and Agribusiness Strategies	15 credits
P 112248	
112.302 Food and Agribusiness Strategies	15 credits
P 112248	
178.358 International Trade in Agri-food Products	15 credits
P Any 1781xx course or 119156 R 178357

P 156231 and plus either 156232, or both 156235 and 156237	

## The Degree of Bachelor of Agricultural Science

### BAGSci

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II****Admission**

- Admission to the Degree of Bachelor of Agricultural Science requires that the candidate will meet the University admission requirements as specified.
- In all cases, if English is not the applicant's first language and the admission requirements were not completed at an educational institution where English is the medium of instruction, the applicant shall have achieved an IELTS of 6.5 with no band less than 6.0.

**Qualification Requirements**

- Candidates for the Degree of Bachelor of Agricultural Science shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - not more than 165 credits at 100 level;
  - at least 75 credits at 300 level;
 and including:
  - the courses defined by Schedule A for the Qualification;
  - the remaining courses should normally be from Schedule B;
  - attending contact workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.
- Notwithstanding the requirements of Regulation 3, the programme of study for candidates enrolling in the Equine major shall consist of courses as defined by Schedule C.
- Candidates who, in the opinion of the Academic Board, have passed with sufficient merit subjects for either a New Zealand University Diploma in Farm Management or a New Zealand Diploma in Horticultural Management or subjects for some other recognised tertiary qualification may be cross-credited with specified or unspecified courses not exceeding a total of 120 credits.

**Specialisations**

- The Bachelor of Agricultural Science may be awarded with or without a specialisation.
- The approved major is Equine, the requirements for which are set out in Schedule C.
- Notwithstanding Regulation 7, candidates enrolled in the Bachelor of AgriScience prior to 2019 may complete a major in Agriculture or Horticulture in accordance with Transition Provision 13.

**Academic Requirements**

- Candidates must complete to the satisfaction of the Academic Board two 13-week periods of practical work experience and a total of not less than 26 weeks of approved practical work experience in accordance with the following courses: 119.150 Practicum I and 119.250 Practicum II.

**Completion Requirements**

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Science and Technology should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in Part I regulations for the degree, all candidates who commenced study towards the Bachelor of AgriScience prior to 1 January 2019 may be permitted to complete either the Agriculture or Horticulture major by completing the requirements of Schedule D. Such candidates may choose to graduate under the Bachelor of AgriScience title and may substitute a course or courses already taken for courses at the same level.
- These transition regulations expire on 31 December 2022.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, all candidates who have passed at least 15 credits towards the Bachelor of Agricultural Science prior to 1 January 2020 will be permitted the following course substitutions:
  - 117254 Principles of Animal Science and Production for 117201 Livestock Production Science;
  - 119154 Molecules to Ecology for 247111 Science and Sustainability for Agriculture and Horticulture;
  - 119158 Physics and Chemistry for Applied Sciences for 123103 Chemistry for Modern Sciences; and
  - 283101 Plants in Agriculture for 119120 Plants for Agriculture and Horticulture respectively.
- These transition arrangements expire 31 December 2023.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Bachelor of Agricultural Science prior to 1 January 2022 who have successfully completed one or more of

117.381, 189.363, 189.365 and/or 283.305 may substitute the course or courses taken for a course or courses of the same value and at the same level from the Compulsory Course Selection schedule. Such candidates who have successfully completed at least 30 credits of elective courses from Schedule B may substitute a course or courses completed from Schedule B for a course or courses in the Compulsory Course Selection schedule, up to a maximum of 45 credits.

18. These transition arrangements expire 31 December 2025.

## Schedule for the Bachelor of Agricultural Science

### Schedule A (345 credits from)

#### Compulsory courses (255 credits from)

115.113 Economics for Business.....	15 credits
R 115106	
117.153 Introduction to Animal Production in New Zealand.....	15 credits
R 117152, 117155, 199101	
117.201 Livestock Production Science.....	15 credits
P One of 117152, 117153, 117155, 194101, 199101, or 199103	
119.120 Plants for Agriculture and Horticulture.....	15 credits
R 283101, 284101	
119.150 Practicum I.....	0 credits
119.180 Introduction to Agribusiness.....	15 credits
119.250 Practicum II.....	0 credits
P 119150	
119.258 Agricultural Systems.....	15 credits
P 119281	
119.270 Policy, Regulation and Government in Primary Industry.....	15 credits
119.281 Decision Tools for Primary Industries.....	15 credits
P 119180 or 117155	
119.373 Integrative Studies.....	15 credits
P 119250	
119.381 Decision-Making in Primary Industry.....	15 credits
P 119281	
123.103 Chemistry for Modern Sciences.....	15 credits
R 119153, 119158 123103 may not be taken after 123101, 123102, 123104, 123105, 123171 or 123172 have been passed	
138.255 Applied Engineering in Agriculture and Horticulture Systems.....	15 credits
161.140 Agri-Statistics.....	15 credits
R 161100, 161101, 161111, 161120, 161122, 161130, 115101, 195101	
189.151 Principles of Soil Science.....	15 credits
P One of 119153, 119158, 123101, 123103 or 123104	
189.251 Soil Fertility and Fertilisers.....	15 credits
P 189151 or 189142	
247.111 Science and Sustainability for Agriculture and Horticulture.....	15 credits
R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247112, 247113, 247114	
283.201 Pasture and Crop Agronomy.....	15 credits
P 283101 or 120101 or 119120 R 171202	

#### Compulsory course selections (90 credits from)

117.107 Introduction to Animal Behaviour and Welfare.....	15 credits
117.303 Ruminant Animal Nutrition.....	15 credits
P 117201 or 117202 or 117254 R 117342	
117.345 Genetics for Livestock Improvement.....	15 credits
P One of 117201, 117245 or 117254 or 203202	
117.371 Animal Production.....	15 credits
P One of 117201, 117202 or 117254	
119.358 Farm Production Systems.....	15 credits
P 119381	
138.301 Precision Agriculture Technologies.....	15 credits
189.362 Soil Fertility and the Environment.....	15 credits
P 189251 or 189252	
283.301 Pasture Production and Practice.....	15 credits
P 283201	
283.311 Controlling Weeds.....	15 credits
P 119120 or 120101 or 171102 or 283101 R 171385	
283.321 Trees on Farms.....	15 credits
R 171304	

### Schedule B: Elective course (15 credits from)

**An approved course selected from the schedules to the following degree programmes: BAgSci, BHortSci, BAgribusiness, BSc, BA, BBus, BAnSci and BlnfSc.**

### Schedule C: Specialisations

#### Equine (150 credits)

##### No new enrolments

#### Core AgriScience courses (150 credits from)

115.113 Economics for Business.....	15 credits
R 115106	
119.150 Practicum I.....	0 credits
119.154 Molecules to Ecology.....	15 credits
P 119153 or 119158 R 162101, 162103	
119.158 Physics and Chemistry for Applied Sciences.....	15 credits
R 123101, 123171, 123103, 124100, 124171, 119153	
119.180 Introduction to Agribusiness.....	15 credits
119.250 Practicum II.....	0 credits
P 119150	
119.281 Decision Tools for Primary Industries.....	15 credits
P 119180 or 117155	
119.373 Integrative Studies.....	15 credits
P 119250	
119.381 Decision-Making in Primary Industry.....	15 credits
P 119281	
138.255 Applied Engineering in Agriculture and Horticulture Systems.....	15 credits
145.121 Introduction to Physical Geography.....	15 credits
161.140 Agri-Statistics.....	15 credits
R 161100, 161101, 161111, 161120, 161122, 161130, 115101, 195101	

#### Equine Major courses (150 credits from)

119.258 Agricultural Systems.....	15 credits
P 119281	
119.358 Farm Production Systems.....	15 credits
P 119381	
283.101 Plants in Agriculture.....	15 credits
R 171102	
286.101 Equine Production.....	15 credits
R 117154, 117257	
286.131 Introduction to Equine Nutrition and Health.....	15 credits
R 117161	
286.211 Equine Reproduction and Breeding.....	15 credits
R 117258	
286.221 Structure and Function of the Equine Athlete.....	15 credits
P 119154 or 286131 or 117161 or 214171 R 117259	
286.222 The Equine Lower Limb.....	15 credits
P 117161 or 286131 or 117154 or 286101 R 117171, 117260	
286.251 Equine Behaviour, Training and Welfare.....	15 credits
286.321 Responses to Training in the Equine Athlete.....	15 credits
P One of 117152, 117153, 117155 or 194101	

#### Elective Courses (60 credits)

#### Elective courses (60 credits from)

**An approved selection of 100-, 200- and 300-level courses listed in the schedules to the following degree programmes: BAgSci, BAgribusiness, BSc, BA, BBus, BAnSci and BlnfSc.**

### Schedule D: Specialisations available under transitions

#### Core AgriScience courses (150 credits from)

115.113 Economics for Business.....	15 credits
R 115106	
119.150 Practicum I.....	0 credits
119.154 Molecules to Ecology.....	15 credits
P 119153 or 119158 R 162101, 162103	
119.158 Physics and Chemistry for Applied Sciences.....	15 credits
R 123101, 123171, 123103, 124100, 124171, 119153	
119.180 Introduction to Agribusiness.....	15 credits
119.250 Practicum II.....	0 credits
P 119150	
119.281 Decision Tools for Primary Industries.....	15 credits
P 119180 or 117155	
119.373 Integrative Studies.....	15 credits
P 119250	
119.381 Decision-Making in Primary Industry.....	15 credits
P 119281

145.121 Introduction to Physical Geography.....	15 credits

161.140 Agri-Statistics.....	15 credits
R 161100, 161101, 161111, 161120, 161122, 161130, 115101, 195101	

**Agriculture (150 credits)**

**No new enrolments**

**Compulsory courses (120 credits)**

117.152 Animals and Agriculture.....	15 credits
R 117151, 199101	
117.254 Principles of Animal Science and Production .....	15 credits
P 194101 or 199101 or 119154 or 117152	
119.258 Agricultural Systems .....	15 credits
P 119281	
119.358 Farm Production Systems .....	15 credits
P 119381	
189.151 Principles of Soil Science.....	15 credits
P One of 119153, 119158, 123101, 123103 or 123104	
189.251 Soil Fertility and Fertilisers.....	15 credits
P 189151 or 189142	
283.101 Plants in Agriculture.....	15 credits
R 171102	
283.201 Pasture and Crop Agronomy.....	15 credits
P 283101 or 120101 or 119120 R 171202	

**From two subject areas (30 credits)**

117.371 Animal Production .....	15 credits
P One of 117201, 117202 or 117254	
117.381 Solving Problems in Animal Production .....	15 credits
P One of 117201, 117202 or 117254	
189.362 Soil Fertility and the Environment.....	15 credits
P 189251 or 189252	
189.363 Soil Resources and Sustainable Land Use.....	15 credits
P 1 of 189251, 189252, 233210, 233310	
189.365 Studies in Soil Science.....	15 credits
P 189251 or 189252	
283.301 Pasture Production and Practice .....	15 credits
P 283201	

283.305 Arable Production.....	15 credits
P One of 171202, 283201, 120101, 171102, 283101 or 119120	
283.311 Controlling Weeds.....	15 credits
P 119120 or 120101 or 171102 or 283101 R 171385	
283.321 Trees on Farms.....	15 credits
R 171304	

**Horticulture (150 credits)**

**No new enrolments**

**Compulsory courses:**

112.248 Food and Agribusiness Value Chains.....	15 credits
P 119180	
120.101 Plant Biology.....	15 credits
189.151 Principles of Soil Science.....	15 credits
P One of 119153, 119158, 123101, 123103 or 123104	
189.251 Soil Fertility and Fertilisers.....	15 credits
P 189151 or 189142	
284.101 Production Horticulture .....	15 credits
R 171127, 171128	
284.201 Horticultural Production Systems.....	15 credits
P 119120 or 284101	
284.301 Horticultural Crop Development & Yield.....	15 credits
P 284201 R 171327, 171328	
284.342 Horticultural Productivity and Quality .....	15 credits
P 120217 or 284201	
285.201 Understanding Plant Protection .....	15 credits
P 119120 or 120101 or 283101 or 284101 R 171284	
285.301 Controlling Plant Pests and Diseases .....	15 credits
P 171284 or 171202 or 283201 or 285201 R 171387	

**Elective courses (60 credits from)**

**An approved selection of 100-, 200- and 300-level courses listed in the schedules to the following degree programmes: BAgSci, BAgribusiness, BSc, BA, BBus, BAnSci and BlnfSc.**

## The Degree of Bachelor of Animal Science BAnSci

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

- Admission to the Degree of Bachelor of Animal Science requires that the candidate will meet the University admission requirements as specified.

**Qualification Requirements**

- Candidates for the Degree of Bachelor of Animal Science shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - not more than 150 credits at 100 level;
  - at least 90 credits at 300 level;
 and including:
  - the core courses listed in Schedule A for the Qualification;
  - completion of a major;
  - attending contact workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.

**Specialisations**

- Candidates must complete a major by passing at least 120 credits in a major. The requirements for each major are set out in Schedule B for the Qualification.
- Approved majors are: Animal Genetics and Breeding, Animal Nutrition and Growth, Animal Welfare and Equine Science.

**Completion Requirements**

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.

- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Science and Technology should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

- Students who transfer from the Animal Science major within the Bachelor of Science or the Equine major within the Bachelor of Agricultural Science to the Bachelor of Animal Science may substitute a course or courses already taken towards either the Animal Science major or the Equine major for courses at the same level in the Bachelor of Animal Science schedule in order to fulfil the requirements of the qualification, until 31 December 2023.

**Schedule for the Bachelor of Animal Science**

**Schedule A: Core Courses (195 credits from)**

117.107 Introduction to Animal Behaviour and Welfare .....	15 credits
117.155 Introduction to Animal Science .....	15 credits
R 117152, 117153	
117.201 Livestock Production Science.....	15 credits
P One of 117152, 117153, 117155, 194101, 199101, or 199103	
117.202 Animal Science.....	15 credits
P One of 117152, 117153, 117155, 194101, 199101 or 199103	
117.371 Animal Production .....	15 credits
P One of 117201, 117202 or 117254	
122.102 Biochemistry.....	15 credits
P 123101 or 123104 or 123103 (A) R 122222, 227111, 227106	
123.104 Chemistry for Biological Systems.....	15 credits
R 123101, 123171	

124.103 Biophysical Principles.....	15 credits	117.302 Monogastric Animal Nutrition .....	15 credits
R 160101, 160102, 160103, 160104, 160105, 160111, 160112, 160132, 160133, 124100, 124104, 124105, 124111		P 117201 or 117202 or 117254 R 117342	
161.140 Agri-Statistics.....	15 credits	117.303 Ruminant Animal Nutrition .....	15 credits
R 161100, 161101, 161111, 161120, 161122, 161130, 115101, 195101		P 117201 or 117202 or 117254 R 117342	
162.101 Cell Biology.....	15 credits	117.344 Animal Growth and Meat Production .....	15 credits
199.103 Animals and the Environment .....	15 credits	P 117201 or 117225 or 117254	
R 199101		117.348 Animal Metabolism.....	15 credits
247.111 Science and Sustainability for Agriculture and Horticulture .....	15 credits	P (One of 122202, 122233 or 151232) and (one of 117202 or 194241)	
R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247112, 247113, 247114		122.202 The Dynamic Cell.....	15 credits
		P 122102 R 122233	

**15 credits from**

117.381 Solving Problems in Animal Production .....	15 credits
P One of 117201, 117202 or 117254	
235.312 Case Studies in Māori Agribusiness.....	15 credits
P 235211	

**Schedule B: Specialisations****Animal Genetics and Breeding (120 credits)****Compulsory courses (120 credits from)**

117.243 Animal Reproduction and Lactation in Livestock .....	15 credits
P One of 117153, 117155 or 194101	
117.245 Principles of Animal Breeding and Genetics.....	15 credits
117.301 Animal Biosecurity and Health.....	15 credits
117.343 Animal Reproduction and Lactational Physiology.....	15 credits
P 117243 or 194242 R 117347	
117.345 Genetics for Livestock Improvement.....	15 credits
P One of 117201, 117245 or 117254 or 203202	
117.348 Animal Metabolism.....	15 credits
P (One of 122202, 122233 or 151232) and (one of 117202 or 194241)	
122.202 The Dynamic Cell.....	15 credits
P 122102 R 122233	
194.243 Physiological Strategies for Survival.....	15 credits
P One of 117155, 194101, 199101 or 199103 R 194245	

**Animal Nutrition and Growth (120 credits)****Compulsory Courses (120 credits from)**

117.224 Animal Feed Science and Technology.....	15 credits
117.225 Animal Production through to Carcass Classification.....	15 credits
117.226 Performance Animal Nutrition.....	15 credits
P One of 117152, 117153, 117155 or 194101	

**Animal Welfare (120 credits)****Compulsory Courses (120 credits from)**

117.231 Animal Health and Welfare.....	15 credits
P One of 117152, 117153, 117155 or 117107 R 117255	
117.301 Animal Biosecurity and Health.....	15 credits
117.331 Dilemmas in Animal Welfare.....	15 credits
117.332 Animal Welfare Science.....	15 credits
P Two of 194241, 194242, 194243 or 199203 R 194343	
117.361 Companion Animal Science .....	15 credits
194.242 Physiology of Mammalian Organ Systems.....	15 credits
P 194101 or 214101 or 117155 or 117153 or 199103	
194.243 Physiological Strategies for Survival.....	15 credits
P One of 117155, 194101, 199101 or 199103 R 194245	
199.203 Evolutionary Principles of Animal Behaviour .....	15 credits
P One of (199103, 199101 or 196101) R 199204, 117255	

**Equine Science (120 credits)****Compulsory Courses (120 credits from)**

117.226 Performance Animal Nutrition .....	15 credits
P One of 117152, 117153, 117155 or 194101	
117.231 Animal Health and Welfare.....	15 credits
P One of 117152, 117153, 117155 or 117107 R 117255	
117.302 Monogastric Animal Nutrition .....	15 credits
P 117201 or 117202 or 117254 R 117342	
117.361 Companion Animal Science .....	15 credits
286.201 Equine Production.....	15 credits
R 286101	
286.251 Equine Behaviour, Training and Welfare .....	15 credits
286.301 The Equine Lower Limb .....	15 credits
R 286222	
286.321 Responses to Training in the Equine Athlete.....	15 credits
P One of 117152, 117153, 117155 or 194101	

## The Degree of Bachelor of Applied Economics BAppEcon

**No new enrolments****Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II****Admission**

- Admission to the Degree of Applied Economics requires that the candidate will meet the University admission requirements as specified.

**Qualification Requirements**

- Candidates for the Degree of Bachelor of Applied Economics shall follow a flexible programme of study which shall consist of courses totalling at least 360 credits, comprising:
  - not more than 180 credits at the 100 level; and
  - at least 270 credits from the Schedule to the Degree;
  - at least 90 credits at the 300 level from the Schedule to the Degree; and including:
    - the core courses as specified in Schedule A for the Degree;
    - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.

**Specialisations**

- The Bachelor of Applied Economics is awarded without a major.

- Candidates may complete a minor by passing at least 60 credits for one of the Bachelor of Applied Economics minoring subjects, including:
    - at least 45 credits above 100 level; and
    - at least 15 credits at 300 level.
  - The requirements for each minor are set out in Schedule B for the Degree of Applied Economics.
  - Minors available in the Bachelor of Applied Economics are: Accountancy; Finance; and Valuation and Property Management.
- Completion Requirements**
- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees will apply.
  - Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Business Studies should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Bachelor of Applied Economics prior to 1 January 2020 will be permitted to substitute a course or courses already completed for a course(s) included in the Schedule as follows: 178.308 for 178.300; 178.307 for 178.301; 161.101 or 161.120 for 178.111; 219.100 or 230.111 for 115.111. Where they have already

been completed, course(s) can be included as Schedule C Elective(s) as follows: 160.103 or 160.131; 178.221, 178.242, 178.328. These transition arrangements expire 31 December 2023.

### Schedule for the Bachelor of Applied Economics

#### Schedule A: Core courses (150 credits from)

115.113 Economics for Business.....	15 credits
R 115106	
178.100 Principles of Economic Policy .....	15 credits
178.111 Quantitative Methods for Economics.....	15 credits
178.200 Macroeconomics .....	15 credits
P 178100 or 115113	
178.201 Microeconomics .....	15 credits
P 115113 or 115106	
178.280 Economic Analysis and Applications.....	15 credits
P 115113	
178.300 Macroeconomic Policy and Applications .....	15 credits
P 178200	
178.301 Microeconomic Theory and Applications.....	15 credits
P 178201	
178.352 Survey of International Economics.....	15 credits
P 178200, 178201, and either 178250 or 178280; and either 178300 or 178301 C 178300 or 178301 R 178350	
178.380 Applied Econometrics.....	15 credits
P 178220 or 178280 R 178321 and 178320	

#### Business Communication Course (At least 15 credits from)

115.111 Communication Theory and Practice.....	15 credits
R 219100 and 219203	

#### Schedule B: Minors

##### Accountancy (60 credits)

###### Selection from

110.109 Introductory Financial Accounting.....	15 credits
P 115112 or 115102 or 110100 C 115112 or 115102 R 110215, 110,230, 110213 (1999)	
110.209 Intermediate Financial Accounting .....	15 credits
P 110109 or 110215 or 110230 R 10210, 10213 (Pre 1999), 110313	
110.229 Management Accounting.....	15 credits
P 110109 or 110215 or 110230 R 10200, 10220, 110223	
110.249 Accounting Information Systems .....	15 credits
P 110109 or 110215 or 110230 R 10240, 110243	
110.309 Advanced Financial Accounting .....	15 credits
P 110209 or 110313 R 110713, 10310	
110.329 Advanced Management Accounting.....	15 credits
P 110229 or 110223 R 110320	

##### Finance (60 credits)

###### Selection from

115.114 Finance Fundamentals.....	15 credits
R 115105	
125.220 Financial Institutions and Markets.....	15 credits
P 115114	
125.230 Business Finance.....	15 credits
P 115114	
125.241 Introduction to Investments.....	15 credits
P 115114 R 125240	
125.320 International Finance.....	15 credits
P 125230; and one of 125220 or 125241 or 110209 or 152261	

125.330 Advanced Business Finance .....	15 credits
P 125230; and one of 125320 or 125340 or 125350 or 125364 or 110309 C 125320 or 125340 or 125350 or 125364 or 110309	
125.340 Investment Analysis .....	15 credits
P 125241 R 125342	
125.350 Financial Risk Management.....	15 credits
P 125230; and either 125220 or 125241	
125.364 Bank Financial Management.....	15 credits
P 115114 or 115105; and 125220 R 125360, 125361, 125362, 125363	

### Valuation and Property Management (60 credits)

#### Selection from

127.241 Property Market Principles .....	15 credits
127.242 Introduction to Property Valuation .....	15 credits
R 127255	
127.245 Introduction to Property Finance and Investment .....	15 credits
P 115114 or 115105	
127.341 Property Management and Development .....	15 credits
P 127241	
127.342 Applied Property Finance and Investment.....	15 credits
P 127241, 127242, 127245 and one of 127341 or 127343 or 127378 C 127341 or 127343 or 127378	
127.378 Property Economics and Planning .....	15 credits

#### Schedule C: Elective courses

112.248 Food and Agribusiness Value Chains.....	15 credits
P 119180	
112.302 Food and Agribusiness Strategies .....	15 credits
P 112248	
115.112 Accounting for Business.....	15 credits
R 115102	
115.115 Management in Context.....	15 credits
R 115108	
115.116 Introduction to Marketing .....	15 credits
R 115104	
115.211 Business Law.....	15 credits
P 90 credits at 100-level R 115103, 155110	
127.100 Introduction to Property and Real Estate .....	15 credits
157.151 Living and Working with Technology.....	15 credits
R 115107, 157150, 157100	
160.105 Methods of Mathematics.....	15 credits
R 160101, 160102, 160103, 160111, 160112, 160131, 160132, 160133, 228171, 228172	
160.131 Mathematics for Business I .....	15 credits
R 160103, 160105, 160132 A student who has passed 160101, 160111, 160112 or 160133 may not be also credited with a pass in 160103 or 160131 that is obtained in either the same or a subsequent examination period	
161.101 Statistics for Business.....	15 credits
R 115101, 161100, 161111, 161120, 161122, 161130, 161140	
161.111 Applied Statistics .....	15 credits
R 115101, 161101, 161120, 161122, 161130, 161140	
178.250 Contemporary Economic Issues .....	15 credits
178.358 International Trade in Agri-food Products .....	15 credits
P Any 1781xx course or 119156 R 178357	
178.360 Environmental Economics.....	15 credits
178.370 Development Economics .....	15 credits

#### Approved courses from any other degree offered by the University

## The Degree of Bachelor of Arts

### BA

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

1. Admission to the Degree of Bachelor of Arts requires that the candidates will meet the University admission requirements as specified.

###### Qualification Requirements

2. Candidates for the Degree of Bachelor of Arts shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:

- not more than 165 credits at 100 level;
- at least 75 credits at 300 level;

and including:

- (c) at least 240 credits from the Schedule to the Degree;
  - (d) completion of at least one major;
  - (e) core courses as listed in Schedule A for the Qualification;
  - (f) attending field trips, studios, workshops, tutorials and laboratories as required.
3. For the purposes of meeting Regulation 2 (c), where a course with the prefix 114, 121, 152, 153, 190, 219, 249 or 258 is included in the schedule for a Bachelor of Arts major or minor, for candidates completing that major or minor the course is considered to be from the Schedule for the Bachelor of Arts degree. For all other candidates such courses will be regarded as being from outside the Schedule for the Bachelor of Arts.
  4. Candidates who have been awarded or qualified for a Bachelor's degree, or equivalent may be granted exemption from the requirement to include courses 230.111 and 230.112 in their programme of study.

#### Specialisations

5. Candidates may complete a major by passing at least 120 credits in a major including:
  - (a) at least 15 credits at 100 level;
  - (b) at least 30 credits at 200 level;
  - (c) at least 45 credits at 300 level;
  - (d) any compulsory courses identified in the Schedule to the Major. The requirements for each major are set out in Schedule B for the Qualification.
6. Notwithstanding Regulation 5, a candidate may complete a major in Mathematics by completing at least 135 credits in the major including:
  - (a) at least 30 credits at 100 level;
  - (b) at least 45 credits at 200 level;
  - (c) at least 60 credits at 300 level;
  - (d) any compulsory courses identified in the Schedule to the Major. The requirements for the Mathematics major are set out in Schedule B for the Qualification.
7. Candidates may complete a double major by passing at least 120 credits in each of two of the majoring subjects listed in Regulation 8 including:
  - (a) at least 15 credits at 100 level for each major;
  - (b) at least 30 credits at 200 level for each major;
  - (c) at least 45 credits at 300 level for each major;
  - (d) any compulsory courses identified in the Schedule to the Degree; and, only where a course is listed in the requirements for both majors:
  - (e) an additional course of at least the same credit value, at the same or higher level, with the same discipline prefix.
8. Majors available are: Chinese, Classical Studies, Creative Writing, Defence Studies, Economics, Education, Educational Psychology, English, Environmental Studies, Geography, History, Japanese, Linguistics, Māori Knowledge, Mathematics, Media Studies, Philosophy, Politics and International Relations, Psychology, Security Studies, Social Anthropology, Social Policy, Sociology, Spanish, Statistics, Te Reo Māori.
9. Notwithstanding Regulations 5, 7 and 8 a candidate may complete a major in Business Psychology by completing 195 credits, including:
  - (a) 30 credits at 100 level;
  - (b) 75 credits at 200 level;
  - (c) 90 credits at 300 level;
  - (d) any compulsory courses listed in the Schedule to the Degree. The requirements for the Business Psychology major are set out in Schedule B for the Qualification.
10. Candidates may include a maximum of two minors in the Degree of Bachelor of Arts.
11. The minor(s) must be in a different subject area from the major(s).
12. Minors may be included from the Bachelor of Business or the Bachelor of Science degree.
13. Where the minor is from another undergraduate degree the regulations of that programme for the minor will apply, unless the minor is also available in the Bachelor of Arts, in which case the Bachelor of Arts regulations will apply.
14. A minor must include:
  - (a) a minimum of 60 credits;
  - (b) at least 45 credits above 100 level;
  - (c) 15 credits at 300 level;
  - (d) any additional requirements as specified in Part Two to the Schedule to the Degree.
15. Notwithstanding Regulation 14, a candidate may complete a minor in Chinese, French, Japanese, Portuguese, Spanish or Te Reo Māori by completing 60 credits, including:
  - (a) at least 30 credits above 100 level;
  - (b) at least 15 credits at 300 level;

#### Student Progression

19. Core courses 230.110, 230.111 and 230.112 must be completed within the first 120 credits, and 230.210 within the first 240 credits of study towards the degree.

#### Completion Requirements

20. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.
21. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Arts or the Certificate in Arts should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

22. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

23. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in a double major in Bachelor of Arts prior to 1 January 2017 who have completed at least 30 credits towards the degree may complete that double major by passing at least 120 credits in each of two of the majoring subjects listed in Regulation 7 including:
  - (a) at least 45 credits at 300 level for each major;
  - (b) any compulsory courses identified in the Schedule to the Degree. These transitional arrangements expire 31 December 2023.
24. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who have completed at least 15 credits towards a Bachelor of Arts, Business Psychology major prior to 1 January 2018 may be permitted to substitute a course or courses already completed towards the major for a course or courses at the same level included in the Schedule for the major. These transition arrangements expire 31 December 2022.
25. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Bachelor of Arts prior to 1 January 2019 who have completed at least 15 credits towards the Defence Studies major or minor may be permitted to substitute a course or courses already completed towards the major or minor for a course or courses at the same level included in the Defence Studies Schedule. These transitional arrangements expire on 31 December 2022.
26. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Bachelor of Arts prior to 1 January 2019 who have completed at least 15 credits towards the Security Studies major or minor may be permitted to substitute a course or courses already completed towards the major or minor for a course or courses at the same level included in the Security Studies Schedule. These transitional arrangements expire on 31 December 2022.
27. Candidates enrolled in the Bachelor of Arts prior to 1 January 2019 who have completed at least 45 credits towards the Media Studies major or minor may be permitted to substitute a course or courses already completed for a course or courses at the same level included in the Media Studies Schedule. For such candidates, the substitution of a 200-level course already completed towards the major for the compulsory course

- 154.250 may be permitted. These transitional arrangements expire on 31 December 2022.
28. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the English major prior to 1 January 2020 will be permitted to substitute 139.201 and/or 139.301 for course(s) at the same level included in the schedule. These transitional arrangements expire on 31 December 2024.
  29. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Māori Knowledge major or minor prior to 01 January 2020 may elect to be awarded the alternative specialisation title of Māori Studies on completion. Such candidates who have completed 150.114 will be permitted to substitute this course for 150.103 and those who have completed 300.209 will be permitted to credit this course to the Minor. These transition arrangements expire 01 December 2024.
  30. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Geography major or minor prior to 01 January 2020 will be permitted to substitute 145.218 for 145.203 and/or 145.121 for 233.105, if already completed. These transitional arrangements expire on 31 December 2024.
  31. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Environmental Studies major prior to 01 January 2020 will be permitted to substitute 176.206, 176.308 and/or 121.211 for one or more of 121.210, 132.111 and/or 145.202, if already completed. Such candidates will be permitted to substitute a course or courses at the same level that has already been completed for 134.218, or another course included in the Subject courses schedule. These transitional arrangements expire on 31 December 2024.
  32. Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Environmental Studies minor prior to 01 January 2020 will be permitted to substitute 121.211 for 134.218. These transitional arrangements expire on 31 December 2024.
  33. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Educational Psychology major or minor prior to 01 January 2021 will be permitted to substitute 256.303, if already completed, for 263.331, and/or 249.284, 249.287 and/or 258.301 for a non-compulsory course(s) at the same level included in the schedule. These transitional arrangements expire on 31 December 2025.
  34. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Politics and International Relations major or minor prior to 01 January 2021 may elect to be awarded the alternative specialisation title of Politics on completion. These transition arrangements expire 31 December 2025.
  35. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the English major prior to 1 January 2021 will be permitted to substitute 139.275 and/or 139.374 for course(s) at the same level included in the schedule. These transitional arrangements expire on 31 December 2025.
  36. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Statistics major prior to 01 January 2021 will be permitted to substitute 161.200, if already completed, for a compulsory course at the same or lower level included in the schedule. These transitional arrangements expire on 31 December 2025.
  37. Subject to any Maximum Time to Completion regulation and the Abandonment of Study provisions specified in the Part I regulations for the degree, candidates who commenced study towards the Disability and Rehabilitation Studies minor prior to 01 January 2022 may elect to be awarded the alternative specialisation title of Rehabilitation Studies on completion. Such candidates may substitute 147.202 and/or 147.302, if already completed, for 147.317 and/or 147.304. These transition arrangements expire 01 December 2026.
  38. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Economics major prior to 01 January 2022 will be permitted to substitute a 200 and/or 300 level course(s) already completed towards the major for 178.250 or 178.280. Such candidates will be permitted to substitute a 300-level course(s) already completed towards the major for 178.352 and/or 178.301. Candidates who commenced study towards the Economics minor prior to 01 January 2022 will be permitted to substitute 200-level course(s) already completed towards the minor for 178.200 and/or 178.201. These transitional arrangements expire on 31 December 2026.
  39. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Education major prior to 01 January 2022 will be permitted to substitute a 200 or 300 level course already completed towards the major for 264.200. These transitional arrangements expire on 31 December 2026.
  40. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Educational Psychology major prior to 01 January 2022 will be permitted to substitute a 300-level course already completed towards the major for 263.301. Candidates who commenced study towards the Educational Psychology minor prior to 01 January 2022 will be permitted to substitute 175.203 and/or 175.306 for a 200-level course(s) included in the schedule. These transitional arrangements expire on 31 December 2026.
  41. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Māori Knowledge minor prior to 01 January 2022 will be permitted to substitute a 200-level course already completed towards the minor for 150.205. These transitional arrangements expire on 31 December 2026.
  42. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Social Anthropology major prior to 01 January 2022 will be permitted to substitute 146.303 for 146.301. Such candidates who have completed 146.213 may count this course towards the requirements of the subject course schedule and may substitute (if completed) one of 146.302, 146.304, 146.311, 146.313, 146.316, 146.317 or 146.318 for 146.300. Candidates, and those who commenced study towards the Minor prior to 01 January 2022, will be permitted to substitute completed courses for courses at the same or lower level included in the subject course schedule. These transitional arrangements expire on 31 December 2026.
  43. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Statistics major prior to 01 January 2022 will be permitted to substitute 161.120 or 161.130 or a 100-level 160-prefix course completed towards the major for a 100-level course included in the schedule. Such candidates will be permitted to substitute 161.220 and/or 161.221, if already completed, for 161.250 and/or 161.251. Such candidates will also be permitted to substitute 160.211 for a non-compulsory course of the same level from the schedule. Candidates who commenced study towards the Statistics minor prior to 01 January 2022 will be permitted to substitute a 200- and/or 300-level course(s) completed towards the minor for 161.250 and/or 161.251. These transitional arrangements expire on 31 December 2026.

## Schedule for the Bachelor of Arts

### Schedule A: Core courses

230.110 Tūrangawaewae: Identity & Belonging in Aotearoa NZ	15 credits
230.111 Tū Kupu: Writing and Inquiry	15 credits
R 230100, 119155, 119177, 237130, 247155, 250100, 247177	
230.112 Tū Arohae: Critical Thinking	15 credits
R 134103	
230.210 Tū Rangaranga: Global Encounters	15 credits
P 230110

## The Degree of Bachelor of Arts / Bachelor of Business BA/BBus

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II****Admission**

- Admission to the Conjoint Programme for Bachelor of Arts and Bachelor of Business requires that the candidate will meet the University admission requirements as specified.
- A candidate who has already completed the requirements of one of the component degrees will not be permitted to enrol in the conjoint programme.

**Qualification Requirements**

- Candidates for the Conjoint Programme for Bachelor of Arts and Bachelor of Business shall follow a flexible programme of study, which shall consist of courses totalling at least 510 credits, comprising:
  - completion of a Bachelor of Arts component;
  - completion of a Bachelor of Business component;
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
- Each course successfully completed for the conjoint programme shall be credited to one or other of the two components. Except as provided by these regulations, each component shall be governed by the regulations of the corresponding degree.
- Courses may not be cross-credited into or between components of the conjoint BA/BBus programme.
- The Bachelor of Arts component shall consist of a total of 255 credits made up as follows:
  - The five compulsory Arts courses: 230.110, 230.111, 230.112, 230.210, and 230.310. Courses 230.110, 230.111 and 230.112 must be completed within the first 120 credits of the BA component. Course 230.210 must be completed within the first 195 credits of the BA component.

- The majoring requirements of at least one subject as specified in the BA Schedule. Business Psychology is not available as a major in the conjoint programme.
  - Courses with prefixes 114, 115, 152, 153, 178, 190, 219 and 295 may be included in the BA component only if they are listed on the schedule for a major in Defence Studies, Economics, Environmental Studies, Media Studies, Politics, Security Studies or Social Policy, and only by students enrolled in that major.
  - The remaining credits selected from Schedule B and/or Schedule C of the Bachelor of Arts Schedule. Students may not include in these credits courses with prefixes 114, 115, 152, 153, 178, 190, 219 or 295.
- The Bachelor of Business component shall consist of a total of 255 credits made up as follows:
    - The compulsory eight core business courses: 115.111, 115.112, 115.113, 115.114, 115.115, 115.116, 115.211, 115.212.
    - Completion of a major in accordance with the regulations for the BBus.
    - No fewer than 120 credits at the 200 level or above, of which at least 60 credits must be at the 300 level, selected from Schedule B of the Schedule for the BBus degree.
    - Students taking a major in Economics in the BA component may not include courses from this major in the BBus component.

**Specialisations**

- Candidates may complete a major in each component by complying with the requirements of the regulations of the corresponding degree.

**Student Progression**

- Candidates shall pass all courses and maintain a grade average of B or higher in order to continue enrolment in the conjoint programme.
- A candidate is required to advance studies concurrently in both components of the programme in each year of enrolment.

**Completion Requirements**

- A candidate's programme of study may not exceed 10 years from date of first enrolment in a course to be credited to the Conjoint Programme for Bachelor of Arts and Bachelor of Business.
- Candidates may be graduated and conjointly awarded the Bachelor of Arts and the Bachelor of Business when they meet the Admission, Qualification, and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation

may, subject to the approval of Academic Board, be awarded the Bachelor of Arts or the Bachelor of Business or another qualification should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

13. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

14. Notwithstanding Regulation 9, candidates who were enrolled in the Conjoint Programme for Bachelor of Arts and Bachelor of Business commencing in 2015 or earlier shall pass all courses and achieve a grade average of B- or higher each year in order to continue enrolment in the conjoint programme.

#### Transition Arrangements - BBus Component

15. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for

the degree, candidates who have passed fewer than 180 credits towards the Bachelor of Business Studies prior to 1 January 2017 will transfer to the 2017 regulations under the following conditions:

- Course substitution beyond the normal limits will be permitted in respect to courses already completed at the same level towards the BBS core or towards a major or minor prior to 1 January 2017.
- Candidates who have not completed 115.103 prior to the beginning of the 2017 academic year must complete the core course 115.211.
- Candidates must complete the core course 115.212.
- Where under these regulations a capstone course is specified for a major in which a candidate is enrolled that course must be completed unless at least 60 credits at 300 level has already been completed towards that major. The transition arrangements established under Regulation 23 expire 31 December 2023.

## The Degree of Bachelor of Arts / Bachelor of Science BA/BSc

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Conjoint Programme for Bachelor of Arts and Bachelor of Science requires that the candidate will meet the University admission requirements as specified.
- A candidate who has already completed the requirements of one of the component degrees will not be permitted to enrol in the conjoint programme.

##### Qualification Requirements

- Candidates for the Conjoint Programme for Bachelor of Arts and Bachelor of Science shall follow a flexible programme of study, which shall consist of courses totalling at least 510 credits, comprising:
  - completion of a Bachelor of Arts component;
  - completion of a Bachelor of Science component;
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
- Each course successfully completed for the conjoint programme shall be credited to one or other of the two components. Except as provided by these regulations, each component shall be governed by the regulations of the corresponding degree.
- Courses may not be cross-credited into or between components of the conjoint BA/BSc programme.
- The Bachelor of Arts component shall consist of a total of 255 credits made up as follows:
  - The five compulsory Arts courses: 230.110, 230.111, 230.112, 230.210, and 230.310. Courses 230.110, 230.111 and 230.112 must be completed within the first 120 credits of the BA component. Course 230.210 must be completed within the first 195 credits of the BA component.
  - The majoring requirements of at least one subject as specified in the BA Schedule. Business Psychology is not available as a major in the conjoint programme.
  - Courses with prefixes 121, 160, and 161 may be included in the BA component only if they are listed on the schedule for a major in Environmental Studies, Mathematics or Statistics, and only by students enrolled in that major.
  - The remaining credits selected from Schedule B and/or Schedule C of the Bachelor of Arts Schedule. Students may not include in these credits courses with prefixes 121, 160, and 161.
- The Bachelor of Science component shall consist of a total of at least 255 credits from Schedules A and B of the BSc Schedule made up as follows:
  - core courses as defined by Schedule A to the Degree. At least 90 credits from Schedule A, including any compulsory courses, must be completed within the first 120 credits of study towards the BSc component, unless otherwise approved by Academic Board or their delegate.

- the majoring requirements of at least one subject as specified in Schedule B of the BSc Schedule.
- Courses with the 175 prefix may be included in the BSc component only if they are needed to meet the majoring requirements for the Psychology major in this component.

#### Specialisations

8. Candidates must complete a major in each component by complying with the requirements of the regulations of the corresponding degree.

#### Student Progression

- Candidates shall pass all courses and maintain a grade average of B or higher in order to continue enrolment in the conjoint programme.
- A candidate is required to advance studies concurrently in both components of the programme in each year of enrolment.

#### Completion Requirements

- A candidate's programme of study may not exceed ten years from date of first enrolment in a course to be credited to the Conjoint Programme for Bachelor of Arts and Bachelor of Science.
- Candidates may be graduated and conjointly awarded the Bachelor of Arts and the Bachelor of Science when they meet the Admission, Qualification, and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Bachelor of Arts or the Bachelor of Science or another qualification should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

13. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who commenced study towards the Conjoint Programme for Bachelor of Arts and Bachelor of Science prior to 1 January 2020 may, subject to approval, substitute a course or courses already taken towards the Bachelor of Science component for a course or courses at the same level included in the Schedule of the degree.
- Candidates who have passed 90 credits or more towards the Bachelor of Science component prior to 1 January 2020 and who have passed at least 15 credits towards a major listed in Regulation 6 of the Bachelor of Science degree will be permitted to complete the major by completing the requirements as specified in Schedule C of the relevant major.
- Candidates who have passed at least 15 credits towards a major listed in Regulation 7 of the Bachelor of Science degree prior to 1 January 2020 will be permitted to complete the major by completing the requirements as specified in Schedule C of the Bachelor of Science degree.
- Courses with the 145 prefix may be included in the Bachelor of Science component only if they are needed to meet the majoring requirements for the Geography major in this component.
- The transition arrangements established under Regulations 14 to 17 expire 31 December 2025.

# The Degree of Bachelor of Aviation

## BAv

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Bachelor of Aviation requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been selected into the programme on the basis of:
    - a Pilot Aptitude Assessment test;
    - a simulator assessment;
    - a selection interview and written tasks;
    - a 'trial flight' if required; and
  - hold the relevant medical certificate(s) for the Air Transport Pilot major (a Class One medical certificate of fitness in accordance with the CAA NZ medical requirements for the issue of an Airline Transport Pilot Licence (ATPL)); and
  - meet the requirements for 'fit and proper person' as defined by the CAA NZ; and
  - where English is not the candidate's first language, have achieved an Academic IELTS of 6.5 with no band less than 6.0, or equivalent.

##### Qualification Requirements

- Candidates for the Bachelor of Aviation shall follow a parts-based programme of study, which shall consist of courses totalling at least 480 credits, comprising:
  - Parts 1, 2, 3, 4, subject courses and option courses as defined by the Schedule to the Qualification;
  - no more than 225 credits at 100 level;
  - at least 75 credits at 300 level; and including:
    - any compulsory courses listed in the Schedule to the Qualification;
    - one major;
    - attending field trips, simulations, workshops, tutorials, laboratories and flight training as required.

##### Specialisations

- The requirements for each major are set out in the Schedule for the Qualification.
- The approved major is Air Transport Pilot (480 credits).

##### Academic Requirements

- Candidates are required to meet the required competencies to achieve their Commercial Pilots licence, multi-engine instrument rating and Airline Transport Pilot Licence subject theory credits in accordance with the following courses:
  - 190.104 Principles of Navigation I
  - 190.107 Human Performance
  - 190.112 Introduction to Flying II
  - 190.113 Aviation Meteorology
  - 190.114 Aircraft Systems 1
  - 190.120 Aeronautical Legislation
  - 190.121 Aviation Meteorology 2
  - 190.123 Aircraft Systems 2
  - 190.124 Aircraft Performance
  - 190.154 Principles of Navigation II
  - 190.164 Aeroscience
  - 190.201 Aircraft Systems 3
  - 190.203 Air Traffic Control/Aviation Law
  - 190.204 Flight Planning and Advanced Navigation (Part I)
  - 190.205 Crew Resource Management
  - 190.206 Aerodynamics 1
  - 190.221 Climatology
  - 190.237 Heavy Aeroplane Performance
  - 190.254 Flight Planning and Advanced Navigation (Part 2)
  - 190.288 Advanced Aircraft Handling
  - 190.351 Aircraft Systems 4
  - 190.356 Aerodynamics 2
- Candidates completing the Flight Instruction Option must complete the necessary competencies to achieve a CAA NZ 'C' Category Flight

Instructor Rating, a night instructor endorsement removal and pass the following integrated courses:

- 190.282 Introduction to Flight Instruction
- 190.285 Aerobatic Aircraft Handling
- 190.301 Flight Instructor Human Factors
- 190.315 Flight Instruction Fundamentals I
- 190.335 Flight Instruction

- Integrated courses comprise two components: academic and practicum. A candidate must pass both the academic component and the practicum component to obtain a pass in the course.

##### Student Progression

- Candidates must continue to meet the requirements for 'fit and proper person' as defined by the Civil Aviation Authority throughout the duration of the programme.
- Candidates must continue to hold the required medical certifications throughout the duration of the programme.
- Progression from Part 1 to Part 2 and to each subsequent part is conditional upon the candidate's successful completion of the prior part. At the discretion of the Chief Executive Officer of the School of Aviation, or their delegate, a candidate may be granted approval to re-enrol for a failed course concurrently with the next part, subject to the University's maximum workload regulation.
- The Academic Board may, under such conditions as it may determine and taking into account the recommendations of the examiners, admit any candidate to a supplementary examination where available in a course in which the candidate failed to gain a pass.

##### Completion Requirements

- A candidate's programme of study may not exceed six years from the date of first enrolment in the Bachelor of Aviation, unless a specified time of suspension or extension has been approved by the Academic Board or their delegate. Permission must be sought in advance of any suspension or extension by applying in writing to the Chief Executive Officer of the School of Aviation. Suspensions or extensions granted will appear on the academic record.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Certificate in Aviation Studies or the Graduate Diploma in Aviation should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- For students enrolled in the Bachelor of Aviation - Air Transport Pilot major the following will lead to exclusion:
  - No candidate will be given more than two opportunities to pass each flight assessment, unless in exceptional circumstances and subject to the prior recommendation of the Student Review Board and the approval of the Chief Executive Officer for the School.
  - Candidates who have failed a flight assessment twice and whose performance is deemed unacceptable by the School of Aviation Student Review Board will be recommended to the Chief Executive Officer for the School to be excluded from the Bachelor of Aviation - Air Transport Pilot major. The Chief Executive Officer will consider the recommendation(s) of the School of Aviation Student Review Board and any other matters the Chief Executive Officer considers relevant and make a recommendation to the Academic Board (or its delegate). The Academic Board (or its delegate) will make the final decision.
  - Candidates who have failed a compulsory course twice and whose performance is deemed unacceptable by the School of Aviation Student Review Board will be recommended to the Chief Executive Officer for the School to be excluded from the Bachelor of Aviation - Air Transport Pilot major. The Chief Executive Officer will consider the recommendation(s) of the School of Aviation Student Review Board and any other matters the Chief Executive Officer considers relevant and make a recommendation to the Academic Board (or its delegate). The Academic Board (or its delegate) will make the final decision.
  - Failure to pass 45 credits in a first attempt at Part 1 of the Bachelor of Aviation - Air Transport Pilot major.
  - Persons excluded under clause (b), (c) and (d) above will not be re-admitted to the Bachelor of Aviation - Air Transport Pilot

major without first submitting themselves for re-selection into the programme and being accepted.

#### Transitional Provisions

15. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who have completed at least 15 credits towards the Bachelor of Aviation prior to 1 January 2019 may be exempted from Regulation 1(e). These transition arrangements expire 31 December 2022.
16. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who have been enrolled in the Bachelor of Aviation prior to 1 January 2020 will be:
- permitted to substitute 190.110 for 190.113 and 190.114; and will be exempt from the requirement to:
  - complete 190.164 if they have successfully completed 190.118 and 190.119;
  - complete 190.351 if they have successfully completed 190.251;
  - complete 190.356 if they have successfully completed 190.256.
- Candidates who have successfully completed at least 90 credits towards the Bachelor of Aviation prior to 1 January 2020 are exempt from the requirement to complete 190.116, 190.220 and the 300-level 190-prefix elective.
- In all cases candidates:
- must complete a total of at least 480 credits with at least 75 credits of 300-level courses and no more than 225 credits at 100-level;
  - are exempt from Regulation 12 but must complete in accordance with the timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.
- These transition arrangements expire 31 December 2023.

#### Schedule for the Bachelor of Aviation

##### Air Transport Pilot (480 credits)

###### Part One (75 credits from)

190.104 Principles of Navigation I P Selected entry BAv ATP	15 credits
190.107 Human Performance P Appraisal Required R 190117	15 credits
190.112 Introduction to Flying P Selected entry to BAv ATP	15 credits
190.113 Aviation Meteorology 1 P Selected entry BAv ATP	15 credits
190.114 Aircraft Systems 1 P Selected entry BAv ATP	15 credits

###### Part Two (60 credits from)

190.120 Aeronautical Legislation P	15 credits
190.123 Aircraft Systems 2 P 190114	15 credits
190.124 Aircraft Performance	15 credits
190.154 Principles of Navigation II P 190104, 190107, 190112	15 credits

###### Part Three (75 credits from)

190.201 Aircraft Systems 3 P 190123	15 credits
190.203 Air Traffic Control/Aviation Law P 190120	15 credits

190.204 Flight Planning and Advanced Navigation (Part 1) P 190154	15 credits
190.205 Crew Resource Management P 190107 R 190216	15 credits
190.206 Aerodynamics 1 P 190164 or (190118 and 190119)	15 credits

###### Part Four (75 credits from)

190.221 Climatology P 190121	15 credits
190.237 Heavy Aircraft Performance P 190124	15 credits
190.254 Flight Planning and Advanced Navigation (Part 2) P 190204	15 credits
190.351 Aircraft Systems 4 P 190201	15 credits
190.356 Aerodynamics 2 P 190206	15 credits

###### Air Transport Pilot Subject Courses (30 credits from)

190.121 Aviation Meteorology 2 P 190113	15 credits
190.164 Aeroscience P Selected entry BAv ATP or PHOS	15 credits

###### Aviation Management Subject Courses (30 credits from)

190.116 Introduction to Management in Aviation	15 credits
190.220 Managing Airline Systems P 190116	15 credits

###### 15 credits from

190.308 Airport Operational Management P Any 1902xx course	15 credits
190.313 Advanced Aviation Human Factors P 190205 or 190216	15 credits
190.314 Legal Issues in Aviation P Any 1902xx course	15 credits
190.317 Evaluation Methods in Aviation P 190217, 190225 or Part III ATP	15 credits
190.327 Managing Cultures in Aviation P 190205 or 190216	15 credits
190.340 Contemporary Issues in Aviation Security	15 credits

###### Bachelor of Aviation Options

###### Option One: Flight Instruction (Aeroplane) (120 credits from)

190.282 Introduction to Flight Instruction P Selected entry to Flight Instructors Course	15 credits
190.285 Aerobatic Aircraft Handling P Selected entry to Flight Instructors Course	15 credits
190.288 Advanced Aircraft Handling P 190205	30 credits
190.301 Flight Instructor Human Factors P Appraisal Required	15 credits
190.315 Flight Instruction Fundamentals I P 190282	15 credits
190.335 Flight Instruction P 190282	30 credits

###### Option Two Aviation: Business Management

**120 credits of elective courses as approved by the Chief Executive Officer. At least 60 credits including 190.288 must be selected from the 190 prefix Aviation and up to 60 credits may be selected from the following prefixes: 110 (Accountancy), 114 (Human Resource Management), 115 (Business), 125 (Finance), 152 (Management), 153 (Dispute Resolution), 155 (Business Law), 156 (Marketing), 157 (Information Systems), 178 (Economics), 219 (Business Communication), 295 (Business). At least 30 credits must be at 300 level.**

## The Degree of Bachelor of Aviation Management BAvMan

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Aviation Management requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Aviation Management shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:

- (a) not more than 135 credits at 100 level;
  - (b) at least 75 credits at 300 level;
- and including:
- (c) at least 270 credits from the Schedule to the Degree, including at least 60 credits at 300 level;
  - (d) all compulsory courses in the Schedule to the Degree;
  - (e) up to 90 credits from the schedules of other undergraduate degrees.
  - (f) attending field trips, studios, workshops, tutorials and laboratories as required.

**Specialisations**

- 3. The Degree of Bachelor of Aviation Management is awarded without specialisation.

**Completion Requirements**

- 4. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- 5. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an appropriate qualification should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- 6. The general Unsatisfactory Academic Progress regulations will apply.

**Schedule for the Bachelor of Aviation Management**

**Schedule A: Compulsory courses (150 credits from)**

**The Degree of Bachelor of Business**

**BBus**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

- 1. Admission to the Bachelor of Business requires that the candidate will meet the University admission requirements as specified.

**Qualification Requirements**

- 2. Candidates for the Bachelor of Business shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - (a) not more than 180 credits at 100 level;
  - (b) at least 75 credits at 300 level;
 and including:
  - (c) at least 240 credits from the Schedule to the Degree.
  - (d) the core courses listed in Schedule A of the Bachelor of Business Schedule;
  - (e) completion of at least one major.
- 3. Candidates who have been awarded the Graduate Diploma in Business Studies may cross-credit up to 45 credits at the 200 level to the BBus degree. Where the Diploma contained fewer than 45 credits at the 200 level, up to 45 unspecified 200 level credits may be credited.

- 4. Candidates, who in the opinion of the Academic Board have passed with sufficient merit subjects for the New Zealand Certificate of Commerce, New Zealand Diploma in Business, or subjects for some other recognised tertiary qualification, may be cross-credited with specified or unspecified courses not exceeding a total of 120 credits.

**Specialisations**

- 5. Candidates must complete a major by passing at least 120 credits in a major including:
  - (a) at least 45 credits at 200 level;
  - (b) at least 60 credits at 300 level;
  - (c) any compulsory courses identified in Schedule B of the Schedule to the Degree.
 The requirements for each major are set out in Schedule B of the Schedule for the Qualification.
- 6. Notwithstanding Regulation 5, candidates may substitute one of the internship courses 115.388 or 115.389 for 15 credits from the elective course(s) specified for a major in Schedule B of the Schedule to the degree.
- 7. Candidates who wish to meet the requirements for accreditation by the Valuers Registration Board, must complete:
  - (a) all of the following courses specified in the Schedule as compulsory courses for the Property major: 127.241, 127.242, 127.245, 155.201, 127.341, 127.342, 127.343; and
  - (b) all of the following courses: 132.221, (218.172 or 218.102), 218.273, 218.274 and (178.242 or 127.378).
- 8. Candidates may complete a double major by passing at least 120 credits in each of two of the majoring subjects listed in Regulation 16 including:
  - (a) at least 45 credits at 200 level for each major;

- (b) at least 60 credits at 300 level for each major;  
 (c) any compulsory courses identified in Schedule B of the Schedule to the Degree;  
 and, only where a course is listed in the requirements for both majors:  
 (d) an additional course of at least the same credit value, at the same or higher level, with the same discipline prefix; or, where the course listed in the requirements for both majors is a capstone course, an additional course of at least the same credit value, at the same or higher level, with the same discipline prefix as one of the candidate's majoring subjects, or 115.388 Internship in Business as an additional course.
9. Candidates may include a minor in the Degree of Bachelor of Business.  
 10. The minor must be in a different discipline from the major(s).  
 11. Minors may be included from any undergraduate degree within the University for which recognised minors are specified.  
 12. Where the minor is from another undergraduate degree the regulations of that qualification for the minor will apply.  
 13. A BBus minor must include:  
 (a) a minimum of 60 credits;  
 (b) at least 45 credits above 100 level;  
 (c) at least 15 credits at 300 level.  
 The requirements for each minor are set out in Schedule B of the Schedule for the Qualification.  
 14. No course may be credited to both a major and a minor.  
 15. No course may be credited to more than one minor.  
 16. Majors and Minors available in the Bachelor of Business are Accountancy, Agribusiness, Business Analytics (Minor only), Business Law (Minor only), Dispute Resolution (Minor only), Economics, Entrepreneurship and Innovation (Minor only), Finance, Financial Advice (Minor only), Financial Economics, Human Resource Management and Employment Relations, Information Systems, International Business, Management, Māori Business (Minor only), Marketing, Marketing Communication, Organisational Technology Management, Property, Sport Business Management, Strategic Communication, and Web-Based Information Systems.

#### Completion Requirements

17. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.  
 18. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Business Studies should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

19. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

20. All candidates who commence study towards the Bachelor of Business on or after 1 January 2017 must satisfy the requirements as specified in these regulations.  
 21. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who have passed fewer than 180 credits towards the Bachelor of Business prior to 1 January 2017 will transfer to the 2017 regulations under the following conditions:  
 (a) Course substitution beyond the normal limits will be permitted in respect to courses already completed at the same level towards the BBus core or towards a major or minor prior to 1 January 2017.  
 (b) Candidates must complete 115.111 Strategic Workplace Communication, unless an equivalent communication course has already been completed and approved by the Academic Board or their delegate.  
 (c) Candidates who have not completed 115.103 prior to the beginning of the 2017 academic year must complete the core course 115.211.  
 (d) Candidates must complete the core course 115.212.  
 (e) Where under these regulations a capstone course is specified for a major in which a candidate is enrolled, that course must be completed unless at least 60 credits at 300 level have already been completed towards that major.

The transition arrangements established under Regulation 21 expire 31 December 2023.

22. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who commenced study towards a major or minor in Business Information Systems, Entrepreneurship and Small Business, Human Resource Management prior to 1 January 2018 may be permitted

to substitute any course already completed towards the major or minor for a course at the same level included in the Organisational Technology Management; Entrepreneurship and Innovation; or Human Resource Management and Employment Relations specialisation respectively. On completion such candidates may elect to be awarded the title of the specialisation under which they originally enrolled.

23. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who commenced study towards a major or minor in International Business or Management prior to 1 January 2018 may be permitted to substitute any course already completed towards the major or minor for a course at the same level included in the relevant Schedule, including compulsory courses.  
 24. Notwithstanding Regulations 22 and 23, where a capstone course is specified for a major in which a candidate is enrolled, that course must be completed unless at least 60 credits at 300 level have already been completed towards that major.  
 The transition arrangements established under Regulations 22, 23 and 24 expire 31 December 2022.  
 25. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who completed at least 15 credits towards the Financial Advice Minor prior to 01 January 2020 will be permitted to substitute one or more of 125.240, 110.380 or 125.342 for a course or courses at the same or lower level included in the schedule. These transition arrangements expire 31 December 2023.  
 26. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I qualification regulations, students enrolled in the Economics major within the Bachelor of Business prior to 1 January 2021, who have completed 178.100 may count this towards the compulsory requirements. Students who have taken 178.221 may count this towards compulsory requirements, and may be exempt from taking 178.250 and 178.280. Students who have taken 178.250 may be exempt from taking 178.280; students who have taken 178.280 may be exempt from taking 178.250. These transition arrangements expire 31 December 2024.

## Schedule for the Bachelor of Business

### Schedule A: Core courses

## The Degree of Bachelor of Business / Bachelor of Science BBus/BSc

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

1. Admission to the Conjoint Programme for Bachelor of Business and Bachelor of Science requires that the candidate will meet the University admission requirements as specified.
2. A candidate who has already completed the requirements of one of the component degrees will not be permitted to enrol in the conjoint programme.

**Qualification Requirements**

3. Candidates for the Conjoint Programme for Bachelor of Business and Bachelor of Science shall follow a flexible programme of study, which shall consist of courses totalling at least 510 credits, comprising:
  - (a) completion of a Bachelor of Business component;
  - (b) completion of a Bachelor of Science component;
  - (c) attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
4. Each course successfully completed for the conjoint programme shall be credited to one or other of the two components. Except as provided by these regulations, each component shall be governed by the regulations of the corresponding degree.
5. Courses may not be cross-credited into or between components of the conjoint BBus/BSc programme.
6. The Bachelor of Business component shall consist of a total of 255 credits made up as follows:
  - (a) The compulsory eight core business courses: 115.111, 115.112, 115.113, 115.114, 115.115, 115.116, 115.211, 115.212.
  - (b) Completion of a major in accordance with the regulations for the BBus.
  - (c) No fewer than 120 credits at the 200 level or above, of which at least 60 credits must be at the 300 level, selected from Schedule B of the Schedule for the BBus degree.
7. The Bachelor of Science component shall consist of a total of at least 255 credits from Schedules A and B of the BSc Schedule made up as follows:
  - (a) core courses as defined by Schedule A to the Degree;
  - (b) the majoring requirements of at least one subject as specified in Schedule B of the BSc Schedule.

**Specialisations**

8. Candidates must complete a major in each component by complying with the requirements of the regulations of the corresponding degree.

**Student Progression**

9. Candidates shall pass all courses and maintain a grade average of B or higher in order to continue enrolment in the conjoint programme.
10. A candidate is required to advance studies concurrently in both components of the programme in each year of enrolment.

**Completion Requirements**

11. A candidate's programme of study may not exceed 10 years from date of first enrolment in a course to be credited to the Conjoint Programme for Bachelor of Business and Bachelor of Science.
12. Candidates may be graduated and conjointly awarded the Bachelor of Business and the Bachelor of Science when they meet the Admission, Qualification, and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation

may, subject to the approval of Academic Board, be awarded the Bachelor of Business or the Bachelor of Science or another qualification should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

13. The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

14. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who have passed fewer than 180 credits towards the Bachelor of Business prior to 1 January 2017 will transfer to the 2017 regulations under the following conditions:
  - (a) Course substitution beyond the normal limits will be permitted in respect to courses already completed at the same level towards the BBus core or towards a major or minor prior to 1 January 2017.
  - (b) Where under these regulations a capstone course is specified for a major in which a candidate is enrolled that course must be completed unless at least 60 credits at 300 level has already been completed towards that major.
  - (c) Candidates who have not completed 115.103 prior to the beginning of the 2017 academic year must complete the core course 115.211.
  - (d) Candidates must complete the core course 115.212.
  - (e) Where under these regulations a capstone course is specified for a major in which a candidate is enrolled that course must be completed unless at least 60 credits at 300 level has already been completed towards that major.

The transition arrangements established under Regulation 14 expire 31 December 2023.

15. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who commenced study towards the Conjoint Programme for Bachelor of Business and Bachelor of Science prior to 1 January 2020 may, subject to approval, substitute a course or courses already taken towards the Bachelor of Science component for a course or courses at the same level included in the Schedule of the degree.
16. Candidates who have passed 90 credits or more towards the Bachelor of Science component prior to 1 January 2020 and who have passed at least 15 credits towards a major listed in Regulation 6 of the Bachelor of Science degree will be permitted to complete the major by completing the requirements as specified in Schedule C of the relevant major.
17. Candidates who have passed at least 15 credits towards a major listed in Regulation 7 of the Bachelor of Science degree prior to 1 January 2020 will be permitted to complete the major by completing the requirements as specified in Schedule C of the Bachelor of Science degree.
18. The transition arrangements established under Regulations 15 to 17 expire 31 December 2025.

## The Degree of Bachelor of Commercial Music

### BCommMus

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II****Admission**

1. Admission to the Degree of Bachelor of Commercial Music requires that the candidate will meet the University admission requirements as specified.
2. Admission to the Music Practice major will be by selection on the basis of an audition.

**Qualification Requirements**

3. Candidates for the Degree of Bachelor of Commercial Music shall follow a flexible programme of study, which shall consist of courses totalling 360 credits, comprising:
  - (a) at least 300 credits selected from the Schedule to the degree;
  - (b) not more than 150 credits at 100 level;
  - (c) at least 105 credits at 300 level; and including
  - (d) the core courses as specified in Schedule A;
  - (e) any compulsory courses specified in the Schedule to the degree;
  - (f) attending studios, workshops, tutorials, and events as required.

**Specialisations**

4. Candidates must complete the requirements of one major as specified in Schedule B to the Qualification.
5. Majors available for the Bachelor of Commercial Music are: Music Industry, Music Practice and Music Technology.
6. Candidates may complete a minor by passing at least 60 credits from the schedule for one of the Bachelor of Commercial Music majors, including:
  - (a) at least 45 credits above 100 level; and
  - (b) at least 15 credits at 300 level.
  - (c) any compulsory courses identified for the minor in Schedule B for the degree.
7. Minors available for the Bachelor of Commercial Music are: Music Industry, Music Practice, and Music Technology.
8. Notwithstanding Regulation 7, candidates may include a minor from any undergraduate degree within the university for which recognised minors are specified.
9. Where a minor is from another undergraduate degree the regulations of that qualification for the minor will apply.
10. No course may be credited to both a major and a minor.

**Completion Requirements**

11. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
12. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed

timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an alternative qualification should they meet the relevant qualification requirements.

#### Unsatisfactory Academic Progress

13. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

## The Degree of Bachelor of Communication

### BC

#### Qualification Regulations

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

- Admission to the Bachelor of Communication requires that the candidate will meet the University admission requirements as specified.

**Qualification Requirements**

- Candidates for the Bachelor of Communication shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits comprising:
  - not more than 165 credits at 100 level;
  - at least 75 credits at 300 level;
  - at least 300 credits from the Schedule for the Degree of Bachelor of Communication;
 and including:
  - the core communication courses listed in Part A of the Bachelor of Communication Schedule;
  - one major (120 credits) and one minor (60 credits) in accordance with the combinations specified in Regulations 5 and 6;
  - the remaining courses (60 credits) from any undergraduate degree of the University.

**Specialisations**

- Candidates must complete a major by passing at least 120 credits in a major. The requirements for each major are set out in Part B of the Schedule for the Qualification.
- Candidates must complete a minor by passing at least 60 credits in a minor. The requirements for each minor are set out in Part B of the Schedule for the Qualification.
- Candidates completing a major in Communication Management, Digital Marketing, Journalism, Marketing Communication or Public Relations must complete a minor in Expressive Arts, International Languages, Linguistics, Media Studies, or composite Expressive Arts/Media Studies.

- Candidates completing a major in Expressive Arts, Linguistics, Media Studies or composite Expressive Arts/Media Studies must complete a minor in Communication Management, Digital Marketing, Journalism, Marketing Communication or Public Relations.
- No course may be credited to both a major and a minor.

**Completion Requirements**

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Communication, or the Graduate Diploma in Business Studies endorsed in Communication Management or the Diploma in Arts should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

- Candidates enrolled in the Bachelor of Communication prior to 1 January 2019 who have already completed the core course 219.107 may be permitted to substitute this for the compulsory course 219.108. These transitional arrangements expire on 31 December 2025.
- Candidates enrolled in the Bachelor of Communication prior to 1 January 2019 who have completed at least 45 credits towards the Media Studies major or minor or Composite Expressive Arts/Media Studies major may be permitted to substitute a course or courses already completed for a course or courses at the same level included in the Media Studies Schedule. These transitional arrangements expire on 31 December 2022.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Bachelor of Communication prior to 1 January 2022 who have successfully completed 219.100 may substitute this for 115.111. These transitional arrangements expire on 31 December 2025.

**Composite Majors****Expressive Arts and Media Studies (120 credits)**

**A major consists of 120 credits from Expressive Arts and Media Studies, including at least 45 credits in Expressive Arts and 45 credits in Media Studies, with at least 60 credits at 300 level.**

**Composite Minors****Expressive Arts and Media Studies (60 credits)**

**A minor consists of 60 credits from Expressive Arts and Media Studies courses, with at least 30 credits in Expressive Arts and at least 30 credits in Media Studies, and including at least 15 credits at 300 level.**

# The Degree of Bachelor of Construction

## BConst

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Construction requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Construction shall follow a parts-based programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - Parts One, Two, and Three as defined by the Schedule to the Degree; and including:
  - the compulsory courses listed in the Schedule for the Qualification;
  - at least one major;
  - attending field trips, studios, workshops, tutorials and laboratories as required.
- Candidates who, in the opinion of the Academic Board, have passed with sufficient merit subjects for the New Zealand Diploma in Quantity Surveying or the New Zealand Diploma in Construction Management, or subjects for some other recognised tertiary qualification, may be cross-credited with specified or unspecified courses not exceeding a total of 165 credits from Parts One and Two.

##### Specialisations

- Candidates may complete a major by completing the specified Part Two and Three for that major. The requirements for each major are set out in the Schedule for the Qualification.
- Majors available are Quantity Surveying and Construction Management.

##### Academic Requirements

- Each candidate shall complete to the satisfaction of Academic Board a minimum of 600 hours of approved industry work experience relating to the chosen major and two associated reports in accordance with the requirements for:
  - 218.110 Construction Industry Work Experience I; and
  - 218.210 Construction Industry Work Experience II. Work experience must be completed in accordance with the requirements laid down by the Practical Work Office.

##### Student Progression

- Progression from Part One to Two and from Part Two to Three is on the basis of completion of the requirements of the prior part.
- Notwithstanding Regulation 7, and at the discretion of Academic Board, Candidates may be permitted to enrol in courses from a later part while completing the unpassed courses from the prior part. Such permission will be granted where, in the opinion of Academic Board, both the academic record of the candidate shows proven merit, and the nominated courses from the later Part are from different areas of study to the unpassed courses in the prior part.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, and Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Science and Technology should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to the recommended time to completion and abandonment of studies provisions specified in the Part I regulations for the degree, candidates enrolled prior to January 2021 who have completed 120 credits or less may substitute a course or courses already taken for a course or courses listed in Part One, in order to fulfil Core requirements.

- Candidates enrolled in the Bachelor of Construction prior to January 2021 who have completed more than 120 credits will fulfil the requirements of the major they were first enrolled in, as defined by Schedule B. Such candidates may substitute a course or courses already taken for those listed in Part One in order to fulfil Core requirements.

### Schedule for the Bachelor of Construction

#### Part One: Core courses (120 credits from)

115.112 Accounting for Business.....	15 credits
R 115102	
115.114 Finance Fundamentals.....	15 credits
R 115105	
160.131 Mathematics for Business I.....	15 credits
R 160103, 160105, 160132 A student who has passed 160101, 160111, 160112 or 160133 may not be also credited with a pass in 160103 or 160131 that is obtained in either the same or a subsequent examination period	
218.101 Building Materials, Elements and Regulation .....	15 credits
R 218100	
218.102 Construction Technology and Services I.....	15 credits
R 218172	
218.103 Construction Design and Drawings.....	15 credits
R 218123	
218.105 Integrating Design and Delivery in Built Environment.....	15 credits
R 218150	
218.106 Construction Health, Safety and Wellbeing.....	15 credits
R 218151	

#### Majors

##### Construction Management (240 credits)

#### Part Two: Compulsory courses (120 credits from)

127.241 Property Market Principles.....	15 credits
152.252 Project Management.....	15 credits
218.201 Construction Technology and Services II.....	15 credits
P 218102 or 218172 R 218271, 218273	
218.203 Principles of Measurement and Estimation .....	15 credits
R 218211	
218.204 Construction Contracts and Legal Principles .....	15 credits
R 218315	
218.224 Construction Technology and Services III.....	15 credits
P 218201 or 218271 R 218374	
218.228 Planning and Digital Built Environment for Construction Managers..	15 credits
R 218414 and 218226	
218.230 Construction Site Operations .....	15 credits
R 218280	

#### Part Three (120 credits from)

218.324 Integrating Building Information and the Supply Chain.....	15 credits
R 218313	
218.327 Sustainability and Construction Innovation .....	15 credits
R 218313	
218.328 Construction Professional Practice and Ethics.....	15 credits
218.329 Facilities Management for Construction Managers .....	15 credits
218.330 Construction Procurement and Tendering.....	15 credits
218.331 Construction Quality Assurance .....	15 credits
218.335 Construction Management and Equipment .....	15 credits
218.336 Construction Management Capstone .....	15 credits
P At least 45 credits from 2182xx C 2 x 2183xx courses R 218326, 218340	

#### Schedule B: Construction Management available under Transitional Provisions (240 credits from)

##### Part Two

127.241 Property Market Principles.....	15 credits
152.252 Project Management.....	15 credits
153.200 Introduction to Dispute Resolution .....	15 credits
218.211 Construction Economics and Estimating.....	15 credits
P 218150 and 218172	
218.271 Construction Technology: Commercial.....	15 credits
P 218172 or 138281 or 138254 R 217271, 138383, 218273

## The Degree of Bachelor of Creative Media Production

### BCMP

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

1. Admission to the Bachelor of Creative Media Production requires that the candidate will meet the University admission requirements as specified.

###### Qualification Requirements

2. Candidates for the Degree of Bachelor of Creative Media Production shall follow a flexible programme of study, which shall consist of courses totalling 360 credits, comprising:

- a minimum of 285 credits as specified in the Schedule to the Qualification; and

- up to 75 credits from any other courses offered by the University; and including
- a maximum of 150 credits at 100 level;
- at least 90 credits at 200 level;
- at least 105 credits at 300 level;
- a maximum of 30 credits from Special Topic courses.

###### Specialisations

- The Bachelor of Creative Media Production is awarded without specialisation.
- Candidates may include a minor from any other undergraduate degree within the University for which recognised minors are specified, in accordance with the requirements for the minor as specified in the regulations of the qualification from which the minor has been drawn.

###### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.

- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an alternative qualification should they meet the relevant qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

- All candidates enrolled before 01 January 2020 who have completed 154.101 Introduction to Media Studies are permitted to substitute the course for 289.100 Introduction to Creative Media Production.
- All candidates enrolled before 01 January 2020 who have completed 154.120 Transmedia Narrative are permitted to substitute the course for 289.120 Working with Scripted Material.
- All candidates enrolled prior to 01 January 2021 who have not successfully completed 289.220 will be required to complete 289.120 and the core course added to the schedule (133.257) which will be available from 2021.
- The transitional arrangements in Regulations 8 – 10 expire on 31 December 2022.

**Schedule for the Bachelor of Creative Media Production**

**Core courses (195 credits from)**

289.100 Introduction to Creative Media Production .....	15 credits
289.204 Cross-Media Production .....	15 credits
P Two of 289101, 289102, 289103, 289104, 289105, 289106, 289107, 289108, 289110, 289111, 289112, 289113, 289114, 289115	
289.205 Intermedia .....	15 credits
289.206 Media Production Development .....	15 credits
P 289204	
289.221 Portfolio and Dissemination .....	15 credits
P Three of 289101, 289102, 289103, 289104, 289105, 289106, 289107, 289108, 289110, 289111, 289112, 289113, 289114, 289115	
289.302 Major Project Innovation Lab .....	15 credits
P 289204 and 1 of (289208 or 289209 or 289210 or 289211 or 289212 or 289215)	
289.303 Major Project Pre-production .....	15 credits
P 289206 and 1 of (289208 or 289209 or 289210 or 289211 or 289212 or 289215) C 289302	
289.306 Major Project Production .....	45 credits
P 289302

289.110 Introduction to Time-based Editing .....	15 credits
289.111 Introduction to 3D Modelling and Texturing .....	15 credits
289.112 Introduction to Scripted Film and Video Production .....	15 credits
289.113 Introduction to Prototyping for Creative Technologies .....	15 credits
289.114 Intro to Programming for Interactive Projects .....	15 credits
289.115 Introduction to Producing and Directing .....	15 credits
289.116 Introduction to Immersive Media .....	15 credits
289.116 Introduction to Immersive Media .....	15 credits

**Compulsory course selection 200 level (15 credits from)**

289.208 Computer Animation Production .....	15 credits
P 289103	
289.209 Visual Effects Production .....	15 credits
P 289104	
289.210 Game Technologies Project .....	15 credits
P 289106	
289.211 Video and Sound Production .....	15 credits
P 289105 or 289112	
289.212 Web and Interactive Production .....	15 credits
P 1 of 289101, 289106, 289114, 197119	
289.215 Applied Producing and Directing .....	15 credits
P 289115	

**Compulsory course selection 300 level (15 credits from)**

289.308 Advanced Computer Animation Practice .....	15 credits
P 289208	
289.309 Advanced VFX Practice .....	15 credits
P 289209	
289.310 Advanced Game Practice .....	15 credits
P 289210	
289.311 Advanced Video and Sound Practice .....	15 credits
P 289211	
289.312 Advanced Creative Technologies .....	15 credits
P One of 289212, 289210	
289.315 Advanced Producing and Directing .....	15 credits
P 289215	

**Elective courses**

289.190 Creative Media Production Special Topic 1a .....	15 credits
289.191 Creative Media Production Special Topic 1b .....	15 credits
289.192 Creative Media Production Special Topic 1c .....	15 credits
289.202 Media Innovation and Creativity .....	15 credits
289.290 Creative Media Production Special Topic 2a .....	15 credits
P Appraisal Required	
289.291 Creative Media Production Special Topic 2b .....	15 credits
P Appraisal Required	
289.390 Creative Media Production Special Topic 3a .....	15 credits
P Appraisal Required	

**Up to 75 credits from any other courses in the University.**

**The Degree of Bachelor of Design**

**BDes**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

- Admission to the Degree of Bachelor of Design requires that the candidate will:
  - meet the University admission requirements as specified; and
  - be selected into the Qualification based partially on the assessment of a portfolio of work submitted by the applicant.

- An applicant with an incomplete Massey University Bachelor of Design with Honours may, at the discretion of Academic Board, transfer into the Bachelor of Design.

**Qualification Requirements**

- Candidates for the Degree of Bachelor of Design shall follow a parts-based programme of study, which shall consist of courses totalling at least 480 credits, comprising:
  - Part One, Part Two, Part Three, and Part Four as specified in Schedules A and B;
  - Elective courses from Schedule C or other courses from Massey University; and including
  - not more than 180 credits at 100 level;
  - at least 180 credits must be at 300 level or above, including at least 60 credits at 400 level or above;
  - completion of at least one major.

4. Notwithstanding Regulation 3 holders of a Massey University Diploma in Fashion Design and Technology may be permitted to credit up to 120 credits at 100 level and include up to 195 credits at 100 level in a Bachelor of Design, fashion design major.
5. Notwithstanding Regulation 3 holders of a Massey University Diploma in Photography may be permitted to credit up to 120 credits at 100 level and up to 120 credits at 200 level to the Bachelor of Design, Photography major.
6. The Academic Board may grant exemptions to the requirements of Regulation 3 based on the subjects studied and prior performance of the student.

#### Specialisations

7. Candidates may complete a major by passing Parts One, Two, Three, and Four specified for a major selected from: Concept Design, Integrated Design, Fashion Design, Fashion Design and Business, Industrial Design, Photography, Spatial Design, Textile Design and Visual Communication Design. The requirements for each major are set out in Schedule B to the Qualification.
8. Candidates may include a minor from any undergraduate degree within the University for which recognised minors are specified, in accordance with the following requirements:
  - (a) The overall balance of credits as specified in Regulation 3 are maintained.
  - (b) The minor must be in a different subject area from the major(s).
  - (c) Where the minor is from another undergraduate degree the regulations of that programme for the minor will apply.
  - (d) No course may be credited to both a major and a minor.

#### Student Progression

9. In order to progress to Part Two the candidate shall have passed a total of 75 credits at 100 level with at least 60 credits from the Part I courses including one of 237.130 or 237.131 and the Schedule B course relevant to the major to be taken.
10. The Academic Board may grant exemptions to the requirements in Regulation 8 based on the subjects studied and prior performance of the student.

#### Completion Requirements

11. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, and Undergraduate Certificates, and Graduate Diplomas and Graduate Certificates will apply.
12. Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an alternative creative arts qualification should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

13. The general Unsatisfactory Academic Progress regulations will apply.

## Schedule for the Bachelor of Design

### Schedule A: Core courses

#### Part One

##### Compulsory courses (30 credits from)

237.130 Communication for Makers R 237101, 237114	15 credits
237.131 Conversations in Creative Cultures R 237102	15 credits

##### 60 credits from

198.157 Studio I (Object) R 197132	15 credits
212.157 Studio I (Dress) R 197135	15 credits
213.157 Studio I (Art Lab) R 197132	15 credits
213.158 Studio I (Art Place) R 197131	15 credits
221.157 Studio I (Lens) R 221101	15 credits
222.157 Studio I (Screen) R 197131	15 credits
222.158 Studio I (Type) R 197131, 222100	15 credits
223.157 Studio I (Material) R 197133	15 credits
224.157 Studio I (Space) R 197131	15 credits
296.157 Studio I (Imagine)	15 credits

## Part Two

### Compulsory course

237.230 Creative Cultures & Contexts I	15 credits
P 75 credits at 100-level R 198281, 212202, 213252, 221281, 222281, 223202, 224281	

### 15 credits from

197.288 Creative Collaboration	15 credits
P 75 credits at 100 level	
237.231 Creative Cultures & Contexts II	15 credits
P 75 credits at 100 level	

### Integrated Design students must take

197.288 Creative Collaboration	15 credits
P 75 credits at 100 level	

## Part Three

### Compulsory course

237.330 Creative Cultures & Ideas	15 credits
P 237230 or 237231	

### 15 credits from

197.388 Creative Communities	15 credits
P 75 Credits at 200 Level R 198481, 212425, 221382, 222382, 223425, 224382	
237.331 Creative Cultures & Display	15 credits
P 75 credits at 200-level	

### Integrated Design major students must take

197.388 Creative Communities	15 credits
P 75 Credits at 200 Level R 198481, 212425, 221382, 222382, 223425, 224382	

## Part Four

### 15 credits from

197.465 Creative Leadership	15 credits
P 198358 or 212358 or 213342 or 221358 or 222358 or 223358 or 224358 or 296358	
213.465 Exhibition	15 credits
C (198454 or 198455 or 212454 or 212455 or 213442 or 221454 or 221455 or 222454 or 222455 or 223454 or 223455 or 224454 or 224455 or 296454 or 296455) or Permission Head of School	
237.465 Creative Exposition	15 credits
P [237330 and (198358 or 212358 or 213342 or 221358 or 222358 or 223358 or 224358 or 296358)] or Appraisal Required	

### Schedule B: Majors

#### Concept Design (180 credits)

##### Part One

296.157 Studio I (Imagine)	15 credits
----------------------------	------------

##### Part Two

296.257 Design Studio IIA (Concept)	30 credits
P (237130 or 237131) plus 296157 and 2 of: 198157, 212157, 213157, 213158, 221157, 222157, 222158, 223157, 224157	
296.258 Design Studio IIB (Concept)	30 credits
P 296257	

##### Part Three

296.357 Design Studio IIIA (Concept)	30 credits
P 296258	
296.358 Design Studio IIIB (Concept)	30 credits
P 296357	

##### Part Four

296.455 Concept Design Studio Project	45 credits
P 296358	

#### Fashion Design (180 credits)

##### Part One

212.157 Studio I (Dress)	15 credits
R 197135	

##### Part Two

212.257 Design Studio IIA (Fashion)	30 credits
P (237130 or 237131) plus 212157 and two of: 198157, 213157, 213158, 221157, 222157, 222158, 223157, 224157, 296157 R 212201	

212.258 Design Studio IIB (Fashion) ..... 30 credits  
 P 212257 R 212201, 212204, 212220, 212303, 212305

**Part Three**

212.357 Design Studio IIIA (Fashion) ..... 30 credits  
 P 212258 R 212317

212.358 Design Studio IIIB (Fashion) ..... 30 credits  
 P 212357 R 212310

**Part Four**

212.455 Fashion Design Studio Project ..... 45 credits  
 P 212358 or 212310

**Fashion Design and Business (285 credits)**

**No new enrolments**

**Part One**

212.157 Studio I (Dress) ..... 15 credits  
 R 197135

**Part Two**

212.257 Design Studio IIA (Fashion) ..... 30 credits  
 P (237130 or 237131) plus 212157 and two of: 198157, 213157, 213158,  
 221157, 222157, 222158, 223157, 224157, 296157 R 212201

212.258 Design Studio IIB (Fashion) ..... 30 credits  
 P 212257 R 212201, 212204, 212220, 212303, 212305

**Part Three**

212.357 Design Studio IIIA (Fashion) ..... 30 credits  
 P 212258 R 212317

212.358 Design Studio IIIB (Fashion) ..... 30 credits  
 P 212357 R 212310

**Part Four**

**Compulsory course**

212.455 Fashion Design Studio Project ..... 45 credits  
 P 212358 or 212310

**15 credits from**

197.465 Creative Leadership ..... 15 credits  
 P 198358 or 212358 or 213342 or 221358 or 222358 or 223358 or 224358 or  
 296358

213.465 Exhibition ..... 15 credits  
 C (198454 or 198455 or 212454 or 212455 or 213442 or 221454 or 221455 or  
 222454 or 222455 or 223454 or 223455 or 224454 or 224455 or 296454 or  
 296455) or Permission Head of School

237.465 Creative Exposition ..... 15 credits  
 P [237330 and (198358 or 212358 or 213342 or 221358 or 222358 or 223358  
 or 224358 or 296358)] or Appraisal Required

**Plus 90 credits above 100 level including at least 45 credits at 300 level from one major in the Bachelor of Business.**

**Note: Where a Business major requires a 100-level pre-requisite, the credits for the pre-requisite do not count towards the business major, but do count towards the Bachelor of Design with Honours requirements provided the overall credit requirements in regulation 3 are maintained; and no more than 105 credits from the BBus Schedule are included in the degree.**

**Industrial Design (180 credits)**

**Part One**

198.157 Studio I (Object) ..... 15 credits  
 R 197132

**Part Two**

198.257 Design Studio IIA (Industrial) ..... 30 credits  
 P (237130 or 237131) plus 198157 and 2 of: 212157, 213157, 213158,  
 221157, 222157, 222158, 223157, 224157, 296157 R 198251

198.258 Design Studio IIB (Industrial) ..... 30 credits  
 P 198257 R 198252, 198272

**Part Three**

198.357 Design Studio IIIA (Industrial) ..... 30 credits  
 P 198258 R 198354

198.358 Design Studio IIIB (Industrial) ..... 30 credits  
 P 198357 R 198355

**Part Four**

198.455 Industrial Design Studio Project ..... 45 credits  
 P 198358 or 198355

**Integrated Design (195 credits)**

**Part One**

**30 credits from**

198.157 Studio I (Object) ..... 15 credits  
 R 197132

212.157 Studio I (Dress) ..... 15 credits

## The Degree of Bachelor of Education

### BEd

#### No new enrolments

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

- Candidates for the degree of Bachelor of Education shall:
  - hold a New Zealand Diploma or Higher Diploma of Teaching, or approved equivalent; or
  - have completed at least two full-time years of approved relevant experience in an educational context, or approved equivalent.

###### Qualification Requirements

- Candidates for the Bachelor of Education shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - not more than 150 credits at 100 level;
  - at least 75 credits at 300 level;

and including:

- the core courses listed in Schedule A for the qualification;
  - the remaining courses from Schedules B and C for the qualification;
  - up to 75 credits from schedules for other qualifications offered by the University, with the approval of the College PVC or nominee.
- Candidates who hold previous qualifications in teaching and/or education may have them assessed for credit to the Bachelor of Education. Such candidates shall follow an approved programme of study consisting of at least 120 credits, including the requirements of at least one major.

###### Specialisations

- The Bachelor of Education may be completed with or without specialisation.
- Candidates must complete the requirements of a major by passing at least 90 credits in one majoring subject, including:
  - at least 15 credits at 100 level;
  - at least 30 credits at 200 level;
  - at least 45 credits at 300 level.
- The requirements for each major are set out in Schedule B of the Qualification.
- Candidates may complete a double major by meeting all of the requirements of both majors.
- Candidates may include a minor in the Bachelor of Education by passing at least 60 credits for one of majors listed in Schedule B, including:

- (a) no more than 15 credits at 100 level;
  - (b) at least 15 credits at 300 level.
9. No course may be credited to both a major and a minor.
10. Minors may be included from any undergraduate degree within the University for which recognised minors are specified. Where the minor is from another undergraduate degree the regulations of that programme for the minor will apply.

**Completion Requirements**

11. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.

**Transitional Provisions**

12. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations, candidates who have completed at least 15 credits towards the Bachelor of Education Degree prior to 1 January 2018 may be permitted to substitute a course or courses already completed from an Education endorsement for a course at the same level, including core courses. These transition arrangements expire on 31 December 2022.

**Schedule for the Bachelor of Education**

**Schedule A: Core courses**

254.101 An Introduction to Social and Cultural Studies in Education R 181101, 187101	15 credits

# The Degree of Bachelor of Engineering

## BE

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Qualification Requirements

- Candidates who have passed all courses and completed all other requirements for a BE(Hons) but whose performance in the courses is deemed by the Academic Board, upon recommendation of the examiners, not to be of Honours standard will be awarded a degree of Bachelor of Engineering.

# The Degree of Bachelor of Fine Arts

## BFA

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Fine Arts requires that the candidate will:
  - meet the University admission requirements as specified; and
  - be selected into the Qualification based partially on the assessment of a portfolio of work submitted by the applicant, and an interview at the discretion of the University.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Fine Arts shall follow a parts-based programme of study, which shall consist of courses totalling at least 480 credits, comprising:
  - Part I, Part II, Part III, and Part IV as specified in Schedule A;
  - elective courses from Schedule B to the Degree; and/or elective courses from Schedule C to the Degree of the Bachelor of Design with Honours or any other course.
 and including:
  - not more than 180 credits at 100 level;
  - at least 90 credits at 200 level;
  - at least 90 credits at 300 level;
  - at least 90 credits at 400 level or above.
- Notwithstanding Regulation 2, holders of a Massey University Diploma in Photography who are admitted to the Degree of Bachelor of Fine Arts may be permitted to credit up to 120 credits at 100 level and up to 75 credits at 200 level to the Bachelor of Fine Arts.

##### Specialisations

- The Degree of Bachelor of Fine Arts is awarded without specialisation.

##### Student Progression

- In order to progress to Part II the candidate shall have passed a total of 75 credits at 100 level with at least 60 credits from the Part I courses including one of 237.130 or 237.131.
- The Academic Board may grant exemptions to the requirements of Regulation 5 based on the subjects studied and prior performance of the student.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Qualification requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an alternative qualification should they meet the relevant qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Bachelor of Fine Arts

#### Schedule A

##### Part One

##### Compulsory courses (30 credits from)

237.130 Communication for Makers .....	15 credits

## The Degree of Bachelor of Food Technology BFoodTech

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Qualification Requirements**

Candidates who have passed all courses and completed all other requirements for a BFoodTech(Hons) but whose performance in the courses is deemed by the Academic Board, upon recommendation of the examiners, not to be of Honours standard will be awarded a degree of Bachelor of Food Technology.

## The Degree of Bachelor of Health Science BHlthSc

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

- Admission to the Degree of Bachelor of Health Science requires that the candidate will meet the University admission requirements as specified.

**Qualification Requirements**

- Candidates for the Degree of Bachelor of Health Science shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits as defined by the Schedule for the Bachelor of Health Science degree, comprising:

- not more than 165 credits at 100 level;
  - at least 75 credits at 300 level;
- and including:
- the core courses as defined by Schedule A for the Qualification;
  - completion of one major;
  - attending field trips, studios, workshops, tutorials and laboratories as required.
- Notwithstanding Regulation 2(c), candidates completing the Degree of Bachelor of Health Science with a major in Psychology must substitute 175.203 Introduction to Psychological Research for core course 214.212 Research Methods in the Health Sciences.
  - Candidates completing the Degree of Bachelor of Health Science with a major in Mental Health and Addiction wishing to meet the accreditation requirements in Mental Health and Addiction are required to complete 250.320 Work Integrated Learning in the Health Sciences as one of their 300-level elective options.

**Specialisations**

5. Candidates must complete a major by passing at least 120 credits in a specialisation including at least 120 credits above 100 level of which at least 60 credits must be at 300 level. The requirements for each major are set out in Schedule B for the Qualification.
6. Approved majors are: Environmental Health, Health Promotion, Health Services Navigation, Integrated Human Health, Mental Health and Addiction, Occupational Health and Safety, Psychology, and Public Health.
7. Candidates may include one or two minors in the degree of Bachelor of Health Science. The requirements for each minor are set out in Schedule B for the Qualification.
8. Approved minors are: Community Nutrition, Environmental Health, Ergonomics/Human Factors, Health and Ageing, Health Promotion, Human Physiology, Integrated Human Health, Mental Health, Occupational Health and Safety, Public Health, Psychology and Rehabilitation.
9. A minor must include a minimum of 60 credits, including 45 credits above 100-level, of which at least 15 credits must be at 300 level.
  - (a) The minor(s) must be in a different subject area from the major(s).
  - (b) Where the minor is from another undergraduate degree the regulations of that programme for the minor will apply.
  - (c) No course may be credited to both a major and a minor.

**Student Progression**

10. The Academic Board may, under such conditions as it may determine and taking into account the recommendations of the examiners, admit any candidate to a supplementary privilege (normally an examination) where available in a course in which the candidate failed to gain a pass.

**Completion Requirements**

11. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.
12. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Science and Technology or the Certificate Public Health should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

13. The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

14. Subject to any Maximum time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, all candidates who enrolled in the Bachelor of Health Science prior to 1 January 2019 and have completed at least 15 credits may substitute a course or courses for a course or courses already taken in order to fulfil core and majoring requirements until December 2022.

## The Degree of Bachelor of Horticultural Science

### BHortSci

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

##### Admission

- Admission to the Degree of Bachelor of Horticultural Science requires that the candidate will meet the University admission requirements as specified.
- In all cases, if English is not the applicant's first language and the admission requirements were not completed at an educational institution where English is the medium of instruction, the applicant shall have achieved an IELTS of 6.5 with no band less than 6.0.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Horticultural Science shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - not more than 165 credits at 100 level;
  - at least 75 credits at 300 level; and including:
    - the courses defined by the Schedule for the Qualification;
    - the remaining courses selected from any undergraduate courses offered by the University;
    - attending contact workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.
- Candidates who, in the opinion of the Academic Board, have passed with sufficient merit subjects for either a New Zealand University Diploma in Farm Management or a New Zealand Diploma in Horticultural Management or subjects for some other recognised tertiary qualification may be cross-credited with specified or unspecified courses not exceeding a total of 120 credits.

##### Specialisations

- The Degree of Bachelor of Horticultural Science is awarded without specialisation.

##### Academic Requirements

- Candidates must complete to the satisfaction of the Academic Board two 13-week periods of practical work experience and a total of not less than 26 weeks of approved practical work experience in accordance with the following courses:
 

119.150 Practicum I.....	0 credits
119.250 Practicum II.....	0 credits
P 119.150	

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Science and Technology should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, all candidates who have passed at least 15 credits towards the Bachelor of Horticultural Science prior to 1 January 2020 will be permitted the following course substitutions:
  - 119154 Molecules to Ecology for 247111 Science and Sustainability for Agriculture and Horticulture;
  - 119158 Physics and Chemistry for Applied Sciences for 123103 Chemistry for Modern Sciences;
  - 284101 Production Horticulture for 119120 Plants for Agriculture and Horticulture; and
  - 285301 Controlling Plant Pests and Diseases for 199310 Entomology.

These transition arrangements expire 31 December 2023.

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, all candidates enrolled in the Bachelor of Horticultural Science prior to 1 January 2022 who have successfully completed

199.310 may substitute this course for one of 114.241, 115.212 or 120.219 until 31 December 2025.

## Schedule for the Bachelor of Horticultural Science

### Core courses (300 credits from)

112.248 Food and Agribusiness Value Chains P 119180	15 credits
112.301 International Food and Agribusiness Strategies P 112248	15 credits
115.113 Economics for Business R 115106	15 credits
119.120 Plants for Agriculture and Horticulture R 283101, 284101	15 credits
119.150 Practicum I	0 credits
119.180 Introduction to Agribusiness	15 credits
119.250 Practicum II P 119150	0 credits
119.270 Policy, Regulation and Government in Primary Industry	15 credits
119.281 Decision Tools for Primary Industries P 119180 or 117155	15 credits
119.373 Integrative Studies P 119250	15 credits
119.381 Decision-Making in Primary Industry P 119281	15 credits
120.101 Plant Biology	15 credits

123.103 Chemistry for Modern Sciences R 119153, 119158 123103 may not be taken after 123101, 123102, 123104, 123105, 123171 or 123172 have been passed	15 credits
138.301 Precision Agriculture Technologies	15 credits
161.140 Agri-Statistics R 161100, 161101, 161111, 161120, 161122, 161130, 115101, 195101	15 credits
189.151 Principles of Soil Science P One of 119153, 119158, 123101, 123103 or 123104	15 credits
189.251 Soil Fertility and Fertilisers P 189151 or 189142	15 credits
247.111 Science and Sustainability for Agriculture and Horticulture R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247112, 247113, 247114	15 credits
284.201 Horticultural Production Systems P 119120 or 284101	15 credits
284.301 Horticultural Crop Development & Yield P 284201 R 171327, 171328	15 credits
284.342 Horticultural Productivity and Quality P 120217 or 284201	15 credits
285.201 Understanding Plant Protection P 119120 or 120101 or 283101 or 284101 R 171284	15 credits

### Compulsory course selections (30 credits from)

114.241 Principles of Human Resources Management	15 credits
115.212 Fundamentals of Leadership and Teamwork P 90 credits at 100 level	15 credits
120.219 Plants and People	15 credits

## The Degree of Bachelor of Information Sciences BlnfSc

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Information Sciences requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Information Sciences shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - not more than 165 credits at 100 level;
  - at least 75 credits at 300 level;
 and including:
  - core courses as set out in Schedule A for the Qualification;
  - at least one major or joint major;
  - attending field trips, workshops, tutorials and laboratories as required.
- Candidates who, in the opinion of the Academic Board, have passed with sufficient merit an NZQF recognised Level 6 diploma in a relevant subject, or equivalent, may be granted specified or unspecified credit not exceeding a total of 240 credits. The credit granted will be determined by Academic Board after taking into account the areas of study, the quantum of study and the standard of pass attained.
- Candidates who, in the opinion of the Academic Board, have passed with sufficient merit an NZQF recognised Level 5 diploma in a relevant subject, or equivalent, may be granted specified or unspecified credit not exceeding a total of 60 credits. The credit granted will be determined by Academic Board after taking into account the areas of study, the quantum of study and the standard of pass attained.

##### Specialisations

- Candidates may complete a major by fulfilling the requirements for a major or joint major as set out in Schedule B for the Qualification.
- Majors available are: Computer Science, Data Science, Information Technology and Information Systems.
- Joint Major available is Software Engineering.
- Candidates may complete a double major in the qualification subject to the following:
  - the qualification requirements regarding core courses are met;
  - the requirements of both majors are met.
  - Notwithstanding Regulation 8(b), candidates completing a double major are required to complete a capstone course from one of the majors; the other capstone course may be waived.
  - A joint major may not be included as part of a double major.

- Candidates may include a minor in the qualification subject to the following:
  - the minor must be in a different subject area from the major;
  - no course may be credited to both a major and a minor;
  - the minor may be included from any undergraduate degree within the University for which recognised minors are specified;
  - where the minor is from another undergraduate degree the regulations of that programme for the minor will apply.
- Minors available within the Degree of Bachelor of Information Sciences are: Business, Computer Science, Data Science, Games Programming, Information Technology, and Information Systems; the requirements for which are specified in Schedule B for the Qualification.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, and Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded either the Certificate in Science and Technology or the Diploma in Science and Technology should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, all candidates who commenced study towards the Bachelor of Information Sciences prior to 1 January 2020 may be permitted course substitution beyond the normal limits until the end of the 2024 academic year.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, all candidates who commenced study towards the Bachelor of Information Sciences prior to 1 January 2022 will be permitted to substitute 159.171, if already completed, for 159.100 or 159.101, and 159.172, if already completed, for 159.102, until 31 December 2026.

## Schedule for the Bachelor of Information Sciences

### Schedule A: Core courses

#### 30 credits from

158.345 Professionalism in the Information Sciences.....	15 credits
P 1572xx or 1582xx or 1592xx	
247.112 Science and Sustainability for ICT.....	15 credits
R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247111, 247113, 247114	

#### 15 credits from

159.100 Programming for Engineering and Technology.....	15 credits
R 159101	
159.101 Applied Programming.....	15 credits
R 159100	

#### 15 credits from

161.111 Applied Statistics.....	15 credits
R 115101, 161101, 161120, 161122, 161130, 161140	
161.122 Statistics.....	15 credits
R 115101, 161101, 161111, 161120, 161130, 161140	

### For the major in Computer Science or for the joint major in Software Engineering (15 credits from)

159.102 Computer Science and Programming.....	15 credits
P 159100 or 159101	

### For the majors in Computer Science or Data Science, or for the joint major in Software Engineering (15 credits from)

160.101 Calculus.....	15 credits
R 160112, 160133, 228172	
160.102 Algebra.....	15 credits
R 160112, 160133, 228172	
160.105 Methods of Mathematics.....	15 credits
R 160101, 160102, 160103, 160111, 160112, 160131, 160132, 160133, 228171, 228172	

### For the majors in Information Systems or Information Technology (At least 30 credits from)

157.151 Living and Working with Technology.....	15 credits
R 115107, 157150, 157100	
158.100 Information Technology Principles.....	15 credits
158.120 Web-based IT Fundamentals.....	15 credits

### Schedule B: Specialisations

#### Majors

#### Computer Science (120 credits)

##### 60 credits from

159.201 Algorithms and Data Structures.....	15 credits
P 159102 R 159271	
159.234 Object-Oriented Programming.....	15 credits
P 159102	
159.235 Programming for Computer Graphics.....	15 credits
P 159102 R 159360	
159.236 Embedded Programming.....	15 credits
P 159102 R 159233, 159270	
159.251 Software Engineering Design and Construction.....	15 credits
P 159234	
159.261 Games Programming.....	15 credits
P 159101	
159.272 Programming Language Paradigms.....	15 credits
P 159102 R 159202	

##### 45 credits from

159.302 Artificial Intelligence.....	15 credits
P 159201 or 159234 R 159372	
159.336 Mobile Application Development.....	15 credits
P 159234 or 159235	
159.341 Programming Languages, Algorithms and Concurrency.....	15 credits
P 159201 or 159202 R 159331	
159.342 Operating Systems and Networks.....	15 credits
P 159201 or 159234 R 159334, 159335, 159354, 159355	
159.352 Advanced Web Development.....	15 credits
P (159100 or 159101 or 159171) and (158256 or 158258) R 159339	
159.355 Concurrent Systems.....	15 credits
P 159272 R 159335, 159341, 159342	
159.360 Programming for Computer Graphics.....	15 credits
P (159270, 159271 or 159272) and (160101, 160102, 160103 or 160105) R 159235	

159.361 Advanced Games Programming.....	15 credits
P 159235, 159261	
159.372 Intelligent Machines.....	15 credits
P 159271 or 159272 R 159302	

#### Compulsory capstone course (15 credits from)

159.333 Computer Science Project.....	15 credits
P Two (2) of 158222, 1592xx	
159.356 Software Engineering Capstone Project.....	15 credits
P 159251 and 159352	

#### Data Science (135 credits)

##### Compulsory courses (45 credits from)

158.222 Data Wrangling and Machine Learning.....	15 credits
P (159101 or 159100) and one of (1611xx, 160101, 160102)	
158.333 Applied Machine Learning and Big Data Processing.....	15 credits
P 158222	
158.337 Database Development.....	15 credits
P One of 1582xx or 1592xx R 158247	

##### Subject Courses

##### At least 30 credits from

##### Any 161.2xx Courses

##### At least 15 credits from

##### Any 161.3xx courses

##### At least 15 credits from

158.258 Web Development.....	15 credits
P 1581xx or 1591xx R 158256	
159.201 Algorithms and Data Structures.....	15 credits
P 159102 R 159271	

##### At least 15 credits from

158.326 Software Construction.....	15 credits
P 158256 or 158258 or 159234 or 159270	
159.302 Artificial Intelligence.....	15 credits
P 159201 or 159234 R 159372	

#### Compulsory capstone course (15 credits from)

158.383 Information Technology Project.....	15 credits
P At least two (2) 1582xx courses	
159.333 Computer Science Project.....	15 credits
P Two (2) of 158222, 1592xx	

#### Information Systems (120 credits)

##### 200-level courses (60 credits from)

##### Between 30 and 45 credits from

157.216 Management, Analytics and Decision Making.....	15 credits
157.240 Social Media Networks for Business.....	15 credits
157.241 Technology Trends for Organisations.....	15 credits
P 157150 or 157151 or 115107 or 1581xx or 1591xx R 157242	

##### Between 15 and 30 credits from

158.235 Networks, Security and Privacy.....	15 credits
P 1581xx or 1591xx or 157150 or 157151 or 115107	
158.244 Software Quality Assurance and Testing.....	15 credits
P One of 1571xx or 1581xx or 1591xx	
158.258 Web Development.....	15 credits
P 1581xx or 1591xx R 158256	

##### 300-level courses (60 credits from)

##### Between 30 and 45 credits from

157.340 Organisational Knowledge Management.....	15 credits
P 1142xx or 1522xx or 1572xx or 1582xx or 1592xx	
157.350 Technology Governance and Risk Management.....	15 credits
R 57301, 157373, 157341	
157.394 Managing Technology Projects and Programmes.....	15 credits
P 1142xx or 1522xx or 1572xx or 1582xx or 1592xx	

##### Between 15 and 30 credits from

158.337 Database Development.....	15 credits
P One of 1582xx or 1592xx R 158247	
158.359 User Experience Design.....	15 credits
P 1572xx or 1582xx or 1592xx	

#### Information Technology (120 credits)

##### 200-level courses (60 credits from)

##### Between 45 and 60 credits from

158.222 Data Wrangling and Machine Learning.....	15 credits
P (159101 or 159100) and one of (1611xx, 160101, 160102)	
158.225 Systems Analysis and Modelling.....	15 credits
P 157150 or 157151 or 115107 or 1581xx or 1591xx R 158254	
158.235 Networks, Security and Privacy.....	15 credits
P 1581xx or 1591xx or 157150 or 157151 or 115107	

158.244 Software Quality Assurance and Testing ..... 15 credits  
 P One of 1571xx or 1581xx or 1591xx  
 158.258 Web Development ..... 15 credits  
 P 1581xx or 1591xx R 158256

**No more than 15 credits from**

157.216 Management, Analytics and Decision Making ..... 15 credits

## The Degree of Bachelor of Māori Visual Arts BMVA

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II****Admission**

- Admission to Part I of the Bachelor of Maori Visual Arts will conform to the normal requirements and procedures of the University and will be based partly on the assessment of a portfolio of work submitted by the candidate.

**Qualification Requirements**

- The Bachelor of Maori Visual Arts degree consists of four parts, each containing 120 credits.
- The degree of Bachelor of Maori Visual Arts may be awarded with or without Honours. A candidate who has fulfilled the requirements prescribed in the Regulations and whose work has been of a sufficiently high standard may be recommended by the Academic Board for admission to the degree with First or Second Class Honours. Candidates awarded Second Class Honours shall be listed in Division I or Division II.
- The following Schedule sets out parts, course numbers and credit values applying to courses offered for the degree of Bachelor of Maori Visual Arts.

**Schedule for the Bachelor of Māori Visual Arts****Part One (At least 120 credits from)****Compulsory courses (90 credits from)**

150.106 Nga Hanga Whakairo: Traditional Māori Visual Art	15 credits
150.107 Mata Puare: Studio IA	30 credits
150.108 Mata Puare: Studio IB	45 credits

**Plus either**

300.110 Te Reo Whakahoahoa: Socialising in Te Reo	15 credits
---	------------

**Or**

300.111 Te Reo Kōnakinaki: Developing Te Reo	15 credits
--	------------

**Elective courses: Any one of the following courses or another course approved by the Head of School**

146.101 Understanding Cultural Difference	15 credits
150.114 He Tirohanga Taketake: Māori Perspectives	15 credits
154.101 Introduction to Media Studies	15 credits

**Part Two (At least 120 credits from)****Compulsory courses (90 credits from)**

150.206 Ngā Momo Whakairo: Contemporary Māori Visual Art P 150106	15 credits
150.207 Mata Oho: Studio IIA P 150107	30 credits
150.208 Mata Oho: Studio IIB P 150108	45 credits

**Plus either**

300.111 Te Reo Kōnakinaki: Developing Te Reo	15 credits
--	------------

**Or**

300.210 Te Reo Kōrerorero: Discussing in Te Reo P 300111	15 credits
---	------------

**Elective courses: Any one of the following courses or another course approved by the Head of School**

139.362 Oceanic Literatures of Aotearoa: Ngā Tuhinga Kōrero o te Moana nui a Kiwa	15 credits
146.206 Visual Ethnography	15 credits
148.309 The New Zealand Wars R 148204	15 credits
150.303 Mana Wahine: Māori Women	15 credits

**Part Three (At least 120 credits from)****Compulsory courses (105 credits from)**

150.201 Te Kawenata o Waitangi: The Treaty of Waitangi in New Zealand Society R 269274	15 credits
150.307 Mata: Studio IIIA P 150207	30 credits
150.308 Mata: Studio IIIB P 150208	60 credits

**Plus**

300.210 Te Reo Kōrerorero: Discussing in Te Reo P 300111	15 credits
---	------------

**Note, if 300.210 has already been passed, a course approved by the Head of School****Part Four (120 credits from)****Compulsory courses (120 credits from)**

150.407 Matatau: Studio IVA P 150307	60 credits
150.408 Matatau: Studio IVB P 150308	60 credits

# The Degree of Bachelor of Natural Sciences

## BNatSc

### No new enrolments

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Natural Sciences requires that the candidate will have:
  - met the University admission requirements as specified; and
  - have achieved at least 16 credits in each of two of NCEA Level 3 Biology, Chemistry, Physics, Mathematics; or
  - have achieved a minimum B grade at A level in two of Biology, Chemistry, Physics, Mathematics in the University of Cambridge International Examinations; or
  - have achieved at least 29 points including five points in each of two of Biology, Chemistry, Physics, Mathematics in the International Baccalaureate; or
  - passed with a minimum C grade two of 162.103 Introductory Biology, or 123.103 Introductory Chemistry, or 124.100 Introductory Physics; or
  - have achieved to an equivalent level as in Regulations 1(b) to (e) in an alternative examination; or
  - have achieved 16 credits at Merit or Excellence in each of five subjects in NCEA Level 3; or
  - have achieved a B grade average across previous University study.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Natural Sciences shall follow a parts-based programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - completion of Parts One, Two, and Three;
  - not more than 165 credits at 100 level;
  - at least 75 credits at 300 level.
 and including:
  - the courses listed in the Schedule for the Qualification;
  - at least 75 credits from Schedule B to the Bachelor of Science;
  - up to 75 credits from any subject area offered by the University;
  - attending field trips, workshops, tutorials, and laboratories as required.

##### Specialisations

- The Degree of Bachelor of Natural Sciences is awarded without specialisations.

##### Student Progression

- Candidates must complete the requirements of Part One prior to progressing to Part Two.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification, and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Science and Technology should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Bachelor of Natural Sciences

#### Part One (120 credits from)

##### Compulsory courses (60 credits from)

123.101 Chemistry and Living Systems.....	15 credits
R 123171	
124.111 Physics for Life Sciences .....	15 credits
R 124101, 124171	
246.101 Science and Sustainability.....	15 credits

246.102 Core Skills for Natural Scientists .....	15 credits
R 119155 or 247155	

##### 15 credits from

120.101 Plant Biology.....	15 credits
162.101 Cell Biology.....	15 credits
199.101 Biology of Animals.....	15 credits

##### 15 credits from

160.111 Mathematics 1A.....	15 credits
P 160103 or 160131 or 160132 R 160101, 160102, 228171	
160.132 Concepts in Mathematics .....	15 credits
R 160101, 160102, 160103, 160111, 160112, 160131, 228171, 228172	
160132 may not be taken after 160133 has been passed	
160.133 Processes in Mathematics .....	15 credits
P 160132, or 160111, or 228171, or 160101, or 160102, or 160103, or A- or better in 160131 R 160112, 228172, both of 160101, 160102 And, 160133 may not be taken at the same time as any of 160101, 160102 or 160111	

##### 30 credits from any approved courses from any subject area in the University

#### Part Two (120 credits from)

##### Compulsory courses (45 credits from)

246.201 Systems and Models in the Natural Sciences .....	30 credits
246.202 Bacteriophage Discovery.....	15 credits
P One of 162101, 199101, 199103 or 120101	

##### 15 credits from

115.113 Economics for Business.....	15 credits
R 115106	
134.218 Environmental Philosophy .....	15 credits
R 134318	
145.111 Society, Environment and Place .....	15 credits
152.230 Entrepreneurship .....	15 credits
152.252 Project Management.....	15 credits
159.101 Applied Programming.....	15 credits
R 159100	
175.102 Psychology as a Natural Science .....	15 credits
200.161 Introduction to Politics .....	15 credits
219.101 Media Skills.....	15 credits

##### 30 credits at any level from Schedule B to the Degree of Bachelor of Science

##### 30 credits from any approved courses from any subject area in the University

#### Part Three (120 credits from)

##### Compulsory courses (60 credits from)

134.308 Philosophy of Science.....	15 credits
R 134208	
246.301 Special Topic in Natural Sciences.....	15 credits
P 246201	
246.302 Research Themes in Natural Sciences .....	30 credits
P 246201	

##### 45 credits from Schedule B to the Degree of Bachelor of Science, with at least 15 credits at 300 level

##### 15 credits from any approved courses from any subject area in the University

# The Degree of Bachelor of Nursing

## BN

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Nursing requires that the candidate will:
  - meet the University admission requirements as specified;
  - hold a current First Aid Certificate from an approved provider;
  - meet Health Clearance and Police Vetting requirements as specified by the Academic Board or their delegate;
  - meet the requirements for registration as a nurse in New Zealand as set down by the Nursing Council of New Zealand in terms of good character and fitness to be a nurse;
  - have achieved an IELTS of 6.5 with no band less than 6.5 within the preceding two years, if English is not the applicant's first language and the language of instruction in previous schooling is not English; and
  - be selected into the programme on the basis of a selection process which include a written application, and may include an interview as determined by the Academic Board or their delegate.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Nursing shall follow a parts-based programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - Part One, Part Two, and Part Three, as defined by the Schedule to the Qualification; and including:
    - the compulsory courses listed in the Schedule for the Qualification; and
    - attending Contact Workshops, block courses, field trips, workshops, tutorials, laboratories, and clinical experiences as required.

##### Specialisations

- The Degree of Bachelor of Nursing is awarded without specialisation.

##### Academic Requirements

- Every candidate for the Degree of Bachelor of Nursing shall complete to the satisfaction of Academic Board a minimum of 1100 hours of approved clinical practice and associated reports in accordance with the following courses:

168.172 Nursing Practice I: Foundations of Care  
 168.173 Nursing Practice II: Foundations of Practice  
 168.272 Nursing Practice III: Integrated Care  
 168.372 Nursing Practice IV: Acute Care  
 168.374 Pre-graduate Nursing Practice.

A passing grade in these courses will be awarded on the basis of practical work completed in accordance with the guidelines and standards governing the practical work requirements.

##### Student Progression

- Candidates may progress from Part One to Part Two, and from Part Two to Part Three, by passing all courses in the previous part.
- The Academic Board may, under such conditions as it may determine and taking into account the recommendations of the examiners, admit any candidate to a supplementary examination where available in a course in which the candidate failed to gain a pass.
- Candidates who fail to complete all the courses related to any Part in accordance with Regulation 5 shall re-enrol in the remaining unpassed course(s) at the next available offering of the course(s).
- Candidates must maintain their eligibility for registration with the Nursing Council of New Zealand in terms of good character and fitness to be a nurse, throughout the duration of their enrolment in the programme.

##### Completion Requirements

- A candidate's programme of study may not exceed five years, unless a specified time of suspension or extension has been approved by the Academic Board and the Nursing Council of New Zealand. Permission must be sought in advance of any suspension or extension by applying in

writing to the Bachelor of Nursing Programme Director. Suspensions or extensions granted will appear on the academic transcript.

- Candidates may be permitted to graduate when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

##### Unsatisfactory Academic Progress

- For candidates enrolled in the Degree of Bachelor of Nursing, the following will lead to exclusion from the qualification:
  - failure to obtain a pass in any of the Bachelor of Nursing courses for which they have been enrolled for two occasions;
  - failure to pass courses totalling at least 75 academic credits or failure to pass at least 60% of an approved part-time programme of study in any academic year; or
  - failure to complete the Degree within five years from the date of first enrolment.

Candidates excluded under (a), (b), or (c) above will only be re-admitted to the Bachelor of Nursing with the approval of the Academic Board.

##### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I qualification regulations, candidates enrolled in the Bachelor of Nursing prior to 1 January 2022 will be granted the following substitutions:
  - 168.161 for 231.107
  - 168.162 for 168.172
  - 168.163, 168.164, 168.165 for 168.171 and 168.173
  - 168.261 for 168.273
  - 168.262 and 168.263 and 168.264 and 168.265 for 168.272
  - 168.266 for 168.271
  - 168.361 and 168.365 for 168.371 and 168.373
  - 168.362 and 168.363 for 168.372
  - 168.364 and 168.366 for 168.374
- These transition arrangements expire on 31 December 2025.

### Schedule for the Bachelor of Nursing

#### Part One (120 credits from)

150.112 Hauora Tangata: Foundations of Māori Health.....	15 credits
168.171 Professional Nursing I.....	15 credits

P (214101 and 214102) OR (162101; and 194101 or 117155 or 214101)	
214.202 Pharmacology.....	15 credits
P 214101 and 214102	

#### Part Two (from 2023) (120 credits from)

168.271 Professional Nursing II.....	15 credits
R 168266	
168.272 Nursing Practice III: Integrated Care.....	60 credits
R 168262 and 168263 and 168264 and 168265	
168.273 Evidence-based Nursing Practice.....	15 credits
R 168261	
214.201 Human Bioscience: Impaired Body Function.....	15 credits
P (214101 and 214102) OR (162101; and 194101 or 117155 or 214101)	
214.202 Pharmacology.....	15 credits
P 214101 and 214102	

**Part Three (No New Enrolments from 2024) (120 credits from)**

168.361 Preparing for Professional Practice C 168362, 168363 R 168312	15 credits
168.362 Nursing People with Acute Conditions C 168361	30 credits
168.363 Mental Health and Addictions Nursing II C 168361	15 credits
168.364 Pre-graduate Nursing Practice C 168366	30 credits
168.365 Leadership and Management in Nursing C 168364	15 credits

168.366 Contexts of Nursing Practice C 168364	15 credits
--	------------

**Part Three (from 2024) (120 credits from)**

168.371 Professional Nursing III R 168361 and 168365	15 credits
168.372 Nursing Practice IV: Acute Care R 168362 and 168363	45 credits
168.373 Preparing for Professional Excellence R 168361 and 168365	15 credits
168.374 Nursing Practice V: Pre-Graduate P 168371 and 168372 R 168364 and 168366	45 credits

## The Degree of Bachelor of Resource and Environmental Planning BRP

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Degree of Bachelor of Resource and Environmental Planning requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Resource and Environmental Planning shall follow a parts-based programme of study, which shall consist of courses totalling at least 480 credits, comprising:
  - completion of 120 credits in each of Parts I, II, III, and IV. and including:
    - the compulsory courses from Schedule A for the Qualification;
    - at least one minor;
    - a minimum of 15 credits from Schedule C of the Degree;
    - elective courses to a maximum of 15 credits from courses offered for other Bachelor degrees;
    - attending field trips, studios, workshops, tutorials, and laboratories as required.
- Courses with significant overlap of content will not be approved for inclusion in the Degree; course 132.221 Planning Studies cannot be credited to the Degree of Bachelor of Resource and Environmental Planning.

##### Specialisations

- Candidates shall complete a minor by passing at least 120 credits in a minor including 90 credits above 100 level of which at least 45 credits must be above 200 level. The requirements for each minor are set out in Schedule B for the Qualification.
- Minors are available in: Agriculture, Ecology, Economics, Geography, Management, Māori Studies, Property Management, Soil/Earth Science.

##### Student Progression

- Candidates shall not enrol in Part II unless they have passed all of their Part I requirements (120 credits) within two years of their enrolment into the Degree of Bachelor of Resource and Environmental Planning.
- Candidates must complete the Schedule A requirements for Part II prior to progressing to Part III, and for Part III prior to progressing to Part IV.
- The Degree of Bachelor of Resource and Environmental Planning may be awarded with or without a class of Honours.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, and Undergraduate Certificates, and Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification, and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an alternative qualification should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who have completed at least 15 credits towards a Bachelor of Resource and Environmental Management, Management minor prior to 1 January 2018 may be permitted to substitute a course or courses already completed towards the minor for a course or courses at the same level included in the Schedule for the minor. These transition arrangements expire 31 December 2022.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Bachelor of Resource and Environmental Management prior to 1 January 2020 will be permitted to substitute course(s) already completed for the a course or courses included in Schedule C. Such candidates who have already completed a course or courses towards the Agriculture, Geography, Ecology or Soil/Earth Science minor will be permitted to substitute the course(s) for a course or courses at the same level included in the Schedule for the minor. These transition arrangements expire 31 December 2025.

### Schedule for the Bachelor of Resource and Environmental Planning

#### Schedule A: Compulsory Planning courses

##### Part One

132.101 Introduction to Professional Planning	15 credits
132.102 Introduction to Planning Analytics	15 credits
132.111 Oranga Taiao, Oranga Tangata: Planning and the Environment	15 credits
132.112 Planning for Sustainable Development	15 credits

##### Part Two

132.212 Professional Practice I P 132111, 132112	15 credits
132.213 Policy Analysis and Evaluation	15 credits
132.217 Planning Hazard-Resilient Communities	15 credits
145.202 Working With Geographic Data R 132106	15 credits
150.201 Te Kawenata o Waitangi: The Treaty of Waitangi in New Zealand Society R 269274	15 credits

## The Degree of Bachelor of Retail and Business Management BRBM

**No new enrolments****Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II****Admission**

- Admission to the Degree of Bachelor of Retail and Business Management requires that the candidate will meet the University admission requirements as specified.

**Qualification Requirements**

- Candidates for the Degree of Bachelor of Retail and Business Management shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - not more than 150 credits at 100 level;
  - at least 75 credits at 300 level;
 and including:
  - at least 300 credits selected from the schedule to the degree;
  - the core courses listed in Schedule A to the Qualification;
  - attending field trips, studios, workshops, tutorials and laboratories as required.

- Candidates who, in the opinion of the Academic Board, have passed with sufficient merit subjects for a Retail qualification registered on the New Zealand Qualifications Framework at Level 5 or higher, may be cross-credited with specified or unspecified courses not exceeding a total of 120 credits.

**Specialisations**

- Candidates may complete a minor by passing at least 60 credits in a specialisation, including at least 45 credits above 100 level, of which at least 15 credits must be at 300 level. The requirements for each minor are set out in Schedule B to the Qualification.
- Approved minors are: Business Information Systems and Electronic Commerce, Design, Logistics and Supply Chain Management, Management and Entrepreneurship, Marketing and Retail Banking.
- Minors may be included from any undergraduate degree within the University for which recognised minors are specified.
  - Where the minor is from another undergraduate degree the regulations of that programme for the minor will apply.
  - No course may be credited to more than one specialisation.

**Academic Requirements**

- Candidates are required to complete 315 hours of practical work in internship placements, in accordance with the requirements of courses:
  - 290.100 Retail Practice Internship (45 hours; 6 days);
  - 290.201 Retail Knowledge (90 hours; 12 days);
  - 290.301 Retail Experience (180 hours; 24 days).
- Candidates will be responsible for securing their own placements with suitable retail organisations, which must be approved by the Internship

Coordinator. All work undertaken must be completed in accordance with the required standards issued.

#### Completion Requirements

9. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
10. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Business should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

11. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

12. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who have completed at least 15 credits towards a Bachelor of Retail and Business Management, Management and Entrepreneurship major prior to 1 January 2018 may be permitted to substitute a course or courses already completed towards the major for a course or courses at the same level included in the Schedule for the major. These transition arrangements expire 31 December 2022.

### Schedule for the Bachelor of Retail and Business Management

#### Schedule A: Compulsory core courses (300 credits from)

114.240 Organisational Behaviour	15 credits
115.109 Introduction to Business Analytics	15 credits
115.112 Accounting for Business	15 credits
R 115102	
115.113 Economics for Business	15 credits
R 115106	
115.115 Management in Context	15 credits
R 115108	
115.116 Introduction to Marketing	15 credits
R 115104	
155.110 Retail Law	15 credits
R 115103, 115211	
156.231 Strategic Marketing Management	15 credits
P 115116 or 156200	
156.232 Consumer Behaviour	15 credits
P 115116 or 156200	
156.339 Omni-Channel Retail Marketing	15 credits
P 156231 or 2902xx	
240.260 Logistics and Supply Chain Fundamentals	15 credits
R 115260	
290.100 Retail Practice Internship	15 credits
C 290102 R 290101	
290.102 Contemporary Retail Management	15 credits
290.201 Retail Knowledge Internship	15 credits
P At least 15 credits at 200-level from the 290 course prefix series	
290.202 Design Thinking for Business Operations	15 credits
290.203 Buying and Category Management	15 credits
290.204 Managing the Customer Experience	15 credits
290.301 Retail Experience Internship	30 credits
P At least 30 credits at 200-level from the 290 course prefix series R 115388	
290.302 Strategic Transformation in Retailing	15 credits

#### Schedule B: Minors (60 credits from)

##### Business Information Systems and Electronic Commerce (60 credits)

###### No new enrolments

###### Compulsory course

157.350 Technology Governance and Risk Management	15 credits
R 57301, 157373, 157341	

###### 45 credits from

156.235 Social Media and Digital Marketing	15 credits
P 115116 or 115104 or 156200 or 75 credits for non-Business students	
157.151 Living and Working with Technology	15 credits
R 115107, 157150, 157100	
157.240 Social Media Networks for Business	15 credits
157.241 Technology Trends for Organisations	15 credits
P 157150 or 157151 or 115107 or 1581xx or 1591xx R 157242	

##### Design (60 credits)

###### No new enrolments

###### Compulsory courses

197.288 Creative Collaboration	15 credits
P 75 credits at 100 level	
197.388 Creative Communities	15 credits
P 75 Credits at 200 Level R 198481, 212425, 221382, 222382, 223425, 224382	
222.215 Brand Communication	15 credits
P 75 credits at 100 level from College of Creative Arts or 75 credits at 100 level including 115116 or 115104	
224.205 Design for Display	15 credits
P 75 credits at 100 level R 197205	

##### Logistics and Supply Chain Management (60 credits)

###### No new enrolments

###### Compulsory courses

240.263 Logistics Operations	15 credits
R 240261	
240.364 Purchasing and Supply Management	15 credits
P 240260 or 240261 or 240263 R 240360, 240361	
240.365 Demand Chain Management	15 credits
P 240260 or 240261 or 240263 R 240360, 240361	
240.366 Global Logistics	15 credits
P 240260 or 240263 R 240261	

##### Management and Entrepreneurship (60 credits)

###### No new enrolments

###### Selection from

114.241 Principles of Human Resources Management	15 credits
114.254 Employment Relations	15 credits
152.230 Entrepreneurship	15 credits
152.232 Small Business Management	15 credits
152.250 Managing Organisations	15 credits
R 152200	
152.252 Project Management	15 credits
152.331 Scaling and Growth	15 credits
P 152233 or 152234	
152.336 Leadership Practice	15 credits
R 152328, 152329	

##### Marketing (60 credits)

###### No new enrolments

###### Selection from

156.233 Marketing Research	15 credits
P 115116 or 156200	
156.235 Social Media and Digital Marketing	15 credits
P 115116 or 115104 or 156200 or 75 credits for non-Business students	
156.237 Marketing Communication and Advertising	15 credits
P 115116 or 156200	
156.238 Marketing New Products	15 credits
P 115116 or 115104 or 156200	
156.334 Marketing Consultancy Project	15 credits
P 156231 and any 1562xx course	
156.338 International Marketing	15 credits
P 156231 plus either 156232, or both 156235 and 156237	
156.340 Customer Intelligence	15 credits
P 156233	
156.341 Branding	15 credits
P 156231 and plus either 156232, or both 156235 and 156237	

##### Retail Banking (60 credits)

###### No new enrolments

###### Compulsory courses (45 credits from)

125.220 Financial Institutions and Markets	15 credits
P 115114	
125.364 Bank Financial Management	15 credits
P 115114 or 115105; and 125220 R 125360, 125361, 125362, 125363	
125.365 Retail Banking	15 credits
P 125220	

**Compulsory course selection (15 credits from)**115.114 Finance Fundamentals.....15 credits  
R 115105

125.211 The Financial Planning Process.....15 credits

## The Degree of Bachelor of Science

### BSc

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

##### Admission

- Admission to the Degree of Bachelor of Science requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

- Candidates for the Degree of Bachelor of Science shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - not more than 165 credits at 100 level;
  - at least 75 credits at 300 level;
 and including:
  - core courses as defined by Schedule A to the Degree;
  - at least 240 credits from the Schedule to the Degree;
  - completion of at least one major;
  - attending block courses, Contact Workshops, field trips, workshops, tutorials and laboratories as required.
- Notwithstanding Regulations 2(c – e) and Regulation 4, and at the discretion of Academic Board, students exiting the Bachelor of Engineering with Honours, Bachelor of Food Technology with Honours, and Bachelor of Veterinary Science may have a personal programme variation approved in excess of stated limits, to meet the requirements of the BSc through substitution of courses from the schedules to those degrees, and may be exempt from the requirement to complete a major.

##### Specialisations

- Candidates must complete a major by passing 120 credits in a major, including 60 credits at 200-level and 60 credits at 300-level. The requirements for each major are specified in Schedule B to the Degree.
- Candidates may complete a double major by meeting the requirements of both majors as specified in Schedule B to the Degree. No course may be credited to two majors.
- Approved majors available are: Chemistry, Computer Science, Data Science\*, Earth Science, Ecology and Conservation, Ecology and Sustainability\*, Environmental Science, Exercise and Sport Science, Human Nutrition, Integrative Biology\*, International Agriculture\*, Marine Biology\*, Mathematics, Microbiology, Molecular and Cellular Biology\*, Molecular Cell Biology, Physics\*, Physiology, Plant Science, Psychology, Statistics, and Zoology.  
\* No new enrolments.
- Notwithstanding Regulation 6, the following majors are available in accordance with Transitional Provisions outlined in Regulation 17: Agricultural Science, Animal Science, Biochemistry, Biological Sciences, Genetics, Geography, Logistics and Supply Chain Management, Marine Ecology, and Nanoscience.
- Candidates may include up to two minors in the Degree of Bachelor of Science.
  - A minor must include 60 credits, including 30 credits at 200-level and 30 credits at 300-level.
  - The requirements for each minor are set out in Schedule B to the Degree.
  - A candidate may not complete a major and a minor of the same name.
  - Minors may be included from any undergraduate degree within the University for which recognised minors are specified.
  - Where the minor is from another undergraduate degree the regulations of that programme for the minor will apply.
  - No course may be credited to both a major and a minor, or to more than one minor.
- Minors available are: Chemistry, Computer Science, Data Science\*, Earth Science, Ecology and Conservation, Ecology and

Sustainability\*, Environmental Science, Exercise and Sport Science, Human Nutrition, Integrative Biology\*, International Agriculture\*, Marine Biology\*, Mathematics, Microbiology, Molecular and Cellular Biology\*, Molecular Cell Biology, Physics\*, Physiology, Plant Science, Psychology, Statistics, and Zoology.

\* No new enrolments.

- Notwithstanding Regulation 9, the following minors are available in accordance with Transitional Provisions outlined in Regulation 17: Animal Science, Biochemistry, Biological Sciences, Biostatistics, Equine, Genetics, Geography, Horticulture, Logistics and Supply Chain Management, Marine Ecology, Nanoscience, and Plant Biology.

##### Student Progression

- Candidates must pass at least 90 credits from Schedule A, including any compulsory courses, in their first 120 credits of study towards the Bachelor of Science, unless otherwise approved by Academic Board or their delegate.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification, and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Certificate in Science and Technology or Diploma in Science and Technology should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who commenced study towards the Bachelor of Science prior to 1 January 2020 may, subject to approval, substitute a course or courses already taken towards the qualification for a course or courses at the same level included in the Schedule of the degree.
- Candidates who have passed 90 credits or more towards the Bachelor of Science and who have passed at least 15 credits towards any majors and/or minors listed in Regulations 6 and 9 prior to 1 January 2020 will be permitted to complete the majors and/or minors already commenced by completing the requirements as specified in Schedule C of the relevant major or minor.
- Candidates who have passed at least 15 credits towards any majors and/or minors listed in Regulations 7 and 10 prior to 1 January 2020 will be permitted to complete the majors and/or minors by completing the requirements specified in Schedule C of the Bachelor of Science degree.
- Candidates completing majors under the provisions of regulations 16 and 17 will be permitted to complete a double-major, if they have passed at least 15 credits towards both majors prior to 1 January 2020, by including at least 195 credits above 100-level, of which at least 105 credits must be at 300-level, from the combined set of majoring requirements for the two majors.
- Candidates enrolled in another qualification who have passed at least 15 credits towards a minor listed in Regulation 9 prior to 1 January 2020 will be permitted to complete the requirements for the minor as specified in Schedule C for the minor.
- These transition arrangements expire 31 December 2023.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates enrolled in the Bachelor of Science prior to 1 January 2022 may substitute a relevant course or courses already completed towards the degree for a course or courses of the same level and credit value within the Schedule for the degree. Such candidates who are enrolled in the Ecology major or minor or Molecular Genetics and Biochemistry major or minor may graduate with the name of the major or minor under which they enrolled.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to

the degree, candidates enrolled in the Integrative Biology major or minor or Marine Biology major or minor prior to 1 January 2022 may transfer to either the Ecology and Conservation major or minor or the Zoology major or minor. Candidates enrolled in the Ecology and Sustainability major or minor may transfer to the Ecology and Conservation major or minor. Candidates enrolled in the Molecular and Cellular Biology major or minor may transfer to the Molecular Cell Biology major or minor. In all cases candidates may substitute a relevant course or courses already completed for a course or courses of the same level and credit value within the relevant schedule.

23. These transitions arrangements expire 31 December 2025.

## Schedule for the Bachelor of Science

### Schedule A: Core Courses (At least 90 credits from)

#### Compulsory courses (At least 45 credits from)

##### 15 credits from

247.111 Science and Sustainability for Agriculture and Horticulture R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247112, 247113, 247114	15 credits
247.112 Science and Sustainability for ICT R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247111, 247113, 247114	15 credits
247.113 Science and Sustainability for Science R 247177, 141111, 141112, 228111, 228112, 247155, 119155, 246102, 247111, 247112, 247114	15 credits

##### 15 credits from

161.111 Applied Statistics R 115101, 161101, 161120, 161122, 161130, 161140	15 credits
161.122 Statistics R 115101, 161101, 161111, 161120, 161130, 161140	15 credits

##### At least 15 credits from

124.103 Biophysical Principles R 160101, 160102, 160103, 160104, 160105, 160111, 160112, 160132, 160133, 124100, 124104, 124105, 124111	15 credits
160.101 Calculus R 160112, 160133, 228172	15 credits
160.102 Algebra R 160112, 160133, 228172	15 credits
160.104 Introductory Mathematics for Science R 124103, 160101, 160102, 160103, 160105, 160111, 160112, 160131, 160132, 160133, 228171, 228172	15 credits
160.105 Methods of Mathematics R 160101, 160102, 160103, 160111, 160112, 160131, 160132, 160133, 228171, 228172	15 credits

##### Remaining credits from

117.155 Introduction to Animal Science R 117152, 117153	15 credits
119.120 Plants for Agriculture and Horticulture R 283101, 284101	15 credits
120.101 Plant Biology	15 credits
122.102 Biochemistry P 123101 or 123104 or 123103 (A) R 122222, 227111, 227106	15 credits
123.103 Chemistry for Modern Sciences R 119153, 119158 123103 may not be taken after 123101, 123102, 123104, 123105, 123171 or 123172 have been passed	15 credits
123.104 Chemistry for Biological Systems R 123101, 123171	15 credits
123.105 Chemistry and the Physical World R 123102, 123172	15 credits
124.100 Introductory Physics R 119153, 124103 124100 may not be taken after any of 124101, 124102, 124111, 124171, 124172, 124104, 124105 has been passed	15 credits
124.104 Physics 1A: Mechanics and Thermodynamics R 124101, 124111, 124171	15 credits
124.105 Physics 1B: Electricity, Waves and Modern Physics R 124102, 124172	15 credits
151.131 Introduction to Food and Nutrition R 141101, 151232, 151344, 214131	15 credits
158.120 Web-based IT Fundamentals	15 credits
159.100 Programming for Engineering and Technology R 159101	15 credits

159.101 Applied Programming R 159100	15 credits
159.102 Computer Science and Programming P 159100 or 159101	15 credits
159.171 Computational Thinking and Programming 1	15 credits
159.172 Computational Thinking and Programming 2 P 159171 R 159102	15 credits
162.101 Cell Biology	15 credits
162.103 Introductory Biology R 162103 may not be taken after 162101 has been passed	15 credits
175.101 Psychology as a Social Science	15 credits
175.102 Psychology as a Natural Science	15 credits
175.102 Psychology as a Natural Science	15 credits
189.151 Principles of Soil Science P One of 119153, 119158, 123101, 123103 or 123104	15 credits
194.101 Introductory Physiology	15 credits
196.101 Ecology, Evolution and Behaviour	15 credits
199.103 Animals and the Environment R 199101	15 credits
214.101 Human Bioscience: Normal Body Function R 194101, 117155	15 credits
233.105 Our Dynamic Earth R 233101 and 145121	15 credits
234.121 Functional Anatomy R 214170	15 credits

### Schedule B: Specialisations

#### Majors

##### Chemistry (120 credits)

###### 200-level courses (60 credits from)

123.201 Chemical Energetics P One of (123102, 123105, 124104 or 123172) and one of (160101, 160102, 160105, 160132 or 160133)	15 credits
123.206 Environmental and Analytical Chemistry P One of 123101, 123102, 123104, 123105, 123171 or 123172 R 123204 and 123208	15 credits
123.207 Molecular Chemistry P One of (123101 or 123104 or 123171) AND one of (123102 or 123105 or 123172) R 123202, 123203	15 credits
123.208 Chemical Analysis P One of 123101 or 123102 or 123104 or 123105 or 123171 or 123172 R 123204, 123206	15 credits
123.210 Organic Chemistry Perspectives P One of 123101, 123104 or 123171 R 123202	15 credits
123.271 Molecules to Materials P (123101, 123104 or 123171) and (123102, 123105 or 123172)	15 credits

###### 300-level courses (60 credits from)

123.305 Contemporary Topics in Chemistry P One of (123101, 123102, 123104, 123105, 123171, 123172) and one of (247111, 247112, 247113, 247114)	15 credits
123.307 Advanced Inorganic Chemistry P 123207 and 123208 R 123313	15 credits
123.308 Advanced Organic Chemistry P (123207 and 123208) or (123206 and 123210) R 123312	15 credits
123.310 Advanced Concepts in Organic Chemistry P 123202 or 123210 R 123312	15 credits
123.331 Advanced Physical and Computational Chemistry P 123201	15 credits
123.332 Advanced Topics in Chemistry P Any two of 123201, 123202, 123203, 123204, 123206, 123210, or 123271	30 credits
141.395 Food Chemistry P 123271 and 123201 R 151231	15 credits

### Schedule C: Chemistry Major available under Transitional Provisions (165 credits from)

#### Compulsory courses (30 credits from)

123.101 Chemistry and Living Systems R 123171	15 credits
123.102 Chemistry and the Material World R 123172	15 credits

#### Compulsory course selections (135 credits from)

##### 15 credits from

160.101 Calculus R 160112, 160133, 228172	15 credits
--	------------

160.103 Introductory University Mathematics ..... 15 credits  
 R A student who has passed 160131, 160132, 160133, 160101, 160111, 160112, 228171 or 228172 may not be also credited with a pass in 160103 that is obtained in either the same or a subsequent examination period

160.111 Mathematics 1A ..... 15 credits  
 P 160103 or 160131 or 160132 R 160101, 160102, 228171

160.132 Concepts in Mathematics ..... 15 credits  
 R 160101, 160102, 160103, 160111, 160112, 160131, 228171, 228172  
 160132 may not be taken after 160133 has been passed

160.133 Processes in Mathematics ..... 15 credits  
 P 160132, or 160111, or 228171, or 160101, or 160102, or 160103, or A- or better in 160131 R 160112, 228172, both of 160101, 160102 And, 160133 may not be taken at the same time as any of 160101, 160102 or 160111

**60 credits from**

123.201 Chemical Energetics ..... 15 credits  
 P One of (123102, 123105, 124104 or 123172) and one of (160101, 160102, 160105, 160132 or 160133)

123.202 Organic and Biological Chemistry ..... 15 credits  
 P 123101 or 123171

123.203 Inorganic Chemistry and Modelling ..... 15 credits  
 P 123102 or 123172

123.204 Chemical and Biochemical Analysis ..... 15 credits  
 P 123101 or 123102 or 123171 or 123172

123.206 Environmental and Analytical Chemistry ..... 15 credits  
 P One of 123101, 123102, 123104, 123105, 123171 or 123172 R 123204 and 123208

123.210 Organic Chemistry Perspectives ..... 15 credits  
 P One of 123101, 123104 or 123171 R 123202

123.271 Molecules to Materials ..... 15 credits  
 P (123101, 123104 or 123171) and (123102, 123105 or 123172)

**60 credits from**

123.305 Contemporary Topics in Chemistry ..... 15 credits  
 P One of (123101, 123102, 123104, 123105, 123171, 123172) and one of (247111, 247112, 247113, 247114)

123.307 Advanced Inorganic Chemistry ..... 15 credits  
 P 123207 and 123208 R 123313

123.308 Advanced Organic Chemistry ..... 15 credits  
 P (123207 and 123208) or (123206 and 123210) R 123312

123.310 Advanced Concepts in Organic Chemistry ..... 15 credits  
 P 123202 or 123210 R 123312

123.311 Advanced Physical and Analytical Chemistry ..... 15 credits  
 P 123201, 123204

123.312 Advanced Organic Chemistry ..... 15 credits  
 P 123202, 123204

123.313 Advanced Inorganic Chemistry ..... 15 credits  
 P 123203, 123204

123.315 Chemistry and Nanoscience Research Project ..... 15 credits  
 P (236201, 124230, 124226) or (123201, 123202, 123203, 123204) R 236302

123.331 Advanced Physical and Computational Chemistry ..... 15 credits  
 P 123201

123.332 Advanced Topics in Chemistry ..... 30 credits  
 P Any two of 123201, 123202, 123203, 123204, 123206, 123210, or 123271

141.395 Food Chemistry ..... 15 credits  
 P 123271 and 123201 R 151231

**Computer Science (120 credits)**

**200-level courses (60 credits from)**

159.201 Algorithms and Data Structures ..... 15 credits  
 P 159102 R 159271

159.234 Object-Oriented Programming ..... 15 credits  
 P 159102

159.236 Embedded Programming ..... 15 credits  
 P 159102 R 159233, 159270

159.251 Software Engineering Design and Construction ..... 15 credits  
 P 159234

159.272 Programming Language Paradigms ..... 15 credits  
 P 159102 R 159202

**300-level courses (60 credits from)**

159.302 Artificial Intelligence ..... 15 credits  
 P 159201 or 159234 R 159372

159.336 Mobile Application Development ..... 15 credits  
 P 159234 or 159235

159.341 Programming Languages, Algorithms and Concurrency ..... 15 credits  
 P 159201 or 159202 R 159331

159.342 Operating Systems and Networks ..... 15 credits  
 P 159201 or 159234 R 159334, 159335, 159354, 159355

159.352 Advanced Web Development ..... 15 credits  
 P (159100 or 159101 or 159171) and (158256 or 158258) R 159339

159.355 Concurrent Systems ..... 15 credits  
 P 159272 R 159335, 159341, 159342

159.360 Programming for Computer Graphics ..... 15 credits  
 P (159270, 159271 or 159272) and (160101, 160102, 160103 or 160105) R 159235

159.372 Intelligent Machines ..... 15 credits  
 P 159271 or 159272 R 159302

**Schedule C: Computer Science Major available under Transitional**

**Provisions (150 credits from)**

**Compulsory courses (30 credits from)**

**Option A (At least 30 credits from)**

159.101 Applied Programming ..... 15 credits  
 R 159100

159.102 Computer Science and Programming ..... 15 credits  
 P 159100 or 159101

159.103 Introduction to Games Programming and Simulation ..... 15 credits  
 P 159101

**Option B**

159.171 Computational Thinking and Programming 1 ..... 15 credits

159.172 Computational Thinking and Programming 2 ..... 15 credits  
 P 159171 R 159102

**200-level courses (60 credits from)**

159.201 Algorithms and Data Structures ..... 15 credits  
 P 159102 R 159271

159.202 Declarative Programming ..... 15 credits  
 P 159102 R 159272

159.233 Computer Architecture ..... 15 credits  
 P 159101, 159102 R 159253

159.234 Object-Oriented Programming ..... 15 credits  
 P 159102

159.235 Programming for Computer Graphics ..... 15 credits  
 P 159102 R 159360

159.251 Software Engineering Design and Construction ..... 15 credits  
 P 159234

159.253 Computer Systems ..... 15 credits  
 P 1591x1, 1591x2 R 159233

159.270 Hardware-Oriented Computing ..... 15 credits  
 P 159100 or 159101 or 159172 R 159236

159.271 Computational Thinking for Problem Solving ..... 15 credits  
 P 159102 or 159172 R 159201

159.272 Programming Language Paradigms ..... 15 credits  
 P 159102 R 159202

**300-level courses (60 credits from)**

159.302 Artificial Intelligence ..... 15 credits  
 P 159201 or 159234 R 159372

159.331 Algorithms and Languages ..... 15 credits  
 P 159201, 159202

159.333 Computer Science Project ..... 15 credits  
 P Two (2) of 158222, 1592xx

159.334 Computer Networks ..... 15 credits  
 P 159201 or 159234 R 159354

159.335 Concurrent Programming and Operating Systems ..... 15 credits  
 P 159201 R 159355

159.336 Mobile Application Development ..... 15 credits  
 P 159234 or 159235

159.339 Internet Programming ..... 15 credits  
 P 159201 or 159234 R 159352

159.352 Advanced Web Development ..... 15 credits  
 P (159100 or 159101 or 159171) and (158256 or 158258) R 159339

159.354 Data Communication Networks ..... 15 credits  
 P 159270 or 159271 R 159334, 281375

159.355 Concurrent Systems ..... 15 credits  
 P 159272 R 159335, 159341, 159342

159.356 Software Engineering Capstone Project ..... 15 credits  
 P 159251 and 159352

159.360 Programming for Computer Graphics ..... 15 credits  
 P (159270, 159271 or 159272) and (160101, 160102, 160103 or 160105) R 159235

159.372 Intelligent Machines ..... 15 credits  
 P 159271 or 159272 R 159302

**Data Science (120 credits)****No new enrolments****Compulsory courses**

158.222 Data Wrangling and Machine Learning	15 credits
P (159101 or 159100) and one of (1611xx, 160101, 160102)	
158.333 Applied Machine Learning and Big Data Processing	15 credits
P 158222	
158.337 Database Development	15 credits
P One of 1582xx or 1592xx R 158247	
159.201 Algorithms and Data Structures	15 credits
P 159102 R 159271	
159.302 Artificial Intelligence	15 credits
P 159201 or 159234 R 159372	
161.250 Data Analysis	15 credits
P 1611xx R 161220	
161.251 Regression Modelling	15 credits
P 1611xx R 161221	
161.324 Data Mining	15 credits
P One of 161122, 161220, 161221, 161250 or 161251 R 161223 and 161777	

**Schedule C: Data Science Major available under Transitional Provisions (195 credits from)****Compulsory courses (150 credits from)**

158.222 Data Wrangling and Machine Learning	15 credits
P (159101 or 159100) and one of (1611xx, 160101, 160102)	
158.333 Applied Machine Learning and Big Data Processing	15 credits
P 158222	
158.337 Database Development	15 credits
P One of 1582xx or 1592xx R 158247	
159.101 Applied Programming	15 credits
R 159100	
159.102 Computer Science and Programming	15 credits

 P 121103

**An approved 200-level course from the 120, 121, 123, 145, 162, 196, 199, 233, 283, 284 or 285 prefixes (15 credits from)**

**An approved 300-level course from the 120, 121, 123, 138, 145, 162, 196, 199, 233, 283, 284 or 285 prefixes (15 credits from)**

**Exercise and Sport Science (120 credits)**

**200-level courses (60 credits from)**

122.202 The Dynamic Cell ..... 15 credits  
 P 122102 R 122233

122.233 Metabolic Biochemistry ..... 15 credits  
 P 122102

234.222 Sport Biomechanics ..... 15 credits  
 P 214170 or 234121 R 234201

234.223 Exercise Physiology ..... 15 credits  
 P 234121 or 214101 or 194101 R 234203

234.242 Motor Learning and Control ..... 15 credits  
 R 274254, 234224

**300-level courses (60 credits from)**

151.332 Nutrition for Sport and Performance ..... 15 credits  
 P 151232 or 234223

194.348 Adaptive Human Physiology ..... 15 credits  
 P One of 122202, 122233, 194241, 194242 or 234223 R 194347, 234304, 234328

234.324 Applied Sports Science ..... 15 credits  
 P 234222 and 234223

234.360 Sport Psychology ..... 15 credits  
 R 152318

**Schedule C: Exercise and Sport Science Major available under Transitional Provisions (165 credits from)**

**Compulsory courses (105 credits from)**

194.101 Introductory Physiology ..... 15 credits

194.241 Physiological Control Systems	15 credits
P 194101 or 214101 or 117155 or 199103	
234.121 Functional Anatomy	15 credits
R 214170	
234.222 Sport Biomechanics	15 credits
P 214170 or 234121 R 234201	
234.223 Exercise Physiology	15 credits
P 234121 or 214101 or 194101 R 234203	
234.323 Exercise Physiology II	15 credits
P 234203 or 234223 R 234303	
234.327 Investigating Sports Performance	15 credits
P Any 30 credits at 200-level from the 2342xx range of courses C Any 30 credits at 300-level from the 2343xx range of courses R 234338 (or 152376), 234316, 234302	

**Compulsory course selections****15 credits from**

161.101 Statistics	15 credits
R 115101, 161100, 161111, 161120, 161122, 161130, 161140	
161.120 Introductory Statistics	15 credits
R 115101, 161100, 161101, 161130, 161140	
161.130 Introductory Biostatistics	15 credits
R 161100, 161101, 161120, 161140, 115101	

**15 credits from**

151.232 Nutrition and Metabolism	15 credits
P 122102 and (123101 or 123104) R 151344	
194.242 Physiology of Mammalian Organ Systems	15 credits
P 194101 or 214101 or 117155 or 117153 or 199103	

**15 credits from**

234.322 Sport Biomechanics II	15 credits
P 234201 or 234222 R 194351, 234301	
234.361 Exercise Psychology	15 credits

**15 credits from**

128.300 Ergonomics/Human Factors: Work, Performance, Health and Design	15 credits
151.332 Nutrition for Sport and Performance	15 credits
P 151232 or 234223	
194.350 Human Lifecycle Physiology	15 credits
P 194241 or 194242	

**Human Nutrition (120 credits)****200-level courses (60 credits from)**

122.202 The Dynamic Cell	15 credits
P 122102 R 122233	
122.233 Metabolic Biochemistry	15 credits
P 122102	
151.231 Food Chemistry for Nutrition	15 credits
P 123101 or 123104	
151.232 Nutrition and Metabolism	15 credits
P 122102 and (123101 or 123104) R 151344	
194.241 Physiological Control Systems	15 credits
P 194101 or 214101 or 117155 or 199103	

**300-level courses (60 credits from)**

151.331 Maternal and Child Nutrition	15 credits
P 151232 R 151345	
151.332 Nutrition for Sport and Performance	15 credits
P 151232 or 234223	
151.333 Adult Nutrition and Positive Ageing	15 credits
P 151232	
151.334 Nutrition Communication and Promotion	15 credits
P 151232	

**Schedule C: Human Nutrition Major available under Transitional Provisions (180 credits from)****Compulsory courses (165 credits from)**

P 194101 or 214101 or 117155 or 199103	
194.242 Physiology of Mammalian Organ Systems	15 credits
P 194101 or 214101 or 117155 or 117153 or 199103	

**Integrative Biology (120 credits)****No new enrolments****Compulsory courses (120 credits from)**

162.215 Microbial Diversity	15 credits
P 162101 and (123103 or 123104) R 162211, 162212, 196213	
162.320 Advanced Integrative Biology	15 credits
P 196217 and (199103 or 199101)	
196.217 Evolutionary Biology	15 credits
P 162101 and (123103 or 123104) R 196207	
196.318 Molecular Ecology	15 credits
P One of 196207, 196217, 203210 or 203212 R 199317	
203.212 Principles of Genetics	15 credits
P 162101 R 203202	
203.343 Genetics of Human Health and Ancestry	15 credits
P One of 122231, 203202 or 203212	
246.202 Bacteriophage Discovery	15 credits
P One of 162101, 199101, 199103 or 120101	
246.303 Systems and Models in the Natural Sciences	15 credits
P 1601xx or 124103 R 246201	

**International Agriculture (120 credits)****No new enrolments****Compulsory courses (60 credits from)**

119.202 International Agricultural Production Systems	15 credits
119.203 Agriculture and the Environment	15 credits
P 123103 or 123104	
119.302 Problem Solving in International Agriculture	15 credits
P 119202, 119203	
119.303 Professional Experience in Agriculture	15 credits
P 119202, 119203	

**Compulsory course selection****30 credits from**

117.201 Livestock Production Science	15 credits
P One of 117152, 117153, 117155, 194101, 199101, or 199103	
189.251 Soil Fertility and Fertilisers	15 credits
P 189151 or 189142	
283.201 Pasture and Crop Agronomy	15 credits
P 283101 or 120101 or 119120 R 171202	
284.201 Horticultural Production Systems	15 credits
P 119120 or 284101	
<b>30 credits from</b>	
117.371 Animal Production	15 credits
P One of 117201, 117202 or 117254	
283.301 Pasture Production and Practice	15 credits
P 283201	
283.305 Arable Production	15 credits
P One of 171202, 283201, 120101, 171102, 283101 or 119120	
284.301 Horticultural Crop Development & Yield	15 credits
P 284201 R 171327, 171328	

**Marine Biology (120 credits)****No new enrolments****Compulsory courses (120 credits from)**

161.250 Data Analysis	15 credits
P 1611xx R 161220	
196.217 Evolutionary Biology	15 credits
P 162101 and (123103 or 123104) R 196207	
196.225 Introductory Marine Biology	15 credits
P 196101 and (199101 or 199103)	
196.226 Field Marine Ecology	15 credits
P 196225	

196.318 Molecular Ecology ..... 15 credits P One of 196207, 196217, 203210 or 203212 R 199317	15 credits
196.327 Marine Mammalogy ..... 15 credits P (199101 or 199103) and (196225 or 199212)	15 credits
196.328 Marine Environments in the Anthropocene ..... 15 credits P 196225 and 196101 R 196326	15 credits
196.329 Marine Ecology ..... 15 credits P 196225 R 196350	15 credits

**Mathematics (120 credits)**

**200-level courses (60 credits from)**

160.203 Multivariable Calculus ..... 15 credits P One of 160101, 160112, 160133 or 228172	15 credits
160.204 Differential Equations I ..... 15 credits P 160101 or 160112 or 160133 or 228172	15 credits
160.211 Linear Algebra ..... 15 credits P 160102, 160112, 160133 or 228172	15 credits
160.212 Discrete Mathematics ..... 15 credits P One of (160101, 160102, 160103, 160105, 160111, 160112, 160132, 160133, 228171 or 228172) and one of (159101, 159171 or 230112)	15 credits

**300-level courses (60 credits from)**

160.301 Real and Complex Analysis ..... 15 credits P 160203	15 credits
160.302 Modern Algebra ..... 15 credits P 160211 or 160212	15 credits
160.303 Mathematical Physics ..... 15 credits P 160203 R 124332	15 credits
160.318 Differential Equations II ..... 15 credits P 160203 and 160204	15 credits
160.319 Mathematical Modelling ..... 15 credits P 160204 and one of (160203, 160211 or 160212) and one of (159101 or 159171)	15 credits
161.303 Probability and Random Processes ..... 15 credits P (160101 or 160102 or 160105) and (161122 or 161220)	15 credits

**Schedule C: Mathematics Major available under Transitional Provisions (150 credits from)**

**30 credits from**

**Option A**

160.101 Calculus ..... 15 credits R 160112, 160133, 228172	15 credits
160.102 Algebra ..... 15 credits R 160112, 160133, 228172	15 credits

**Option B**

160.111 Mathematics 1A ..... 15 credits P 160103 or 160131 or 160132 R 160101, 160102, 228171	15 credits
160.112 Mathematics 1B ..... 15 credits P 160111 or 228171 or any one of 160101, 160102 R 228172, 160133	15 credits

**Option C**

160.132 Concepts in Mathematics ..... 15 credits R 160101, 160102, 160103, 160111, 160112, 160131, 228171, 228172 160132 may not be taken after 160133 has been passed	15 credits
160.133 Processes in Mathematics ..... 15 credits P 160132, or 160111, or 228171, or 160101, or 160102, or 160103, or A- or better in 160131 R 160112, 228172, both of 160101, 160102 And, 160133 may not be taken at the same time as any of 160101, 160102 or 160111	15 credits

**60 credits from**

160.203 Multivariable Calculus ..... 15 credits P One of 160101, 160112, 160133 or 228172	15 credits
160.204 Differential Equations I ..... 15 credits P 160101 or 160112 or 160133 or 228172	15 credits
160.211 Linear Algebra ..... 15 credits P 160102, 160112, 160133 or 228172	15 credits
160.212 Discrete Mathematics ..... 15 credits P One of (160101, 160102, 160103, 160105, 160111, 160112, 160132, 160133, 228171 or 228172) and one of (159101, 159171 or 230112)	15 credits
161.200 Statistical Models ..... 15 credits P 1601xx or 228171 and one of 115101, 161100 - 161130 R 161231	15 credits

**60 credits from**

124.332 Classical Fields ..... 15 credits P 160203 R 124328, 160317	15 credits
160.301 Real and Complex Analysis ..... 15 credits P 160203	15 credits
160.302 Modern Algebra ..... 15 credits P 160211 or 160212	15 credits
160.314 Combinatorics ..... 15 credits P 160212	15 credits

160.318 Differential Equations II ..... 15 credits P 160203 and 160204	15 credits
160.319 Mathematical Modelling ..... 15 credits P 160204 and one of (160203, 160211 or 160212) and one of (159101 or 159171)	15 credits
160.320 Mathematics in Education ..... 15 credits P 1602xx	15 credits
160.380 Project ..... 15 credits	15 credits

**Microbiology (120 credits)**

**Compulsory courses**

162.211 Biology and Genetics of Microorganisms ..... 15 credits P 162101 or 123104	15 credits
162.221 Immunology ..... 15 credits P 162101 R 162303, 162389	15 credits
162.301 Medical Microbiology ..... 15 credits P 162211 and (162221 or 162283) R 162384	15 credits
162.304 Applied and Environmental Microbiology ..... 15 credits P One of 162211, 162212, 162214, 196213, 203210, 203300, 203310, 203340 or 280201	15 credits
203.210 Genetics and Evolution ..... 15 credits P 162101 R 203202 and 203212	15 credits
203.310 DNA Technology ..... 15 credits P One of 122231, 162211, 203240 or 203211 R 203300, 203340	15 credits
203.311 Genome Science ..... 15 credits P 162101 R 203328 and 203341	15 credits
280.201 Industrial Microbiology ..... 15 credits P (123101 or 123104 or 123171) and (123102 or 123105 or 123172 or 122102) R 162212, 162214	15 credits

**Schedule C: Microbiology Major available under Transitional Provisions (165 credits from)**

**Compulsory courses (120 credits from)**

122.102 Biochemistry ..... 15 credits P 123101 or 123104 or 123103 (A) R 122222, 227111, 227106	15 credits
122.231 Genes and Gene Expression ..... 15 credits P 162101 and (123101 or 123103 or 123104) R 203211 and 203240	15 credits
123.101 Chemistry and Living Systems ..... 15 credits R 123171	15 credits
162.101 Cell Biology ..... 15 credits	15 credits
162.211 Biology and Genetics of Microorganisms ..... 15 credits P 162101 or 123104	15 credits

P One of 122231, 203202 or 203212	

**Physics (120 credits)****No new enrolments****Compulsory courses**

123.201 Chemical Energetics .....	15 credits
P One of (123102, 123105, 124104 or 123172) and one of (160101, 160102, 160105, 160132 or 160133)	
123.306 Molecular Structure and Dynamics .....	15 credits
P 123201 or 123271	
124.204 Classical Physics .....	15 credits
P 124104 and 124105 and 160101 R 124233	
124.205 Modern Physics .....	15 credits
P 124104 and 124105 and 160101 C 124104 and 124105 R 124229, 124226	
124.304 Statistical Physics and its Applications .....	15 credits
P 124204, 124205, 160102, 160203 and 161122 R 124327	
124.305 Quantum Mechanics and its Applications .....	15 credits
P 124204, 124205, 160102 and 160203 R 124325	
160.203 Multivariable Calculus .....	15 credits
P One of 160101, 160112, 160133 or 228172	
160.303 Mathematical Physics .....	15 credits
P 160203 R 124332	

**Schedule C: Physics Major available under Transitional Provisions (195 credits from)****Compulsory courses (165 credits from)**

124.102 Physics I(b) .....	15 credits
R 124172	
124.111 Physics for Life Sciences .....	15 credits
R 124101, 124171	
124.226 Quantum and Statistical Physics .....	15 credits
P 124101 or 124111 or 124171, 124102 or 124172, 160112 or 160133 or 160101 or 228172	
124.229 Special Relativity and Cosmology .....	15 credits
P 124101 or 124111 (or 124171) R 124227	
124.230 Biophysics .....	15 credits
P 124101 or 124111 (or 124171); 124102 (or 124172) or 123101 (or 123171) or 123102 (or 123172)	
124.233 Classical Mechanics and Waves .....	15 credits
P 124101 or 124111 or 124171, 124102 or 124172, 160112 or 160133 or 160101 or 228172	
124.316 Advanced Experimental Physics .....	15 credits
P Two of 124226, 124229, 124230, 124233	

124.325 Advanced Quantum Physics .....	15 credits
P 124226, 124233, 160203	
124.327 Modern Statistical Physics and Thermodynamics .....	15 credits
P 124226, 160203	
124.332 Classical Fields .....	15 credits
P 160203 R 124328, 160317	
160.203 Multivariable Calculus .....	15 credits
P One of 160101, 160112, 160133 or 228172	

**30 credits from****Option A**

160.101 Calculus .....	15 credits
R 160112, 160133, 228172	
160.102 Algebra .....	15 credits
R 160112, 160133, 228172	

**Option B**

160.111 Mathematics 1A .....	15 credits
P 160103 or 160131 or 160132 R 160101, 160102, 228171	
160.112 Mathematics 1B .....	15 credits
P 160111 or 228171 or any one of 160101, 160102 R 228172, 160133	

**Option C**

160.132 Concepts in Mathematics .....	15 credits
R 160101, 160102, 160103, 160111, 160112, 160131, 228171, 228172 160132 may not be taken after 160133 has been passed	
160.133 Processes in Mathematics .....	15 credits
P 160132, or 160111, or 228171, or 160101, or 160102, or 160103, or A- or better in 160131 R 160112, 228172, both of 160101, 160102 And, 160133 may not be taken at the same time as any of 160101, 160102 or 160111	

**Physiology (120 credits)****200-level courses (60 credits from)****Compulsory courses (45 credits from)**

122.202 The Dynamic Cell .....	15 credits
P 122102 R 122233	
194.241 Physiological Control Systems .....	15 credits
P 194101 or 214101 or 117155 or 199103	
194.242 Physiology of Mammalian Organ Systems .....	15 credits
P 194101 or 214101 or 117155 or 117153 or 199103	

**Compulsory course selection (15 credits from)**

194.243 Physiological Strategies for Survival .....	15 credits
P One of 117155, 194101, 199101 or 199103 R 194245	
214.201 Human Bioscience: Impaired Body Function .....	15 credits
P (214101 and 214102) OR (162101; and 194101 or 117155 or 214101)	

**300-level courses (60 credits from)****Compulsory courses (30 credits from)**

194.342 Cell Physiology .....	15 credits
P Two of 194241, 194242, 122202 or 122233	
194.346 Metabolic Physiology .....	15 credits
P Two of 194241, 194242, 122202 or 122233	

**Compulsory course selection (30 credits from)**

117.332 Animal Welfare Science .....	15 credits
P Two of 194241, 194242, 194243 or 199203 R 194343	
194.348 Adaptive Human Physiology .....	15 credits
P One of 122202, 122233, 194241, 194242 or 234223 R 194347, 234304, 234328	
194.350 Human Lifecycle Physiology .....	15 credits
P 194241 or 194242	
199.313 Environmental Physiology .....	15 credits
P 194241 or 194242 or 199212 R 194345	

**Schedule C: Physiology Major available under Transitional Provisions (135 credits from)****Compulsory courses (45 credits from)**

194.101 Introductory Physiology .....	15 credits
194.241 Physiological Control Systems .....	15 credits
P 194101 or 214101 or 117155 or 199103	
194.242 Physiology of Mammalian Organ Systems .....	15 credits
P 194101 or 214101 or 117155 or 117153 or 199103	

**Compulsory course selection (90 credits from)****At least 15 credits from**

122.233 Metabolic Biochemistry .....	15 credits
P 122102	
151.232 Nutrition and Metabolism .....	15 credits
P 122102 and (123101 or 123104) R 151344	
194.243 Physiological Strategies for Survival .....	15 credits
P One of 117155, 194101, 199101 or 199103 R 194245	
194.245 Animal Form and Function .....	15 credits
P 199101 or 194101 R 194243	

**At least 60 credits from**

**Selection A (At least 30 credits from)**

194.344 Nerves and the Nervous System	15 credits
P 194241 and one of 194242, 194243	
194.346 Metabolic Physiology	15 credits
P Two of 194241, 194242, 122202 or 122233	
194.350 Human Lifecycle Physiology	15 credits
P 194241 or 194242	

**Selection B**

151.333 Adult Nutrition and Positive Ageing	15 credits
P 151232	
194.342 Cell Physiology	15 credits
P Two of 194241, 194242, 122202 or 122233	
194.343 Animal Welfare Science	15 credits
P Two of 194241, 194242, 194243 or 199203	
194.345 Comparative Physiology	15 credits
P One of 194241, 194242, 194243 or 199212	
194.348 Adaptive Human Physiology	15 credits
P One of 122202, 122233, 194241, 194242 or 234223 R 194347, 234304, 234328	

**Plant Science (120 credits)**

**Compulsory courses**

120.217 Plant, Cell and Environment	15 credits
P 120101	
120.219 Plants and People	15 credits
120.303 Plant Diversity	15 credits
P One of (120201, 120218, 120219, 196205, 196207 or 203210)	
120.306 Plant Improvement	15 credits
P 203210 or 284201 R 120304	
196.205 Ecology and Conservation	15 credits
P 1611xx and one of (196101 or 199101 or 199103 or 120101 or 121103)	
196.319 Terrestrial Ecology	15 credits
P One of (196205, 196207, 196217, 203210, 285201)	
203.210 Genetics and Evolution	15 credits
P 162101 R 203202 and 203212	
284.342 Horticultural Productivity and Quality	15 credits
P 120217 or 284201	

**Schedule C: Plant Science Major available under Transitional Provisions (180 credits from)**

**Compulsory courses (90 credits from)**

120.101 Plant Biology	15 credits
120.217 Plant, Cell and Environment	15 credits
P 120101	
120.218 The Flora of New Zealand	15 credits
P 120101	
120.302 Plant Development	15 credits
P 120101 and any two courses from 1202xx, 1222xx, 1622xx and 2032xx	
162.101 Cell Biology	15 credits
284.101 Production Horticulture	15 credits
R 171127, 171128	

**Compulsory course selections**

**15 credits from:**

123.101 Chemistry and Living Systems	15 credits
R 123171	
123.103 Chemistry for Modern Sciences	15 credits
R 119153, 119158 123103 may not be taken after 123101, 123102, 123104, 123105, 123171 or 123172 have been passed	

**30 credits from:**

**Selection A (No more than 15 credits from)**

196.207 Biological Evolution	15 credits
P 162101 and (123101 or 123103 or 123104) and (199101 or 199103) R 196217	
196.217 Evolutionary Biology	15 credits
P 162101 and (123103 or 123104) R 196207	

**Selection B**

120.219 Plants and People	15 credits
122.231 Genes and Gene Expression	15 credits
P 162101 and (123101 or 123103 or 123104) R 203211 and 203240	
284.201 Horticultural Production Systems	15 credits
P 119120 or 284101	

**45 credits from:**

120.303 Plant Diversity	15 credits
P One of (120201, 120218, 120219, 196205, 196207 or 203210)	
120.304 Plant Biotechnology	15 credits
P 120101, and either 203202 or 122231	

196.316 New Zealand Plant Ecology	15 credits
P 120218 and 196205	
203.328 Genome Analysis	15 credits
P 203300 R 122328	
247.300 Research in Biosciences	15 credits
284.301 Horticultural Crop Development & Yield	15 credits
P 284201 R 171327, 171328	
284.342 Horticultural Productivity and Quality	15 credits
P 120217 or 284201	

**Psychology (120 credits)**

**200-level courses (60 credits from)**

**Compulsory course**

175.203 Introduction to Psychological Research	15 credits
P 175102	

**Compulsory course selection (45 credits from)**

### Statistics (120 credits)

#### 200-level courses (60 credits from)

##### Compulsory courses (30 credits from)

161.250 Data Analysis ..... 15 credits	
P 1611xx R 161220	
161.251 Regression Modelling ..... 15 credits	
P 1611xx R 161221	

##### Compulsory course selection (30 credits from)

160.211 Linear Algebra ..... 15 credits	
P 160102, 160112, 160133 or 228172	
161.222 Design and Analysis of Experiments ..... 15 credits	
P 1611xx R 161322	
233.214 GIS and Spatial Statistics ..... 15 credits	
P 161111 or 161122 R 233251, 233301	

#### 300-level courses (60 credits from)

161.304 Statistical Modelling ..... 15 credits	
P (160101 or 160102 or 160105) and (161122 or 161250 or 161251 or 161220 or 161221)	
161.323 Multivariate Analysis ..... 15 credits	
P One of 161222, 161220, 161221, 161250, 161251, 233214 R 161762	
161.324 Data Mining ..... 15 credits	
P One of 161122, 161220, 161221, 161250 or 161251 R 161223 and 161777	
161.331 Biostatistics ..... 15 credits	
P 161250 or 161251 or 161220 or 161221 R 161327, 161778	

#### Schedule C: Statistics Major available under Transitional Provisions (150 credits from)

##### Compulsory course

161.200 Statistical Models ..... 15 credits	
P 1601xx or 228171 and one of 115101, 161100 - 161130 R 161231	

##### Compulsory course selections

#### 15 credits from courses at 100 level with the prefix 160

##### 15 credits from

161.101 Statistics for Business ..... 15 credits	
R 115101, 161100, 161111, 161120, 161122, 161130, 161140	
161.120 Introductory Statistics ..... 15 credits	
R 115101, 161100, 161101, 161130, 161140	
161.130 Introductory Biostatistics ..... 15 credits	
R 161100, 161101, 161120, 161140, 115101	

##### 15 credits from

161.220 Data Analysis ..... 15 credits	
P 161101, 161111, 161120, 161122 or 161130 R 161250	
161.250 Data Analysis ..... 15 credits	
P 1611xx R 161220	

#### 90 credits from

##### Selection A (No more than 15 credits from)

160.203 Multivariable Calculus ..... 15 credits	
P One of 160101, 160112, 160133 or 228172	
160.211 Linear Algebra ..... 15 credits	
P 160102, 160112, 160133 or 228172	

##### Selection B

161.221 Applied Linear Models ..... 15 credits	
P (One of (161122 or 161220 or 233214) and one of (160101 or 160102 or 160105)) or one of 161101, 161120 or 161130 R 161251	
161.223 Introduction to Data Mining ..... 15 credits	
P One of 115101, 161100-161130 R 161324, 161326, 161777	

##### Selection C (At least 60 credits from)

161.304 Statistical Modelling ..... 15 credits	
P (160101 or 160102 or 160105) and (161122 or 161250 or 161251 or 161220 or 161221)	
161.321 Sampling and Experimental Design ..... 15 credits	
P One of 1612xx R 161322	
161.322 Design and Analysis of Surveys and Experiments ..... 15 credits	
P One of 1612xx R 161775, 161321 and 161331	

161.323 Multivariate Analysis ..... 15 credits	
P One of 161222, 161220, 161221, 161250, 161251, 233214 R 161762	
161.324 Data Mining ..... 15 credits	
P One of 161122, 161220, 161221, 161250 or 161251 R 161223 and 161777	
161.325 Statistical Methods for Quality Improvement ..... 15 credits	
P One of 161200, 161220, 161230, 161240	
161.327 Generalised Linear Models ..... 15 credits	
P 161221 and one of 1601xx R 161726	
161.331 Biostatistics ..... 15 credits	
P 161250 or 161251 or 161220 or 161221 R 161327, 161778	
161.342 Forecasting and Time Series ..... 15 credits	
P 161220 or 161221 or 161250	

### Zoology (120 credits)

#### 200-level courses (60 credits from)

##### Compulsory courses (45 credits from)

196.217 Evolutionary Biology ..... 15 credits	
P 162101 and (123103 or 123104) R 196207	
199.211 Invertebrate Zoology ..... 15 credits	
P One of 196101, 199101 or 199103 R 199214	
199.212 Vertebrate Zoology ..... 15 credits	
P 196101 and (199101 or 199103)	

##### 15 credits from

196.225 Introductory Marine Biology ..... 15 credits	
P 196101 and (199101 or 199103)	
199.203 Evolutionary Principles of Animal Behaviour ..... 15 credits	
P One of (199103, 199101 or 196101) R 199204, 117255	

#### 300-level courses (60 credits from)

##### Compulsory courses (45 credits from)

199.312 Behavioural Ecology ..... 15 credits	
P (199203 or 199204 or 161250) and (196207 or 196217 or any other 1962xx or 1992xx course) R 196307	
199.313 Environmental Physiology ..... 15 credits	
P 194241 or 194242 or 199212 R 194345	
199.330 Ornithology ..... 15 credits	
P One of 196201, 199206, 199212 or 194245	

##### 15 credits from

196.327 Marine Mammalogy ..... 15 credits	
P (199101 or 199103) and (196225 or 199212)	
199.310 Entomology ..... 15 credits	
P 196201 or 196205 or 199206 or 199211 or 283201 or 285201	

#### Schedule C: Zoology Major available under Transitional Provisions (165 credits from)

##### Compulsory courses (60 credits from)

162.101 Cell Biology ..... 15 credits	
199.101 Biology of Animals ..... 15 credits	
199.211 Invertebrate Zoology ..... 15 credits	
P One of 196101, 199101 or 199103 R 199214	
199.212 Vertebrate Zoology ..... 15 credits	
P 196101 and (199101 or 199103)	

##### Compulsory course selections

##### 15 credits from

161.101 Statistics for Business ..... 15 credits	
R 115101, 161100, 161111, 161120, 161122, 161130, 161140	
161.120 Introductory Statistics ..... 15 credits	
R 115101, 161100, 161101, 161130, 161140	
161.130 Introductory Biostatistics ..... 15 credits	
R 161100, 161101, 161120, 161140, 115101	

##### 15 credits from

196.207 Biological Evolution ..... 15 credits	
P 162101 and (123101 or 123103 or 123104) and (199101 or 199103) R 196217	
196.217 Evolutionary Biology ..... 15 credits	
P 162101 and (123103 or 123104) R 196207	

##### 15 credits from

161.250 Data Analysis ..... 15 credits	
P 1611xx R 161220	
199.204 Animal Behaviour ..... 15 credits	
P 199101, 1611xx	

#### 60 credits from

##### Selection A (At least 30 credits from)

194.345 Comparative Physiology ..... 15 credits	
P One of 194241, 194242, 194243 or 199212	
199.310 Entomology ..... 15 credits	
P 196201 or 196205 or 199206 or 199211 or 283201 or 285201	

199.312 Behavioural Ecology.....	15 credits
P (199203 or 199204 or 161250) and (196207 or 196217 or any other 1962xx or 1992xx course) R 196307	
199.317 Animal Biodiversity.....	15 credits
P 196207 or 196217	
199.320 Experimental Zoology.....	15 credits
P (196207 or 196217) and (161250 or 199203 or 199204) and (199211 or 199214)	
199.330 Ornithology.....	15 credits
P One of 196201, 199206, 199212 or 194245	

**Selection B**

194.344 Nerves and the Nervous System.....	15 credits
P 194241 and one of 194242, 194243	
194.346 Metabolic Physiology.....	15 credits
P Two of 194241, 194242, 122202 or 122233	
196.313 Freshwater Ecology.....	15 credits
P One of 196203, 196205, 121213 or 145222	
196.315 Conservation Science.....	15 credits
P 196205	
196.318 Molecular Ecology.....	15 credits
P One of 196207, 196217, 203210 or 203212 R 199317	
196.327 Marine Mammalogy.....	15 credits
P (199101 or 199103) and (196225 or 199212)	

**Minors****Chemistry (60 credits)****200-level courses (30 credits from)**

123.201 Chemical Energetics.....	15 credits
P One of (123102, 123105, 124104 or 123172) and one of (160101, 160102, 160105, 160132 or 160133)	
123.206 Environmental and Analytical Chemistry.....	15 credits
P One of 123101, 123102, 123104, 123105, 123171 or 123172 R 123204 and 123208	
123.207 Molecular Chemistry.....	15 credits
P One of (123101 or 123104 or 123171) AND one of (123102 or 123105 or 123172) R 123202, 123203	
123.208 Chemical Analysis.....	15 credits
P One of 123101 or 123102 or 123104 or 123105 or 123171 or 123172 R 123204, 123206	
123.210 Organic Chemistry Perspectives.....	15 credits
P One of 123101, 123104 or 123171 R 123202	
123.271 Molecules to Materials.....	15 credits
P (123101, 123104 or 123171) and (123102, 123105 or 123172)	

**300-level courses (30 credits from)**

123.305 Contemporary Topics in Chemistry.....	15 credits
P One of (123101, 123102, 123104, 123105, 123171, 123172) and one of (247111, 247112, 247113, 247114)	
123.307 Advanced Inorganic Chemistry.....	15 credits
P 123207 and 123208 R 123313	
123.308 Advanced Organic Chemistry.....	15 credits
P (123207 and 123208) or (123206 and 123210) R 123312	
123.310 Advanced Concepts in Organic Chemistry.....	15 credits
P 123202 or 123210 R 123312	
123.331 Advanced Physical and Computational Chemistry.....	15 credits
P 123201	
123.332 Advanced Topics in Chemistry.....	30 credits
P Any two of 123201, 123202, 123203, 123204, 123206, 123210, or 123271	
141.395 Food Chemistry.....	15 credits
P 123271 and 123201 R 151231	

**Schedule C: Chemistry Minor available under Transitional Provisions (60 credits from)****At least one of**

123.101 Chemistry and Living Systems.....	15 credits
R 123171	
123.102 Chemistry and the Material World.....	15 credits
R 123172	
123.171 Chemistry for Biological Systems 1.....	15 credits
R 123101	
123.172 Chemistry for Biological Systems 2.....	15 credits
R 123102	

**45 credits at 200-level and 300-level, with at least 15 credits at 300-level, with the prefix 123****Computer Science (60 credits)****200-level courses (30 credits from)**

159.201 Algorithms and Data Structures.....	15 credits
P 159102 R 159271	
159.234 Object-Oriented Programming.....	15 credits
P 159102	
159.235 Programming for Computer Graphics.....	15 credits
P 159102 R 159360	
159.236 Embedded Programming.....	15 credits
P 159102 R 159233, 159270	
159.251 Software Engineering Design and Construction.....	15 credits
P 159234	
159.272 Programming Language Paradigms.....	15 credits
P 159102 R 159202	

**300-level courses (30 credits from)**

159.302 Artificial Intelligence.....	15 credits
P 159201 or 159234 R 159372	
159.336 Mobile Application Development.....	15 credits
P 159234 or 159235	
159.341 Programming Languages, Algorithms and Concurrency.....	15 credits
P 159201 or 159202 R 159331	
159.342 Operating Systems and Networks.....	15 credits
P 159201 or 159234 R 159334, 159335, 159354, 159355	
159.352 Advanced Web Development.....	15 credits
P (159100 or 159101 or 159171) and (158256 or 158258) R 159339	
159.355 Concurrent Systems.....	15 credits
P 159272 R 159335, 159341, 159342	
159.360 Programming for Computer Graphics.....	15 credits
P (159270, 159271 or 159272) and (160101, 160102, 160103 or 160105) R 159235	
159.372 Intelligent Machines.....	15 credits
P 159271 or 159272 R 159302	

**Schedule C: Computer Science Minor available under Transitional Provisions (75 credits from)****Compulsory courses (30 credits from)****Either**

159.101 Applied Programming.....	15 credits
R 159100	
159.102 Computer Science and Programming.....	15 credits
P 159100 or 159101	

**Or**

159.171 Computational Thinking and Programming 1.....	15 credits
159.172 Computational Thinking and Programming 2.....	15 credits
P 159171 R 159102	

**Compulsory course selection****45 credits at 200 level and 300 level, with at least 15 credits at 300 level, with the prefix 159 from the Schedule for the Major****Data Science (60 credits)****No new enrolments****Compulsory courses**

158.222 Data Wrangling and Machine Learning.....	15 credits
P (159101 or 159100) and one of (1611xx, 160101, 160102)	
158.333 Applied Machine Learning and Big Data Processing.....	15 credits
P 158222	
161.324 Data Mining.....	15 credits
P One of 161122, 161220, 161221, 161250 or 161251 R 161223 and 161777	

**Compulsory course selection (15 credits from)**

161.250 Data Analysis.....	15 credits
P 1611xx R 161220	
161.251 Regression Modelling.....	15 credits
P 1611xx R 161221	

**Schedule C: Data Science Minor available under Transitional Provisions (90 credits from)****Compulsory courses**

158.222 Data Wrangling and Machine Learning.....	15 credits
P (159101 or 159100) and one of (1611xx, 160101, 160102)	
158.333 Applied Machine Learning and Big Data Processing.....	15 credits
P 158222	
159.101 Applied Programming.....	15 credits
R 159100	
159.102 Computer Science and Programming.....	15 credits
P 159100 or 159101	

**15 credits from**

161.101 Statistics for Business	15 credits
R 115101, 161100, 161111, 161120, 161122, 161130, 161140	
161.120 Introductory Statistics	15 credits
R 115101, 161100, 161101, 161130, 161140	
161.130 Introductory Biostatistics	15 credits
R 161100, 161101, 161120, 161140, 115101	
161.140 Agri-Statistics	15 credits
R 161100, 161101, 161111, 161120, 161122, 161130, 115101, 195101	

**15 credits from**

160.211 Linear Algebra	15 credits
P 160102, 160112, 160133 or 228172	
161.220 Data Analysis	15 credits
P 161101, 161111, 161120, 161122 or 161130 R 161250	
161.221 Applied Linear Models	15 credits
P (One of (161122 or 161220 or 233214) and one of (160101 or 160102 or 160105)) or one of 161101, 161120 or 161130 R 161251	
161.250 Data Analysis	15 credits
P 1611xx R 161220	

**Earth Science (60 credits)**

**Compulsory course selection**

**200-level courses (30 credits from)**

233.211 Earth Materials	15 credits
P 233105 or 189151	
233.212 Earth Surface Processes	15 credits
P 233105 or (233101 and 145121)	
233.214 GIS and Spatial Statistics	15 credits
P 161111 or 161122 R 233251, 233301	

**300-level courses (30 credits from)**

233.311 Earth Environments Through Time	15 credits
P 233211 or 233212	
233.312 Natural Hazards	15 credits
233.313 Earth Systems	15 credits
P (160101 or 160102 or 160105) and (233211 or 233212)	
233.314 Remote Sensing and Earth Observation	15 credits
P 233214 R 233301	

**Schedule C: Earth Science Minor available under Transitional Provisions (60 credits from)**

**Compulsory course**

233.101 Introductory Earth Science	15 credits
------------------------------------	------------

**Compulsory course selection**

**45 credits at 200 level and 300 level, with at least 15 credits at 300 level, with the prefix 233**

**Ecology and Conservation (60 credits)**

**200 level courses (30 credits from)**

196.201 Biodiversity of New Zealand	15 credits
P One of 196101, 199103, or 120101 R 199206	
196.205 Ecology and Conservation	15 credits
P 1611xx and one of (196101 or 199101 or 199103 or 120101 or 121103)	
196.217 Evolutionary Biology	15 credits
P 162101 and (123103 or 123104) R 196207	
196.223 Freshwater Ecology	15 credits
P 196101 or 199103 or 199101 or 121103 R 196313	
196.225 Introductory Marine Biology	15 credits
P 196101 and (199101 or 199103)	

**300-level courses (30 credits from)**

196.315 Conservation Science	15 credits
P 196205	
196.317 Community and Ecosystem Ecology	15 credits
P Two 1992xx/1962xx courses	
196.318 Molecular Ecology	15 credits
P One of 196207, 196217, 203210 or 203212 R 199317	
196.319 Terrestrial Ecology	15 credits
P One of (196205, 196207, 196217, 203210, 285201)	
196.329 Marine Ecology	15 credits
P 196225 R 196350	

**Schedule C: Ecology Minor available under Transitional Provisions (75 credits from)**

**Compulsory courses (30 credits from)**

162.101 Cell Biology	15 credits
196.205 Ecology and Conservation	15 credits
P 1611xx and one of (196101 or 199101 or 199103 or 120101 or 121103)	

**Compulsory course selections**

**15 credits from**

120.101 Plant Biology	15 credits
-----------------------	------------

199.101 Biology of Animals	15 credits
----------------------------	------------

**15 credits from**

196.207 Biological Evolution	15 credits
P 162101 and (123101 or 123103 or 123104) and (199101 or 199103) R 196217	
196.217 Evolutionary Biology	15 credits
P 162101 and (123103 or 123104) R 196207	

**At least 15 credits at 300 level with the prefix 196**

**Ecology and Sustainability (60 credits)**

**No new enrolments**

**Compulsory courses (60 credits from)**

121.201 Environmental Science	15 credits
R 121210, 121311	
121.301 Applied Environmental Science	15 credits
P 121201 R 121310	
196.206 Conservation Ecology	15 credits
P 1611xx and 196101 R 196205	
196.320 Biodiversity and Biogeography	15 credits
P Any two of 196101, 199101, 199103, 196206, 196217, 196225, 196328, 196329, 199330	

**Environmental Science (60 credits)**

**Compulsory courses**

121.213 Land and Water Science	15 credits
P (189151 OR 145111) AND (233105 OR 117153 OR 199103) R 145222	
121.214 Landscape and Human Ecology	15 credits
P 196101	
121.313 Applied River Management	15 credits
P 121213 or 145222	
188.363 Applied Environmental Management	15 credits

**Schedule C: Environmental Science Minor available under Transitional Provisions (60 credits from)**

**Compulsory course**

121.103 New Zealand Environments	15 credits
----------------------------------	------------

**45 credits at 200 level and 300 level, with at least 15 credits at 300 level, with the prefix 121**

**Exercise and Sport Science (60 credits)**

**Compulsory courses**

234.222 Sport Biomechanics	15 credits
P 214170 or 234121 R 234201	
234.223 Exercise Physiology	15 credits
P 234121 or 214101 or 194101 R 234203	
234.324 Applied Sports Science	15 credits
P 234222 and 234223	
234.360 Sport Psychology	15 credits
R 152318	

**Schedule C: Exercise and Sport Science Minor available under Transitional Provisions (60 credits from)**

**At least one of**

194.101 Introductory Physiology	15 credits
234.121 Functional Anatomy	15 credits
R 214170	

**45 credits, with at least 15 credits at 300 level from the following**

234.222 Sport Biomechanics	15 credits
P 214170 or 234121 R 234201	
234.223 Exercise Physiology	15 credits
P 234121 or 214101 or 194101 R 234203	
234.322 Sport Biomechanics II	15 credits
P 234201 or 234222 R 194351, 234301	
234.323 Exercise Physiology II	15 credits
P 234203 or 234223 R 234303	
234.361 Exercise Psychology	15 credits

**Human Nutrition (60 credits)**

**Compulsory courses**

151.231 Food Chemistry for Nutrition	15 credits
P 123101 or 123104	
151.232 Nutrition and Metabolism	15 credits
P 122102 and (123101 or 123104) R 151344	
151.331 Maternal and Child Nutrition	15 credits
P 151232 R 151345	
151.333 Adult Nutrition and Positive Ageing	15 credits
P 151232	

**Schedule C: Human Nutrition Minor available under Transitional Provisions (90 credits from)**

**Compulsory courses (60 credits from)**

122.102 Biochemistry ..... 15 credits  
 P 123101 or 123104 or 123103 (A) R 122222, 227111, 227106

123.101 Chemistry and Living Systems ..... 15 credits  
 R 123171

151.232 Nutrition and Metabolism ..... 15 credits  
 P 122102 and (123101 or 123104) R 151344

162.101 Cell Biology ..... 15 credits

**Compulsory course selection (30 credits from)**

151.331 Maternal and Child Nutrition ..... 15 credits  
 P 151232 R 151345

151.332 Nutrition for Sport and Performance ..... 15 credits  
 P 151232 or 234223

151.333 Adult Nutrition and Positive Ageing ..... 15 credits  
 P 151232

151.334 Nutrition Communication and Promotion ..... 15 credits  
 P 151232

**Integrative Biology (60 credits)**

**No new enrolments**

**Compulsory courses (60 credits from)**

162.215 Microbial Diversity ..... 15 credits  
 P 162101 and (123103 or 123104) R 162211, 162212, 196213

162.320 Advanced Integrative Biology ..... 15 credits  
 P 196217 and (199103 or 199101)

246.202 Bacteriophage Discovery ..... 15 credits  
 P One of 162101, 199101, 199103 or 120101

246.303 Systems and Models in the Natural Sciences ..... 15 credits  
 P 1601xx or 124103 R 246201

**International Agriculture (60 credits)**

**No new enrolments**

**Compulsory courses (60 credits from)**

119.202 International Agricultural Production Systems ..... 15 credits

119.203 Agriculture and the Environment ..... 15 credits  
 P 123103 or 123104

119.302 Problem Solving in International Agriculture ..... 15 credits  
 P 119202, 119203

119.303 Professional Experience in Agriculture ..... 15 credits  
 P 119202, 119203

**Marine Biology (60 credits)**

**No new enrolments**

**Compulsory courses (60 credits from)**

196.225 Introductory Marine Biology ..... 15 credits  
 P 196101 and (199101 or 199103)

196.226 Field Marine Ecology ..... 15 credits  
 P 196225

196.328 Marine Environments in the Anthropocene ..... 15 credits  
 P 196225 and 196101 R 196326

196.329 Marine Ecology ..... 15 credits  
 P 196225 R 196350

**Mathematics (60 credits)**

**200-level courses (30 credits from)**

**Compulsory course**

160.203 Multivariable Calculus ..... 15 credits  
 P One of 160101, 160112, 160133 or 228172

**15 credits from**

160.204 Differential Equations I ..... 15 credits  
 P 160101 or 160112 or 160133 or 228172

160.211 Linear Algebra ..... 15 credits  
 P 160102, 160112, 160133 or 228172

160.212 Discrete Mathematics ..... 15 credits  
 P One of (160101, 160102, 160103, 160105, 160111, 160112, 160132, 160133, 228171 or 228172) and one of (159101, 159171 or 230112)

**300-level courses (30 credits from)**

160.301 Real and Complex Analysis ..... 15 credits  
 P 160203

160.302 Modern Algebra ..... 15 credits  
 P 160211 or 160212

160.318 Differential Equations II ..... 15 credits  
 P 160203 and 160204

160.319 Mathematical Modelling ..... 15 credits  
 P 160204 and one of (160203, 160211 or 160212) and one of (159101 or 159171)

**Schedule C: Mathematics Minor available under Transitional Provisions (75 credits from)**

**Compulsory course selection (30 credits from)**

**Either**

160.101 Calculus ..... 15 credits  
 R 160112, 160133, 228172

160.102 Algebra ..... 15 credits  
 R 160112, 160133, 228172

**Or (Note 160.132 unless exempted for prerequisite purposes)**

160.132 Concepts in Mathematics ..... 15 credits  
 R 160101, 160102, 160103, 160111, 160112, 160131, 228171, 228172  
 160132 may not be taken after 160133 has been passed

160.133 Processes in Mathematics ..... 15 credits  
 P 160132, or 160111, or 228171, or 160101, or 160102, or 160103, or A- or better in 160131 R 160112, 228172, both of 160101, 160102 And, 160133 may not be taken at the same time as any of 160101, 160102 or 160111

**Or**

160.111 Mathematics 1A ..... 15 credits  
 P 160103 or 160131 or 160132 R 160101, 160102, 228171

160.112 Mathematics 1B ..... 15 credits  
 P 160111 or 228171 or any one of 160101, 160102 R 228172, 160133

**45 credits at 200-level and 300-level, with at least 15 credits at 300-level, with the prefix 160**

**Microbiology (60 credits)**

**Compulsory courses**

162.211 Biology and Genetics of Microorganisms ..... 15 credits  
 P 162101 or 123104

162.221 Immunology ..... 15 credits  
 P 162101 R 162303, 162389

162.301 Medical Microbiology ..... 15 credits  
 P 162211 and (162221 or 162283) R 162384

162.304 Applied and Environmental Microbiology ..... 15 credits  
 P One of 162211, 162212, 162214, 196213, 203210, 203300, 203310, 203340 or 280201

**Schedule C: Microbiology Minor available under Transitional Provisions (60 credits from)**

**Compulsory course**

162.101 Cell Biology ..... 15 credits

**45 credits at 200-level and 300-level, with at least 15 credits at 300-level, with the prefix 162**

**Molecular Cell Biology (60 credits)**

**200 level courses (30 credits from)**

122.201 The Molecular Cell ..... 15 credits  
 P 162101 and 122102 R 122232

122.202 The Dynamic Cell ..... 15 credits  
 P 122102 R 122233

122.231 Genes and Gene Expression ..... 15 credits  
 P 162101 and (123101 or 123103 or 123104) R 203211 and 203240

203.203 Biomedicine ..... 15 credits  
 P 162101

203.210 Genetics and Evolution ..... 15 credits  
 P 162101 R 203202 and 203212

**300 level courses (30 credits from)**

122.301 Proteins and Cell Biology ..... 15 credits  
 P 122201 or 122232 R 122322, 203307

122.303 Gene Regulation ..... 15 credits  
 P 122202 or 122233 or 122231 or 203240 or 203211 or 203300 or 203310

196.318 Molecular Ecology ..... 15 credits  
 P One of 196207, 196217, 203210 or 203212 R 199317

203.310 DNA Technology ..... 15 credits  
 P One of 122231, 162211, 203240 or 203211 R 203300, 203340

203.311 Genome Science ..... 15 credits  
 P 162101 R 203328 and 203341

**Molecular and Cellular Biology (60 credits)**

**No new enrolments**

**Compulsory courses (60 credits from)**

203.203 Biomedicine ..... 15 credits  
 P 162101

203.240	Molecular and Cellular Biology	15 credits
	P 123104 and 162101 and 122102 R 203342, 122231	
203.340	Applied Molecular Biology	15 credits
	P 122231 or 203240 R 203300	
203.341	Genome Science	15 credits
	P 122231 or 203240 R 203210	

### Physics (60 credits)

#### No new enrolments

#### Compulsory courses

124.204	Classical Physics	15 credits
	P 124104 and 124105 and 160101 R 124233	
124.205	Modern Physics	15 credits
	P 124104 and 124105 and 160101 C 124104 and 124105 R 124229, 124226	
124.304	Statistical Physics and its Applications	15 credits
	P 124204, 124205, 160102, 160203 and 161122 R 124327	
124.305	Quantum Mechanics and its Applications	15 credits
	P 124204, 124205, 160102 and 160203 R 124325	

#### Schedule C: Physics Minor available under Transitional Provisions (75 credits from)

#### 15 credits from

124.111	Physics for Life Sciences	15 credits
	R 124101, 124171	
124.171	Physical Principles for Engineering & Technology 1	15 credits
	R 124101	

#### 15 credits from

124.102	Physics I(b)	15 credits
	R 124172	
124.172	Physical Principles for Engineering & Technology 2	15 credits
	P 124171 R 124102	

#### 45 credits at 200-level and 300-level, with at least 15 credits at 300-level, with the prefix 124

### Physiology (60 credits)

#### Compulsory courses (45 credits from)

194.242	Physiology of Mammalian Organ Systems	15 credits
	P 194101 or 214101 or 117155 or 117153 or 199103	
194.342	Cell Physiology	15 credits
	P Two of 194241, 194242, 122202 or 122233	
194.346	Metabolic Physiology	15 credits
	P Two of 194241, 194242, 122202 or 122233	

#### Compulsory course selection (15 credits from)

194.241	Physiological Control Systems	15 credits
	P 194101 or 214101 or 117155 or 199103	
214.201	Human Bioscience: Impaired Body Function	15 credits
	P (214101 and 214102) OR (162101; and 194101 or 117155 or 214101)	

#### Schedule C: Physiology Minor available under Transitional Provisions (60 credits from)

#### Compulsory course

194.101	Introductory Physiology	15 credits
---------	-------------------------	------------

**45 credits at 200 level and 300 level, with at least 15 credits at 300 level, with the prefix 194**

### Plant Science (60 credits)

#### Compulsory courses

120.217	Plant, Cell and Environment	15 credits
	P 120101	
120.219	Plants and People	15 credits
120.303	Plant Diversity	15 credits
	P One of (120201, 120218, 120219, 196205, 196207 or 203210)	
120.306	Plant Improvement	15 credits
	P 203210 or 284201 R 120304	

### Psychology (60 credits)

#### 200-level courses (30 credits from)

#### Compulsory course

175.203	Introduction to Psychological Research	15 credits
	P 175102	

#### 15 credits from

175.201	Social Psychology	15 credits
175.205	Brain and Behaviour	15 credits
	P 175102	
175.206	Memory and Cognition	15 credits
	P 175102	

175.210	Ngā Tirohanga Rua o te Taha Hinengaro: Bicultural Perspectives in Psychology	15 credits
	R 175312	

#### 300-level courses (30 credits from)

175.301	Community Psychology	15 credits
	P 175203	
175.302	Introduction to Clinical Psychology	15 credits
	P 175203	
175.303	The Practice of Psychological Research	15 credits
	P 175203	
175.304	The Psychology of Security	15 credits
175.306	Assessment of Individual Differences	15 credits
	P 175203	
175.309	Forensic Psychology	15 credits
	P 175203	
175.311	Psychology of Women	15 credits
	P 175203	
175.316	Evolution, Culture and Mind	15 credits
	P 175203	
175.317	Health Psychology	15 credits
	P 175203	
175.318	Experimental Psychology	15 credits
	P 175203	
175.343	Personnel Psychology and Career Development	15 credits
	P 175203	
175.345	Organisational Psychology	15 credits
	P 175203	

#### Schedule C: Psychology Minor available under Transitional Provisions (75 credits from)

#### Compulsory courses (30 credits from)

175.102	Psychology as a Natural Science	15 credits
175.203	Introduction to Psychological Research	15 credits
	P 175102	

#### 15 credits at 300 level, 15 credits at 200 or 300 level, and 15 credits at any level from the Psychology Major schedule

### Statistics (60 credits)

#### 200-level courses (30 credits from)

161.222	Design and Analysis of Experiments	15 credits
	P 1611xx R 161322	
161.250	Data Analysis	15 credits
	P 1611xx R 161220	
161.251	Regression Modelling	15 credits
	P 1611xx R 161221	

#### 300-level courses (30 credits from)

161.304	Statistical Modelling	15 credits
	P (160101 or 160102 or 160105) and (161122 or 161250 or 161251 or 161220 or 161221)	
161.323	Multivariate Analysis	15 credits
	P One of 161222, 161220, 161221, 161250, 161251, 233214 R 161762	
161.324	Data Mining	15 credits
	P One of 161122, 161220, 161221, 161250 or 161251 R 161223 and 161777	
161.331	Biostatistics	15 credits
	P 161250 or 161251 or 161220 or 161221 R 161327, 161778	

#### Schedule C: Statistics Minor available under Transitional Provisions (60 credits from)

#### 15 credits from

161.101	Statistics for Business	15 credits
	R 115101, 161100, 161111, 161120, 161122, 161130, 161140	
161.120	Introductory Statistics	15 credits
	R 115101, 161100, 161101, 161130, 161140	
161.130	Introductory Biostatistics	15 credits
	R 161100, 161101, 161120, 161140, 115101	

#### 45 credits at 200-level and 300-level, with at least 15 credits at 300-level, with the prefix 161

### Zoology (60 credits)

#### 200-level courses (30 credits from)

199.211	Invertebrate Zoology	15 credits
	P One of 196101, 199101 or 199103 R 199214	
199.212	Vertebrate Zoology	15 credits
	P 196101 and (199101 or 199103)	

#### 300-level courses (30 credits from)

196.327	Marine Mammalogy	15 credits
	P (199101 or 199103) and (196225 or 199212)	
199.310	Entomology	15 credits
	P 196201 or 196205 or 199206 or 199211 or 283201 or 285201	

199.312 Behavioural Ecology ..... 15 credits  
P (199203 or 199204 or 161250) and (196207 or 196217 or any other 1962xx or 1992xx course) R 196307

199.313 Environmental Physiology ..... 15 credits  
P 194241 or 194242 or 199212 R 194345

199.330 Ornithology ..... 15 credits  
P One of 196201, 199206, 199212 or 194245

**Schedule C: Zoology Minor available under Transitional Provisions (60 credits from)**

**Compulsory course**

199.101 Biology of Animals ..... 15 credits

**45 credits at 200-level and 300-level, with at least 15 credits at 300-level, with the prefix 199**

**Schedule C: Specialisations available under Transitional Provisions**

**Majors**

**Agricultural Science (255 credits)**

**No new enrolments**

**Compulsory courses**

117.254 Principles of Animal Science and Production ..... 15 credits  
P 194101 or 199101 or 119154 or 117152

119.150 Practicum I ..... 0 credits

119.250 Practicum II ..... 0 credits  
P 119150

119.373 Integrative Studies ..... 15 credits  
P 119250

162.101 Cell Biology ..... 15 credits

283.201 Pasture and Crop Agronomy ..... 15 credits  
P 283101 or 120101 or 119120 R 171202

**Compulsory course selections**

**15 credits from**

123.101 Chemistry and Living Systems ..... 15 credits  
R 123171

123.102 Chemistry and the Material World ..... 15 credits  
R 123172

**15 credits from**

160.111 Mathematics 1A ..... 15 credits  
P 160103 or 160131 or 160132 R 160101, 160102, 228171

160.112 Mathematics 1B ..... 15 credits  
P 160111 or 228171 or any one of 160101, 160102 R 228172, 160133

160.133 Processes in Mathematics ..... 15 credits  
P 160132, or 160111, or 228171, or 160101, or 160102, or 160103, or A- or better in 160131 R 160112, 228172, both of 160101, 160102 And, 160133 may not be taken at the same time as any of 160101, 160102 or 160111

161.130 Introductory Biostatistics ..... 15 credits  
R 161100, 161101, 161120, 161140, 115101

**15 credits from**

122.102 Biochemistry ..... 15 credits  
P 123101 or 123104 or 123103 (A) R 122222, 227111, 227106

124.102 Physics II(b) ..... 15 credits  
R 124172

124.111 Physics for Life Sciences ..... 15 credits  
R 124101, 124171

**15 credits from**

120.101 Plant Biology ..... 15 credits

283.101 Plants in Agriculture ..... 15 credits  
R 171102

**15 credits from**

194.101 Introductory Physiology ..... 15 credits

199.101 Biology of Animals ..... 15 credits

**15 credits from**

189.151 Principles of Soil Science ..... 15 credits  
P One of 119153, 119158, 123101, 123103 or 123104

233.101 Introductory Earth Science ..... 15 credits

**15 credits from**

189.251 Soil Fertility and Fertilisers ..... 15 credits  
P 189151 or 189142

189.252 Land, Soil and Water ..... 15 credits  
P 1 of 189151, 189142, 233101

**30 credits from**

119.258 Agricultural Systems ..... 15 credits  
P 119281

120.217 Plant, Cell and Environment ..... 15 credits  
P 120101

194.241 Physiological Control Systems ..... 15 credits  
P 194101 or 214101 or 117155 or 199103

194.242 Physiology of Mammalian Organ Systems ..... 15 credits  
P 194101 or 214101 or 117155 or 117153 or 199103

194.243 Physiological Strategies for Survival ..... 15 credits  
P One of 117155, 194101, 199101 or 199103 R 194245

196.205 Ecology and Conservation ..... 15 credits  
P 1611xx and one of (196101 or 199101 or 199103 or 120101 or 121103)

**15 credits from**

122.231 Genes and Gene Expression ..... 15 credits  
P 162101 and (123101 or 123103 or 123104) R 203211 and 203240

122.232 Protein Biochemistry ..... 15 credits  
P 122102 R 122342

122.233 Metabolic Biochemistry ..... 15 credits  
P 122102

123.201 Chemical Energetics ..... 15 credits  
P One of (123102, 123105, 124104 or 123172) and one of (160101, 160102, 160105, 160132 or 160133)

123.202 Organic and Biological Chemistry ..... 15 credits  
P 123101 or 123171

123.203 Inorganic Chemistry and Modelling ..... 15 credits  
P 123102 or 123172

123.204 Chemical and Biochemical Analysis ..... 15 credits  
P 123101 or 123102 or 123171 or 123172

123.206 Environmental and Analytical Chemistry ..... 15 credits  
P One of 123101, 123102, 123104, 123105, 123171 or 123172 R 123204 and 123208

123.210 Organic Chemistry Perspectives ..... 15 credits  
P One of 123101, 123104 or 123171 R 123202

123.271 Molecules to Materials ..... 15 credits  
P (123101, 123104 or 123171) and (123102, 123105 or 123172)

162.211 Biology and Genetics of Microorganisms ..... 15 credits  
P 162101 or 123104

162.214 Biology of Microorganisms ..... 15 credits  
P 162101 R 162211, 280201

196.207 Biological Evolution ..... 15 credits  
P 162101 and (123101 or 123103 or 123104) and (199101 or 199103) R 196217

196.217 Evolutionary Biology ..... 15 credits  
P 162101 and (123103 or 123104) R 196207

203.202 Genetic Analysis ..... 15 credits  
P 162101 R 203212

203.203 Biomedicine ..... 15 credits  
P 162101

203.212 Principles of Genetics ..... 15 credits  
P 162101 R 203202

**30 credits from**

117.342 Animal Nutrition ..... 15 credits  
P 117254

117.344 Animal Growth and Meat Production ..... 15 credits  
P 117201 or 117225 or 117254

117.345 Genetics for Livestock Improvement ..... 15 credits  
P One of 117201, 117245 or 117254 or 203202

117.347 Reproductive and Lactational Physiology ..... 15 credits  
P 117254

117.348 Animal Metabolism ..... 15 credits  
P (One of 122202, 122233 or 151232) and (one of 117202 or 194241)

117.371 Animal Production ..... 15 credits  
P One of 117201, 117202 or 117254

117.381 Solving Problems in Animal Production ..... 15 credits  
P One of 117201, 117202 or 117254

138.301 Precision Agriculture Technologies ..... 15 credits

189.362 Soil Fertility and the Environment ..... 15 credits  
P 189251 or 189252

189.363 Soil Resources and Sustainable Land Use ..... 15 credits  
P 1 of 189251, 189252, 233210, 233310

233.301 Advanced Remote Sensing ..... 15 credits  
P 233251

233.302 Earth Science Field Work III ..... 15 credits  
P 233202 and 233350

233.310 Pedology and Quaternary Geology ..... 15 credits  
P 233250 or 189252 R 233210

233.350 How the Earth Works ..... 15 credits  
P 233250

283.301 Pasture Production and Practice ..... 15 credits  
P 283201

283.305 Arable Production .....	15 credits
P One of 171202, 283201, 120101, 171102, 283101 or 119120	
283.311 Controlling Weeds .....	15 credits
P 119120 or 120101 or 171102 or 283101 R 171385	
285.301 Controlling Plant Pests and Diseases .....	15 credits
P 171284 or 171202 or 283201 or 285201 R 171387	

**Courses at 300 level from the 120, 122, 123, 162, 194, 196, 199, 203 prefixes in the Schedule (15 credits from)**

**Animal Science (195 credits)**

**No new enrolments**

**Compulsory courses**

117.254 Principles of Animal Science and Production .....	15 credits
P 194101 or 199101 or 119154 or 117152	
117.255 Animal Health, Behaviour and Welfare .....	15 credits
P One of 194101, 199101, 119154, 117152	
117.348 Animal Metabolism .....	15 credits
P (One of 122202, 122233 or 151232) and (one of 117202 or 194241)	
122.102 Biochemistry .....	15 credits
P 123101 or 123104 or 123103 (A) R 122222, 227111, 227106	
122.233 Metabolic Biochemistry .....	15 credits
P 122102	
123.101 Chemistry and Living Systems .....	15 credits
R 123171	
162.101 Cell Biology .....	15 credits
194.101 Introductory Physiology .....	15 credits
194.241 Physiological Control Systems .....	15 credits
P 194101 or 214101 or 117155 or 199103	

**Compulsory course selections**

**15 credits from**

161.101 Statistics for Business .....	15 credits
R 115101, 161100, 161111, 161120, 161122, 161130, 161140	
161.120 Introductory Statistics .....	15 credits
R 115101, 161100, 161101, 161130, 161140	
161.130 Introductory Biostatistics .....	15 credits
R 161100, 161101, 161120, 161140, 115101	

**30 credits from**

117.342 Animal Nutrition .....	15 credits
P 117254	
117.344 Animal Growth and Meat Production .....	15 credits
P 117201 or 117225 or 117254	
117.345 Genetics for Livestock Improvement .....	15 credits
P One of 117201, 117245 or 117254 or 203202	
117.347 Reproductive and Lactational Physiology .....	15 credits
P 117254	

**15 credits from**

117.361 Companion Animal Science .....	15 credits
117.371 Animal Production .....	15 credits
P One of 117201, 117202 or 117254	
117.381 Solving Problems in Animal Production .....	15 credits
P One of 117201, 117202 or 117254	

**Biochemistry (165 credits)**

**No new enrolments**

**Compulsory courses**

122.102 Biochemistry .....	15 credits
P 123101 or 123104 or 123103 (A) R 122222, 227111, 227106	
122.231 Genes and Gene Expression .....	15 credits
P 162101 and (123101 or 123103 or 123104) R 203211 and 203240	
122.232 Protein Biochemistry .....	15 credits
P 122102 R 122342	
122.233 Metabolic Biochemistry .....	15 credits
P 122102	
122.303 Gene Regulation .....	15 credits
P 122202 or 122233 or 122231 or 203240 or 203211 or 203300 or 203310	
122.322 Protein Structure and Function .....	15 credits
P 122232 R 122342	
123.101 Chemistry and Living Systems .....	15 credits
R 123171	
162.101 Cell Biology .....	15 credits
203.300 DNA Technology .....	15 credits
P 122231 R 203340	

**30 credits from**

**Selection A (15 credits from)**

123.202 Organic and Biological Chemistry .....	15 credits
P 123101 or 123171	
123.204 Chemical and Biochemical Analysis .....	15 credits
P 123101 or 123102 or 123171 or 123172	
162.211 Biology and Genetics of Microorganisms .....	15 credits
P 162101 or 123104	

**Selection B (At least 15 credits from)**

123.312 Advanced Organic Chemistry .....	15 credits
P 123202, 123204	
123.326 Advanced Chemical Biology .....	15 credits
P 123202	
203.307 Mammalian Cell Biology .....	15 credits
P 122231	
203.328 Genome Analysis .....	15 credits
P 203300 R 122328	
247.300 Research in Biosciences .....	15 credits

**Biological Sciences (195 credits)**

**No new enrolments**

**Compulsory courses**

120.101 Plant Biology .....	15 credits
162.101 Cell Biology .....	15 credits
199.101 Biology of Animals .....	15 credits

**Compulsory course selections**

**30 credits from**

122.102 Biochemistry .....	15 credits
P 123101 or 123104 or 123103 (A) R 122222, 227111, 227106	
123.101 Chemistry and Living Systems .....	15 credits
R 123171	
123.103 Chemistry for Modern Sciences .....	15 credits
R 119153, 119158 123103 may not be taken after 123101, 123102, 123104, 123105, 123171 or 123172 have been passed	
161.130 Introductory Biostatistics .....	15 credits
R 161100, 161101, 161120, 161140, 115101	
194.101 Introductory Physiology .....	15 credits

**Courses at 100 level from the 124 and/or 160 prefix**

**Approved 200-level biological courses in Animal Science, Biochemistry, Chemistry, Ecology, Exercise and Sport Science, Genetics, Geography, Human Nutrition, Marine Ecology, Microbiology, Physics, Physiology, Plant Science, Psychology, and/or Zoology (60 credits from)**

**Approved 300-level biological courses in Animal Science, Biochemistry, Chemistry, Ecology, Exercise and Sport Science, Genetics, Geography, Human Nutrition, Marine Ecology, Microbiology, Physiology, Plant Science, Psychology, and/or Zoology (60 credits from)**

**Genetics (165 credits)**

**No new enrolments**

**Compulsory courses**

122.102 Biochemistry .....	15 credits
P 123101 or 123104 or 123103 (A) R 122222, 227111, 227106	
122.231 Genes and Gene Expression .....	15 credits
P 162101 and (123101 or 123103 or 123104) R 203211 and 203240	
123.101 Chemistry and Living Systems .....	15 credits
R 123171	
162.101 Cell Biology .....	15 credits
203.203 Biomedicine .....	15 credits
P 162101	

**Compulsory course selections**

**15 credits from**

162.211 Biology and Genetics of Microorganisms .....	15 credits
P 162101 or 123104	
162.214 Biology of Microorganisms .....	15 credits
P 162101 R 162211, 280201	
196.207 Biological Evolution .....	15 credits
P 162101 and (123101 or 123103 or 123104) and (199101 or 199103) R 196217	
196.217 Evolutionary Biology .....	15 credits
P 162101 and (123103 or 123104) R 196207	
246.202 Bacteriophage Discovery .....	15 credits
P One of 162101, 199101, 199103 or 120101	

**15 credits from**

203.202 Genetic Analysis .....	15 credits
P 162101 R 203212	

R Restriction

C Corequisite

P Prerequisite

203.212 Principles of Genetics ..... 15 credits  
 P 162101 R 203202

**15 credits from**

203.300 DNA Technology ..... 15 credits  
 P 122231 R 203340

203.340 Applied Molecular Biology ..... 15 credits  
 P 122231 or 203240 R 203300

**15 credits from**

203.307 Mammalian Cell Biology ..... 15 credits  
 P 122231

203.341 Genome Science ..... 15 credits  
 P 122231 or 203240 R 203210

**30 credits from**

117.345 Genetics for Livestock Improvement ..... 15 credits  
 P One of 117201, 117245 or 117254 or 203202

122.303 Gene Regulation ..... 15 credits  
 P 122202 or 122233 or 122231 or 203240 or 203211 or 203300 or 203310

203.328 Genome Analysis ..... 15 credits  
 P 203300 R 122328

203.342 Molecular and Cellular Biology ..... 15 credits  
 P 122231

203.343 Genetics of Human Health and Ancestry ..... 15 credits  
 P One of 122231, 203202 or 203212

247.300 Research in Biosciences ..... 15 credits

**Geography (150 credits)**

**No new enrolments**

**Compulsory courses**

145.111 Society, Environment and Place ..... 15 credits

145.121 Introduction to Physical Geography ..... 15 credits

**Compulsory course selections**

**60 credits from**

121.210 Environmental Issues ..... 15 credits  
 R 121311

121.211 New Zealand Environmental Issues ..... 15 credits  
 P 121103, 145111, or 228111

145.213 Resource Conservation and Sustainability ..... 15 credits  
 R 145313

145.214 Social Change and Environment ..... 15 credits

145.216 Urban Environments ..... 15 credits

145.218 Development and Inequality ..... 15 credits

145.222 Rivers and Slopes ..... 15 credits  
 P 145121

145.223 Climate Change and Natural Hazards ..... 15 credits  
 P 145121 or 233101

145.224 Biogeography ..... 15 credits

145.230 Coastal Environments ..... 15 credits  
 P 145121

233.251 GIS and Remote Sensing ..... 15 credits  
 P 233101 or 189151 or 145121 or 158100 R 233201, 233204

**60 credits from**

**Selection A (At least 45 credits from)**

145.301 Research Practice in Human Geography ..... 15 credits

145.303 Field Work: Alpine Physical Geography ..... 15 credits  
 P 145222

145.304 Applied Field Geomorphology ..... 15 credits  
 P At least two from: 145222, 145223, 145230

145.311 Geographies of Globalisation ..... 15 credits

145.318 Geopolitics ..... 15 credits

145.320 Quaternary Biogeography and Environmental Change ..... 15 credits  
 P 145223 or 145224

145.327 Catchment Dynamics ..... 15 credits  
 P 145222

**Selection B (No more than 15 credits from)**

121.310 Environmental Solutions ..... 15 credits  
 P 121210 R 121211

121.311 Global Environmental Issues ..... 15 credits  
 P 121103

121.313 Applied River Management ..... 15 credits  
 P 121213 or 145222

233.301 Advanced Remote Sensing ..... 15 credits  
 P 233251

**Logistics and Supply Chain Management (165 credits)**

**No new enrolments**

**Compulsory courses**

158.100 Information Technology Principles ..... 15 credits

240.260 Logistics and Supply Chain Fundamentals ..... 15 credits  
 R 115260

240.262 Transportation Systems ..... 15 credits  
 R 115262

240.263 Logistics Operations ..... 15 credits  
 R 240261

240.363 Supply Chain Integration ..... 30 credits  
 P 240260 or 240261 or 240263 R 240360, 240361

240.366 Global Logistics ..... 15 credits  
 P 240260 or 240263 R 240261

**Compulsory course selections**

**15 credits from**

161.120 Introductory Statistics ..... 15 credits  
 R 115101, 161100, 161101, 161130, 161140

161.130 Introductory Biostatistics ..... 15 credits  
 R 161100, 161101, 161120, 161140, 115101

**30 credits from**

**Selection A**

115.115 Management in Context ..... 15 credits  
 R 115108

159.101 Applied Programming ..... 15 credits  
 R 159100

159.102 Computer Science and Programming ..... 15 credits  
 P 159100 or 159101

159.171 Computational Thinking and Programming 1 ..... 15 credits

159.172 Computational Thinking and Programming 2 ..... 15 credits  
 P 159171 R 159102

178.100 Principles of Economic Policy ..... 15 credits

**Selection B (No more than 15 credits from)**

160.103 Introductory University Mathematics ..... 15 credits  
 R A student who has passed 160131, 160132, 160133, 160101, 160111, 160112, 228171 or 228172 may not be also credited with a pass in 160103 that is obtained in either the same or a subsequent examination period

160.131 Mathematics for Business I ..... 15 credits  
 R 160103, 160105, 160132 A student who has passed 160101, 160111, 160112 or 160133 may not be also credited with a pass in 160103 or 160131 that is obtained in either the same or a subsequent examination period

160.132 Concepts in Mathematics ..... 15 credits  
 R 160101, 160102, 160103, 160111, 160112, 160131, 228171, 228172  
 160132 may not be taken after 160133 has been passed

**15 credits from**

240.362 Supply Chain Trends and Applications ..... 15 credits  
 R 115362

240.364 Purchasing and Supply Management ..... 15 credits  
 P 240260 or 240261 or 240263 R 240360, 240361

240.365 Demand Chain Management ..... 15 credits  
 P 240260 or 240261 or 240263 R 240360, 240361

**Marine Ecology (165 credits)**

**No new enrolments**

**Compulsory courses**

161.250 Data Analysis ..... 15 credits  
 P 1611xx R 161220

162.101 Cell Biology ..... 15 credits

194.245 Animal Form and Function ..... 15 credits  
 P 199101 or 194101 R 194243

196.225 Introductory Marine Biology ..... 15 credits  
 P 196101 and (199101 or 199103)

196.326 Topics in Marine Ecology ..... 15 credits  
 P Any two 200-level courses from prefixes 194, 196, 199

196.327 Marine Mammalogy ..... 15 credits  
 P (199101 or 199103) and (196225 or 199212)

196.350 Quantitative Marine Ecology ..... 15 credits  
 P 161220 or 161250

199.101 Biology of Animals ..... 15 credits

199.211 Invertebrate Zoology ..... 15 credits  
 P One of 196101, 199101 or 199103 R 199214

**Compulsory course selections**

**15 credits from**

161.101 Statistics for Business ..... 15 credits  
 R 115101, 161100, 161111, 161120, 161122, 161130, 161140

161.120	Introductory Statistics .....	15 credits
	R 115101, 161100, 161101, 161130, 161140	
161.130	Introductory Biostatistics .....	15 credits
	R 161100, 161101, 161120, 161140, 115101	
<b>15 credits from</b>		
196.318	Molecular Ecology .....	15 credits
	P One of 196207, 196217, 203210 or 203212 R 199317	
199.312	Behavioural Ecology .....	15 credits
	P (199203 or 199204 or 161250) and (196207 or 196217 or any other 1962xx or 1992xx course) R 196307	
247.300	Research in Biosciences .....	15 credits
<b>Nanoscience (180 credits)</b>		
<b>No new enrolments</b>		
<b>Compulsory courses</b>		
123.101	Chemistry and Living Systems .....	15 credits
	R 123171	
123.102	Chemistry and the Material World .....	15 credits
	R 123172	
123.203	Inorganic Chemistry and Modelling .....	15 credits
	P 123102 or 123172	
123.315	Chemistry and Nanoscience Research Project .....	15 credits
	P (236201, 124230, 124226) or (123201, 123202, 123203, 123204) R 236302	
124.111	Physics for Life Sciences .....	15 credits
	R 124101, 124171	
124.230	Biophysics .....	15 credits
	P 124101 or 124111 (or 124171); 124102 (or 124172) or 123101 (or 123171) or 123102 (or 123172)	
236.201	Nanoscience .....	15 credits
	P 123102 (or 123172), 124101 (or 124111 or 124171) R 142312, 280312	
236.301	Advanced Nanoscience .....	15 credits
	P 123201 or 236201 R 123325, 280412	
<b>Compulsory course selections</b>		
<b>15 credits from</b>		
160.101	Calculus .....	15 credits
	R 160112, 160133, 228172	
160.111	Mathematics 1A .....	15 credits
	P 160103 or 160131 or 160132 R 160101, 160102, 228171	
160.132	Concepts in Mathematics .....	15 credits
	R 160101, 160102, 160103, 160111, 160112, 160131, 228171, 228172 160132 may not be taken after 160133 has been passed	
<b>15 credits from</b>		
122.231	Genes and Gene Expression .....	15 credits
	P 162101 and (123101 or 123103 or 123104) R 203211 and 203240	
123.201	Chemical Energetics .....	15 credits
	P One of (123102, 123105, 124104 or 123172) and one of (160101, 160102, 160105, 160132 or 160133)	
123.202	Organic and Biological Chemistry .....	15 credits
	P 123101 or 123171	
124.226	Quantum and Statistical Physics .....	15 credits
	P 124101 or 124111 or 124171, 124102 or 124172, 160112 or 160133 or 160101 or 228172	
124.233	Classical Mechanics and Waves .....	15 credits
	P 124101 or 124111 or 124171, 124102 or 124172, 160112 or 160133 or 160101 or 228172	
<b>30 credits from</b>		
123.311	Advanced Physical and Analytical Chemistry .....	15 credits
	P 123201, 123204	
123.312	Advanced Organic Chemistry .....	15 credits
	P 123202, 123204	
123.313	Advanced Inorganic Chemistry .....	15 credits
	P 123203, 123204	
123.326	Advanced Chemical Biology .....	15 credits
	P 123202	
124.325	Advanced Quantum Physics .....	15 credits
	P 124226, 124233, 160203	
124.327	Modern Statistical Physics and Thermodynamics .....	15 credits
	P 124226, 160203	
203.300	DNA Technology .....	15 credits
	P 122231 R 203340	

## Minors

### Animal Science (60 credits)

#### No new enrolments

##### Compulsory course

117.254	Principles of Animal Science and Production .....	15 credits
	P 194101 or 199101 or 119154 or 117152	

##### Compulsory course selections

###### 15 credits from

194.101	Introductory Physiology .....	15 credits
199.101	Biology of Animals .....	15 credits

###### 15 credits from

117.255	Animal Health, Behaviour and Welfare .....	15 credits
	P One of 194101, 199101, 119154, 117152	

122.233	Metabolic Biochemistry .....	15 credits
	P 122102	

194.241	Physiological Control Systems .....	15 credits
	P 194101 or 214101 or 117155 or 199103	

**At least one 300-level course from the 117 prefix courses listed under the Animal Science major**

### Biochemistry (90 credits)

#### No new enrolments

##### Compulsory courses

122.102	Biochemistry .....	15 credits
	P 123101 or 123104 or 123103 (A) R 122222, 227111, 227106	

123.101	Chemistry and Living Systems .....	15 credits
	R 123171	

162.101	Cell Biology .....	15 credits
---------	--------------------	------------

##### Compulsory course selections

**45 credits at 200 and 300-level with at least 15 credits at 300-level, with the prefix 122**

### Biological Sciences (60 credits)

#### No new enrolments

##### Course selection

###### 15 credits from

120.101	Plant Biology .....	15 credits
162.101	Cell Biology .....	15 credits
199.101	Biology of Animals .....	15 credits

**45 credits at 200-level and 300-level, with at least 15 credits at 300 level, selected from majors listed in the Biological Sciences Schedule**

### Biostatistics (60 credits)

#### No new enrolments

##### Compulsory course

161.331	Biostatistics .....	15 credits
	P 161250 or 161251 or 161220 or 161221 R 161327, 161778	

##### Compulsory course selection

###### 15 credits from

161.101	Statistics for Business .....	15 credits
	R 115101, 161100, 161111, 161120, 161122, 161130, 161140	

161.120	Introductory Statistics .....	15 credits
	R 115101, 161100, 161101, 161130, 161140	

161.130	Introductory Biostatistics .....	15 credits
	R 161100, 161101, 161120, 161140, 115101	

###### 15 credits from

161.220	Data Analysis .....	15 credits
	P 161101, 161111, 161120, 161122 or 161130 R 161250	

161.221	Applied Linear Models .....	15 credits
	P (One of (161122 or 161220 or 233214) and one of (160101 or 160102 or 160105)) or one of 161101, 161120 or 161130 R 161251	

161.250	Data Analysis .....	15 credits
	P 1611xx R 161220	

###### 15 credits from

122.231	Genes and Gene Expression .....	15 credits
	P 162101 and (123101 or 123103 or 123104) R 203211 and 203240	

175.203	Introduction to Psychological Research .....	15 credits
	P 175102	

196.205	Ecology and Conservation .....	15 credits
	P 1611xx and one of (196101 or 199101 or 199103 or 120101 or 121103)	

196.350	Quantitative Marine Ecology .....	15 credits
	P 161220 or 161250	

199.204 Animal Behaviour .....	15 credits
P 199101, 1611xx	
199.312 Behavioural Ecology .....	15 credits
P (199203 or 199204 or 161250) and (196207 or 196217 or any other 1962xx or 1992xx course) R 196307	
203.300 DNA Technology .....	15 credits
P 122231 R 203340	
203.328 Genome Analysis .....	15 credits
P 203300 R 122328	
214.311 Epidemiology and Communicable Diseases .....	15 credits
233.251 GIS and Remote Sensing .....	15 credits
P 233101 or 189151 or 145121 or 158100 R 233201, 233204	

**Equine (60 credits)**

**No new enrolments**

**Compulsory courses (45 credits from)**

286.101 Equine Production .....	15 credits
R 117154, 117257	
286.221 Structure and Function of the Equine Athlete .....	15 credits
P 119154 or 286131 or 117161 or 214171 R 117259	
286.321 Responses to Training in the Equine Athlete .....	15 credits
P One of 117152, 117153, 117155 or 194101	

**15 credits from**

286.222 The Equine Lower Limb .....	15 credits
P 117161 or 286131 or 117154 or 286101 R 117171, 117260	
286.251 Equine Behaviour, Training and Welfare .....	15 credits

**Genetics (60 credits)**

**No new enrolments**

**Compulsory courses**

122.231 Genes and Gene Expression .....	15 credits
P 162101 and (123101 or 123103 or 123104) R 203211 and 203240	
162.101 Cell Biology .....	15 credits

**15 credits from**

203.300 DNA Technology .....	15 credits
P 122231 R 203340	
203.340 Applied Molecular Biology .....	15 credits
P 122231 or 203240 R 203300	

**At least 15 credits at 200 level or 300 level with the prefix 203**

**Geography (75 credits)**

**No new enrolments**

**At least 75 credits, with at least 45 credits at 200 level and 300 level, including at least 15 credits at 300 level, with the prefix 145**

**Horticulture (60 credits)**

**No new enrolments**

**Compulsory courses**

284.101 Production Horticulture .....	15 credits
R 171127, 171128	
284.201 Horticultural Production Systems .....	15 credits
P 119120 or 284101	
284.301 Horticultural Crop Development & Yield .....	15 credits
P 284201 R 171327, 171328	

284.342 Horticultural Productivity and Quality .....	15 credits
P 120217 or 284201	

**Logistics and Supply Chain Management (60 credits)**

**No new enrolments**

**Compulsory courses**

240.260 Logistics and Supply Chain Fundamentals .....	15 credits
R 115260	
240.263 Logistics Operations .....	15 credits
R 240261	

**Compulsory course selection (30 credits from)**

240.363 Supply Chain Integration .....	30 credits
P 240260 or 240261 or 240263 R 240360, 240361	
240.364 Purchasing and Supply Management .....	15 credits
P 240260 or 240261 or 240263 R 240360, 240361	
240.365 Demand Chain Management .....	15 credits
P 240260 or 240261 or 240263 R 240360, 240361	

**Marine Ecology (60 credits)**

**No new enrolments**

**Compulsory courses**

196.326 Topics in Marine Ecology .....	15 credits
P Any two 200-level courses from prefixes 194, 196, 199	
196.327 Marine Mammalogy .....	15 credits
P (199101 or 199103) and (196225 or 199212)	
199.101 Biology of Animals .....	15 credits
<b>15 credits from</b>	
194.245 Animal Form and Function .....	15 credits
P 199101 or 194101 R 194243	
196.225 Introductory Marine Biology .....	15 credits
P 196101 and (199101 or 199103)	

**Nanoscience (90 credits)**

**No new enrolments**

**Compulsory courses**

123.101 Chemistry and Living Systems .....	15 credits
R 123171	
123.102 Chemistry and the Material World .....	15 credits
R 123172	
123.315 Chemistry and Nanoscience Research Project .....	15 credits
P (236201, 124230, 124226) or (123201, 123202, 123203, 123204) R 236302	
124.111 Physics for Life Sciences .....	15 credits
R 124101, 124171	
236.201 Nanoscience .....	15 credits
P 123102 (or 123172), 124101 (or 124111 or 124171) R 142312, 280312	
236.301 Advanced Nanoscience .....	15 credits
P 123201 or 236201 R 123325, 280412	

**Plant Biology (60 credits)**

**No new enrolments**

**Compulsory course**

120.101 Plant Biology .....	15 credits
-----------------------------	------------

**45 credits at 200-level and 300-level, with at least 15 credits at 300-level, with the prefix 120**

**The Degree of Bachelor of Social Work  
BSW**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

1. Admission to the Degree of Bachelor of Social Work requires that the candidate will:

- (a) meet the University admission requirements as specified;
- (b) meet the requirements for registration as set down by the New Zealand Social Workers Registration Board in terms of candidates being 'fit and proper persons to practice social work';
- (c) provide satisfactory evidence of their proficiency in English, if English is not the applicant's first language, in the form of:
  - (i) overall academic score of at least 6.5 in an IELTS assessment with no band score less than 6.5 within the preceding two years; or
  - (ii) A TOEFL internet-based test (iBT) score of 85 or higher with a writing score of 22; or
  - (iii) at least two years of successful study in a New Zealand

secondary school, with at least ten Level 2 NCEA credits in Literacy (five reading and five writing) or equivalent; and

(d) be selected into the programme.

#### Qualification Requirements

2. Candidates for the Bachelor of Social Work shall follow a parts-based programme of study, which shall consist of courses totalling at least 480 credits, comprising:
  - (a) Parts One, Two, Three, and Four;
  - (b) at least four years of study; and including:
  - (c) any compulsory courses listed in the Schedule to the Degree;
  - (d) attending field trips, workshops, tutorials, and practice laboratories as required.

#### Specialisations

3. The Degree of Bachelor of Social Work is awarded without specialisation.

#### Academic Requirements

4. Every candidate for the Bachelor of Social Work shall complete the required Field Education courses and at least 120 days of approved supervised field education and associated reports, in accordance with the requirements of the following courses:
  - (a) 179.255 Introduction to Field Education
  - (b) 179.355 Field Education I
  - (c) 179.455 Field Education II.

#### Student Progression

5. Candidates may progress from Parts One to Two, Two to Three, and Three to Four, by passing all courses in the prior part.
6. The Academic Board may, under such conditions as it may determine and taking into account the recommendations of the examiners, admit any candidate to a supplementary privilege (normally an examination) where available in a course in which the candidate failed to gain a pass.
7. Notwithstanding Regulation 5:
  - (a) Candidates shall not enrol in Part II unless they have passed courses to at least 75 credits. The candidate may on the recommendation of Academic Board, be permitted to enrol in approved courses of Part II in the same year that the candidate is enrolled in the remaining courses of the previous part.
  - (b) Candidates shall not enrol for Part III unless they:
    - (i) have passed all the compulsory requirements of the previous parts except that a candidate who has passed all the prerequisites for entry to Part III of the degree, except one of the compulsory courses in Part I or Part II may, with the approval of the Academic Board, be permitted to enrol in Part III;
    - (ii) have been admitted to Part III by a selection process approved by the Head of School; and
    - (iii) hold a current full driver's licence valid in New Zealand unless otherwise exempted.
  - (c) Candidates shall not enrol in Part IV unless they have been admitted to Part IV by a selection process approved by the Head of School.
8. Candidates must continue to meet the requirements for registration as set down by the New Zealand Social Workers Registration Board in terms of candidates being 'fit and proper persons to practice social work'; Candidates must advise the Programme Coordinator of any change to their circumstances in this regard within 7 days, including any conviction or criminal charges pending. Annual confirmation of eligibility is required.
9. The Degree of Bachelor of Social Work may be awarded with or without a class of Honours.

#### Completion Requirements

10. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
11. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Arts should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

12. For candidates enrolled in the Degree of Bachelor of Social Work, the following will lead to exclusion from the qualification:
  - (a) Failure to continue to meet the requirements for registration as set down by the New Zealand Social Workers Registration Board in terms of candidates being 'fit and proper persons to practice social work';
  - (b) Failure to obtain a pass in either 179.355 or 179.455 on their second attempt;
  - (c) Persons excluded under clause 12(b) will only be re-admitted to the Degree of Bachelor of Social Work with approval of the Academic

Board, which may be declined, or granted under such conditions as it may determine.

#### Transitional Provisions

13. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I qualification regulations, candidates enrolled in the Bachelor of Social Work prior to 1 January 2022 will be granted the following substitutions:
  - (a) 30 credits of elective courses for 179.120 and 179.121
  - (b) 279.201 for 179.240
  - (c) 279.401 for 179.340
  - (d) 179.410 for 179.430 and 179.431
  - (e) 179.420 for 179.432 and 179.433

These transition arrangements expire 31 December 2025.

### Schedule for the Bachelor of Social Work

#### Part One (120 credits from)

150.103 Nau mai e noho: Engaging with Māori .....	15 credits
176.101 The Sociological Imagination .....	15 credits
179.110 Creating a Foundation for Social and Community Work .....	15 credits
179.120 Environmental Sustainability in Social and Community Work .....	15 credits
179.121 Identity Development in Aotearoa New Zealand .....	15 credits
179.155 A Foundation of Interpersonal Skills for the Helping Professions .....	15 credits
275.102 Human Development .....	15 credits
R 208102, 209102	
279.101 Social Policy: An Introduction .....	15 credits
R 179101	

#### Part Two (No New Enrolments in 2023) (120 credits from)

150.201 Te Kawenata o Waitangi: The Treaty of Waitangi in New Zealand Society R 269274 .....	15 credits
150.205 Kura Mai Tawhiti: Māori Knowledge .....	15 credits
P 15 credits at 100-level from the 150 or 300 course prefix series	
179.202 Applied Research for Social Policy and Social Work .....	15 credits
179.210 Social Work Theories, Assessment and Interventions .....	15 credits
P 179155 and (179110 or 147102)	
179.230 The Wellbeing of Pacific Peoples in New Zealand .....	15 credits
179.255 Introduction to Field Education .....	15 credits
P 179155 C 150201	
279.201 Social Policy: Concepts and Theories .....	15 credits
P 279101 or 179101 or 200162; 279101 or 179101 for BSW	
279.203 Law, Government and Social Policy .....	15 credits
P 279101 or 179101 or 200162 (179102 to 2009)	

#### Part Two (from 2023) (120 credits from)

150.201 Te Kawenata o Waitangi: The Treaty of Waitangi in New Zealand Society R 269274 .....	15 credits
150.205 Kura Mai Tawhiti: Māori Knowledge .....	15 credits
P 15 credits at 100-level from the 150 or 300 course prefix series	
179.202 Applied Research for Social Policy and Social Work .....	15 credits
179.210 Social Work Theories, Assessment and Interventions .....	15 credits
P 179155 and (179110 or 147102)	
179.230 The Wellbeing of Pacific Peoples in New Zealand .....	15 credits
179.240 Ethics, Values and Law in Social Work and Social Policy .....	15 credits
R 279201	
179.255 Introduction to Field Education .....	15 credits
P 179155 C 150201	
279.203 Law, Government and Social Policy .....	15 credits
P 279101 or 179101 or 200162 (179102 to 2009)	

#### Part Three (No New Enrolments in 2024) (105 credits from)

179.310 Integrated Practice with Groups and Families .....	15 credits
P 179210	
179.320 Community Development .....	15 credits
179.330 Māori Development and the Social Services .....	15 credits
179.355 Field Education I .....	45 credits
P 179255 C 179310, 179320, 179330	
279.301 Government Policy, Planning and Administration .....	15 credits
P 279201 or 179201	

#### Part Three (from 2024) (120 credits from)

179.310 Integrated Practice with Groups and Families .....	15 credits
P 179210	
179.320 Community Development .....	15 credits
179.330 Māori Development and the Social Services .....	15 credits
179.340 Developing Practice .....	15 credits
P 179255 C 179355 R 279401	
179.355 Field Education I .....	45 credits
P 179255 C 179310, 179320, 179330	
279.301 Government Policy, Planning and Administration .....	15 credits
P 279201 or 179201	

**Part Four (No New Enrolments in 2025) (135 credits from)**

179.410 Social Work Fields of Practice.....	30 credits
179.420 Advanced Social Work Practice .....	30 credits
179.440 Management in the Social Services .....	15 credits
179.455 Field Education II .....	45 credits
P 179355 C 179410, 179420	
279.401 Social Policy Evaluation.....	15 credits
P 279301 or 179301 R 179462	

**Part Four (from 2025) (120 credits from)**

179.430 Integrated Social Work Practice – Authenticising Practice.....	15 credits
P 179310 R 179410	

179.431 Consolidating Practice .....	15 credits
P 179340 and 179355 R 179410	
179.432 Ahurea ki uta, Ahurea ki tai .....	15 credits
R 179420	
179.433 Selected Study in Policy, Practice or Diverse Populations .....	15 credits
R 179420	
179.440 Management in the Social Services .....	15 credits
179.455 Field Education II .....	45 credits
P 179355 C 179410, 179420	

## The Degree of Bachelor of Speech and Language Therapy BSpchLangTher

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

1. Admission to the Degree of Bachelor of Speech and Language Therapy with Honours requires that the candidate will:
  - (a) meet the University admission requirements as specified; and will have:
  - (b) been selected into the Qualification based on a selection process that will include a written application, criminal record check, interview and referee checks; and
  - (c) achieved an IELTS of 7.0 with no band less than 7.0 within the preceding two years if English is not the applicant’s first language.

##### Qualification Requirements

2. Candidates for the Bachelor of Speech and Language Therapy shall follow a programme of study, which shall consist of courses totalling at least 480 credits, comprising Part 1, Part 2, Part 3, Part 4 courses, as specified in the Schedule to the Qualification.

##### Specialisations

3. There are no specialisations for this qualification.

##### Academic Requirements

4. Every candidate for the Degree of Bachelor of Speech and Language Therapy shall perform to the satisfaction of the College Pro Vice-Chancellor or their delegate supervised clinical practice, in accordance with the requirements of the following courses:
  - 271.256 Field Work and Clinical Skills I
  - 271.396 Field Work and Clinical Skills II
  - 271.496 Advanced Clinical Course I
  - 271.498 Advanced Clinical Course II.

##### Student Progression

5. In order to progress from Part 1 to Part 2, Part 2 to Part 3, or Part 3 to Part 4 a candidate must have passed all courses in the preceding Part.

##### Completion Requirements

6. A Candidate’s programme of study may not exceed eight consecutive years, unless a specified time of suspension or extension has been approved by the College Pro Vice-Chancellor or their delegate, under such conditions as they may determine. Permission must be sought in advance of any suspension or extension by applying in writing to the Pro Vice-Chancellor or their delegate. Details of any suspension or extension granted will appear on the academic record.
7. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

##### Unsatisfactory Academic Progress

8. For candidates enrolled in the Bachelor of Speech and Language Therapy the following will lead to exclusion from the qualification:
  - (a) failure to complete a compulsory course in two successive attempts;
  - (b) failure to pass courses totalling at least 75 credits or failure to pass at least 60 percent of an approved part-time programme of study in any academic year;
  - (c) failure to complete the degree within eight consecutive years, unless a suspension or extension has been granted under Clause 7.

#### Transitional Provisions

9. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Bachelor of Speech and Language Therapy prior to 01 January 2021 will be permitted to substitute 271151, if already completed, for 214101. These transition arrangements expire 31 December 2027.

### Schedule for the Bachelor of Speech and Language Therapy

#### Part One

172.133 Introduction to Language Studies .....	15 credits
172.234 Phonetics .....	15 credits
175.102 Psychology as a Natural Science .....	15 credits
214.101 Human Bioscience: Normal Body Function .....	15 credits
R 194101, 117155	
230.110 Tūrangawaewae: Identity & Belonging in Aotearoa NZ.....	15 credits
254.102 Introduction to Professional and Ethical Practice in Education and Health Contexts.....	15 credits
271.150 Holistic Approaches to Communication Disorders .....	15 credits
271.154 Communication Development in Children.....	15 credits

#### Part Two

175.206 Memory and Cognition .....	15 credits
P 175102	
271.253 Early Years Language and Communication Support .....	15 credits
271.254 Speech Sound Disorders in Children .....	15 credits
271.255 Assessment Frameworks and Procedures for Speech-language Therapy Practice .....	15 credits
C 271253 and 271254.....	
271.256 Introduction to Speech-language Therapy Practice .....	15 credits
P 271255	
271.257 Language and Communication Support in Educational Contexts .....	15 credits
P 271253	
271.258 Neurogenic Communication Disorders I .....	15 credits
271.259 Deaf and Hard of Hearing .....	15 credits
P Completion of BSLT Hons Part 1	

#### Part Three

172.233 Language Learning Processes .....	15 credits
271.392 Augmentative and Alternative Communication .....	15 credits
271.393 Neurogenic Communication Disorders II .....	15 credits
271.394 Motor Speech Disorders .....	15 credits
271.395 Fluency Disorders .....	15 credits
271.396 Field Work and Clinical Skills II.....	15 credits
271.397 Adult Dysphagia .....	15 credits
271.398 Research Methods for Speech and Language Therapy .....	15 credits

#### Part Four

254.337 Teaching and Learning with Pasifika Peoples in NZ .....	15 credits
271.486 Speech and Language Therapy Practice and Diverse Clinical Populations .....	15 credits
.....	
271.487 Paediatric Dysphagia and Feeding Disorders .....	15 credits
271.488 Aural Rehabilitation, Assessment and Intervention .....	15 credits
271.489 Voice Disorders, Assessment and Treatment .....	15 credits
271.490 Advanced Topics in Speech and Language Therapy .....	15 credits
271.496 Advanced Clinical Course I.....	15 credits
271.498 Advanced Clinical Course II.....	15 credits
P 271496 R 186498	

# The Degree of Bachelor of Sport and Exercise

## BSpEx

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

1. Admission to the Degree of Bachelor of Sport and Exercise requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

2. Candidates for the Degree of Bachelor of Sport and Exercise shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - (a) not more than 165 credits at 100-level;
  - (b) at least 75 credits at 300-level;
 and including:
  - (c) completion of one major
  - (d) the core courses listed in Schedule A to the Qualification;
  - (e) any compulsory courses listed in the Schedule to the Qualification;
  - (f) at least 285 credits from the courses listed in the Schedule for the Qualification, of which at least 75 credits must be at 300-level;
  - (g) attending field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

3. The Degree of Bachelor of Sport and Exercise is awarded with a major.
4. Candidates may complete a major by passing at least 180 credits in a specialisation. The requirements for each major are set out in Schedule B to the Qualification.
5. Approved majors are: Exercise Prescription, Management and Coaching, Sport Development and Physical Education
6. Candidates may include a minor in the Degree of Bachelor of Sport and Exercise.
  - (a) A minor must include a minimum of 60 credits, including at least 45 credits above 100-level, of which at least 15 credits must be at 300-level.
  - (b) The minor must be in a different subject area from the major(s).
  - (c) Minors may be included from any undergraduate degree within the University for which recognised minors are specified.
  - (d) Where the minor is from another undergraduate degree the regulations of that programme for the minor will apply.
  - (e) No course may be credited to both a major and a minor.
7. Approved minors are: Equine, and Sport and Exercise Psychology. The requirements for each minor are set out in Schedule C to the Qualification.

##### Student Progression

8. The Academic Board may, under such conditions as it may determine and taking into account the recommendations of the examiners, admit any candidate to a supplementary privilege (normally an examination) where available in a course in which the candidate failed to gain a pass.

##### Completion Requirements

9. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.
10. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Diploma in Science and Technology should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

11. The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

12. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Bachelor of Sport and Exercise prior to 1 January 2019 who have completed at least 15 credits may be permitted to substitute a course or courses already completed for a course

or courses included in the Schedule for the degree. Such students who are enrolled in either the Exercise Prescription and Training, or Physical Education major, may satisfy the credit requirements for the major in accordance with the requirements that were in place at the time of their first enrolment in a course contributing to that major, and, in the case of Exercise Prescription and Training may graduate under that title. Students completing without a major (available prior to 2019), who have completed at least 120 credits, may be exempt from the requirements of 2(c). All other students must fulfil the requirements of one major. These transitional arrangements expire on 31 December 2022.

13. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in either the Exercise Prescription or Physical Education major prior to 1 January 2020 who have successfully completed 214.101 may substitute this for 214.131 or 151.131 in order to fulfil the qualification and academic requirements until 31 December 2022.
14. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Sport Development major prior to 1 January 2020 who have successfully completed 156.239 may substitute this for 234.216 in order to fulfil the qualification and academic requirements until 31 December 2022.

### Schedule for the Bachelor of Sport and Exercise

#### Schedule A: Core courses

##### Compulsory courses (105 credits from)

234.111 Training Principles and Practice .....	15 credits
R 214166	
234.121 Functional Anatomy.....	15 credits
R 214170	
234.131 Introduction to Sport Development.....	15 credits
234.135 Sociology of Sport and Exercise.....	15 credits
R 234331	
234.140 Introduction to Physical Education.....	15 credits
R 274106	
234.141 Introduction to Human Movement and Hauora.....	15 credits
R 274104	
250.100 Health Communication .....	15 credits

#### Schedule B: Specialisations

##### Majors

##### Exercise Prescription (180 credits)

##### Compulsory courses

151.131 Introduction to Food and Nutrition.....	15 credits
R 141101, 151232, 151344, 214131	
151.332 Nutrition for Sport and Performance.....	15 credits
P 151232 or 234223	
234.213 Fitness Assessment.....	15 credits
R 214272	
234.214 Exercise Prescription .....	15 credits
P (214166 or 234111) and (214272 or 234213) R 214271, 234212	
234.215 Fitness and Athletic Conditioning .....	15 credits
P 234111 and 234121 R 234315	
234.222 Sport Biomechanics.....	15 credits
P 214170 or 234121 R 234201	
234.223 Exercise Physiology .....	15 credits
P 234121 or 214101 or 194101 R 234203	
234.242 Motor Learning and Control .....	15 credits
R 274254, 234224	
234.312 Advanced Exercise Prescription and Therapy .....	15 credits
P 214271 or 234212 or 234214 R 214371	
234.338 Sport and Exercise Practicum.....	30 credits
P One of 234214, 234215, 234236, 234243, 152237 or 234233, 152238, 234315 R 152371, 152372, 152376, 234316	
234.361 Exercise Psychology.....	15 credits

**Courses at 100, 200 or 300-level from the 234 course prefix series.****The Degree of Bachelor of Sport Management****BSptMgt****Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for

Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

1. Admission to the Degree of Bachelor of Sport Management requires that the candidate will meet the University admission requirements as specified.

**Qualification Requirements**

2. Candidates for the Degree of Bachelor of Sport Management shall follow a flexible programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - (a) not more than 150 credits at 100 level;
  - (b) at least 90 credits at 300 level;
 and including:
  - (c) the core courses listed in the Schedule for the Qualification;
  - (d) attending field trips, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

3. Candidates may include a minor in the Degree of Bachelor of Sport Management.
  - (a) Minors may be included from any undergraduate degree within the University for which recognised minors are specified.
  - (b) Where the minor is from another undergraduate degree the regulations of that programme for the minor will apply.
  - (c) No course may be credited to both a major and a minor.

**Academic Requirements**

4. Every candidate for the Degree of Bachelor of Sport Management shall complete to the satisfaction of the Academic Board, a minimum of 200 hours of approved field experience, practical work and associated reports in accordance with the following courses:
  - (a) 152.238 Professional Development for the Sport Industry;
  - (b) 234.338 Sport and Exercise Practicum

**Completion Requirements**

5. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
6. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an appropriate qualification, should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

7. The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

8. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who were enrolled in the Bachelor of Sport

Management prior to January 2019 may substitute courses already completed towards the core for courses in the Schedule until December 2022.

9. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who were enrolled in the Bachelor of Sport Management prior to January 2022 may substitute courses already completed towards the core for courses in the Schedule as follows: 156.239 for 152.271 and 219.100 for 115.111. These transition arrangements expire 31 December 2025.

R Restriction

C Corequisite

P Prerequisite

**The Degree of Bachelor of Veterinary Science**

**BVSc**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

The Bachelor of Veterinary Science consists of two parts, being a pre-selection phase followed by the professional phase.

1. Admission to the pre-selection phase of the Bachelor of Veterinary Science requires that the candidate will meet the University admission requirements as specified.
2. Entry to the professional phase is by selection in accordance with criteria established by the Veterinary Student Selection Sub-Committee, which will include consideration of academic performance, non-academic performance and relevant experience. Candidates whose first language is not English must show evidence of English language competence that meets the requirements of the Veterinary Council of New Zealand.
3. Notwithstanding Regulation 13 candidates seeking admission or re-admission into the Degree of Bachelor of Veterinary Science after the first year (100-level), will be prioritised in accordance with the criteria

outlined under the Progression, Re-Entry and Transfer Policy for the Degree and may only be (re)admitted should sufficient places be available.

**Qualification Requirements**

4. Candidates for the Bachelor of Veterinary Science shall follow a fixed programme of study, over at least 5 years, which shall consist of courses totalling at least 600 credits, comprising a first, second, third, fourth, and fifth year (100-, 200-, 300-, 400-, and 500- level). The courses for each year are prescribed in the Schedule to the Degree.
5. Notwithstanding Regulation 9, a candidate who has satisfied the requirements for a subject or course at a university or other tertiary institution where, in the opinion of the Academic Board, the content and standard are substantially the same as for the Degree of Bachelor of Veterinary Science may, subject to the approval of, and under conditions required by, the Programme Director, be given credit for that subject.
6. Candidates may, at the discretion of Academic Board, be permitted to enrol into the Bachelor of Veterinary Science after the first year, but no later than the start of the fourth year, subject to:
  - (a) being in good standing in a recognised Veterinary Science degree programme or equivalent; and
  - (b) having passed, with sufficient merit, courses recognised as equivalent to specified BVSc courses or unspecified credit, not exceeding 360 credits.

**Specialisations**

7. The Degree of Bachelor of Veterinary Science is awarded without specialisation.

**Academic Requirements**

8. Every candidate for the Degree of Bachelor of Veterinary Science shall perform, to the satisfaction of the Academic Board, approved practical work in accordance with the following courses:
- 227.110 Farm Practical Training;
  - 227.310 Farm Practical Work;
  - 227.410 Veterinary Practical Work.
- Credit will be given only for the practical work completed in accordance with the conditions detailed by the Veterinary Practical Work Committee.

**Student Progression**

9. Candidates must pass all courses offered in each year of the programme before progressing to the next year of the programme. This includes all zero-credited courses. In special circumstances, 227.110 may be deferred until the second year of the programme with permission of the Programme Director but must be passed no later than 31 December of the BVSc2 year before the candidate may progress to the next year of the programme.
10. Students required by Regulation 2 to show proof of English Language competence may, under special circumstances and with permission from the Head of School or delegate, defer such provision and proceed to the First Year of the professional phase. In order to proceed to the Second Year, proof of English Language competence that meets the requirements of the Veterinary Council of New Zealand, must be provided by 15 February of the year in which the student plans to commence the Second Year of the BVSc.
11. The Academic Board (or its delegate) may admit any candidate to a supplementary assessment in a subject or subjects in which the candidate failed to gain a pass, in accordance with the BVSc Supplementary Assessment Policy.
12. The Academic Board may grant students a compensated pass with a C-grade for any one course in a year in the light of their overall performance for the year, where either of the following conditions apply:
- only that course in the year is failed with either an overall mark of at least 48% and at least a C+ grade pass has been obtained in all other courses in the year; or
  - for an assessment with a compulsory minimum mark, the attained mark is no more than 2 percentage points below the minimum required, at least a C+ grade has been obtained for all other assessments for that course, and the minimum marks have been achieved in all other courses that year.
13. Candidates must re-enrol in consecutive academic years unless approved in writing by the Programme Director.
14. The Bachelor of Veterinary Science may be awarded with Distinction to the top 15 percent of the final year class, based on the grade average achieved upon first attempt in 300-, 400- and 500-level courses.

**Completion Requirements**

15. A candidate's programme of study may not exceed 8 years from the date of first enrolment in the professional phase of the Bachelor of Veterinary Science, unless a specified time of suspension or extension has been approved by the Academic Board. Extensions granted will appear on the candidate's academic record.
16. Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an exit qualification should they meet the relevant qualification requirements.

**Unsatisfactory Academic Progress**

17. For candidates enrolled in the Degree of Bachelor of Veterinary Science, any one of the following will lead to exclusion from that programme:
- failure of the first semester of the professional phase of the programme;
  - failure of the same year in two successive attempts;
  - failure of any two years of the programme;
  - not passing all courses in a year on the first attempt (i.e. without supplementary assessments or repeating the year) in any 3 years of the programme;
  - failure to complete the requirements of the Degree within 8 years from the date of first enrolment in the professional phase of the Degree;
  - Persons excluded under clause 17(a) or 17(e) will only be re-admitted to the BVSc programme with approval of Academic Board under such conditions as it may determine;
  - Persons excluded under clause 17(b) or 17(c) or 17(d) above will not be permitted to re-enrol for the BVSc degree.

18. Breaches of professional conduct:

For candidates enrolled in the Degree of Bachelor of Veterinary Science, any one of the following may lead to exclusion from that programme:

- being subject to criminal charges; or
- being subject to disciplinary proceedings of the University or of a professional body; or
- significant or repeated breaches of the Veterinary Student Code of Conduct.

**Transitional Provisions**

19. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Bachelor of Veterinary Science prior to 2019 who have taken 227.211 may substitute this course for 227.218 and 227.219. These transitional arrangements expire on 31 December 2022.
20. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in Part I regulations for the degree, candidates who were enrolled in the Bachelor of Veterinary Science prior to January 2020 may be exempt from the Regulation 17(c) and 17(d) until December 2024.
21. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in Part I regulations for the degree, candidates enrolled in the Bachelor of Veterinary Science prior to January 2021 who have completed 227.213, 227.214, 227.216, 227.217, 227.218 and 227.219 may substitute these for 227.222, 227.223, 227.225, 227.226, 227.221 and 227.224. These transition arrangements expire 31 December 2024.
22. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in Part I regulations for the degree, candidates enrolled in the Bachelor of Veterinary Science prior to January 2021 who have completed 227.412 and 227.417 may substitute these for 227.433, 227.431 and 227.432. These transition arrangements expire 31 December 2022.

**Fifth Year**

227.511 Veterinary Clinics and Public Health .....	120 credits
P 120 credits from 2274xx	

## The Degree of Bachelor of Veterinary Technology

### BVetTech

**No new enrolments****Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II****Admission**

The Degree of Bachelor of Veterinary Technology consists of two phases, being a pre-selection phase followed by the professional phase.

- Admission to the pre-selection phase of the Bachelor of Veterinary Technology requires that the candidate will meet the University admission requirements as specified.
- Entry to the professional phase is by selection in accordance with criteria established by the Veterinary Student Selection Sub-Committee, which will include consideration of academic performance, non-academic performance, and relevant experience.
- Candidates seeking admission or re-admission into the Degree of Bachelor of Veterinary Technology after Part One of the professional phase will be ranked in accordance with the criteria outlined under the Progression and Re-Entry Policy for the Degree and may only be (re) admitted should sufficient places be available.

**Qualification Requirements**

- Candidates for the Degree of Bachelor of Veterinary Technology shall follow a parts-based programme of study, over at least 3 years, which shall consist of courses totalling at least 360 credits, comprising:
  - a Pre-Selection Phase, and then Part One, Part Two and Part Three in the professional phase;
  - completion of the requirements for a Track; and including:
    - no more than 165 credits at 100 level;
    - at least 75 credits at 300 level.

The Bachelor of Veterinary Technology Parts are prescribed in the Schedule to the Degree.
- Notwithstanding Regulation 4, a candidate who has satisfied the requirements for a subject or course at a university or other tertiary institution where, in the opinion of the Academic Board, the content and standard are substantially the same as for the Degree of Bachelor of Veterinary Technology may, subject to the approval of, and under conditions required by the Programme Director, be given credit for that subject.
- Notwithstanding Regulation 4, a candidate who has been awarded the Diploma in Veterinary Nursing from Massey University may be credited with courses at any level to a maximum of 150 credits.

**Specialisations**

- The Degree of Bachelor of Veterinary Technology is awarded without specialisation.

**Academic Requirements**

- Every candidate for the Degree of Bachelor of Veterinary Technology shall perform to the satisfaction of the Academic Board, approved practical work in accordance with the following courses:
  - 193.105 Veterinary Technology Practical Experience and Farm Training;
  - 193.220 Veterinary Technology Clinical Experience;
  - 193.306 Integrative Studies for Veterinary Technologists,
- Failure to complete practical placement requirements of Regulation 8(a) will preclude candidates from entry into Part Two and failure to complete

practical requirements of Regulation 8(b) will preclude candidates from entry into Part Three.

**Student Progression**

- In order to progress from Pre-Selection Phase to Part One, Part One to Part Two, or Part Two to Part Three, a candidate must have passed all courses in the preceding Part.
- The Academic Board (or its delegate) may admit any candidate to a supplementary assessment in a subject or subjects in which the candidate failed to gain a pass, in accordance with the BVetTech Supplementary Assessment Policy.
- The Academic Board may grant students a compensated pass with a C-grade for any one course in light of their overall performance for the year, where either of the following conditions apply:
  - only one course in the year is failed with an overall mark of at least 48% and at least a C+ grade pass has been obtained in all other courses in the year; or
  - for an assessment with a compulsory minimum mark, the attained mark is no more than 2 percentage points below the minimum required, at least a C+ grade has been obtained for all other assessments for that course, and the minimum marks have been achieved in all other courses that year.
- Candidates must re-enrol in consecutive academic years unless approved in writing by the Programme Director.

**Completion Requirements**

- A candidate's programme of study may not exceed 5 years from the date of first enrolment in the professional phase of the Bachelor of Veterinary Technology, unless a specified time of suspension or extension has been approved by the Academic Board. Extensions granted will appear on the candidate's academic record.
- Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an exit qualification should they meet the relevant qualification requirements.

**Unsatisfactory Academic Progress**

- For candidates enrolled in the Degree of Bachelor of Veterinary Technology, any one of the following will lead to exclusion from that programme:
  - failure to pass any course in which they have enrolled on two occasions;
  - failure to complete the requirements of the degree within five years from the date of first enrolment in the professional phase of the degree;
  - persons excluded under regulation 16(a) or 16(b) will only be re-admitted to the Degree of Bachelor of Veterinary Technology with approval of the Academic Board under such conditions as it may determine.
- Breaches of professional conduct: For candidates enrolled in the Degree of Bachelor of Veterinary Technology, any one of the following may lead to exclusion from that programme:
  - being subject to criminal charges; or
  - being subject to disciplinary proceedings of the University or of a professional body; or
  - significant or repeated breaches of the Veterinary Student Code of Conduct.

**Transitional Provisions**

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in Part I regulations for the degree, candidates who commenced study towards the Bachelor of Veterinary Technology prior to 1 January 2020 may substitute courses already taken towards the qualification for courses at the same level in

the qualification schedule, and 122.222 for 122.106. These transition arrangements expire 31 December 2023.

19. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in Part I regulations for the degree, candidates who commenced study towards the Bachelor of Veterinary Technology prior to 1 January 2020 and fail to pass a Part Two 200-level course may substitute the new Part Two 200-level course equivalent to the failed course. These transition arrangements expire 31 December 2023.
20. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in Part I regulations for the degree, candidates who commenced study towards the Bachelor of Veterinary Technology prior to 1 January 2020 and fail to pass a Part Three 300-level course may substitute the new Part Three 300-level course equivalent to the failed course. These transition arrangements expire 31 December 2023.

## Schedule for the Bachelor of Veterinary Technology

### Schedule A: Subjects for Examination

#### Pre-Selection Phase

123.104 Chemistry for Biological Systems.....	15 credits
R 123101, 123171	
124.103 Biophysical Principles.....	15 credits
R 160101, 160102, 160103, 160104, 160105, 160111, 160112, 160132, 160133, 124100, 124104, 124105, 124111	
162.101 Cell Biology.....	15 credits
199.103 Animals and the Environment.....	15 credits
R 199101	

#### Professional Phase

##### Part One courses

122.106 Veterinary Biochemistry.....	15 credits
R 122102, 122222, 227106, 227111	
193.105 Veterinary Technology Practical Experience and Farm Training.....	0 credits
R 193125	
193.107 Animal Behaviour and Welfare for Veterinary Technologists.....	15 credits
193.124 Anatomy for Veterinary Technologists.....	15 credits
194.109 Physiology for Veterinary Technologists.....	15 credits

##### Part Two courses

117.254 Principles of Animal Science and Production.....	15 credits
P 194101 or 199101 or 119154 or 117152	
122.222 Biochemistry for Technology.....	15 credits
193.204 Pathology for Veterinary Technologists.....	15 credits
P 193103, 193122, 193124, 194101, (119155 or 247155), (193125 or 193105)	
193.205 Anaesthetic Monitoring and Equipment.....	15 credits
P 193103, 193122, 193124, 194101, (119155 or 247155), (193125 or 193105)	
193.211 Infectious Diseases of Animals.....	15 credits
P 193103, 193122, 193124, 194101, (119155 or 247155), (193125 or 193105)	
193.212 Veterinary Medical Nursing.....	15 credits
P 193103, 193122, 193124, 194101, (119155 or 247155), (193125 or 193105)	
193.214 Pharmacology & Toxicology for Veterinary Technologists.....	15 credits
P 193103, 193122, 193124, 194101, (119155 or 247155), (193125 or 193105)	
193.219 Surgery and Imaging.....	15 credits
P 193103, 193122, 193124, 194101, (119155 or 247155), (193125 or 193105)	
C 193205, 193204, 117254	
193.220 Veterinary Technology Clinical Experience.....	0 credits
P 193103, 193122, 193124, 194101, (119155 or 247155), (193125 or 193105)	

##### Part Three courses

193.301 Veterinary Biostatistics and Epidemiology for Veterinary Technologists.....	15 credits
C 193306	
193.303 Advanced Clinical Studies.....	15 credits
C 193306	
193.306 Integrative Studies for Veterinary Technologists.....	60 credits
P 193204, 193205, 193211, 193212, 193214, 193219, 193220, 117254 and (122102 or 122222) R 193302	

and 30 credits from one of the tracks in Schedule B.

### Schedule B

#### Equine Track

117.243 Animal Reproduction and Lactation in Livestock.....	15 credits
P One of 117153, 117155 or 194101	

117.302 Monogastric Animal Nutrition.....	15 credits
P 117201 or 117202 or 117254 R 117342	
117.342 Animal Nutrition.....	15 credits
P 117254	
193.304 Animal Welfare Emergency Management.....	15 credits
P 193204 or 130202 or 1172xx or 1192xx or 1122xx	
286.101 Equine Production.....	15 credits
R 117154, 117257	
286.201 Equine Production.....	15 credits
R 286101	
286.211 Equine Reproduction and Breeding.....	15 credits
R 117258	
286.221 Structure and Function of the Equine Athlete.....	15 credits
P 119154 or 286131 or 117161 or 214171 R 117259	
286.222 The Equine Lower Limb.....	15 credits
P 117161 or 286131 or 117154 or 286101 R 117171, 117260	
286.251 Equine Behaviour, Training and Welfare.....	15 credits
286.301 The Equine Lower Limb.....	15 credits
R 286222	
286.321 Responses to Training in the Equine Athlete.....	15 credits
P One of 117152, 117153, 117155 or 194101	

#### Large Animal Track

117.303 Ruminant Animal Nutrition.....	15 credits
P 117201 or 117202 or 117254 R 117342	
117.342 Animal Nutrition.....	15 credits
P 117254	
117.345 Genetics for Livestock Improvement.....	15 credits
P One of 117201, 117245 or 117254 or 203202	
117.347 Reproductive and Lactational Physiology.....	15 credits
P 117254	
117.371 Animal Production.....	15 credits
P One of 117201, 117202 or 117254	
117.381 Solving Problems in Animal Production.....	15 credits
P One of 117201, 117202 or 117254	
193.304 Animal Welfare Emergency Management.....	15 credits
P 193204 or 130202 or 1172xx or 1192xx or 1122xx	

#### Management/Business Track

114.241 Principles of Human Resources Management.....	15 credits
115.112 Accounting for Business.....	15 credits
R 115102	
115.115 Management in Context.....	15 credits
R 115108	
115.116 Introduction to Marketing.....	15 credits
R 115104	
152.232 Small Business Management.....	15 credits
193.304 Animal Welfare Emergency Management.....	15 credits
P 193204 or 130202 or 1172xx or 1192xx or 1122xx	

#### Small Animal Track

117.361 Companion Animal Science.....	15 credits
193.304 Animal Welfare Emergency Management.....	15 credits
P 193204 or 130202 or 1172xx or 1192xx or 1122xx	
193.305 Advanced Animal Behaviour.....	15 credits
P 193212 or 117255 or 175102 or 199101 or 286251	
194.241 Physiological Control Systems.....	15 credits
P 194101 or 214101 or 117155 or 199103	
194.242 Physiology of Mammalian Organ Systems.....	15 credits
P 194101 or 214101 or 117155 or 117153 or 199103	

# The Degree of Te Aho Tātaurangi: Bachelor of Teaching Māori Medium / Diploma Māori Education BTchgMāoriMed/DipMāoriEd

## No new enrolments

## Qualification Regulations

### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

### Part II

#### Admission

- Students admitted to Te Aho Tātaurangi: BTchgMāoriMed/DipMāoriEd shall before enrolment have:
  - demonstrated a high level of competency in Te Reo Māori me ōna tikanga;
  - demonstrated competence in literacy and numeracy (including but not limited to English); and;
  - met the requirements set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher.
- While the University will endeavour to meet the general terms and requirements of the Teaching Council of Aotearoa New Zealand in good faith, the final decision for registration is at the discretion of the Teaching Council of Aotearoa New Zealand.
- Admission to the programme shall be granted or withheld upon consideration of criteria 1(a) and (b) and upon an interview for selection where this is required.

#### Qualification Requirements

##### Duration and Total Credits Value

- Students enrolled for this programme shall follow an approved programme of study equivalent to four full-time years and pass courses with a total value of at least 480 credits as specified below unless credit is granted under the Recognition of Prior Learning Regulations.

##### Special Requirements

- Te Aho Tātaurangi: BTchgMāoriMed/DipMāoriEd must be completed concurrently as a single programme of study. Only when all of the requirements of both component qualifications have been completed may the degree/diploma be conferred upon the candidate.

##### Programme Structure and Content

- The programme of study for the Te Aho Tātaurangi: BTchgMāoriMed/DipMāoriEd must include no fewer than 150 credits at the 300 level or above, and a total of 60 credits in Te Reo Māori including 150.311 or 300.311. The programme must also include courses as specified in the Te Aho Tātaurangi: BTchgMāoriMed/DipMāoriEd schedule.

##### Practical Requirements

- Supervised student teaching is a requirement of the degree. Each of the Te Kawa o Te Kura (professional practice) courses includes supervised teaching experience as well as college-based course work. Students are required to pass both the teaching experience component and the course work component to pass these courses.

##### Student Progression

- Massey University may cancel or refuse to permit the registration of a student in an Initial Teacher Education programme if a student, in the opinion of the University, is found not to meet in general terms the requirements set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher.
- Should a student in an Initial Teacher Education programme be convicted of an offence against the law after entry into the programme, the student must advise the College Pro Vice-Chancellor or their nominee of the conviction within seven days.
- If the Pro Vice-Chancellor is of the opinion that the student does not meet in general terms the requirements set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher, the student's registration in the Initial Teacher Education programme will be cancelled.

#### Unsatisfactory Academic Progress

- Students enrolled in Te Aho Tātaurangi: BTchgMāoriMed/DipMāoriEd will be excluded from re-enrolment for that degree on the following basis:
  - failure to obtain a pass in a compulsory course for which they have been enrolled for two occasions;
  - failure to pass courses totalling at least 75 academic credits or failure to pass at least 60% of an approved part-time programme of study in any academic year; or
  - failure to complete the Te Aho Tātaurangi qualification within six years from the date of first enrolment.
 Students excluded under (a), (b) or (c) above will only be re-admitted to the Te Aho Tātaurangi: BTchgMāoriMed/DipMāoriEd programme with the approval of the Academic Board.

## Schedule for the Te Aho Tātaurangi: Bachelor of Teaching Māori Medium / Diploma Māori Education

### Te Tau Tuatahi: Year One

268.107 Te Aho Matua Taiao o ngā Kura Kaupapa Māori I	15 credits
268.110 Te Hā	15 credits
268.120 Tikanga Pāngarau I	15 credits
268.121 Te Kupu Tā I - Pānui Tuhituhi i Te Kura Kaupapa	15 credits
268.130 Te Irarua	15 credits
268.131 Te Aho Matua Marautanga I	30 credits
300.111 Te Reo Kōnakinaki: Developing Te Reo	15 credits

### Te Tau Tuarua: Year Two

P 268317	
268.421 Te Aka	15 credits
P 268321	
268.430 Te Kura Nui	30 credits
P 268310, 268330	
268.431 Te Aro ā-Tahi	15 credits
P 268331	
300.311 Te Reo Papa: Strengthening Te Reo	15 credits
P 300211	

#### Elective courses (15 credits from)

<b>Either</b>	
172.233 Language Learning Processes	15 credits

254.377 Teaching and Learning Languages up to Year 10.....	15 credits
R 207377	
269.332 Māori Issues in Education.....	15 credits

Or 15 credits from approved 200 or 300 level courses listed under the Regulations for degrees other than Te Aho Tātairangi: BTchgMāoriMed/ DipMāoriEd

## The Degree of Te Aho Tātairangi: Bachelor of Teaching and Learning Kura Kaupapa Māori BTchgLrnKKM

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to Te Aho Tātairangi: The Degree of Bachelor of Teaching and Learning Kura Kaupapa Māori requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have demonstrated a high level of competency in Te Reo Māori me ōna tikanga; and
  - have demonstrated competence in literacy and numeracy (including but not limited to English); and
  - have met the requirements set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher; and
  - have been selected into the qualification based on a selection process that may include a written application, interview, and practical exercises.

##### Qualification Requirements

- Candidates for Te Aho Tātairangi: The Degree of Bachelor of Teaching and Learning Kura Kaupapa Māori shall follow a parts-based programme of study, which shall consist of courses totalling at least 360 credits, comprising:
  - Part One, Part Two and Part Three courses as specified in the Schedule to the Qualification;
  - attending professional practice placements, field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

- Te Aho Tātairangi: The Degree of Bachelor of Teaching and Learning Kura Kaupapa Māori is awarded without specialisation.

##### Academic Requirements

- Every candidate for Te Aho Tātairangi: The Degree of Bachelor of Teaching and Learning Kura Kaupapa Māori shall perform to the satisfaction of the Academic Board or their delegate at least twenty five weeks of supervised professional practice, in accordance with the requirements of the following courses:
  - 268.107 Te Aho Matua Taiao o ngā Kura Kaupapa Māori I;
  - 268.207 Te Taiao mō Te Aho Matua o ngā Kura Kaupapa Māori II;
  - 268.307 Te Taiao mō Te Aho Matua - te whakarite i te taiao ki te poipoi i te ako i roto i ngā Kura Kaupapa Māori III.

##### Student Progression

- In order to progress from Part One to Part Two, or Part Two to Part Three a candidate must have passed all courses in the preceding Part.
- If the Academic Board or their nominee is of the opinion that any student does not meet in general terms the requirements set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher, the student's enrolment in the Te Aho Tātairangi: The Degree of Bachelor of Teaching and Learning Kura Kaupapa Māori programme will be refused or cancelled.

##### Completion Requirements

- A candidate's programme of study may not exceed five consecutive years from the date of first enrolment in a course to be credited to Te Aho Tātairangi: The Degree of Bachelor of Teaching and Learning Kura Kaupapa Māori, unless a specified time of suspension or extension has been approved by the Academic Board. Permission must be sought in advance of any suspension or extension by applying in writing to the Academic Board or their delegate. Suspensions or extensions granted will appear on the academic transcript.

- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

##### Unsatisfactory Academic Progress

- Students enrolled in Te Aho Tātairangi: The Degree of Bachelor of Teaching and Learning Kura Kaupapa Māori will be excluded from re-enrolment for that degree on the following basis:
  - failure to obtain a pass in a compulsory course for which they have been enrolled for two occasions;
  - failure to pass courses totalling at least 75 academic credits or failure to pass at least 60 percent of an approved part-time programme of study in any academic year; or
  - failure to complete Te Aho Tātairangi: The Degree of Bachelor of Teaching and Learning Kura Kaupapa Māori within five years from the date of first enrolment.
- Persons excluded under Regulation 9 will only be re-admitted to Te Aho Tātairangi: The Degree of Bachelor of Teaching and Learning Kura Kaupapa Māori with approval of Academic Board under such conditions as it may determine.
- Persons excluded twice under Regulation 9 will not be permitted to re-enrol for Te Aho Tātairangi: The Degree of Bachelor of Teaching and Learning Kura Kaupapa Māori.

### Schedule for the Te Aho Tātairangi: Bachelor of Teaching and Learning Kura Kaupapa Māori

#### Part One: Te Tau Tuatahi (120 credits from)

268.107 Te Aho Matua Taiao o ngā Kura Kaupapa Māori I.....	15 credits
268.110 Te Hā.....	15 credits
268.120 Tikanga Pāngarau I.....	15 credits
268.121 Te Kupu Tā I - Pānui Tuhituhi i Te Kura Kaupapa.....	15 credits
268.130 Te Irarua.....	15 credits
268.131 Te Aho Matua Marautanga I.....	30 credits

- any compulsory courses;
- attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

- Notwithstanding regulation 3(a), candidates who in the opinion of Academic Board or their delegate have completed sufficient previous study that is equivalent in content and level to a course included in the schedule, may be permitted to substitute an approved 700-level course or courses of the same total credit value from outside of the Schedule to the Diploma.
- Notwithstanding regulation 3(b), candidates who in the opinion of Academic Board or their delegate have a sufficient background of relevant undergraduate studies may be permitted to substitute approved 700 level course(s) totalling 30 credits for the following compulsory course: 125.700.
- The maximum total credit that may be included from courses outside of the Schedule to the Diploma under regulations 4 and 5 is 60 credits.

**Specialisations**

- The Postgraduate Diploma in Banking is awarded without specialisation.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Qualifications will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Business should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

## The Postgraduate Diploma in Business PGDipBus

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Postgraduate Diploma in Business requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor's degree having achieved a grade average of at least a B- in the highest level courses, or equivalent.

##### Qualification Requirements

- Candidates for the Postgraduate Diploma in Business shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits at 700 level, comprising:
  - courses selected from the Schedule for the Qualification;
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
- The course of study for candidates completing the Postgraduate Diploma in Business without an endorsement shall consist of courses totalling at least 120 credits from Schedule B.
- Notwithstanding Regulation 2, subject to the approval of the Academic Board variation in excess of the limits specified in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates may be permitted for candidates exiting from related Masterate programmes.

##### Specialisations

- Candidates may complete the Postgraduate Diploma in Business with or without an endorsement.
- Candidates may complete an endorsement by passing at least 90 credits from a specialisation, including any compulsory courses. The requirements for each endorsement are set out in Schedule A Postgraduate Diploma in Business endorsements.
- Notwithstanding regulation 6, candidates may complete an endorsement in Banking and Finance, or Financial Economics, by passing at least 120 credits in a specialisation, including any compulsory courses.
- Endorsements available for the Postgraduate Diploma in Business are: Agribusiness, Banking and Finance, Business Law, Communication, Economics, Finance, Financial Economics, Human Resource Management, Management, Marketing, Occupational Safety and Health.

##### Student Progression

- In cases of sufficient merit, the Postgraduate Diploma in Business may be awarded with distinction or merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic Requirements within the prescribed time frames; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Business should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

# The Postgraduate Diploma in Construction

## PGDipConstr

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Postgraduate Diploma in Construction requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for the Bachelor of Construction or an equivalent qualification; or
  - have been awarded or qualified for a relevant Bachelor's degree followed by a relevant Postgraduate Certificate or an equivalent qualification.

##### Qualification Requirements

- Candidates for the Postgraduate Diploma in Construction shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - at least 120 credits at 700 or 800 level;
  - courses selected from the Schedule to the Diploma;

and including:

- attending block courses, workshops, tutorials or laboratories as required.

##### Specialisations

- The Postgraduate Diploma in Construction may be awarded with or without an endorsement.
- Candidates may complete an endorsement by passing at least 75 credits in an endorsement. The requirements for each endorsement are set out in Schedule A for the Qualification.
- Endorsements available are Building Technology\*, Construction Law, Construction Project Management, Digital Built Environment, Facilities Management\*, Quantity Surveying, Sustainable Built Environment.  
\*No new enrolments

##### Student Progression

- In cases of sufficient merit, the Postgraduate Diploma may be awarded with distinction or merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation

may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

9. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

10. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates enrolled in the Postgraduate Diploma in Construction prior to 1 January 2022 who are enrolled in an endorsement may fulfil the credit requirements for that endorsement prior to this time. Such candidates may substitute a course or courses already completed for a course or courses at the same level and of the same value in the schedule. This transition expires 31 December 2024.

###### Compulsory courses

218.710 Advanced Construction Planning and Scheduling	15 credits
218.717 Research Methods in Built Environment R 218711	15 credits
218.720 Advanced Construction Site Operations and Control	15 credits
218.730 Construction Project Management	15 credits
218.770 Advanced Construction Technology	15 credits

##### Digital Built Environment (75 credits)

###### Compulsory courses (75 credits from)

218.712 Advanced Building Information Modelling	15 credits
218.713 Digital Technology Applications in Construction	15 credits
218.717 Research Methods in Built Environment R 218711	15 credits
218.730 Construction Project Management	15 credits
218.770 Advanced Construction Technology	15 credits

### Facilities Management (75 credits)

#### No new enrolments

##### Compulsory courses

114.702 Human Resource Management and Workplace Relations	30 credits
218.730 Construction Project Management	15 credits
218.761 Design and Management of Healthy Buildings R 218760	15 credits
218.770 Advanced Construction Technology	15 credits

### Quantity Surveying (75 credits)

##### Compulsory courses

218.717 Research Methods in Built Environment R 218711	15 credits
218.730 Construction Project Management	15 credits
218.764 Construction Contracts and Administration	15 credits
218.780 Quantity Surveying Practice	15 credits
218.781 Construction Financial Administration	15 credits

### Sustainable Built Environment (75 credits)

##### Compulsory courses (75 credits from)

127.702 Sustainable Property Development	15 credits
218.714 Sustainable Buildings and Structures	15 credits
218.715 Sustainability and Climate Change for Construction Industry	15 credits
218.717 Research Methods in Built Environment R 218711	15 credits
218.730 Construction Project Management	15 credits

#### Schedule B: Elective courses

##### Courses at 700 level from the 218 prefix

###### No more than 30 credits from

115.764 Leadership and Teamwork	15 credits
115.766 Managing Financial Resources	15 credits
115.774 Operations and Supply Chain Management	15 credits
115.791 Digital Transformation	15 credits
130.705 Emergency Management	30 credits
131.704 Sustainable Development	30 credits
131.709 Sustainable Development Goals in Practice	30 credits
132.731 Planning Law	30 credits
158.738 Implementation and Management of Systems Security R 157738	15 credits
158.740 Location Systems: Spatial Databases, Tools and Applications	15 credits
158.741 Location Data: Mapping, Analysis and Visualisation	15 credits
158.757 User Interface Design and Evaluation R 157757	15 credits
178.719 Climate Change Economics and Policy	30 credits
178.742 Environmental Economics for Non-Economists R 178360 and 178762	15 credits
178.755 Economic Growth, International and Development Economics	30 credits
240.753 Supply Chain Analytics	15 credits
240.756 Value Chain Management	15 credits
287.735 Quality Improvement R 143785	15 credits
287.741 Quality System Development and Management R 287730	15 credits

## The Postgraduate Diploma in Design PGDipDes

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Postgraduate Diploma in Design requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for the award of a Bachelor of Design or equivalent; and

(c) have been selected into the programme on the basis of a portfolio of design work prepared by the candidate, and an interview if required.

##### Qualification Requirements

- Candidates for the Postgraduate Diploma in Design shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - at least 15 credits from Schedule A;
  - at least 75 credits from Schedule B;
 and including:
  - completion of an endorsement;
  - the remaining courses from Schedule C.

**Specialisations**

3. Candidates must complete the requirements of an endorsement by passing at least 75 credits in that endorsement. The courses for each endorsement are set out in Schedule B.
4. Endorsements available for the Postgraduate Diploma in Design are: Industrial Design, Fashion Design, Photography, Spatial Design, Textile Design, and Visual Communication Design.

**Student Progression**

5. In cases of sufficient merit, the Postgraduate Diploma in Design may be awarded with distinction or merit.

**Completion Requirements**

6. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.
7. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

8. The general Unsatisfactory Academic Progress regulations will apply.

**Schedule for the Postgraduate Diploma in Design**

**Schedule A: Core course selection (At least 15 credits from)**

197.465 Creative Leadership .....	15 credits
P 198358 or 212358 or 213342 or 221358 or 222358 or 223358 or 224358 or 296358	
213.465 Exhibition .....	15 credits
C (198454 or 198455 or 212454 or 212455 or 213442 or 221454 or 221455 or 222454 or 222455 or 223454 or 223455 or 224454 or 224455 or 296454 or 296455) or Permission Head of School	
237.465 Creative Exposition .....	15 credits

## The Postgraduate Diploma in Education PGDipEd

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

1. Admission to the Postgraduate Diploma in Education requires that the candidate will:
  - (a) meet the University admission requirements as specified; and shall have
  - (b) been awarded or qualified for the Bachelor of Education, or equivalent; or
  - (c) been awarded or qualified for any other Bachelor's degree or equivalent, and hold a professional qualification in teaching; or
  - (d) been awarded or qualified for any other Bachelor's degree or equivalent, and have professional experience relevant to the intended postgraduate subject.

##### Qualification Requirements

2. Candidates for the Postgraduate Diploma in Education shall follow a flexible programme of study, which shall consist of 700-level courses totalling at least 120 credits from the Schedule to the Diploma.
3. Notwithstanding Regulation 2, subject to the approval of the Academic Board variation in excess of the limits specified in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates are permitted.

##### Specialisations

4. The qualification may be awarded with or without an endorsement.
5. Candidates may complete an endorsement by passing at least 90 credits in an endorsement, including any compulsory courses. The requirements for each endorsement are set out in the Schedule for the Qualification.
6. The endorsements available for the Postgraduate Diploma in Education are Counselling and Guidance, Digital Education, Early Years, Educational Administration and Leadership, Educational Psychology, Inclusive Education, Literacy Education, Māori Education, Mathematics Education, Teaching and Learning, and Tertiary Education.

##### Student Progression

7. In cases of sufficient merit, the Postgraduate Diploma in Education may be awarded with distinction or merit.

##### Completion Requirements

8. The timeframes for completion as outlined in General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Education should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

10. The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

11. Candidates enrolled in the Postgraduate Diploma in Education prior to 1 January 2019 who have completed at least 30 credits towards the Tertiary

- Education endorsement may be permitted to substitute a course or courses already completed for a course or courses in the Tertiary Education Schedule. For such candidates, the substitution of a course already completed towards the subject for the compulsory course 273.785 may be permitted. These transitional arrangements expire on 31 December 2022.
12. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the diploma, candidates enrolled in the Postgraduate Diploma in Education, Inclusive Education endorsement prior to 1 January 2020 will be permitted to substitute 256.756 for 263.704. These transition arrangements expire 31 December 2022.

### Schedule for the Postgraduate Diploma in Education

#### Endorsements

##### Counselling and Guidance (90 credits)

###### Compulsory courses (60 credits from)

253.750 Counselling Theory ..... 30 credits	30 credits
253.755 Culture and Counselling ..... 30 credits	30 credits

###### Endorsement courses (At least 30 credits from)

253.753 Guidance in Education ..... 30 credits	30 credits
253.754 Family and Couples Counselling ..... 30 credits	30 credits

**Up to 30 credits from any other course from the Schedule to the Postgraduate Diploma in Education or from 147.7xx or 175.7xx courses.**

##### Digital Education (90 credits)

###### Compulsory courses (60 credits from)

261.760 Digital Education and Design for Learning ..... 30 credits	30 credits

## The Postgraduate Diploma in Educational and Developmental Psychology

### PGDipEdDevPsych

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Postgraduate Diploma in Educational and Developmental Psychology requires that the candidate will:
  - meet the University admission requirements as specified; and shall have
  - been awarded or qualified for either a Master of Educational and Developmental Psychology or a Postgraduate Certificate in Educational Psychology, having achieved a grade average of at least a B+, or equivalent; and shall have:
  - completed at least 60 credits of Academic Board or delegate approved psychology courses including at least 45 credits at 200 level or higher; and
  - met all requirements as set by the New Zealand Psychologists Board for registration as an Intern Educational Psychologist; and
  - met the requirements as set down by the New Zealand Psychologists Board, in terms of good character and fitness to be registered; and
  - access to a suitable psychology practice context and professional supervision for the duration of the programme, as approved by Academic Board or their delegate.
- Admission to the Postgraduate Diploma in Educational and Developmental Psychology will be granted or withheld on consideration of the admission requirements specified under Regulations 1, a Police Vetting report and a selection process which may include a written application, interview, and written and/or practical exercises as may be determined by the Academic Board or their delegate.

**Qualification Requirements**

- Candidates for the Postgraduate Diploma in Educational and Developmental Psychology shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - courses from the Schedule to the Diploma; and including:
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

- The Postgraduate Diploma in Educational and Developmental Psychology is awarded without specialisation.

**Academic Requirements**

- Every candidate shall perform to the satisfaction of Academic Board or their delegate supervised full-time practical work for a period of one academic year, in accordance with the requirements of the courses included in the schedule to the diploma. In exceptional circumstances and only with the approval of Academic Board or their delegate, the supervised practical work may be completed half-time over two academic years.

**Student Progression**

- In cases of sufficient merit, the Postgraduate Diploma in Educational and Developmental Psychology may be awarded with distinction or merit.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Qualifications will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

## The Postgraduate Diploma in Emergency Management PGDipEmergMgt

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Postgraduate Diploma in Emergency Management requires that the candidate will:
  - meet the University admission requirements as specified; and have been awarded;
  - or qualified for an undergraduate degree and have completed at least two years of relevant industry or professional experience, or equivalent; or
  - or qualified for the Graduate Certificate in Emergency Management having achieved at least a B grade average, or equivalent; or
  - the Graduate Diploma in Emergency Management having achieved at least a B grade average, or equivalent.

##### Qualification Requirements

- Candidates for the Postgraduate Diploma in Emergency Management shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits from the schedule to the qualification; including:
  - any compulsory courses listed in the Schedule for the Qualification; and
  - attending field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

- The Postgraduate Diploma in Emergency Management is awarded without endorsement.

##### Student Progression

- In cases of sufficient merit, the Postgraduate Diploma in Emergency Management may be awarded with distinction or merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Emergency Management should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Postgraduate Diploma in Emergency Management

#### Compulsory course (30 credits from)

130.705 Emergency Management.....	30 credits
-----------------------------------	------------

#### Compulsory course selection (At least 30 credits from)

130.701 Natural Hazards.....	30 credits
130.702 Coping with Disasters.....	30 credits

#### Subject courses (60 credits from)

130.701 Natural Hazards.....	30 credits
130.702 Coping with Disasters.....	30 credits
130.706 Emergency Management in Practice.....	30 credits
131.701 Development and Underdevelopment.....	30 credits
131.702 Development Management.....	30 credits
132.751 Natural Hazards and Resilient Communities.....	30 credits
230.703 Techniques and Methods in Evaluation Research.....	30 credits

## The Postgraduate Diploma in Engineering PGDipE

### No new enrolments

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Postgraduate Diploma in Engineering requires that the candidate will:
  - meet the University admission requirements as specified; and
  - shall have been awarded or qualified for the Bachelor of Engineering with Honours or an equivalent qualification.
- Notwithstanding Regulation 1, and at the discretion of Academic Board, candidates who have successfully completed 450 credits in the Bachelor of Engineering with Honours may be admitted into the Postgraduate Diploma in Engineering provided:
  - the candidate's previous work within the Bachelor of Engineering with Honours is of a satisfactory standard; and

- the candidate enrolls for the remaining course(s) for the Bachelor of Engineering with Honours in the first year of enrolment in the Postgraduate Diploma in Engineering.
- Should the candidate not pass the remaining course(s) for the Bachelor of Engineering with Honours in the first year of enrolment in the Postgraduate Diploma in Engineering, the Postgraduate Diploma will not be awarded and/or continuation of enrolment in the Postgraduate Diploma shall be suspended until the requirements of the Bachelor of Engineering with Honours have been met.

##### Qualification Requirements

- Candidates for the Postgraduate Diploma in Engineering shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - at least 120 credits at 700 level or above from the Schedules A and B for the Qualification.
 and including:
  - attending field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

- The Postgraduate Diploma in Engineering may be completed with or without an endorsement.
- Candidates may complete an endorsement by completing at least 45 credits in an endorsement from Schedule A for the Qualification.

6. Approved endorsements are Electronics and Computer Engineering, Energy Management, Engineering and Innovation Management, Mechatronics, Packaging Technology, and Renewable Energy Systems.

**Student Progression**

7. In cases of sufficient merit, the Postgraduate Diploma in Engineering may be awarded with distinction or merit, provided that the diploma has been completed within one year of first enrolling for full-time study, or within three years of first enrolling for part-time study.

**Completion Requirements**

8. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

10. The general Unsatisfactory Academic Progress regulations will apply.

**Schedule for the Postgraduate Diploma in Engineering**

**Schedule A: Endorsements**

**Electronics and Computer Engineering (45 credits)**

**45 credits from**

281.755 Digital Signal Processing ..... 15 credits  
 P 281272 R 124344, 143333, 281333

281.756 Image and Video Processing ..... 15 credits  
 P 281272 R 281473

281.776 Advanced Communication Engineering ..... 15 credits  
 P 281374 or 158235

281.785 Advanced Computer Engineering ..... 15 credits  
 P 281384 R 143474, 281474

281.786 Advanced Micro- and Nano-electronics ..... 15 credits  
 P 281281 R 124345, 143457, 281457

**Energy Management (45 credits)**

**45 credits from**

218.769 Energy-Efficient Building Design ..... 15 credits  
 R 228769

## The Postgraduate Diploma in Environmental Management

### PGDipEnvMgmt

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Postgraduate Diploma in Environmental Management requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a relevant Bachelor's degree or an equivalent qualification.

###### Qualification Requirements

- Candidates for the Postgraduate Diploma in Environmental Management shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits at 700 level, comprising:
  - courses selected from the Schedule to the Qualification; and including:
  - any compulsory courses listed in the Schedule for the Qualification;
  - attending field trips, studios, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 2, and at the discretion of Academic Board, candidates may be required to complete one or more bridging courses, 188.707 and/or 188.708, should their undergraduate qualification be deficient in important aspects of environmental science.

###### Specialisations

- The Postgraduate Diploma in Environmental Management is awarded without specialisation.

###### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed

timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

###### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates enrolled in the Postgraduate Diploma in Environmental Management prior to 1 January 2022 may substitute a course or courses already passed for a course or courses in the Schedule until 31 December 2024.

#### Schedule for the Postgraduate Diploma in Environmental Management

##### Core courses

###### 30 credits from

188.764 Advanced Environmental Management I ..... 15 credits R 188763	
188.765 Advanced Environmental Management II ..... 15 credits R 188763	

###### At least 60 credits from

176.718 Environmental Sociology ..... 30 credits	
178.742 Environmental Economics for Non-Economists ..... 15 credits R 178360 and 178762	
188.705 Environmental Policy ..... 15 credits	
188.707 Environmental Management Principles and Practice ..... 15 credits	
188.708 Land System Change ..... 15 credits	
188.751 Advanced Zero Waste for Sustainability ..... 30 credits	
189.730 Sustainable Land and Water Management ..... 15 credits	
232.701 Conservation Biology ..... 30 credits R 196719	

233.712 Environmental Geographic Information Systems ..... 15 credits R 233706	152.704 Business and Sustainability ..... 30 credits R 115783
235.701 Māori Values and Resource Management ..... 15 credits R 188704	152.730 Advanced Contemporary Issues in Sustainability ..... 30 credits
238.700 Life Cycle Assessment (LCA) and Footprinting Principles ..... 15 credits	152.752 Project Management ..... 30 credits
<b>Elective courses (No more than 30 credits from)</b>	158.740 Location Systems: Spatial Databases, Tools and Applications ..... 15 credits
119.710 Nutrient Management in Grazed Pasture Systems ..... 30 credits	158.741 Location Data: Mapping, Analysis and Visualisation ..... 15 credits
119.731 Topics in Agricultural Extension and Consultancy ..... 15 credits R 111755	175.729 Psychology and Culture ..... 15 credits
119.752 Advanced Farm and Horticultural Management ..... 15 credits P 119381, 119382, 119358 R 111752, 119751	175.733 Sustainable Livelihood ..... 15 credits
130.705 Emergency Management ..... 30 credits	178.719 Climate Change Economics and Policy ..... 30 credits
131.704 Sustainable Development ..... 30 credits	189.731 Advanced Studies in Soil Science ..... 15 credits

	233.715 Environmental and Geological Hazards ..... 15 credits

## The Postgraduate Diploma in Fine Arts PGDipFA

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

1. Admission to the Postgraduate Diploma in Fine Arts requires that the candidate will have:
  - (a) met the University admission requirements as specified;
  - (b) have been awarded or qualified for a Bachelor of Fine Arts, Bachelor of Māori Visual Arts, or equivalent with a grade average of at least a B, or equivalent;
  - (c) been selected into the Diploma following a selection process which will include the assessment of a portfolio of work submitted by the candidate and, at the discretion of Academic Board or their delegate, an interview.

##### Qualification Requirements

2. Candidates for the Postgraduate Diploma in Fine Arts shall follow a flexible course of study, which shall consist of courses totalling at least 120 credits, comprising:
  - (a) courses selected from the Schedule to the Diploma; and including
  - (b) attending contact courses, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

3. The Postgraduate Diploma in Fine Arts is awarded without endorsement.

##### Student Progression

4. In cases of sufficient merit, the Postgraduate Diploma in Fine Arts may be awarded with distinction or merit.

##### Completion Requirements

5. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.

6. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board or their delegate, be awarded the Postgraduate Certificate in Creative Arts should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

7. The general Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Postgraduate Diploma in Fine Arts

#### 120 credits from

197.465 Creative Leadership ..... 15 credits P 198358 or 212358 or 213342 or 221358 or 222358 or 223358 or 224358 or 296358	213.411 Fine Arts Special Topic IV ..... 15 credits P Appraisal Required

## The Postgraduate Diploma in Health Science PGDipHlthSc

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

1. Admission to the Postgraduate Diploma in Health Science requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for the Bachelor of Health Science or an equivalent undergraduate qualification.

2. Notwithstanding Regulation 1, Admission to the Postgraduate Diploma in Health Science (Medical Laboratory Science) requires that the candidate will:
- meet the University admission requirements as specified;
  - have been awarded or qualified for a Bachelor of Science or Bachelor of Bio Medical Science or equivalent;
  - hold a current Annual Practicing Certificate (APC) for employment in the Scope of Practice of "Medical Laboratory Technician";
  - have been practicing as a Medical Laboratory Technician in an ISO15189 accredited NZ Diagnostic Medical Laboratory for at least one year; and
  - have written employer support allowing the candidate the necessary laboratory resources and time for the completion of Medical Laboratory Science endorsement.
3. Notwithstanding Regulation 1, in order to be admitted to the Postgraduate Diploma in Health Science, Psychology endorsement, candidates must:
- meet the University admission requirements as specified; and
  - have been awarded or qualified for the Bachelor of Health Science with a major in Psychology, having achieved at least a B- grade average in the 300-level psychology specialisation courses, or equivalent.

#### Qualification Requirements

4. Candidates for the Postgraduate Diploma in Health Science shall follow a flexible course of study, which shall consist of courses totalling at least 120 credits at 700 level, comprising:
- Courses selected from the Schedule for the Qualification, and including:
  - Any compulsory courses listed in the Schedule for the Qualification,
  - Attending any contact workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.

#### Specialisations

5. The Postgraduate Diploma in Health Science may be awarded with or without an endorsement.
6. Candidates may complete an endorsement by passing at least 120 credits in an endorsement. The requirements for each endorsement are set out in the Schedule for the Qualification.
7. Endorsements available are: Bioscience, Environmental Health, Māori Health, Psychology, Rehabilitation, Sport and Exercise, Medical Laboratory Science, and Occupational Health and Safety.

#### Student Progression

8. In cases of sufficient merit, the Postgraduate Diploma in Health Science may be awarded with distinction or merit.

#### Completion Requirements

9. The timeframes for completion as outline in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
10. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

#### Unsatisfactory Academic Progress

11. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

12. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Bioscience endorsement prior to 1 January 2022 who have successfully completed at least 90 credits may substitute a course already successfully completed for either one of 168.711 or 179.102. These transitional arrangements expire 31 December 2024.
13. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Māori Health endorsement prior to 1 January who have successfully completed 168.711 may substitute this for 150.714. Such candidates who have successfully completed 150.799 may count this towards compulsory course requirements. These transitional arrangements expire 31 December 2024.
14. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Occupational Health and Safety endorsement prior to 1 January 2022 may substitute 251.732 for any of 251.731, 168.711, 168.713 or 179.102. These transitional arrangements expire 31 December 2024.
15. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Sport and Exercise endorsement prior to 1 January 2022 may substitute 234.799 for 234.724 and another 15 credit course from the schedule. These transitional arrangements expire 31 December 2024.

## Schedule for the Postgraduate Diploma in Health Science

### Endorsements

#### Bioscience (120 credits)

##### Compulsory course

214.781 Advanced Topics in Health Science ..... 30 credits

##### Compulsory course selection (30 credits from)

168.711 Health Research Design and Method ..... 30 credits  
R 168810, 168710

179.702 Advanced Research Methods ..... 30 credits

##### Subject courses (60 credits from)

117.709 Biometrics for the Animal and Nutritional Sciences ..... 15 credits

## The Postgraduate Diploma in Health Service Management PGDipHSM

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II****Admission**

- Admission to the Postgraduate Diploma in Health Service Management requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor's degree or equivalent; and
  - be working in the health and/or disability sectors.

**Qualification Requirements**

- Candidates for the Postgraduate Diploma in Health Service Management shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits at 700 level, including:
  - at least 90 credits from the Schedule to the Diploma;
  - the core courses as listed in Schedule A for the Qualification;
  - with the approval of the Academic Board or their delegate, up to 30 credits at 700 level from courses outside of the Schedule to the Diploma; and
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

- The Postgraduate Diploma in Health Service Management is awarded without specialisation.

**Student Progression**

- In cases of sufficient merit, the Postgraduate Diploma in Health Service Management may be awarded with distinction or merit.

**Completion Requirements**

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic Requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation

may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Business should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

## The Postgraduate Diploma in Industrial / Organisational Psychology

### PGDipl/OPsych

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Postgraduate Diploma in Industrial/Organisational Psychology requires that the candidate will:
  - have met the University admission requirements as specified; and
  - have been awarded or qualified for a Master's or Doctoral degree specialising in Industrial/Organisational Psychology, which includes a relevant thesis and which is approved by the Academic Board or their delegate as providing sufficient Industrial/Organisational Psychology background for entry into the Diploma; and
  - have been selected into the Diploma following a selection process which will include a written application, consideration of referee reports and interview; and
  - have provided evidence to the satisfaction of the Academic Board or their delegate that they are in paid or unpaid employment in a work place in which Industrial/Organisational Psychology practice is a significant component, and where the organisation supports the candidate's enrolment in the Diploma.
  - have met the requirements set down by the Health Practitioners Competence Assurance Act in terms of good character and reputation, and is a fit and proper person to be registered;
  - be registered by the New Zealand Psychologists Board as an Intern Psychologist.

###### Qualification Requirements

- Candidates for the Postgraduate Diploma in Industrial/Organisational Psychology shall follow a flexible course of study, which shall consist of 800-level courses totalling at least 120 credits, comprising:
  - courses specified in the Schedule to the Diploma; and including
  - attending contact courses, block courses, workshops, tutorials, and laboratories as required.

###### Specialisations

- The Postgraduate Diploma in Industrial/Organisational Psychology is awarded without endorsement.

###### Academic Requirements

- Every candidate for the Postgraduate Diploma in Industrial/Organisational Psychology shall perform to the satisfaction of the Academic Board or their delegate, academic and practical work in accordance with the requirements of the following courses: 175.821 Professional Issues in the Practice of Industrial/Organisational Psychology and 175.822 Practicum in Industrial/Organisational Psychology.

###### Student Progression

- A candidate's course of study may not exceed three years from date of first enrolment in a course to be credited to the Postgraduate Diploma in Industrial/Organisational Psychology.
- Notwithstanding Regulation 5, Academic Board or their delegate may approve a period of suspension or extension where they are satisfied that a change in employment circumstances is likely to adversely affect the candidate's programme of study. Suspensions or extensions granted will appear on the academic transcript.
- The Postgraduate Diploma in Industrial/Organisational Psychology is not awarded with distinction or merit.

###### Completion Requirements

- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

#### Schedule for the Postgraduate Diploma in Industrial / Organisational Psychology

##### Compulsory courses (120 credits from)

175.821 Professional Issues in the Practice of Industrial/Organisational Psychology	60 credits
175.822 Practicum in Industrial/Organisational Psychology	60 credits

## The Postgraduate Diploma in Information Sciences

### PGDiplInfSc

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Postgraduate Diploma in Information Sciences requires that the candidate will:
  - meet the University admission requirements as specified; and
  - shall have been awarded or qualified for the Bachelor of Information Sciences, or an equivalent qualification, having achieved a B- grade average or higher over the 300-level majoring courses; or
  - shall have been awarded or qualified for a Bachelor's degree or an equivalent qualification, having achieved a B- grade average or higher over the 300-level majoring courses, and have at least two years' relevant professional experience demonstrated via a portfolio, and an interview at the discretion of the University.

###### Qualification Requirements

- Candidates for the Postgraduate Diploma in Information Sciences shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - 120 credits at 700 level selected from the Schedule for the Qualification;
 and including:
  - attending workshops, block courses, tutorials, and laboratories as required.

- attending workshops, block courses, tutorials, and laboratories as required.

###### Specialisations

- The Postgraduate Diploma in Information Sciences is awarded without an endorsement.
- Notwithstanding Regulation 3, the following endorsements and joint endorsement are available in accordance with transitional provisions outlined in Regulation 10: Computer Science; Information Technology; and Software Engineering.

###### Student Progression

- In cases of sufficient merit, the Postgraduate Diploma in Information Sciences may be awarded with distinction or merit.

###### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

###### Transitional Provisions

- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I qualification regulations,

candidates enrolled in the Postgraduate Diploma in Information Sciences prior to 1 January 2020 may substitute a course or courses already completed for a course or courses at the same level in the same schedule. For students completing without an endorsement, the course or courses that are substituted may be from any part of the schedule. These transition arrangements expire on 31 December 2022.

10. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I qualification regulations, candidates enrolled in an endorsement or joint endorsement prior to 1 January 2022 may complete that endorsement or joint endorsement by fulfilling the requirements of Schedule B. These transitional arrangements expire 31 December 2024.

## The Postgraduate Diploma in Māori Visual Arts

### PGDipMVA

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Postgraduate Diploma in Māori Visual Arts requires that the candidate will meet the University admission requirements as specified; and will:
  - have been awarded or qualified for a Bachelor of Māori Visual Arts, or equivalent; or
  - have been awarded or qualified for a relevant Bachelor's degree, or equivalent, and provide evidence of professional experience of an appropriate kind and duration in an area relevant to the qualification; or
  - have been granted admission under the Admission with Equivalent Status regulations and demonstrate practical, professional, and scholarly experience at an appropriate level.
- In considering applications for admission to the Postgraduate Diploma in Māori Visual Arts, the University shall pay due regard to indigenous systems for the acquisition of knowledge and shall apply a fair, large and liberal interpretation to the concepts of "scholarly experience" and "academic work".

###### Qualification Requirements

- Candidates for the Postgraduate Diploma in Māori Visual Arts shall follow a flexible course of study, which shall consist of courses totalling at least 120 credits at 700-level, comprising:
  - courses selected from the Schedule for the Diploma; and including
  - attending contact workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required

###### Specialisations

- The Postgraduate Diploma in Māori Visual Arts is awarded without an endorsement.

###### Student Progression

- In cases of sufficient merit, the Postgraduate Diploma in Māori Visual Arts may be awarded with distinction or merit

###### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Qualification Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic Requirements within the prescribed time frames; candidates who do not meet the requirements for graduation, may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Creative Arts should they meet the relevant Qualification requirements.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

**The Postgraduate Diploma in Psychological Practice  
PGDipPsychPrac**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

1. Admission to the Postgraduate Diploma in Psychological Practice requires that the candidate will:
- (a) have met the University admission requirements as specified; and
  - (b) have been awarded or qualified for a Master’s or Doctoral degree specialising in psychology which is approved as meeting Psychologists Board requirements; and
  - (c) have been selected into the Diploma following a selection process which will include a written application, consideration of references and interview; and
  - (d) have provided evidence to the satisfaction of the Academic Board or their delegate that they are currently, or will be, in employment (paid or unpaid) in a work place where their activities require them to engage in psychologically-based practice, and where the organisation has agreed that 1500 hours during one year be designated as internship hours;
  - (e) have provided evidence to the satisfaction of the Academic Board or their delegate of appropriate supervision arrangements in respect to their psychology practice;
  - (f) have met the requirements set down by the Health Practitioners Competence Assurance Act in terms of good character and reputation, and is a fit and proper person to be registered;
  - (g) be registered by the New Zealand Psychologists Board as an Intern Psychologist.

**Qualification Requirements**

2. Candidates for the Postgraduate Diploma in Psychological Practice shall follow a flexible course of study, which shall consist of 800-level courses totalling at least 120 credits, comprising:
- (a) courses specified in the Schedule to the Diploma; and including
  - (b) attending contact courses, block courses, workshops, tutorials, and laboratories as required.

**Specialisations**

3. The Postgraduate Diploma in Psychological Practice is awarded without endorsement.

**Academic Requirements**

4. Every candidate for the Postgraduate Diploma in Psychological Practice shall perform to the satisfaction of the Academic Board or their delegate at least one year of full-time professional psychology practice, or equivalent, in accordance with the requirements of the following courses: 175.853 Practicum in Psychological Practice Part I; 175.854 Practicum in Psychological Practice Part II.

**Student Progression**

5. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
6. Notwithstanding Regulation 5, Academic Board or their delegate may approve a period of suspension or extension where they are satisfied that a change in employment circumstances is likely to adversely affect the candidate’s programme of study. Suspensions or extensions granted will appear on the academic transcript.
7. The Postgraduate Diploma in Psychological Practice is awarded without distinction or merit.

**Completion Requirements**

 179.777 Disability, Consumer Rights and Advocacy .....30 credits

#### Part B: Endorsements

##### Rehabilitation Counselling (150 credits)

##### No new enrolments

##### Compulsory courses (120 credits from)

147.701 Rehabilitation Theory and Practice .....30 credits  
 147.703 Vocational and Rehabilitation Counselling .....30 credits  
 168.711 Health Research Design and Method .....30 credits  
           R 168810, 168710

##### 30 credits from

147.704 Drugs and Society.....30 credits

##### Rehabilitation of the Visually Impaired (150 credits)

##### No new enrolments

##### Compulsory courses (90 credits from)

147.701 Rehabilitation Theory and Practice .....30 credits

##### 60 credits from

147.703 Vocational and Rehabilitation Counselling .....30 credits

# The Postgraduate Diploma in Science and Technology

## PGDipScTech

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Postgraduate Diploma in Science and Technology requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor's degree or an equivalent qualification with a major in the intended postgraduate subject, or equivalent, with a grade average of at least a B- in the major 300 level courses; or
  - have been awarded or qualified for a Postgraduate Certificate that includes at least 30 credits of courses from the Schedule to the Postgraduate Diploma in Science and Technology, or equivalent.

##### Qualification Requirements

- Candidates for the Postgraduate Diploma in Science and Technology shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits at 700 level, comprising:
  - at least 90 credits from courses selected from the Schedule for the Qualification; and including:
  - attendance at contact workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

- For candidates completing an endorsement, the remaining credits for the qualification will comprise a selection of courses approved by the Academic Board or delegate.
- Notwithstanding Regulation 2, and with the approval of Academic Board or its delegate, students exiting from a relevant postgraduate qualification may substitute relevant 700 level courses for courses included in the Postgraduate Diploma in Science and Technology schedule beyond the normal limits permitted.

- The Postgraduate Diploma in Science and Technology may be awarded with or without an endorsement.
- Candidates may complete the postgraduate diploma without an endorsement only with the prior approval of a coherent programme of study by the Academic Board or their delegate.
- Candidates may complete an endorsement by passing at least 75 credits in an endorsement. The requirements for each endorsement are set out in the Schedule for the Qualification.

##### Specialisations

- The Postgraduate Diploma in Science and Technology may be awarded with or without an endorsement.
- Candidates may complete the postgraduate diploma without an endorsement only with the prior approval of a coherent programme of study by the Academic Board or their delegate.
- Candidates may complete an endorsement by passing at least 75 credits in an endorsement. The requirements for each endorsement are set out in the Schedule for the Qualification.

8. The endorsements available for the Postgraduate Diploma in Science and Technology are: Agricultural Science, Animal Science, Biological Sciences, Conservation Biology, Earth Science, Horticultural Science, Plant Breeding, Psychology and Zoology.
9. The endorsements available for the Postgraduate Diploma in Science and Technology under Transitional Provisions are: Biochemistry, Chemistry, Computer Science, Ecology, Exercise and Sport Science, Genetics, Geography, Human Nutrition, Mathematics, Microbiology, Nanoscience, Physics, Physiology, Plant Biology, Soil Science and Statistics.

#### Student Progression

10. In cases of sufficient merit, the Postgraduate Diploma in Science and Technology may be awarded with Distinction or Merit.

#### Completion Requirements

11. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
12. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

13. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

14. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates enrolled in the Postgraduate Diploma in Science and Technology prior to 1 January 2022 may substitute a relevant course or courses already completed towards the qualification for a course or courses of the same level and credit value within the Schedule, until 31 December 2024.

## Schedule for the Postgraduate Diploma in Science and Technology

### Schedule A: Endorsements

#### Agricultural Science (75 credits)

##### Subject courses

117.710 Reproduction, Lactation and Fertility R 117767, 117769	15 credits
117.711 Nutrition, Growth and Meat Science R 117761, 117762, 117764	15 credits
117.765 Genetics and Breeding P 117345	15 credits
117.768 Metabolism and Endocrinology P 117348	15 credits
117.785 Advanced Studies in Animal Production	15 credits
117.786 Advanced Studies in Animal Production	30 credits
119.710 Nutrient Management in Grazed Pasture Systems	30 credits
119.711 Nutrient Management in Arable Systems	15 credits
119.728 Research Methods in Animal, Veterinary and Agricultural Sciences R 119729, 162760, 162761, 162762	15 credits
119.729 Research Methods R 119728, 162760, 162761, 162762	15 credits
162.760 Research Methods and Communication in the Biosciences R 162761, 162762, 119728, 119729	30 credits
189.730 Sustainable Land and Water Management	15 credits
189.731 Advanced Studies in Soil Science	15 credits
283.702 Advanced Agronomy P 283301 or 283311 or 283305	30 credits
283.708 Quantitative Plant Breeding P One of 1203xx, 283305, 284301 or 284342 R 171754	30 credits
284.703 Vegetable Production Science R 171722; 171724; 284701; 284702	15 credits
284.704 Fruit Production Science R 171722; 171724; 284701; 284702	15 credits
284.741 Post-harvest Physiology R 171749	30 credits
285.742 Topics in Advanced Plant Protection P 199310 or 283311 or 285301	30 credits

#### Animal Science (75 credits)

##### At least 30 credits from

117.710 Reproduction, Lactation and Fertility R 117767, 117769	15 credits
---	------------

117.711 Nutrition, Growth and Meat Science R 117761, 117762, 117764	15 credits
117.765 Genetics and Breeding P 117345	15 credits
117.768 Metabolism and Endocrinology P 117348	15 credits
<b>Subject courses</b>	
117.709 Biometrics for the Animal and Nutritional Sciences R 151709	15 credits
117.783 Advanced Studies in Animal Science	15 credits
117.784 Advanced Studies in Animal Science	30 credits
119.728 Research Methods in Animal, Veterinary and Agricultural Sciences R 119729, 162760, 162761, 162762	15 credits
122.703 Gene Expression P One of 122303, 203342, 203340	30 credits
122.713 Advanced Topics in Biochemistry P One of 122303, 122322, 122327, 123326, 203300, 203307, 203340, 203342	15 credits
194.703 Neurophysiology and Neuroendocrinology	30 credits
194.705 Digestive Physiology	30 credits
194.707 Perinatal Physiology	30 credits
194.731 Animal Welfare Science	30 credits
194.732 Advanced Cell Physiology	30 credits
199.714 Animal Behaviour P 199312	30 credits
199.717 Entomology P 199310 or 285301	30 credits
283.702 Advanced Agronomy P 283301 or 283311 or 283305	30 credits

#### Biochemistry (75 credits)

##### No new enrolments

##### Compulsory course

122.703 Gene Expression P One of 122303, 203342, 203340	30 credits
--	------------

##### At least 30 credits from

122.704 Molecular Cell Biology P One of 122322, 122327, 123326, 203307, 203340, 203342, 162312, 194346	30 credits
247.712 Advanced Topics in Molecular Biology P One of 122303, 122322, 122327, 123326, 194346, 203300, 203307, 203340, 203341, 203342, 203343	30 credits

##### Subject courses

122.713 Advanced Topics in Biochemistry P One of 122303, 122322, 122327, 123326, 203300, 203307, 203340, 203342	15 credits
162.760 Research Methods and Communication in the Biosciences R 162761, 162762, 119728, 119729	30 credits

#### Biological Sciences (75 credits)

##### Subject courses

700 level from 120, 122, 162, 194, 196, 199, 203, 232, 247 prefixes

#### Chemistry (75 credits)

##### No new enrolments

##### Compulsory course

123.711 Research Methods in Chemistry and Nanoscience	30 credits
---	------------

##### Subject courses

123.712 Advanced Nanoscience and Physical Chemistry	30 credits
123.713 Advanced Chemical Synthesis	30 credits
124.712 Condensed Matter Physics P 124325 and one of 124327, 124332, 124316	15 credits
124.762 Chemical Physics P 124325 and one of 124327, 124332, 124316	15 credits

#### Computer Science (75 credits)

##### No new enrolments

##### Subject courses

159.702 Knowledge Engineering	15 credits
159.703 Advanced Computer Systems	15 credits
159.704 Systems Programming	15 credits
159.707 Advanced Software Design and Construction	15 credits
159.709 Computer Graphics	15 credits
159.710 User Interface Design	15 credits
159.731 Studies in Computer Vision	15 credits
159.732 Studies in Computer Programming	15 credits
159.735 Studies in Parallel and Distributed Systems	15 credits

159.736 Studies in Operating Systems and Architecture .....	15 credits
159.737 Studies in Compilers and Grammars .....	15 credits
159.740 Studies in Intelligent Systems .....	15 credits

### Conservation Biology (75 credits)

#### Compulsory courses (60 credits from)

232.701 Conservation Biology .....	30 credits
R 196719	
232.703 Wildlife Management .....	30 credits
C 232701 or 196713 R 199715	

#### Subject courses

145.739 GIS Principles and Applications .....	30 credits
R 132738	
158.740 Location Systems: Spatial Databases, Tools and Applications .....	15 credits
158.741 Location Data: Mapping, Analysis and Visualisation .....	15 credits
161.731 Biostatistics for Researchers .....	15 credits
R 161331	
161.762 Multivariate Analysis for Big Data .....	15 credits
R 161323, 161772	
188.764 Advanced Environmental Management I .....	15 credits
R 188763	
188.765 Advanced Environmental Management II .....	15 credits
R 188763	
199.714 Animal Behaviour .....	30 credits
P 199312	
235.701 Māori Values and Resource Management .....	15 credits
R 188704	

### Earth Science (75 credits)

#### Subject courses

233.712 Environmental Geographic Information Systems .....	15 credits
R 233706	
233.713 Environmental Remote Sensing .....	15 credits
R 233707	
233.714 Advanced Geoscience Techniques .....	15 credits
233.715 Environmental and Geological Hazards .....	15 credits

#### 15 credits from

119.728 Research Methods in Animal, Veterinary and Agricultural Sciences .....	15 credits
R 119729, 162760, 162761, 162762	
119.729 Research Methods .....	15 credits
R 119728, 162760, 162761, 162762	

### Ecology (75 credits)

#### No new enrolments

#### At least 60 credits from

196.712 Aquatic Ecology .....	30 credits
P 196313 or 121313	
196.713 Ecology .....	30 credits
P 1963xx or 1993xx	
196.726 Plant Ecology .....	30 credits
P 196316	

#### Subject courses

120.713 Advanced Topics in Plant Biology .....	30 credits
P 1203xx	
120.714 Botanical Evolution .....	15 credits
P 1203xx R 120711	
120.715 Advanced Topics in Evolutionary Genetics .....	30 credits
P One of 1203xx or 2033xx or 1963xx	
199.714 Animal Behaviour .....	30 credits
P 199312	
199.717 Entomology .....	30 credits
P 199310 or 285301	
199.719 Topics in Biodiversity .....	15 credits
P 199317 or 120303 or 196318 R 199718	
232.701 Conservation Biology .....	30 credits
R 196719	
232.703 Wildlife Management .....	30 credits
C 232701 or 196713 R 199715	
232.704 Wildlife Disease .....	30 credits
232.705 Captive Breeding and Management .....	30 credits

### Exercise and Sport Science (75 credits)

#### No new enrolments

234.724 Research Seminar in Sport and Exercise .....	15 credits
--	------------

234.725 Athletic Conditioning .....	30 credits
R 234716	
234.726 Exercise and Sport Science .....	30 credits
R 234720, 234721, 234722, 234723	
234.727 Physical Activity for Compromised Health .....	30 credits
R 234717, 234718, 234719	

#### May include 15 credits from (No more than 15 credits from)

117.709 Biometrics for the Animal and Nutritional Sciences .....	15 credits
R 151709	
119.728 Research Methods in Animal, Veterinary and Agricultural Sciences .....	15 credits
R 119729, 162760, 162761, 162762	
119.729 Research Methods .....	15 credits
R 119728, 162760, 162761, 162762	

### Genetics (75 credits)

#### No new enrolments

#### Compulsory course selection (At least 60 credits from)

122.703 Gene Expression .....	30 credits
P One of 122303, 203342, 203340	
203.762 Genetic Analysis .....	30 credits
P One of 122303, 203300, 203305, 203307, 203340, 203341, 203342, 203343	
247.712 Advanced Topics in Molecular Biology .....	30 credits
P One of 122303, 122322, 122327, 123326, 194346, 203300, 203307, 203340, 203341, 203342, 203343	

#### Subject courses

120.715 Advanced Topics in Evolutionary Genetics .....	30 credits
P One of 1203xx or 2033xx or 1963xx	
122.713 Advanced Topics in Biochemistry .....	15 credits
P One of 122303, 122322, 122327, 123326, 203300, 203307, 203340, 203342	
161.744 Statistical Genetics .....	15 credits
162.760 Research Methods and Communication in the Biosciences .....	30 credits
R 162761, 162762, 119728, 119729	
162.761 Research Methods and Written Communication in Biosciences .....	15 credits
R 162760, 119728, 119729	
162.762 Grant Writing and Oral Communication in Biosciences .....	15 credits
R 162760 119728, 119729	

### Geography (75 credits)

#### No new enrolments

#### At least 60 credits from

145.730 Applied Coastal Geomorphology .....	15 credits
R 145705	
145.731 Applied Fluvial Geomorphology .....	15 credits
R 145705	
145.732 Landslide Investigation and Management .....	15 credits
R 145705	
145.734 Paleocology, Palynology and Biogeography .....	15 credits
R 145704	
145.735 Detecting Geomorphic Change .....	15 credits
R 145702	
145.736 Advanced Physical Geography Techniques .....	15 credits
R 145702	
233.706 Environmental Geographical Information Systems .....	30 credits
233.707 Environmental Remote Sensing .....	30 credits
233.721 Global Climate Change .....	15 credits
P 145320 or 233310 R 145704, 233702	

#### Subject courses

145.707 Economic Geography .....	30 credits
145.710 Consumption and Place .....	30 credits
145.711 Foundations in Human Geography .....	30 credits
R 145706	
145.712 Frontiers in Human Geography .....	30 credits
R 145701	

### Horticultural Science (75 credits)

#### Subject courses

119.728 Research Methods in Animal, Veterinary and Agricultural Sciences .....	15 credits
R 119729, 162760, 162761, 162762	
119.729 Research Methods .....	15 credits
R 119728, 162760, 162761, 162762	
162.760 Research Methods and Communication in the Biosciences .....	30 credits
R 162761, 162762, 119728, 119729	
283.708 Quantitative Plant Breeding .....	30 credits
P One of 1203xx, 283305, 284301 or 284342 R 171754	

284.703 Vegetable Production Science.....	15 credits
R 171722; 171724; 284701; 284702	
284.704 Fruit Production Science.....	15 credits
R 171722; 171724; 284701; 284702	
284.741 Post-harvest Physiology.....	30 credits
R 171749	
285.742 Topics in Advanced Plant Protection.....	30 credits
P 199310 or 283311 or 285301	

**Human Nutrition (75 credits)**

**No new enrolments**

**Compulsory courses (60 credits from)**

117.709 Biometrics for the Animal and Nutritional Sciences.....	15 credits
R 151709	
151.708 Nutritional Research Methods.....	15 credits
151.718 Advanced Topics in Macronutrient Nutrition.....	15 credits
R 151742	
151.719 Advanced Topics in Micronutrient Nutrition.....	15 credits
R 151742	

**Subject courses**

151.704 Human Nutrition.....	15 credits
151.715 Advanced Sports Nutrition.....	15 credits
151.716 Advanced Nutrition and Disease.....	15 credits
151.717 Selected Topics in Public Health Nutrition.....	15 credits

**Mathematics (75 credits)**

**No new enrolments**

**Subject courses**

160.702 Advanced Algebra.....	15 credits
P 160302	
160.703 Advanced Analysis.....	15 credits
P 160301	
160.704 Studies in Theoretical Mathematics.....	15 credits
P 160301 and 160302	
160.715 Advanced Computational Methods.....	15 credits
P 160211 and 160318	
160.733 Methods of Applied Mathematics.....	15 credits
P 160301 and 160318	
160.734 Studies in Applied Differential Equations.....	15 credits
P 160211, 160301, 160318	
160.737 Studies in Mathematical Physics.....	15 credits

## The Postgraduate Diploma in Social Sector Evaluation Research

### PGDipSSER

#### No new enrolments

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Postgraduate Diploma in Social Sector Evaluation Research requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a relevant Bachelor's degree, or equivalent.

###### Qualification Requirements

- Candidates for the Postgraduate Diploma in Social Sector Evaluation Research shall follow a flexible programme of study, which shall consist of courses at 700 level totalling at least 120 credits, comprising:
  - courses from the Schedule for the Diploma; and including:
  - any compulsory courses as listed in the Schedule for the Diploma;
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

- The Postgraduate Diploma in Social Sector Evaluation Research is awarded without an endorsement.

##### Student Progression

- In cases of sufficient merit, the Postgraduate Diploma in Social Sector Evaluation Research may be awarded with distinction or merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

#### Schedule for the Postgraduate Diploma in Social Sector Evaluation Research

##### Compulsory courses (90 credits from)

230.701 Evaluation: Theory and Principles .....	30 credits
230.702 Professional Evaluation Practice .....	30 credits
230.703 Techniques and Methods in Evaluation Research .....	30 credits

##### Elective courses (30 credits from)

131.702 Development Management .....	30 credits
200.798 Research Report (30) .....	30 credits

## The Postgraduate Diploma in Social Service Supervision

### PGDipSSS

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Postgraduate Diploma in Social Service Supervision requires that the candidate will:
  - meet the University admission requirements as specified;
  - have been awarded or qualified for a relevant Bachelor's degree, or equivalent;
  - be professionally qualified in a social service field.

###### Qualification Requirements

- Candidates for the Postgraduate Diploma in Social Service Supervision shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - courses as specified in the Schedule for the Qualification; and including:
  - attending Contact Workshops, block courses, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 2(a), a candidate who has completed course(s) equivalent to a course included in the Schedule may, with

the approval of the Academic Board or their delegate, be permitted to substitute it with an approved 30-credit 700-level course.

##### Specialisations

- The Postgraduate Diploma in Social Service Supervision is awarded without endorsement.

##### Student Progression

- In cases of sufficient merit, the Postgraduate Diploma may be awarded with distinction or merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Qualifications will apply. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Social Work should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

#### Schedule for the Postgraduate Diploma in Social Service Supervision

##### Compulsory courses (120 credits from)

179.740 Social Service Supervision: Theory and Practice .....	30 credits
179.741 Social Service Management .....	30 credits
179.742 Learning in Social Service Supervision .....	30 credits
179.743 Clinical Supervision .....	30 credits

## The Postgraduate Diploma in Social Work

### PGDipSW

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Postgraduate Diploma in Social Work requires that the candidate will:
  - meet the University admission requirements as specified;
  - and

- (b) have been awarded or qualified for a Bachelor of Social Work or Bachelor of Social Work with Honours or equivalent.

#### Qualification Requirements

- Candidates for the Postgraduate Diploma in Social Work shall follow a programme of study, which shall consist of courses totalling at least 120 credits at 700-level, comprising:
  - courses selected from the Schedule for the Qualification and including:
  - attending Contact Workshops, block courses, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 2, and at the discretion of Academic Board, students exiting the Master of Applied Social Work may have a personal course variation approved in excess of stated limits, to meet the requirements of the Postgraduate Diploma in Social Work through substitution of courses from the schedule to that degree.
- Notwithstanding Regulation 2, and at the discretion of Academic Board, students exiting the Doctor of Social Work may have a personal course variation approved in excess of stated limits, to meet the requirements of the Postgraduate Diploma in Social Work through substitution of courses from the schedule to that degree.

#### Specialisations

- The Postgraduate Diploma in Social Work is awarded without specialisation.

#### Student Progression

- The Postgraduate Diploma in Social Work may be awarded with distinction.

#### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Social Work should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

## The Postgraduate Diploma in Specialist Teaching PGDipSpecTchg

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Postgraduate Diploma in Specialist Teaching requires that the candidate will meet the University admission requirements; and shall have:
  - been awarded or qualified for a Bachelor's degree, or equivalent; and
  - been awarded or qualified for a relevant professional qualification; and
  - have completed at least two years of relevant professional experience.
- For entry into the Te Korowai Mokopuna endorsement candidates shall have:
  - been awarded or qualified for the professional qualification Te Tohu Mātauranga Whakapakari Tino Rangatiratanga o Te Kōhanga Reo; and
  - have completed at least two years of relevant professional experience in Kōhanga Reo; and
  - hold a current letter of endorsement from Te Kōhanga Reo National Trust.
- In all cases candidates will be required to:
  - be selected on the basis of a selection process which may include written application, interview, referee reports and practical exercises; and
  - meet requirements equivalent to those set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in terms of values, fitness and disposition to teach; and will:
  - hold current relevant New Zealand Professional Registration; or
  - be required to undergo police vetting prior to gaining entry to the programme.
- All candidates whose first language is not English or Te Reo Māori who have not gained a New Zealand university entrance qualification, or an overseas entrance qualification in a country where the main language is English, will be required to provide evidence of their proficiency in English in the form of an academic IELTS (International English Language Testing System) score of 7.0 with no band less than 7.0 (or

the equivalent TOEFL score) or other evidence that is acceptable to Academic Board.

##### Qualification Requirements

- Candidates for the Postgraduate Diploma in Specialist Teaching shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - two core courses as listed in Schedule A for the qualification (60 credits);
  - two courses for one endorsement as listed in Schedule B for the qualification (60 credits).

##### Specialisations

- Candidates must complete one endorsement by completing the requirements for that endorsement as set out in Part B of the Schedule for the Qualification.
- The endorsements available for the Postgraduate Diploma in Specialist Teaching are Blind and Low Vision, Complex Educational Needs, Deaf and Hard of Hearing, Early Intervention, Gifted Education, Te Korowai Mokopuna, Learning and Behaviour.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
- Any candidate who has previously been awarded a Postgraduate Certificate in Specialist Teaching may be permitted to cross-credit the courses into the Postgraduate Diploma in Specialist Teaching. Time limits for completion and for the award of distinction will apply from the time that the candidate first enrolled in a course credited towards the diploma.
- In order to graduate with the Postgraduate Diploma in Specialist Teaching endorsed in Blind and Low Vision a candidate must pass the Trans-Tasman Braille Proficiency Examination.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Specialist Teaching should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.
- For candidates enrolled in the Postgraduate Diploma in Specialist Teaching failure to complete a course in two successive attempts will lead to exclusion from the qualification.

**Transitional Provisions**

- 14. Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the diploma, candidates who commenced study towards the Postgraduate Diploma in Specialist Teaching prior to 01 January 2021 will be permitted to substitute a completed course or courses as follows: 254.765 for 254.766 and/or 249.749 or 249.751 or 249.761 or 262.752 or 249.754 for 254.767. These transition arrangements expire 31 December 2023.
- 15. Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Gifted and Talented Education subject prior to 01 January 2022 may elect to be awarded this specialisation title rather than the title ‘Gifted Education’ on completion of the subject. These transition arrangements expire 31 December 2024.

## The Postgraduate Diploma in Sport and Exercise PGDipSpEx

### No new enrolments

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Postgraduate Diploma of Master of Sport and Exercise requires that the candidate will:
  - meet the University admission requirements as specified, and;
  - have been awarded or qualified for the Bachelor of Sport and Exercise or an equivalent qualification, with a minimum grade average of B-.

##### Qualification Requirements

- Candidates for the Postgraduate Diploma in Sport and Exercise shall follow a flexible course of study, which shall consist of courses totalling at least 120 credits, comprising:
  - courses selected from the Schedule to the Qualification; and including:
  - attending contact courses, block courses, field trips, studios, workshops, tutorials and laboratories as required.

##### Specialisations

- The Postgraduate Diploma in Sport and Exercise may be completed with or without an endorsement
- Candidates may complete an endorsement by passing at least 90 credits in an endorsement. The requirements for each endorsement are set out in the Schedule for the Qualification.
- Endorsements available are: Exercise Prescription and Training; Exercise Science; Physical Education; Sport Coaching; and Sport Management.

##### Student Progression

- In cases of sufficient merit, the Postgraduate Diploma in Sport and Exercise may be awarded with Distinction or Merit in accordance with the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Qualifications will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Postgraduate Diploma in Sport and Exercise Schedule A: Subject requirements

#### Exercise Prescription and Training (105 credits)

### No new enrolments

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Postgraduate Diploma in Sport Management requires that the candidate will:
  - meet the University admission requirements as specified; and
  - shall have been awarded or qualified for a Bachelor's degree or equivalent qualification, having achieved a B- grade average over the highest level courses.

##### Qualification Requirements

- Candidates for the Postgraduate Diploma in Sport Management shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits at 700 level, including:
  - any compulsory courses identified in the Schedule for the Qualification;
  - at least 90 credits selected from the Schedule to the Qualification; and
  - attending field trips, studios, workshops, tutorials and laboratories as required.

##### Specialisations

- The Postgraduate Diploma in Sport Management is awarded without specialisation.

##### Student Progression

- In cases of sufficient merit, the Postgraduate Diploma in Sport Management may be awarded with distinction or merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.

6. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

#### Unsatisfactory Academic Progress

7. The general Unsatisfactory Academic Progress regulations will apply.

## The Postgraduate Diploma in Supply Chain Management PGDipSCM

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to the Postgraduate Diploma in Supply Chain Management requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a university Bachelor's degree with a major in Supply Chain Management, or an equivalent qualification, having achieved a B- grade average or higher over the qualifying 300-level courses, and have completed at least two years of relevant professional experience; or shall have:
    - been awarded or qualified for a Graduate Diploma in Logistics and Supply Chain Management, or an equivalent qualification, having achieved a B- grade average or higher over the qualification, and have completed at least two years of relevant professional experience; or shall have:
      - demonstrated at least five years of relevant professional experience, including completion of appropriate professional qualifications or equivalent, via a portfolio, and an interview at the discretion of the University.

##### Qualification Requirements

- Candidates for the Postgraduate Diploma in Supply Chain Management shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits at 700 level, comprising:
  - courses selected from the Schedule to the Qualification; and including:
    - the compulsory courses listed in the Schedule for the Qualification;
    - attending field trips, studios, workshops, tutorials and laboratories as required.

##### Specialisations

- The Postgraduate Diploma in Supply Chain Management is awarded without Specialisation.

##### Student Progression

- In cases of sufficient merit, the Postgraduate Diploma in Supply Chain Management may be awarded with distinction or merit.

##### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.

- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Postgraduate Diploma in Logistics and Supply Chain Management prior to 1 January 2021 may satisfy the admission and qualification requirements in place in the 2020 regulations and may be permitted to graduate under the name Postgraduate Diploma in Logistics and Supply Chain Management once they have completed the requirements for the diploma.
- Such candidates may substitute a course or courses already taken for a course or courses of the same value within the compulsory course schedule. Candidates who have already completed 240.752 may be exempt from taking 240.759 and any elective courses.
- These transitional arrangements expire 31 December 2022.

# The Postgraduate Diploma in Veterinary Science

## PGDipVSc

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

1. Admission to the Postgraduate Diploma in Veterinary Science requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for a Bachelor of Veterinary Science, or equivalent.
2. Admission to the Postgraduate Diploma in Veterinary Science (Veterinary Medicine) requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for the Bachelor of Veterinary Science or a veterinary degree considered by the Academic Board to be equivalent to the Massey University Bachelor of Veterinary Science.
3. Notwithstanding the requirements of regulation 2(b), with the permission of the Academic Board or its delegate, candidates for the Postgraduate Diploma in Veterinary Science who have achieved at least a B in either 118.785 or 118.786 may be permitted to transfer to the Postgraduate Diploma in Veterinary Science (Veterinary Medicine).

##### Qualification Requirements

4. Candidates for the Postgraduate Diploma in Veterinary Science shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, including:
  - (a) the requirements for an established endorsement as specified in the Schedule to the Qualification, or a programme of study approved by Academic Board under regulation 5;
  - (b) attending field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

5. Academic Board may approve a programme of study and award the diploma with an endorsement identifying the veterinary field in which the candidate undertook study for the diploma.
6. Established endorsements for the Postgraduate Diploma in Veterinary Science are Veterinary Epidemiology, Veterinary Medicine and Veterinary Public Health.
7. The requirements for each established endorsement are set out in the Schedule for the Qualification.

##### Student Progression

8. In cases of sufficient merit, the Postgraduate Diploma in Veterinary Science may be awarded with distinction or merit.

##### Completion Requirements

9. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
10. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded Postgraduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

11. The general Unsatisfactory Academic Progress regulations will apply.

# The Postgraduate Diploma in Whānau Development

## PGDipWhānauDev

### No new enrolments

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Before enrolment, a candidate for the PGDipWhānauDev shall have:
  - satisfied the requirements for a Bachelor's degree in a relevant discipline; or
  - satisfied the requirements of the PGCertWhānauDev; or
  - (i) been admitted with equivalent status as eligible to proceed to the PGDipWhānauDev; and  
(ii) have relevant work in a related area to whānau development within three years of application for admission.

##### Qualification Requirements

- A candidate shall follow a programme of study comprising courses to the value of 120 credits selected from those listed in the Schedule for the PGCertWhānauDev and PGDipWhānauDev.

- In order for the Postgraduate Diploma to be awarded there shall be 90 credits comprising compulsory courses, and 30 credits selected from the research methods courses outlined in the Schedule.
- A candidate who has been awarded or qualified for the PGCertWhānauDev may apply for credit in accordance with the limits specified in the Recognition of Prior Learning regulations.

##### Unsatisfactory Academic Progress

- A candidate's programme of study shall not exceed five calendar years of part-time study for the PGDipWhānauDev, unless a specified time of suspension or extension is approved by the Academic Board.

### Schedule for the Postgraduate Diploma in Whānau Development

# Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium

## PGDipT&LMM

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

#### Part II

##### Admission

- Admission to Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium requires that the candidate will:
  - meet the University admission requirements as specified; and shall
  - have been awarded or qualified for a Bachelor's degree of at least 360 credits with a minimum of a B average across the 200- and 300-level courses, or equivalent; and
  - have demonstrated fluency in Te Reo Māori; and
  - have demonstrated competence in literacy and numeracy; and
  - meet the requirements for registration as set down by the New Zealand Education Council, in terms of good character and fitness to be a teacher; and
  - have been selected on the basis of a selection process which may include a written application, police vetting report, interview, referee reports and practical exercises.

##### Qualification Requirements

- Candidates for Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium shall follow a fixed programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - the compulsory courses listed in the Schedule for the Qualification;
  - attending wānanga, professional practice and community workshops, field trips, studios, tutorials and laboratories as required.

##### Specialisations

- Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium is awarded without specialisation.

##### Academic Requirements

- Every candidate for Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium shall perform to the satisfaction of the Pro Vice-Chancellor or their delegate a total of at least 600 hours of supervised professional practice in accordance with the requirements of each course.

##### Student Progression

- Massey University may cancel or refuse to permit the enrolment of a candidate in TTe Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium if, in the opinion of the University, a candidate is found not to meet in general terms the requirements set down by the Education Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher.
- Should a candidate in Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium be charged with, or convicted of an offence against the law after entry into the qualification, the candidate must advise the Pro Vice-Chancellor or their nominee of the charge or conviction within three days.
- If the Pro Vice-Chancellor or their nominee is of the opinion that any candidate does not meet in general terms the requirements set down by the Education Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher, the candidate's registration in Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium, will be cancelled.
- In cases of sufficient merit, Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium may be awarded with Distinction or Merit.

##### Completion Requirements

- A candidate's programme of study may not exceed three years from date of first enrolment in a course to be credited with Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the time-frames prescribed in Regulation 9.

##### Unsatisfactory Academic Progress

- For candidates enrolled in Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium the following may lead to exclusion from the qualification:
  - failure to obtain a pass in a course in two successive attempts;
  - failure to pass courses totalling at least 60 academic credits, or failure to pass at least 50 percent of an approved part-time programme of study in any academic year; or
  - failure to complete Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium within three years from the date of first enrolment in a course to be credited to the qualification.

12. A person excluded under Regulation 11 will only be readmitted to Te Aho Paerewa Postgraduate Diploma Teaching and Learning in Māori Medium with the approval of the Pro Vice-Chancellor or nominee. Such approval may be withheld or granted subject to conditions.

## The Postgraduate Certificate in Business PGCertBus

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

**Part II**

**Admission**

1. Admission to the Postgraduate Certificate in Business requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for a Bachelor’s degree having achieved at least a B- grade average in the highest level courses, or equivalent.
2. Notwithstanding Regulation 1, admission to the Postgraduate Certificate in Business endorsed in Business Administration requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have completed at least seven years business experience, at least three of which must be at management level; and
  - (c) have been selected into the programme on the basis of a selection process which may include a written application, interview and practical exercises.

**Qualification Requirements**

3. Candidates for the Postgraduate Certificate in Business shall follow a flexible programme of study, which shall consist of courses totalling at least 60 credits at 700 level, comprising:
  - (a) courses from the Postgraduate Certificate in Business Schedule; and including:
  - (b) attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
4. Notwithstanding Regulation 2, and with the approval of Academic Board or their delegate, relevant 700 level courses may be substituted for courses included in the Postgraduate Certificate in Business schedule beyond the normal limits permitted.

**Specialisations**

5. The Postgraduate Certificate in Business is awarded with or without an endorsement.
6. Candidates may complete an endorsement by passing 60 credits in that endorsement. The requirements for each endorsements are set out in the schedule for the Certificate.
7. The endorsement available in the Postgraduate Certificate in Business is Business Administration.

**Completion Requirements**

8. The timeframes for completion as outlined in the General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates will apply.
9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

10. The general Unsatisfactory Academic Progress regulations will apply.

## The Postgraduate Certificate in Nursing

### PGCertNurs

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Postgraduate Degrees, Postgraduate Diplomas, and Postgraduate Certificates.

##### Part II

###### Admission

- Admission to the Postgraduate Certificate in Nursing requires that the candidate will:
  - meet the University admission requirements as specified;
  - have been awarded or qualified for a bachelor's degree or equivalent; and
  - be a registered nurse with a practising certificate from the Nursing Council of New Zealand or equivalent.

###### Qualification Requirements

- Candidates for the Postgraduate Certificate in Nursing shall follow a flexible programme of study, which shall consist of courses totalling at least 60 credits at 700-level, comprising:
  - courses listed in the Schedule for the qualification; and including:
  - any compulsory courses listed in the Schedule for the Qualification; and
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
- Candidates who have successfully completed a Level 8 postgraduate course as part of a Nursing Council of New Zealand approved Nursing Entry to Practice programme may apply for cross-credit to the Postgraduate Certificate in Nursing. Such candidates will not be eligible to receive the Certificate with an endorsement.

###### Specialisations

- The Postgraduate Certificate in Nursing is awarded without an endorsement.
- Notwithstanding Regulation 4, candidates enrolled in the Postgraduate Certificate in Nursing prior to 1 January 2021 may complete an endorsement in accordance with Transition Provision 9.

###### Completion Requirements

- The timeframes for completion as outlined in the General Regulations for Postgraduate Qualifications will apply.
- Candidates may be graduated when they met the Admission, Qualification and Academic requirements within the prescribed timeframes.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

###### Transitional Provisions

- Subject to the Maximum Time to Completion and Abandonment of Studies provisions specified in the Part I regulations for the certificate, candidates enrolled in the Postgraduate Certificate in Nursing endorsements in Mental Health; Older Person's Health; and Primary Health Care prior to 1 January 2021 who have completed at least 30 credits, may be permitted to complete these endorsements by completing the requirements of Part B. Those candidates enrolled in the Neonatal endorsement prior to 1 January 2021 who have completed at least 30 credits, may be permitted variation beyond the stated limits to substitute a course or courses already taken for a course or courses at the same level within Part A in order to complete the endorsement. These transition arrangements expire 31 December 2022.

## The Graduate Diploma (Management) GradDip(Mgt)

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

1. Admission to the Graduate Diploma (Management) requires that the candidate will:
  - (a) have been awarded or qualified for an advanced diploma or associate degree, or equivalent;
  - (b) have achieved an overall academic score of 6.0 in an IELTS assessment, with no band score less than 5.5 or equivalent TOEFL score, or other evidence acceptable to Academic Board.

##### Qualification Requirements

2. Candidates for the Graduate Diploma (Management) shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising at least:
  - (a) Courses as defined by the Schedule for the Qualification; and including:
  - (b) attending field trips, studios, workshops, tutorials and laboratories as required.

#### Specialisations

3. The Graduate Diploma (Management) is awarded without an endorsement.

#### Completion Requirements

4. The timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
5. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.
6. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded an appropriate Certificate should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

7. The general Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Graduate Diploma (Management)

#### Compulsory courses (120 credits from)

115.321 Academic Skills for Postgraduate Study .....	15 credits
115.322 Critical and Contextual Thinking Skills for Postgraduate Study .....	15 credits
115.323 Advanced Communication for Postgraduate Study .....	15 credits
115.324 Intercultural Competence .....	15 credits
115.758 Interpersonal Communication at Work .....	15 credits
115.759 Current Issues in Business .....	15 credits
152.700 Organisation and Management .....	30 credits

## The Graduate Diploma (Marketing) GradDip(Mrk)

### Qualification Regulations

#### Part I

## The Graduate Diploma in Applied Statistics

### GradDipApplStat

**No new enrolments****Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II****Admission**

- Admission to the Graduate Diploma in Applied Statistics requires that the candidate will meet the University admission requirements as specified, and shall have:
  - been awarded or qualified for the award of a university degree; and
  - passed approved 100 level courses in Mathematics and Statistics (one of 160.101, 160.102, 160.103, 160.105, 160.111, 160.112, 160.131, 160.132, 160.133, 228.171; and one of 161.111, 161.122, 161.101, 161.140, or their equivalents).

**Qualification Requirements**

- Candidates for the Graduate Diploma in Applied Statistics shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - courses selected from the Schedule to the Qualification;
  - at least 120 credits at 200 level or higher, of which at least 75 credits must be at 300 level or higher; and including:
    - 45 credits from Schedule A courses;
    - at least 75 credits from Schedule B and Schedule C courses;
    - no more than 30 credits from Schedule C courses;
    - attending field trips, studios, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 2, and with the permission of the Programme Director, up to 30 credits from Schedules A or B may be substituted with appropriate alternative courses, including 700 level courses.

**Specialisations**

- The Graduate Diploma in Applied Statistics is awarded without specialisation.

**Student Progression**

- In order to progress to courses in Schedule C candidates must have successfully completed at least 30 credits from Schedule B courses, and have achieved at least a B+ grade average over all courses previously completed towards the Graduate Diploma in Applied Statistics, in addition to meeting the pre-requisites for the selected course.
- In cases of sufficient merit, the Graduate Diploma in Applied Statistics may be awarded with distinction.

**Completion Requirements**

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed

timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Graduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates who commenced study towards the Graduate Diploma in Applied Statistics prior to 1 January 2021 who have passed 161.200 may substitute this for a course within Schedule A. These transition arrangements expire 31 December 2023.

## The Graduate Diploma in Arts

### GradDipArts

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

- Admission to the Graduate Diploma in Arts requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor's Degree or an equivalent.

###### Qualification Requirements

- Candidates for the Graduate Diploma in Arts shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - at least 120 credits at the 200 or 300 level from the Schedule to the Diploma;
  - at least 75 credits at 300 level.
- Notwithstanding Regulation 2, with the approval of Academic Board or their delegate, a candidate who has completed at least 30 credits at 200 level and 30 credits at 300 level towards a Graduate Diploma in Arts subject may be permitted to include up to 30 credits at the 700 level from the Bachelor of Arts (Honours), Postgraduate Diploma in Arts or Master of Arts Schedules.

###### Specialisations

- The Graduate Diploma in Arts may be awarded with or without an endorsement.
- Candidates may complete the diploma without an endorsement only with the prior approval of a coherent programme of study by the Academic Board or their delegate.
- Candidates may complete an endorsement by passing at least 90 credits in a subject area including:
  - at least 60 credits at 300 level;
  - any compulsory courses for the endorsement as listed in the schedule. The requirements for each endorsement are set out in the Schedule for the Qualification.
- Endorsements available in the Graduate Diploma in Arts are: Asian Studies, Chinese, Classical Studies, Creative Writing, Defence Studies, Development Studies, Economics, Education, Educational Psychology, English, Environmental Studies, Geography, History, Japanese, Linguistics, Māori Knowledge, Mathematics, Media Studies, New Zealand Studies, Philosophy, Politics and International Relations, Psychology, Security Studies, Social Anthropology, Social Policy, Sociology, Spanish, Statistics and Theatre Studies.

###### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

###### Transitional Provisions

- Subject to the any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the diploma, candidates enrolled in the English endorsement prior to 1 January 2020 may substitute 139.201 and/or 139.301 for course(s) at

the same level included in the schedule. These transitional arrangements expire on 31 December 2023.

- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates who commenced study towards the Māori Knowledge endorsement prior to 01 January 2020 may elect to be awarded the alternative specialisation title of Māori Studies on completion. These transition arrangements expire 01 December 2023.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates who commenced study towards the Environmental Studies endorsement prior to 01 January 2020 will be permitted to substitute 176.206 for 145.213, if already completed. Such candidates will be permitted to substitute 121.211, 121.311 and/or 145.311 for a course or courses at the same level included in the Subject course schedule. These transition arrangements expire 01 December 2023.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Educational Psychology endorsement prior to 01 January 2021 will be permitted to substitute 256.303, if already completed, for 263.331. These transitional arrangements expire on 31 December 2024.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates who commenced study towards the Politics and International Relations endorsement prior to 01 January 2021 may elect to be awarded the alternative specialisation title of Politics on completion. These transition arrangements expire 01 December 2024.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations prior to 1 January 2021 may substitute 139.275 and/or 139.374 for course(s) at the same level included in the schedule. These transitional arrangements expire on 31 December 2023.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates who commenced study towards the Statistics endorsement prior to 01 January 2021 will be permitted to substitute 161.200, if already completed, for a compulsory course included in the schedule. These transitional arrangements expire on 31 December 2024.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates who commenced study towards the Economics endorsement prior to 01 January 2022 will be permitted to substitute a 300-level course(s) already completed towards the endorsement for 178.352. These transitional arrangements expire on 31 December 2025.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates who commenced study towards the Educational Psychology endorsement prior to 01 January 2022 will be permitted to substitute a 300-level course already completed towards the endorsement for 263.301. These transitional arrangements expire on 31 December 2025.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Social Anthropology endorsement prior to 01 January 2022 will be permitted to substitute 146.303 for 146.301. Such candidates who have completed 146.213 may count this course towards the requirements of the subject course schedule and may substitute (if completed) one of 146.302, 146.304, 146.311, 146.313, 146.316, 146.317 or 146.318 for 146.300. Candidates will be permitted to substitute completed courses for courses

at the same or lower level included in the subject course schedule. These transitional arrangements expire on 31 December 2025.

21. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates who commenced study towards the Social Policy endorsement prior to 01 January 2022 will be permitted to substitute a 300-level course(s) already completed towards the endorsement for 179.320 and/or 179.330. These transitional arrangements expire on 31 December 2025.
22. Subject to any Maximum Time to Completion regulations and the Abandonment of Study provisions specified in the Part I regulations to the diploma, candidates who commenced study towards the Statistics endorsement prior to 01 January 2022 will be permitted to substitute 161.220 and/or 161.221, if already completed, for 161250 and/or 161251. These transitional arrangements expire on 31 December 2025.

## The Graduate Diploma in Aviation

### GDipAv

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II****Admission**

- Admission to the Graduate Diploma in Aviation requires that the candidate will:
  - meet the University admission requirements as specified; and

- shall have been awarded or qualified for a Bachelor's degree or be admitted on the basis of equivalence.
  - Candidates are deemed to have met the prerequisite requirements for the 200-level courses listed in the Schedule below.
- Admission to the Graduate Diploma in Aviation with a Flight Instruction endorsement requires that the candidate will:
    - meet the requirements of Regulation I; and
    - hold a Class One Medical Certificate recognised by the CAA NZ and meet appropriate pilot aptitude selection criteria as defined from time to time by the School of Aviation; and
    - hold a Commercial Pilot Licence (CPL) - Aeroplane (A).

**Qualification Requirements**

3. Candidates for the Graduate Diploma in Aviation shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - (a) courses selected from the Schedule to the Qualification;
  - (b) completion of an endorsement;
 and including:
  - (c) at least 75 credits at 300 level;
  - (d) any compulsory courses identified in the Schedule to the Qualification;
  - (e) attending field trips, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

4. Candidates may complete an endorsement by passing at least 120 credits in a specialisation including 75 credits at 300 level. The requirements for each endorsement are set out in the Schedule for the Qualification.
5. Approved endorsements are Aviation Studies and Flight Instruction.

**Academic Requirements**

6. Candidates completing the Flight Instruction endorsement must complete the necessary competencies to achieve a CAA NZ ‘C’ Category Flight Instructor Rating, a night instructor endorsement removal and an aerobatics instructor endorsement removal and pass the following integrated courses:
  - 190.282 Introduction to Flight Instruction
  - 190.285 Aerobatic Aircraft Handling
  - 190.301 Flight Instructor Human Factors
  - 190.315 Flight Instruction Fundamentals I
  - 190.335 Flight Instruction
7. Integrated courses comprise two components: academic and practicum. A candidate must pass both the academic component and the practicum component to obtain a pass in the course.

**Completion Requirements**

8. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
9. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

10. The general Unsatisfactory Academic Progress regulations will apply.

**Schedule for the Graduate Diploma in Aviation**

**15 credits at 300 level from 190 prefix (Aviation)**

**15 credits at 200 or 300 level from the 190 prefix (Aviation).**

**The Graduate Diploma in Business Studies  
GradDipBusStuds**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

1. Admission to the Graduate Diploma in Business Studies requires that the candidate will:
  - (a) meet the University admission requirements as specified; and shall
  - (b) have been awarded or qualified for a Bachelor’s degree, or equivalent; or

- (c) have demonstrated equivalent practical, professional and/or scholarly experience.

**Qualification Requirements**

2. Candidates for the Graduate Diploma in Business Studies shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits at 200 level or above, comprising:
  - (a) courses selected from the Graduate Diploma in Business Studies schedule;
  - (b) at least 75 credits at 300 level;
 and including:
  - (c) attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
3. Notwithstanding Regulations 2, up to 45 200-level credits may be cross-credited from a completed Massey University degree provided that the courses are listed in Schedule B of the Bachelor of Business or the Bachelor of Retail and Business Management schedule.

4. Candidates are deemed to have met the general University progression requirement for 200-level courses if they have been awarded any Degree, Diploma or Certificate at NZQA level 5 or above.

#### Specialisations

5. The Graduate Diploma in Business Studies may be awarded with or without an endorsement. The requirements for each endorsement are set out in the Schedule for the Graduate Diploma in Business Studies.
6. The endorsements available are: Accounting, Business Information Systems, Business Law, Communication Management, Dispute Resolution, Economics, Entrepreneurship and Small Business, Finance, Human Resource Management, International Business, Management, Management and Leadership for Maori Providers, Marketing, Personal Financial Planning, Property Management, Rural Valuation, Sport Management, and Urban Valuation.

#### Completion Requirements

7. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
8. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Certificate in Business Studies should they meet the relevant Qualification requirements.

#### Unsatisfactory Academic Progress

9. The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

10. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the diploma, candidates enrolled in the Graduate Diploma in Business Studies prior to 1 January 2021 who have completed one or both of 125.240 or 125.342 may substitute these courses for 125.241 (in the case of 125.240) and 125.340 (in the case of 125.342). These transitions expire 31 December 2023.

## Schedule for the Graduate Diploma in Business Studies

## The Graduate Diploma in Design GDipDes

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

1. Admission to the Graduate Diploma in Design requires that the candidate will have:
  - (a) met the University admission requirements as specified; and will have:
  - (b) been awarded or qualified for a Bachelor’s degree, or equivalent; or
  - (c) been assessed by Academic Board or their delegate as having equivalent practical, professional and scholarly experience at the appropriate level; or
  - (d) completed at least 360 credits of a Massey University design degree including 75 credits at 300 level.
2. In all cases candidates must be selected into the Diploma following a selection process which will include the assessment of a portfolio of work submitted by the candidate and, at the discretion of Academic Board or their delegate, an interview.

##### Qualification Requirements

3. Candidates for the Graduate Diploma in Design shall follow a flexible course of study, which shall consist of courses totalling at least 120 credits, comprising:
  - (a) At least 30 credits of core courses selected from Part A of the Schedule to the Diploma;
  - (b) At least 60 credits of core endorsement courses selected from Part B of the Schedule to the Diploma;

- (c) 30 credits of elective courses selected from Part C of the Schedule to the Diploma;
  - (d) attending contact courses, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
4. Notwithstanding Regulation 1, with the approval of the Academic Board or their delegate a candidate may be permitted to transfer up to 30 credits from an incomplete graduate qualification in design or related programme of study to the Graduate Diploma in Design.

##### Specialisations

5. The Graduate Diploma in Design is awarded with an endorsement.
6. Candidates must complete an endorsement by completing at least 75 credits from the course prefix series of one of the endorsement subjects, including both the core courses for that course prefix listed in Part B of the Schedule to the Diploma.
7. Endorsements available in the Graduate Diploma in Design and their associated course prefixes are: Industrial Design (198 prefix), Fashion Design (212 prefix), Photography (221 prefix), Spatial Design (224 prefix), Textile Design (223 prefix) or Visual Communication Design (222 prefix).

##### Student Progression

8. In cases of sufficient merit, the Graduate Diploma in Design may be awarded with Distinction or Merit if completed in one year of full-time study or three years of part-time study.

##### Completion Requirements

9. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
10. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board or their delegate, be

awarded the Certificate in Visual Arts should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

11. The general Unsatisfactory Academic Progress regulations will apply.

## The Graduate Diploma in Emergency Management

### GradDipEmergMgt

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

##### Admission

1. Admission to the Graduate Diploma in Emergency Management requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for the award of a Bachelor’s degree, or equivalent, or another approved qualification; and
  - (c) have completed at least one year of emergency management-related experience.

##### Qualification Requirements

2. Candidates for the Graduate Diploma in Emergency Management shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - (a) at least 75 credits at 300 level;
  - (b) any compulsory courses listed in the Schedule for the Qualification; and including:
  - (c) attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

3. The Graduate Diploma in Emergency Management is awarded without an endorsement.

##### Completion Requirements

4. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
5. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Graduate Certificate in Emergency Management should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

6. The general Unsatisfactory Academic Progress regulations will apply.

#### Schedule for the Graduate Diploma in Emergency Management

##### Compulsory courses (30 credits from)

130.202 Introduction to Emergency Management.....	15 credits
130.301 Incident Command Systems.....	15 credits
P Any 200-level course or Graduate Status	

##### Elective courses (90 credits from)

##### No more than 30 credits from

130.203 Disaster Risk Management.....	15 credits
132.221 Planning Studies.....	15 credits
152.252 Project Management.....	15 credits
175.201 Social Psychology.....	15 credits
251.271 Occupational Health and Safety I.....	15 credits
251.272 Occupational Health and Safety II.....	15 credits

##### At least 60 credits from

131.321 Strategies for Sustainable Development.....	15 credits
152.336 Leadership Practice.....	15 credits
R 152328, 152329	
152.350 Strategic Management and Governance.....	15 credits
P Any 200 level Management course R 152341, 152365	
214.301 Environmental Health Risk Management for Disasters.....	15 credits
219.303 Organisational Communication.....	15 credits
R 114353	
219.305 Public Relations Management.....	15 credits
P 219209 R 114363	
219.307 Interpersonal Communication.....	15 credits
R 219201,114261,14352	
219.312 Risk and Crisis Communication.....	15 credits
219.335 Media Law and Ethics.....	15 credits
R 219331	

## The Graduate Diploma in Environmental Health

### GradDipEH

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

- Admission to the Graduate Diploma in Environmental Health requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a relevant Bachelor's degree or equivalent.

###### Qualification Requirements

- Candidates for the Graduate Diploma in Environmental Health shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - at least 75 credits at 300-level; and including:
  - any compulsory courses listed in the Schedule for the Qualification;
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

###### Specialisations

- The Graduate Diploma in Environmental Health is awarded without an endorsement.

###### Student Progression

- In cases of sufficient merit, the Graduate Diploma in Environmental Health may be awarded with distinction.

###### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

#### Schedule for the Graduate Diploma in Environmental Health

##### Compulsory courses (120 credits from)

214.213 Toxic Substances, Human Health and the Environment .....	15 credits
214.215 Food Safety and Human Health.....	15 credits
214.216 Environmental and Public Health Law.....	15 credits
214.301 Environmental Health Risk Management for Disasters.....	15 credits
214.311 Epidemiology and Communicable Diseases.....	15 credits
214.312 Environmental Monitoring and Investigative Methods.....	15 credits
214.314 Water and Waste Treatment.....	15 credits
214.316 Bio-Physical Effects of Noise and Vibration.....	15 credits

## The Graduate Diploma in Facilities Management

### GradDipFM

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

- Admission to the Graduate Diploma in Facilities Management requires candidates to:
  - meet the university's admission requirements as specified;
  - have been awarded or qualified for a Bachelor's degree or equivalent qualification; and
  - have completed at least two years of relevant professional experience.

###### Qualification Requirements

- Candidates for the Graduate Diploma in Facilities Management shall follow a programme of study that shall consist of courses totalling at least 120 credits, comprising:
  - at least 75 credits at 300-level or above;
  - any compulsory courses listed in the Schedule for the qualification; and including:
  - attending field trips, studios, workshops, tutorials, and laboratories as required.

###### Specialisations

- The Graduate Diploma in Facilities Management is awarded without a specialisation.

###### Student Progression

- In cases of sufficient merit, the Graduate Diploma in Facilities Management may be awarded with distinction if completed in one year of full-time study or three years of part-time study.

###### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.

- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of the Academic Board, be awarded the Graduate Certificate in Science and Technology should they meet the relevant Qualification requirements.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

218.346 Digital Evolution of Facilities Management.....	15 credits
218.352 Facilities and Asset Maintenance.....	15 credits

# The Graduate Diploma in Fine Arts

## GDipFA

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Graduate Diploma in Fine Arts requires that the candidate will have:
  - met the University admission requirements as specified; and will have
  - been awarded or qualified for a Bachelor's degree, or equivalent; or
  - been assessed by Academic Board or their delegate as having equivalent practical, professional and scholarly experience at the appropriate level.
- In all cases candidates must be selected into the Diploma following a selection process which will include the assessment of a portfolio of work submitted by the candidate and, at the discretion of Academic Board or their delegate, an interview.

##### Qualification Requirements

- Candidates for the Graduate Diploma in Fine Arts shall follow a flexible course of study, which shall consist of courses totalling at least 120 credits, comprising:
  - 90 credits of core courses selected from Part A of the Schedule to the Diploma;
  - 30 credits of elective courses selected from Part B of the Schedule to the Diploma;
  - attending contact courses, block courses, field trips, studios, workshops, tutorials and laboratories as required.

##### Specialisations

- The Graduate Diploma in Fine Arts is awarded without endorsement.

##### Student Progression

- In cases of sufficient merit, the Graduate Diploma in Fine Arts may be awarded with distinction if completed in one year of full-time study or three years of part-time study.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board or their delegate, be awarded the Certificate in Visual Arts should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Graduate Diploma in Fine Arts

#### Part A: Compulsory courses (90 credits from)

197.388 Creative Communities .....	15 credits

# The Graduate Diploma in Information Sciences

## GradDiplnInfSc

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Graduate Diploma in Information Sciences requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for an undergraduate degree or equivalent qualification.

##### Qualification Requirements

- Candidates for the Graduate Diploma in Information Sciences shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits at 200 level or above, comprising:
  - at least 120 credits from courses listed in the Schedules for the qualification;
  - at least 75 credits at 300 level or above; and including:
  - any compulsory courses listed in the Schedules for the qualification;

- (d) attending Contact Workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.

### Specialisations

- Candidates may complete the Graduate Diploma in Information Sciences with or without an endorsement.
- Candidates may complete an endorsement or a joint endorsement by passing at least 90 credits, including at least 60 credits at 300 level, within the endorsement or joint endorsement. The requirements for each endorsement and joint endorsement are set out in Schedule A of the qualification.
- Endorsements available are Computer Science, Data Science, Information Systems and Information Technology.
- Approved joint endorsement is Software Engineering.

### Student Progression

- In cases of sufficient merit, the Graduate Diploma in Information Sciences may be awarded with distinction.

### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I qualification regulations, candidates enrolled in the Graduate Diploma in Information Sciences prior to 1 January 2020 may substitute a course or courses already completed for a course or courses at the same level in the same schedule. For students completing without an endorsement, the course or courses that are substituted may be from any part of the qualification schedule. These transition arrangements expire on 31 December 2022.

## Schedule for the Graduate Diploma in Information Sciences

### Schedule A: Endorsements

#### Computer Science (90 credits)

##### At least 30 credits from

159.201 Algorithms and Data Structures.....	15 credits
P 159102 R 159271	
159.202 Declarative Programming.....	15 credits
P 159102 R 159272	
159.234 Object-Oriented Programming.....	15 credits
P 159102	
159.235 Programming for Computer Graphics.....	15 credits
P 159102 R 159360	
159.236 Embedded Programming.....	15 credits
P 159102 R 159233, 159270	
159.251 Software Engineering Design and Construction.....	15 credits
P 159234	
159.261 Games Programming.....	15 credits
P 159101	
159.270 Hardware-Oriented Computing.....	15 credits
P 159100 or 159101 or 159172 R 159236	
159.271 Computational Thinking for Problem Solving.....	15 credits
P 159102 or 159172 R 159201	
159.272 Programming Language Paradigms.....	15 credits
P 159102 R 159202	

##### At least 60 credits from

159.302 Artificial Intelligence.....	15 credits
P 159201 or 159234 R 159372	
159.336 Mobile Application Development.....	15 credits
P 159234 or 159235	
159.339 Internet Programming.....	15 credits
P 159201 or 159234 R 159352	
159.341 Programming Languages, Algorithms and Concurrency.....	15 credits
P 159201 or 159202 R 159331	
159.342 Operating Systems and Networks.....	15 credits
P 159201 or 159234 R 159334, 159335, 159354, 159355	
159.352 Advanced Web Development.....	15 credits
P (159100 or 159101 or 159171) and (158256 or 158258) R 159339	
159.355 Concurrent Systems.....	15 credits
P 159272 R 159335, 159341, 159342	

159.360 Programming for Computer Graphics.....	15 credits
P (159270, 159271 or 159272) and (160101, 160102, 160103 or 160105) R 159235	
159.361 Advanced Games Programming.....	15 credits
P 159235, 159261	
159.372 Intelligent Machines.....	15 credits
P 159271 or 159272 R 159302	

### Data Science (90 credits)

#### No new enrolments

##### Compulsory courses (45 credits from)

158.222 Data Wrangling and Machine Learning.....	15 credits
P (159101 or 159100) and one of (1611xx, 160101, 160102)	
158.333 Applied Machine Learning and Big Data Processing.....	15 credits
P 158222	
158.337 Database Development.....	15 credits
P One of 1582xx or 1592xx R 158247	

##### Specialisation courses

##### At least 15 credits from

158.212 Application Software Development.....	15 credits
P 1581xx or 1591xx	
159.201 Algorithms and Data Structures.....	15 credits
P 159102 R 159271	
160.211 Linear Algebra.....	15 credits
P 160102, 160112, 160133 or 228172	

##### At least 15 credits from

161.323 Multivariate Analysis.....	15 credits
P One of 161222, 161220, 161221, 161250, 161251, 233214 R 161762	
161.324 Data Mining.....	15 credits
P One of 161122, 161220, 161221, 161250 or 161251 R 161223 and 161777	

##### At least 15 credits from

158.326 Software Construction.....	15 credits
P 158256 or 158258 or 159234 or 159270	
159.302 Artificial Intelligence.....	15 credits
P 159201 or 159234 R 159372	
161.323 Multivariate Analysis.....	15 credits
P One of 161222, 161220, 161221, 161250, 161251, 233214 R 161762	

### Information Systems (90 credits)

#### No new enrolments

##### Specialisation courses

##### At least 30 credits from

157.216 Management, Analytics and Decision Making.....	15 credits
157.240 Social Media Networks for Business.....	15 credits
157.241 Technology Trends for Organisations.....	15 credits
P 157150 or 157151 or 115107 or 1581xx or 1591xx R 157242	

##### At least 60 credits from

157.340 Organisational Knowledge Management.....	15 credits
P 1142xx or 1522xx or 1572xx or 1582xx or 1592xx	
157.350 Technology Governance and Risk Management.....	15 credits

## The Graduate Diploma in Journalism GDipJ

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

1. Admission to the Graduate Diploma in Journalism requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) shall have been awarded or qualified for an undergraduate degree or an equivalent qualification; or
  - (c) have been admitted to the qualification on the basis of equivalent relevant professional experience.

**Qualification Requirements**

2. Candidates for the Graduate Diploma in Journalism shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - (a) courses selected from the Schedule to the Qualification;
  - (b) at least 120 credits above 100 level of which at least 75 credits must be at 300 level;

and including:

- (c) any compulsory courses listed in the Schedule for the Qualification;
  - (d) attending field trips, studios, workshops, tutorials and laboratories as required.
3. Notwithstanding Regulation 2, up to 30 credits at 200 level may be cross-credited from a completed Massey University qualification provided that the course is listed in the Schedule to the Graduate Diploma in Journalism.

**Specialisations**

4. The Graduate Diploma in Journalism is awarded without specialisation.

**Completion Requirements**

5. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
6. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Certificate in Business Studies should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

7. The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

8. Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled in the Graduate Diploma in Journalism Studies prior to January 2020 will be permitted to substitute courses already completed towards the diploma for courses at the same level included in the schedule. Any such candidate will be granted a waiver of pre-requisite requirements for courses in the schedule. Such candidates will be permitted to graduate under the title Graduate Diploma Journalism Studies should they choose to do so. These transition provisions expire 31 December 2023.

**Schedule for the Graduate Diploma in Journalism**

**No more than 45 credits from**

154.204 Digital Media Production I ..... 15 credits

219.204 News Media and Society ..... 15 credits  
R 114264

219.223 Advanced News Reporting ..... 15 credits  
P 219231, 154204

219.231 News Media Reporting ..... 15 credits  
P 219108

**At least 75 credits from**

139.340 The Publishing Project ..... 15 credits  
P Any 200-level course with a 139 prefix or 219202

219.311 Communication Internship ..... 15 credits  
P 2192xx or 1562xx and Appraisal Required

219.325 Journalism and Politics ..... 15 credits

219.335 Media Law and Ethics ..... 15 credits  
R 219331

219.336 Researching Journalism ..... 15 credits

219.339 History of Journalism ..... 15 credits

**The Graduate Diploma in Logistics and Supply Chain Management  
GradDipL&SCM**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

1. Admission to the Graduate Diploma in Logistics and Supply Chain Management requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) have been awarded or qualified for a relevant Bachelor's degree or equivalent; or
  - (c) have completed at least four years of relevant professional experience, or equivalent.

**Qualification Requirements**

2. Candidates for the Graduate Diploma in Logistics and Supply Chain Management shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - (a) at least 75 credits at 300 level; and including:
  - (b) any compulsory courses listed in the Schedule for the Diploma;
  - (c) attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

3. The Graduate Diploma in Logistics and Supply Chain Management is awarded without an endorsement.

**Student Progression**

4. In cases of sufficient merit, the Graduate Diploma in Logistics and Supply Chain Management may be awarded with Distinction, provided that the Diploma has been completed within one year of first enrolling in full-time study or within three years of first enrolling in part-time study.

**Completion Requirements**

5. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
6. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

7. The general Unsatisfactory Academic Progress regulations will apply.

**Schedule for the Graduate Diploma in Logistics and Supply Chain Management**

**Compulsory courses (75 credits from)**

240.260 Logistics and Supply Chain Fundamentals ..... 15 credits

**The Graduate Diploma in Occupational Health and Safety  
GradDipOHS**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

1. Admission to the Graduate Diploma in Occupational Health and Safety requires that the candidate will:
  - (a) meet the University admission requirements as specified;
  - (b) have been awarded or qualified for a relevant Bachelor's degree or equivalent; and
  - (c) have completed at least two years of relevant professional experience or equivalent.

**Qualification Requirements**

- Candidates for the Graduate Diploma in Occupational Health and Safety shall follow a programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - at least 75 credits at 300-level; and including:
  - any compulsory courses listed in the Schedule for the Qualification;
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
- Candidates seeking graduate membership of the Institution of Occupational Safety and Health (UK) must include courses 114.240, 251.370 and 251.372.

**Specialisations**

- The Graduate Diploma in Occupational Health and Safety is awarded without an endorsement.

**Student Progression**

- In cases of sufficient merit, the Graduate Diploma in Occupational Health and Safety may be awarded with distinction or merit provided that the programme of study does not extend beyond 36 months of part-time study.

**Completion Requirements**

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Qualifications will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

**Transitional Provisions**

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the degree, candidates enrolled prior to 1 January 2022 who have successfully completed either 114.254 or 128.200 may substitute one of these for 114.240. Candidates who have successfully completed 214.312 may substitute this for 214.316. These transition arrangements expire 31 December 2025.

**Schedule for the Graduate Diploma in Occupational Health and Safety**

**Compulsory courses (120 credits from)**

114.240 Organisational Behaviour .....	15 credits
128.300 Ergonomics/Human Factors: Work, Performance, Health and Design	15 credits

**The Graduate Diploma in Quality Systems  
GradDipQS**

**No new enrolments**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

- Before enrolment for the Graduate Diploma in Quality Systems a candidate shall have:
  - qualified for the award of a university degree, a diploma or a qualification approved for the purpose of these Regulations by the Academic Board, or have been granted admission with equivalent status as entitled to proceed to the Graduate Diploma in Quality Systems; and
  - satisfied the Academic Board that they have sufficient background of professional experience to be likely to benefit from the programme.

**Qualification Requirements**

- To qualify for the award of the Graduate Diploma in Quality Systems the candidate shall pass a total of 120 credits selected from the Schedule.

**Regulation Notes**

- Any 700-level course taken in the GDipQS that is also offered in the PGDipQS may not subsequently be counted in the PGDipQS, or re-taken by any student progressing from GDipQS to PGDipQS.
- A maximum of 45 credits may be taken in 200-level courses.

- Students whose work is of outstanding merit throughout the programme and in the Diploma examinations shall, on the recommendation of the examiners and the Academic Board, be awarded the Diploma with Distinction.

**Approved Massey elective (15 credits from)**

**The Graduate Diploma in Rural Studies  
GradDipRurStud**

**No new enrolments**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for

Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

- Admission to the Graduate Diploma in Rural Studies requires that the candidate will:
  - meet the University admission requirements as specified; and

- (b) have been awarded or qualified for a Bachelor's degree or equivalent qualification.

#### Qualification Requirements

2. Candidates for the Graduate Diploma in Rural Studies shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
- at least 60 credits from the Schedule to the Qualification;
  - at least 75 credits at 300 level; and including:
  - any compulsory courses listed in the Schedule to the Qualification; and
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

#### Specialisations

3. Candidates may complete the Graduate Diploma in Rural Studies with or without an endorsement.
4. Candidates may complete one endorsement only by passing at least 60 credits in the endorsement. The requirements for each endorsement are set out in the Schedule for the Qualification.
5. Endorsements available are: Agribusiness; Animal Production; Equine Management; Farm Forestry; Farm Management; Land Use Management; Landscape Management; Life Cycle Management; Lifestyle Farming; Livestock Improvement; Natural Resource Management; Pastoral Agriculture; Plant Protection; Production Horticulture; Ruminant Nutrition; Rural Banking; Rural Valuation; and Value Chain Management.

#### Student Progression

6. In cases of sufficient merit, the Graduate Diploma in Rural Studies may be awarded with distinction.

#### Completion Requirements

7. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.
8. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

#### Unsatisfactory Academic Progress

9. The general Unsatisfactory Academic Progress regulations will apply.

## The Graduate Diploma in Science and Technology

### GDipScTech

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

- Admission to the Graduate Diploma in Science and Technology requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a relevant Bachelor's degree, or equivalent; or
  - have been admitted to the qualification on the basis of equivalent relevant professional experience.

###### Qualification Requirements

- Candidates for the Graduate Diploma in Science and Technology shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits comprising:
  - at least 75 credits at 300 level or higher;
  - a selection of courses from the Schedule to the Qualification; and including:
  - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

###### Specialisations

- The Graduate Diploma in Science and Technology is not awarded with an endorsement.

###### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the

Graduate Certificate in Science and Technology or Certificate in Science and Technology should they meet the relevant Qualification requirements.

###### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

###### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the diploma, candidates enrolled in the Graduate Diploma in Science and Technology prior to 1 January 2022 may include courses from the 145 prefix at either 200 or 300 level. These transition arrangements expire 31 December 2024.

#### Schedule for the Graduate Diploma in Science and Technology

##### 120 credits from courses at 200 level and 300 level selected from the following prefixes:

112 Agribusiness, 117 Animal Science, 119 Agriculture and Horticulture, 120 Plant Biology, 121 Environmental Science, 122 Biochemistry, 123 Chemistry, 138 Agricultural Engineering, 147 Rehabilitation Studies, 151 Nutritional Science, 160 Mathematics, 161 Statistics, 162 Biology, 175 Psychology, 188 Natural Resource Management, 189 Soil Science, 194 Physiology, 196 Ecology, 199 Zoology, 203 Genetics, 214 Health Sciences, 218 Building and Construction, 228 Technology and Engineering, 231 Public Health, 233 Earth Science, 234 Sport and Exercise Science, 235 Māori Resource and Environmental Management, 246 Natural Sciences, 247 College of Sciences, 250 Health, 251 Occupational Health and Safety, 280 Process and Environmental Technology, 281 Electronics and Information Engineering, 282 Mechatronics and Automation Engineering, 283 Agronomy, 284 Horticulture, 285 Plant Health, 286 Equine. Up to 30 credits may be selected from 127 Property Studies, 150 Māori Studies, 152 Management, 156 Marketing, 178 Economics.

##### or 120 credits from:

227.511 Veterinary Clinics and Public Health	120 credits
P 120 credits from 2274xx	
502.701 Workplace-based Learning in the Sciences	60 credits
P Appropriate College approval (Director Academic)	
502.702 Extended Workplace-based Learning in the Sciences	60 credits
P 502701 Appropriate College approval (Director Academic)	

## The Graduate Diploma of Learning and Teaching

### GradDipLnTchg

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

- Admission to the Graduate Diploma of Learning and Teaching requires that the candidate will:
  - meet the University admission requirements as specified; and have
  - been awarded or qualified for a Bachelor's degree of at least 360 credits, or equivalent; and
  - demonstrated competence in literacy and numeracy as set down by the Teaching Council of Aotearoa New Zealand; and
  - achieved an Academic IELTS score of at least 7.0 with no band less than 7.0 or approved equivalent within the preceding two years, unless the candidate holds New Zealand University Entrance Level 2 literacy credits or higher, or Teaching Council of Aotearoa New Zealand recognised equivalent qualification(s) and/or schooling; and
  - met the requirements for registration as set down by the Teaching Council of Aotearoa New Zealand, in terms of values, fitness and disposition to teach; and

- been selected on the basis of a selection process which may include a written application, Police Vetting report, interview, referee reports and practical exercises, as may be determined by the Academic Board or their delegate.

- Admission to the Secondary endorsement requires that candidates will:
  - meet the requirements specified in Regulation 1; and
  - have completed a body of study at New Zealand Qualifications Framework Levels 5 to 7 and/or higher in at least one subject that is relevant for teaching a particular Secondary School subject.

###### Qualification Requirements

- Candidates for the Graduate Diploma of Learning and Teaching shall follow a flexible programme of study, which shall consist of courses totalling at least 150 credits, comprising:
  - the core courses listed in the Schedule to the diploma; and
  - the courses listed in the schedule for one endorsement; and
  - attendance at professional practice and community placements, field trips, studios, workshops, tutorials and laboratories as required.

###### Specialisations

- Candidates must complete an endorsement by passing at least 120 credits in that subject. The requirements for each endorsement are set out in Part B of the Schedule for the Qualification.
- The endorsements available for the Graduate Diploma of Learning are: Primary, Secondary, Early Childhood Education.

###### Academic Requirements

- Every candidate for the Graduate Diploma of Learning and Teaching shall perform to the satisfaction of the Academic Board or their delegate at least 16 weeks of supervised professional experience placements, in

accordance with the requirements of the courses listed in the schedule for the endorsement in which they are enrolled.

**Student Progression**

7. Massey University may cancel or refuse to permit the enrolment of a candidate in the Graduate Diploma of Learning and Teaching if, in the opinion of the University, that candidate is found not to meet in general terms the requirements set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher.
8. Should a candidate in the Graduate Diploma of Learning and Teaching be charged with, or convicted, of an offence against the law after entry into the qualification, the candidate must advise the Pro Vice-Chancellor or their nominee of the charge or conviction within three days.
9. If the Pro Vice-Chancellor or their nominee is of the opinion that any candidate does not meet in general terms the requirements set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher, the candidate's registration in the Graduate Diploma of Learning and Teaching programme will be cancelled.

**Completion Requirements**

10. A candidate's programme of study may not exceed three years from date of first enrolment in a course to be credited to the Graduate Diploma of Learning and Teaching.
11. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

12. For candidates enrolled in the Graduate Diploma of Learning and Teaching the following will lead to exclusion from the qualification:
  - (a) failure to obtain a pass in a course in two successive attempts; or
  - (b) failure to pass courses totalling at least 75 academic credits or failure to pass at least 50 percent of an approved part-time programme of study in any academic year; or
  - (c) failure to complete the Graduate Diploma of Learning and Teaching within three years from date of first enrolment in a course to be credited to the Graduate Diploma of Learning and Teaching.
13. A person excluded under Regulation 12 will only be readmitted to the Graduate Diploma of Learning and Teaching with the approval of

Academic Board or their nominee. Such approval may be withheld or granted subject to conditions.

GradDipTchg(ECE)**

**No new enrolments**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

1. Admission to the Graduate Diploma of Teaching (Early Childhood Education) requires that the candidate will:
  - (a) meet the University admission requirements as specified; and
  - (b) hold a New Zealand teacher education (Primary) degree of at least 360 credits or a New Zealand teacher education (Primary) three-year diploma of at least 360 credits, or equivalent which meets the requirements of the Teaching Council of Aotearoa New Zealand for registration as a teacher in New Zealand;
 or
  - (c) hold an overseas teacher education (Primary) degree of at least 360 credits or overseas teacher education (Primary) three-year diploma of at least 360 credits or equivalent, and be registered as a teacher with the Teaching Council of Aotearoa New Zealand;
 or
  - (d) have been awarded or qualified for a Bachelor's degree of at least 360 credits, or equivalent; and
  - (e) hold a qualification(s) approved by the Teaching Council of Aotearoa New Zealand as appropriate for entry; and

- (f) have completed approved courses in education to the value of at least 30 credits.
2. In all cases candidates are required to have:
  - (a) demonstrated competence in literacy and numeracy; and
  - (b) achieved an Academic IELTS score of at least 7.0 with no band less than 7.0 or approved equivalent within the preceding two years, unless the candidate holds New Zealand University Entrance Level 2 literacy credits or higher, or Teaching Council of Aotearoa New Zealand recognised equivalent qualification(s) and/or schooling; and
  - (c) met the requirements for registration as set down by the Teaching Council of Aotearoa New Zealand, in terms of in terms of good character and fitness to be a teacher.
3. Admission to the Graduate Diploma of Teaching (Early Childhood Education) will be granted or withheld on consideration of the admission requirements specified under Regulations 1 and 2, a Police Vetting report and a selection process which may include a written application, interview, and written and/or practical exercises as may be determined by the Academic Board or their delegate.

**Qualification Requirements**

4. Candidates for the Graduate Diploma of Teaching (Early Childhood Education) shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - (a) the Professional Studies and Teaching Experience courses listed in Schedule A of the Graduate Diploma of Teaching (Early Childhood Education) Schedule (75 credits); and
  - (b) the Curriculum Subject Studies courses listed in Schedule B of the Graduate Diploma of Teaching (Early Childhood Education) Schedule (45 credits); and
  - (c) attending professional practice and community placements, field trips, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

5. The Graduate Diploma of Teaching (Early Childhood Education) is awarded without specialisation.

**Academic Requirements**

6. Every candidate for the Graduate Diploma of Teaching (Early Childhood Education) shall perform to the satisfaction of the Academic Board or their delegate at least 14 weeks of supervised clinical practice, in accordance with the requirements of the following courses:
- 265.470 ECE Professional Inquiry and Practice 1;
  - 265.485 ECE Professional Inquiry and Practice 2.

**Student Progression**

7. Should a student in the Graduate Diploma of Teaching (Early Childhood Education) be charged with an offence against the law after entry into the qualification, the student must advise the College Pro Vice-Chancellor or their nominee of the charge within three working days.
8. If the Academic Board or their nominee is of the opinion that any student does not meet in general terms the requirements set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher, the student's enrolment in the Graduate Diploma of Teaching (Early Childhood Education) programme will be refused or cancelled.

**Completion Requirements**

9. A candidate's programme of study may not exceed two years of full-time study, or three years of part-time study from date of first enrolment in a course to be credited to Graduate Diploma of Teaching (Early Childhood Education).
10. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

11. For candidates enrolled in the Graduate Diploma of Teaching (Early Childhood Education), the following will lead to exclusion from the qualification:

##### Student Progression

- Should a student in the Graduate Diploma of Teaching (Secondary) be charged with an offence against the law after entry into the qualification, the student must advise the College Pro Vice-Chancellor or their nominee of the charge within three working days.
- If the Academic Board or their nominee is of the opinion that any student does not meet in general terms the requirements set down by the Teaching Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher, the student's enrolment in the Graduate Diploma of Teaching (Secondary) programme will be refused or cancelled.

##### Completion Requirements

- A candidate's programme of study may not exceed two years of full-time study, or three years of part-time study from date of first enrolment in a course to be credited to Graduate Diploma of Teaching (Secondary).
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

##### Unsatisfactory Academic Progress

- For candidates enrolled in the Graduate Diploma of Teaching (Secondary), the following will lead to exclusion from the qualification:
  - failure to obtain a pass in a course in two successive attempts; or
  - failure to pass courses totalling at least 60 academic credits or failure to pass at least 50 percent of an approved part-time programme of study in any academic year; or
  - failure to complete the Graduate Diploma of Teaching (Secondary) within two years of full-time study, or three years of part-time study from the date of first enrolment in a course to be credited to the Graduate Diploma of Teaching (Secondary).
- A person excluded under Clause 11 will only be readmitted to the Graduate Diploma of Teaching (Secondary) with the approval of Academic Board or their nominee. Such approval may be withheld or granted subject to conditions.

### Schedule for the Graduate Diploma of Teaching (Secondary)

#### Schedule A: Teaching studies courses (45 credits from)

## The Graduate Certificate in Arts GCertArts

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Graduate Certificate in Arts requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a Bachelor's Degree, or equivalent.

##### Qualification Requirements

- Candidates for the Graduate Certificate in Arts shall follow a flexible programme of study, which shall consist of courses totalling at least 60 credits, comprising:
  - at least 60 credits at the 200 or 300 level from the Schedule to the Certificate;
  - at least 45 credits at 300 level.

##### Specialisations

- The Graduate Certificate in Arts may be awarded with or without an endorsement.
- Candidates may complete an endorsement by passing at least 45 credits in a subject area including:
  - at least 30 credits at 300 level;
  - any compulsory courses for the endorsement as listed in the Schedule.

The requirements for each endorsement are set out in the Schedule for the Qualification.
- Endorsements available in the Graduate Certificate in Arts are: Asian Studies, Chinese, Classical Studies, Creative Writing, Defence Studies, Development Studies, Economics, Education, Educational Psychology, English, Geography, History, Japanese, Linguistics, Māori Knowledge, Mathematics, Media Studies, New Zealand Studies, Philosophy, Planning Studies, Politics and International Relations, Psychology, Security Studies, Social Anthropology, Social Policy, Sociology, Spanish, Statistics, and Theatre Studies.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the certificate, candidates enrolled in the English endorsement prior to 1 January 2020 may substitute 139.201 and/or 139.301 for course(s) at the same level included in the schedule. These transitional arrangements expire on 31 December 2022.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations to the certificate, candidates who commenced study towards the Māori Knowledge endorsement prior to 01 January 2020 may elect to be awarded the alternative specialisation title of Māori Studies on completion. These transition arrangements expire 01 December 2022.

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Educational Psychology endorsement prior to 01 January 2021 will be permitted to substitute 256.303, if already completed, for 263.331, and/or 258.301 for a non-compulsory course included in the schedule. These transitional arrangements expire on 31 December 2023.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations to the certificate, candidates who commenced study towards the Politics and International Relations endorsement prior to 01 January 2021 may elect to be awarded the alternative specialisation title of Politics on completion. These transition arrangements expire 01 December 2023.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the certificate, candidates enrolled in the English endorsement prior to 1 January 2021 may substitute 139.275 and/or 139.374 for course(s) at the same level included in the schedule. These transitional arrangements expire on 31 December 2022.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations to the certificate, candidates who commenced study towards the Statistics endorsement prior to 01 January 2021 will be permitted to substitute 161.200, if already completed, for a compulsory course included in the schedule. These transitional arrangements expire on 31 December 2023.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations to the diploma, candidates who commenced study towards the Educational Psychology endorsement prior to 01 January 2022 will be permitted to substitute a 300-level course already completed towards the endorsement for 263.301. These transitional arrangements expire on 31 December 2024.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations to the degree, candidates who commenced study towards the Social Anthropology endorsement prior to 01 January 2022 will be permitted to substitute 146.303 for 146.301. Such candidates who have completed 146.213 may count this course towards the requirements of the subject course schedule and may substitute (if completed) one of 146.302, 146.304, 146.311, 146.313, 146.316, 146.317 or 146.318 for 146.300. Candidates will be permitted to substitute completed courses for courses at the same or lower level included in the subject course schedule. These transitional arrangements expire on 31 December 2024.

## The Graduate Certificate in Science and Technology

### GCertScTech

**Qualification Regulations****Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II****Admission**

- Admission to the Graduate Certificate in Science and Technology requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been awarded or qualified for a relevant Bachelor's degree, or equivalent; or
  - have been admitted to the qualification on the basis of equivalent relevant professional experience.

**Qualification Requirements**

- Candidates for the Graduate Certificate in Science and Technology shall follow a flexible programme of study, which shall consist of courses at 200, 300 and 700 level totalling at least 60 credits, comprising:
  - at least 45 credits at 300 level or higher;
  - a selection of courses from the Schedule for the Qualification; and including:
  - attendance at contact workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

**Specialisations**

- The Graduate Certificate in Science and Technology may be awarded with or without an endorsement.

- Candidates may complete an endorsement by passing 60 credits in an endorsement. The requirements for endorsements are set out in the Schedule for the Qualification.
- The endorsement available in the Graduate Certificate in Science and Technology is Lighting.

#### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

#### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

#### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the certificate, candidates enrolled in the Graduate Certificate in Science and Technology prior to 1 January 2022 may include courses from the 145 prefix at either 200 or 300 level. These transition arrangements expire 31 December 2023.

### Schedule for the Graduate Certificate in Science and Technology

#### Schedule A: Endorsement

##### Lighting (60 credits)

218.741 Light & Lighting ..... R 140741	15 credits
218.742 Lamps and Luminaires ..... P 218741 R 140742	15 credits

## The Diploma in Communication DipC

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

- Admission to the Diploma in Communication requires that the candidate will meet the University admission requirements as specified.

**Qualification Requirements**

- Candidates for the Diploma in Communication shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - 15 credits selected from Schedule A; and
  - 30 credits selected from Schedule B; and
  - 30 credits selected from Schedule C; and
  - 45 credits at 200 level or above from Part II of the Bachelor of Communication Schedule.

**Specialisations**

- The Diploma in Communication is awarded without endorsements.

**Completion Requirements**

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Qualification and Academic requirements within the prescribed timeframes. Candidates

who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Certificate in Arts should they meet the requirements.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Progress Regulations will apply.

**Transitional Provisions**

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the diploma, candidates who were enrolled in the Diploma in Communication prior to January 2022 may substitute 219.100 for 115.111 until 31 December 2024.

**Schedule for the Diploma in Communication**

**Schedule A (15 credits from)**

115.111 Communication Theory and Practice.....	15 credits
R 219100 and 219203

115.116 Introduction to Marketing .....	15 credits
R 115104	
219.101 Media Skills.....	15 credits
219.108 Introduction to Journalism .....	15 credits

**Schedule C (30 credits from)**

139.133 Creative Communication .....	15 credits
154.101 Introduction to Media Studies .....	15 credits
172.131 Language and Communication .....	15 credits

## The Diploma in Dairy Technology DipDairyTech

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

- Admission to the Diploma in Dairy Technology requires that the candidate will have met the University admission requirements as specified, and will have:
  - attained at least 14 credits at NCEA Level 2 Mathematics, Science or Biology, plus one other subject, or equivalent; or
  - produced evidence of informal learning equivalent to that specified in 1 (a).
- In all cases candidates shall have been employed in the dairy industry for at least one year, and have ongoing employment in the dairy industry while studying.

**Qualification Requirements**

- Candidates for the Diploma in Dairy Technology shall follow a parts-based programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - Parts One and Two as defined by the Schedule for the Diploma;
  - at least 75 credits at 200-level or above;

- courses as specified in the Schedule for the Diploma; and including:
  - any compulsory courses listed in the Schedule for the Diploma;
  - attending field trips, studios, workshops, tutorials, and laboratories as required.
- Notwithstanding Regulation 5 of the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates, candidates are exempt from the requirement to pass 45 credits at 100-level in order to enrol in the 200-level course in Part One.

**Specialisations**

- The Diploma in Dairy Technology is awarded without specialisation.

**Student Progression**

- For progression from Part One to Part Two, candidates must have successfully completed all courses in Part One.

**Completion Requirements**

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

- The general Unsatisfactory Academic Progress regulations will apply.

## Schedule for the Diploma in Dairy Technology

### Part One (60 credits from)

141.140 Dairy Chemistry .....	15 credits
141.141 Dairy Engineering .....	15 credits
141.144 Dairy Processing .....	15 credits
141.242 Dairy Microbiology and Food Safety .....	15 credits

### Part Two (60 credits from)

141.243 Dairy Ingredient Technology .....	15 credits
141.245 Dairy Product Technology .....	15 credits
141.246 Cheese and Whey Technology and Manufacturing .....	15 credits
141.247 Dairy Manufacturing Principles .....	15 credits

# The Diploma in Design

## DipDesign

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Diploma in Design requires that the candidate will:
  - meet the University admission requirements as specified; and
  - have been selected into the Diploma following a selection process which will include the assessment of a portfolio of work submitted by the candidate.

##### Qualification Requirements

- Candidates for the Diploma in Design shall follow a flexible course of study, which shall consist of courses totalling at least 240 credits, comprising:
  - courses selected from the Schedule to the Diploma; and including
  - at least 75 credits at 200 level or above;
  - attending contact courses, block courses, field trips, studios, workshops, tutorials and laboratories as required.

##### Specialisations

- The Diploma in Design is awarded without endorsement.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board or their delegate, be awarded the Diploma in Visual Arts should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

## The Diploma in Facilities Management DipFM

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Diploma in Facilities Management requires candidates to meet the University admission requirements as specified.

##### Qualification Requirements

- Candidates for the Diploma in Facilities Management shall follow a flexible programme of study, which shall consist of courses totalling 120 credits, comprising:
  - courses listed in the Schedule for the diploma;
  - attending contact workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.

##### Specialisations

- The Diploma in Facilities Management is awarded without an endorsement.

##### Student Progression

- In cases of sufficient merit, the Diploma in Facilities Management may be awarded with distinction if completed in one year of full-time study or three years of part-time study.

### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes. Candidates who do not meet the requirements for graduation may, subject to the approval of the Academic Board, be awarded the Certificate in Science and Technology should they meet the relevant Qualification requirements.

### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Diploma in Facilities Management

#### Compulsory Courses (120 credits from)

115.111 Communication Theory and Practice ..... 15 credits R 219100 and 219203	115.112 Accounting for Business ..... 15 credits R 115102
218.102 Construction Technology and Services I ..... 15 credits R 218172	218.106 Construction Health, Safety and Wellbeing ..... 15 credits R 218151
218.141 Introduction to Facilities Management ..... 15 credits	218.143 Asset Management ..... 15 credits
218.146 Facilities Management Planning ..... 15 credits	218.147 Workplace Management ..... 15 credits

## The Diploma in Fine Arts DipFineArts

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to the Diploma in Fine Arts requires that the candidate will have:
  - met the University admission requirements as specified;
  - been selected into the Diploma following a selection process which will include the assessment of a portfolio of work submitted by the candidate and, at the discretion of Academic Board or their delegate, an interview.

### Qualification Requirements

- Candidates for the Diploma in Fine Arts shall follow a flexible course of study, which shall consist of courses totalling at least 240 credits, comprising:
  - courses selected from the Schedule to the Diploma; and including
  - at least 75 credits at 200 level or above;
  - attending contact courses, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

### Specialisations

- The Diploma in Fine Arts is awarded without endorsement.

### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation

may, subject to the approval of Academic Board or their delegate, be awarded the Diploma in Visual Arts should they meet the relevant Qualification requirements.

**Unsatisfactory Academic Progress**

6. The general Unsatisfactory Academic Progress regulations will apply.

C Corequisite

P Prerequisite

**The Diploma in Health Science**  
**DipHlthSc**

**No new enrolments**

**Qualification Regulations**

**Part I**

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

**Part II**

**Admission**

1. Admission to the Diploma in Health Science requires that the candidate will meet the University admission requirements as specified.

**Qualification Requirements**

2. Candidates for the Diploma in Health Science shall follow a flexible course of study, which shall consist of courses totalling at least 120 credits, comprising:  
(a) courses selected from the Schedule for the Diploma;  
(b) at least 45 credits at 200-level or above;  
and including:

- (c) any compulsory courses listed in the Schedule for the Diploma;
- (d) attending contact courses, block courses, field trips, studios, workshops, tutorials and laboratories as required.

**Specialisations**

3. The Diploma in Health Science is awarded without an endorsement.

**Completion Requirements**

- 4. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- 5. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

**Unsatisfactory Academic Progress**

6. The general Unsatisfactory Academic Progress regulations will apply.

**Schedule for the Diploma in Health Science**

**Schedule A: Compulsory courses (45 credits from)**

231.106 Introduction to Public Health.....	15 credits
250.100 Health Communication.....	15 credits

**Schedule B: Elective courses (75 credits from)**

114.240 Organisational Behaviour.....	15 credits
128.200 Healthy Workplace Design.....	15 credits
128.300 Ergonomics/Human Factors: Work, Performance, Health and Design.....	15 credits

## The Diploma in Meat Technology DipMeatTech

### No new enrolments

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

#### Part II

##### Admission

- Admission to Diploma in Meat Technology requires that the candidate will:
  - have attained at least 14 credits at NCEA Level 2 in each of English, Mathematics, and either Science or Biology, and at least 7 credits in a fourth subject;
  - produce evidence of a satisfactory standard of general education and/or informal learning equivalent to that specified in Regulation 1(a).

##### Qualification Requirements

- Candidates for the Diploma in Meat Technology shall follow a parts-based programme of study, which shall consist of courses totalling at least 135 credits, comprising:
  - completion of Part One and Part Two; and including:
  - courses as specified in the Schedule to the Diploma;
  - completion of practicum requirements;
  - attending field trips, studios, workshops, tutorials, and laboratories as required.
- Candidates who, in the opinion of the Academic Board, have provided sufficient evidence of attainment in the subjects of Part One may be cross-credited with specified or unspecified courses not exceeding a total of 45 credits from Part One. This is additional to standard cross-crediting maxima.
- Notwithstanding Regulations 2(c) and 6, practicum requirements may be waived if the candidate has recently completed a total of at least two years of meat industry experience that in the opinion of Academic Board or their delegate is sufficient to enable the candidate to complete the programme of study.

##### Specialisations

- The Diploma in Meat Technology is awarded without specialisation.

##### Academic Requirements

- Candidates must complete to the satisfaction of Academic Board two periods of practical work totalling not less than 300 hours and practical reports in accordance with the requirements of courses 142.018 Practicum I and 142.019 Practicum II.

##### Student Progression

- Progression to Part Two from Part One is on the basis of successful completion of Part One or waiver in accordance with Regulation 3.
- Progression from Part Two to completion is on the basis of passing all of Part Two or through the award of Combined Results Pass.

- In cases of sufficient merit achieved throughout Part Two of the programme, the Diploma in Meat Technology may be awarded with Distinction.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, and Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

## The Diploma in Science and Technology

### DipScTech

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

##### Admission

1. Admission to the Diploma in Science and Technology requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

2. Candidates for the Diploma in Science and Technology shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits at 100 level or above, including:
  - (a) at least 90 credits from courses selected from the Schedule to the Qualification;
  - (b) attending contact workshops, block courses, field trips, studios, workshops, tutorials and laboratories as required.
3. Notwithstanding Regulation 2(a), and at the discretion of Academic Board, students exiting from or proceeding to the Bachelor of AgriCommerce, Bachelor of Construction, Bachelor of Engineering with Honours, Bachelor of Food Technology with Honours, Bachelor of Health Science, Bachelor of Veterinary Science, and Bachelor of Veterinary Technology may have a personal programme variation approved in excess of stated limits, to meet the requirements of the Diploma in Science and

Technology through substitution of courses from the schedules to those degrees.

##### Specialisations

4. The Diploma in Science and Technology is awarded without endorsement.

##### Completion Requirements

5. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Diplomas and Certificates, and Graduate Diplomas and Certificates will apply.
6. Candidates may be graduated when they meet the Admission, Qualification, and Academic requirements within the prescribed timeframes; candidates who do not meet the requirements for graduation may, subject to the approval of Academic Board, be awarded the Certificate in Science and Technology should they meet the relevant Qualification requirements.

##### Unsatisfactory Academic Progress

7. The general Unsatisfactory Academic Progress regulations will apply.

#### Schedule for the Diploma in Science and Technology

##### Undergraduate courses selected from the following prefixes

112 Agribusiness, 117 Animal Science, 119 Agriculture and Horticulture, 120 Plant Biology, 121 Environmental Science, 122 Biochemistry, 123 Chemistry, 124 Physics, 138 Agricultural Engineering, 145 Geography, 151 Nutritional Science, 157 Information Systems, 158 Information Technology, 159 Computer Science, 160 Mathematics, 161 Statistics, 162 Biology, 175 Psychology, 188 Natural Resource Management, 189 Soil Science,

192.102 Academic Writing in English for Speakers of Other Languages, 194 Physiology, 196 Ecology, 199 Zoology, 203 Genetics, 214 Health Sciences, 218 Building and Construction, 228.153 Introductory Engineering Studies, 230.112 Tū Arohae: Critical Thinking, 231 Public Health, 233 Earth Science, 234 Sport and Exercise Science, 235 Māori Resource and Environmental

Management, 240 Logistics and Supply Chain Management, 246 Natural Sciences, 247 College of Sciences, 250 College of Health, 280 Process and Environmental Technology, 283 Agronomy, 284 Horticulture, 285 Plant Health, 286 Equine.

## The Diploma in Visual Arts

### DipVisualArts

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

###### Admission

1. Admission to the Diploma in Visual Arts requires that the candidate will meet the University admission requirements as specified.

###### Qualification Requirements

2. Candidates for the Diploma in Visual Arts shall follow a flexible course of study, which shall consist of courses totalling at least 120 credits, comprising:
  - (a) at least 105 credits from courses included in the Diploma in Visual Arts schedule;
  - (b) attending contact courses, block courses, field trips, studios, workshops, tutorials, and laboratories as required.
3. Notwithstanding Regulation 2, with the approval of Academic Board or their delegate, relevant courses may be substituted for courses included in the Diploma in Visual Arts schedule beyond the normal permitted limits.

###### Specialisations

4. The Diploma in Visual Arts is awarded without endorsement.

###### Completion Requirements

5. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
6. ### The Certificate in Arts CertArts

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

##### Admission

- Admission to the Certificate in Arts requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

- Candidates for the Certificate in Arts shall follow a flexible course of study, which shall consist of courses totalling at least 60 credits, comprising:
  - at least 45 credits from the Schedule to the Certificate; and including:
  - attending contact courses, block courses, field trips, studios, workshops, tutorials and laboratories as required.

##### Specialisations

- The Certificate in Arts is awarded without specialisation.

##### Completion Requirements

- Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the certificate, candidates enrolled prior to 1 January 2019 will be permitted to include 139.201, 139.301, 149.190, 149.265, 149.271, 149.295, 149.300, 149.315, 149.335, 149.360, 149.380, 149.385, 149.370, 190.240, 200.162 and/or 200.301, if already completed, in order to meet the requirements of the Certificate. These transitional arrangements expire on 31 December 2022.
- Subject to any Maximum Time to Completion regulations and the Abandonment of Studies provisions specified in the Part I regulations for the certificate, candidates enrolled prior to 1 January 2020 will be permitted to include 145.218 and/or 145.121, if already completed, in order to meet the requirements of the Certificate. These transitional arrangements expire on 31 December 2022.

## The Certificate in Aviation Studies

### CertAvStuds

#### Qualification Regulations

##### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University including General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas, and Graduate Certificates.

##### Part II

##### Admission

1. Admission to the Certificate in Aviation Studies requires that the candidate will meet the University admission requirements as specified.

##### Qualification Requirements

2. Candidates for the Certificate in Aviation Studies shall follow a flexible programme of study, which shall consist of courses totalling at least 60 credits, including:
- (a) at least 45 credits from courses selected from the Schedule to the Certificate; and including:
  - (b) any compulsory courses identified in the Schedule to the Certificate;

- (c) attending field trips, studios, workshops, tutorials, and laboratories as required.
3. Notwithstanding Regulation 2(a), and at the discretion of Academic Board, students exiting or proceeding to the Bachelor of Aviation or the Bachelor of Aviation Management may have a personal programme variation approved in excess of stated limits, to meet the requirements of the Certificate in Aviation Studies through substitution of courses from the schedules to those degrees.

#### Specialisations

4. The Certificate in Aviation Studies is awarded without specialisation.

#### Completion Requirements

5. Any timeframes for completion as outlined in the General Regulations for Undergraduate Degrees, Undergraduate Diplomas, Undergraduate Certificates, Graduate Diplomas and Graduate Certificates will apply.
6. Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

#### Unsatisfactory Academic Progress

7. The general Unsatisfactory Academic Progress regulations will apply.

### Schedule for the Certificate in Aviation Studies

190.109 Aviation Studies .....	15 credits

# The Certificate in Foundation Studies

## CertFoundStud

### Qualification Regulations

#### Part I

These regulations are to be read in conjunction with all other Statutes and Regulations of the University.

#### Part II

##### Admission

- Admission to the Certificate in Foundation Studies requires that the candidate will:
  - have completed NCEA Level 2, or equivalent; and
  - if English is not the applicant's first language, have achieved an IELTS of 5.5 overall with no band less than 5.0, or equivalent.

##### Qualification Requirements

- Candidates for the Certificate in Foundation Studies shall follow a flexible programme of study, which shall consist of courses totalling at least 120 credits, comprising:
  - the core courses listed in Schedule A for the Certificate in Foundation Studies schedule; and
  - courses selected for one pathway as listed in Schedule B for the Certificate in Foundation Studies; and including:
    - attending Contact Workshops, block courses, field trips, studios, workshops, tutorials, and laboratories as required.

##### Specialisations

- The Certificate in Foundation Studies is awarded without specialisation.

##### Completion Requirements

- A candidate's programme of study may not exceed four academic years from date of first enrolment in a course to be credited to the Certificate in Foundation Studies.
- Candidates may be graduated when they meet the Admission, Qualification and Academic requirements within the prescribed timeframes.

##### Unsatisfactory Academic Progress

- The general Unsatisfactory Academic Progress regulations will apply.

##### Transitional Provisions

- Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the certificate, candidates who commenced study towards the Certificate in Foundation Studies prior to 01 January 2021 may be permitted to substitute 247001, 247002 and/or 247203, if already completed, for 247005, 247006, 247007 and/or 247008. Science pathway students may also substitute 115014 and/or 192011, if already completed, for a course or courses included in the Science Pathway schedule. These transitional arrangements expire on 31 December 2023.

### Transitional Provisions

7. Subject to the Maximum Time to Completion and Abandonment of Study provisions specified in the Part I regulations to the certificate, candidates who commenced study towards the Certificate of University Preparation prior to 01 January 2021 may be permitted to substitute 247001, 247002 and/or 247203, if already completed, for 247005, 247006, 247007 and/or 247008. Science pathway students may also substitute 115014 and/or 192011, if already completed, for a course or courses included in the Science Pathway schedule. These transitional arrangements expire on 31 December 2022.

## Schedule for the Certificate of University Preparation

### Schedule A: Core courses

192.042 Study Skills and Strategies .....	15 credits
192.043 Critical Academic Skills .....	15 credits

### Schedule B: Specific courses for Pathways

#### Business Pathway (30 credits from)

115.013 Foundation Management .....	15 credits
R 152011	

115.014 Foundation Economics .....	15 credits
R 178011	

115.015 Foundation Financial Literacy .....	15 credits
192.011 Foundation Communications .....	15 credits
247.005 Foundation Mathematics A .....	15 credits

#### Humanities/Social Sciences Pathway (30 credits from)

115.014 Foundation Economics .....	15 credits
R 178011	
150.001 Foundation Māori Culture .....	15 credits
192.011 Foundation Communications .....	15 credits
230.001 Foundation Humanities .....	15 credits
230.002 Foundation Social Sciences .....	15 credits

#### Science Pathway (30 credits from)

247.004 Foundation Biological Sciences .....	15 credits
R 119012	
247.005 Foundation Mathematics A .....	15 credits
247.006 Foundation Mathematics B .....	15 credits
247.007 Foundation Chemistry .....	15 credits
247.008 Foundation Physics .....	15 credits

#### Health Pathway (30 credits from)

150.001 Foundation Māori Culture .....	15 credits
192.011 Foundation Communications .....	15 credits
214.003 Foundation Human Bioscience .....	15 credits
230.002 Foundation Social Sciences .....	15 credits
247.005 Foundation Mathematics A .....	15 credits

#### Creative Arts Pathway (30 credits from)

150.001 Foundation Māori Culture .....	15 credits
192.011 Foundation Communications .....	15 credits
293.001 Foundation Drawing .....	15 credits
293.002 Foundation Sound and Image .....	15 credits
293.003 Foundation Fabricate .....	15 credits

# GLOSSARY OF TERMS | KUPUTAKA

The terms listed in this glossary are commonly used in the University. The explanations and descriptions provided are general and brief. More detailed statements may be found elsewhere in the Massey University Calendar, provided by the Massey Contact Centre or the relevant College.

<b>Academic Board</b>	Established by Massey University Council consisting of the Vice-Chancellor, specific members of staff and student representatives. It advises Council on matters relating to programmes of study or training, awards and other academic matters, and exercises powers delegated to it by Council.
<b>Academic Standing</b>	A status which reflects a student's academic performance in the preceding period(s) of enrolment. Commencing with a neutral status, at the end of an academic period a student's academic status may change in accordance with criteria specified in the Academic Progress Regulations. Academic Standing provides a transparent system allowing students to understand how their progress is viewed by the University. It enables and supports proactive, targeted academic performance-related interventions and recognition.
<b>Academic Unit</b>	A School or Institute responsible for teaching a particular discipline or disciplines.
<b>Academic Year</b>	An academic year is made up of two semesters (Semester One and Semester Two) and a Summer School. Where a course spans Semesters One and Two, this is referred to as Double Semester. Study within an academic year commences on the first Monday of Semester One and concludes at the end of the examinations at the end of Summer School. The starting date for Semester One for most qualifications begins late February although some qualifications have earlier start dates. An individual student's programme of study may include enrolment in any or all semesters in an academic year. For the purposes of Section 10 (1) of the Education and Training Act 2020, academic year means the period of 12 months commencing 1 January.
<b>Admission</b>	The right to study at the University. Admission criteria and processes depend on the student's educational history, age and the programme specified. "Enrolment" in a programme means the student has been, by implication, admitted to study at the University. Admission to the University and admission to a qualification are separate processes however they may be conducted concurrently.
<b>Admission Application</b>	The application to be admitted to the University and to a specific qualification.
<b>Admission with Equivalent Status</b>	Admission with Equivalent Status (AES) is an entry opportunity for candidates who wish to study for a degree, diploma, or certificate but do not have the entry qualification required. AES at entrance level is required by students who are under 20 years of age and do not have the standard qualifications for entrance to a university in New Zealand. AES with graduate status to postgraduate qualifications is granted on the basis of completed academic work that substantially corresponds to course work in this University. Candidates may be granted "AES with graduate status" to graduate qualifications on the basis of practical/professional experience equivalent to that of a graduate in an area relevant to the qualification. "AES with graduate status" is only granted to the specific qualification considered, i.e. it is not transferable.
<b>Aegrotat Consideration</b>	A re-consideration of the outcome of an assessment or examination that may be made when a student, due to illness, injury, or Critical Personal Circumstances is unable to attend a compulsory learning experience, assessment or examination activity, where such activity is at a fixed time and place as defined in the Course Guide.

<b>Approved Health Professional</b>	Health professionals approved by Massey University include: Counsellors who are members of the New Zealand Association of Counsellors, Psychotherapists who are members of the New Zealand Association of Psychotherapists, Registered Dentists and Dental Specialists, Registered Medical Practitioners, Registered Nurses, Registered Midwives, Registered Physiotherapists, Registered Psychologists, Registered Specialist Medical Practitioners, Registered Social Workers or Social Workers who are members of the Aotearoa New Zealand Association of Social Workers, or are members of the overseas equivalent bodies to the preceding list, are registered and hold a current practicing certificate. Other health professionals may be approved by Massey University by its Academic Board or its delegates.
<b>Assessment</b>	The process of judging how effectively learning is occurring through a process of generating and collecting evidence of a student's attainment of knowledge and skills and comparing that evidence against the assessment criteria.
<b>Assessment Criteria</b>	Statements that describe how student performance in relation to the stated learning outcomes will be recognised.
<b>Bachelor Degree</b>	The qualification awarded to a person who has completed a university undergraduate degree.
<b>Blended Learning</b>	Blended learning combines on campus and online instruction in ways that enable students and staff to optimise learning opportunities. Blended learning goes beyond mixing technology and teaching; it extracts the best of both in order to enhance the learning and teaching experience.
<b>Block Mode</b>	University study undertaken on campus (or at an off-campus location) via face-to-face delivery compressed over one or more specific periods during the enrolment period. This mode may include online learning and the use of digital resources.
<b>Calendar</b>	The official University publication that outlines the primary statutes, primary rules, primary regulations, and definitions of and information about the University. The University Calendar is printed annually, may be updated during the year by amendments published online and pertains to the stated academic year. For the current and archived Calendars refer to <a href="http://calendar.massey.ac.nz">calendar.massey.ac.nz</a> .
<b>Carry Forward of Postgraduate Enrolment</b>	The process that enables students undertaking a research degree, other than a doctoral degree, to carry forward their enrolment into the enrolment period immediately following that in which a full fee was paid. Special conditions apply.  Three different types exist: 1. Certificate: A qualification at the under-graduate or pre-degree level with a total value of not less than 60 credits that provides tertiary level study in a specific or general area of study. 2. Graduate Certificate: A qualification open to graduates or to those who have been able to demonstrate equivalent practical, professional or scholarly experience of an appropriate kind, comprising a coherent programme with a total value of not less than 60 credits, which includes the requirement that 45 credits or more of the courses or other work prescribed shall be at the 300-level or higher. 3. Postgraduate Certificate: A qualification that builds on attainment in the prior degree, open to graduates or those granted admission equivalent to a graduate on the basis of completed academic work, comprising a coherent programme with a total value of not less than 60 credits, which includes the requirement that the courses or other work prescribed shall be in advance of the 300-level.
<b>Certificate</b>	

<b>Challenge Examination/Assessment</b>	An examination/assessment that students may be permitted to sit in order to demonstrate competence in a course that they have not been enrolled in or studied at this University. Permission to sit is based on evidence of professional or other experience.
<b>College</b>	Colleges are made up of academic units related by discipline that plan, direct and coordinate research and teaching. There are five colleges at Massey University: College of Business; College of Creative Arts; College of Health; College of Humanities and Social Sciences; and College of Sciences.
<b>Combined Results Pass</b>	A pass that is granted for a "Part" or year cohort of courses within a qualification, where permitted under the Qualification Regulations. This type of pass allows a student to progress into the next "Part".
<b>Composite Major</b>	Composite majors are available in the Bachelor of Communication degree only and are a prescribed combination of courses from two majors in the degree.
<b>Confirmation of Enrolment</b>	Confirmation provided to the student following receipt by the University of acceptance of an Offer of Enrolment. For programmes that lead to qualifications on the Qualifications Framework, the Confirmation of Enrolment is issued following an Enrolment Application and satisfaction of conditions (if any). It shows the qualification(s) and course(s) for which the student is enrolled.
<b>Conjoint Degrees</b>	Allows candidates to qualify for approved conjoint award of two degrees. The most common conjoint programmes entail the completion of two undergraduate degrees by passing a reduced number of credits in combinations as specified in the qualification regulations.
<b>Contact Workshop: In-Person</b>	A synchronous event, over one or several days' duration, in which students meet with academic staff and other students and participate in any of the following learning experiences: lectures, laboratory classes, workshops, tutorials, seminars, field trips, tests or similar. In-person contact workshops usually occur during the mid-semester and mid-year breaks, at either a Massey University campus or an approved alternative venue. Attendance at, and participation in, contact workshops is recommended and in some cases may be compulsory.
<b>Contact Workshop: Online</b>	A synchronous event, over one or several hours' duration, in which students meet online with academic staff and other students and participate in any of the following learning experiences: webinars, simulations, virtual laboratory classes, tutorials, virtual field-trips or similar. Online contact workshops usually occur during semester at a specified time, and in some cases at regular scheduled times, using University-approved and supported tools. Attendance at, and participation in, contact workshops is recommended and in some cases may be compulsory.
<b>Core Course</b>	A compulsory course that must be passed as part of a particular qualification.
<b>Corequisite</b>	A course that is completed in the same semester as another course, unless the corequisite course has already been passed or waived as a requirement due to prior completion of an equivalent course.
<b>Course</b>	A module of work in a particular discipline that is identified by means of a unique code number and delivered by means of lectures, tutorials, seminars, practica, studios or via other learning experiences. If in distance mode delivery may be by correspondence or electronic means. The length of a course is generally one or two semesters or as otherwise specified by the start and end dates. In appropriate combinations courses fulfil programme of study requirements and thus contribute to qualifications. Each course carries its own credit value.
<b>Course Code</b>	Each Massey University course has a six-figure code to distinguish its discipline, level and identity, e.g. 150.214 where "150" denotes Māori Knowledge, the "2" shows it is a 200-level course and the final two digits ("14") identify the course at that level.
<b>Course Coordinator</b>	An academic staff member responsible for the delivery of a course.

<b>Course Guide</b>	A study resource to provide enrolled students with sufficient detail regarding the requirements to pass the course successfully.
<b>Course Offering</b>	A course at a particular campus location in a given semester and delivered either internally, by distance or by block mode.
<b>Course Outline/ Course Description</b>	A study resource available to all students, which provides an overview of the course – course code, title, prescription, learning outcomes and assessment details – to help them make good enrolment choices.
<b>Credits</b>	Certificate, diploma and degree programmes are defined in terms of credits. Every course has a credit value associated with it that indicates its contribution to the qualification enrolled for. (Each course's credit value applies to all qualifications to which that course can contribute.) The standard undergraduate course is 15 credits, except in some professional qualifications. (See "Effective Weekly Hours".)
<b>Critical Personal Circumstances</b>	<ol style="list-style-type: none"> <li>1. Unforeseen events beyond the student's control, which compromise ability to participate as normal in, or attend, or complete, learning experiences, assessment or examination activity.</li> <li>2. Circumstances which have a profound effect beyond the regular functioning of the specific student, i.e. a temporary impairment. The effect will usually be in terms of ability to concentrate, to think clearly, or to be able to put aside strong emotion, resulting in an impairment of functioning significant enough to substantially impact on participation in academic activity.</li> </ol>
<b>Cross-credit</b>	The term "cross-credit" refers to credit granted on the basis of a completed qualification, at Massey University or elsewhere. Cross-credit also applies where a candidate completes the programmes of study for two qualifications at the same time and wishes to credit one or more courses to both qualifications.
<b>CUAP</b>	Committee on University Academic Programmes. The Committee is a sub-committee of Universities New Zealand and has statutory standing as the Quality Assurance Body for New Zealand universities. One of its functions is to review and approve new qualifications, new specialisations within existing qualifications, and significant changes to existing programmes.
<b>Current Year of Regulations</b>	The regulations as outlined in the current University Calendar. Each time students enrol or re-enrol at the University, they will be enrolled under the regulations as outlined in the Calendar as at the date of acceptance of the Offer of Enrolment or as amended on the online version during the enrolment period.
<b>Degree</b>	A qualification awarded on the completion of a programme of study that meets the requirements set down by the University and as approved by CUAP. Bachelor's, Bachelor's Honours, Master's and Doctoral qualifications are all referred to as degrees.
<b>Diploma</b>	<p>Three different types exist:</p> <ol style="list-style-type: none"> <li>1. Diploma: A qualification at the under-graduate or pre-degree level with a total value of not less than 120 credits that can build on defined prior qualifications or experience.</li> <li>2. Graduate Diploma: A qualification open to graduates or to those who have been able to demonstrate equivalent practical, professional or scholarly experience of an appropriate kind, comprising a coherent programme with a total value of not less than 120 credits, which includes the requirement that 75 credits or more of the courses or other work prescribed shall be at the 300-level or higher.</li> <li>3. Postgraduate Diploma: A qualification that builds on attainment in the prior degree, open to graduates or those granted admission equivalent to a graduate on the basis of completed academic work, comprising a coherent programme with a total value of not less than 120 credits, which includes the requirement that the courses or other work prescribed shall be in advance of the 300-level.</li> </ol>

<b>Diplomate</b>	A person who has met the University's requirements and has been awarded a diploma.
<b>Discipline</b>	A branch of knowledge which is researched and taught at the University.
<b>Dissertation</b>	A detailed examination of a specific topic, which may include aspects of original research, problem investigation, and/or study of pre-existing data or published literature. Work leading to a dissertation typically includes minor data collection, validation and analysis, as well as writing an original document. Dissertations are typically 30–60 credits.
<b>Distance Mode</b>	University study undertaken off-campus delivered primarily online or via correspondence using digital and print resources. This mode may include some face-to-face delivery via one or more contact workshops during the enrolment period.
<b>Distinction</b>	An award recognising academic excellence in some undergraduate, graduate and postgraduate qualifications.
<b>Doctoral Degree</b>	This is the most advanced supervised postgraduate qualification, including the Doctor of Philosophy degree (PhD); it requires the completion of a research thesis or creative work and exegesis that makes an original contribution to new knowledge. Named doctorates (e.g. the Doctor of Social Work or DSW and the Doctor of Clinical Psychology or DClinPsych) also require completion of a research thesis as well as specified course work. Normally a minimum of three years of full-time study is required for a doctoral degree.  The purpose of the Doctoral Research Committee is to provide effective engagement of the University's doctoral research community in academic decision-making and doctoral degree governance. Its role and function is to oversee the administration of the University's doctoral degrees, and to maintain and promote the integrity and quality of these degrees.
<b>Doctoral Research Committee (DRC)</b>	
<b>Effective Weekly Hours</b>	The value of a course in credits gives an indication of the total amount of time (including lecturer and tutor contact hours, workshops and tutorials, tests and assignments, supervised practical placements, and study time) required to complete a course. Converted into a number of hours per week, this is referred to as the effective weekly hours for the course. For a standard undergraduate (15-credit) single semester course, a commitment of about 10–12.5 hours of study time per week might reasonably be expected over the 15 week duration of the semester. (Normally, tuition takes place for 12-weeks and the study and examinations period cover the remaining three weeks. The average workload relates to the 15-week period.) For a standard undergraduate (15-credit) double semester course, a commitment of about 5–6.25 hours of study time per week might reasonably be expected.
<b>EFTS</b>	Equivalent Full-Time Student. Used as a measure of the size of a programme of study and the courses of which it is comprised. 1.0 EFTS equates to one full-time year of study or 120 credits.
<b>Elective Courses</b>	Non-compulsory courses chosen by students (with certain guidelines usually provided). Elective courses contribute to the qualification, but not to the specialisation(s).
<b>Endorsement</b>	An academic discipline such as economics, social anthropology or physics, offered through courses at various levels which are taken at undergraduate diploma, graduate, postgraduate diploma or certificate level, through a combination of prescribed courses in a specific discipline that comprises most or all of the qualification requirements within the regulations for that qualification. An endorsement will normally appear printed on the graduation certificate and on the student academic record.
<b>Enrolment</b>	Where a student has been admitted to the university, or a qualification, has applied for courses, has accepted an Offer of Enrolment and received a Confirmation of Enrolment for a programme or courses at the University.
<b>Enrolment Application</b>	The application to study one or more courses in a programme at Massey University. This application may follow once an applicant has accepted an Offer of Place.

<b>Enrolment Period</b>	The period during which particular courses are offered, e.g. Semester One.
<b>Equivalence</b>	Equivalence, in relation to each offering of a course in a single Semester, is defined as the means by which equity and parity of the student learning experience and outcomes is achieved.
<b>Examination</b>	A type of assessment normally held at the end of a course or at completion of a thesis that consists of such written, oral and practical questions as the examiner(s) for a course or thesis may determine. These questions are set to assess candidates' knowledge, skills and understandings. The results of the examination will form part of the final grade for the course.
<b>Exegesis</b>	A critical explanation accompanying a creative work that, together with other specified elements such as a presentation or exhibition, may comprise the requirements of a thesis.
<b>Exceptional Personal Circumstances</b>	"Exceptional Personal Circumstances" means any extraordinary personal circumstances (supported by corroborative evidence) that have impacted on a student's learning opportunity.  (a) The cancellation of a person's enrolment at Massey University, or in a course or programme when during that person's enrolment it becomes evident that any of the Massey University Academic Progress regulations apply, or when the University is at law permitted to cancel a student's enrolment; or  (b) If any person is not enrolled and any of the clauses in the Massey University Unsatisfactory Academic Progress regulations apply, or if the University is permitted at law to refuse to enrol a person, then exclusion means the refusal to enrol the person concerned in the course(s) or qualification(s) or at this University as the case may be.
<b>Exclusion</b>	
<b>Exemption</b>	A Personal Variation to Regulations permitting a student to replace a compulsory course with an alternative course. The attributes of the replacement course are defined at the time of granting the Personal Variation.
<b>External Examiner</b>	A highly-qualified person with specialist knowledge, not employed by the University, who is appointed by the University to examine and grade a post-graduate thesis/ research project or final under-graduate assessment.
<b>Fee Appeal</b>	When a student, due to Exceptional Personal Circumstances, is unable to continue studying and wishes to withdraw without financial penalty.
<b>Field Trip</b>	A visit to an off-campus location to view and investigate an activity or site that is not available on campus. There may be an item of internal assessment associated with the visit.
<b>Final Date</b>	Final date refers to the deadline for various processes related to enrolment in courses and admission into programmes. It also relates to the deadlines for credit transfer, withdrawal from courses and programmes, applications for hostels and for graduation ceremonies.
<b>Fixed Time and Place</b>	Compulsory Learning Experiences, Assessments and Examinations are considered to be of a Fixed Time and Place when the date and the location are specified and the activity cannot easily or practicably be replicated. This may include activities such as invigilated examinations and compulsory field trips, but will not include assignments and coursework where a due date is specified, or assessment activities where there is an element of choice as to the assessment or combination of assessments completed.

<b>Full-time Study</b>	<p>The status that applies to students who are enrolled in 0.8 EFT of a full-time workload of 120 credits. This equates to enrolment in 105 credits or more in one academic year, with part-time study defined as enrolment in 90 credits or less. Other definitions apply in specific circumstances, e.g. for StudyLink purposes enrolment in 96 or more credits in one academic year, 48 or more credits in one semester, or 36 credits or more in Summer School, meets the criteria for full-time study.</p> <p>Immigration New Zealand defines full-time as three courses per semester for the purposes of obtaining a student visa.</p> <p>Specific programmes may prescribe a full-time course load of 120 credits per year or 60 credits per semester.</p> <p>A code, often a letter, given to describe the level of achievement. The possible grades are –</p> <p><b>Pass Grades</b></p> <p>A+, A, A- First Class Pass                  B+, B, B- Second Class Pass                  C+, C, C- Pass                  AG Aegrotat Pass                  P Ungraded Pass</p> <p><b>Fail Grades</b></p> <p>D Fail                  E Low Fail                  F Ungraded Fail                  DC Did Not Complete</p> <p>(A DC grade is awarded to candidates who withdraw from a course after the final date for withdrawing without academic penalty, or who fail to complete all compulsory elements, or who fail to complete assessment components totalling 51 percent or more of the total assessment, or whose aegrotat application is unsuccessful.)</p> <p><b>Other Entries</b></p> <p>WD Withdrew without academic penalty                  NF Not Finalised                  CT Continuing Enrolment</p> <p>The # symbol on student result slips beside a grade result indicates confirmation that an aegrotat or impaired performance application was received and considered when the grade result was awarded.</p> <p>Restricted Pass                  Awarded prior to 2017. A restricted pass “R” enables the course to be credited towards a qualification in which “R” passes are permitted but does not qualify as a pass for prerequisite or corequisite purposes.</p>
<b>Grade</b>	
<b>Graduand</b>	A person who has completed the University’s requirements for a degree but has not yet had the degree conferred.
<b>Graduate</b>	A person who has met the University’s requirements and has been conferred (awarded) a degree.
<b>Graduate Diploma</b>	See under “Diploma”.
<b>Graduate Profile</b>	A statement of the intended capabilities of graduates from a particular qualification and/or specialisation. The profile includes descriptions of the generic and specific attributes that graduates are expected to possess including the body of knowledge attained.
<b>Group Project</b>	An assessment item in which students have been given approval to, or are required to, collaborate to produce evidence of their learning. Assessment judgements may apply to the whole group; individual contributions can also be judged separately.
<b>HOD/HOI/HOS</b>	Head of Department/Institute/School, i.e. the academic units within the five Colleges.
<b>Honours</b>	An award for academic excellence in eligible degree qualifications, which include four classes: First Class; Second Class Division I; Second Class Division II; and Third Class.

<b>Honours Degree</b>	Honours degrees are postgraduate qualifications comprising an additional year of study beyond the bachelor’s degree in the discipline. Entry to an Honours degree requires prior high academic performance in undergraduate degree study, and students selected for an Honours degree may enrol in the postgraduate degree after completing the undergraduate degree. Completion of the Honours degree may qualify the graduate for doctoral study if achieved at the appropriate level.
<b>Impaired Performance Consideration</b>	A re-consideration of the outcome of an assessment or examination that may be made when a student’s performance in, or preparation for, any compulsory learning experience, assessment or examination activity has been impaired due to illness, injury or Critical Personal Circumstances, and where such learning experience, assessment or examination activity is at a fixed time and place as defined in the Course Guide.
<b>Intellectual Property Rights</b>	The intellectual property rights as defined by Massey University’s Intellectual Property Policy.
<b>Internal Mode</b>	University study undertaken on-campus via face-to-face delivery, which are scheduled on a regular basis, normally weekly (and not less than fortnightly), throughout the enrolment period. This mode may include online learning and the use of digital and print resources.
<b>Invigilate</b>	To supervise candidates during an examination.
<b>Laboratory Class</b>	A period of tuition during which students conduct experiments or practical exercises in a supervised environment.
<b>Learning Experiences</b>	Academic activities which include but are not limited to, lectures, laboratory classes, workshops, tutorials, seminars, field trips, studios, webinars, simulations, practicum, placements, internships, self-directed learning, etc. Successful completion of some learning experiences may be compulsory for mastery of the course and its learning outcomes.
<b>Learning Outcomes</b>	Statements of the knowledge, skills and attitudes that students are expected to demonstrate as a result of successfully completing a course of learning. Learning outcomes are usually stated in terms of observable and/or measurable behaviour.
<b>Lecture</b>	An oral presentation of selected content of a course, usually delivered in a specific block of time.
<b>Level of Courses</b>	The level of a course indicates how advanced the content and learning outcomes of a course is. Most undergraduate degrees consist of 100-, 200- and 300-level courses in which 100-level courses are taught in the first year, 200-level courses build upon these in second year and 300-level courses may be studied once 200-level courses are successfully completed. Some longer degrees require additional courses to be completed, e.g. Bachelor of Social Work to 400-level and Bachelor of Veterinary Science to 500-level. Postgraduate courses are taught at 700-, 800- and 900-levels.
<b>Limitation on Enrolment</b>	A restriction on the number of students who can enrol in any given course, course offering or programme.
<b>Linked Courses (L)</b>	A pair of related courses, both of which must be passed in order to obtain credit. Linked courses are marked in the Degree Schedules.
<b>Location</b>	The campus or other designation for the site of a course offering.
<b>Major</b>	A substantial component of an undergraduate degree (at least one-quarter and often consisting of one discipline area only) selected by the student in accordance with the regulations as the principal area of study for the degree. Where a degree allows both a major and a minor, the major and minor should be from different discipline areas. A major will normally appear on the graduation certificate and on the student academic record.

<b>Master's Degree</b>	A postgraduate degree awarded for advanced study that normally builds on the principal discipline area(s) of a qualifying undergraduate degree. Master's degrees normally comprise 240 credits beyond a Bachelor's degree or 120 credits beyond a Bachelor's Honours Degree, Postgraduate Diploma, or significant relevant professional experience. Master's degrees may comprise 180 credits where the Bachelor's degree is completed at a specified level of attainment. A Master's by coursework and thesis will include a thesis or creative work and exegesis, whereas a Master's by coursework will include a research report, creative or scholarly work, as a defining feature. A Master's by thesis will primarily comprise a thesis or creative work and exegesis.
<b>Matriculated</b>	The status of a candidate who earns the right to commence undergraduate study at university through meeting the prescribed requirements for entrance on the basis of the National Certificate in Educational Achievement (NCEA) Level 3 or its current or past equivalent.
<b>Mentor</b>	A person, usually a staff member or senior student, available to students to support their participation in the University.
<b>Merit</b>	An award recognising academic achievement in some undergraduate, graduate and postgraduate qualifications.
<b>Minor</b>	A component of an undergraduate degree (usually a minimum of 60 credits with at least 45 credits above 100-level and at least 15 credits at 300-level, and often consisting of one discipline area only) selected by the student in accordance with the regulations as the secondary area of study for the degree. Where a degree allows both a major and a minor, the major and minor should be from different discipline areas. A minor will normally appear on the student academic record but not on the graduation certificate.
<b>Mixed Delivery Mode Student</b>	A student who is enrolled in a programme of study which includes courses which are delivered by different modes.
<b>Mode</b>	Communicates the method of delivery that students are expected to engage in, which may be internal, distance or block.
<b>Moderation of Assessment</b>	The process of establishing comparability of standards between assessors or between assessments, to ensure the reliability and validity of marks and grades. Moderation occurs after marks are awarded and assessments administered.
<b>MOST</b>	Massey On-line Survey Tool – the University's on-line survey tool for course and teacher evaluation.
<b>New Intellectual Property Rights</b>	New intellectual property rights as defined by Massey University's Intellectual Property Policy.
<b>Non-Standard Offerings</b>	Non-standard offerings are course offerings with start and end dates different to the standard semester dates. There are two types of non-standard offerings: compressed and extended. Compressed offerings start and finish within the standard semester. They are different to the compressed nature of face-to-face contact within the Block Mode definition. Extended Offerings have start and end dates which extend beyond the normal semester period. They either start before the semester begins and/or end after the semester ends.
<b>Non Tuition Fees</b>	Various fees that are payable in addition to the tuition fees and sundry fees for each course.
<b>Not Finalised (NF)</b>	A place-marker used when a grade result for an assessment of performance in a course is not finalised. It does not qualify as a grade for any purpose.
<b>Offer of Enrolment</b>	An Offer of Enrolment may be issued by the University in response to an Enrolment Application. If the candidate accepts the Offer of Enrolment and gives the University notice of acceptance in the manner required, a contract is formed with the University. That contract may be subject to conditions which must be fulfilled by the student or waived by the University. A Confirmation of Enrolment is issued by the University when that contract is unconditional.

<b>Offer of Place</b>	An Offer of Place may be issued by the University in response to an Admission Application. If the candidate accepts the Offer of Place and gives the University notice of acceptance in the manner required, the candidate is admitted to the University to study the programme specified. The candidate is then invited to select courses and submit an Enrolment Application. The Offer of Place may be subject to conditions which must be fulfilled by the student or waived by the University.
<b>Online Enrolment</b>	Massey University's interactive on-line enrolment service that provides intending and previously enrolled students with the ability to submit Admission and Enrolment Applications and accept Offers of Place and Offers of Enrolment using the web, with direct access to the services and information that support enrolment decisions.
<b>Online Learning Category</b>	Communicates the online learning requirements associated with a course offering and provides information about the printing and supply of study resources. Information about the categories is communicated to students at enrolment and is available on the University website.
<b>PaCE</b>	An acronym for Massey University's centre for Professional and Continuing Education. PaCE offers quality-assured professional courses, including courses that prepare students for degree-level study, and English language programmes for students for whom English is a second or additional language.
<b>Part/Examination</b>	A fixed year of study consisting of a set of interrelating courses as defined within the Qualification Regulations.
<b>PHOD/PHOI/PHOS/PPD</b>	Permission of Head of Department, Institute, School or Programme (qualification) Director.
<b>Postgraduate Diploma</b>	See under "Diploma".
<b>Postgraduate Study</b>	Involves study at either 700-, 800- or 900-level, (Levels 8, 9 and 10 on the New Zealand Qualifications Framework) or a combination of these levels, normally for an Honours degree, Master's degree or Doctoral degree, a Postgraduate Certificate or a Postgraduate Diploma. Normally undertaken when a Bachelor's degree has been completed.
<b>Practical Work Requirements</b>	Relevant practical work other than laboratories, field or computer work, specified in the requirements for a course that is required for the particular qualification to be awarded. In some programmes this is undertaken during University holidays.
<b>Practicum</b>	Assessed practical work that may be undertaken outside the University and/or the academic year.
<b>Prerequisite</b>	A course that must be completed to a defined standard or waived before a student's enrolment in another course is confirmed. For this purpose the minimum grade required is a C-, except where a different grade is specified in the Schedule for the qualification; e.g. P(B) means that the minimum grade that satisfies the requirement is B.
<b>Prescription</b>	A brief statement of the academic content taught in a course.
<b>Presentation</b>	A prepared performance, demonstration or exhibition, usually given to a group.
<b>Programme Director</b>	Responsible for all academic matters relating to an individual qualification, including selected student-related matters.
<b>Programme</b>	A programme of study or training leading to a qualification listed on the Qualification Framework. Where the context requires in the University regulations, rules and other documents, "programme" includes course, course of study or training, programme of study and qualification.
<b>Programme of study</b>	The group of courses for which students are enrolled in an enrolment period or the set of related courses that a student must pass in order to satisfy the requirements of a particular qualification.
<b>Pro-Vice Chancellor</b>	The executive manager and academic leader of a College.
<b>Qualification</b>	An official award given in recognition of the successful completion of a programme of study.
<b>Qualification Regulations</b>	The academic requirements for enrolment in courses, and completion of a qualification.

<b>Quality Assurance</b>	The setting of sector and university standards through documented policies and procedures that enable adherence to the stated quality standards to be assessed. In New Zealand, University qualifications are quality assured by the Committee on University Academic Programmes (CUAP) that are benchmarked across the university sector and evaluated by peer review. In a similar way, quality assured teaching and learning components must reflect agreed standards and review processes supported by documented evidence.
<b>Recognition of Prior Learning</b>	The term given to granting of credit on the basis of formal (see Cross-credit and Transfer of Credit) and informal learning. Credit on the basis of informal learning is assessed by a portfolio of supporting material or by the use of a challenge examination.
<b>Research Report</b>	A written research component that may contribute between 30 and 60 credits of a postgraduate qualification.
<b>Restriction</b>	Some courses that are similar in content are restricted against each other. Students will not be permitted to enrol in both courses or credit them both to a qualification.
<b>Rules</b>	Rules include Statutes and Regulations made under Section 284 of the Education and Training Act 2020, and those University policies, procedures, guidelines and other documents that the Deputy Vice-Chancellor, Students and Global Engagement deems to be rules of the University.
<b>Schedule of Courses</b>	A listing of the courses prescribed or allowed for a qualification, including any prerequisites, corequisites, and restrictions.
<b>Semester</b>	A prescribed period of the academic year during which a course is taught and completed. A single semester normally comprises 12 weeks of teaching followed by final assessment where appropriate.
<b>Seminar</b>	An oral presentation group discussion on a specific topic. The discussion may include a contribution from staff. Where the presentation is by a student, the seminar may form part of the internal assessment of a course.
<b>Special Permission Course Application</b>	An application from a student to take a course that would not normally be permissible.
<b>Special Topic</b>	Special Topic courses allow students (or groups of students) to undertake a specifically tailored course of study in an area not available through existing course offerings and include the following circumstances: anomalous situations; trialling a new course; ongoing exploration of different topics within a discipline; and taking advantage of opportunities as they arise, such as a visiting lecturer.
<b>Specialisation</b>	The collective term covering majors, minors, subjects and endorsements in a specific discipline for a qualification.
<b>Stream</b>	Stream is Massey University's online learning environment. Most courses are supported or enhanced by this environment, which may include features such as discussion boards, online quizzes, digital study resources and more. Students should be able to access Stream at least two weeks before the start of the enrolment period, including Summer School.
<b>Student</b>	For the purposes of the Regulations, an applicant becomes a student if the University receives acceptance of any Offer of Enrolment, although he or she will not be enrolled until the University issues a Confirmation of Enrolment.
<b>Student Administration</b>	The staff group responsible for the organisation of many university student services, for example, multi-channel customer communications, academic advice, domestic and international admissions, fees and financial support, enrolment, examinations, progression, completion (graduation), academic records, distribution of study materials and academic standing.
<b>Student Allowance</b>	A payment for living expenses to some full-time students by StudyLink. Entitlement depends on factors including but not limited to a student's age, income and, if applicable, parental income.

<b>Students' Associations</b>	<p>ASA – Albany Students Association</p> <p>TWONAM – Te Waka o ngā Akonga Māori – Māori student association</p> <p>MAPSA – Massey Albany Pasifika Students Association</p> <p>MUSA – Massey University Students Association</p> <p>Manawatahi – Māori student association</p> <p>MUPSA – Massey University Pasifika Students Association</p> <p>MAWSA – Massey at Wellington Students Association</p> <p>Kokiri Ngātahi – Māori student association</p> <p>M@D – Massey at Distance</p>
<b>Student Contract</b>	The legally-binding contract entered into between the University and the student.
<b>Student Loan Scheme</b>	A Government scheme available to students who are New Zealand citizens and to qualifying Permanent Residents living in New Zealand to assist with study costs. Other eligibility criteria apply.
<b>Study Resources</b>	Teaching and Learning materials provided by the University to facilitate student learning, including, for example, the Course Description, Course Guide and other resources. Resources may be fully digital or in a printed format or a combination of both. Resources may also include physical things such as a model of pollen.
<b>Subject</b>	An academic discipline such as economics, anthropology or physics offered through courses at various levels which are taken at Bachelor (Honours) or Master's level, through a combination of prescribed courses in a specific discipline that comprises most or all of the qualification requirements within the regulations for that qualification. A subject will normally appear printed on the graduation certificate and on the student academic record.
<b>Subject Courses</b>	Courses within a qualification that are associated with a specialisation – endorsement, subject or major. While not necessarily compulsory, they count towards the specialisation.
<b>Summer School</b>	A period from November to February during which courses are offered by the University, which vary in length from a normal semester and delivered from mid-November to mid-February.
<b>Swedish Rounding System</b>	The Swedish Rounding system has been adapted and is applied to the final accumulated mark. Accumulated marks, where the first decimal place is .1 to .4, are rounded down. Where the accumulated mark is .5 to .9, the mark is rounded up.
<b>Thesis</b>	A research component of a postgraduate qualification having a value of 0.75 EFTS (90 credits) or more. A thesis may comprise a written document only or creative work and exegesis.
<b>Transfer of Credit</b>	Credit may be transferred from an incomplete qualification at Massey University or another tertiary institution. Application for transfer of credit is a statement that the candidate does not intend to complete the original qualification at a later date.
<b>Transitional Provisions</b>	Provisions applying to students affected by new regulations for a qualification coming into effect partway through their programme of study towards the qualification. Transitional provisions are specific to a qualification and are included in the Qualification Regulations in the Calendar.
<b>Tuition Fees</b>	Fees that relate to a student's programme (qualification or courses). Tuition fees include fees charged for courses and component fees such as field trips and materials.
<b>Tutorial</b>	Usually a period of instruction where small groups discuss the academic content of a course with a tutor.
<b>Undergraduate</b>	Before graduation, e.g. an undergraduate student is someone who has yet to complete the requirements of a Bachelor's degree.
<b>Waiver to Course Rules</b>	A Personal Variation permitting a student to enrol in a course without meeting the prerequisite, corequisite or other general requirement which would otherwise prevent approval into that course. A waiver does not contribute to the total credit needed for the completion of a qualification.

## Accountancy

**110.109 Introductory Financial Accounting 15 credits**

An introduction to measurement concepts in accounting and to the preparation and presentation of financial statements and reports, including the compilation of primary financial data.

**110.209 Intermediate Financial Accounting 15 credits**

A detailed study of financial reporting, with particular emphasis on corporate regulatory requirements, both professional and statutory.

**110.229 Management Accounting 15 credits**

A study of cost accumulation and allocation processes used for internal routine reporting to managers for cost management and operational planning and control; internal non-routine reporting to managers for strategic and tactical decisions; inventory valuation and income determination for external reporting. Where appropriate, examples and applications in primary industries and the public sector will also be considered.

**110.230 Introductory Financial and Management Accounting 15 credits**

The preparation and use of accounting and related data in the planning, controlling, decision-making, and internal and external reporting functions of business.

**110.249 Accounting Information Systems 15 credits**

A study of systems for the measurement and reporting of information for internal and external decision-making, including the emerging technologies that lend support for this. The accountant's role in the formulation, design, implementation and management of these systems, including risk management and controls will also be addressed.

**110.279 Auditing 15 credits**

An introduction to the basic principles of auditing, including the function of audits and the concepts that govern audit processes and practices.

**110.289 Taxation 15 credits**

An introduction to the basic principles of taxation, the elements of taxation and the concepts that govern tax practice. The course will also provide an awareness of the economic implications of taxation at both local and global levels.

**110.303 Integrative Accounting 15 credits**

An integrated study of accounting sub-disciplines and other related disciplines to create an appreciation of how accounting operates in practice. Emphasis will also be placed on integration of expanded competencies with knowledge-based skills.

**110.309 Advanced Financial Accounting 15 credits**

A study of advanced financial accounting topics and contemporary professional and conceptual issues relevant to financial reporting.

**110.329 Advanced Management Accounting 15 credits**

A study of advanced topics and contemporary issues in management accounting in a range of industry settings, including strategic management and performance management.

**110.369 Forensic Accounting 15 credits**

A study of forensic accounting, fraud auditing and investigation.

**110.379 Advanced Auditing 15 credits**

A study of advanced topics and contemporary issues in auditing.

**110.380 Estate and Tax Planning 15 credits**

Practical issues arising in estate and tax planning for investors and small business in New Zealand.

**110.389 Advanced Taxation 15 credits**

A study of advanced topics and contemporary issues in taxation, including tax policy, international taxation and tax administration.

**110.701 Accounting Systems 15 credits**

Accounting systems and the role of accountants in a systems environment.

**110.702 Financial Accounting and Reporting 15 credits**

A comprehensive study of financial reporting, including current New Zealand GAAP and recognition of revenue, assets and liabilities.

**110.703 Management Accounting and Decision Making 15 credits**

Cost and management accounting in the business environment.

**110.710 Contemporary Issues in Financial Accounting 30 credits**

An in-depth study of selected contemporary financial accounting and external reporting issues through a review of the relevant extant literature.

**110.711 Advanced Accounting Theory 30 credits**

This course is designed for students who wish to continue their search for truth in accounting at an advanced level. They will be introduced to various conceptual issues espoused in the accounting literature such as the historical development of accounting, the relationship between philosophy of science and accounting, and the theoretical foundation of some of the important issues currently facing accounting as a profession.

**110.717 Research Methods in Accounting 30 credits**

This course explores a range of different conceptual approaches to researching accounting issues and examines tools and techniques that are available for research in accounting. As an integral part of the course, students are required to prepare and present a research proposal.

**110.785 International Taxation 30 credits**

A study of contemporary issues involving the imposition of taxes on transactions and investments between parties resident in New Zealand and in foreign tax jurisdiction.

**110.792 Special Topic 30 credits****110.796 Research Report 60 credits****110.799 Research Report 30 credits****110.800 MPhil Accounting 120 credits****110.804 Advanced Financial Accounting and Reporting 15 credits**

Theory and application of current financial reporting standards in contemporary business.

**110.805 Advanced Strategic Management Accounting 15 credits**

Strategic applications of cost and management accounting tools and techniques.

**110.806 Auditing and Assurance 15 credits**

The role of external auditing and assurance including the application of professional, ethical and technical requirements, and current auditing research issues.

**110.807 Tax 15 credits**

A comprehensive examination of key aspects of New Zealand's tax regime from a domestic and international perspective.

**110.894 Research Report 60 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

**110.895 Professional Practice 60 credits**

Candidates will undertake professional practice within the subject area in which the Master of Management is being completed. Professional Practice may be conducted either individually or in groups and assessment of the outcome of the investigation may be in a variety of ways including written and oral presentations and case studies.

**110.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**110.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**110.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**110.900 PhD Accounting 120 credits**

111

**Agricultural and Horticulture Systems Management****111.900 PhD Agricultural and Horticultural Systems Management** 120 credits

112

**Agribusiness****112.248 Food and Agribusiness Value Chains** 15 credits

The study of the flow of food and agricultural products from the farm to the final consumer. Emphasis on successful value chain management applied to food and agribusiness. The course utilizes field trips to study local value chains.

**112.301 International Food and Agribusiness Strategies** 15 credits

Application of a broad range of business concepts - economic, financial and marketing - to international agri-food business and marketing. Emphasis is placed on international consumers and agri-food exports, including external environment, terms of trade, transportation, packaging, documentation, methods of payment, risk management and negotiation.

**112.302 Food and Agribusiness Strategies** 15 credits

Extensive use of food industry and agribusiness case studies. Emphasis is placed on strategic analysis and decision making applied to New Zealand and international agribusiness

**112.701 Farm Management** 30 credits

An introduction to land based production systems. Particular emphasis is placed on the unique characteristics of farm/horticulture businesses and the tools and frameworks by which to assess them. This course is designed for students who do not have prior tertiary training in farm management and is relevant for those with farming experience.

**112.702 International Agri-Food Marketing Strategies** 15 credits

An advanced study of international agri-food business and marketing. Emphasis is placed on international consumers and agri-food exports, including external environment, terms of trade, transportation, packaging, documentation, methods of payment, risk management, intercultural communication and negotiation.

**112.743 Cooperative Governance and Management** 15 credits

An advanced study of the theory and practices of cooperatives and mutuals. Emphasis is placed on the governance and management of cooperatives and their subsequent performance in meeting the demands placed on them through shareholder/supplier or shareholder/buyer complexities. The competitiveness of cooperatives in a global environment is explored through appropriate case studies.

**112.747 International Food and Agribusiness Strategies** 15 credits

Contemporary New Zealand and international agribusiness issues and strategies. Emphasis is placed on the dynamics of agribusiness strategies, structures and institutions in the context of agricultural trade and environmental issues, food and fibre markets and supply chains. Case studies are used extensively throughout the course.

**112.896 Professional Practice** 60 credits

Candidates will undertake professional practice within the subject area in which the Master of Management is being completed. Professional Practice may be conducted either individually or in groups and assessment of the outcome of the investigation may be in a variety of ways including written and oral presentations and case studies.

**112.900 PhD Agribusiness** 120 credits

114

**Human Resource Management****114.240 Organisational Behaviour** 15 credits

A theoretical and practical examination of the behaviour of people in the work environment. Students develop a basic understanding of individual behaviour and team dynamics, exploring issues of motivation, communication, leadership, decision making, power and organisational change.

**114.241 Principles of Human Resources Management** 15 credits

An introduction to human resources management (HRM) theories and practices in national and international contexts.

**114.254 Employment Relations** 15 credits

An exploration of the theoretical frameworks used to analyse employment relations, including institutional processes and practices crucial to the workings of contemporary employment relations in New Zealand.

**114.330 Equity and Diversity in the Workplace** 15 credits

A study of the historical, legal and social issues of diversity and equality in the workplace in Aotearoa/New Zealand and overseas.

**114.331 Contemporary HRM and Employment Relations** 15 credits

An exploration of contemporary Human Resource Management (HRM) and Employment Relations (ER) systems and issues in an international and comparative context. Particular emphasis is placed on the institutions, the role of the parties, and the influence of multinational companies and global supply chains.

**114.332 Decent Work** 15 credits

An exploration of the principles, practices and issues surrounding decent work in contemporary work organisations.

**114.396 Strategic Human Resource Management** 15 credits

An exploration of human resources management as a strategy to achieve organisational goals. Particular emphasis is given to organisations' responses to trends in both their internal and external environments.

**114.702 Human Resource Management and Workplace Relations** 30 credits

This course introduces the area of Human Resource Management and Workplace Relations. Specifically, the focus of the course is on the principles and practices associated with organisational behaviour, employment relations, human resources management and development.

**114.709 Managing the Employment Relationship** 30 credits

A general understanding of Employment Relations and Human Resource Management with an emphasis on contemporary theory and practice. This course provides the opportunity for critical reflection and analysis of theories and practices relating to managing the employment relationship in any organisation.

**114.710 Organisational Learning** 30 credits

An in-depth investigation of issues confronting teams and organisations seeking improvement through generative learning. Special emphasis is placed on leadership and vision, mental models, systems thinking and defensive routines. Tools, techniques and cases of organisational learning will be considered.

**114.722 Advanced Organisational Behaviour** 30 credits

This course is an examination of applied psychology and sociology in the context of organisations. The content is based on a foundation of theory which students are expected to critically analyse. The course is designed so that students apply the theory to modern organisational situations.

**114.723 Performance Management** 30 credits

This course critically analyses the role of Performance Management in individual, team and organisational performance by examining its theoretical and practical underpinnings. Implications for training, reward and disciplinary systems are also explored.

### 114.728 Valuing Human Resource Talent in Business Enterprises **30 credits**

An examination of human resource management focusing on the value of talent in business enterprises. This will include contemporary approaches and issues involved in the management and measurement of knowledge-based assets for assisting stakeholders and decision-makers.

### 114.735 Competitive Advantage and HRM Strategy **30 credits**

An examination of how strategic human resource management theory and practice contributes to competitive advantage in business enterprises. Particular reference is made to the environmental factors that influence talent management in New Zealand and globally.

### 114.761 International Human Resource Management **30 credits**

An examination of the management of employees from an international perspective, including comparative HRM, the practice of HRM in multinational firm, and developments in the emerging field of Strategic International Human Resource Management (SIHRM).

### 114.762 Career Management in an International Context **30 credits**

An examination of the theory and management of careers with an emphasis on new forms of careers and the management of careers both within and across global boundaries.

### 114.799 Research Report **30 credits**

Students are required to conduct a piece of independent research.

### 114.894 Research Report **60 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

### 114.897 Thesis 120 Credit Part 1 **60 credits**

A supervised and guided independent study resulting in a published work.

### 114.898 Thesis 120 Credit Part 2 **60 credits**

A supervised and guided independent study resulting in a published work.

### 114.899 Thesis **120 credits**

A supervised and guided independent study resulting in a published work.

### 114.900 PhD Human Resource Management **120 credits**

## 115

### Management

#### 115.013 Foundation Management **15 credits**

An introduction to the key principles and practices of management and the business environment with a particular focus on business in New Zealand.

### Economics

#### 115.014 Foundation Economics **15 credits**

An introduction to fundamental concepts in Economics.

### Finance

#### 115.015 Foundation Financial Literacy **15 credits**

An introduction to key financial literacy concepts and the application of those concepts to a wide variety of situations including the workplace and business environments.

#### 115.016 Academic English **15 credits**

Academic English provides an opportunity for students to explore, respond to, analyse and produce a range of academic and non-academic texts. Through reading, viewing, writing, listening, speaking, and using information and communication technologies (ICT), the course develops students' confidence and competence in using the English language; their understanding of how different text-types are constructed for academic purposes and audiences; and their competence in key academic literacies required for undergraduate studies.

#### 115.017 Information Technology for Academic Studies **15 credits**

In this course, students extend their competence with technology applications relevant to their academic studies. Students will particularly develop their

capacity to identify problems that may benefit from a technological solution and identify which solution would be best in the specific context.

#### 115.018 Introduction to Academic Communications **15 credits**

This course enables students to develop the oral and written skills that are required for tertiary level studies. It includes the skills and knowledge required to efficiently gather, organise and present information. Students will learn effective strategies to research and analyse information from a variety of sources and present that information in written and oral formats.

#### 115.019 Socio-cultural context of Aotearoa New Zealand **15 credits**

This course provides students with an introduction to the socio-cultural context of Aotearoa New Zealand as a nation and how this impacts on people, organisations and businesses. It explores multiple perspectives and lenses in approaching questions of culture and society (particularly te ao Māori and te ao Pākehā). The course explores the principles and application of the Treaty of Waitangi/Te Tiriti o Waitangi to society, business and organisational contexts.

#### 115.020 Accounting Fundamentals **15 credits**

This course introduces students to accounting concepts and practices including the recording of business events in an accounting worksheet and the preparation of primary accounting reports.

#### 115.021 Economics Fundamentals **15 credits**

This course provides an introduction to the vital role of economics in the functioning and wellbeing of societies. This course will equip students with knowledge of the basic principles of microeconomics and macroeconomics.

#### 115.022 Mathematics Fundamentals **15 credits**

This course equips students with knowledge of mathematical concepts and tools to foster their problem-solving skills. This unit covers the foundational themes of algebra, consumer and financial arithmetic and statistics to give students a preparation for entry into further studies, particularly in business disciplines.

#### 115.023 Management Fundamentals **15 credits**

This course provides students with an understanding of the role of management within various types of businesses in Aotearoa New Zealand and the wider trading community. It provides an overview of the influencing factors to be considered by managers.

### Business

#### 115.109 Introduction to Business Analytics **15 credits**

An introduction to internal and external organisational data, mechanisms to obtain, analyse and interpret that data, and performance indicators used to define and assess the operational and financial viability of a business.

#### 115.111 Communication Theory and Practice **15 credits**

This course identifies key theories and strategies to enhance written, oral, visual, and interpersonal communication for different purposes and audiences. Students explore, discuss, critique, and practise communication for a business and global environment and recognise how world views, culture, and contexts shape communication.

#### 115.112 Accounting for Business **15 credits**

An introduction to how accounting information is used for planning, monitoring and evaluating organisational performance.

### Economics

#### 115.113 Economics for Business **15 credits**

The course examines the nature of the contemporary economic environment in which businesses operate, and considers how economics can aid in business decision-making.

### Finance

#### 115.114 Finance Fundamentals **15 credits**

This course introduces analytical techniques for evaluating personal and business investment and financing decisions, including coverage of the context and environment in which these decisions are made.

## Management

### 115.115 Management in Context 15 credits

This course provides students with a theoretical and practical understanding of management and organisations in the contemporary context.

## Marketing

### 115.116 Introduction to Marketing 15 credits

The course provides an understanding of the core concepts and practices of marketing.

## Business

### 115.120 Personal Development and Competence 15 credits

This course develops personal attributes associated with professions, careers and employment. It develops student's personal awareness, self-reflection and evaluation competences through the lens of 'employability' and career orientation. This course is designed to take students through a process of self-assessment and career exploration, and to develop students' self-awareness and personal PR narrative. They will learn to discover how to connect their skills, interests and values to a wide range of possible roles, to build relationships, and present themselves in the best possible manner to potential employers.

### 115.121 Skills and Communication for Academic Success 15 credits

This course develops many of the thinking, writing and oral presentation skills that students need for success in academic studies and in employment. The course develops competence in the skills essential to writing for assessment, including summarising texts, utilising appropriate sources and evidence, critiquing arguments, taking notes, and referencing. At the same time, students will be introduced to practices and approaches that contribute to successful academic and workplace environments, including: writing summaries, analysing problems, and using reflection as a tool for professional development. They will also learn how to deliver a persuasive oral presentation.

## Business

### 115.122 Skills for Numerical Analysis 15 credits

The ability to analyse, interpret and evaluate data is integral to student success. Therefore, this course is designed to develop students the knowledge, skills and confidence to apply mathematical and statistical concepts to their numerically-based academic subjects, as well as to their future professional careers. The course will use active learning within an interactive workshop structure to teach students basic numerical problem solving, mathematical notation, summary statistics techniques, and analysis and interpretation with regard to practical problems.

### 115.123 Effective Communication 15 credits

The course is based on a personalised evaluation of each student's strengths and competences in relation to English language, with each student receiving instruction in English grammar, vocabulary, and writing targeted at developing and extending them. Students will engage in topic-based workshops covering grammar, spoken English, listening, comprehension and writing tasks. The course uses self-reflection journals to extend students through self-reflection. These activities are designed to ensure that students of differing abilities achieve at least the equivalent of a minimum of IELTS 6.0 on successful completion of the course.

## Business Law

### 115.211 Business Law 15 credits

The course will encompass an introduction to the key elements of the law within which business operates in New Zealand from a practical perspective.

## Management

### 115.212 Fundamentals of Leadership and Teamwork 15 credits

This course provides an introduction to the theory and practice of leadership and teamwork.

## Business

### 115.250 Practice to Innovation 60 credits

A work placement, developing innovation and entrepreneurship thinking, competencies and practice.

### 115.277 Special Topic 15 credits

### 115.319 Special Topic 15 credits

### 115.321 Academic Skills for Postgraduate Study 15 credits

This course develops the higher level academic skills that students utilise in final year undergraduate and postgraduate study. Students will develop generic writing and thinking skills that will equip them for success in any tertiary learning environment. Skills include analysing and critiquing, constructing and deconstructing evidence and rhetoric, writing persuasively and powerfully through harnessing logic, structure and appropriate lexicon and word choices. The course also develops students' capacity to translate written narratives into equally powerful oral presentations. In the process, students will learn how to undertake academic research and use evidence to support written and verbal claims.

### 115.322 Critical and Contextual Thinking Skills for Postgraduate Study 15 credits

This course aims to enable students to develop the critical and analytical thinking skills essential for studying at the final year of undergraduate and at postgraduate level. Students will learn to critically engage with academic reading material to examine and evaluate the argument of others. Students will learn to identify the difference between critical analysis and description and be able to better formulate an argument effectively in their own writing. Students will participate in interactive workshops to develop confidence in their ability to apply critical thinking strategies. Students will analyse differing viewpoints, challenge the views of others and clearly communicate their own position.

### 115.323 Advanced Communication for Postgraduate Study 15 credits

This course takes an andragogical approach to develop students from a range of educational backgrounds and cultures such that they can adeptly navigate differing contexts demanding diverse language competencies. The skills developed extend the ability and reach of students through the use of real-world business contexts and contexts requiring differing genres and lexicons. It equips students whose first language is not English with the necessary skills to transition successfully between different contexts as effective communicators.

### 115.324 Intercultural Competence 15 credits

This course will provide students with an understanding of how to interact, participate and communicate effectively in Aotearoa New Zealand. Emphasis will be placed on providing students with opportunities to understand their own culture, develop meaningful and empathic understandings of other cultures (with reference to Aotearoa New Zealand) and how they relate to each other. This course will also develop knowledge, understanding and intercultural communication skills that will enable students to participate effectively in a range of personal and professional contexts.

### 115.377 Special Topic 15 credits

### 115.388 Internship in Business 30 credits

Provides an individual practical experience in business, linking theory to practice. It consists of a period of supervised study and practical experience in an area related to individual disciplinary and professional interests.

## Management

### 115.389 Business Internship 15 credits

This course provides an individual practical experience in business in which students deliver a set project in a business, linking theory to practice.

## Business

### 115.709 Applied Personal Leadership 15 credits

An advanced-level study of leadership theory and practice. The course provides a particular focus on preparing students for senior leadership roles.

### 115.710 Governance and Responsibility 15 credits

A reconciliation of global best practices in Governance with corporate reality today, including a practical approach to ethical decision-making at governance level and managing for sustainability, in organisations of all kinds and sizes.

### 115.721 Business Law and Ethics 15 credits

A study of the external legal and ethical environments of business and the relevant issues with which business managers must deal.

<b>115.723 Accounting I</b>	<b>15 credits</b>	<b>115.769 Business Economics</b>	<b>15 credits</b>
A course designed to explain the accounting function from a management perspective. Students will be able to apply the models of accounting activities to a business context.		Study of core micro- and macro-economic principles and how these can be used in a business environment to enable effective decision making.	
<b>115.724 Business Finance</b>	<b>15 credits</b>	<b>115.774 Operations and Supply Chain Management</b>	<b>15 credits</b>
A course covering the corporate finance function in business, dealing with the sourcing of funds to establish and expand the application of those funds in pursuing the goals of the organisation. Particular attention is given to valuing financial assets, to investment and capital budgeting decisions, to the capital structure, and to working capital management.		This course examines operations management functions and methods in pursuit of sustainable organisational effectiveness.	
<b>115.725 Leadership and People</b>	<b>15 credits</b>	<b>Business Law</b>	
A study of organisational behaviour theory and practice in the contemporary environment. The course provides a particular focus on the fundamental knowledge and skills involved in management, leadership and teamwork.		<b>115.775 Business Law</b>	<b>15 credits</b>
<b>115.726 Marketing</b>	<b>15 credits</b>	A study of the legal system and selected areas of business law.	
A study of the marketing function in business, including a range of marketing tools and techniques and their application to marketing situations.		<b>Management</b>	
<b>115.728 Contemporary Strategy</b>	<b>15 credits</b>	<b>115.776 Advanced Leadership</b>	<b>60 credits</b>
This course examines the purpose, processes and practices of strategic planning and execution in organisations. Contemporary strategic challenges are examined.		A comprehensive examination of established and emerging leadership concepts, principles, theories and philosophies, and a consideration of their impact at individual, team, and organisational levels.	
<b>115.732 Operations and Logistics</b>	<b>15 credits</b>	<b>115.777 Leadership Practice</b>	<b>60 credits</b>
This course examines the operations management function and its links to organisational strategic objectives. This course explores how organisations can leverage their operational capabilities to create value and achieve competitive advantage.		A study of the professional issues that impact on the practice of leadership. Utilising research from the field of positive psychology, each participant will identify leadership capabilities linked to self-awareness and personal growth, and assess alternative frameworks for the application of coaching and mentoring skills in an organisational setting to achieve outstanding performance.	
<b>115.735 Applied Business Research</b>	<b>15 credits</b>	<b>Business</b>	
This course provides students with an applied understanding of the role and techniques of business research.		<b>115.778 Special Topic</b>	<b>15 credits</b>
<b>115.736 Business Development</b>	<b>15 credits</b>	<b>115.784 Balancing Innovation and Risk Management</b>	<b>15 credits</b>
An applied course of study in Business Development focusing on the future direction of an organisation or one of its divisions.		An applied and experiential study of the principles and practices that enable leaders to achieve the balance of innovation and risk management that enables resilient, sustainable businesses.	
<b>115.739 Special Topic I</b>	<b>15 credits</b>	<b>115.786 Special Topic</b>	<b>30 credits</b>
<b>115.740 Special Topic II</b>	<b>15 credits</b>	<b>115.790 Special Topic</b>	<b>30 credits</b>
<b>115.743 Information, Technology and e-Commerce</b>	<b>15 credits</b>	<b>115.791 Digital Transformation</b>	<b>15 credits</b>
A study of the nature and role of information and communication technology, e-commerce and social media in business.		Applied study of the use of digital technology to solve business problems and exploit new business opportunities.	
<b>115.745 Economics - Applied and International</b>	<b>15 credits</b>	<b>115.792 Business Sustainability</b>	<b>15 credits</b>
This course includes a contemporary survey of microeconomics and macroeconomics relevant to the central functions of international business.		This course examines business practices that make organisations sustainable and resilient, with a particular focus on how to balance continuous innovation with good governance and risk management.	
<b>115.758 Interpersonal Communication at Work</b>	<b>15 credits</b>	<b>115.793 Global Business</b>	<b>15 credits</b>
An introduction to the theory and practice of interpersonal communication.		A study of global trade practices and marketing strategies, including a range of trading tools, systems and techniques and their application to international marketing situations.	
<b>115.759 Current Issues in Business</b>	<b>15 credits</b>	<b>115.796 Designing Globally Competitive Products and Services</b>	<b>15 credits</b>
Comprehensive examination of contemporary business issues providing a contextual platform for further study of business specialisations.		An applied and experiential study of innovative products and service design to achieve differential advantages for trading in global markets.	
<b>115.764 Leadership and Teamwork</b>	<b>15 credits</b>	<b>115.799 Digital Design and Disruption</b>	<b>15 credits</b>
Applied and experiential study of leading and working in teams, and the interpersonal communication skills required to be successful.		Applied and experiential study of how digital technologies have disrupted various industries and how businesses can design digitally based innovations to achieve competitive advantage.	
<b>115.765 Managing People and Organisations</b>	<b>15 credits</b>	<b>Statistics</b>	
Applied study of the behaviour and management of people and organisations in the contemporary business environment.		<b>115.801 Applied Analytics Project</b>	<b>60 credits</b>
<b>115.766 Managing Financial Resources</b>	<b>15 credits</b>	Under the supervision of academic staff, students work with an external organisation on the application of computer-based analytics tools to a project in the domain of business analytics, healthcare system analytics, or public policy analytics. Special attention is given to privacy and ethical considerations, and to the (visual) communication of results.	
The study of corporate finance and accounting functions in business, including the analysis, sourcing, and use of funds in the pursuit of organisational goals.		<b>115.802 Applied Analytics Project Part 1</b>	<b>30 credits</b>
<b>115.768 Marketing Analysis and Strategy</b>	<b>15 credits</b>	Under the supervision of academic staff, students work with an external organisation on the application of computer-based analytics tools to a	
A study of marketing strategies, practices and analytical methods, including a range of marketing tools, techniques and research methods.			

project in the domain of business analytics, healthcare system analytics, or public policy analytics. Special attention is given to privacy and ethical considerations, and to the (visual) communication of results.

### 115.803 Applied Analytics Project Part 2 **30 credits**

Under the supervision of academic staff, students work with an external organisation on the application of computer-based analytics tools to a project in the domain of business analytics, healthcare system analytics, or public policy analytics. Special attention is given to privacy and ethical considerations, and to the (visual) communication of results.

## Business

### 115.810 Strategic Business in the Global Market **30 credits**

This course includes guided field visits to international businesses. Students integrate and apply knowledge from diverse business functions to enhance their understanding of business models and value creation in global business.

### 115.811 Strategic Complexities in International Business **30 credits**

This course includes a self-initiated study of international businesses. Students integrate and apply knowledge from diverse business functions to enhance their understanding of business models and value creation in global business.

### 115.812 Action Learning Project **30 credits**

Supervised team-based project focused on deliverable improvement of practices in an existing business or development of a new business opportunity, drawing on knowledge from multiple business disciplines.

### 115.821 Strategic Management and International Business **30 credits**

This course requires students to integrate and apply knowledge from diverse business functions to enhance understanding of business models and value creation in global business.

### 115.822 Applied Research Project **30 credits**

Independent supervised research project on a topic approved by the MBA Director, directed towards the improvement of business practice.

## Management

### 115.877 Leadership Practice Report **60 credits**

A practical consideration of the organisation as a learning environment to enhance the students' capabilities, skills, competencies and employability through a real-world experience as part of their ongoing education.

## Business

### 115.890 90 Credit Thesis **90 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a thesis for examination.

### 115.891 Thesis Part 1 **45 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a thesis for examination.

### 115.892 Thesis Part 2 **45 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

### 115.894 Research Report Part 1 **30 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

### 115.895 Research Report Part 2 **30 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

### 115.897 Thesis Part 1 **60 credits**

### 115.898 Thesis Part 2 **60 credits**

### 115.901 Introduction to Applied Doctoral Research **30 credits**

The course introduces doctoral-level research of an applied nature to students undertaking postgraduate research studies and who are working towards confirmation of candidature.

### 115.902 Understanding Applied Research Design and Research Methodologies **30 credits**

Students will critically engage with research design and methodologies relevant to the social sciences. They will consider quantitative and qualitative perspectives and will ethically explore relevant evidence or data-gathering methods and analysis.

### 115.903 Writing a Literature Review **30 credits**

Students will initially be introduced to the purpose and structure of a literature review and its role in the identification and specification of a research problem. Argumentative and critical writing are covered.

### 115.910 The Research Proposal **30 credits**

Students will be introduced to the components and requirements of a research proposal that will support progression into Part B of the DBA and the undertaking of their DBA research

### 115.999 Thesis **120 credits**

## 117

## Agriculture and Horticulture

### 117.006 Animal Production and Health **15 credits**

An overview of the sheep, dairy and beef cattle industries in New Zealand, and an introduction to the deer and intensive livestock industries. Topics covered include: principles of reproduction, genetics, nutrition, welfare and health of farmed livestock.

### 117.106 Animal Production **15 credits**

Development of production outputs of farmed animals and meat production. Students study beef cattle production, sheep production and dairy production. Topics covered in beef and sheep production include nutrition, reproduction, genetic improvement, wool and the wool industry. Topics covered in dairy production include nutrition, reproduction, genetic improvement, principles of milk production, milk harvesting and quality.

## Animal Science

### 117.107 Introduction to Animal Behaviour and Welfare **15 credits**

An introduction to common ethical frameworks for animal use with a focus on domestic animal species. Principles of the behaviour and welfare of domestic animal species. Theory of safe and effective animal handling.

## Agriscience

### 117.152 Animals and Agriculture **15 credits**

Knowledge of the underlying science and practices associated with the main animal production systems relevant to New Zealand agriculture, together with comparisons in an international context. Consideration of issues regarding bio-security and animal welfare.

## Agriculture and Horticulture

### 117.153 Introduction to Animal Production in New Zealand **15 credits**

An introduction to animals and animal science in New Zealand, covering a broad range of animal species and incorporating the principles of nutrition, reproduction, lactation, genetics and growth. A brief overview of New Zealand's livestock production systems and consideration of animal ethics, welfare and biosecurity issues.

## Animal Science

### 117.155 Introduction to Animal Science **15 credits**

An introduction to animals and animal science, covering a range of animal species and incorporating the principles of nutrition, reproduction, lactation, genetics and growth. A overview of New Zealand's livestock production systems and consideration of animal ethics, welfare and biosecurity issues.

### 117.201 Livestock Production Science **15 credits**

Developing understanding of the important drivers underpinning New Zealand's livestock and companion animal industries and how these can be altered to achieve the desired outcomes. Knowledge will be gained on the major animal welfare and environmental issues facing New Zealand agriculture and how these might be mitigated against.

**117.202 Animal Science 15 credits**

An exploration of scientific principles underpinning animal husbandry practices. Emphasis will be on examining biological systems in relevant animals, how they are purposely or inadvertently manipulated, and the impact of these manipulations on production, welfare, and the environment.

**117.224 Animal Feed Science and Technology 15 credits**

An examination of feedstuffs and their physical and chemical characteristics and nutritive values. The exploration, through appropriate examples of the different feed preservation processes and feed processing technology employed in animal production.

**117.225 Animal Production through to Carcass Classification 15 credits**

Current and future practices for meat production from farm to carcasses leaving the slaughter floor. Topics include animal growth and development, genetics and breeding, on-farm opportunities to influence carcass and meat quality, pre-slaughter handling of meat-producing animals, slaughter and carcass dressing procedures, carcass classification, animal welfare, occupational safety and health, and factory farming.

**117.226 Performance Animal Nutrition 15 credits**

Develop understanding of the important drivers underpinning the relationship between nutrition and performance, and how these can be maximized to achieve the desired performance outcomes. Knowledge will be gained on the major animal nutrition and performance issues facing New Zealand working and sport animals.

**117.231 Animal Health and Welfare 15 credits**

Provide an understanding of the major diseases and welfare considerations/issues of domestic animals in New Zealand and the relevance for animal management. The role of human behaviour in the productivity, function and welfare of animals. The importance of biosecurity to New Zealand and its relationship to human and animal health. Review the ethical frameworks associated with the ownership and use of animals.

**117.243 Animal Reproduction and Lactation in Livestock 15 credits**

A study of reproductive and lactational physiology in livestock with emphasis on identifying possible means of altering those processes in production animals. The course will include exploration of the anatomy and histology of the gonads, placenta and mammary gland.

**117.245 Principles of Animal Breeding and Genetics 15 credits**

An introduction of the basic principles of using bioinformatics to find genes. The principles to enable the calculation of genetic parameters, such as heritability. An introduction to the prediction of breeding values and the calculation of selection indices and genomic selection.

**117.254 Principles of Animal Science and Production 15 credits**

The processes of animal; nutrition, reproduction, selection and breeding, growth and development, mammary development and lactation as major components of animal science and production. The emphasis will be placed on common principles applied across differing species.

**117.255 Animal Health, Behaviour and Welfare 15 credits**

Provide an understanding of the major diseases and welfare of livestock in New Zealand and the relevance of these for production, market access and public health. The role of husbandry, behaviour and welfare in improving dairy and beef herd and sheep flock health. Exotic diseases of livestock and biosecurity. Livestock remedies and issues with residues in animal products. Basic horse and dog health relevant to farm use.

**117.301 Animal Biosecurity and Health 15 credits**

The importance of biosecurity to New Zealand and its relationship to human and animal health, and farm productivity will be highlighted. Identification, prevention and treatment of selected companion and production animal diseases in New Zealand. Knowledge of biosecurity will be used to develop biosecurity plans for animals with recent biosecurity failures used to illustrate concepts.

**117.302 Monogastric Animal Nutrition 15 credits**

The principles of monogastric nutrition are developed and applied to improve livestock productivity. An in-depth coverage of the digestive and absorptive processes and factors which affect them. The utilisation of absorbed nutrients is addressed, particularly in relation to the determination of nutrient requirements. Techniques central to the study of nutrition are emphasised. The science of nutrition is related back to the practice of feeding animals to

optimise productivity and wellbeing. Students will become familiar with nutrients partitioning computer models used in a practical context.

**117.303 Ruminant Animal Nutrition 15 credits**

Advanced principles of animal nutrition as related to ruminant livestock. An in-depth coverage of the processes of feed intake, digestion, absorption and metabolism, and the factors affecting them. The determination of the nutritive value of feedstuffs for ruminant, with particular emphasis on forages. Gain in-depth knowledge of schemes for estimating the ruminant animal requirements for energy, protein and minerals and the principles of ration formulation. Design practical feeding regimes and their implementation.

**117.331 Dilemmas in Animal Welfare 15 credits**

Exploration of animal welfare as one of the various factors that influence our use of, and interactions with, animals. Integration of legal, scientific, ethical and practical considerations for making real-world improvements in animal welfare. Emphasis on student interaction with various stakeholders to define real-world animal welfare problems and explore solutions.

**117.332 Animal Welfare Science 15 credits**

Understanding animal welfare is important to optimise animals' health and productivity, to improve their quality of life and to safeguard the reputation of New Zealand's animal production industries. This course explores how measurements of animal behaviour and physiology can be used to understand mental experiences such as pain, breathlessness, thirst, nausea and fear and thus the welfare states of domestic animals. These concepts will be applied to enable students to construct robust strategies for practical assessment of animal welfare in various production systems.

**117.342 Animal Nutrition 15 credits**

The principles of animal nutrition as related to ruminant and monogastric livestock. An in-depth coverage of the processes of feed intake, digestion, absorption and metabolism, and the factors affecting them. The determination of the nutritive value of feedstuffs, with particular emphasis on forages. Schemes for estimating animal requirements for energy, protein and minerals. The principles of ration formulation and the use of computer programmes. Practical feeding regimes, design, implementation and interpretation of nutrition trials.

**117.343 Animal Reproduction and Lactational Physiology 15 credits**

An in-depth study of aspects of the physiology of reproduction and lactation in monogastric and ruminant animals. The emphasis is placed on applying the understanding of the physiological processes to practical animal systems and will involve practical classes in which technologies related to animal reproduction and milk production are demonstrated. Students will advance their skills in reading and evaluating scientific literature, develop skills in analysing problems and in constructing a logical argument.

**117.344 Animal Growth and Meat Production 15 credits**

Patterns of growth and development of farm animals will be described with emphasis on those characteristics of growth with economic implications for meat production, such as the rate, efficiency and composition of growth. Structural and functional aspects of muscle, bone and fat as they relate to animal well-being as well as carcass and meat quality will be considered. In describing factors that can affect animal growth, carcass composition and meat quality, particular attention will be given to on-farm factors.

**117.345 Genetics for Livestock Improvement 15 credits**

The relative influence of genetic and environmental factors on quantitative traits. Methods of calculating breeding values or indices to exploit genetic variation in quantitative traits. The use of computers to utilise pedigree and performance records. Selection for disease resistance, the use of new reproductive technologies to enhance genetic gain and the potential importance of molecular genetics in livestock improvement. Maternal influences and methods of selecting for maternal components. Crossbreeding and inbreeding as selection tools.

**117.347 Reproductive and Lactational Physiology 15 credits**

Structure and function of reproductive tracts, placenta and mammary gland. Sex/gender determination, endocrine control of oestrous cycles, fertilisation, pregnancy and mammogenesis. Fetal programming, birth and lactogenesis, Nutrient supply to gland and metabolic disease. Factors affecting milk yield and composition. Puberty, breeding seasons, fertility, fecundity and technological developments in reproduction. Practicals on analysis of reproductive data, anatomy, histology, and reproductive technologies.

- 117.348 Animal Metabolism** **15 credits**  
A study of animal metabolism at the whole-body level. The emphasis will be on integrative aspects of metabolism, including developing a quantitative model of nutrient and energy flow from the food to organs, tissues and products. Mechanisms controlling body metabolism in general and the intrinsic and extrinsic factors affecting them will be emphasised.
- 117.361 Companion Animal Science** **15 credits**  
This course is an integration of the scientific and theoretical aspects of companion animal science. The main topics covered include the nutrition, behaviour, welfare, reproduction and genetics of dogs and cats. The emphasis will be placed on the scientific foundation for the promotion of animal wellbeing and longevity.
- 117.371 Animal Production** **15 credits**  
The impacts of breeding, nutrition, reproduction and lactation in New Zealand animal production. A modularised course requiring students to select three topics from dairy cattle production, animal, fish & insect protein production, sheep production, pig & poultry production, beef cattle production and the working dog.
- 117.381 Solving Problems in Animal Production** **15 credits**  
The critical evaluation of specific aspects of breeding, nutrition, reproduction, lactation, meat/growth and health on animal production and the design and development of improved production systems, focusing on the underlying science.
- 117.709 Biometrics for the Animal and Nutritional Sciences** **15 credits**  
Study in applied statistics with emphasis on animal and nutritional sciences. Introduction to and extensive use of statistical packages, regression and multiple regressions analysis, analysis of variance of standard experimental designs, covariance analysis and general linear models
- 117.710 Reproduction, Lactation and Fertility** **15 credits**  
An advanced course in the physiology and application of reproduction, lactation and fertility in domestic animal species
- 117.711 Nutrition, Growth and Meat Science** **15 credits**  
An advanced course in the physiology and application of nutrition, growth and meat science in domestic animal species
- 117.731 Principles of Epidemiology** **15 credits**  
Students will study the principles of epidemiology with an emphasis on learning the skills necessary to critically evaluate the literature for the purposes of evidence-based medicine. Examples and case studies will be drawn from a range of species including humans, domestic animals and wildlife.
- 117.735 Disease Surveillance Systems Design and Evaluation** **15 credits**  
Students will learn to design and evaluate surveillance systems that incorporate data from one or more sectors, to meet various objectives such as identifying changes in disease patterns, applying surveillance within disease control programmes, and detecting emerging diseases. They will learn about information systems for storing disease surveillance data, and the analysis and interpretation of data generated through surveillance systems.
- 117.736 Management of Disease in Populations** **15 credits**  
Students will learn how to combine a range of disease control methods into an integrated programme to control endemic and epidemic diseases, and how to evaluate the progress of a disease control programme. They will explore factors that influence health-related decision making processes in their country.
- 117.737 Disease Control Policy and Economic Evaluation** **15 credits**  
Students will learn key aspects of developing disease control policy and strategies for influencing decision makers to adopt recommended policy. They will learn various approaches to economic analysis and how to apply these to evaluate disease control policy.
- 117.761 Ruminant Livestock Feeding** **15 credits**  
An advanced course examining the aspects of feeding ruminants, with emphasis on the grazing animal. Rumen development in young animals; estimation of energy and protein and mineral requirements for ruminants; factors affecting voluntary intake and animal performance; nutritive value of feeds.
- 117.762 Intensive Livestock Feeding** **15 credits**  
The principles and science of feed evaluation, feed requirements and diet formulation for pigs, poultry, fish and companion animals.
- 117.764 Growth and Meat Science** **15 credits**  
An advanced course on animal growth and meat science, particularly with respect to the main meat-producing species farmed in New Zealand. Topics include factors affecting the rate, efficiency and composition of growth, measurement of body and carcass composition and meat quality, constraints to animal growth, the bases of variation in meat quality characteristics and physiological explanations for variation in growth. Opportunities are provided for individual students to focus on areas of personal interest.
- 117.765 Genetics and Breeding** **15 credits**  
An advanced course in animal breeding and genetics designed to introduce aspects of breeding value estimation, index selection and maternal effects across herd/flock genetic evaluations, genotype by an environment interaction, major genes, applied molecular genetics, inbreeding, crossbreeding, physiological genetics and genomic selection.
- 117.767 Reproduction and Fertility** **15 credits**  
An advanced course in the physiology and application of reproduction in farm animals, control of breeding activity and parturition and new reproductive technologies in relation to animal production.
- 117.768 Metabolism and Endocrinology** **15 credits**  
An advanced course in the metabolism of carbohydrate, fat and protein in ruminants and/or non-ruminants. Endocrine control and nutrient flows in various physiological states.
- 117.769 Lactation and Milk Production** **15 credits**  
An advanced course in aspects of physiology and biochemistry of mammary gland development and lactation that affect milk production. Principles of milk removal, machine milking, mastitis and its control.
- 117.771 Dairy Production** **15 credits**  
An advanced course in the principles and practices of dairy production from grazed pastures. Management and control of feeding, effects of stocking rate on productivity, effects of grazing management, supplementary feeds, fertility, calving dates and dry-off dates, breeds and breeding in relation to dairy farm productivity.
- 117.772 Sheep Production** **15 credits**  
An advanced course in the products, principles and practices of sheep production from grazed pastures. Breeds, crossbreeding and genetic improvement. Fertility and fecundity. Feed requirements and feed management in production systems.
- 117.773 Beef Cattle Production** **15 credits**  
An advanced course in the principles and practices of beef production from grazed pastures. Nutrition and feeding, growth and carcass quality, reproductive performance, breeds and their utilisation in relation to cow-calf and finishing beef cattle systems of production.
- 117.774 Pig Production** **15 credits**  
An advanced course in the principles and practices of pig production. Nutrition and feeding; housing and waste disposal; growth and carcass quality; management of reproduction and genetic improvement; animal welfare; profitability; industry structure.
- 117.775 Deer Production** **15 credits**  
An advanced course in the principles and practices of deer production from grazed pastures. Nutrition and management of stags and hinds. Reproduction in deer; unique features and seasonality. Production of venison and velvet. Breeds and breeding. Temperate deer and tropical deer. Tourism and the deer industry. Food products from the deer industry.
- 117.776 Poultry Production** **15 credits**  
Production of eggs and meat; energy and nutrient requirements; effects of housing, light and the thermal environment; waste disposal; welfare.
- 117.783 Advanced Studies in Animal Science** **15 credits**  
Advanced studies of major physiological systems and functions in animals and their relevance to animal science. These studies can be undertaken in any of the following topics: nutrition, growth, breeding, genetics, animal welfare and equine science.

**117.784 Advanced Studies in Animal Science 30 credits**

Advanced studies of major physiological systems and functions in animals and their relevance to animal science. These studies can be undertaken in any of the following topics: nutrition, growth, breeding, genetics, animal welfare and equine science.

**117.785 Advanced Studies in Animal Production 15 credits**

Advanced studies of major physiological systems and functions in animals and their relevance to animal production. These studies can be undertaken in any of the following topics: nutrition, growth, breeding, genetics, animal welfare and equine science.

**117.786 Advanced Studies in Animal Production 30 credits**

Advanced studies of major physiological systems and functions in animals and their relevance to animal production. These studies can be undertaken in any of the following topics: nutrition, growth, breeding, genetics, animal welfare and equine science.

**117.799 Research Report 30 credits****117.831 Research Report (One Health) 45 credit 45 credits**

A detailed examination of a specific topic within the field of study of the candidate, approved by the course coordinator in advance, which includes critical evaluation of the published literature and either critical evaluation of existing policy, or analysis of pre-existing data or a problem investigation.

**117.832 Research Report (One Health) 60 credit 60 credits**

A detailed examination of a specific topic within the field of study of the candidate, approved by the course coordinator in advance, which includes critical evaluation of published literature and a study involving investigation of a specified problem and/or analysis of pre-existing data.

**117.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**117.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**117.873 Thesis 90 Credit Part 1 (30 credits) 30 credits**

A supervised and guided independent study resulting in a published work.

**117.874 Thesis 90 Credit Part 2 (60 credits) 60 credits**

A supervised and guided independent study resulting in a published work.

**117.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**117.887 Research Report 60 credits****117.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**117.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**117.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**117.900 PhD Animal Science 120 credits****118****Veterinary Science****118.705 Decision Making with Animal Health Data 15 credits**

This course covers topics related to utilising health and economic data to make decisions around the control of animal health. The focus is on applying the principles of production monitoring, information management and decision-making processes at farm level in a practical way. A broader context is provided of the structure and operation of veterinary services, industry-level process control, and the importance of animal health economics.

**118.706 Spatial and Temporal Analysis of Epidemiologic Data 15 credits**

This course provides students with the basic skills necessary to undertake the analysis of epidemiologic data that is clustered in space and time. Throughout the course students will work with data collected via epidemiologic studies or as part of surveillance and will learn how to visualise spatial and temporal patterns, describe and quantify those spatial and temporal patterns and explain the observed patterns.

**118.708 Current Topics in Epidemiological Methods and Data Analysis 15 credits**

An in-depth view of topics in epidemiology. Students will focus on issues related to the design and management of observational studies and learn one or more multivariable modelling approach for non-linear data.

**118.710 Advanced Veterinary Practice I 60 credits**

An advanced course in a specified discipline of veterinary practice that includes supervised investigation, interpretation, diagnosis and management of cases. Students will develop a thorough understanding of knowledge within the discipline; the ability to source and critically evaluate existing knowledge to make evidence-based clinical decisions; and the ability to integrate theory with critical reflection of practice.

**118.711 Advanced Veterinary Practice II 60 credits**

An advanced course in a selected discipline of veterinary practice that includes supervised investigation, interpretation, diagnosis and management of complex cases. Students will develop an advanced understanding of knowledge within the discipline; apply advanced diagnostic and technical skills; and critically reflect on their own practice and identify knowledge gaps.

**118.712 Advanced Studies in Veterinary Practice I 30 credits**

An advanced course in a specified discipline of veterinary practice that includes supervised investigation, diagnosis and management of cases within the discipline. Students will develop a thorough knowledge of principles and practice in the relevant discipline, including the ability to make evidence-based clinical decisions.

**118.713 Advanced Studies in Veterinary Practice II 30 credits**

An advanced course in a selected discipline of veterinary practice that includes supervised investigation, diagnosis and management of complex cases. Students will source and critically evaluate existing knowledge to make evidence-based clinical decisions; will integrate theory with critical reflection of practice; and will apply and synthesise advanced knowledge to evaluate and manage complex clinical cases.

**118.716 Analysis of Epidemiologic Data 30 credits**

This course provides students with the basic skills necessary to undertake analysis of data in the health and biosecurity context. Throughout the course students will work with data collected during epidemiological studies (complete with missing data) and will learn how to interpret results in the light of bias, confounding, effect modification and model error.

**118.724 Veterinary Diagnostic Pathology 2 60 credits**

An advanced course in anatomical pathology that includes supervised performance and reporting of necropsies, histopathology, cytology, and detailed study of selected cases.

**118.726 Veterinary Public Health 60 credits**

The application of veterinary science to the promotion of human health. Interrelations between agricultural practices and the environment significant to animal and human health. Food safety including undesirable residues and the HACCP concept. Food-borne diseases, zoonoses and emergence of diseases from animal reservoirs. The application of epidemiological principles to the investigation, prevention and control of diseases.

**118.728 Wildlife Health 60 credits**

An advanced course that focuses on the application of veterinary pathology, epidemiology and clinical science to the detection and management of disease in wildlife. It includes supervised practical experience, directed reading, detailed case studies and seminar presentations.

**118.731 Veterinary Diagnostic Pathology 1 60 credits**

A course in veterinary diagnostic pathology, which includes supervised performance of necropsies, participation in the routine gross and histological examination of pathological material, and directed study of general pathology.

**118.751 Canine and Feline Gastroenterology 15 credits**

The principles of gastroenterology of dogs and cats for veterinary graduates. Pathophysiology, diagnosis and management of diseases of the alimentary system.

**118.752 Canine and Feline Endocrinology 15 credits**

The principles of endocrinology of dogs and cats for veterinary graduates. Pathophysiology, diagnosis and management of diseases of the endocrine glands.

**118.753 Canine and Feline Oncology 15 credits**

The principles of oncology of dogs and cats for veterinary graduates. Pathophysiology, diagnosis and management of neoplastic disease.

**118.754 Diagnostic Imaging for Small Animal Veterinarians 15 credits**

The principles of diagnostic imaging in small animal practice for veterinary graduates. Principles of radiography and other imaging modalities. Radiologic interpretation of all body systems, primarily of dogs and cats, and integration with case management.

**118.755 Clinical Pathology in Small Animal Practice 15 credits**

The principles of clinical pathology in dogs and cats for veterinary graduates. It includes the indications, application and interpretation of haematological, biochemical, urine, cytological and special testing of dogs and cats.

**118.756 Canine and Feline Neurology 15 credits**

The principles of neurology in dogs and cats for veterinary graduates. Pathophysiology, diagnosis and management of diseases of the nervous system.

**118.757 Cardiorespiratory Medicine for Small Animal Veterinarians 15 credits**

The principles and practice of cardiorespiratory medicine in dogs and cats for veterinary graduates. Pathophysiology, diagnosis and management of cardiac and respiratory disease.

**118.758 Avian Medicine 15 credits**

The principles and practice of avian medicine in companion birds and aviary collections, for veterinarians. Pathophysiology, diagnosis and management of diseases of birds.

**118.759 Ophthalmology in Small Animal Practice 15 credits**

The principles of ophthalmology in dogs and cats for veterinary graduates. Pathophysiology, diagnosis and management of diseases of the eye.

**118.761 Canine and Feline Emergency Medicine 15 credits**

The principles and practice of emergency medicine in dogs and cats for veterinarians. Pathophysiology, diagnosis and management of conditions seen in emergency practice.

**118.762 Dermatology for Small Animal Veterinarians 15 credits**

The principles of dermatology in dogs and cats for veterinarians. Pathophysiology, diagnosis and management of skin diseases.

**118.763 Canine and Feline Orthopedic Surgery 15 credits**

The principles and practice of orthopaedic surgery in dogs and cats for veterinarians. Pathophysiology, diagnosis and management of orthopaedic diseases.

**118.764 Canine and Feline Soft Tissue Surgery 15 credits**

The principles and practice of soft tissue surgery in dogs and cats for veterinarians. Pathophysiology, diagnosis and management of soft tissue diseases.

**118.771 Advances in Ruminant Nutrition for Veterinarians 15 credits**

An advanced course on ruminant nutrition and feeding practices for veterinarians. Principles of microbial digestion in the rumen, absorption and utilisation of nutrients. Practical nutrition for enhancement of animals' performance and health, including critical study of the evaluation of feeds, feed intakes and nutrient requirements. Practical assessments of animal and feed resources; ration formulation. Current developments in ruminant feeding technologies, including genetic modification of feeds and rumen flora.

**118.772 Calf Medicine, Health and Management 15 credits**

An advanced course on specific aspects of calf rearing, health management and medicine for veterinarians. A critical study of the systems and environments utilised in calf rearing, nutrient and health requirements

with respect to disease prevention, herd biosecurity, health, welfare and productivity.

**118.775 Advanced Mastitis Management for the Production Animal Veterinarian 15 credits**

An advanced course on mastitis for production animal veterinarians. This course will provide in-depth study of mastitis causing agents and their treatment and control within the herd and at an individual level. It will address the epidemiology of disease, mastitis prevention, herd biosecurity, herd/animal health, welfare and productivity.

**118.776 Lameness Investigation and Control for Cattle Veterinarians 15 credits**

An advanced course on cattle lameness for veterinarians. This course will provide in-depth study of lameness diagnosis, treatment and control within the herd. It will address the epidemiology of disease, lameness prevention, herd biosecurity, welfare and productivity.

**118.777 Veterinary Clinical Reproduction and Fertility 15 credits**

An advanced course on clinical reproduction for veterinarians. Comparative veterinary reproductive anatomy, physiology, and technology across a range of species. In-depth study of reproductive management in a nominated elective species. Use of scientific literature to inform decision making on reproductive issues.

**118.778 Advanced Studies in Equine Lameness for Veterinarians 15 credits**

An advanced course on applied aspects of equine lameness for veterinarians. Investigation and management of musculoskeletal diseases of horses and foals. Use of scientific literature to inform decision making on equine lameness issues.

**118.779 Advanced Studies in Equine Diagnostic Imaging 15 credits**

The principles of diagnostic imaging in equine practice for veterinary graduates. Principles of radiography and ultrasonography. Interpretation of the results of imaging and integration with case management.

**118.780 Equine Gastroenterology 15 credits**

An advanced course on aspects of equine gastroenterology for veterinarians. Investigation, critical care and follow-up management of selected gastrointestinal diseases of horses and foals. Use of scientific literature to inform decision making in equine gastroenterology.

**118.785 Introduction to Evidence-Based Practice 15 credits**

Students will study the principles of veterinary epidemiology to provide them with the skills necessary to critically evaluate the literature for the purposes of evidence-based medicine. Examples and case studies will be drawn from a range of species including production animals, wildlife, companion animals and horses.

**118.786 Applied Veterinary Epidemiology 15 credits**

Students will gain the skills necessary to design an epidemiological study in a clinical setting and investigate an outbreak of disease. Examples and case studies will be drawn from a range of species including production animals, wildlife, aquatic species, companion animals and horses.

**118.791 Special Topic 15 credits****118.792 Special Topic 30 credits****118.793 Special Topic 60 credits****118.799 Research Report 30 credits**

Presentation of the results of a substantial piece of original research within the field of study of the candidate, together with a review of relevant literature, on a subject approved in advance by the Chief Supervisor. The preparation and presentation of the thesis shall comply with the requirements then in force in relation to preparation of theses for the Master of Veterinary Science degree.

**118.811 Research Report 60 credits**

A detailed examination of a specific topic within the field of study of the candidate, approved by the Chief Supervisor in advance, which may include aspects of original research, problem investigation, and/or study of pre-existing data or published literature.

**118.851 Research Report (MVM) (45 credit) 45 credits**

A detailed examination of a specific topic within the field of study of the candidate, approved by the course co-ordinator in advance, which may include aspects of original research, problem investigation, and/or study of pre-existing data or published literature.

**118.852 Research Report (MVM) (60 credit) 60 credits**

A detailed examination of a specific topic within the field of study of the candidate, approved by the course co-ordinator in advance, which may include aspects of original research, problem investigation, and/or study of pre-existing data or published literature.

**118.853 Advanced Profession Practice in Veterinary Science 45 credits**

A supervised placement in an approved setting of veterinary practice. Students will observe the work of experts in the selected area of veterinary practice, undertake some work under supervision, and gain experience in using the empirical literature to guide evidence-based decision making and writing reports in the discipline.

**118.854 Advanced Topics in Epidemiologic Data Analysis 15 credits**

The course focuses on advanced quantitative methods used to analyse data from epidemiologic studies.

**118.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**118.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**118.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**118.900 PhD Veterinary Science 120 credits****119****Agriculture and Horticulture****119.006 Foundation Farm and Industry Study 15 credits**

A foundation study of farm inputs and products such as meat, milk and fibre, and the application of farm practical experience, technical data, and industry procedures and practices, to contemporary issues facing farmers. Primarily focused within the farm gate, this course involves individual and group learning and expression.

**119.101 Farm Production Systems 15 credits**

A detailed analysis of whole-farm systems involving a number of field visits. An analytical approach to problem-solving is developed. Field visits to case farms. This course must be passed to qualify for the award of the Diploma in Agriculture

**119.106 Farm and Industry Study 15 credits**

An introductory study of farm inputs and products such as meat, milk and wool, and the application of farm practical experience, technical data, and industry procedures and practices, to contemporary issues facing farmers. Focused both within and beyond the farm gate, this course involves individual and group learning and expression.

**119.116 Farm Management 15 credits**

An introduction to farm management principles and the application of techniques for planning, implementation, and control of, agricultural systems. A study of New Zealand farms as social, economic and business units. Decision-making about land, labour, and capital, in the context of farming uncertainty. Visits to farms provide case-studies for aspects of farm management

**119.120 Plants for Agriculture and Horticulture 15 credits**

An introduction to the agricultural and horticultural species important to New Zealand's economy. Growth and development of agricultural and horticultural plants; their responses to the environment and management, and implications for production. Identification and biology of agricultural and horticultural plants, including weeds, pests and pathogens important to plant production.

**119.150 Practicum I 0 credits**

Industry experience for at least ten consecutive weeks in a public or private business related to the land-based industries. A descriptive report demonstrating satisfactory observational, analytical and reporting skills is required.

**119.154 Molecules to Ecology 15 credits**

An integrated study of organic chemistry, biochemistry, cell biology, biological organisation and ecology with simultaneous demonstration of their involvement in life processes in natural and harvested ecosystems. Suitable for students with previous knowledge of introductory chemistry and physics wishing to concentrate in an applied biological science.

**119.158 Physics and Chemistry for Applied Sciences 15 credits**

An introduction to the theories and principles of chemistry and physics with applications to applied sciences. Theories of chemical bonding are used to explain the structure of matter, and the principle of chemical equilibrium is used to determine the chemical composition of a system at equilibrium. Conservation laws, mechanical systems and the fundamental properties of electric charges and currents are introduced. Concepts from quantum mechanics and wave physics are used to describe the properties of matter and radiation. Physical and chemical principles will be investigated in the laboratory.

**119.170 Māori Value Systems in Science 15 credits**

An introduction to the value systems of Māori, especially as they apply to science, the environment and food products. Topics covered include whakapapa, tikanga, kaitiakitanga, iwi/hapu/whanau structures and their relationships to present-day systems. The impacts of Te Tiriti o Waitangi and selected legislation on Māori and science will also be discussed.

**119.180 Introduction to Agribusiness 15 credits**

An introduction to the organisation, structure and governance of New Zealand agribusiness in a global context. Examines the international and domestic macro environment and its impact on New Zealand agribusiness. Explores New Zealand farm systems within an agribusiness context.

**119.202 International Agricultural Production Systems 15 credits**

Agriculture provides food, fibre, fuel and other goods for people. This course covers the evolution of agriculture, the major agricultural systems in the world, including New Zealand, and case studies of selected agricultural production systems covering arable crops, livestock and horticulture in temperate, arid and tropical climates.

**119.203 Agriculture and the Environment 15 credits**

Throughout the history of agriculture, it has both provided food security and created environmental challenges. This course will examine both contemporary environmental challenges including agricultural greenhouse gases and climate change, water resources and pollution, soil salinization and erosion, and the impact of natural environmental processes on agriculture.

**Agri-science****119.231 Agricultural and Horticultural Infrastructure 15 credits**

Overview of agricultural and horticultural properties detailing the structures, electricity supply, water systems, site layout and wastewater management.

**Agriculture and Horticulture****119.250 Practicum II 0 credits**

Industry experience for at least ten consecutive weeks in a public or private business related to the land-based industries. A detailed, investigative report identifying and analysing opportunities, problems, policies and technical and research issues is required.

**119.258 Agricultural Systems 15 credits**

An interdisciplinary study of agricultural systems to describe and analyse the relationships between system components. Analysis of the inter-relationships within agricultural systems, including the sub-systems for primary production, processing, marketing and policy, and the relationships of these systems within their environment.

**119.270 Policy, Regulation and Government in Primary Industry 15 credits**

Legal responsibilities and compliance associated with primary production; obligations under Te Tiriti o Waitangi and examples of legislation including resource management, hazardous substances and new organisms, animal

welfare, health and safety, food safety, biosecurity and employment. Central and local government, and industry systems. Implications for owners, managers and employees in the rural sector.

## Agriscience

### 119.281 Decision Tools for Primary Industries 15 credits

Application of decision tools for farm systems analysis at the tactical level. Analytical frameworks to assist decision-making in finance, human resources, production and marketing.

## Agriculture and Horticulture

### 119.290 National Expedition: Agriculture and Environment 15 credits

A study tour examining the interactions between agriculture, horticulture and environment through a series of field visits to selected agriculture, horticulture and environment systems in New Zealand. The course uses a case study and portfolio approach to develop reflective, critical, and analytical thinking on key primary industries, the New Zealand environment, and the associated interactions.

### 119.292 Special Topic 15 credits

### 119.302 Problem Solving in International Agriculture 15 credits

Case studies on solving agricultural and horticultural problems around the world, including in New Zealand, with an emphasis on complex, interdisciplinary projects. Case studies include agricultural development, and incorporation of advanced technologies and environmental mitigation. Emphasis will be on the application of knowledge of agricultural production systems to problem solving and communication.

### 119.303 Professional Experience in Agriculture 15 credits

The course integrates prior discipline knowledge in agriculture with soft skills required by employers by critically evaluating the objectives and operations of agricultural organisations and reflecting on the experience of working in an agricultural organisation.

## Agriscience

### 119.358 Farm Production Systems 15 credits

An interdisciplinary study of farm systems. Case studies are used to integrate students' knowledge of the whole farm system, to identify strategic choices and evaluate these choices relative to the current farm system.

## Agriculture and Horticulture

### 119.373 Integrative Studies 15 credits

An integrative course designed to emphasise the importance of the broad knowledge base gained in the degree and the value of multidisciplinary teams in addressing the issues and problems of importance to the industries served by the degree. Emphasis will be placed on the application of knowledge to problem-solving, group learning and problem-solving strategies and communication in the context of applied science. Real-world problems will be used.

## Agriscience

### 119.381 Decision-Making in Primary Industry 15 credits

A practical approach to the management of strategy, finance and tactics in primary industry. An exploration, through in-field case studies and business analysis, of planning under uncertainty.

## Agricultural and Horticulture Systems Management

### 119.382 Opportunity Analysis in Primary Industry 15 credits

An in-depth study of opportunities for agricultural/horticultural investments. An exploration, through in-field case studies, of alternative pathways to ownership, on-farm investment analysis and farm borrowing and lending. Relevant legislation affecting agricultural and horticultural businesses.

## Agriculture and Horticulture

### 119.392 Special Topic 15 credits

### 119.710 Nutrient Management in Grazed Pasture Systems 30 credits

An advanced, integrated study of the environmental and management factors influencing the cycling of nutrients in grazed pasture production systems.

Contemporary production systems are analysed and strategies devised to maximise the efficiency of nutrient use (including fertiliser recommendations) in pasture and supplementary feed production and animal nutrition. Financial risks associated with farm management strategies that minimise environmental risk are assessed.

### 119.711 Nutrient Management in Arable Systems 15 credits

An advanced integrated course of study on the environmental and management factors, including soils, establishment systems and fertiliser application, influencing the cycling of nutrients in, and loss of nutrients from, arable production systems. Crop growth models. Crop decision support systems for nutrient management and fertiliser recommendations.

### 119.720 Applied Agriculture Research Methods 15 credits

Preparation for applied research in the primary industries. Problem or opportunity identification; collection and analysis of both quantitative and qualitative data; ethical considerations. Project management and communication.

### 119.728 Research Methods in Animal, Veterinary and Agricultural Sciences 15 credits

Research methods for students planning to undertake research in animal, veterinary, agricultural, horticultural or applied sciences, with a focus on experimental research designs. Topics include: philosophy of science; research ethics; literature search and review techniques; project development and management; scientific writing; oral presentation skills; vocabulary of statistics; introduction to quantitative data analysis; and completion of a research proposal.

### 119.729 Research Methods 15 credits

Research methods for students whose research focuses on the human-science interface and human applications of science. The course includes foundations of science, ethics, the scientific method, and systems approaches to problem-solving and research; selection of appropriate research methods, including survey methods, case studies, enterprise/project analysis, and modelling; analysis and presentation of research results and communication skills.

### 119.731 Topics in Agricultural Extension and Consultancy 15 credits

This course focuses on extension and consultancy theory and its application in commercial farming and horticulture. The design, implementation and evaluation of extension and consultancy programmes; managing an agricultural consultancy business; codes of practice (ethics); current and emerging extension and consultancy issues. Case studies of local agricultural consultancies.

### 119.752 Advanced Farm and Horticultural Management 15 credits

Studies related to the principles of farm and/or horticultural management using case studies of farm and/or horticultural businesses; risk analysis and management at the strategic, tactical and operational levels; development of business plans; financial management and the application of whole farm planning techniques.

### 119.791 Special Topic 15 credits

### 119.792 Special Topic 15 credits

### 119.797 Special Topic 30 credits

## Agriculture/ Horticulture Plants

### 119.820 Applied Agriculture Research Report 60 credits

Candidates will undertake an applied research project within the subject area in which the Master of Agriculture is being completed. A project report must be submitted to and approved by the candidate's supervisor.

## Agriculture and Horticulture

### 119.885 Thesis 90 Credit Part 1 45 credits

A supervised and guided independent study resulting in a published work.

### 119.886 Thesis 90 Credit Part 2 45 credits

A supervised and guided independent study resulting in a published work.

### 119.887 Research Report 60 credits

### 119.888 Thesis 90 credits

A supervised and guided independent study resulting in a published work.

**119.889 Thesis** **120 credits**  
A supervised and guided independent study resulting in a published work.

**119.890 Thesis 120 Credit Part 1** **60 credits**  
A supervised and guided independent study resulting in a published work.

**119.891 Thesis 120 Credit Part 2** **60 credits**  
A supervised and guided independent study resulting in a published work.

**119.900 PhD Agriculture and Horticulture** **120 credits**

## 120

### Plant Biology

**120.101 Plant Biology** **15 credits**  
This course is an integrated introductory study of plants. Major themes include: plant form and function (anatomy, morphology, photosynthesis, respiration, transport systems, mineral nutrition); regulation of growth and development, especially in response to the environment; plant diversity (systematics, evolution, life cycles, New Zealand flora); and plants and people (crop domestication, plant breeding and production, Māori plant use).

**120.201 Diversity of Plants** **15 credits**  
This survey of the plant kingdom covers the evolution, diversity, and use of plants. A comparative approach is taken to study the morphological, anatomical, and reproductive features of major plant groups. Both native New Zealand and important agricultural/horticultural plants are used as examples. Modern principles of taxonomy and systematics are described, especially to address current biodiversity and biosecurity issues.

**120.217 Plant, Cell and Environment** **15 credits**  
This course examines developmental and physiological responses that enable plants to cope with a changing environment and that occur daily, seasonally and over longer timescales; e.g. global climate change. Major topics include plant responses to light, carbon dioxide levels, mineral nutrition and abiotic and biotic stresses such as drought and pests. Emphasis is on mechanisms by which changes in the environment are perceived, signalling processes that are induced, and cellular and developmental changes that help the plant cope with the changed environment.

**120.218 The Flora of New Zealand** **15 credits**  
The place of the New Zealand flora in a world context. This course considers the origins and relationships of the New Zealand flora, plant distributions, adaptive features, morphology, anatomy and reproduction, along with a consideration of plant communities.

**120.219 Plants and People** **15 credits**  
Plants as sources of food and beverage, medicine, fibres and dyes, with emphasis on their origin, domestication and the role of plant breeding to improve plants for human use. The physiological effects of active plant compounds on the body. The cultural and geographic origins of commercially important plants.

**120.302 Plant Development** **15 credits**  
Diverse patterns of plant development that were initially described from cytological and morphological perspectives are beginning to be understood at a mechanistic level through the use of molecular and genetic techniques. This course provides an introduction to classic literature pertaining to different aspects of plant development and integrates it with more recent molecular genetic studies. The role of plant hormones and other signalling molecules in plant development is also covered.

**120.303 Plant Diversity** **15 credits**  
The evolution of plant lineages has many potential outcomes, ranging from extinction to diversification and speciation. This course explores the processes that influence how lineages evolve and how we investigate and interpret patterns of diversity to better understand plant evolution and speciation. Lectures consist of critical discussion of topics including species concepts, local adaptation and diversification, morphological and molecular evolution, mating systems, and the roles of hybridization and polyploidy in plant evolution and speciation.

**120.304 Plant Biotechnology** **15 credits**  
An overview of modern methods by which plants can be modified to provide new genetic material for use in agriculture, horticulture, forestry and industry. This course links basic and applied science and focuses on the dramatic progress being made in plant tissue culture, recombinant DNA technology, QTL analysis and marker-assisted selection. Emphasis is on both prospects and limitations, and includes discussion of environmental, ethical and regulatory issues

**120.305 Comparative Plant Development** **15 credits**  
Diverse patterns of plant development that were initially described from anatomical and morphological perspectives now can be understood at a more mechanistic level as a result of advances in molecular and genetic techniques. This course provides a comparative approach, integrating classical and molecular methods, to study the dynamic patterns and processes of plant development across plant groups.

**120.306 Plant Improvement** **15 credits**  
Traditional and modern methods by which plants can be modified to provide new genetic material for use in agriculture, horticulture, forestry and industry. This course links basic and applied science and focuses on how natural and induced genetic variation can be harnessed for human use. Emphasis is on the dramatic progress being made in plant breeding, QTL analysis, marker-assisted selection, tissue culture and recombinant DNA technology. The course includes discussion of environmental, ethical and regulatory issues.

**120.713 Advanced Topics in Plant Biology** **30 credits**  
The course will involve use of the current literature to critically examine the experimental systems used to advance knowledge in Plant Biology.

**120.714 Botanical Evolution** **15 credits**  
This course discusses at an advanced level, current topics and issues important for understanding plant evolution, and the evolutionary response of plants to environmental change.

**120.715 Advanced Topics in Evolutionary Genetics** **30 credits**  
The course covers the history of landmark discoveries and progression of theory in genetics over the last century.

**120.798 Research Report** **30 credits**

**120.870 Research Report** **60 credits**

**120.871 Thesis 90 Credit Part 1** **45 credits**  
A supervised and guided independent study resulting in a published work.

**120.872 Thesis 90 Credit Part 2** **45 credits**  
A supervised and guided independent study resulting in a published work.

**120.873 Thesis 90 Credit Part 1 (30 credits)** **30 credits**  
A supervised and guided independent study resulting in a published work.

**120.874 Thesis 90 Credit Part 2 (60 credits)** **60 credits**  
A supervised and guided independent study resulting in a published work.

**120.875 Thesis** **90 credits**  
A supervised and guided independent study resulting in a published work.

A supervised and guided independent study resulting in a published work

**120.899 Thesis** **120 credits**  
A supervised and guided independent study resulting in a published work.

**120.900 PhD Plant Biology** **120 credits**

## 121

## Environmental Science

**121.103 New Zealand Environments 15 credits**

An introductory environmental course describing the plants, animals, geology, and landscapes of New Zealand. Emphasis is placed on assembly of the biota, interrelations between the physical and biotic environments, and the influence and place of people.

**121.201 Environmental Science 15 credits**

A consideration of environmental issues that affect or may affect natural and built ecosystems into the future. Topics include climate change mitigation and adaptation, land degradation and soil contamination, increasing water scarcity and pollution, loss of biodiversity and fisheries, rāhui resource use, sustainability of production and consumption systems, and the sustainability and liveability of major urban centres.

**121.210 Environmental Issues 15 credits**

A consideration of major environmental issues that affect, or may affect natural and built ecosystems into the future. Topics include climate change mitigation and adaptation, the 'Ozone Hole', land degradation and soil contamination, increasing water scarcity and pollution, loss of biodiversity and fisheries, sustainability of production and consumption systems, and the sustainability and liveability of major urban centres.

**121.211 New Zealand Environmental Issues 15 credits**

A consideration of environmental issues that affect New Zealand, particularly at the present time. It will include deforestation, soil erosion, pollution of air, land and water with industrial and agricultural pollutants, and conservation.

**121.212 Field Techniques for Environmental Science 15 credits**

An introductory on-line learning experience which prepares students for a one-week block course of field excursions and practical exercises to examine and record issues of national and global significance to the environment

**121.213 Land and Water Science 15 credits**

How river catchments work and how they are affected by human activity. The environmental effects of land and water management practices, including land use, irrigation, drainage and nutrient loss, on river channels, flows and water quality, framed within an understanding of catchment geomorphology and hydrological processes.

**121.214 Landscape and Human Ecology 15 credits**

A systems approach to understanding socio-ecological interactions at the landscape level. Content includes fundamental ecological principles, the quantification of ecological services and the importance of recognising the diverse social and cultural considerations that shape socio-ecological systems including Mātauranga Māori.

**121.301 Applied Environmental Science 15 credits**

A consideration of technology and innovation that can be used to measure, manage and mitigate environmental risks to soil and water. Theory and practical exercises based on New Zealand case studies equip students with numerical skills necessary to monitor and evaluate environmental quality. A student-led project allows in-depth study of a New Zealand environmental issue of particular relevance to community and vision Mātauranga Policy.

**121.310 Environmental Solutions 15 credits**

A consideration of technology and innovation that can be used to measure, manage and mitigate environmental risks to soil and water. Theory and practical exercises based on New Zealand case studies equip students with numerical skills necessary to monitor and evaluate environmental quality. A student-led project allows in-depth study of a New Zealand environmental issue of particular relevance to community.

**121.311 Global Environmental Issues 15 credits**

A consideration of environmental issues that affect, or may affect in the future, the global ecosystem. It will include the 'Enhanced Greenhouse Effect', the 'Ozone Hole', destruction of the rainforest, desertification, population control, ocean pollution, sustainability of agriculture and fisheries.

**121.312 Environmental Science Field Work II 15 credits**

Two one-week field trips within New Zealand to examine issues of national and global significance to the environment.

**121.313 Applied River Management 15 credits**

The course covers the principles and methodology of river resource management. It integrates ecology, hydrology, geomorphology and water quality to understand how river ecosystems function and how they may be managed to maximise societal and environmental benefit.

## 122

## Biochemistry

**122.102 Biochemistry 15 credits**

An introductory biochemistry course covering the fundamental concepts of protein structure and function as well as metabolism of carbohydrates, lipids and amino acids. The focus will be on energy transactions in a physiological context including glucose homeostasis and muscle metabolism in mammals. A lecture and problem-based tutorial course involving specific case studies will be complemented by a hands-on laboratory course.

**122.106 Veterinary Biochemistry 15 credits**

An introductory biochemistry course covering the fundamental concepts of protein structure and function as well as metabolism of carbohydrates, lipids and amino acids. The focus will be on energy transactions in a physiological context including glucose homeostasis and muscle metabolism in mammals. A lecture and problem-based tutorial course will be complemented by case studies relevant to animal health and disease.

**122.201 The Molecular Cell 15 credits**

Concepts of protein function, post-translational modification, folding, targeting and turn-over. The relationship between macromolecular structure/function and cell structure/function is explored with studies of cell membranes, the cell cytoskeleton, extracellular matrix and organelle organisation and function. Protein structure-function relationships will be discussed and analysed in the context of enzyme kinetics, enzyme catalysis and regulation.

**122.202 The Dynamic Cell 15 credits**

Energy metabolism in higher eukaryotes from the perspective of life on earth and the necessary adaptation of living organisms from an anaerobic to aerobic environment. Carbohydrate, lipid and nitrogen metabolism in the context of health and disease. Integration and regulation of carbohydrate, lipid and amino acid metabolism. A lecture and problem-based tutorial course complemented by a hands-on project-based laboratory course.

**122.222 Biochemistry for Technology 15 credits**

A foundation course that introduces molecular aspects of the cellular processes occurring in humans, animals, microbes and plants. An exploration of the molecules of life, proteins and enzymes in action, energy for living and energy storage with applications to the environment, health and disease, biotechnology, nutrition, sport and exercise. Theoretical aspects are supported by a laboratory programme focused on proteins and enzymes and their uses in diagnosing disease.

**122.231 Genes and Gene Expression 15 credits**

This course covers fundamentals of molecular biology including nucleic acid structure, DNA replication, repair and transcription, with reference to health and disease. Methods used to study and manipulate genes will be covered and applied in practice. A lecture and problem-based course, complemented by practical laboratory experience.

**122.232 Protein Biochemistry 15 credits**

Protein biosynthesis, structure and function. Topics will include protein translation, folding, targeting and post-translational modification, the relationship between protein structure and function, enzyme kinetics, mechanisms of enzyme catalysis and control, membranes and membrane proteins. Lectures will be complemented with a practical course focused on developing the appropriate skills to investigate proteins.

**122.233 Metabolic Biochemistry 15 credits**

Energy metabolism. Biosynthesis of carbohydrates and the metabolism of polysaccharides. Lipid metabolism. Nitrogen metabolism. Integration and regulation of carbohydrate, lipid and amino acid metabolism. Cellular communication systems.

**122.301 Proteins and Cell Biology 15 credits**

The course explores concepts and methods in advanced molecular cell biology and protein biochemistry. Molecular mechanisms responsible for the signalling and biochemical responses of cells will be discussed with a focus on both cell and protein structure and functions. Advanced studies in protein function, cell signalling and cellular processes are taught in a context of molecular disease mechanisms. The course teaches modern experimental methods in microscopy, cell biology and protein functional analysis.

**122.303 Gene Regulation 15 credits**

The course explores gene regulation in eukaryotes from nuclear organisation to cytosolic control, with a focus on animals and humans. The molecular mechanisms of transcription within a chromatin environment will be discussed, along with the role of RNA processing and post-transcriptional regulation in gene expression, and their importance to health and disease. A lecture and problem-based tutorial course complemented by a hands-on laboratory project undertaking experimental methods used to study gene expression.

**122.322 Protein Structure and Function 15 credits**

The structural and biochemical basis of protein function will be explored with an emphasis on techniques of protein isolation and purification, current methods of protein analysis, enzyme function and kinetics, protein folding and molecular interactions. A laboratory and computer-based practical course in protein purification and analysis reinforces the theoretical aspects of the course.

**122.703 Gene Expression 30 credits**

Advanced studies of selected topics in gene regulation at transcriptional and post-transcriptional levels.

**122.704 Molecular Cell Biology 30 credits**

Advanced studies of selected topics in biochemistry and cell biology

**122.713 Advanced Topics in Biochemistry 15 credits**

The course will involve use of the current literature to critically examine the experimental systems used to advance knowledge in Biochemistry.

**122.798 Research Report 30 credits****122.870 Research Report 60 credits****122.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**122.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work

**122.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**122.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**122.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**122.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**122.900 PhD Biochemistry 120 credits****123****Chemistry****123.101 Chemistry and Living Systems 15 credits**

This course takes a wide range of examples from everyday life to illustrate concepts of organic and biological chemistry. The structure, properties and reactions of organic compounds, identification of organic compounds using spectroscopy, and the mechanisms of organic reactions are covered. It also introduces the concepts of chemical equilibrium, particularly as they are applied to acids and base, and chemical kinetics.

**123.102 Chemistry and the Material World 15 credits**

This course discusses the central role of energy dispersal in determining spontaneous physical and chemical changes. Fundamental bonding theories will be used to rationalize molecular structures. Transition metal chemistry will be used to illustrate these concepts. The importance of intermolecular forces, atomic structure and properties of elements is emphasised, and modern methods and applications are introduced.

**123.103 Chemistry for Modern Sciences 15 credits**

An introductory course in chemistry suitable for students with little previous experience in the subject. The basic concepts of chemistry, including atoms and molecules, the periodic table, bonding, equilibria, chemical reactions, and chemical energetics, are taught with contextual references to everyday life.

**123.104 Chemistry for Biological Systems 15 credits**

Building on basic chemical principles, this course provides the atomic and molecular foundations for understanding chemistry and the life sciences. Starting from the structure of the atom and an understanding of Gibbs energy, it builds a chemical model for bonding, the composition of molecules, non-covalent interactions, chemical equilibria, acids/bases, chemical reactivity, and biological macromolecules. The theory is supported by practical experiments.

**123.105 Chemistry and the Physical World 15 credits**

An examination of how the properties of atoms and molecules determine the properties and behaviour of matter. The transfer of energy that occurs during chemical and physical processes and the rates of these processes are discussed and rationalised using atomic and molecular properties. Techniques for characterising matter and materials are introduced.

**Engineering****123.171 Chemistry for Biological Systems 1 15 credits**

The chemistry of biological and engineering materials under-pin all food and chemical processing industries. This course extends NCEA Level 3 chemistry to facilitate this with a particular focus on the structure, properties and reactions of organic compounds. This is a required course for all Chemical and Bioprocess Engineering major and Food Technology students, who will, through tailored extension workshops apply chemical fundamentals to problems in a suitable context.

**123.172 Chemistry for Biological Systems 2 15 credits**

This course introduces the Chemistry of biological and engineering materials that applies to all food and chemical processing industries. This course extends 123171 Chemistry with a particular focus on the properties and reactions of engineering and biological materials. Specifically principles of thermodynamics, properties of matter and application to electrochemical processes and biochemical transformations at a molecular level are introduced.

**Chemistry****123.201 Chemical Energetics 15 credits**

Molecular processes are inherently random and yet we can meaningfully predict the yield or the rate of a chemical reaction. In this course we discover that this apparent paradox is explained by the idea that although single molecules behave randomly, large numbers of molecules and atoms do behave in a predictable manner. We develop the principles of thermodynamics and kinetics from this idea and apply these principles to physical, chemical, biochemical and industrial processes. The lab course focuses on broadly applicable skills in measurement, analysing and presenting physical chemistry data, understanding sources of uncertainty in physical measurements and written communication skills.

**123.202 Organic and Biological Chemistry 15 credits**

Students will find out how to apply simple principles to understand the reactions of organic and biological molecules. This will provide the knowledge needed to predict how organic reactions work and to understand the related biological processes. Students will also be given the tools to identify a variety of different molecules. The laboratory course will cover the making and identification of organic materials, using the principles that have been learned in the lecture course.

**123.203 Inorganic Chemistry and Modelling 15 credits**

Topics in inorganic chemistry including transition metal complexes, organometallic chemistry, bioinorganic chemistry, and main group chemistry.

An introduction to symmetry, molecular orbital theory, and computational chemistry.

### 123.204 Chemical and Biochemical Analysis 15 credits

A course that introduces the underlying concepts and practical methodologies used for the analysis of chemical and biochemical compounds. Both qualitative and quantitative aspects of chemical and biochemical analyses using a range of spectroscopic and laboratory techniques will be studied.

### 123.206 Environmental and Analytical Chemistry 15 credits

An introductory course in geochemistry and chemistry of the atmosphere. Furthermore it introduces the underlying concepts and practical methodologies used for the qualitative and quantitative analysis of chemical and biochemical compounds. The lectures are complemented by a practical project and a laboratory course, requiring the application of the introduced concepts.

### 123.207 Molecular Chemistry 15 credits

The world is built up from molecules. Viewing systems - from the human body to the newest satellite - as composites of molecules is a powerful approach to understanding the world. In this course we will deconstruct seemingly complex systems into their simpler molecular components. We will understand their structures and develop ways they can be synthesized from the ground up. This is a lab course focussed on making molecules which will build synthetic skills.

### 123.208 Chemical Analysis 15 credits

Determining the structure of matter and how much of it is present is the focus of analytical chemistry. In this course we introduce the chemical and physical principles that underpin modern analytical chemistry methods and illustrate how analytical chemistry plays a key role in fields such as forensic and environmental science. You will obtain hands-on experience with modern analytical instrumentation in the laboratory and use skills in handling chemicals and data analysis to solve problems in analytical chemistry. We develop skills in error analysis and scientific writing.

### 123.210 Organic Chemistry Perspectives 15 credits

Aspects of organic chemistry relevant to biologically, pharmaceutically, environmentally and nutritionally important molecules including organic reactions, reaction mechanisms, computational organic chemistry and reaction outcomes. Determination of structure using analytical techniques. A course of practical work to complement the lecture material.

### 123.271 Molecules to Materials 15 credits

The chemistry of materials under-pins all chemical processing industries. This course facilitates a fundamental understanding of aqueous solutions, organic, inorganic and polymer chemistry relevant to material science, including soft materials such as gels and colloids. The laboratory training develops skills in a range of synthesis, separation and analysis techniques relevant to materials chemistry.

### 123.305 Contemporary Topics in Chemistry 15 credits

We will discuss and analyse the grand challenges and breakthroughs of modern chemistry. This discussion will lead to an understanding of how and why chemistry is central to the most pressing global challenges. Topical questions will vary from year to year. You will learn how to critically evaluate sources of scientific information and present scientific and chemical concepts using different media and to a variety of audiences.

### 123.306 Molecular Structure and Dynamics 15 credits

This course applies physical concepts and models to chemical and biological systems, over a range of scales, focusing on the relationship between structure and dynamics and change. The laboratory training develops expertise in a range of physical techniques.

### 123.307 Advanced Inorganic Chemistry 15 credits

This course focuses on the structure, properties and reactivity of inorganic compounds with a particular focus on transition metal complexes. The laboratory training develops expertise in a broad range of experimental techniques that relate to inorganic chemistry.

### 123.308 Advanced Organic Chemistry 15 credits

This course focuses on recent trends and developments in the design and reactivity of organic compounds. It will introduce how a knowledge of organic reactions and mechanisms can be used to synthesise biologically relevant molecules, and will include organic and metal-based catalysis as

well as heterocyclic chemistry. The laboratory training develops expertise in a range of organic chemistry experimental techniques.

### 123.310 Advanced Concepts in Organic Chemistry 15 credits

Computational aspects related to organic chemistry. Structure, reactivity, synthesis, retrosynthesis, structure determination by analytical methods. Mechanism of organic reactions and chemistry of heterocyclic and main group elements. An emphasis on the application of organic reactions to engineer molecules of interest in the chemical, biochemical and pharmaceutical fields. Lectures are complemented by an intensive laboratory experience.

### 123.311 Advanced Physical and Analytical Chemistry 15 credits

Principles and applications of advanced chromatography and radiative methods and techniques, as applied to analytical chemistry. Intermolecular interactions and applications to physical and chemical properties of fluids (gases, liquids and supercritical fluids), non-electrolyte solutions and solutions of electrolytes. Principles of heterogeneously catalysed reactions and their applications to industrial processes. A course of practical work to complement the lectures.

### 123.312 Advanced Organic Chemistry 15 credits

Structure, reactivity and synthesis of organic molecules, retrosynthetic analysis, reactive intermediates, stereoelectronic effects, heterocyclic chemistry and nuclear magnetic resonance spectroscopy (NMR) including 2D and multinuclear experiments. The emphasis is on understanding organic reactions, utilizing them to make molecules of interest, and structural characterization by NMR. Lectures are complemented by problem solving sessions and a laboratory course which includes a small project.

### 123.313 Advanced Inorganic Chemistry 15 credits

The applications of group theory methods for molecular orbital theory and spectroscopy for inorganic systems including vibrational, electronic and spin spectroscopy. The chemistry of coordination and organometallic compounds including reaction mechanisms of d-block elements, homogeneous and heterogeneous catalysis, metal-metal bonded systems and f-block elements. A course of practical work to complement the lectures.

### 123.315 Chemistry and Nanoscience Research Project 15 credits

Students will carry out a research project in an area of chemistry (or nanoscience) under the supervision of an academic staff member. Projects may range from theoretical investigations, to synthetic preparations, to characterisation and analysis of biological, nanoscale, or soft materials, or some combination thereof. Interdisciplinary topics will be encouraged.

### 123.326 Advanced Chemical Biology 15 credits

The fundamental molecules of life with an examination of the chemical basis for their biological functions. The fundamentals of chemical and biological catalysis will be explored, and the actions of drug molecules as mimics or inhibitors of bioprocesses will be discussed. Physical aspects and energetics will be addressed. A laboratory programme and written and oral assignments will complement the lecture material.

### 123.331 Advanced Physical and Computational Chemistry 15 credits

This course applies quantum theory to molecular and atomic structure and spectroscopy. The use of symmetry in chemistry is explicitly treated. Statistical and dynamical theories are used to describe molecular behaviour and reactivity. Computational chemistry methodology is systematically applied to chemical systems. A course of practical work and a spectroscopy project complements the lectures.

### 123.332 Advanced Topics in Chemistry 30 credits

A project in an area of chemistry aimed at preparation for postgraduate research in chemistry. A selection of modules (4 maximum) covering areas of Inorganic, Physical, Environmental, Analytical and Organic chemistry.

### 123.711 Research Methods in Chemistry and Nanoscience 30 credits

Four compulsory modules covering research project development and computational methods in science; two modules selected from: statistical methods for data acquisition/handling, BioNMR, single molecule techniques and polymer physics and/or a relevant topic to be negotiated.

### 123.712 Advanced Nanoscience and Physical Chemistry 30 credits

A selection of modules covering topics in structural diffraction methods, structural methods in biochemistry, supramolecular chemistry and self-assembly, anion receptor chemistry, sustainable chemistry, statistical

mechanics, surface analysis, spin transition/activation of small molecules in chemistry and biochemistry, and or a topic to be negotiated with the lecturer.

**123.713 Advanced Chemical Synthesis 30 credits**

A selection of modules (6 maximum) covering topics in advanced synthetic chemistry, peptides for biological applications, drug design and delivery, modified nucleic acids as probes in life sciences, activation of small molecules in chemistry and biological chemistry AND/OR a topic to be negotiated with the lecturer.

**123.798 Research Report 30 credits**

**123.870 Research Report 60 credits**

**123.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**123.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**123.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**123.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**123.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work

**123.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**123.900 PhD Chemistry 120 credits**

## 124

### Physics

**124.100 Introductory Physics 15 credits**

An introductory course on phenomena and methods relevant to the study of physics. The use of physics concepts, including conservation laws, to analyse physical systems. Conversion of information between written, algebraic, graphical and diagrammatic forms. Methods for solving appropriate quantitative problems. Practical demonstrations and experiments.

**124.102 Physics I(b) 15 credits**

Advanced Mechanics, Simple Harmonic Motion, Thermodynamics, Waves, Interference and Diffraction, Magnetic fields and electromagnetism, AC circuits. A laboratory course based on the above.

**124.103 Biophysical Principles 15 credits**

Students will develop understanding of biophysical principles including the description of motion, forces, equilibrium, fluids and flow, heat as energy, heat transfer, waves and sound, and the use of spreadsheets. Application of foundational knowledge of mathematical principles to biophysical systems, including the rules of arithmetic, fractions, simple algebra, trigonometry, transcendental functions, SI units and unit conversions, and creating and interpreting graphs. A practical course.

**124.104 Physics 1A: Mechanics and Thermodynamics 15 credits**

This physics course provides foundational knowledge for study in engineering, food technology, and physical sciences. The emphasis is on applying physical principles to problems involving electricity, fluid mechanics, and thermodynamics. A practical course.

**124.105 Physics 1B: Electricity, Waves and Modern Physics 15 credits**

This physics course provides foundational knowledge for study in engineering, food technology and physical sciences. The emphasis is on applying physical principles to problems involving electricity, waves (including classical waves and electromagnetic waves), optics, quantum physics, and the application of modern technologies such as lasers, mass spectrometers, and nuclear magnetic resonance. A practical course.

**124.111 Physics for Life Sciences 15 credits**

Describing motion. Forces and torques, work and energy in biological and non-biological system. Heat energy - its production and transfer in animals. Stress, strain and the strength of biological material. Ideal Gas Law. Flow of fluids in tube. Light, sound and their biological detection. DC and AC electric circuits. Acoustics and ultrasound. Ionising radiation. Biomedical instruments. A laboratory course based on the above which includes the use of basic statistics in the interpretation of data and illustration of the scientific method.

**124.129 Astronomy 15 credits**

Astronomy is an ancient yet still vibrant field of study. This course introduces students to the basic heavenly bodies: planets, stars and galaxies and more exotic objects such as quasars and black-holes. Modern topics such as dark matter and extra-solar planets are included. Observational exercises including telescopes form part of the assessment

### Engineering

**124.171 Physical Principles for Engineering & Technology 1 15 credits**

Engineering and technology solutions are designed by applying underlying physical principles. This course extends NCEA Level 3 physics to facilitate this, with a particular focus on linear mechanics, thermophysics and electric circuits. This is a required course for all Engineering and Food Technology students, who will, through tailored tutorial problems and extension activities study physical problems in a suitable context.

**124.172 Physical Principles for Engineering & Technology 2 15 credits**

Engineering and technology solutions are designed by applying underlying physical principles. This course extends NCEA Level 3 and 124.171 physics to facilitate this, with a particular focus on advanced mechanics, thermodynamics, simple harmonic motion, magnetic fields and electromagnetism, AC circuits. This is a required course for all Engineering and Food Technology students, who will, through tailored tutorial problems and practical laboratory sessions study physical problems in a suitable context.

### Physics

**124.204 Classical Physics 15 credits**

Classical & Lagrangian mechanics. Physics of mechanical waves and electromagnetic waves. A course of laboratory work related to the above.

**124.205 Modern Physics 15 credits**

Special relativity, introductory statistical mechanics, introductory quantum physics. A course of laboratory work related to the above.

**124.226 Quantum and Statistical Physics 15 credits**

Kinetic theory and introductory statistical mechanics, introductory quantum physics. A course of laboratory work related to the above.

**124.229 Special Relativity and Cosmology 15 credits**

The empirical basis for special relativity, the Lorentz transformation, the paradoxes, Hubble's law, the cosmological principle, the empirical basis for cosmological theories, the Big Bang Theory, the Steady State Theory. A course of laboratory work related to the above.

**124.230 Biophysics 15 credits**

The physics of biological systems. Modern physical techniques applied to biological systems. A course of related laboratory/literature work.

**124.233 Classical Mechanics and Waves 15 credits**

Classical and Lagrangian mechanics, Physics of waves and vibrations. A course of laboratory work related to the above

**124.261 Nonlinear Physics and Chaos 15 credits**

Nonlinear processes in mechanics, fluid dynamics, population and reaction dynamics, analytical mechanics, iterated maps, fractals, differential equations, phase space, bifurcation, strange attractors and numerical methods appropriate to the above topics.

**124.304 Statistical Physics and its Applications 15 credits**

Building concepts of statistical physics from key principles of quantum mechanics, application of those ideas to simple systems such as gases and model situations. Further applications to many real world situations such as thermal radiation, phase transition, cryogenics and chemical reactions.

**124.305 Quantum Mechanics and its Applications 15 credits**

Postulates of Quantum Mechanics, Hydrogen atom, Perturbation theory, Atomic structure, Bloch wavefunctions, Band structure of solids, Semiconductors. A course of laboratory work related to the above.

**124.316 Advanced Experimental Physics 15 credits**

A course in experimental physics comprising laboratory work.

**124.325 Advanced Quantum Physics 15 credits**

Wave mechanics, atomic physics, solid state physics.

**124.327 Modern Statistical Physics and Thermodynamics 15 credits**

Modern concepts and methods of statistical mechanics, their applications in physics and to interdisciplinary problems. Thermodynamics.

**124.332 Classical Fields 15 credits**

A course in classical electromagnetism and the mathematics required for the development of the theory. Vector calculus and integral theorems. Maxwell's equations in integral and differential forms. Wave equations and solutions. Waveguides and antennas. Curvilinear co-ordinates. Tensors.

**124.350 Computational Physics 15 credits**

A brief introduction to GNU/Linux. Popular techniques of computational physics including numerical integration, optimisation and Monte Carlo methods in the context of classic physical systems such as oscillators, spin models and the Schrodinger equation. The adaptation of these algorithms to parallel computers.

**124.712 Condensed Matter Physics 15 credits**

Selected topics of solid-state physics: crystal lattices and band structure, thermodynamic and electronic properties of materials, elementary transport processes. Macroscopic Quantum Phenomena: superfluidity, superconductivity, magnetism.

**124.721 Quantum Mechanics and Group Theory 15 credits**

Group representations, irreducible representation, group character, Wigner-Eckart theorem. Dirac formalism. Unitary displacement operators, SU(n) symmetries. Angular momentum matrices, rotations, generalised rotation operators. Spinor and vector particles. Angular correlations. Product representations. Clebsch-Gordon coefficients. Hadron symmetries. Quantum statistics: density operator and dynamical evolution.

**124.722 Relativistic Quantum Mechanics and Field Theory 15 credits**

Lorentz covariance. Four-vectors, electromagnetic fields and Maxwell's equations in four-vector formalism. Klein-Gordon Equation, Dirac equation and Spinors. Feynman diagrams. Second quantisation, oscillators and canonical formulation. Scattering. Symmetries and the gauge principle.

**124.761 Topics in Statistical Physics and Random Processes 15 credits**

Random data: mean square values, probability density functions, autocorrelation functions, power spectral density functions, levels crossing. Descriptions and applications. The Optical Field: intensity fluctuations. Coherence. Nonlinear dynamics and chaos. Phase transitions, critical phenomena, mean field theory.

**124.762 Chemical Physics 15 credits**

Topics drawn from representative areas of Chemical Physics including: theoretical methods and algorithms; gas phase dynamics and structure; condensed phase dynamics, structure and thermodynamics; surfaces, interfaces and materials; polymers, biopolymers and complex systems.

**124.798 Research Report 30 credits****124.870 Research Report 60 credits****124.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**124.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**124.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**124.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**124.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**124.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**124.900 PhD Physics 120 credits****125****Finance****125.111 Managing your Personal Finances 15 credits**

This course introduces students to key concepts of financial capability, helping individuals to understand how best to manage and protect their financial resources during various life stages and their rights in relation to this.

**125.143 Essentials of Investment Advice 30 credits**

Providing essential knowledge of the principles and practice of the provision of investment advice

**125.155 Essentials of Insurance Advice - Life, Disability, and Health 30 credits**

Providing essential knowledge of the principles and practice of the provision of insurance (life, disability and health) advice

**125.156 Essentials of Insurance Advice - General 30 credits**

Providing essential knowledge of the principles and practice of the provision of insurance (general) advice

**125.163 Essentials of Residential Property Lending Advice 30 credits**

Providing essential knowledge of the principles and practice of the provision of residential property lending advice

**125.179 Introduction to Financial Advice 30 credits**

Providing knowledge of the financial advice industry, including regulatory requirements, and the application of professional practice.

**125.211 The Financial Planning Process 15 credits**

This course introduces students to the theories and processes relating to Financial Planning and Advice.

**125.220 Financial Institutions and Markets 15 credits**

An overview of the operation of institutions, products and markets which make up the financial system and discusses the role of governments, both domestically and internationally, in the management of our financial system.

**125.230 Business Finance 15 credits**

The course provides students with a fundamental knowledge of financial theory and practice. In addition to valuation and capital budgeting, students will study working capital management, capital structure, the cost of capital, dividend policy and ethics in finance.

**125.240 Fundamentals of Investment 15 credits**

This course introduces the quantitative techniques that apply to investment valuation and management. Topics included are the valuing of equity and fixed interest securities, the trade-off between risk and return and an introduction to portfolio management from the financial planning perspective.

**125.241 Introduction to Investments 15 credits**

An introduction to the fundamental and practical concepts of the investment process. Investment products, including equity, debt instruments, and derivatives are discussed as well as basic portfolio concepts.

**125.250 Financial Modelling 15 credits**

An examination of the principles of sound financial decision-making with the use of spreadsheets for analysis. Students will use various applications to perform quantitative analysis, assessing risk and return, and asset valuations.

**125.310 Financial Advice Implementation 15 credits**

This capstone course deals with the implementation of the financial planning process, including the formation of a comprehensive financial plan.

**125.312 Applied Personal Financial Management 15 credits**

An examination of the issues and potential solutions pertaining to individual personal financial management decisions.

**125.320 International Finance 15 credits**

This course provides an overview of the theories and institutional environment of international finance. Students will gain insight into exchange rate determinations and instruments available for managing financial risk in a globalised economy.

**125.330 Advanced Business Finance 15 credits**

This capstone course is a study of finance theory in practice, designed to facilitate effective corporate financial decision making.

**125.340 Investment Analysis 15 credits**

The application of analytical techniques to investment decision-making.

**125.342 Investment Planning 15 credits**

The application of investment valuation techniques and the evaluation of portfolio construction, encompassing fixed income and equities from the perspective of a financial planner.

**125.350 Financial Risk Management 15 credits**

This course provides an overview of the theory and practice of financial risk management or hedging. Financial risk exposures can be categorised into three areas: interest rate risk, foreign exchange risk and commodity price risk. The focus will be on the methods of identifying and measuring the impact of these exposures and the appropriate instruments to hedge the firm's exposures.

**125.351 Personal Risk Management 15 credits**

This course provides an overview of personal risk management, and the methods of mitigating potential impact including the role of insurance.

**125.356 Business Insurance 15 credits**

This course introduces the use of insurance within a business context, using a risk management perspective to look at the major risk exposures and the techniques that can be used to mitigate them. The course also looks at accounting, financial management, and the other skills required to assess the risk of a client. The emphasis is on the applied aspects of the material.

**125.357 Advanced Issues in Insurance 15 credits**

This course deals with advanced technical aspects of insurance, including a solid grounding in the theory that underlies the processes of ratemaking. It also examines contemporary issues in insurance law and dispute resolution. Strategic issues in the industry, including likely future structural changes, will be analysed.

**125.364 Bank Financial Management 15 credits**

An application of finance and economic theory to the financial management and operation of banks in New Zealand and internationally, from a risk and regulation perspective. Attention is also given to the fragility of modern banking and its impact on systemic risk.

**Banking Management****125.365 Retail Banking 15 credits**

A critical analysis of the main elements required for a successful retail banking operation.

**Finance****125.700 Managerial Finance 30 credits**

A study of the theory of finance with an emphasis on managerial decision making.

**125.701 Quantitative Methods for Accounting and Finance 15 credits**

A study of statistical and econometric techniques allowing students to carry out appropriate empirical research in the areas of accounting and finance.

**125.702 Financial Management 15 credits**

An introduction into the theory and practice of financial management decision making. Students develop and apply financial management techniques to solve business problems.

**125.732 Advanced Corporate Finance 30 credits**

Advanced Corporate Finance is a course with a quantitative base. It builds a theoretical foundation from which students can consider finance issues.

Consideration of corporate financial management, capital markets and long-term financial strategy is undertaken with the objective of making corporate decisions more efficiently.

**125.740 Advanced Investment Analysis 30 credits**

This course provides a comprehensive coverage of advanced theory and practice regarding investments and portfolio management.

**125.780 Advanced International Finance 30 credits**

This course covers advanced topics in international finance, including an understanding of the institutions and evolution of the international financial structure, the foreign exchange market and derivatives. The additional complications of applying financial theory to multinational corporations, international funding, international investing, and capital budgeting are examined.

**125.781 Advanced Financial Risk Management 30 credits**

This course considers the roles of financial risk management in reducing risk and/or increasing returns in an organisation. Students will be exposed to advanced financial risk management from both theoretical and empirical perspectives.

**125.785 Research and Analytics in Economics and Finance 30 credits**

This course provides foundations for econometrics and data analytics from which students can understand and perform quality empirical research in economics and financial contexts.

**125.788 Big Data in Finance and Banking 30 credits**

A study of big data application in finance and banking through a combination of theory and practice.

**125.791 Research Report Part 1 15 credits****125.792 Research Report Part 2 15 credits****125.799 Research Report 30 credits****125.803 Corporate Finance 15 credits**

A study of financial management decisions within a corporate setting. Students examine how financial decisions impact on firm value.

**125.804 Financial Asset Management 15 credits**

A study of the theory and practice of financial asset management from the valuation of financial assets to the construction of financial asset portfolios through optimization processes.

**125.805 International Finance 15 credits**

A study of financial management from an international perspective with emphasis on the theories of exchange rate determination, measurement and management of exchange rate risk and international funding and investment.

**125.806 Financial Risk Management 15 credits**

A study of the theory, practice and recent developments in financial risk management from the perspective of the firm and the domestic and global financial systems.

**125.810 Case Studies in Corporate Finance and Risk Management 30 credits**

Using case study analysis, this course encompasses the theory and practice of financial management, financial risk management and the allocation of capital in the global business setting.

**125.811 Advanced Risk Analytics 30 credits**

This course analyses current theory, practice and governance in risk management process and evaluates their financial implications.

**125.850 Research Report Part 1 30 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

**125.851 Research Report Part 2 30 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

**125.892 Research Report 60 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

**125.895 Professional Practice 60 credits**

Candidates will undertake professional practice within the subject area in which the Master of Management is being completed. Professional Practice may be conducted either individually or in groups and assessment of the outcome of the investigation may be in a variety of ways including written and oral presentations and case studies.

**125.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**125.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**125.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**125.900 PhD Finance 120 credits****127****Property Studies****127.100 Introduction to Property and Real Estate 15 credits**

An introduction to the concepts and principles underlying the property market/industry in New Zealand. This course provides an overview of the regulatory, economics and evaluation framework for users and investors in property and real estate.

**127.241 Property Market Principles 15 credits**

A broad based introduction to property examined from both a New Zealand and international perspective. This course incorporates the use of technology in relation to all aspects of the property market.

**127.242 Introduction to Property Valuation 15 credits**

An introduction to the principles and methods of property valuation.

**127.245 Introduction to Property Finance and Investment 15 credits**

Introduction to property investment analysis, the role of property finance and the evaluation of property financing decisions.

**127.255 Rural Valuation I 15 credits**

An introduction to valuation, examining the duties of a valuer, code of ethics and report writing as well as the principles and methods of valuation and the application of these to the valuation of residential and rural property. The course has a practical orientation containing a substantial fieldwork and case studies component.

**127.341 Property Management and Development 15 credits**

The application of analytical techniques to, and the appraisal of, the management and development of commercial real estate resources.

**127.342 Applied Property Finance and Investment 15 credits**

This capstone course is an applied study of property finance and investment analysis which includes portfolio theory in relation to property.

**127.343 Applied Property Valuation 15 credits**

The application of valuation theory in relation to commercial and industrial property, both vacant and improved, valuation practices.

**127.356 Rural Valuation 15 credits**

The valuation of rural property including: pastoral, peripheral, horticultural and forestry land issues relating to the valuation of leasehold interests and Māori Land. The dispute resolution process. The course has a practical orientation and includes a field test.

**127.378 Property Economics and Planning 15 credits**

A study of location theory, planning and the economic dynamics involved in the development of cities, using analysis of property space and asset class.

**127.700 Real Estate Studies 30 credits**

A study of the theory and practice of real estate, valuation and property management.

**127.702 Sustainable Property Development 15 credits**

A study of the theory and practice of sustainable property development.

**128****Ergonomics****128.300 Ergonomics/Human Factors: Work, Performance, Health and Design 15 credits**

An introduction to Ergonomics/Human factors (E/HF) - an inter-disciplinary holistic practice-based approach to integrate work, leisure and people in occupational, organisational, leisure (including sport, equipment, products, design and rehabilitation) environments to optimize matching of human-user-system health, performance, comfort and effectiveness: covering fundamental ergonomics principles, micro-macro-ergonomics, E/HF analytical methods, physical, psychological and social capacity and limitations of individuals and groups/teams in organizational socio-technical work and leisure environments.

**128.900 PhD Ergonomics 120 credits****130****Emergency Services Management****130.202 Introduction to Emergency Management 15 credits**

An introduction to principles, theory and practices of emergency management.

**130.203 Disaster Risk Management 15 credits**

A study of the principles and practice of disaster risk management including disaster risk identification and assessment processes, and the use of risk information in decision-making and communication.

**130.204 Disaster Risk and Emergency Management Internship 15 credits**

Internship in disaster risk and emergency management in which students are placed alongside professionals working within domain related organisations in New Zealand.

**130.301 Incident Command Systems 15 credits**

This course introduces the systems used to manage emergencies, including the New Zealand Coordinated Incident Management System and other international variations. Consideration will be given to operational management concepts and tactics for effective incident response.

**130.701 Natural Hazards 30 credits**

A study of natural hazards and their effects. Specific attention will be paid to earthquakes, windstorms, flooding, volcanicity, tsunamis and landslips and their impact on people and the environment. Hazards particularly relevant to New Zealand will be emphasised.

**130.702 Coping with Disasters 30 credits**

Study of the human issues and problems involved in preparing for and coping with disasters. Attitudes towards disaster preparation are studied together with the nature of disasters and their effects on human beings. The organisation and control of human behaviour during disasters will be studied together with rehabilitation interventions, particularly for the alleviation of stress for those involved.

**130.705 Emergency Management 30 credits**

An examination of the social, psychological, community and organisational aspects of disaster management in New Zealand. Emphasis is on the development and implementation of an all-hazards, comprehensive and integrated approach to emergency management. Selected readings and case studies will be used to facilitate the development of an effective response to social, psychological, community and organisational issues.

**130.706 Emergency Management in Practice 30 credits**

This course studies the practical application of current emergency management theory. The emphasis is on examining a specific topic area, analysing current trends and discussing practices that will enhance reduction, readiness, response and recovery efforts in managing disasters and emergencies.

**130.707 Professional Inquiry in Emergency Management 30 credits**

Analytical inquiry into the impact of a professional practice in an area of emergency management. Provides an opportunity for students to engage in inquiry skills and a critical dialogue to articulate effective and efficient professional practice in their work environment.

**130.799 Research Report in Emergency Management 30 credits**

A research report on a selected emergency management topic, undertaken by the individual student under the supervision of academic and professional staff. The topic and method of study must be approved by the course coordinator.

**130.800 Advanced Leadership in Emergency Management 1 30 credits**

This course explores the theory and practice of operational and strategic leadership applied in emergencies, including organisational psychology, politics, law, ethics, team leadership, communication and crisis decision making.

**130.801 Advanced Leadership in Emergency Management 60 credits**

This course explores the theory and practice of operational and strategic leadership applied in emergencies, including organisational psychology, politics, law, ethics, team leadership, communication and crisis decision making.

**130.802 Advanced Leadership in Emergency Management 2 30 credits**

A further exploration of the theory and practice of operational and strategic leadership applied in emergencies, including a deep examination of key case studies of advanced leadership and critical reflection on leadership practices.

**130.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**130.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**130.881 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**130.882 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**130.883 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**130.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**130.900 PhD Emergency Management 120 credits****131****Development Studies****131.121 Rich World, Poor World 15 credits**

This course introduces students to the field of development studies and to some of the most pressing issues for people living in “developing” countries. It steers a course between theory and practice and uses case studies from differing parts of the world. Key themes include debt, famine, and refugees.

**131.221 Global Development Issues 15 credits**

This interdisciplinary course investigates contemporary global development. This course will explain different approaches to development and will explore a choice of topical themes that highlight problems and some of the strategies involved in addressing global concerns.

**131.321 Strategies for Sustainable Development 15 credits**

A consideration of concepts, processes, practices, and possible strategies for sustainable development at global, national and community levels. Special attention is paid to examples of strategies that seek more sustainable livelihoods.

**131.701 Development and Underdevelopment 30 credits**

An interdisciplinary course that explores the historical origins and contemporary processes of international development. The main areas covered include: the origins and meaning of development; theories of

development and underdevelopment; and contemporary approaches to development practice.

**131.702 Development Management 30 credits**

An applied course dealing with the processes and methods for the planning, implementation and evaluation of development programmes and projects. The course focuses on the managerial aspects and on the analytical tools that link contemporary policy frameworks and operational practices.

**131.703 Gender and Development 30 credits**

An examination of the interaction of gender difference, development planning and social change. Selected topics include empowerment and human rights, masculinities, the household, work, education, and health.

**131.704 Sustainable Development 30 credits**

A course concerned with the concept of sustainable development in all its dimensions (economic, social and environmental), focused on the 17 sustainable development goals (SDGs). Conceptual lenses, including Indigenous understandings of sustainability and the sustainable livelihoods framework, are also discussed.

**131.706 Globalisation and Development 30 credits**

An examination of three critical themes in globalisation and development: conflict (and post-conflict), migration, and tourism.

**131.707 Development Research Design 30 credits**

An examination of research methods and ethical issues and their application in development studies.

**131.708 Development Practicum 30 credits**

Advanced study in development practice, involving 260 hours of professional work in an approved development agency. As an integral part of the course, students will reflect on how this work can be understood in relation to current literature on development theory and practice.

**131.709 Sustainable Development Goals in Practice 30 credits**

This course provides advanced study in the practice of the Sustainable Development Goals (SDGs), focusing on the application of the SDGs to real-world circumstances. Students will be exposed to diverse approaches, frameworks, and tools for measuring and integrating sustainability in policy making and practice.

**131.810 Sustainable Development Goals Practicum 60 credits**

Advanced study in the application of the Sustainable Development Goals, involving 320 hours of professional work in an approved agency. As an integral part of the course, students will research how this work can be understood in relation to current literature on the SDGs and sustainable development.

**131.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**131.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**131.897 Research Report International Development (60) 60 credits**

A supervised scholarly research report in International Development.

**131.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**131.900 PhD Development Studies 120 credits****132****Resource and Environmental Planning****132.101 Introduction to Professional Planning 15 credits**

This course is an introduction to professional planning, and provides a foundation to the development of a contemporary professional identity. It introduces students to the key ideas and individuals involved in the evolution of the rationale and origins of planning. The course is taught through reference to planning as conceived and practiced in New Zealand and internationally.

**132.102 Introduction to Planning Analytics 15 credits**

This course introduces the information and techniques for analytical practice in professional planning.

**132.111 Oranga Taiao, Oranga Tangata: Planning and the Environment 15 credits**

A critical, Māori-centred introduction to environmental planning that emphasises protecting the environment for future generations.

**132.112 Planning for Sustainable Development 15 credits**

The multi-dimensional and multi-disciplinary nature of planning is explored with reference to the challenge of sustainable development and the application of planning principles to real-world issues.

**132.212 Professional Practice I 15 credits**

The institutional, professional and legal settings for urban and environmental planning in New Zealand. Topics will include policy and plan development, implementation at different levels of government and the role of tangata whenua. Lectures are complemented by workshop exercises.

**132.213 Policy Analysis and Evaluation 15 credits**

This course examines the theory and principles of policy analysis and evaluation in the context of planning and develops skills in fundamental qualitative and quantitative methods.

**132.217 Planning Hazard-Resilient Communities 15 credits**

An introduction to the role of planning in building sustainable and disaster resilient communities through the use of various processes and tools to assess hazard vulnerability, reduce hazard risks, improve disaster readiness, develop effective response capabilities and facilitate recovery.

**132.218 Building Collaborative Communities 15 credits**

An introduction to collaborative community planning, with a particular focus on the theory and practice of public participation and conflict resolution.

**132.221 Planning Studies 15 credits**

An introduction for non-planners to planning and practice in the New Zealand urban, rural and natural resource environment, including an introduction to the principles of the Resource Management Act 1991 and its administration.

**132.304 Tūhono Taiao: Foundation of Māori Planning 15 credits**

This course introduces students to the Māori Planning world. Students will learn and apply Māori concepts, processes and practices, and critically explore the relationship between Māori and (post)colonial Planning to equip themselves to work effectively with Māori communities on Planning issues.

**132.305 Natural Resource Policy and Planning 15 credits**

An interdisciplinary approach to the cultural, philosophical, legal, institutional and practical issues involved in the strategic planning and management of New Zealand's natural heritage, including analysis of appropriate New Zealand and international case-studies.

**132.311 Planning Theory 15 credits**

A critical study of the philosophical and theoretical foundations of planning.

**132.312 Environmental and Planning Law 15 credits**

An introduction to New Zealand Environmental Planning law with a specific focus on the Resource Management Act 1991 and the legislative, judicial and administrative aspects of the New Zealand legal system as they relate to environmental law and the planning process. The place of law in the sustainability debate, property rights and legal aspects of the Treaty of Waitangi are covered.

**132.313 Advanced Planning Techniques 15 credits**

This course develops advanced skills in selecting, critiquing and applying appropriate qualitative and quantitative methods to issues in planning practice.

**132.314 Transport and Urban Planning 15 credits**

People-centred approaches to transport and urban planning. A critical analysis of the determinants of urban planning and transport policies and procedures at national, regional and local levels in the context of sustainable urban development for hapori (communities).

**132.403 Planning Project 30 credits**

A planning study of an approved topic. Emphasis is on locating the study within an accepted planning paradigm or process; problem definition based

on theory and precedent; an appreciation of practice issues; researching and analysing relevant information; and producing a solution to the problem. Findings are presented in a seminar and planning report. Collaboration with academic staff. Tutorials cover presentation skills.

**132.412 Professional Practice II 15 credits**

The knowledge and skills required by the professional planner in practice. The course makes use of workshop sessions and other forms of interactive teaching to explore current practice issues, including plan and policy development for urban and environmental issues, consultation, environmental education, mediation, resource consents and the role of the expert witness.

**132.414 Urban Planning and Design 15 credits**

Application of the theory and design of development planning to modern cities. The institutional and disciplinary contexts and constraints within which development plans are formulated. Case studies and fieldwork, together with practical studios covering analytical methods and design. Relationship between transport, urban form and urban design.

**132.415 Environmental Planning 15 credits**

Sustainable natural resource development approaches and debates are considered within the context of integrated natural resource planning. The course explores and applies planning theories and methods to a selected natural resource problem or issue in New Zealand. Field work as part of project research.

**132.419 Professional Practice Studio 15 credits**

A practical context for the integration and application of knowledge to contemporary planning practice and investigation and resolution of current issues. Students' understanding of current planning debates and the role of planning as a profession is extended through participation in debate with current protagonists of different points of view and group work to resolve and defend a position.

**132.729 Mana Taiao: Advanced Māori Planning 30 credits**

Students will establish an advanced understanding of Māori planning by exploring key Māori planning concepts in relation to the environment and relevant planning situations.

**132.730 Policy Analysis and Evaluation Techniques 30 credits**

Analytical techniques used in planning. Evaluation methods, impact assessment, forecasting and scenario methods, use of performance indicators, soft system approaches and natural resource accounting. Techniques are illustrated by case studies and practised in computer-based exercises.

**132.731 Planning Law 30 credits**

The Resource Management Act 1991, and the New Zealand legal system as it relates to environmental law and the planning process.

**132.732 Planning Theory 30 credits**

The philosophical and theoretic foundations of planning and the principles of urban design are identified and analysed using studios and seminars. Business, other disciplines and indigenous approaches to environmental planning challenge traditional views about 'public interest'. The role of planners in collaborative and communicative approaches to urban and environmental planning is identified, along with the effect of jargon in communication. The future of planning, including changes to codes of ethics and practice given a global focus on sustainable management is discussed.

**132.734 Urban Planning and Development 30 credits**

Different theoretical and practical approaches to urban planning and development, and consequences for the urban landscape, infrastructure, economy and services

**132.735 Natural Resource Policy and Planning 30 credits**

Natural resource planning principles and practice. Application of the concept of sustainable development to the management of biophysical resources and systems.

**132.736 Professional Practice 30 credits**

Development of the knowledge and skills required by the professional planner in practice. The course focuses on a range of issues in current planning practice and examines a variety of techniques that might be used to address those issues. Interactive teaching techniques are combined with lectures.

**132.741 Long-Term Community Planning 30 credits**

An examination of the theoretical and empirical aspects of long-term community planning and exploration of evolving good practice.

**132.742 Planning History: From Town Planning to Resource Management 30 credits**

An advanced exploration of the historical development of planning as a discipline and profession in New Zealand.

**132.751 Natural Hazards and Resilient Communities 30 credits**

A study of natural hazards and the role of planning in building sustainable and disaster resilient communities. Develop and apply planning processes and tools to assess hazard vulnerability, reduce hazard risks, improve disaster readiness, develop effective response capabilities, and facilitate recovery.

**132.804 Applied Research in Planning 30 credits**

An examination of research methods, traditions and techniques particularly those used in Planning research.

**132.815 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**132.816 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**132.890 Professional Inquiry in Planning 60 credits**

An advanced exploration of planning-based research methods and their application to independent research and analysis within a planning context.

**132.893 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**132.894 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**132.895 Research Report (30) 30 credits****132.897 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**132.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**132.900 PhD Resource and Environmental Planning 120 credits****133****Music****133.152 Music Media 1 15 credits**

This course explores and develops creative and technical knowledge of industry standard content production tools and environments used in the production of music related media. Students explore basic music media analysis and apply theoretical concepts to the production of online music and video content.

**133.153 Music Project 1 30 credits**

In this course students apply creative and practical skills to develop live experiences and works for the music industry. As well as develop technical expertise, students will explore social, cultural and economic trends associated within the production and dissemination of music in New Zealand and internationally. Multidisciplinary teams will apply creative narrative skills to develop, manage, produce and iterate musical content, technical production, and promotion.

**133.154 Contemporary Musicology 15 credits**

In this course students are introduced to a number of established theoretical approaches and perspectives on contemporary musicology. Students are supported and encouraged to embark on an exploratory intellectual journey providing a context and critical framework for their practice and research.

**133.155 Music Web Development and Online Identities 15 credits**

In this course students gain creative and technical skills to develop, distribute and promote their own and the work of others. Web platforms, user centred design concepts, authoring tools, net personas and social identities are used to

develop successful campaigns using online channels with an awareness of the issues and debates surrounding etiquette, copyright, civil rights and privacy.

**133.156 The Recorded Work 15 credits**

In this course students are introduced to a diverse range of traditional and contemporary music consumption models. Students work together in multidisciplinary groups, work across media platforms and utilise the recorded work as primary media demonstrating the protection of rights in relation to the cultural, social or economic nature of the project.

**133.158 The Musical Engagement 'Gig' 15 credits**

In this course students apply skills and practices employed for staging one-off localised music events. Students will explore social, cultural and economic roles and trends associated with early stage promotion of artists and music in New Zealand and Internationally. Multidisciplinary teams develop the musical 'set', manage venue logistics and technical staging.

**133.166 Music Label Development 15 credits**

In this course students explore the structures and practices of promoting and distributing popular music in New Zealand and internationally from DIY, independent and major label perspectives. Students will examine historic music industry models, the value of popular music as culture and commodity and question the opportunities new models of digital innovation are providing to artists and the industry.

**133.167 Music Entrepreneurship 1 15 credits**

In this course students are introduced to the various aspects of the music industry from a New Zealand perspective. Students gain a basic understanding of how to develop and manage music industry projects in a range of settings.

**133.168 Music Artist Development 15 credits**

In this course students will be introduced to the concept of artist development from the perspective of management, record labels and music publishers, including their role in discovering, aligning and project-managing artists. Students will also examine these concepts in relation to content and asset creation, digital music distribution, considering issues of quality and product development practices and strategy in New Zealand and internationally.

**133.175 Music Practice 1 15 credits**

In this course students engage in the development of their musical practice. Through a variety of instrument specific and mixed ensemble groups, students will be supported to achieve technical and artistic skills. Musical materials will be appropriate to a range of popular music practices.

**133.176 Music Production and Composition 1 15 credits**

In this course students are introduced to production and composition techniques used in the creation of popular music. Students apply songwriting and production techniques as they gain practical knowledge of using DAWs (Digital Audio Workstations) and creative methodologies for commercial and experimental outcomes.

**133.177 Music Production 15 credits**

In this course students are introduced to production techniques used in recording and mixing popular music and gain understanding of the properties of sound, studio equipment, signal paths, microphone placement, capturing musical performance, multi-track recording, mixing techniques including processing and effects and mastering. Students also apply creative processes as they gain practical knowledge of using DAWs (Digital Audio Workstations)

**133.178 Introduction to Ableton Live 15 credits**

Students will learn techniques for music production on the Ableton Live digital audio workstation and relevant music technologies. Students will gain basic technical and theoretical skills in music production via Ableton Live, as well as practical understanding of how Ableton Live is used in a range of musical applications and contexts.

**133.179 Vocal Performance and Production 15 credits**

Learn the fundamentals of vocal techniques and production skills relevant to a broad range of styles. Students explore the basic anatomy of the voice, vocal health, and live skills alongside studio techniques and etiquette. The course does not require an audition or existing vocal training, and comprises lectures as well as practical group-based vocal and production workshops.

**133.185 Music and Sound Engineering 1 15 credits**

In this course students gain a theoretical understanding of the key concepts, techniques and principles of sound. Technical and practical knowledge of sound are applied in studio and live environments to recording and mixing.

Practical applications include analogue and digital signal processing, microphone workings and placement, monitoring, and planning and operating live music systems.

### **133.186 Musical Interface and Interaction 1** **15 credits**

In this course students are introduced to design and representation techniques for musical interaction. Students develop an understanding of how performers and consumers interact with a range of music hardware and software, and apply this knowledge to design and develop new musical instruments, controllers, web and mobile music interfaces and experiences.

### **133.187 Live Technologies – Sound and Light** **15 credits**

In this course students gain a creative, technical and practical understanding of sound and lighting technologies and tools used to enhance live musical performance and apply various music technology related skills in the production of live music. Practical application of designing, planning, assessing, rigging and operating live music systems occurs within the constraints of a highly regulated health and safety conscious environment.

### **133.190 Music Special Topic** **15 credits**

This course focuses on a particular aspect or aspects of music. Offerings change from year to year and the course may not be offered in a particular year.

### **133.191 Contemporary Music Project 1A** **15 credits**

Students will be introduced to producing a creative work that develops an understanding of creative, technical and conceptual approaches relevant to music.

### **133.192 Contemporary Music Project 1B** **15 credits**

Students will be introduced to producing a creative work that develops an understanding of creative, technical and conceptual approaches relevant to music.

### **133.253 Music Project 2** **30 credits**

In this course students apply technical skills and new creative approaches for the development of strategic, sophisticated and unique experiences and works in the music industry. In addition to developing new technical skills, students will apply and critique social, cultural and economic roles and trends associated with the dissemination of unique musical experiences through their creative practice. Multidisciplinary teams will explore innovative creative narrative and communication skills to develop, manage, produce, and iterate musical content, technical production and promotion.

### **133.254 Music Video Production** **15 credits**

This course explores creative and technical knowledge and understanding of industry standard digital video production tools and environments for preproduction processes such as storyboarding and animatics, production processes such as camera, lighting and sound and post-production processes of editing for creation of music-based video. Students explore basic music video analysis and apply theoretical concepts to music related video production.

### **133.256 Music Media 2** **15 credits**

This course explores and applies technical and creative knowledge of industry standard content development tools and environments used in the production of music related media. Students explore advanced music media analysis tools and apply theoretical concepts, via a range of new and emerging technologies, to the production of interdisciplinary music, video, and multi-media content.

### **133.257 Philosophical Perspectives on Creative Practice** **15 credits**

In this course students study a range of philosophical perspectives on the nature, purpose and value of creative work, exploring theoretical positions to develop cognitive tools for the analysis of their own practice and research. Students are enabled to develop strategies of collaboration and communication within group environments and to employ reflective and analytical approaches formed through philosophy and critical theory.

### **133.258 Music Touring** **15 credits**

In this course students will gain and apply a wide range of skills and practices employed for music touring. Students will gain an understanding of national and international touring models involving booking multiple venues, support acts, technical and road logistics, wellbeing and communication, planning, management, promotion and merchandising. Students will gain practical experience through the promotion of a short tour.

### **133.260 Music Audience Development** **15 credits**

In this course students will be introduced to the concept of audience development from the perspective of promotion companies, record labels and music management. Students will examine the music industry in relation to its audience by exploring the marketing and promoting of artists, music brands and other music related content. The course will also examine these concepts as applied to traditional media, digital music marketing and analytics, considering issues of quality and amplification strategies in New Zealand and internationally.

### **133.267 Music Entrepreneurship 2** **15 credits**

Students explore how to commercialise products and services in the music industries. Students will be taken through the processes involved in bringing these products and services to market, such as identifying a target audience, promotions, pricing and release strategies.

### **133.268 Music Publishing** **15 credits**

In this course students explore through practice based learning a number of key concepts and debates concerning music publishing. Students gain a basic understanding of music rights, ownership, exploitation and infringement and explore tensions, conflict and challenges currently facing the music industry in New Zealand and internationally by new and emerging models associated with the digital economy.

### **133.275 Music Practice 2** **15 credits**

In this course students engage in intermediate level study of their musical practice. Through a combination of instrument specific and mixed ensemble groups students are supported to gain a professional level of technical and artistic skill. Musical materials will be appropriate to various musical disciplines representing a wide range of popular genres.

### **133.276 Music Production and Composition 2** **15 credits**

In this course students further develop production and composition techniques to support linear and non-linear musical outcomes. Students compose, arrange and record original sound and music works using a range of tools, technologies, systems, architectures and technical frameworks used for various media platforms.

### **133.277 Electronic Music** **15 credits**

In this course students develop a knowledge and understanding of the techniques used in the production and performance of electronic music, including synthesis, and the use of relevant software and analogue and digital hardware. Students are supported in the development of commercial and experimental outcomes via practical, creative and technical approaches.

### **133.281 Musical Interface and Interaction 2** **15 credits**

In this course students gain practical experiences working with physical computing and DSP to develop a range of new music technologies. Students are also supported in practical workshops to interface with a range of input and output devices with microcontrollers, to develop creative ideas and designs into working prototypes. Students combine software development with hardware and electronics and rapid prototyping tools.

### **133.285 Music Software Development 1** **15 credits**

In this course students gain a practical experience of working with object-orientated programming to develop a range of interactive, reactive and generative music applications. Students are also supported in practical workshops to interface with microcontrollers and a range of electronic input and output devices and developing creative ideas and designs into working prototypes music applications.

### **133.286 Music Hardware and Electronics 1** **15 credits**

In this course students gain theoretical and practical experience of working with analogue and digital electronics applied to audio technology. Basic product design principles are applied to creative sound and music related projects using electronic components and circuitry and rapid prototyping tools and technologies.

### **133.287 Applied Lighting and Visuals for Music** **15 credits**

In this course students develop advanced skills in lighting and audio-visual technologies for a broad range of creative musical applications. Students apply a theoretical understanding of the relationship between sound and image via the creative lighting and interactive visual technologies. Students are supported in the development of commercial and experimental audiovisual outcomes.

**133.288 Music and Sound Engineering 2 15 credits**

In this course students extend their theoretical knowledge and understanding of the principals of sound and recording technologies and develop their technical and practical knowledge in studio techniques. Students develop recording skills in digital multi-track recording, complex microphone techniques, as well as skills in pre-production and post-production.

**133.290 Music Special Topic 15 credits**

This course focuses on a particular aspect or aspects of music. Offerings change from year to year and the course may not be offered in a particular year.

**133.291 Contemporary Music Project 2A 15 credits**

Students will produce an applied creative work that develops an understanding of creative, technical and conceptual approaches relevant to music.

**133.292 Contemporary Music Project 2B 15 credits**

Students will produce an applied creative work that develops an understanding of creative, technical and conceptual approaches relevant to music.

**133.350 Major Project Pre-Production 15 credits**

In this course students generate and evaluate innovative concepts for a music major project and carry out detailed investigation into planning and resourcing requirements along with analysis of cultural, social and economic values of the proposed project. Students work individually and as a team in and across major specialisms to agree the scope and roles of the proposed project.

**133.355 Political Economy, Freeconomy and Community 15 credits**

Students develop theoretical approaches to analyse and contextualise their Music Major Project as a cultural form in relation to society, economy, and technology. Through engaging with the political, economic, industrial, and cultural contexts of their music practice and research, students employ strategies of critical reflection and analysis.

**133.356 Graduate Portfolio Development 15 credits**

In this course students prepare for progression to postgraduate study or transition to industry in the development of an online portfolio managing processes advantageous to their graduate progression. Students also develop creative and organisational approaches to devising a range of strategies in developing professional networks and progression opportunities.

**133.360 Music Business Development 15 credits**

In this course students will explore a number of key concepts and debates concerning music copyright, publishing, metadata, business structure, cashflow and finance. Students will gain an applied understanding of music rights, ownership, exploitation and monetisation. The course explores a range of contemporary challenges currently facing the music industry in New Zealand and internationally, and examines new and emerging music industry models.

**133.365 Music Entrepreneurship 3 15 credits**

In this course students engage with the music industries via supervised real-world projects.

**133.366 Future Music 15 credits**

In this course students gain a knowledge and understanding of music future casting and will participate in a series of creative and predictive ideation workshops. Students engage with contrasting theories through key texts and case studies and develop a proposal for the future of music.

**133.367 Music Industry Major Project Pre-production 15 credits**

In this course students generate and evaluate innovative concepts for a music industry major project and carry out detailed investigation into planning and resourcing requirements along with analysis of cultural, social and economic values of the proposed project. Students work individually and as a team in and across major specialisms to agree the scope and roles of the proposed project.

**133.368 Music Industry Major Project 30 credits**

In this course students realise an ambitious major project by means of self-directed study under academic supervision and professional mentorship appropriate to their music industry major specialism. Students are required to work individually and in teams in and across majors displaying high levels of

organisation demonstrating the culmination of creative, technical, critical and professional skills gained throughout the degree.

**133.375 Music Practice 3 15 credits**

In this course students engage in advanced study of their musical practice. Through a combination of instrument specific and mixed ensemble groups, students are supported in achieving an advanced level of technical and artistic skill. Musical materials will be delivered and appropriate to the students musical discipline and chosen genre(s).

**133.376 Music Production and Composition 3 15 credits**

In this course students develop musical understandings beyond conventional popular music forms. Students gain theoretical and critical concepts and techniques key to process and experimentation notating musical ideas through a diverse range of graphic and natural scores. Students extend their musical awareness by actively listening and responding in small improvisation groups supported by seminar discussions.

**133.377 Music Practice Major Project Pre-production 15 credits**

In this course students generate and evaluate innovative concepts for a music practice major project and carry out detailed investigation into planning and resourcing requirements along with analysis of cultural, social and economic values of the proposed project. Students work individually and as a team in and across major specialisms to agree the scope and roles of the proposed project.

**133.378 Music Practice Major Project 30 credits**

In this course students work to produce and realise an ambitious major project by means of self-directed study under academic supervision and professional mentorship appropriate to their music practice major specialism. Students are required to work individually and in teams in and across majors displaying high levels of organisation, demonstrating and applying the culmination of technical, creative, critical and professional skills gained throughout the degree.

**133.381 Musical Interface and Interaction 3 15 credits**

In this course students extend their theoretical and technical knowledge of working with electronics and software programming to develop advanced new music technologies. Students are supported in practical development workshops to transform their creative ideas into prototype products.

**133.385 Music Software Development 2 15 credits**

In this course students extend their theoretical and practical knowledge of working with music software development applying user centred and interface development processes in the production of prototype music applications. Students are supported in gaining a technical knowledge of technologies and platforms for publishing and distributing software applications.

**133.386 Music Hardware and Electronics 2 15 credits**

In this course students extend their theoretical and practical knowledge of working with analogue and digital electronics applied to audio technology. Students are supported in electronic and product development workshops in transforming their creative ideas into prototype products.

**133.387 Music Technology Major Project Pre-production 15 credits**

In this course students generate and evaluate innovative concepts for a music technology major project and carry out detailed investigation into planning and resourcing requirements along with analysis of cultural, social and economic values of the proposed project. Students work individually and as a team in and across major specialisms to agree the scope and roles of the proposed project.

**133.388 Music Technology Major Project 30 credits**

In this course students realise an ambitious major project by means of self-directed study under academic supervision and professional mentorship appropriate to their music technology major specialism. Students are required to work individually and in teams in and across majors displaying high levels of organisation demonstrating the culmination of creative, technical, critical and professional skills gained throughout the degree.

**133.389 Advanced Sound and Music Technologies 15 credits**

In this course students develop skills in advanced sound and music technologies that relate to both studio and live performance settings. Students explore the creative potentials of advanced industry standard hardware and software by applying practical and theoretical skills in a range of relevant musical contexts. Both commercial and experimental applications are explored via inter-disciplinary group projects.

**133.390 Music Special Topic 15 credits**

This course focuses on a particular aspect or aspects of music. Offerings change from year to year and the course may not be offered in a particular year.

**133.391 Contemporary Music Project 3A 15 credits**

Students will produce an advanced creative work that develops an understanding of creative, technical and conceptual approaches relevant to music.

**133.701 Prototyping and Development for Advanced Music Projects 30 credits**

Students undertake research toward developing a project relevant to their creative practice. Students learn techniques to produce an early prototype, synopsis, or equivalent concept. This culminates in the preparation of a proposal for their major projects.

**133.702 Critical Frameworks for Music 15 credits**

Students become competent in situating their work within research methodologies and principles to support their development as critically-informed creative practitioners. Students learn to frame and present their creative practice as research via the development of critical reflexive and analytical skills, and engage in the development of a research proposal for their project.

**133.703 Contemporary Music Project 15 credits**

Engagement with new thinking in contemporary music research through a specific lecturer-led project.

**133.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**133.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**133.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**133.803 Advanced Music Research Project 60 credits**

In this course students will undertake research to develop a creative work in music. Students will be guided through a series of seminars and supervised sessions to develop, document and disseminate their research.

**133.881 Thesis 120 credits**

Development of a research project which includes preparation for, and delivery of a performance. The research and performance components are to be mutually supportive in content.

**133.882 Thesis 120 Credit Part 1 60 credits**

Development of a research project which includes preparation for, and delivery of a performance. The research and performance components are to be mutually supportive in content.

**133.883 Thesis 120 Credit Part 2 60 credits**

Development of a research project which includes preparation for, and delivery of a performance. The research and performance components are to be mutually supportive in content.

**133.900 PhD Music 120 credits****134****Philosophy****134.101 Knowledge and Reality 15 credits**

An introduction to questions about existence, perception and the mind.

**134.102 Great Thinkers 15 credits**

This course examines the ideas of some of the 'greats' in Western philosophy, including Socrates, Plato, Descartes, Mill and many others.

**134.104 Practical Ethics 15 credits**

An examination of ethical issues that arise in everyday life.

**134.105 Philosophy of Religion: God, Freedom and Evil 15 credits**

An introduction to selected topics from philosophy of religion.

**134.106 Justice and Equality 15 credits**

An introduction to central issues in political and social philosophy with a focus on theories of justice and equality.

**134.201 Philosophy of Mind, Consciousness and Cognition 15 credits**

An investigation of many philosophical questions concerning minds, consciousness and language.

**134.203 Ethics 15 credits**

This course examines the theories that underpin our ethical thinking, developing an understanding of the nature of ethical thinking in general, and the advantages and disadvantages of major ethical theories.

**134.204 Philosophy of Art and Music 15 credits**

An examination of topics in metaphysics, epistemology, logic, and ethics which arise in aesthetics and the philosophy of art.

**134.205 Logic 15 credits**

An introduction to modern formal logic using propositional logic and first-order predicate logic. Formal logic provides an important link between the humanities and maths and sciences, particularly computer and information sciences.

**134.207 Rights and Reconciliation 15 credits**

A study of themes from international political and social philosophy with a focus on the moral status of state boundaries and the moral status of war.

**134.213 Resistance, Rebellion and Revolution 15 credits**

A philosophical examination of when disagreement with, and opposition to, governmental authority is justified. Using the tools of political philosophy and assessing real-world cases, we discuss the nature, demands, and limits of various types of insubordinate political activity, including (but not limited to) conscientious objection, civil disobedience, secession, and revolution.

**134.214 Knowledge as a Social Phenomenon 15 credits**

A philosophical examination of the way our social environment influences how we can come to know about the world.

**134.216 Modern Philosophy 15 credits**

This course will investigate metaphysical and epistemological views of the 17th - 18th centuries, focussing on Descartes, Leibniz, Locke, Berkeley and Hume. It will pay particular attention to early modern notions of causation.

**134.218 Environmental Philosophy 15 credits**

This course uses philosophy to explore contemporary environmental issues, such as whether our concern for environmental well-being can be adequately grounded in a concern for human well-being, and responses to global conversations around sustainability and 'the rights of nature'.

**134.220 Business and Professional Ethics 15 credits**

An examination of the practice of ethical reasoning with special concern for issues that arise in business and professions.

**134.221 Great Asian Thinkers 15 credits**

A detailed investigation and analysis of the major philosophical systems which have developed within East Asia since the first millennium Before Common Era.

**134.305 Advanced Ethics 15 credits**

The course will investigate issues to do with moral psychology, practical reason, moral language, and moral ontology.

**134.308 Philosophy of Science 15 credits**

An investigation of fact and theory, explanation and discovery, and of modern attempts to improve on naïve empiricist accounts of science.

**134.309 Ancient Philosophy 15 credits**

An examination of ancient philosophies, particularly those of Socrates, Plato and Aristotle.

**134.311 Global Justice 15 credits**

Exploring contemporary philosophical issues of justice as they arise within and between communities globally, including indigenous philosophies and communities.

**134.317 Philosophical Investigations 15 credits**

A consideration of some of the most influential philosophers from Kant to the present.

**134.703 Ethics of War and Peace 30 credits**

Topics to be discussed include: the nature of moral reasoning, the ethics of killing in self-defence, just war theory, the ethics of nuclear deterrence, holy wars, war crimes and collective responsibility, non-violent resistance, and the ethics of pacifism.

**134.710 Philosophical Research 30 credits**

A study of key issues in the practice of philosophical research and development of a philosophical research project.

**134.740 Advanced Study of Philosophical Topics 30 credits**

An in-depth study of selected philosophical topics at an advanced level from epistemology, metaphysics, theories of mind, or value theory.

**134.750 Advanced Study of Philosophical Texts 30 credits**

A detailed examination of selected philosophical texts at an advanced level.

**134.760 Advanced Philosophical Inquiry 30 credits**

This course will provide an opportunity for graduate students to engage in an advanced course of study in an area of current philosophical research.

**134.798 Research Report (30) 30 credits**

A supervised and guided independent study.

**134.799 Research Report (60) 60 credits**

A supervised and guided independent study.

**134.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**134.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**134.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**134.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**134.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**134.873 Research Report Philosophy (60) 60 credits**

A supervised and guided independent study.

**134.881 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**134.882 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**134.883 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**134.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**134.900 PhD Philosophy 120 credits****137****Banking Management****137.703 International Banking and Financial Markets 30 credits**

A review of selected topics in International and Corporate Banking and Financial Markets with an emphasis on comparative banking systems, globalisation, the international expansion of banks and international banking regulation.

**137.704 Risk Management for Financial Institutions 30 credits**

The identification, evaluation and control of pure risk from the viewpoint of financial institutions. Topics covered include the nature of risk management in banks; risk assessment procedures; coping with disaster; market and transfer risks, including foreign exchange and cash management; the identification of manipulation, cornering and fraud; cheque kiting and other cheque swindles; embezzlement; credit card frauds; computer systems and their risks; human resource management issues in the identification and control of risk.

**137.710 The Theory and Management of Banking 30 credits**

An examination of the theory and management of banking with reference to their contribution to the financial system and the ensuing regulation of modern banks.

**137.711 Strategic Banking Issues 30 credits**

This course addresses current strategic issues in banking, their impact on banks' individual performance and their contribution to overall financial stability.

**137.894 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**137.895 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**137.896 Research Report 60 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

**137.897 Professional Practice 60 credits**

Candidates will undertake professional practice within the subject area in which the Master of Management is being completed. Professional Practice may be conducted either individually or in groups and assessment of the outcome of the investigation may be in a variety of ways including written and oral presentations and case studies.

**137.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**137.900 PhD Banking 120 credits****138****Agricultural Engineering****138.106 Agricultural Engineering 15 credits**

A study of basic engineering principles as they apply to design and operation of agricultural buildings and structures, farm water, refrigeration and heating, fencing and subdivision, waste management; the utilisation of modern technologies in agriculture; and the Resource Management Act and how that affects agricultural businesses.

**138.255 Applied Engineering in Agriculture and Horticulture Systems 15 credits**

Engineering principles underpinning the systems used in the growing, harvest and post-harvest treatment of agricultural and horticultural products. Emphasis is placed on deriving the system performance specification following consideration of capacity, product quality and safety, and ecological requirements.

**138.301 Precision Agriculture Technologies 15 credits**

Knowledge of remote and proximal sensing, and precision livestock techniques to provide information to mitigate environmental impacts under intensive farm production systems. Consideration of issues of resource use, optimization of farm production and environmental performance of primary industries.

**138.900 PhD Agricultural/Horticultural Engineering 120 credits**

## English

- 139.104 Drama in Performance** **15 credits**  
An exploration of three plays in performance. Students will study theories and conventions of performance and will participate in theatrical presentations. No previous experience of theatre is required.
- 139.109 Prize-Winning Fiction** **15 credits**  
A study of short stories, novellas and novels from the last 50 years emphasising the varieties of award-winning fiction.
- 139.111 Podcasting: Producing Audio Stories** **15 credits**  
An introduction to the genre of audio storytelling with podcasts. Students will analyse the storytelling techniques employed in the narrative nonfiction podcast genre and use these techniques in the production of their own podcast episode.
- 139.123 Creative Writing I** **15 credits**  
An exploration of the processes involved in writing poetry and short stories. Students learn the fundamental elements of craft, such as metaphor, structure and plot, through the close reading of published poetry and fiction, through their own practice as creative writers, and through providing and receiving workshop feedback.
- 139.133 Creative Communication** **15 credits**  
An introduction to the dynamics involved in creative communication. Students explore creative communication through work in, and analysis of, three creative forms: creative writing, theatre and digital media production.
- 139.139 Introduction to English Literature** **15 credits**  
An introduction to the nature and functions of literary texts and the ways in which they are invested with meaning, with a focus on the skills necessary for reading and writing critically about them.
- 139.142 Imaginary Worlds: Science Fiction and Fantasy** **15 credits**  
An examination of selected science fiction and fantasy texts, emphasising their relationship to changing cultural contexts and the ways different storytelling media mould narratives.
- 139.202 Romantic Writing: Self and Nature** **15 credits**  
A study of the relationship between self and nature as explored in texts by British writers of the period 1780-1830.
- 139.209 Speaking: Theory and Practice** **15 credits**  
A study of the theoretical and practical aspects of public speaking. Attention will be paid to building a rapport with an audience, to the preparation of material for spoken delivery and to the technical elements of voice production.
- 139.211 Shakespeare** **15 credits**  
A study of selected dramatic works by William Shakespeare, taking a thematic overview across a variety of dramatic genres and considering the plays in their original contexts as well as significant contemporary interpretations.
- 139.220 Theatre for Change** **15 credits**  
An applied introduction to the varied ways in which theatre is used for social and personal change.
- 139.223 Creative Processes** **15 credits**  
An investigation of human creativity that involves the study of creative practice and the making of original works of performance, film and writing.
- 139.224 Making Plays for Theatre** **15 credits**  
Students will receive a grounding in the skills of writing and devising experimental theatre and an opportunity to employ these skills in the creation of original scripts.
- 139.225 Writing for Children** **15 credits**  
An intermediate-level introduction to the craft of writing targeted at 'middle readers' – roughly 9-13 years – across a variety of forms.
- 139.229 Writing Poetry** **15 credits**  
A creative writing course in which students develop and advance poetry skills within the major modes of lyric poetry and within the context of a more advanced engagement with fundamental elements of craft. In addition to reading poetry and critical essays on the genre, students will write original poetry and critically review their own work and the work of peers.
- 139.231 Health Writing: Theory and Practice** **15 credits**  
An introduction to the theory and practice of writing on health and illness. It includes intensive practice in composing for diverse health genres and publications and in analysing the ways consumers obtain and process information about health developments and controversies.
- 139.232 Crime Story: Detection as a Narrative Genre** **15 credits**  
A study of the fundamental elements of crime stories and the social significance of crime as a narrative genre in relation to questions of social order, law and justice.
- 139.239 Literary Landmarks: Words that Changed the World** **15 credits**  
An introduction to reading, thinking, and writing about literature from the past four centuries, with a focus on the way that literary texts reflect and engage with the historical, social, political and cultural contexts in which they were written.
- 139.244 Writing for the Public** **15 credits**  
A course in writing non-fiction genres for the public, informed by a broad historical understanding of the emergence of the public sphere and its current reshaping in the digital age. Students apply rhetorical theory and theories of argument in their own writing and in analysing works by selected public intellectuals.
- 139.246 Text Image Design: Digital Technical Writing** **15 credits**  
The processes and practices of writing about specialised subjects for professional audiences, with a focus on the principles of usability and information design in relation to digital technical writing.
- 139.253 American Literature** **15 credits**  
An introduction to American literature, focusing on key novels, short stories and poems from the Romantic period through to the postmodern, and their relation to their historical and cultural contexts.
- 139.255 Critical Periods in Aotearoa New Zealand Literature** **15 credits**  
An introduction to New Zealand's literary history, focusing on important novels, short stories and poems in relation to their social and political contexts.
- 139.270 Young Adult Fiction** **15 credits**  
A study of young adult fiction and its reception. Focussing on classic and contemporary examples, the course explores the definition of the genre and its characteristic concerns, with a focus on case studies of popular and controversial texts.
- 139.280 Creative Writing II: Creative Nonfiction** **15 credits**  
An intermediate-level introduction to the craft of nonfiction writing in a variety of genres, with a particular focus on the application of techniques usually associated with fiction and poetry to nonfiction material.
- 139.285 Fiction Writing** **15 credits**  
An intermediate-level study of the craft of fiction, investigating a range of forms by means of creative production, workshoping and peer review.
- 139.303 Modern Drama** **15 credits**  
A study of innovative modern plays, by means of investigative workshops, theatrical performances, lecture/demonstrations and seminar presentations.
- 139.305 Twentieth Century Literature** **15 credits**  
A study of a variety of twentieth-century fiction and poetry. Emphasis will be given to aspects of literary modernism and postmodernism in order to contextualise the literary works.
- 139.306 Writing Shakespeare's England** **15 credits**  
An advanced exploration of the Early Modern poetry and drama of Shakespeare's contemporaries, focusing on key themes, prominent genres, and the differing contexts of the royal court and the new world of the empowered citizen.

**139.307 Territory, Modernity, and Victorian Literature 15 credits**

An advanced introduction to Victorian literature, highlighting the engagement by nineteenth century writers with questions of liberalism, democratisation, and the expansion of the British empire.

**139.309 Eco-fictions and Non-fictions 15 credits**

A study of the relationships between creative writing and ecological concerns, covering a range of contemporary forms from eco-fictions, nonfictions, or poetry, to nature writing, to animal stories. It engages students in the workshoped production of original creative work.

**139.320 Theatre in Production 15 credits**

This course studies theatre as an expressive art, with a focus on processes of adaptation, particularly the creation of new texts from old. It combines critical and practical research, including the presentation of a developed stage work, to examine how design, music and acting generate meaning in the performance of a text.

**139.323 Script Writing 15 credits**

An in-depth study of the skills, formats, technique and terminology of professional script writing, with emphasis on the adaptation of traditional approaches across the diversity of contemporary media.

**139.325 The Gothic Imagination 15 credits**

A study of the term 'Gothic' in literature and film, relating the enduring Gothic themes of fantasy, the unconscious and death to contemporary literary and social debates.

**139.326 Travel Writing 15 credits**

A study of travel writing, involving both critical and ideological analysis and creative writing developed from the students' own field work.

**139.329 Advanced Fiction Writing 15 credits**

An exploration of the poetics and politics of experimentation and subversion in contemporary fiction and metafiction including analysis of the work (both creative and critical) of major practitioners, theorists and original student compositions.

**139.333 Creativity in the Community 15 credits**

The course provides an applied service learning project in the disciplines of expressive arts and media studies. Working collaboratively, students apply skills in theatre, performance, film-making, creative writing, media practice or mixed media to developing a creative response to a social issue or community need.

**139.340 The Publishing Project 15 credits**

In this course, students study and experience the principles, processes and practice of publishing, through the co-production of an online publication. Key concepts include teamwork, co-production, theme selection, peer review, production scheduling, source selection, and online publishing.

**139.348 Literacy Studies 15 credits**

A course that explores theories of literacy and practices of textual production, in a variety of contexts: educational, technological, disciplinary, and civic. Students encounter key theoretical concerns in the academic field of writing studies and writing research, and use experimental, reflective, and theoretical writing to investigate their own and others' advanced literacies.

**139.352 Postcolonial Literature 15 credits**

A study of late-nineteenth and twentieth century novels in English, from diverse cultures, paying special attention to the ways in which these address the consequences of European colonisation. Recent postcolonial theory will provide a frame for textual analysis.

**139.362 Oceanic Literatures of Aotearoa: Ngā Tuhinga Kōrero o te Moana nui a Kiwa 15 credits**

A study of contemporary Oceanic (Māori and Pasifika) literature in English contextualised in relation to customary and pre-colonial Oceanic literatures, narratives, and storytelling methods.

**139.376 Sexual/Textual Politics 15 credits**

A study of patriarchal society and gender identity in selected literary texts.

**139.380 Creative Writing III: Starting Your Manuscript 15 credits**

An advanced study of the process of writing that consolidates knowledge of creative writing craft, expands understanding of genre, and analyses aesthetic and/or cultural aspects of published manuscripts across genres. The

first portion of an envisioned full-length creative manuscript will be drafted with an emphasis on the critical evaluation of its aesthetic and/or cultural implications.

**139.703 Critical and Creative Research 30 credits**

An introduction to practices of research with creative texts. Students will learn practical techniques for planning and producing research in critical and/or creative modes. Fostering a critical voice and debating the cultural and social value of aesthetic communication will be integral to the course.

**139.710 Rhetoric, Composition and the Teaching of Writing 30 credits**

An advanced introduction to rhetoric and composition as a framework for writing research and writing instruction.

**139.724 Literary Revolutions: Romantic and Victorian Literature 30 credits**

A study of literary culture in Britain and the Pacific during the Romantic and Victorian periods. This course explores relationships between poetry, novels, travel writing and political treatises in the period, focusing on the distinctive nature of literary engagements with contemporary social and political upheavals.

**139.728 Early Modern Drama: Form and Performance 30 credits**

An advanced study of the drama of Early Modern England and the significant social, artistic, political and religious forces that shaped it. The course will examine plays by Shakespeare and his contemporaries, investigating their material and cultural contexts using critical approaches that highlight questions of dramatic production and reception.

**139.749 Writing Science 30 credits**

An in-depth exploration of the practical skills needed to write for disciplinary academic and/or public audiences. Particular emphasis will be placed on the rhetorical context of science, audience analysis, literacy expertise, reading science, and narrative use of data and analogies when writing in a public or professional context. Students may focus their assignments on writing for disciplinary and/or public audiences.

**139.750 Contemporary New Zealand Writers in an International Context 30 credits**

An advanced exploration of contemporary New Zealand fiction and poetry and its relationship to international aesthetic practices, in the context of globalisation and postcoloniality.

**139.758 Postcolonial Theory and Writing 30 credits**

An advanced introduction to theories of postcolonial ethics and identity, and their relationship to selected works of literature from a range of postcolonial contexts.

**139.763 Community Theatre 30 credits**

What role does theatre have in the community? Is there a valid place for community theatre in a secular society? If so, what stories need to be told through theatre? How might we tell them? The exploration of these questions will involve, initially, the examination of a range of historical and contemporary models of community theatre. Students will then engage in exploratory workshops, in community research, writing, rehearsals and theatrical performance.

**139.764 Theatre for Innovation and Communication 30 credits**

An advanced, practical exploration of theatrical improvisation techniques in relation to enhancing creativity, innovation, leadership, teamwork, and communication performance, with an emphasis on the application of theatrical techniques to communication and innovation challenges.

**139.765 New Directions in Creative Writing 30 credits**

An advanced study and practice of creative writing in its myriad contemporary forms.

**139.799 Research Report (30) 30 credits**

A supervised and guided independent study.

**139.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**139.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work

<b>139.802 MPhil Thesis 120 Credit Part 2</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>139.816 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>139.817 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>139.850 Thesis</b>	<b>120 credits</b>
The supervised undertaking of an original piece of research into expressive arts.	
<b>139.851 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
The supervised undertaking of an original piece of research into expressive arts.	
<b>139.852 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
The supervised undertaking of an original piece of research into expressive arts.	
<b>139.855 Master of Communication Research Project</b>	<b>60 credits</b>
An applied research project involving the critical evaluation and application of selected research methodologies to address communication-related challenges.	
<b>139.860 Thesis</b>	<b>120 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>139.861 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>139.862 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>139.873 Research Report English (60)</b>	<b>60 credits</b>
A supervised and guided independent study.	
<b>139.881 Thesis 90 Credit Part 1</b>	<b>45 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>139.882 Thesis 90 Credit Part 2</b>	<b>45 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>139.883 Thesis</b>	<b>90 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>139.899 Thesis</b>	<b>120 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>139.900 PhD English</b>	<b>120 credits</b>
<b>139.901 PhD Creative Writing</b>	<b>120 credits</b>

## 141

### Food Technology

<b>141.111 Food Technology 1: Global Perspectives</b>	<b>15 credits</b>
Food Technology is the application of science and technology and mathematical principles, integrated with business and management, to develop and provide products and processes for industry and the community. In this course you will help solve problems faced by many people in need. Concepts of systematic problem solving, communication and self assessment form an integral part of this project focused course.	
<b>141.112 Food Technology 2 : Creative Solutions</b>	<b>15 credits</b>
Food Technology is the application of science and technology and mathematical principles, integrated with business and management, to develop and provide products and processes for industry and the community. This course allows you to develop your creative skills and encourages a thirst for knowledge. The development of prototyping, teamwork and communication through design form an integral part of this project focused course.	

<b>141.127 Dairy Processing</b>	<b>15 credits</b>
<b>141.140 Dairy Chemistry</b>	<b>15 credits</b>
An introduction to milk composition, the underlying chemistry of milk constituents and their properties in dairy ingredients and products. The effects of processing on the chemical properties of milk components, including deleterious reactions impacting milk quality will also be considered.	
<b>141.141 Dairy Engineering</b>	<b>15 credits</b>
An introduction to the key engineering fundamentals relating to the manufacture of dairy ingredients and food products, providing an exploration of thermal, mechanical and energetic principles involved in the handling of milk streams, and the application of these as part of process design and plant operation.	
<b>141.144 Dairy Processing</b>	<b>15 credits</b>
An introduction to the processing principles underpinning the handling and treatment of milk, and with particular consideration of the design and specifications of the main processing systems and their integration as part of dairy ingredient and food manufacture.	
<b>141.211 Food Technology 3: Product Development</b>	<b>15 credits</b>
The development of new and improved products is a key role of most practising food technologists. This course provides the structured process and tools required for successful product development in the context of an applied project.	
<b>141.212 Food Technology 4: Manufacturing</b>	<b>15 credits</b>
The design, development and on-going operation of manufacturing processes is central to the daily activities of most food technologists. This course explores the key variables that impact the design, development and operation of food manufacturing processes within the context of an applied project.	
<b>141.242 Dairy Microbiology and Food Safety</b>	<b>15 credits</b>
An introduction to the role of microbiology in the handling of milk streams and the manufacture of dairy materials. The course will provide an exploration of the classification and identification of bacteria, their reproduction and growth; pathogens and food poisoning micro-organisms; bacteriology of milk and milk products; thermal processes for controlling micro-organisms and the application cleaning-in-place technology.	
<b>141.243 Dairy Ingredient Technology</b>	<b>15 credits</b>
This course continues the study of the key processing operations and handling of milk streams in the specific production of dairy ingredients systems, i.e. milk and protein powders and anhydrous milk fat. Emphasis will be given to the design and manufacture of functional ingredient systems, as well as the optimisation of processing operations for ensuring requisite quality and safety of dairy ingredients.	
<b>141.245 Dairy Product Technology</b>	<b>15 credits</b>
An immersive study of the manufacture of dairy food products, including butter, UHT creams, yogurt, cream cheese and ice cream. Emphasis will be given to the role of formulation-process interactions in defining product properties, notably the functional role of dairy ingredients in related foods. Practical considerations for the characterisation of dairy foods in determining quality, safety and shelf life will also be explored.	
<b>141.246 Cheese and Whey Technology and Manufacturing</b>	<b>15 credits</b>
An introduction to the industrial manufacture of cheese, including the transformations of raw materials through processing, microbiological and biochemical transformations and their impact on product quality and properties. The role of technologies associated with the manufacture of whey and other cheese byproducts will also be explored.	
<b>141.247 Dairy Manufacturing Principles</b>	<b>15 credits</b>
A project-based course: students will apply their accrued knowledge of dairy technology to undertake an industry relevant technical project. Students will be required to define project objectives, evaluate relevant supporting literature, implement and execute an experimental plan and analyse findings in provision of appropriate recommendations and conclusions.	
<b>141.311 Food Technology 5: Food Microbiology and Safety</b>	<b>15 credits</b>
A project-based course aimed at providing the skills and knowledge to select appropriate food processing, storage and testing methods necessary to understand the growth and control of microorganisms to ensure food safety and quality. Specific components of food analysis and risk assessment will	

be applied to develop analytical and problem solving skills in an industry relevant scenario.

#### **141.312 Food Technology 6: Food Characterisation 15 credits**

A project-based course developing the selection and utilisation of food characterisation methodologies in assessment of food/ingredient function, quality and stability. The course will focus on instrumental and sensory methods of assessing structure, appearance, flavour and texture of a variety of food products. Assessment and characterisation tools will be used to develop analytical and problem solving skills in industry relevant scenarios.

#### **141.358 Nutrition and Food Choice 15 credits**

Nutrient recommendations, nutrition and disease, New Zealand diet, functional foods, food choice, ethical and legal aspects of the food industry response in relation to nutrition claims and concerns.

#### **141.362 Food Formulation Technology 15 credits**

A study of the physico-chemical properties of food ingredients and their interactions in food systems. Selection of suitable ingredients in food formulations, in particular, stabilisers, thickeners, gelling agents and emulsifiers. Understanding of the destabilisation mechanisms of complex food systems in relation to the ingredients used. A practical course.

#### **141.395 Food Chemistry 15 credits**

A practical approach to the physical, chemical, biochemical and functional properties of major and minor food constituents (water, proteins, carbohydrates, lipids, vitamins, minerals, pigments, flavours, toxins) and food groups (dairy, meat, eggs and plants). Chemical and biochemical reactions causing deterioration in foods and some methods of control. A laboratory course.

#### **141.458 Nutrition and Food Choice 15 credits**

Nutrient requirements, nutrition and disease, functional properties of foods, New Zealand diet, influences on food choice including relevant models, role of nutrition within the New Zealand food industry.

#### **141.708 Food Packaging, Preservation and Storage 15 credits**

Application of a multi-disciplinary approach drawing from microbiology, chemistry, reaction kinetics, process engineering and packaging technology to the development, evaluation and optimisation of preservation processes, packaging technologies, and storage and supply chain systems for fresh and manufactured food products.

#### **141.709 Emerging Technologies for the Food Industry 15 credits**

In depth case-studies of the principles and modelling of novel food processes, including an appraisal of the advantages and disadvantages compared with established processes. New developments in the preservation of foods, the structuring of foods, the separation of food materials and packaging, storage and handling of foods can be studied.

#### **141.710 Food Packaging Engineering and Legislation 15 credits**

The properties of packaging materials and requirements of labelling/legislation and the implications of choice on product shelf life, integration with processing, transport, traceability and information systems, and impact on consumer interaction with the product, sustainability and product cost are explored as part of this course.

#### **141.712 Strategic Food Product Development 15 credits**

This course provides a strategic overview of the food product development process from the initial new product strategy and its influence on identification of product opportunities through to the actual launch of the finished food product and its influence on the launch strategies and tactics adopted by a company.

#### **141.713 Food Process Engineering Research 15 credits**

This course provides an overview of food process engineering. The course covers methodologies for designing experimental apparatus and selection of analytical methods for undertaking food processing research. Developing an understanding of the interaction of process equipment and the resulting physico-chemical properties of food.

#### **141.715 Food Ingredient Functionality 15 credits**

A course based on the physico-chemical properties of food ingredients impacting on the: (i) stability and sensory properties (technofunctionality) and (ii) health properties (biofunctionality) of foods. A good understanding of the food destabilization mechanisms, and how to control key food reactions,

will be gained. Special emphasis will be given to dairy products (dispersions, emulsions, foams and gel systems).

#### **141.716 Research Report (Food) 30 credits**

Research in a defined area of Food Science, Technology or Engineering.

#### **141.723 Industrial Systems Improvement 15 credits**

This course covers: innovation and operations management within food industry production and supply chain systems; design, planning, control and continuous improvement of processes in industrial systems; methods and measures for quality control and daily decision-making in food and related businesses; and leadership and management of teams in the workplace.

#### **141.724 Food Quality Safety and Innovation 15 credits**

This course will cover risk assessment and management techniques that can be applied to any sector of the food industry, important in the development of a new food product to ensure the development of safe foods of high quality and appropriate cost. The legal and commercial justification for ingredients, preservation, processing, packaging and distribution technologies will be taught.

#### **141.725 Food Business Innovation 15 credits**

This course will comprise a series of case studies and business simulations of entire food value chains emphasising ingredient and FMCG information flows, the nature and mechanisms of FMCG retail channels and command of shelf space. Strategies will be designed for coping with sector dynamics and changing regulatory constraints for innovation dominated by technical or by business process change.

#### **141.744 Dairy Science, Technology and Engineering 15 credits**

Specialised aspects of dairy chemistry, microbiology, process technology, engineering. Project and plant management. Product evaluation, product and process development. Dairy industry structure, strategy, organisation and function. Legislation and safety. A practical course.

#### **141.746 Dairy Products Technology 30 credits**

Case studies in which the technology and control of the manufacture of appropriate dairy ingredients and products such as cheese, butter, milk powder, casein and whey protein are examined. A practical course.

#### **141.749 Food Engineering Research Project 30 credits**

Students apply their problem-solving skills and accumulated knowledge to a specific Food Engineering research problem. This is an individual, scholarly research project conducted under academic supervision. Projects are either sourced from industry or are related to ongoing research and development activities at the university.

#### **141.751 Dairy Products Technical Projects 30 credits**

Acquirement and utilisation of specialised technical knowledge, research skills and competencies through the undertaking of projects pertaining to the investigation and critical analysis of dairy industry structure and its products and processes. A practical course.

#### **141.755 Added-Value Processing of Food Products 15 credits**

A study of the latest manufacturing techniques applied to the food industry and their role in satisfying current and future needs for food manufacturers and consumers. A course designed to integrate food science, process engineering, microbiology and food safety into today's food manufacturing environment with processing practices in order to offer novel methods to formulate foods and assure safety and quality.

#### **141.759 Food Technology Project 30 credits**

An original investigation of a food industry problem or opportunity. The student works under academic supervision within an industrial research brief and learns from practice, systematic skills in problem analysis, research and communication. Consideration of ethical, legal and social environments. This major project integrates knowledge the student has already acquired.

#### **141.772 Innovative Food Design and Development 30 credits**

Students will commercialise an innovative food product from idea generation through to the business case for full-scale manufacture. The emphasis is on following a formal, systematic process that utilizes both qualitative and quantitative analysis techniques, within a realistic commercial context. Critical evaluation of the product development outcome and process from commercial, technical, and professional perspectives is an important component.

**141.791 Advanced Food Technology 15 credits**

An integrative study of food systems. Individual and group problem-based learning is used to understand political, economic, societal and technological forces shaping the global food industry. Additional aspects of the course focus on interactive project-based activities aimed at honing market awareness, product development and food production skills and competencies. Proficiency in the selection and application of appropriate tools and methodologies for quality assurance and evaluation will also be developed.

**141.794 Special Topic 15 credits****141.797 Food Engineering Design 30 credits**

Students will design an innovative factory-scale food manufacturing process based on a product specification. The emphasis is on following a formal, systematic methodology that makes appropriate use of both mathematical modelling and empirical data, within a realistic commercial context. Critical evaluation of the design outcome and process from commercial, technical, and professional perspectives is an important component.

**141.803 Research Report: Food 60 credits**

Research in a defined area of Food Science, Technology or Engineering.

**141.805 Thesis 120 credits**

Research in a defined area of Food Science, Technology or Engineering.

**141.806 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**141.807 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**141.848 Dairy Science and Technology Research Project 45 credits**

An original research project that encourages integration of knowledge and practice of skills gained in the other courses. A rigorous scientific investigation applied to delivering technical solutions to industry defined objectives.

**141.900 PhD Food Technology 120 credits****142****Process and Environmental Technology****142.018 Practicum I 0 credits**

A written report on a period of practical work demonstrating an understanding of industry structure and also the legislative elements that affect the meat industry.

**142.019 Practicum II 0 credits**

A written report on a period of practical work experience demonstrating an understanding of process technology in the meat industry and its application.

**144****Public Policy****144.900 PhD Public Policy 120 credits****145****Geography****145.111 Society, Environment and Place 15 credits**

An introduction to the diversity of human geography focusing on themes such as state and economy; geography of consumption; identity and exclusion; agrifood; migration; geographies of the lifecourse.

**145.121 Introduction to Physical Geography 15 credits**

An introduction to the dynamics and interactions of Earth systems and Earth surface processes and landforms at a range of spatial and temporal scales.

**145.202 Working With Geographic Data 15 credits**

An exploration of techniques for the collection, interpretation, analysis and representation of social and environmental geographic data using geographic information systems (GIS).

**145.203 Geographies of Inequality 15 credits**

This course will consider how economic and social inequality is reproduced across space.

**145.213 Resource Conservation and Sustainability 15 credits**

Various distinctly geographical approaches to resource conservation are discussed. Topics include: environmental change, human impact, renewable and non-renewable resource conservation, and the role of the state.

**145.214 Social Change and Environment 15 credits**

Exploration of the theme of social change and environment with reference to world systems and imperialism studied from a historical geography perspective and focusing on New Zealand.

**145.216 Urban Environments 15 credits**

An examination of aspects of the social, economic and political geographies of urban life, drawing upon various approaches in Human Geography.

**145.218 Development and Inequality 15 credits**

An investigation into how inequality impedes development in our world. Case studies from the Pacific, Asia and Africa consider the struggles of people disadvantaged by their ethnicity, gender or class.

**145.222 Rivers and Slopes 15 credits**

This course identifies processes operating within drainage basins and the effects of human impact on this environment. Using theoretical concepts and fieldwork, the course offers a framework for understanding slope and river landforms and sediments.

**145.223 Climate Change and Natural Hazards 15 credits**

Analysis of climate change and natural hazards including in-depth exploration of their causes, inter-relationships, impacts, and management.

**145.224 Biogeography 15 credits**

An introduction to and explanation of the geographical distribution of living organisms in terms of current and former processes. Topics include biogeographical analysis, species diversity, introduction to palynology and environmental reconstruction, biogeography of New Zealand, Australia and the Pacific, conservation biogeography, and biogeography and climate change.

**145.230 Coastal Environments 15 credits**

An examination of coastal processes and landforms, coastal hazards, the management of contemporary coastal environments, and the evolution of coastal environments in response to climatic changes.

**145.300 Cartography and Data Visualisation 15 credits**

A course in geographic information systems (GIS) focusing on the use of digital geospatial information for cartographic presentation and data visualisation.

**145.301 Research Practice in Human Geography 15 credits**

An introduction to theoretical approaches in human geography, research design and qualitative methodology and techniques. There is a compulsory fieldwork component.

**145.303 Field Work: Alpine Physical Geography 15 credits**

Project-based fieldwork studying process-form relationships operating at a range of scales in an Alpine environment.

**145.304 Applied Field Geomorphology 15 credits**

Field-based course discussing recent and ongoing geomorphic research and its application in landscape management using selected sites in the North Island.

**145.311 Geographies of Globalisation 15 credits**

The course explores processes of globalisation emphasising spaces and agents of global change, and global-local connections across a variety of topics.

**145.318 Geopolitics 15 credits**

An advanced study of geopolitics, emphasising geographical processes across a variety of topics.

**145.320 Quaternary Biogeography and Environmental Change** **15 credits**

This course examines how we strive to understand the future of our environment, on a local to global scale, by investigating environmental evolution and change in the past, making extensive use of lab work.

**145.327 Catchment Dynamics** **15 credits**

Analysis of process-form relationships operating at a range of spatial and temporal scales within catchments. Incorporates fieldwork and laboratory based projects.

**145.707 Economic Geography** **30 credits**

Several themes are examined in relation to the geography of advanced capitalism at global, national and intra-urban scales. Within this broad framework students are encouraged to develop personalised courses of study which reflect their individual interests.

**145.710 Consumption and Place** **30 credits**

This course explores consumption processes, practices and places. Using a number of themes it encourages students to engage with relationships between production and consumption, cultural and economic change, and matters of identity and ethics.

**145.711 Foundations in Human Geography** **30 credits**

An advanced exploration of the history of geographical thought, critically assessing key debates that have shaped the field and examining geographical theory and methodology.

**145.712 Frontiers in Human Geography** **30 credits**

An advanced examination and exploration of contemporary issues and debates in human geography.

**145.730 Applied Coastal Geomorphology** **15 credits**

A research-informed examination of coastal morphodynamics, coastal hazards and vulnerability, the evolution of coastal environments in response to climatic changes, and the management of contemporary coastal environments.

**145.731 Applied Fluvial Geomorphology** **15 credits**

A research-informed analysis of process-form relationships operating at a range of spatial and temporal scales within fluvial systems, considering the implications for catchment management.

**145.732 Landslide Investigation and Management** **15 credits**

A research-informed investigation of landslide processes, impacts and hazards, and solutions for their management, using a combination of field, lecture, and practical learning activities.

**145.734 Paleoecology, Palynology and Biogeography** **15 credits**

Research-based application of paleoecological techniques and principles to investigating Quaternary biogeography, with focus on New Zealand vegetation history. In-depth application of palynology to paleoecology and other disciplines.

**145.735 Detecting Geomorphic Change** **15 credits**

A critique and hands-on deployment of a range of field surveying techniques for characterising landform surface morphology and processes, and subsequent analysis and interpretation of morphometric data for resolving research questions in geomorphology.

**145.736 Advanced Physical Geography Techniques** **15 credits**

A critique and hands-on deployment of a range of techniques for characterising sediments and a range of environments, and analysis and interpretation of associated data for resolving physical geography research questions.

**145.739 GIS Principles and Applications** **30 credits**

A conceptual and operational understanding of Geographic Information Systems (GIS). This course provides a postgraduate-level introduction to fundamentals of spatial data creation, manipulation, management, visualisation and analysis.

**145.740 GIS Programming and Practice** **30 credits**

This course focuses on principles and practices of programming within the GIS context. Issues in GIS project design and implementation are addressed.

**145.799 Research Report (30)** **30 credits****145.800 Thesis** **120 credits**  
A supervised and guided independent study resulting in a published work**145.801 MPhil Thesis 120 Credit Part 1** **60 credits**  
A supervised and guided independent study resulting in a published work.**145.802 MPhil Thesis 120 Credit Part 2** **60 credits**  
A supervised and guided independent study resulting in a published work.**145.870 Research Report** **60 credits****145.871 Thesis 90 Credit Part 1** **45 credits**  
A supervised and guided independent study resulting in a published work.**145.872 Thesis 90 Credit Part 2** **45 credits**  
A supervised and guided independent study resulting in a published work**145.873 Research Report Geography (60)** **60 credits****145.875 Thesis** **90 credits**  
A supervised and guided independent study resulting in a published work.**145.881 Thesis 90 Credit Part 1** **45 credits**  
A supervised and guided independent study resulting in a published work.**145.882 Thesis 90 Credit Part 2** **45 credits**  
A supervised and guided independent study resulting in a published work.**145.883 Thesis** **90 credits**  
A supervised and guided independent study resulting in a published work**145.897 Thesis 120 Credit Part 1** **60 credits**  
A supervised and guided independent study resulting in a published work.**145.898 Thesis 120 Credit Part 2** **60 credits**  
A supervised and guided independent study resulting in a published work.**145.899 Thesis** **120 credits**  
A supervised and guided independent study resulting in a published work.**145.900 PhD Geography** **120 credits****146****Social Anthropology****146.101 Understanding Cultural Difference** **15 credits**  
An introduction to key contemporary topics and concepts in the discipline.**146.102 Endangered Cultures** **15 credits**  
An introduction to the impact of modern civilization on indigenous peoples based on ethnographic case studies and historical analysis.**146.201 Making the Self** **15 credits**  
An exploration of how concepts of the self, person, and individual vary across cultures.**146.202 Migration and Belonging** **15 credits**  
An anthropological study of how increasingly rapid mobility impacts socially and culturally on communities and individuals.**146.203 Religion, Nature and Sustainability** **15 credits**  
An anthropological study of a range of religions, understandings of nature, and practices of sustainability.**146.204 Following the Monsoon** **15 credits**  
An introduction to the contemporary anthropology of Monsoon Asia, with an emphasis on environmental factors**146.205 Environmental Anthropology** **15 credits**  
An exploration of contemporary approaches in environmental anthropology.

**146.209 Food and Eating 15 credits**

This course explores the food chain, from production, through consumption, to exchange. It considers the ways in which food is implicated in the reproduction of identities and inequalities.

**146.210 Anthropology of Ritual, Religion, and Witchcraft 15 credits**

A cross-cultural study of selected topics in the anthropology of ritual and religion including rites of passage, witchcraft, sorcery, myth, magic, spirits, death, symbols, ancestors, altered states of consciousness, and shamanism.

**146.211 Systems of Healing 15 credits**

A study of the variety of ways that people throughout the world address the problems of illness.

**146.300 Anthropological Enquiry 15 credits**

A critical exploration of the role of theory in anthropology, key theoretical frameworks and the practice of theorising ethnography.

**146.301 Practicing Fieldwork 15 credits**

An experiential course including practical exercises, designed to provide students with knowledge and skills to conduct anthropological fieldwork in a local context using a range of ethnographic methods.

**146.308 Taking Anthropology to the World 15 credits**

This course aims to workshop and assemble a professional portfolio applying anthropological knowledge and skills to respond to real world/topical issues, local and global.

**146.309 The Ethnography of Aotearoa New Zealand 15 credits**

This course critically explores the ethnography of Aotearoa New Zealand. It considers ethnography as a way of “knowing” Aotearoa New Zealand and what that means for how Aotearoa New Zealand is analysed and represented.

**146.310 Science, Culture, and Politics 15 credits**

Cross cultural understandings of how scientific ways of ‘knowing’ operate [politically] in the world.

**146.701 Contemporary Approaches in Anthropological Theory 30 credits**

A study of current theoretical issues and debates in social anthropology.

**146.703 The Practice of Anthropology 30 credits**

A study of the methodological and ethical dimensions of anthropological research.

**146.707 Reading and Writing Ethnography 30 credits**

Students in this course will examine contemporary exemplary ethnographies and develop their own ethnographic writing practices.

**146.708 Anthropology Today: Current Issues 30 credits**

Based on a close reading of an issue of a contemporary social anthropology journal, students in this course will explore current issues, topics and debates in social anthropology.

**146.798 Research Report (60) 60 credits****146.799 Research Report (30) 30 credits****146.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**146.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**146.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**146.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**146.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**146.873 Research Report (60 credits) 60 credits**

A supervised and guided independent study resulting in a report.

**146.881 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a thesis.

**146.882 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a thesis.

**146.883 Thesis 90 credits**

A supervised and guided independent study resulting in a thesis.

**146.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**146.900 PhD Social Anthropology 120 credits****147****Rehabilitation Studies****147.101 Rehabilitation Studies 15 credits**

An introduction to the principles and practices of rehabilitation. The processes of rehabilitation are explored with particular reference to the International Classification of Functioning, Disability and Health (ICF). Emphasis is placed on exploring a person-centred approach to rehabilitation.

**147.102 Whakapiri: Engagement in Mental Health and Addiction Work 15 credits**

The course provides an introduction to mental health and addiction with a focus on Aotearoa New Zealand. Attention is given to the social context of mental health and wellbeing. Students are introduced to mental health as a human right, processes of engagement and brief intervention in mental health and addiction work.

**147.201 Issues in Rehabilitation 15 credits**

A study of major issues related to rehabilitation processes and practices. Students will examine rehabilitation in relation to personal, social and environmental factors and be introduced to terms, concepts and models related to disability, age, gender, culture, legal and political contexts, family and society, advocacy and inclusion.

**147.202 Mental Health Promotion 15 credits**

The course covers the rationale and principles of promoting mental health in Aotearoa New Zealand and globally. Attention is given to key concepts and frameworks underpinning this area of practice.

**147.302 Alcohol, Other Drugs and Addiction 15 credits**

A focus on alcohol, other drug use and addiction in Aotearoa New Zealand, emphasising harm reduction and health promotion as intervention tools. Students will develop a critical understanding of the aetiology and epidemiology of drug use and addiction, the co-existence of conditions with addictions, and effective legal, public policy and treatment responses to reducing harm.

**147.303 Case Management and Rehabilitation Counselling 15 credits**

An investigation of the major theories, frameworks, support systems and practices employed in rehabilitation counselling, case management, and vocational rehabilitation. Emphasis is placed on assessment, vocational and avocational rehabilitation, and interprofessional practice.

**Health****147.304 Health Services Navigation 15 credits**

A critical examination of health services navigation and the role of navigators/connectors within complex health services systems.

**Rehabilitation Studies****147.305 Whakamana: Change Agency in Mental Health and Addiction 15 credits**

Principles underpinning mental health and addiction work in Aotearoa New Zealand are applied through the whakapiri, whakamārama, whakamana framework to enable students to become agents of social inclusion, moving their work beyond knowledge to empowerment, action and sustainability. Students integrate and apply collaborative and reflective practice, critical thinking, coordinated responses, and mana-enhancing approaches to work with tangata whai ora, whānau and communities.

## Health

### 147.317 Disability in Society 15 credits

This course examines the social and political context in which disability is created in contemporary society. Topics covered include models of disability, the disability industry, the disability rights movement, the body, cultural and media representations and the politics of disablement.

## Rehabilitation Studies

### 147.701 Rehabilitation Theory and Practice 30 credits

Rehabilitation theory, process and practice in physical, social and vocational rehabilitation are examined. Models of rehabilitation are investigated alongside theories and models of health and disability, advocacy and person-centred rehabilitation.

### 147.703 Vocational and Rehabilitation Counselling 30 credits

An advanced study of theories and practices employed in case management, vocational services and rehabilitation counselling. Topics include injury management, brokerage and professional ethics.

### 147.704 Drugs and Society 30 credits

This course explores the historical relationship between drugs and society, identifying fundamental patterns in the development of current international approaches to drug control, treatment and rehabilitation, reviewing evidence both for and against these approaches, and illustrating their ramifications for treatment and rehabilitation programmes.

### 147.799 Research Report (30) 30 credits

### 147.816 Thesis 120 Credit Part 1 60 credits

A supervised and guided independent study resulting in a published work.

### 147.817 Thesis 120 Credit Part 2 60 credits

A supervised and guided independent study resulting in a published work.

### 147.900 PhD Rehabilitation 120 credits

## 148

## History

### 148.116 The Medieval World and its Legacy 15 credits

An introductory survey course on the history of Medieval Europe examining the development and long term influence of its political institutions, society and culture.

### 148.141 A History of New Zealand's Peoples 15 credits

This course explores the historical background of the different migrant communities which have made up New Zealand society and their relationships with each other. Students will consider the different experiences and perspectives of iwi, English, Scots, Welsh and Irish migrants and those from Europe and Asia arriving before the 1980s, and of new migrants since that time.

### 148.142 The American Century 15 credits

This course explores the political, economic and cultural influence of the US on world history from the presidencies of Teddy Roosevelt to George W. Bush, as the United States emerged from two world wars and the Cold War as the globe's dominant political, economic, cultural and military power.

### 148.143 The Past as Entertainment: History Through Movies, Mini-series and Games 15 credits

The ways in which popular culture shapes our understanding of the past are examined through recent movies, mini-series and games. The course explores the different ways historians and the makers of popular cultures interpret the past.

### 148.217 Victoria's World 15 credits

A study of the economic, social and cultural history of Britain and its empire from about 1830 to World War I.

### 148.218 The Vikings 15 credits

A study of Viking contacts in Europe during the 8th-11th centuries, with a focus on the political, economic, social and religious contexts of the

migrations to and settlements in the north-eastern Atlantic (France, England, Ireland, Scotland and Iceland).

### 148.220 The Second World War 15 credits

A survey of the Second World War which is both thematic and chronological.

### 148.221 The Black Death and Other Plagues, 1300-1700 15 credits

A study of epidemic disease and its effects in medieval and early modern Europe.

### 148.241 Revolution, Rights and the Atlantic World 15 credits

This course explores issues of civic and political rights in the Revolutionary Era, 1763-1848.

### 148.242 The Age of Chivalry and Crusades 15 credits

A study of the cultural, political, and religious dimensions of crusading and chivalry, and their impact on medieval Christian-Jewish-Muslim relations.

### 148.243 The Sixties: Sex and Drugs and Rock and Roll? 15 credits

This course assesses 'myths and legends' that surround the 1960s; most notably the ideas that the decade witnessed a fundamental shift in social and moral attitudes, witnessed a youth rebellion and ushered in a 'permissive society'. The course will place the origin and legacy of these changes within the larger context of twentieth century history.

### 148.244 The Great War 1914-1918: a Military and Social History 15 credits

This course examines the social and military history of the First World War. It focuses on the tactics and technology used during the conflict and on the war's impact on society, culture, politics and economics.

### 148.245 Māori and Colonisation 15 credits

A study of Māori efforts to retain and enhance tino rangatiratanga and mana motuhake since colonisation.

### 148.246 Iwi History 15 credits

A study of iwi histories, their sources, role in maintaining tribal identity and well-being and use before the Waitangi Tribunal and in Treaty Settlements.

### 148.248 Reformers, Radicals & Revolutionaries: Protest in New Zealand 15 credits

This course explores protest in New Zealand from 1900 until the present. It examines the role of protest in challenging New Zealand's prevailing values, political elites and policies.

### 148.308 New Zealand Military History: 1899 to 2001 15 credits

An investigation of New Zealand's military history in the period 1899 to 2001. The various wars and conflicts are examined in detail as is their impact on New Zealand's politics, society and culture.

### 148.309 The New Zealand Wars 15 credits

A study of the New Zealand Wars, focusing on the causes, campaigns, historiographical interpretations and consequences, including the investigations of the Waitangi Tribunal and Treaty Settlements.

### 148.310 The Tudors and the Reformation 15 credits

A study of religious, political and cultural issues related to the Tudor administrations and the Reformation of the English Church during the sixteenth century.

### 148.316 New Zealand Between the Wars 15 credits

A study of developments in the period between the two World Wars.

### 148.333 The Napoleonic Wars 15 credits

An analysis of the Napoleonic Wars, 1799-1815, and their impact on politics and society.

### 148.334 Sports History 15 credits

An analysis of the relationship between sport and society, commencing with the development of sport in Britain during the second half of the nineteenth century, with particular reference to sport and empire, women in sport and commercialism and nationalism in sport.

### 148.339 Court Culture in Late Medieval Europe 15 credits

The course examines the power, splendour and art of European courts in the Northern Renaissance, focusing on the most splendid of them all: the court of the dukes of Burgundy and its urban context.

**148.720 Advanced Historiography 30 credits**

An examination of the relationship between ideas about the nature and meaning of history and the writing of history. The course concentrates on groups of historians who have propounded a philosophy of history and have been practitioners of the historian's art.

**148.730 Advanced Historical Methodology 30 credits**

A study of the theory and practice of historical research methodology.

**148.799 Research Report (60) 60 credits**

A supervised and guided independent study.

**148.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**148.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**148.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**148.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**148.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**148.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**148.900 PhD History 120 credits**

## 149

**Defence and Strategic Studies****149.160 Introduction to Military Technology 15 credits**

This course is an examination of the essential elements of military technology and their impact upon warfare.

## 150

**Māori Studies****150.001 Foundation Māori Culture 15 credits**

An introduction to the study of Māori culture, including the principles and implications of biculturalism and Te Tiriti o Waitangi.

**150.103 Nau mai e noho: Engaging with Māori 15 credits**

This course will equip students with a range of skills to engage with Māori communities including common expressions in te reo, an understanding of key traditional concepts, customary practices (tikanga), the importance of the Treaty of Waitangi and the nature and structure of Māori social and political organisations.

**150.106 Nga Hanga Whakairo: Traditional Māori Visual Art 15 credits**

An introduction to the scope of Māori art with a view to recognising traditional elementary forms and their significance. Social and cultural dimensions will be considered and Māori art forms from pre-contact times to the present will be examined within the context of a dynamic and changing society.

**150.107 Mata Puare: Studio IA 30 credits**

An exploration of the principles and elements of design and their application within two-dimensional contexts. The cultural significance of Māori design processes will be examined in order to understand interrelationships between form and content.

**150.108 Mata Puare: Studio IB 45 credits**

An exploration of the principles and elements of design and their application within three-dimensional contexts. The cultural significance of Māori design processes will be examined in order to understand interrelationships between form and content.

**150.112 Hauora Tangata: Foundations of Māori Health 15 credits**

An introduction to understanding Māori health within Aotearoa/New Zealand.

**150.114 He Tirohanga Taketake: Māori Perspectives 15 credits**

An analysis of Māori knowledge, custom and economic foundations. Customary lifestyles will be examined within a context of ritual, philosophy, technology, economic principles, and social organisation in order to understand Māori culture.

**150.201 Te Kawenata o Waitangi: The Treaty of Waitangi in New Zealand Society 15 credits**

A study of the Treaty of Waitangi background, texts, principles, and application to contemporary New Zealand. There is a particular focus on land, legislation, court decisions, social policies, the environment, constitutional matters, claims to the Waitangi Tribunal and Treaty settlements. Differing perspectives of hapū/iwi/Māori and the Crown, as well as opportunities for resolution, are explored.

**150.202 Mauri ora: Māori Wellbeing and Vitality 15 credits**

Cultural understandings of health form the basis for an exploration of cultural, biological, social, economic, environmental and political interactions and their impacts on Māori health.

**150.204 Mana Māori: Māori and Politics 15 credits**

The study of the nature of Māori politics and political self-determination in contemporary Aotearoa New Zealand. It will explore the avenues through which Māori have sought to realise their political aspirations, particularly in relation to national political institutions, and theoretical perspectives that can assist in the analysis and strategic development of Māori political self-determination.

**150.205 Kura Mai Tawhiti: Māori Knowledge 15 credits**

An examination of heritage and contemporary Māori knowledges exploring the origins and relevance of traditional belief systems and the contemporary cultural-political contexts of mātauranga paradigms in areas such as research, education, justice, science, business, social development and the environment.

**150.206 Ngā Momo Whakairo: Contemporary Māori Visual Art 15 credits**

An interpretation of the design structures that constitute Māori art from a bicultural perspective together with an examination of the factors that determine stylistic change.

**150.207 Mata Oho: Studio IIA 30 credits**

An examination of the significance of Māori visual culture with a view to understanding the interrelationships between form and function within 'traditional' and 'contemporary' contexts. Advanced development of media and processes within two-dimensional frameworks.

**150.208 Mata Oho: Studio IIB 45 credits**

An examination of the significance of Māori visual culture with a view to understanding the interrelationships between form and function within 'traditional' and 'contemporary' contexts. Advanced development of media and processes within three-dimensional frameworks.

**150.235 Whakamārama: Approaches to Māori Mental Health and Addiction 15 credits**

Principles underpinning Māori mental health and addiction work in Aotearoa New Zealand will be applied in the development of a social inclusion approach to mental health and addiction work across the life-course and in a range of settings. A hauora approach is used to focus on engagement, prevention, and early intervention with tangata whai ora, whānau and communities.

**150.301 Te Mana Te Kawanatanga: Māori Policy and the State 15 credits**

Recent policies, legislation and judicial outcomes that impact on Māori people are examined as well as interaction between Māori and the State in formulating policies for Māori. A framework for analysis derived from Māori perspectives serves as a basis for understanding policy development and is applied to specific policy areas including Māori land, broadcasting, fishing, employment, health, the environment and Treaty settlements.

**150.302 Whānau ora: Principles of Flourishing Whānau 15 credits**

Approaches for the advancement of Māori health will be reviewed with a particular focus on health promotion, whānau ora and the link between Māori health initiatives and positive Māori development.

**150.303 Mana Wahine: Māori Women 15 credits**

A theory and research based examination of issues that concern Māori women in all contexts, including the roles that Māori women assume both within a Māori social framework and beyond. Theories of mana wahine and the ways mana is maintained, enhanced or lessened will be examined.

**150.304 Te Ao Hurihuri: Contemporary Māori Issues 15 credits**

A critical examination of contemporary Māori cultural, political and human rights issues through colonisation to present day renaissance of Māori and indigenous peoples.

**150.307 Mata: Studio IIIA 30 credits**

Advanced development of 150.207 in selected areas. An approved, individually conceived programme with content related to personal strengths and interests within two-dimensional frameworks.

**150.308 Mata: Studio IIIB 60 credits**

Advanced development of 150.208 in selected areas. An approved, individually conceived programme with content related to personal strengths and interests within three-dimensional frameworks.

**150.407 Matatau: Studio IVA 60 credits**

Advanced conceptual development of 150.307 in selected areas. An approved individually conceived programme with content related to personal strengths and interests within two-dimensional frameworks.

**150.408 Matatau: Studio IVB 60 credits**

Advanced conceptual development of 150.308 in selected areas. An approved individually conceived programme with content related to personal strengths and interests within three-dimensional frameworks.

**150.701 Tino Rangatiratanga: Strategic Māori Development 30 credits**

Strategies for Māori advancement are examined within a Māori development framework. Barriers to development and the facilitation of positive development are explored using criteria relevant to indigenous self-determination. There is a focus on land, fisheries, social policy, health, Treaty settlements and opportunities for positive development.

**150.702 Pae Ora: Māori Health Advancement 30 credits**

Strategies for the advancement of Māori health will be explored with a particular focus on health planning, national Māori health related strategies, health funding, the delivery of health services, and the link between Māori health strategies and positive Māori development.

**150.707 Te Tataitanga Matatau: Advanced Studio Practice 90 credits**

An individually designed programme of advanced studio practice in Māori or indigenous visual culture development, with content related to personal strengths and interests.

**150.710 Te Reo Whakawhitiwhiti: The Language of Everyday Communication 30 credits**

A focus on the use of Māori language at home, in the workplace, in social situations, in sport and recreation. Students will be encouraged to express ideas and opinions in Māori with confidence and to incorporate new words into the vocabulary as indicated. The significance of local idiom will be an important part of the course.

**150.711 Te Tau-lhu o te Reo: Advanced Māori Literature 30 credits**

Tuatahi he ako i te taumata momo reo, te kawa o tātau marae pēnei i te tangihanga, whakataukī, pepeha, kōrero pūrākau, waiata tawhito. Tuarua he kaupapa mai i te rēanga poropiti Māori o ērā atu rau tau. Ka tātaritia hoki ngā kōrero mo tērā poropiti a Te Kooti Ārikirangi Te Tūruki i ahu mai ai ngā kaupapa maha e pā ana ki te mana motuhake. Tuatoru kā tātaritia ngā kōrero o pā ana ki tēnei kaupapa hohonu, e taukapo ai ōnā kaupapa ko te poroporoaki tēnā. This course explores language forms used in marae procedure, and language associated with tangihanga, whakataukī, pepeha, kōrero pūrākau, waiata tawhito. In addition the prophecies and aspirations of Te Kooti Ārikirangi Te Tūruki are explored. There is also an examination of the oral narrative and written literature associated with poroporoaki.

**150.713 Te Reo o te Ao Whanui: Māori as an Official Language 30 credits**

The use of Māori language in specialised areas and in sectors such as health, education, justice and commerce will be explored. Students will be required to demonstrate high levels of written and oral competence in one or two specialist areas, to undertake translations of contemporary technical documents as well as the compilation of an extended glossary.

**150.714 Ta Te Māori Rangahau Korero: Māori Research Methodologies 30 credits**

An examination of methodologies appropriate for research within Māori communities, iwi, hapu and whanau. Emphasis will be placed on accessing relevant information held in public repositories, on the internet and on computerised databases. The identification of frameworks for research in Māori contexts, ethical issues, and research design form important aspects of the course.

**150.715 Taonga Tuku Iho: Heritage Aotearoa 30 credits**

An examination of the dynamics of Māori culture and custom as part of the Aotearoa/New Zealand heritage. Particular emphasis is placed on the significance of land, language, oral tradition, the marae, art, and the Treaty of Waitangi, as well as an examination of the role of government in heritage through a study of legislation, policy and programmes. Case studies will focus on conservation, maintenance, sustainability and revitalisation.

**150.720 Rangahau Whakairo: Pre-thesis Practicum 120 credits**

An individually supervised and approved study involving Māori or indigenous visual culture to realise an individually conceived body of work. The constitution of the pre-thesis studio will consist of a catalogue of works presented for exhibition together with a presentation of ideas both in situ and through a formal public presentation.

**150.722 Te Tū Whānau: Whānau and Society 30 credits**

An advanced study of the standing of whānau within society, the impacts of socio-economic determinants on whānau, whānau participation in education and the economy, and the ways in which whānau are able to engage with societal institutions, including institutions within te ao Māori.

**150.723 Ngā Momo Whānau: Whānau Form and Function 30 credits**

An advanced study of the nature of whānau structures and their changing patterns, the human, resource, and functional capacities of whānau, and indicators of whānau wellbeing.

**150.725 Rangahau Whakairo: Pre-Thesis Practicum (Part I) 60 credits****150.726 Rangahau Whakairo: Pre-Thesis Practicum (Part II) 60 credits****150.731 Te Reo o Te Akomanga: Language of the Classroom 30 credits**

He tatari, he whakahangai i ta te Māori tītiro ki nga paearu mahi katoa mo te ao matauranga me Te Aho Matua e whai mahi ai i roto i nga Kura hei kaiako, ara, e taea ai e nga tauria. A critical analysis and application of Māori perspectives applied to performance criteria in the education context and Te Aho Matua that are essential for teaching within kura kaupapa Māori.

**150.732 Te Uiui ā Akomanga: Inquiry-Based Approaches in Kura Kaupapa Māori 30 credits**

Ko nga rautaki pakirehua Kaupapa Māori me nga iwi taketake e tiroiro ana ki nga wero e puta mai ana i te mahi whakaako ki nga Kura Kaupapa Māori. Māori and global indigenous inquiry methods that address existing or emerging challenges of teaching practice in Kura Kaupapa Māori learning environments

**150.733 Te Marautanga o Te Aho Matua: The Kura Kaupapa Māori Curriculum 30 credits**

He whakataki me te tatari i nga paearu ngaio o Te Marautanga o Te Aho Matua me te mahi i nga wahanga ako, a, nga anga aromatawai hoki ki ta te kura tirohanga whanui no roto mai i nga Kura Kaupapa Māori. An introduction to and analysis of the professional requirements of Te Marautanga o Te Aho Matua and the application of learning areas, and assessment frameworks to a whole school curriculum approach within Kura Kaupapa Māori.

**150.734 Tō Te Kura Kawa: Pedagogy and Practice in Kura Kaupapa Māori 30 credits**

He ata tiroiro me te whakamahi i nga ahua akoranga o Te Aho Matua me Te Marautanga o Te Aho Matua ki roto ki nga Kura Kaupapa Māori. An examination and application of Te Aho Matua pedagogies and Te Marautanga o Te Aho Matua curriculum within Kura Kaupapa Māori settings.

**150.799 Research Report (30) 30 credits****150.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

- 150.801 MPhil Thesis 120 Credit Part 1** **60 credits**  
A supervised and guided independent study resulting in a published work.
- 150.802 MPhil Thesis 120 Credit Part 2** **60 credits**  
A supervised and guided independent study resulting in a published work.
- 150.809 Te Wahapu Matatau (Matau): Advanced Studio Practice** **90 credits**  
An individually designed programme of advanced studio practice in Māori or indigenous visual culture development, with content related to personal strengths and interests.
- 150.816 Thesis 120 Credit Part 1** **60 credits**  
A supervised and guided independent study resulting in a published work.
- 150.817 Thesis 120 Credit Part 2** **60 credits**  
A supervised and guided independent study resulting in a published work.
- 150.821 Nga Miro Whakaaturanga: Thesis Practicum** **120 credits**  
An individually supervised and approved study involving research into Māori or indigenous visual culture to realise an individually conceived body of work that allows for the design and/or coordination of an exhibition, together with an exhibition report that resolves research and practice, or a database that contextualises the body of work within the student's personal oeuvre.
- 150.825 Nga Miro Whakaaturanga Thesis Practicum 120 Cr Pt1** **60 credits**  
A supervised and guided independent study resulting in a published work.
- 150.826 Nga Miro Whakaaturanga Thesis Practicum 120 Cr Pt2** **60 credits**  
A supervised and guided independent study resulting in a published work.
- 150.873 Research Report Māori Studies (60)** **60 credits**
- 150.881 Thesis 90 Credit Part 1** **45 credits**  
A supervised and guided independent study resulting in a published work.
- 150.882 Thesis 90 Credit Part 2** **45 credits**  
A supervised and guided independent study resulting in a published work.
- 150.883 Thesis** **90 credits**  
A supervised and guided independent study resulting in a published work.
- 150.899 Thesis** **120 credits**  
A supervised and guided independent study resulting in a published work.
- 150.900 PhD Māori Studies** **120 credits**

## 151

## Nutritional Science

- 151.131 Introduction to Food and Nutrition** **15 credits**  
An examination of the effect of social, cultural and psychological factors on food habits; a brief study of the composition of foodstuffs and the basic principles of human nutrition; an introduction to food safety and food preservation. Emphasis will be given to topics of current interest.
- 151.231 Food Chemistry for Nutrition** **15 credits**  
Chemical composition and physical properties of food. Modification of nutrient content of foods due to formulation, processing and preparation. Food regulation and food safety.
- 151.232 Nutrition and Metabolism** **15 credits**  
Physiological function and metabolic fate of carbohydrates, lipids and proteins and their involvement in meeting energy needs for maintenance, growth and performance. Nutritional and physiological functions of vitamins, minerals, water and electrolytes in humans. The pharmacological role of specific micronutrients. Physical and biochemical measurements of nutritional status of populations and individuals; including assessment of body composition and dietary intake.
- 151.243 Nutritional Biochemistry** **15 credits**  
Biochemistry of relevance to nutritional science: Structure and function of proteins, carbohydrates and lipids; enzymes and enzyme kinetics; metabolic pathways of protein, carbohydrate and lipid metabolism and their regulation; an introduction to genes and regulation of gene expression.
- 151.331 Maternal and Child Nutrition** **15 credits**  
Nutrient functions, requirements and partitioning during pregnancy, lactation, infancy, childhood and adolescence: determination of nutritional requirements; assessment of normal growth and body composition; evaluation of food and nutritional issues.
- 151.332 Nutrition for Sport and Performance** **15 credits**  
Nutritional aspects of exercise physiology and metabolism. Nutritional principles for enhancing performance in recreational and elite athletes Food and nutrition for specific sporting codes and specific groups (e.g. children, adolescent athletes, female athletes, elite athletes). Assessment of nutritional status of athletes.
- 151.333 Adult Nutrition and Positive Ageing** **15 credits**  
Review of current literature and research on nutrient needs and factors affecting nutritional status of adults and the elderly. The role of nutrition in causing and preventing degenerative diseases. The nutritional, physiological, metabolic and sociological determinants of obesity.
- 151.334 Nutrition Communication and Promotion** **15 credits**  
The impact of food policy, marketing and nutrition promotion on behavioural aspects of food choice. Nutrition communication and health promotion measures to influence nutritional status will be covered, including models of food choice. Examples will be drawn from health promotion initiatives in New Zealand, related to a range of socio-cultural groups. Food insecurity and food politics will also be included.
- 151.344 Principles of Nutrition** **15 credits**  
Key concepts in nutrition: Body composition, dietary intake methodologies, food composition, physiological functions and metabolic fates of macronutrients, nutritional and physiological functions of vitamins, minerals, water and electrolytes.
- 151.345 Nutrition throughout the Life Cycle** **15 credits**  
Changing nutrient functions, requirements and partitioning during the lifecycle (from the foetus through infancy, childhood, adolescence and adulthood plus pregnancy, lactation and ageing); determination of nutritional requirements; assessment of normal growth and body composition; food and nutritional issues with reference to the NZ Food and Nutrition Guidelines. Examples of the role of nutrition in causing and preventing degenerative diseases, and obesity.
- 151.346 Topics in Nutrition** **15 credits**  
Topics in nutrition in the areas of sports nutrition, contemporary nutrition issues and insights, food choice and the implications of the Treaty of Waitangi.
- 151.704 Human Nutrition** **15 credits**  
A selection of nutrition topics related to the human lifecycle and nutrients of concern.
- 151.707 Food Technology/Nutrition Interface** **15 credits**  
Processing of food; food preservation; food marketing; sensory science; food legislation and policy; nutrient substitutes; functional foods.
- 151.708 Nutritional Research Methods** **15 credits**  
Experimental design in nutrition; methods and approaches in human and animal nutrition research including assessment of food and nutrient intake, assessment of energy expenditure and assessment of body composition.
- 151.712 Special Topic** **15 credits**  
A selected course of study, which may include a project or lectures and assignments; details of content to be specified for each student.
- 151.713 Special Topic** **30 credits**  
A selected course of study which may include a project, or lectures and assignments; details of content to be specified for each student. This course may be used to carry out advanced study in nutrition in a particular area or species, e.g. monogastric, ruminant, poultry, fish, etc.

**151.714 Advanced Human Nutrition 30 credits**

Selected topics in advanced human nutrition.

**151.715 Advanced Sports Nutrition 15 credits**

A selection of topics in advanced sports nutrition, with the opportunity to complete advanced literature research and/or practicum components. Application of principles of sports nutrition to specific sporting codes and specific groups. The main focus is on the evaluation and implementation of food and nutrition requirements of athletes in training, and during competition. An in-depth understanding of the scientific reasoning behind requirements will be developed.

**151.716 Advanced Nutrition and Disease 15 credits**

A selection of topics regarding the interrelationships between nutrition and disease at an advanced level.

**151.717 Selected Topics in Public Health Nutrition 15 credits**

Public health nutrition is the promotion of good health through the prevention of nutrition-related illness in the population. This course will examine a selection of nutrition-related public health problems and describe how research-based evidence is used to develop effective promotion strategies.

**151.718 Advanced Topics in Macronutrient Nutrition 15 credits**

An advanced study of food composition, digestive and metabolic processes, and interactions of macronutrients.

**151.719 Advanced Topics in Micronutrient Nutrition 15 credits**

An advanced study of the roles of vitamins, minerals, and trace elements in metabolic processes and their roles in human metabolism plus altered metabolic processes caused by specific micronutrient deficiency.

**151.721 Selected Topics in Nutrition and Disease 15 credits**

Overview of interrelationships between nutrition and disease, including coverage of insulin resistance syndrome, obesity, cardiovascular disease and hypertension, diabetes mellitus, malignant diseases, nutrition and infection and food intolerance and allergy.

**151.741 Research Methods and Statistics for Dietetics 15 credits**

Quantitative and qualitative research design, methods, approaches including statistical analysis in human nutrition and dietetics as applicable in a variety of groups and settings. Topics will include epidemiological and ethnographic approaches, assessment of food, nutrient and energy intakes, energy expenditure, body composition, biomarkers, eating habits, food behaviour, and dietary practices.

**151.742 Nutrients for Health and Disease 15 credits**

Investigate relationships between nutrient intakes and health status, using an evidence-based approach to enable substantiation of recommendations. Critical examination of legal, ethical and scientific principles of dietitian prescribing practice pertaining to special foods, nutrients and supplements. Students will develop competence within the dietitian prescriber scope.

**151.743 Foodservice Management 15 credits**

An introduction to the operational aspects of food service systems, principles of management and their application to food service to optimise nutrition, health and well-being. Students will develop practical skills within various food service systems as well as managerial skills to optimise service quality.

**151.744 Medical Nutrition Therapy 1 15 credits**

A focus on medical nutrition therapy to improve the nutritional status / well-being of individuals and groups within clinical, community or public health settings. Forming the foundation for safe and effective practice within the core dietetic practice context of medical nutrition therapy, investigating all aspects of nutrition-related diseases – from aetiology to therapy.

**151.745 Medical Nutrition Therapy 2 15 credits**

Building on the content of Medical Nutrition Therapy 1, this course focuses on medical nutrition therapy to improve the nutritional status / well-being of individuals and groups within clinical, community or public health settings. It will form the foundation for safe and effective practice within the core dietetic practice context of medical nutrition therapy, investigating all aspects of nutrition-related diseases – from aetiology to therapy.

**151.746 Communications in Dietetic Practice 15 credits**

This course introduces the theory and practice of communication approaches and strategies in the professional work environment, emphasising successful communication in a range of contexts including individual counselling, small

group education, community consultation, within a management or media perspective, and presentation to any audience. Communication management and learning theory and skills will be examined and applied through practical examples and assessment tasks.

**151.750 Professional Dietetic Practice 45 credits**

This course comprises the total extent of professional dietetic practice to acquire practical training and experience within the three domains of dietetic practice as specified by the professional accrediting body. Experienced practitioners will supervise students in a variety of settings including hospitals, community health centres, industry and public health services where their skills and competencies will be developed in a range of areas.

**151.799 Research Report 30 credits****151.870 Research Report 60 credits****151.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**151.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**151.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**151.891 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**151.892 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**151.895 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**151.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**151.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**151.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**151.901 PhD Nutritional Science 120 credits****152****Management****152.133 Sport Facility Management 15 credits**

An introduction to the management and administrative aspects of sport facilities.

**152.203 Business and Society 15 credits**

A study of the interplay of business and society in the context of business development and contemporary business practice.

**152.230 Entrepreneurship 15 credits**

An introduction to entrepreneurship and its application to new ventures as well as to existing small businesses.

**152.232 Small Business Management 15 credits**

This course develops competencies relevant to operating small and medium sized enterprises. The focus is on critical skills, ethical awareness and the concepts needed by today's small business owners, and introduces specialist topics in enterprise development.

**152.233 Fundamentals of Entrepreneurship and Innovation 15 credits**

This introductory course develops understanding of the key concepts in entrepreneurship and innovation.

**152.234 Business Model Innovation 15 credits**

Describe the importance of context and value creation when designing and validating business models.

<b>152.236 Sport Business</b>	<b>15 credits</b>	<b>152.338 Cultural Perspectives on Entrepreneurship</b>	<b>15 credits</b>
This course explores the theories, concepts and practices relating to strategic management, governance, organisational behaviour, and human resource management in sport organisations.		An examination of interconnections between entrepreneurship, culture and diversity, including social identities such as gender, ethnicity and indigeneity, age, religion, and sexual identity. Students will consider how these aspects shape entrepreneurial thinking and practice, with particular emphasis on the experiences of Māori in Aotearoa NZ.	
<b>152.237 Sport Event Management</b>	<b>15 credits</b>	<b>152.350 Strategic Management and Governance</b>	<b>15 credits</b>
This course examines specific management aspects of sport events.		An examination of strategic management concepts, the tools and techniques of strategic analysis, and issues associated with governance including business ethics.	
<b>152.238 Professional Development for the Sport Industry</b>	<b>15 credits</b>	<b>152.355 Sustainability Issues, Challenges and Responses</b>	<b>15 credits</b>
A preparation for the Sport Practicum through field experience and critical reflection.		An examination of sustainability issues and challenges, how they relate to the business community, and the implications of sustainability for business policy and management.	
<b>152.250 Managing Organisations</b>	<b>15 credits</b>	<b>152.366 Operational Management of International Business</b>	<b>15 credits</b>
An analysis of the management of organisations emphasising themes relating to people, process and structure.		Managing the operational effectiveness of the enterprise conducting business in international markets including international supply chain, quality, and distribution management.	
<b>152.252 Project Management</b>	<b>15 credits</b>	<b>152.370 Te Whanaketanga o te Pakihi Māori - Advanced Māori Business Development and Management</b>	<b>15 credits</b>
An introduction to the theory and methods employed in project management.		An examination of the interface between customary and contemporary management practices focusing on the management of Māori resources and the development of Māori enterprise.	
<b>152.261 International Business</b>	<b>15 credits</b>	<b>152.381 Action Learning Management Practicum</b>	<b>15 credits</b>
A study of business and management from an international perspective. This course provides an introduction to the conduct of business in the global environment by exploring different forms of international business activity in the context of regionalism and globalism.		Students will develop leadership, task management and team-building skills within an experiential learning framework. The course integrates outdoor 'adventure' activities with selected aspects of contemporary management theory. Students play an integral part in the design and execution of the course. The course integrates the assessment of risk and the management of safety and ecological care with programme activities.	
<b>152.264 International Supply Chain Management</b>	<b>15 credits</b>	<b>152.386 Risk Management I</b>	<b>15 credits</b>
An introduction to the applied aspects of supply chain management in international business.		An overview of the principles and practice associated with risk identification, analysis and assessment.	
<b>152.270 Māori Management</b>	<b>15 credits</b>	<b>152.387 Risk Management II</b>	<b>15 credits</b>
Māori Management is designed for people who have a responsibility for undertaking management activities related to Māori business development and commercial activities. It examines the history and structure of Māori organisations, contemporary management structures and the impact of associated government policies and legislation.		A detailed examination and critique of risk control methods.	
<b>152.271 Sport Entertainment Management</b>	<b>15 credits</b>	<b>152.399 Integrative Management</b>	<b>15 credits</b>
An examination of contemporary innovations and technologies shaping and impacting upon the management of global sport entertainment industries.		A collaborative capstone course that requires students to demonstrate the ability to apply theory and practice to complex organisational problems.	
<b>152.304 Managing Services</b>	<b>15 credits</b>	<b>152.700 Organisation and Management</b>	<b>30 credits</b>
Examines theories and issues relating to the place of services in the economy.		A study of the theories of management and their application within organisations.	
<b>152.325 Designing and Developing Organisations</b>	<b>15 credits</b>	<b>152.702 Advanced Strategic Management</b>	<b>30 credits</b>
A theoretical and practical introduction to organisational designs and development processes.		An advanced study of the systems and techniques of strategic planning, policy formulation and implementation.	
<b>152.330 Enterprise Development</b>	<b>15 credits</b>	<b>152.704 Business and Sustainability</b>	<b>30 credits</b>
An examination of issues relating to entrepreneurship and management in the start-up, survival and development of enterprises. Emphasis is placed on the use of the case study approach from the perspective of the manager or consultant.		An analysis of the relationships between the business community, the natural environment, and social and environmental sustainability. The course examines global debates on social and environmental issues, introduces theories of sustainability, and considers the implications of sustainability for business policy and management.	
<b>152.331 Scaling and Growth</b>	<b>15 credits</b>	<b>152.707 Leading and Changing Organisations</b>	<b>30 credits</b>
Develops understanding of key areas that are critical for the sustainable growth of an organisation, by exploring the key challenges of scaling and growth.		A study of the practices, methods and frameworks for leading and changing organisations.	
<b>152.333 New Venture Project</b>	<b>15 credits</b>	<b>152.724 Advanced Services Management</b>	<b>30 credits</b>
This course studies the process of initiating and managing a new venture. The course includes opportunity identification and assessment processes for new ventures; comprehensive business planning including data collection and analysis; strategy formulation and results forecasting; integration of concepts and techniques relevant to new ventures. Integrated plans for launching new products and services by existing businesses are also considered.		Focusing on the theory and principles of services management, this course critically reviews current services management research and analyses the issues for managers in adopting a service logic for their organisations.	
<b>152.336 Leadership Practice</b>	<b>15 credits</b>	<b>152.725 Building Export and Import Businesses</b>	<b>30 credits</b>
A critical analysis of the theory and practice of leadership relevant to public and private organisations and the development of ethical leadership and citizenship in a variety of socio-cultural contexts.		Focuses on the first stage of international expansion by providing an introduction to the knowledge and skills required for managing import and export businesses and conducting international trade.	
<b>152.337 New Venture Development</b>	<b>15 credits</b>		
A project based course in which students explore and develop a value-creation project in relation to a specific context of their choice.			

**152.726 Growing Multinational Enterprises 30 credits**

Focuses on strategies and implementation challenges of foreign direct investment projects.

**152.727 Managing Multinational Enterprises 30 credits**

An examination of management challenges commonly faced by firms that have already expanded internationally, addressing four different levels of internal organisational analysis: the individual, the cross-cultural project team, organisational units such as subsidiaries, and the relationship between the multinational organisation and its host country societies.

**152.728 Corporate Citizenship and Responsibility 30 credits**

An advanced critique of the concepts of corporate social responsibility (CSR), business ethics, stakeholder management, and their implications for the management of business organisations.

**152.730 Advanced Contemporary Issues in Sustainability 30 credits**

Students will critique the business case for sustainability and develop holistic sustainability strategies to address contemporary economic, ethical, environmental, and social concerns for business, including those relating to sustainable supply chain management, sustainable operations management, the UN Sustainable Development Goals, and ethical trade.

**152.731 Innovation and New Ventures 30 credits**

A study of the theory and practice of innovation with special reference to the small business sector. The course will examine the dimensions of innovation and entrepreneurship with emphasis on the entrepreneur's contribution to existing organisations and new ventures.

**152.732 Issues in Entrepreneurship 30 credits**

An advanced study of entrepreneurship including the analysis of trends and issues relating to the entrepreneurial process. A range of topics are offered to allow some customisation of the course to the particular educational and research interests of students.

**152.740 Public Sector Administration 30 credits**

An examination of the processes, theories and practices of management in the public sector including the environment in which such organisations operate.

**152.742 Health Systems Management 30 credits**

The health care systems of New Zealand and selected nations are compared and critically analysed from a management perspective.

**Health****152.743 Health Law and Policy 30 credits**

The interrelationship between health law and health policy is examined with an emphasis on practical health care dilemmas.

**Management****152.746 Contemporary Issues in Health Service Management 30 credits**

Issues relevant to the efficient and effective delivery of health services are identified and examined.

**152.747 Local Governance: Context, Structure and Finance 30 credits**

An examination of the attributes of public administration and finance, specifically addressing the concerns of local government. These attributes include: the historic position of local government, the scope, scale and role of local government in society, and the funding regime underpinning local government in New Zealand.

**152.752 Project Management 30 credits**

A comprehensive study of the theory and methods employed in project management.

**152.768 Managing Knowledge 30 credits**

An advanced exploration of the challenges of managing knowledge and knowledge work, for the purpose of producing more effective managers and team members in knowledge-intensive work environments. The role of computerized "knowledge management" systems, and the relationship between people and technology which constitute special challenges to managing in such environments will be considered.

**152.771 Management in Organisations 15 credits**

The application of modern management in business organisations.

**152.781 Advanced Research Methods in Business 30 credits**

Research approaches to management and organisation theory. Includes reading and designing research in these areas up to the preparation of research proposals.

**152.786 Research Report 60 credits****152.787 Thesis 90 credits****152.800 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**152.801 Thesis 90 credits**

An original piece of work that focuses on a significant issue in the Management discipline. Candidates will demonstrate an ability to formulate research questions and clearly answer them through the effective design of an investigation and the presentation of the research findings in a manner that is acceptable in the academic community.

**152.802 Thesis 90 Credit Part 1 45 credits**

An original piece of work that focuses on a significant issue in the Management discipline. Candidates will demonstrate an ability to formulate research questions and clearly answer them through the effective design of an investigation and the presentation of the research findings in a manner that is acceptable in the academic community.

**152.803 Thesis 90 Credit Part 2 45 credits**

An original piece of work that focuses on a significant issue in the Management discipline. Candidates will demonstrate an ability to formulate research questions and clearly answer them through the effective design of an investigation and the presentation of the research findings in a manner that is acceptable in the academic community.

**152.804 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**152.805 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**152.894 Professional Practice 60 credits**

Candidates will undertake a professional action investigation within the subject area in which the Master of Management is being completed. Investigations may be conducted either individually or in groups and assessment of the outcome of the investigation may be in a variety of ways including written and oral presentations.

**152.896 Research Report 60 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

**152.900 PhD Management 120 credits****153****Dispute Resolution****153.200 Introduction to Dispute Resolution 15 credits**

An introduction to the modes of dispute resolution including negotiation, mediation and arbitration and the relevant law.

**153.202 Law and Mediation 15 credits**

The legal framework for mediation and an introduction to the law of contract and tort.

**153.204 Negotiation Principles 15 credits**

Negotiation principles as applied to avoiding and resolving disputes.

**153.302 Mediation Process 15 credits**

An examination of the nature of disputes, negotiation, mediation, and other non-adjudicative dispute resolution processes.

**153.306 Negotiation Practice 15 credits**

Application of the theory of the negotiation process.

<b>153.310 Arbitration Practicum</b>	<b>15 credits</b>	<b>154.202 Advertising and Consumer Society</b>	<b>15 credits</b>
A practical residential course on practice, procedure and award writing.		A study of the form and function of advertising in the context of consumer society, with particular emphasis on the conflict between advertising as a form of corporate manipulation and as a form of creative expression. Critical theories will be used to explore the role of advertising in relation to consumerism, capitalism, branding, art and agency.	
<b>153.311 Mediation Practicum</b>	<b>15 credits</b>	<b>154.203 Popular Culture and the Media</b>	<b>15 credits</b>
A practical residential course on the practice and procedure of non-adjudicative dispute resolution including settlement agreements.		A survey of cultural theories and debates in relation to modern mass media. A number of issues such as identity, representation and cultural politics will be considered in their historical contexts and in relation to a variety of texts from popular culture and the media.	
<b>153.314 Dispute Resolution Advocacy</b>	<b>15 credits</b>	<b>154.204 Digital Media Production I</b>	<b>15 credits</b>
A study of advocacy practice and the application of the Evidence Act 2006 in the management of dispute resolution processes.		An advanced introduction to producing digital media. This course uses hands-on, experiential learning to introduce techniques, concepts and processes for producing photography and video using industry standard hardware and software.	
<b>153.315 Adjudicative Processes</b>	<b>15 credits</b>	<b>154.206 International Film History</b>	<b>15 credits</b>
A study of the Arbitration Act 1996, and the Construction Contracts Act 2002		A study of the history of film using case studies and including a consideration of the ways in which social contexts, industrial conditions, technologies and individuals have influenced film narratives and film theory.	
<b>153.320 Employment Dispute Resolution</b>	<b>15 credits</b>	<b>154.208 Screen Media</b>	<b>15 credits</b>
The theory and practice of solving employment disputes.		An exploration of the formal and textual features of film and television, and their relation to technological change, with an emphasis on how film and television have both shaped and been transformed by digital media.	
<b>153.330 Dispute Resolution Practicum</b>	<b>15 credits</b>	<b>154.224 Documentary (Non-Fiction) Film</b>	<b>15 credits</b>
A Residential practicum covering negotiation, mediation, arbitration and other dispute resolution techniques.		A study of the genre of documentary (non-fiction) film. The course will provide students with a critical awareness of the theory, history and various forms relevant to the genre. Students will plan and produce short documentary films. NOTE: Students require access to their own video camera and editing facilities.	
<b>153.700 Elements of Dispute Resolution</b>	<b>30 credits</b>	<b>154.250 Digital Media: Theory and Practice</b>	<b>15 credits</b>
The law and practice of mediation and arbitration.		An exploration of the social, cultural, economic and technological transformations brought about by contemporary digital and networked media. Students will develop critical digital media literacies and learn to produce digital media.	
<b>153.701 Advanced Arbitration</b>	<b>30 credits</b>	<b>154.301 Culture, Power and The Media</b>	<b>15 credits</b>
The law and practice of New Zealand and international arbitrations using the Model Law and other institutional procedures.		A consideration of theoretical and critical approaches to the study of how culture, power and media interact in contemporary society. Attention will be given to the question of cultural identity and to how this relates to changing attitudes to nationhood and to the impact of consumerism.	
<b>153.702 International Law for Dispute Resolution</b>	<b>30 credits</b>	<b>154.302 Gender and Race in the Media</b>	<b>15 credits</b>
A study of treaties affecting international trade and the application of legal regimes affecting dispute resolution.		A critical study of gender, race and ethnicity in the media, considered from a variety of theoretical approaches.	
<b>153.703 Advanced Negotiation</b>	<b>30 credits</b>	<b>154.303 Hollywood Cinema</b>	<b>15 credits</b>
An exploration of the fundamental dynamics of the process of negotiation leading to dispute resolution agreements.		An examination of how the formal, socio-cultural, and technological characteristics of Hollywood Cinema have intersected with its industrial conditions across history.	
<b>153.704 Advanced Mediation</b>	<b>30 credits</b>	<b>154.304 Digital Media Production II</b>	<b>15 credits</b>
An examination at an advanced level of key principles and processes of mediation.		The further development of skills and abilities in a chosen media area with particular emphasis upon the production of a major media project.	
<b>153.705 Dispute Resolution Management</b>	<b>30 credits</b>	<b>154.311 Social Media and Digital Cultures</b>	<b>15 credits</b>
An introduction to the management of dispute resolution including case and practice management.		This course explores how social media shapes identities, social relationships, work, politics and societies. From fake news to social media influencers, this course examines how digital technologies play a key role in shaping everyday life in the twenty-first century.	
<b>153.706 Reasoning and Decision Making</b>	<b>30 credits</b>	<b>154.313 Global Media Cultures</b>	<b>15 credits</b>
An examination of key principles and techniques of reasoning and decision-making especially as relative to Dispute Resolution.		New media technologies and global patterns of media distribution have produced complex, emergent practices of transnational community formation, text-sharing and collaborative media production. This course examines these practices in relation to the maintenance and negotiation of cultural identity in the contemporary world.	
<b>153.707 Theory of Conflict</b>	<b>30 credits</b>	<b>154.315 Popular Music Studies</b>	<b>15 credits</b>
The theory of conflict and its application to dispute resolution.		A critical examination of the nature, role and meaning of popular music within contemporary Western societies. Particular attention will be paid to the	
<b>153.708 Advanced Employment Dispute Resolution</b>	<b>30 credits</b>		
The theory and practice of solving employment disputes.			
<b>153.800 Thesis</b>	<b>120 credits</b>		
A research course requiring the student to conduct independent research with academic supervision within the area of dispute resolution.			
<b>153.897 Thesis 120 Credit Part 1</b>	<b>60 credits</b>		
A supervised and guided independent study resulting in a published work.			
<b>153.898 Thesis 120 Credit Part 2</b>	<b>60 credits</b>		
A supervised and guided independent study resulting in a published work.			

## 154

## Media Studies

**154.101 Introduction to Media Studies** **15 credits**  
An introduction to theories of the media and communications. Particular attention will be paid to the concepts of representation and audience, the political economy of media products, and the social and cultural context in which they occur.

political economy of the international music industry, music and technology, genre and musical texts, making music, stardom and auteur studies, and audiences and subcultures.

**154.316 New Zealand Cinema 15 credits**

An exploration of the development of the New Zealand film industry with a focus on aesthetics and national identity. Key films are examined in relation to wider contexts, such as history, politics, economics, and culture, which have all contributed to the creation of a distinctive local film industry and film culture.

**154.701 Modern and Postmodern Visual Cultures 30 credits**

An introduction to the key critical debates and cultural practices that have defined the response to modern mass media and their major ideological formations. Particular emphasis is placed on avant-garde notions of montage and their continuing influence on postmodern media theory and practice.

**154.702 Advanced Film Studies 30 credits**

This course engages students with a variety of critical and theoretical approaches to cinema, mapping their development across history and examining their usefulness in understanding the social, cultural, economic, political and aesthetic significance of film.

**154.704 Researching Media and Cultural Studies 30 credits**

An introduction to theoretical frameworks and research designs and methods in Media Studies and Cultural Studies and to various issues that arise in the conduct of research. Students preparing to undertake research-based theses or projects will receive assistance in the preparation of their proposals.

**154.707 The World of Noir 30 credits**

A study of the historical phenomenon of film noir, along with the related genre of the noir novel. The emphasis will be on classical film noir but more recent texts will also be examined. A variety of critical and theoretical approaches will be used.

**154.708 Modern Fiction, Popular Culture and the Media 30 credits**

An examination of major developments in approaches to fiction in the twentieth century, focusing on modern and postmodern trends, and on how these have impacted on the rise and alleged decline of distinctions between elite art and popular culture. Texts for analysis are selected from both literature and film and include examples of canonical as well as popular fiction.

**154.709 Technology and Cultural Change 30 credits**

This course examines the role of technology in producing and transforming contemporary culture. Through the investigation of key theorists, particular attention is given to the pivotal role technology plays in shaping space, time, and experience.

**154.721 The Communication Field 30 credits**

This course provides an advanced-level overview of the communication discipline, its history, key concepts, competing traditions, and noted scholars. Critical, creative and organisational theories and concepts from a broad communication studies body of knowledge are historicised, compared, and critically evaluated. Throughout the course, communication knowledge is applied to illuminate communication questions from media, industry and society.

**154.747 Media Practice and Global Culture 30 credits**

This course examines the critical context of contemporary media practice, exploring how media texts, technologies, and institutions respond to and produce processes of globalisation. Students will focus on the use of digital and mobile media technologies, and consciously negotiate decisions regarding the cultural, social, political, economic, ethical and environmental implications of their own media production, distribution and consumption.

**154.797 Research Report (60) 60 credits**

**154.798 Research Report (30) 30 credits**

A supervised and guided independent study.

**154.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**154.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**154.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**154.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**154.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**154.850 Thesis 120 credits**

The supervised undertaking of an original piece of research into Media Studies.

**154.851 Thesis 120 Credit Part 1 60 credits**

The supervised undertaking of an original piece of research into Media Studies.

**154.852 Thesis 120 Credit Part 2 60 credits**

The supervised undertaking of an original piece of research into Media Studies.

**154.855 Master of Communication Research Project 60 credits**

An applied research project involving the critical evaluation and application of selected research methodologies to address communication-related challenges.

**154.873 Research Report Media Studies (60) 60 credits**

A supervised and guided independent study.

**154.881 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**154.882 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**154.883 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**154.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**154.900 PhD Media Studies 120 credits**

## 155

### Business Law

**155.201 Law of Property 15 credits**

The law relating to the transfer and ownership of and other dealings in real property.

**155.202 Essentials of Law 15 credits**

Introduction to the New Zealand legal system, legal interpretation and substantive law.

**155.203 Law of Business Organisations 15 credits**

General principles of law relating to companies and partnerships.

**155.210 Commercial Law 15 credits**

Legal obligations and responsibilities that may arise when conducting business activities.

**155.216 Land Law for Real Estate Agents 15 credits**

The law relating to land and dealings in land as it affects the real estate profession.

### Management

**155.301 Employment Law 15 credits**

This course examines the law governing the employment relationship in New Zealand.

### Business Law

**155.702 Special Topic Business Law 30 credits**

**155.704 Corporate Governance 30 credits**

A study of the principles of corporate governance including the legal and ethical responsibilities of corporate managers.

**155.705 Special Topic Business Law 30 credits****155.771 Law of Business 15 credits**

The legal system and the law of business organisations and its relevance to the accounting and finance profession.

**155.800 MPhil Thesis 120 credits**

Students are required to write a thesis based on independent research. The thesis topic and appropriate supervision must be arranged with the HOS prior to enrolment.

**155.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**155.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**155.900 PhD Business Law 120 credits**

## 156

**Marketing****156.231 Strategic Marketing Management 15 credits**

A study of the decisions required to allocate and manage marketing resources in a competitive business environment.

**156.232 Consumer Behaviour 15 credits**

A study of the theory and practice of changing consumer behaviour through marketing programmes. The course critically evaluates traditional cognitive models of consumer behaviour and alternative behaviourist approaches.

**156.233 Marketing Research 15 credits**

A study of the collection, analysis and interpretation of marketing information for the purpose of managerial decision-making.

**156.235 Social Media and Digital Marketing 15 credits**

A study of the impact, application and evaluation of new digital media marketing strategies and techniques.

**156.237 Marketing Communication and Advertising 15 credits**

A study of advertising and other forms of marketing communication, including key theories of marketing communication, elements of the communication mix, and effective campaign design.

**156.238 Marketing New Products 15 credits**

A study of new product and service development processes from a marketing perspective.

**156.334 Marketing Consultancy Project 15 credits**

A client driven marketing planning course that integrates marketing concepts and methods across the curriculum.

**156.338 International Marketing 15 credits**

A critical examination of issues in international marketing and their relevance to business and society.

**156.339 Omni-Channel Retail Marketing 15 credits**

A critical examination of marketing in an omni-channel retail environment.

**156.340 Customer Intelligence 15 credits**

This course teaches methods to convert organisations' large data sets about customers, competitors, channel partners and their own activities into information for improved marketing decision making.

**156.341 Branding 15 credits**

A critical examination of brands and issues in branding and their relevance to business and society.

**156.342 Social Changes through Applied Marketing and Design Strategies 15 credits**

This course integrates social marketing theory and design practices to bring about desired change in a current social issue.

**156.700 Essentials of Marketing 30 credits**

An introduction to the theory and practice of marketing. This course assumes no previous background in marketing.

**156.742 Advanced Consumer Behaviour 30 credits**

A study of the changing nature of consumer behaviour in a dynamic environment. Psychological, sociological and individual factors are investigated with reference to how they affect consumer behaviour. How the study of consumer behaviour is used by academics, practitioners and policymakers is explained.

**156.743 Advanced Marketing Planning and Strategy 30 credits**

The focus is how firms use their limited resources to position their products or services to create a sustainable competitive advantage. The main goal of a marketing strategy is to create customer satisfaction so the "how" of marketing strategy, which is the marketing plans and planning, is addressed.

**156.744 Advanced Marketing Research and Analysis 30 credits**

The focus is on the rationale for marketing research, the steps involved in marketing research and the type of methodologies used in qualitative and quantitative marketing research. Interpretation of results as well as analysis of data in marketing research is included.

**156.756 Digital Marketing 30 credits**

A study of theories and practical applications of digital marketing tools.

**156.757 Marketing Strategy 30 credits**

A study of theories and practical applications of marketing strategy across different contexts.

**156.758 Marketing for Social Change 30 credits**

A detailed study of the social marketing approach used to develop activities aimed at changing or maintaining people's behaviour for the benefit of individuals and society as a whole. The course examines questions about marketing and society; these issues include a consideration of how 'socially desirable' behaviours are marketed; how regulations affect marketing decision making; and how ethical issues can influence marketing decisions.

**156.761 Customer Insights 30 credits**

A range of analytical techniques will be implemented using real-world data. Emphasis is also given to effective presentation of insights to a non-technical audience.

**156.762 Return on Marketing Investment 30 credits**

The development of computer skills for the empirical analysis of the return of marketing investments on sales and profits, for the purpose of supporting marketing decision making. The coverage includes a wide variety of econometric methods, statistical programming approaches, types of marketing investments, and the reporting of the results.

**156.775 Theory and Models of Marketing 30 credits**

This course critically examines marketing theory and its application and aims to explain why the theory of knowledge is important to marketers and its implications for the study and practice of marketing and the evaluation of new ideas. It includes the study of consumer responses to marketing stimuli, using marketing models to measure, analyse and understand consumers.

**156.776 Research Methods in Marketing 30 credits**

This is an advanced research methods course. It covers critical thinking in marketing research and provides an in depth understanding of qualitative, quantitative and mixed methods approaches to marketing research. It provides a detailed examination of research design, construct measurement, methods of data collection and methods for analysing data.

**156.799 Research Report 30 credits****156.800 MPhil Marketing 120 credits****156.850 Thesis 120 credits**

The supervised undertaking of an original piece of research in marketing communication.

<b>156.851 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>156.852 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>156.855 Master of Communication Research Project</b>	<b>60 credits</b>
An applied research project involving the critical evaluation and application of selected research methodologies to address communication-related challenges.	
<b>156.893 Research Report</b>	<b>60 credits</b>
Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.	
<b>156.894 Professional Practice</b>	<b>60 credits</b>
Candidates will undertake professional practice within the subject area in which the Master of Management is being completed. Professional Practice may be conducted either individually or in groups and assessment of the outcome of the investigation may be in a variety of ways including written and oral presentations and case studies.	
<b>156.897 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>156.898 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>156.899 Thesis</b>	<b>120 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>156.900 PhD Marketing</b>	<b>120 credits</b>

## 157

## Information Systems

<b>157.151 Living and Working with Technology</b>	<b>15 credits</b>
An introductory study of the roles and applications of information systems in organisations and society.	
<b>157.216 Management, Analytics and Decision Making</b>	<b>15 credits</b>
Introduction to techniques and issues involved in using data to support organisational decision making.	
<b>157.240 Social Media Networks for Business</b>	<b>15 credits</b>
An examination of current issues in the rapidly developing area of social media. A socio-technical approach is adopted to examine how social media networks are being used in business processes.	
<b>157.241 Technology Trends for Organisations</b>	<b>15 credits</b>
A comprehensive study of major technology trends and organisational contexts within which information systems are developed and used from user, manager, organisational and societal perspectives.	
<b>157.325 Information Management Project</b>	<b>15 credits</b>
A guided practical applying business analysis methods to an information system and its environment.	
<b>157.340 Organisational Knowledge Management</b>	<b>15 credits</b>
An examination of the role of information systems in creating business value in a knowledge economy.	
<b>157.350 Technology Governance and Risk Management</b>	<b>15 credits</b>
Designing and managing technology-based solutions for realising organisational strategy.	
<b>157.394 Managing Technology Projects and Programmes</b>	<b>15 credits</b>
Agile project management and design thinking as methodologies for implementing technology projects and programmes.	
<b>157.700 Info Systems Management</b>	<b>30 credits</b>
A comprehensive overview of the application of computing technology within organisations from a managerial perspective.	

<b>157.701 Health Information Management</b>	<b>30 credits</b>
A study of the management of information and information systems relevant to the planning and delivery of high-quality healthcare.	
<b>157.733 Health Information Systems</b>	<b>15 credits</b>
A study of the existing and potential applications of information systems that can be used to support the delivery and management of healthcare.	
<b>157.735 Data Mining</b>	<b>15 credits</b>
A study of data mining methodologies and techniques related primarily to business and information systems applications. An applied approach will be adopted for the most part.	
<b>157.748 Advanced Management, Analytics, and Decision Making</b>	<b>30 credits</b>
A comprehensive study of the techniques and issues involved in using data to support organisational decision making.	
<b>157.749 Technology Innovation Management</b>	<b>30 credits</b>
Initiate and develop innovative opportunities within the technology sector.	
<b>157.777 Mobile Business</b>	<b>30 credits</b>
A study of mobile business concepts, business models, challenges, applications and technologies from a managerial perspective. The course examines current and future trends in mobile business and provides participants with an understanding of how mobile business applications can be applied to fulfil organisational goals and objectives.	
<b>157.879 Research Report</b>	<b>60 credits</b>
<b>157.900 PhD Information Systems</b>	<b>120 credits</b>

## 158

## Information Technology

<b>158.100 Information Technology Principles</b>	<b>15 credits</b>
This course introduces students to concepts and theories in preparation of advanced Information Technology (IT) courses. Students gain foundations in programming, non-relational databases, user interface design, system analysis and testing, along with the impact of IT on society. Hands-on explorations form an important component of this course.	
<b>158.120 Web-based IT Fundamentals</b>	<b>15 credits</b>
In this course, students study how key information technology components combine to form complex information technology solutions. This includes analysis and experimentation with relational databases, web technologies, programming and networking.	
<b>158.212 Application Software Development</b>	<b>15 credits</b>
A study of the rudiments of structured and object-oriented software development methods and techniques. Students will utilise a modern integrated development environment to gain practical skills.	
<b>158.222 Data Wrangling and Machine Learning</b>	<b>15 credits</b>
An introduction to the data science workflow involving the acquisition, processing, transformation and integration of data from disparate sources having inherently different data structures, from which actionable insights can be extracted. Entry-level machine learning and statistical techniques for analysing and extracting knowledge from data will be covered. Particular emphasis will be placed on attaining competency in using a high-level programming language for conducting data-driven problem solving and appreciating the necessary agility such tools afford.	
<b>158.225 Systems Analysis and Modelling</b>	<b>15 credits</b>
A study of methods used to capture, analyse and model system requirements. Students will acquire practical skills through case study work utilising techniques and software tools used by industry.	
<b>158.235 Networks, Security and Privacy</b>	<b>15 credits</b>
A study of the basic principles of digital communications, Internet technologies, communications software, local area network design, client-server system design, middleware and available wide-area network services from the viewpoint of a software engineer/designer developing networked information systems.	

**158.244 Software Quality Assurance and Testing 15 credits**

A discussion of testing concepts and techniques that can be applied to all software projects. This course explores a selection of topics relevant to the design and implementation of test plans in software including web-based applications. The course also looks at activity design to ensure that the project conforms to stakeholder expectations. This course will be of assistance to students who would like to become a Certified Tester through International Software Testing Qualifications Board (ISQTB) foundation level exams.

**158.247 Database Design 15 credits**

An introduction to databases and the underlying relational and selected non-relational approaches. Students will gain practical skills designing, creating and querying databases using Database Management Systems and discuss fundamental concepts - such as vertical and horizontal scaling, transactional safety and eventual consistency - and their implications in the selection of database approaches.

**158.256 Web Application Design 15 credits**

The design of Web sites using modern mark-up, styling and scripting languages for the Web focusing on the client-side Web design as well as Web user-interface design.

**158.258 Web Development 15 credits**

An introduction to web-based application development. Students will gain practical experience in the use of modern techniques relevant to the design and development of web-based systems.

**158.326 Software Construction 15 credits**

An advanced study of methods used to model, design, build and test robust software artefacts. The course provides an in-depth study of multiple techniques to support software design and implementation. It takes a practical approach using current methods and tools.

**158.333 Applied Machine Learning and Big Data Processing 15 credits**

An in-depth exploration of methods for developing intuition and insights about data that enables effective problem formulation and its solution through data-driven methods. A broad range of advanced machine learning and data mining algorithms will be used to build predictive models from real-world contexts. A particular emphasis will be on developing data-products, rapid prototyping and effectively communicating their value through visual storytelling and interpretable summaries. Practical skills for processing large datasets will be taught.

**158.335 The Internet of Things and Cloud Computing 15 credits**

This course involves participants in solving problems whose solutions require active, sensing and connected “things” augmented with Cloud Computing capabilities. Students will design and implement things that participate in the Internet of Things (IoT) and Cloud Computing environments.

**158.337 Database Development 15 credits**

A study of enterprise data models, including how data storage and retrieval methods have changed over time. Modern techniques for handling relational and non-relational data and their implications in transactional and analytical processing are evaluated. Students will gain practical skills in designing, creating and querying databases using database management systems.

**158.345 Professionalism in the Information Sciences 15 credits**

This course provides an advanced study of social and professional issues in the information sciences. It will involve the exploration, through appropriate resources, of issues relevant to practitioners, including ethics, legal issues, communication, teamwork and professional contexts.

**158.347 Database Paradigms 15 credits**

An advanced study of databases and the underlying relational and selected non-relational approaches, including distributed databases. Students will gain further practical skills designing, creating and querying databases using database management systems, as well as studying the underlying theories and how they impact the design of databases, query languages and database management systems.

**158.359 User Experience Design 15 credits**

The course will move from conceptual analysis to the design, prototyping and implementation and evaluation of user interfaces. It will emphasise development processes that result in interfaces that provide a superior user experience. Examples of real-life interfaces, from sources such as desktop,

multimedia, web, novel, and mobile technologies will be used. There will be a significant practical work component.

**158.383 Information Technology Project 15 credits**

Based on an initial project specification, students work individually or in groups on carrying out an information technology project. This includes understanding the project context, selecting appropriate methods and approaches, constructing the project artifacts, and reporting on project outcomes.

**158.392 Special Topic 15 credits****158.736 Advanced Machine Learning 15 credits**

A review of advanced machine learning algorithms that use deep learning to extract knowledge from enterprise data. The course includes a practical component in which students adapt and apply deep learning algorithms to practical data sets.

**158.738 Implementation and Management of Systems Security 15 credits**

Security and privacy are important features of information systems, in particular with the case of free access, as in Web-based services or E-commerce systems. The goal is to restrict the access of information to legitimate users only. For this purpose techniques from cryptography and information theory have to be studied.

**158.739 Introduction to Analytics 15 credits**

An introduction to the field of analytics, including the process of identifying an analytics problem in context, identifying sources and acquiring data, preparing data for analysis to address the problem. Emphasis is placed on developing programming skills relevant for data processing and data retrieval from databases. Special attention is given to privacy, security and ethical considerations surrounding data, and to communication of results.

**158.740 Location Systems: Spatial Databases, Tools and Applications 15 credits**

This course will develop knowledge and skills in the use of geographic information science in an interdisciplinary context. Students will learn how to work with clients to identify requirements, model and collect data and create a location-based web application. A range of areas and a variety of different uses of geographic information will be covered using open source tools. An interdisciplinary group project will form part of the course.

**158.741 Location Data: Mapping, Analysis and Visualisation 15 credits**

This course will develop knowledge and skills in the processing, analysis and visualisation of data that has a location on the earth. Location data is more and more readily available, and students will learn how to transform and integrate data from multiple sources, consider the impact of data uncertainty and privacy, and perform appropriate analysis for environmental, social and economic applications. Different data collection methods will be discussed, and a range of open source tools will be used.

**158.750 Information Sciences Research Methods 15 credits**

A study of information science research, its methods, practices, social context and relationships to other fields of study. Research skills including research design, literature evaluation, data collection, data analysis and publication are practised in this course.

**158.751 Object-Oriented Software Development - Theory and Practice 15 credits**

A study of the object-oriented paradigm applied to software development and database design. The course includes practical work with an object-oriented analysis and design method, a UML CASE tool and an object-oriented programming language.

**158.752 Agile Software Engineering 15 credits**

An advanced study of agile software engineering. The course provides an in-depth investigation of the techniques, methods and practical activities used in the development of software using an agile approach. There will be a significant practical element to the course.

**158.753 Software Development Paradigms 15 credits**

The course investigates the concept and practice of software development methodologies. It examines the commercial pressures which promote methodologies such as Agile and the theoretical frameworks which underpin a desirable methodology. Practical assignments will use appropriate software environments.

**158.755 Data Science - Making Sense of Data 15 credits**

A study of the science of drawing knowledge and insights from data, including the concepts and techniques of data mining, machine learning and natural language processing. The course covers both theoretical and practical aspects using a range of software tools and algorithms.

**158.757 User Interface Design and Evaluation 15 credits**

Focuses on the design and evaluation of human-computer interfaces (HCI) for computerised information systems covering: task analysis, the process of design, the use of rapid prototyping in HCI design, and formative and summative usability testing, as well as the integration of user interface design techniques into the SDLC. The approach is hands-on.

**158.758 Mobile Systems Development 15 credits**

A technological approach to mobile computing systems that covers technical aspects of mobile systems development.

**158.762 Software Quality and Reliability 15 credits**

An advanced study of software quality assurance and reliability analysis techniques used in Information Technology projects. The course provides an in-depth study of software validation and verification strategies using appropriate methods, metrics and models. Current tools and practices will be applied to representative software systems.

**158.780 Information Technology Project Part 1 15 credits**

An in-depth study of Information Technology research, exploring both research methods and project execution. This course provides a practical approach to the principles and practices of academic research, and incorporates a full execution of the preliminary parts of a project life cycle, including the proposal, literature review, methodology and pilot study.

**158.781 Information Technology Project Part 2 15 credits**

A continuing study of information sciences research, exploring both research methods and project execution. This course provides a practical approach to the principles and practices of academic research, and incorporates a full execution of the latter parts of a project life cycle, including the research practicum, analysis of results and reporting of conclusions.

**158.888 Information Technology Professional Project 60 credits**

Candidates will undertake a practical and/or research IT project including some or all of the following: requirements engineering, product modeling, user interface design and evaluation, systems security, software testing, and quality assurance. This may be conducted either individually or in groups and assessment may be in a variety of ways including written and oral presentations and software demonstrations.

**158.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**158.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**158.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**158.900 PhD Information Technology 120 credits****159****Computer Science****159.100 Programming for Engineering and Technology 15 credits**

This course provides an introduction to computer programming for Technology and Engineering disciplines. The language is C++ which is a “real world” language heavily used in games, real-time applications and the control of devices. The course guides students through all the steps needed to write, compile and debug simple C++ programs with lots of practical examples. No previous programming experience is required.

**159.101 Applied Programming 15 credits**

The focus of this course is on problem solving and the design of logical and efficient programming solutions. It is an applied course with an emphasis on software construction using basic algorithmic methods and simple data structures. The course introduces the C++ programming language and is an essential preparation for advanced programming courses.

**159.102 Computer Science and Programming 15 credits**

This course advances the programming knowledge to include abstract data types, recursion, pointers, and the foundations of object-oriented programming. Foundational Computer Science topics are also covered including bits, bytes, two's complement arithmetic, gates, logic circuits and an introduction to assembler programming.

**159.103 Introduction to Games Programming and Simulation 15 credits**

The essentials of designing and constructing computer games; game software architecture; types of games; basic concepts of Artificial Intelligence; basic concepts of computer graphics; platform and performance issues. This course requires a significant practical programming component.

**159.171 Computational Thinking and Programming 1 15 credits**

The focus of this course is on problem solving and the design of logical and efficient computer-based solutions to real-world problems. This is a practical course with an emphasis on software construction using basic data structures and algorithmic methods that are common to many programming languages. The programming language used will be a high level, multi-paradigm, programming language, such as Python. The course is intended as preparation for advanced courses in object-oriented, functional and scientific programming. Students will gain an appreciation of simple software design principles and the ability to create useful custom-built programs.

**159.172 Computational Thinking and Programming 2 15 credits**

This course follows on from 159.171 by extending programming ability and putting the developed methods into context. It advances the programming knowledge obtained in 159.171 to include recursion, abstract data types and basic foundations of functional and object-oriented programming. It introduces elements of algorithm design and analysis. The programming language used will be a high level, multi-paradigm, programming language, such as Python. The course is intended as preparation for advanced courses in object-oriented, functional and scientific programming. Students will gain an appreciation of aspects of computer science theory and the ability to program using a range of computational techniques and data structures.

**159.201 Algorithms and Data Structures 15 credits**

An introduction to the analysis and implementation of algorithms and data structures including linear data structures, trees, graphs, hash tables, searching algorithms, sorting algorithms, optimization problems and complexity analysis. The course includes a significant practical component covering the implementation and application of important data structures and algorithms.

**159.202 Declarative Programming 15 credits**

This course continues the study of computer programming with an introduction to declarative programming languages. The principles of the declarative programming paradigm are explored through practical examples. Key topics include recursion, list processing, lazy evaluation and higher-order functions.

**159.233 Computer Architecture 15 credits**

Digital logic. Architecture. Processor organisation, analysis and design. Assembler programming.

**159.234 Object-Oriented Programming 15 credits**

An introduction to the principles of object-oriented programming. It covers both object-oriented programming techniques and their application to program design including classes, objects and objects lifecycle, abstraction, encapsulation, inheritance, polymorphism and generic programming, as well as some advanced programming features. The course includes a significant practical component involving designing and implementing object-oriented programs in Java.

**159.235 Programming for Computer Graphics 15 credits**

An introduction to the programming principles, methods and techniques of computer graphics. The course covers general graphics methods and techniques, graphics transformations, drawing algorithms, 3D rendering and animation. These are implemented using basic approaches as well as modern shader-based pipelines.

**159.236 Embedded Programming 15 credits**

A study of embedded programming using low-level programming languages. The course covers the hardware architecture of an embedded system and the techniques needed to write programs for simple peripherals such as switches, LEDs, timers and accelerometers.

- 159.251 Software Engineering Design and Construction 15 credits**  
A study of techniques, methods and tools used to design and construct high-quality software systems.
- 159.253 Computer Systems 15 credits**  
Computer architecture, assembler, processor organization. A case study, highlighting the decisions involved in producing a well-designed computer architecture.
- 159.261 Games Programming 15 credits**  
An exploration of a range of essential topics for implementing computer games including fundamental computer graphics, games software architecture and game physics systems. The course contains a significant practical computer lab component where students are guided through the games development process.
- 159.270 Hardware-Oriented Computing 15 credits**  
A study of programming in a hardware-oriented language such as C and the construction of object-oriented software solutions using C++. The course has a practical focus based on concepts such as pointers, memory allocation, objects, classes, operator overloading, inheritance, and polymorphism. It addresses techniques such as structuring programs, software testing and debugging techniques, and the use of microcontrollers.
- 159.271 Computational Thinking for Problem Solving 15 credits**  
An in-depth study of data structures and the design and analysis of algorithms to solve real-world problems. The course has a practical focus based on the correct implementation of algorithms in a high level programming language. An introduction to computability, tractability and strategies to address issues related to intractability.
- 159.272 Programming Language Paradigms 15 credits**  
An introduction to different programming paradigms with a focus on the functional paradigm – lists, recursion, lazy-evaluation, higher-order functions, currying and lambda expressions. The course includes a significant practical component designing and implementing functional solutions to problems using both pure and multi-paradigm languages.
- 159.302 Artificial Intelligence 15 credits**  
An advanced study of the principles and techniques used in developing Artificial Intelligence applications. The course includes the implementation and application of a range of AI methods including state-space representation and search, knowledge representation, constraint satisfaction, game playing, logic systems and machine learning.
- 159.331 Algorithms and Languages 15 credits**  
Comparative programming languages. Programming and algorithm design using different paradigms. Algorithm analysis. Algorithm complexity.
- 159.333 Computer Science Project 15 credits**  
A capstone computer science project. Students will develop a piece of software or conduct a computer science research project under the supervision of an academic staff member. Projects will be completed individually or as part of a team depending on staff availability. Students must produce a written technical report and give an oral presentation demonstrating their work.
- 159.334 Computer Networks 15 credits**  
A layered approach to data communications and the Internet protocols.
- 159.335 Concurrent Programming and Operating Systems 15 credits**  
Task parallelism: processes, synchronisation methods. Operating systems, structures and techniques. Brief introduction to data-parallel and distributed computing.
- 159.336 Mobile Application Development 15 credits**  
The course covers many practical aspects of designing, creating, testing and publishing mobile applications. Students will develop mobile applications using a real software development toolkit and have the option of publishing their applications to an app marketplace.
- 159.339 Internet Programming 15 credits**  
An advanced study in programming Internet applications and modern web technologies including scripting, HTML, client- and server-side programs, web request/response mechanism and Internet security.
- 159.341 Programming Languages, Algorithms and Concurrency 15 credits**  
Advanced study in models of computation, programming languages and algorithms with a specific focus on concurrent programming. The course includes models of computation, programming language paradigms, programming language design, algorithm analysis, processes, threads, synchronisation and parallel programming.
- 159.342 Operating Systems and Networks 15 credits**  
A detailed study of operating systems and network communication protocols. The course covers the technologies that underpin modern computer systems including the architecture of operating systems and their structures and methods along with computer network design, protocols and associated technologies.
- 159.352 Advanced Web Development 15 credits**  
A study of the programming and scripting languages, frameworks and tools used to develop web and distributed applications with a consideration of the security issues involved in these technologies.
- 159.354 Data Communication Networks 15 credits**  
The Internet is a fundamental platform for communication in our world. The architecture and protocols of this network of networks are essential to how they operate. This course focusses on the associated multi-layer protocol structure of the Internet by showing how it is constructed and how protocols underpin the variety of applications developed to support business, education and social networking.
- 159.355 Concurrent Systems 15 credits**  
This course builds on concurrency theory giving practical experience in all aspects of concurrent programming, including issues of synchronisation. Operating systems, structures and techniques are presented as examples of complex, concurrent programs.
- 159.356 Software Engineering Capstone Project 15 credits**  
Management of the software engineering process. A group project will form a significant component of this course.
- 159.360 Programming for Computer Graphics 15 credits**  
Generating graphical images and animations involves a variety of concepts and tools, starting from basic modeling and algorithms to advanced tools for graphics programming. The course covers theory and underlying algorithms as well as practical programming exercises including games using 3D graphics.
- 159.361 Advanced Games Programming 15 credits**  
This course continues the study of games programming by exploring the development of computer games using a modern game engine. The development of games and specific game systems within a modern architecture are covered with a significant practical component.
- 159.372 Intelligent Machines 15 credits**  
This course introduces fundamental techniques to create intelligent machines, including formalisms for representing knowledge and reasoning about it, methods for searching and planning, and approaches to machine learning.
- 159.391 Special Topic 15 credits**
- 159.392 Special Topic 15 credits**
- 159.702 Knowledge Engineering 15 credits**  
A study of state-of-the-art techniques in knowledge engineering used in the context of the semantic web, such as ontologies, OWL, description logic, rule engines and graph databases.
- 159.703 Advanced Computer Systems 15 credits**  
Advanced topics in computer systems, including concurrency, interconnection networks and technology drivers.
- 159.704 Systems Programming 15 credits**  
Internet of Things, general-purpose input/output (GPIO) programming, sensor integration, cloud computing, wireless and mobile networks.
- 159.707 Advanced Software Design and Construction 15 credits**  
A study of state-of-the-art techniques used to design and construct complex, enterprise-level software systems, including: component-based software engineering, dependency injection, frameworks, design patterns,

design analysis, aspect-oriented programming, distributed objects, meta programming and multi-paradigm programming languages.

**159.709 Computer Graphics 15 credits**

Graphics devices. Interactive graphics systems. Drawing algorithms. Lines and polygons. Curves and surfaces. Representation of 3-D objects. Perspective. Techniques for visual realism. The course will include practical programming work.

**159.710 User Interface Design 15 credits**

Practical techniques, models and tools to support the analysis and design of user interfaces.

**159.731 Studies in Computer Vision 15 credits**

Selected advanced topics including: low level digital image processing, 2D/3D image processing, image transforms, pattern recognition.

**159.732 Studies in Computer Programming 15 credits**

Selected advanced topics including: programming paradigms; procedure; functional; declarative; object-oriented; compiler techniques.

**159.735 Studies in Parallel and Distributed Systems 15 credits**

Selected advanced topics including: Parallel computing; network security; client-server computing; compression; web applications; wireless and mobile computing.

**159.736 Studies in Operating Systems and Architecture 15 credits**

Selected advanced topics including: Concurrency; scheduling; API programming; real-time and embedded systems; fault tolerance; computer architecture; HDLs.

**159.737 Studies in Compilers and Grammars 15 credits**

Selected advanced topics from grammars and compilers, including: formal grammars, languages, lexical analysis, parsing, semantic analysis, optimization and code generation. This course contains significant practical programming.

**159.738 Special Topic 15 credits**

**159.739 Special Topic 15 credits**

**159.740 Studies in Intelligent Systems 15 credits**

Selected advanced topics including: knowledge-based systems; AI; agents; natural language processing; search and constraint satisfaction.

**159.794 Project 15 credits**

**159.795 Project 15 credits**

**159.870 Research Report 60 credits**

**159.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**159.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**159.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**159.888 Computer Science Professional Project 60 credits**

Candidates will undertake a practical and/or research project including the design and production of a significant software application. This may be conducted either individually or in groups and assessment may be in a variety of ways including written and oral presentations and software demonstrations.

**159.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**159.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**159.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**159.900 PhD Computer Science 120 credits**

## 160

### Mathematics

**160.101 Calculus 15 credits**

A course focusing on the fundamental techniques and applications of calculus including differentiation and integration of functions of one real variable, differential equations, numerical methods, and an introduction to power series with applications to mathematical models. 160.101, alongside 160.102, forms a foundation for further study in mathematics. It is essential for students intending to study Mathematics, Physics, Food Technology or Engineering, or for anyone who wants a strong mathematical component to their degree.

**160.102 Algebra 15 credits**

A course focusing on the fundamental techniques and applications of linear algebra including vector and matrix algebra, vector representation of lines and planes, projections, Gaussian elimination, eigenvectors and complex numbers. 160.102, alongside 160.101, forms a foundation for further study in mathematics. It is essential for students intending to study Mathematics, Physics, Food Technology or Engineering, or for anyone who wants a strong mathematical component to their degree.

**160.103 Introductory University Mathematics 15 credits**

A course designed to increase the confidence of students in handling mathematical concepts and skills. Content includes algebraic skills, functions and graphs, and an introduction to matrices and calculus.

**160.104 Introductory Mathematics for Science 15 credits**

An introductory course focusing on the development of mathematical problem solving skills in science contexts. The use of number, algebra, trigonometry, and curve sketching will be employed in different situations to solve problems and interpret results.

**160.105 Methods of Mathematics 15 credits**

An introductory course designed to increase the confidence of students in handling mathematical concepts and skills. Content includes algebraic skills, functions and graphs, and an introduction to calculus.

**160.111 Mathematics 1A 15 credits**

This course provides a solid mathematical foundation for further studies in mathematics, science and engineering. It consolidates basic concepts and introduces more advanced material on differentiation and numerical techniques, enabling the formation of mathematical models of real-world problems. The course blends topics from calculus with those from linear algebra and includes matrices, linear equations, vectors and geometry.

**160.112 Mathematics 1B 15 credits**

This course builds on the foundation provided by 160.111. Together these courses provide a mathematical platform for more advanced studies in mathematics, science and engineering. The topics are a blend of calculus and linear algebra, including complex numbers, linear transformations, eigenvectors, advanced techniques of integration, differential equations and applications.

**160.131 Mathematics for Business I 15 credits**

Development of algebraic skills. An introduction to linear equations and matrices, including graphical linear programming. Graphs. An introduction to calculus. Use of spreadsheets and/or other mathematical software.

**160.132 Concepts in Mathematics 15 credits**

At the heart of this course are three mathematical questions: what is an equation, what is a solution and what is a function? Through exploring these three themes, students will be exposed to different types of equations, different types of solutions and mathematical functions. Students will also learn to differentiate, integrate and manipulate simple equations and develop problem solving skills.

**160.133 Processes in Mathematics 15 credits**

A mathematical foundation for further studies in mathematics, statistics, natural and computing sciences, business and education. It combines a blend of concepts, techniques and applications. Topics from algebra and calculus include matrices, vectors and geometry, complex numbers, techniques and applications of differentiation and integration. The course follows from 160.132; well-prepared students from high school can enter 160.133 directly.

<b>160.203 Multivariable Calculus</b>	<b>15 credits</b>	<b>160.703 Advanced Analysis</b>	<b>15 credits</b>
The techniques of 100-level calculus are applied and extended in the study of infinite series, vector-valued functions and functions of two or more variables. Topics include convergence of power series, partial derivatives, double and triple integrals with applications to surface area and volumes, line and surface integrals.		A selection of advanced topics from real, complex, abstract and functional analysis, with applications, e.g. Fourier series, approximation theory.	
<b>160.204 Differential Equations I</b>	<b>15 credits</b>	<b>160.704 Studies in Theoretical Mathematics</b>	<b>15 credits</b>
Exact solution methods for ordinary differential equations including the use of the Laplace transform. Systems of differential equations, matrix methods, phase plane techniques. Numerical methods for differential equations.		Selected advanced topics from geometry, topology, number theory, analysis and combinatorics.	
<b>160.211 Linear Algebra</b>	<b>15 credits</b>	<b>160.715 Advanced Computational Methods</b>	<b>15 credits</b>
Vector spaces, linear transformation, matrix representation, inner product spaces, isometries, least squares, generalised inverse, eigen theory, quadratic forms, norms, numerical methods.		Advanced study of computational solution methods with topics selected from approximation theory, sparse linear systems, matrix eigenproblems, initial value problems and boundary value problems in ordinary differential equations and partial differential equations.	
<b>160.212 Discrete Mathematics</b>	<b>15 credits</b>	<b>160.733 Methods of Applied Mathematics</b>	<b>15 credits</b>
Sets, logic, mathematical induction, functions and equivalence relations. Partial orderings, algebraic structures and morphisms. Error correcting codes and public key cryptography. Graph theory.		A selection of topics which may include asymptotic analysis, the calculus of variations, integral equations and partial differential equations. Some applications to problems in engineering and physics will be discussed.	
<b>160.301 Real and Complex Analysis</b>	<b>15 credits</b>	<b>160.734 Studies in Applied Differential Equations</b>	<b>15 credits</b>
Real analysis: inequalities, the continuum property, induction, sequences, functions and limits, continuity, contraction mappings and fixed points, differentiation, mean value theorems and Taylor's theorem. Complex analysis: geometry in the complex plane, limits and continuity, holomorphic functions, line integrals, Cauchy's theorem and some elementary consequences, singularities and Laurent's theorem, the calculus of residues and some applications.		Topics in the advanced study of ordinary and partial differential equations selected from dynamical systems, chaos, Lie symmetries, and applications to mathematical modelling, physics and engineering.	
<b>160.302 Modern Algebra</b>	<b>15 credits</b>	<b>160.737 Studies in Mathematical Physics</b>	<b>15 credits</b>
Group theory - basic properties, permutation groups, finite Abelian groups, cosets, normal subgroups, homomorphism theorems, representation. Ring theory - integral domains and fields, ideals, homomorphism theorems, factorisation, extension fields.		Studies of the mathematical formulation of the physical principles required for the development of modern theories in mathematical physics. A topic or topics will be selected from areas such as Lie groups and algebras, analytical mechanics, electrodynamics, quantum mechanics and kinetic theory, together with suitable applications.	
<b>160.303 Mathematical Physics</b>	<b>15 credits</b>	<b>160.783 Mathematics Project</b>	<b>30 credits</b>
An integrated course on mathematical methods for solving problems in physics. Fundamental principles of vector calculus including the divergence theorem, Stokes' theorem, and curvilinear coordinates, an introduction to fluid dynamics, and a study of wave phenomena and electrodynamics, including Maxwell's equations.			
<b>160.314 Combinatorics</b>	<b>15 credits</b>	<b>160.870 Research Report</b>	<b>60 credits</b>
Permutations and combinations, binomial coefficients, the inclusion-exclusion principle, generating functions, recurrence relations, Polya's theorem, topics in graph theory.			
<b>160.318 Differential Equations II</b>	<b>15 credits</b>	<b>160.871 Thesis 90 Credit Part 1</b>	<b>45 credits</b>
Ordinary differential equations: series solutions, special functions, Sturm-Liouville problems, Green's functions. Qualitative analysis of non-linear equations. Partial differential equations: method of characteristics, classification of second order equations, separation of variables, Fourier transforms. Introduction to numerical methods and software.		A supervised and guided independent study resulting in a published work.	
<b>160.319 Mathematical Modelling</b>	<b>15 credits</b>	<b>160.872 Thesis 90 Credit Part 2</b>	<b>45 credits</b>
The mathematical modelling process and methodologies examined through a variety of case studies. Application of analytical techniques, numerical methods and computer software packages to the solution of differential equations, difference equations and linear and nonlinear systems.		A supervised and guided independent study resulting in a published work.	
<b>160.320 Mathematics in Education</b>	<b>15 credits</b>	<b>160.875 Thesis</b>	<b>90 credits</b>
A discussion of the fundamental questions in mathematics education concerning the nature of mathematics and the purposes of teaching mathematics.		A supervised and guided independent study resulting in a published work.	
<b>160.380 Project</b>	<b>15 credits</b>	<b>160.897 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
		A supervised and guided independent study resulting in a published work.	
<b>160.702 Advanced Algebra</b>	<b>15 credits</b>	<b>160.898 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
A selection of topics in advanced algebra which may include the following: isomorphism theorems, series of groups, Sylow theorems, classification of finitely generated abelian groups, free groups, group representations, matrix representations and characters of groups; extension fields, Galois correspondence, solvability of polynomial equations; semigroups, Green's equivalence, regular semigroups, inverse semigroups.		A supervised and guided independent study resulting in a published work.	
		<b>160.899 Thesis</b>	<b>120 credits</b>
		A supervised and guided independent study resulting in a published work.	
		<b>160.900 PhD Mathematics</b>	<b>120 credits</b>
		<b>161</b>	
		<b>Statistics</b>	
		<b>161.101 Statistics for Business</b>	<b>15 credits</b>
		An introduction to the presentation, analysis and interpretation of quantitative data. Topics include the construction of charts and summary statistics, probability, sampling, hypothesis testing, regression, time series analysis and quality management.	
		<b>161.111 Applied Statistics</b>	<b>15 credits</b>
		Statistical literacy, the ability to understand and reason with statistics and data, is becoming increasingly important as our world becomes more and more data-rich. This course focuses on developing statistical literacy in real-world contexts. We teach students to use software (Excel and RStudio) to summarise, display and analyse data. We explore data collection techniques including sampling methods and experimental design. We introduce statistical inference methods (confidence intervals, hypothesis testing and regression) with an emphasis on communicating results in context.	

### 161.120 Introductory Statistics 15 credits

Applied statistics emphasising applications in the sciences and social sciences. Use of graphs and numbers to summarise and interpret data; data collection with surveys and experiments; elementary probability and sampling distributions to describe variability; inference for means, proportions, contingency tables and regression.

### 161.122 Statistics 15 credits

Statistical literacy and data collection. Descriptive statistics and the interpretation of data, probability, random variables and probability distributions, sampling and estimation, hypothesis testing, correlation and regression, use of R software.

### 161.130 Introductory Biostatistics 15 credits

Applied statistics with emphasis on biology. Exploratory data analysis. Surveys and experiments. Elementary probability and sampling variability. Inference for means, proportions, contingency tables and regression.

### 161.140 Agri-Statistics 15 credits

An introduction to statistics in an agricultural context, including the presentation, analysis and interpretation of quantitative data.

### 161.200 Statistical Models 15 credits

The theory behind statistical modelling, and its links to practical applications. The course covers: basic probability and random variables, models for discrete and continuous data, estimation of model parameters, assessment of goodness-of-fit, model selection, confidence interval and test construction.

### 161.220 Data Analysis 15 credits

Understanding, visualising and analysing data in a practical context using R/ RStudio. Topics are selected from: data collection including experimental designs, observational studies, and surveys, data cleaning and preparation, exploratory analysis, visualisation of multivariate and time series data, regression, analysis of variance and covariance, autoregressive models and categorical data modelling.

### 161.221 Applied Linear Models 15 credits

Statistical linear models for application in science, business and social science. Topics include simple and multiple regression; linear models with categorical explanatory variables; model diagnostics; inference for linear models; polynomial regression; models for time dependence; methods for variable selection; and weighted regression.

### 161.222 Design and Analysis of Experiments 15 credits

The planning, conduct and analysis of scientific experiments, using examples from chemical, biological, genomic, and engineering sciences. Manipulation and visualisation of experimental data; advantages and disadvantages of various designs; coping with missing data and practical constraints. Introduction to design techniques and concepts including randomisation, blocking, structured treatments, balance and orthogonality, crossed and nested effects, pseudo-replication.

### 161.223 Introduction to Data Mining 15 credits

An introduction to data mining techniques; analysis of moderate to large sized datasets; data preparation; handling missing data; statistical graphics and exploratory data analysis; prediction and classification by regression modelling, neural network and tree-based methods; cluster analysis; association mining with market basket methods; extensive use of a leading software tool.

### 161.250 Data Analysis 15 credits

Biology, psychology, and other sciences require statistical methods for analysing and visualising data. This course is designed to be accessible to students from any discipline, first building a deeper understanding of fundamental statistical concepts, then teaching a range of practical approaches for exploring statistical relationships, testing hypotheses, evaluating models, and presenting conclusions.

### 161.251 Regression Modelling 15 credits

Common data analysis and regression techniques for application in science, business and social science. Topics include simple and multiple regression; linear models with categorical explanatory variables; model diagnostics; inference for linear models; polynomial regression; models for time dependence; methods for variable selection; non-linear and weighted regression.

### 161.303 Probability and Random Processes 15 credits

The principles of the theory of probability and its applications. Topics include the axioms of probability, conditional probability and independence of events; random variables and their properties; laws of large numbers and central limit theorem; simulation of random variables; theory and applications of random processes, including time series, Markov chains, the Poisson process and Brownian motion.

### 161.304 Statistical Modelling 15 credits

This course covers the ideas underlying statistical modelling, its implementation through computational methods, and links to practical applications. Topics include probability and random variables, models for discrete and continuous data, model selection, model fitting and goodness of fit, model inference, and introduction to stochastic processes.

### 161.305 Statistical Inference 15 credits

The theory underlying the methods used in statistical inference. Topics include estimation, hypothesis testing, goodness-of-fit test, likelihood, maximum likelihood estimation, likelihood ratio tests, confidence intervals and Bayesian inference.

### 161.306 Advanced Data Analysis 15 credits

Advanced tools for statistical analysis of complex situations where data may be non-normal and sampling may not be independent, identically distributed. Examples include: logistic and Poisson regression; contingency table analysis; mixed effect models for observational and experimental data; nonlinear regression; multivariate techniques; analysis of complex survey data; time series.

### 161.312 Statistical Machine Learning 15 credits

An introduction to fundamental techniques of machine learning; analysis of large datasets; supervised and unsupervised learning; reinforcement and evolutionary learning; extensive use of programming software suitable for machine learning.

### 161.321 Sampling and Experimental Design 15 credits

The implementation of appropriate sampling and experimental designs is a fundamental tool for successful research in many natural and human sciences. Topics include: the logic of scientific investigations, stratified random sampling, simple and complex ANOVA designs, fixed and random factors, nested hierarchies, interactions, mixed models, inference spaces and estimation of variance components.

### 161.322 Design and Analysis of Surveys and Experiments 15 credits

Types of data collection; limits to statistical analysis in the absence of sound statistical design. Non-sampling aspects of sample surveys, bias, design of stratified and clustered samples, analysis of survey data, and design effects for complex surveys. Principles of experimental design and analysis of variance, including randomisation, blocking, structured treatments, fixed and random effects, and crossed and nested effects.

### 161.323 Multivariate Analysis 15 credits

This course teaches methods to understand patterns and structures inherent in data sets containing many variables. The fundamentals of data visualisation, clustering, and dimension reduction with examples taken from a range of applications.

### 161.324 Data Mining 15 credits

A practical approach to data mining with large volumes of complex data; prepare, cleanse and visualise data; supervised and unsupervised modelling; ensemble and bundling techniques; use of leading software tools.

### 161.325 Statistical Methods for Quality Improvement 15 credits

A comprehensive introduction to statistical process control, industrial experimentation and other methods of quality improvement and management. Topics covered include a brief introduction to quality, total quality management, simple tools for quality improvement and ISO 9000. The major topics covered are control charts, process capability, factorial experiments, fractional replication of  $2^k$  design, response surface methods, Taguchi methods and acceptance sampling. Special emphasis will be given to the use of appropriate statistical software.

### 161.327 Generalised Linear Models 15 credits

Fitting models where Normality cannot be assumed. Applications include exponential lifetimes, binary survivals, Poisson accidents and contingency tables. Practical examples will be analysed with a computer package.

<b>161.331 Biostatistics</b>	<b>15 credits</b>	<b>161.744 Statistical Genetics</b>	<b>15 credits</b>
Sciences such as biology and medicine yield data that require a wide range of statistical techniques, including standard linear models and their extensions. Case studies are used to demonstrate topics such as nonlinear regression, linear models for binary and count data, and mixed effects models. Emphasis is placed on application of appropriate statistical techniques through extensive use of statistical software.		Statistical methods for biological sequence analysis, analysis of gene expression data, and inference of biological networks. Applications will also be described in evolution and population genetics.	
<b>161.342 Forecasting and Time Series</b>	<b>15 credits</b>	<b>161.762 Multivariate Analysis for Big Data</b>	<b>15 credits</b>
A practical course on analysing data that arise sequentially in time (e.g. sales figures, precipitation, crime rates, census figures, share prices, etc.). Detecting trends and underlying seasonal patterns; Box-Jenkins methodology, autoregressive and moving average processes; exponential smoothing, classical decomposition and regression methods; introduction to multivariate time series; simulation.		Research methods suitable for the analysis of big datasets containing many variables. The fundamentals of data visualisation, customer segmentation, factor analysis and latent class analysis with examples taken from business and health fields. Emphasis will be placed on achieving a conceptual understanding of the methods in order to implement and interpret the outcomes of multivariate analyses.	
<b>161.380 Statistical Analysis Project</b>	<b>15 credits</b>	<b>161.770 Statistical Consulting</b>	<b>15 credits</b>
The course provides an opportunity for students to gain statistical research experience. Working with an academic staff member, students will develop a short research proposal, carry out the proposed research, and present their findings in an agreed manner.		Students are given the opportunity to serve as a consultancy intern with close supervision of staff involved in consultancy activities. Instruction and experience in consultant/client interaction, communication skills, statistical practice, statistical computation and technical writing.	
<b>161.382 Statistical Analysis Project</b>	<b>30 credits</b>	<b>161.777 Practical Data Mining</b>	<b>15 credits</b>
The course provides an opportunity for students to gain statistical research experience. Working with an academic staff member, students will develop a short research proposal, carry out the proposed research, and present their findings in an agreed manner.		A practical approach to data mining with large volumes of complex data; prepare, cleanse and explore data; supervised and unsupervised modelling with association rules and market basket analysis, decision trees, multi-layer neural networks, k-nearest neighbours, k-means clustering and self-organising maps, ensemble and bundling techniques, text mining; use of leading software tools; business examples and research literature.	
<b>161.390 Special Topic</b>	<b>15 credits</b>	<b>161.780 Statistical Analysis Project</b>	<b>15 credits</b>
<b>161.391 Special Topic</b>	<b>15 credits</b>	The course provides an opportunity to gain statistical research experience. Under supervision of academic staff, students will develop a short research proposal, carry out the proposed research, and write a research report.	
<b>161.704 Bayesian Statistics</b>	<b>15 credits</b>	<b>161.782 Statistical Analysis Project</b>	<b>30 credits</b>
Introduction to the Bayesian paradigm. Markov Chain Monte Carlo estimation using WinBUGS. Comparison with frequentist statistics. Noninformative and improper priors. Inference and model selection. Linear and generalized linear models. Hierarchical Bayes.		The course provides an opportunity to gain statistical research experience. Under supervision of academic staff, students will develop a short research proposal, carry out the proposed research, and write a research report.	
<b>161.705 Advanced Statistical Inference</b>	<b>15 credits</b>	<b>161.871 Thesis 90 Credit Part 1</b>	<b>45 credits</b>
Properties of estimators: unbiasedness, consistency, efficiency and sufficiency. Methods of estimation with particular emphasis given to the method of maximum likelihood. Hypothesis testing and interval estimation. Nonparametric tests. Computationally intensive methods such as numerical likelihood estimation and Monte Carlo inference. Resampling methods.		A supervised and guided independent study resulting in a published work.	
<b>161.709 Topic in Statistical Theory</b>	<b>15 credits</b>	<b>161.872 Thesis 90 Credit Part 2</b>	<b>45 credits</b>
A topic in the theory of statistics, such as probability theory, Bayesian statistical theory, statistical decision theory, martingales and stochastic integrals.		A supervised and guided independent study resulting in a published work.	
<b>161.725 Statistical Quality Control</b>	<b>15 credits</b>	<b>161.875 Thesis</b>	<b>90 credits</b>
Revision of statistical process control procedures, evaluation of control chart performance and statistical design of charts, control of high quality process, multivariate process control, new process capability indices, statistical intervals. Industrial experimentation topics, evolutionary operation, analysis of means (ANOM) etc. Revision of acceptance sampling, continuous and special purpose sampling plans. Use of statistical packages.		A supervised and guided independent study resulting in a published work.	
<b>161.729 Topics in Applied Statistics</b>	<b>15 credits</b>	<b>161.893 Research Report</b>	<b>60 credits</b>
A topic in the application of statistics such as non-parametric statistics, multiple comparisons, analysis of complex sample survey data.			
<b>161.731 Biostatistics for Researchers</b>	<b>15 credits</b>	<b>161.897 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
Statistical techniques for the biological, medical and other life sciences. Case studies are used to demonstrate topics such as experimental design, multivariate methods, linear models with normal and non-normal errors, nonlinear regression, and mixed effects models. Emphasis is placed on application of appropriate statistical techniques through extensive use of statistical software, and implementation of these techniques in a research project.		A supervised and guided independent study resulting in a published work.	
<b>161.743 Statistical Reliability and Survival Analysis</b>	<b>15 credits</b>	<b>161.898 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
Lifetime data occur in a wide variety of contexts: medical, demographic, industrial, economic. This course gives an introduction to the theory and practice of analysing lifetime data, commonly called survival analysis in medical contexts and reliability analysis in engineering.		A supervised and guided independent study resulting in a published work.	
		<b>161.899 Thesis</b>	<b>120 credits</b>
		A supervised and guided independent study resulting in a published work.	
		<b>161.900 PhD Statistics</b>	<b>120 credits</b>
		Each project is an individualistic effort on the part of the student in collaboration with a supervisor. The type of project and the work to be carried out will be decided jointly by the student and the supervisor.	
		<b>162</b>	
		<b>Biology</b>	
		<b>162.101 Cell Biology</b>	<b>15 credits</b>
		An introduction to the cellular basis of life. Spanning eukaryotic and prokaryotic cells; cellular structure and function; core biochemical components; mechanisms for generating genetic diversity; the flow of information within cells and between generations; gene expression; and a survey of the landscape of modern genomics, this course provides the conceptual foundation for subsequent courses on molecules, cells and organisms.	

**162.103 Introductory Biology 15 credits**

An introductory course in biology suitable for students with little previous experience in the subject. Topics include: the diversity of life; cells as the basic unit of life; form and function of cells, microbes, animals and plants; DNA and molecular genetics; classical genetics; evolution and ecology.

**162.211 Biology and Genetics of Microorganisms 15 credits**

Structure and metabolism of bacteria and their relation to the environment. Bacterial genetics. Eukaryote microbes - structure, physiology and genetics. Life cycle of viruses. Practical training in the manipulation of micro-organisms.

**162.212 The Microbial World 15 credits**

Microbiology as an integrated study of the diversity of micro-organisms and microbial environments. The range of microbial cell structures and metabolism is described in relation to environmental niches, and the molecular mechanisms for responding to environmental change. Actions and interactions of micro-organisms in soil and water.

**162.214 Biology of Microorganisms 15 credits**

Structure and metabolism of bacteria with particular reference to food and environmental microbiology. Bacterial genetics. Eukaryote microbes - structure, physiology and genetics. Life cycle of viruses. The immune response. Practical training in the manipulation of micro-organisms.

**162.215 Microbial Diversity 15 credits**

This course introduces students to the basic principles of microbiology, taking an integrative approach that bridges the fields of molecular biology, environmental science, and medicine. Students will learn what microorganisms are (identification, phylogeny, genome structure, and regulation), how they make a living (their diverse roles in ecosystems: from free-living to symbiotic to pathogenic), and the contributions that microorganisms have made to problems in medicine, agriculture, and the environment. Content will cover all major groups of microorganisms, including bacteria, archaea, viruses, and eukaryotes (protists and fungi). Laboratories will integrate these learning objectives as students isolate and characterize microorganisms and use real-world bioinformatics approaches to annotate genomes.

**162.221 Immunology 15 credits**

The course explores the cell types involved in the mammalian immune system. It allows students to learn about the principles of immunology including innate immunity, cell and antibody mediated immunity, the major histocompatibility complex, transplantation immunology, hypersensitivities, immunodeficiency and autoimmunity. The course provides an introduction to vaccines, clinical immunology and immunological laboratory tests.

**162.283 Medical Microbiology 15 credits**

An introduction to the general principles of host-pathogen interaction for some major groups of bacteria and fungi pathogenic for humans. Detection of pathogens in clinical specimens. Sterilisation, disinfection and control of microbial growth. Antimicrobial agents, resistance to antimicrobial agents and antimicrobial susceptibility testing.

**162.301 Medical Microbiology 15 credits**

Some major bacterial pathogens of humans in terms of the organisms, their habitats, modes of transmission, disease patterns and laboratory diagnosis. The structure, classification, propagation, assay and transmission of some of the major viruses of humans. Immunity to viruses and the laboratory diagnosis of viral infections.

**162.303 Immunology 15 credits**

The principles of immunology including innate immunity, cell and antibody mediated immunity, the major histocompatibility complex, the hypersensitivities, immunodeficiency and autoimmunity. An introduction to vaccines, clinical immunology and immunological laboratory tests.

**162.304 Applied and Environmental Microbiology 15 credits**

Actions and interactions of micro-organisms in soil, water, air, food, and the animal and human gut; consequences and applications of microbial colonisation processes.

**162.320 Advanced Integrative Biology 15 credits**

The scales of biological organisation, including molecular, cellular, organismal, ecological and global levels are intricately linked to one another. This advanced and interdisciplinary course will allow students to learn about and explore the integrated nature of the biological sciences through lectures,

laboratories and a research project. Each year a central theme will be chosen that affects all levels of biological organisation. Appropriate themes might include antibiotics, vaccination, mercury or carbon monoxide. The laboratory will focus on acquiring practical skills for investigating the theme and allow students to design and carry out a small practical research project.

**162.704 Current Topics in Microbiology 30 credits**

Current topics in microbiology covering topics in pathogenicity, biofilms, host interactions and industrial applications.

**162.760 Research Methods and Communication in the Biosciences 30 credits**

A directed course in research methodology and communication in biosciences. Assignments may include a research proposal, a literature review, scientific writing for a journal and a formal seminar presentation.

**162.761 Research Methods and Written Communication in Biosciences 15 credits**

A directed course in research methodology and written communication in the biosciences. Assignments may include a literature review and writing of a manuscript suitable for publication in a scientific journal.

**162.762 Grant Writing and Oral Communication in Biosciences 15 credits**

A directed course in applying for funding and oral communication in biosciences. Assignments may include a research proposal and a formal seminar presentation.

**162.798 Research Report 30 credits****162.870 Research Report 60 credits****162.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**162.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work

**162.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**162.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**162.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**162.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**162.900 PhD Microbiology & Genetics 120 credits****167****Museum Studies****167.742 Collection Management 30 credits**

An examination of the following areas of museological theory and practice: material culture; recent research into private collecting; preventive conservation; collection management policy and practice; contemporary collection management issues including collection rationalisation, contemporary collecting, and the changing roles of curators and collection managers.

**167.743 Museum Management 30 credits**

An examination of museum organisation, governance, policy development, strategic planning, marketing, financial management, project management and personnel management. Practical skills in budgeting, grant writing, reports and presentations will be taught.

**167.744 Museums and the Public 30 credits**

An examination of the philosophy, strategies and practical processes of effectively interpreting and communicating museum programmes for a variety of audiences.

**167.800 MPhil Thesis 120 credits**

Experienced museum professionals may apply for ad eundem status entry to the MPhil by thesis only. Anyone who has graduated with the Diploma in Museum Studies and who wants to complete a Masters Degree in Museum Studies must enrol in the MPhil by thesis only.

**167.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**167.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**167.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**167.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**167.881 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**167.882 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**167.883 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**167.890 Advanced Research Practicum 60 credits**

A single semester internship at an approved museum or other heritage organisation, including marae. Students wishing to enrol in this course should contact the programme coordinator at the earliest opportunity. Students must work full-time on this practicum which may be used to complement 167.896, thus forming a single project worth 120 credits.

**167.896 Research Report Museum Studies (60) 60 credits**

Students intending to enrol in this course should write to the programme coordinator of Museum Studies at the earliest opportunity. A dissertation proposal must be submitted by 1 April in the year of enrolment and approved by the Museum Studies Research Committee. A dissertation of not more than 20,000 words must be submitted by 10 October in the year of enrolment.

**167.899 Thesis 120 credits**

Any student planning to enrol in the MA Thesis should advise the programme coordinator of Museum Studies in writing in the year before enrolment. A local supervisor may also be arranged. Students may enrol part-time and complete the thesis over two years. A thesis of approximately 30,000 words will be submitted. A thesis proposal must be submitted before 1 April in the year of enrolment and approved by the Museum Studies Research Committee. Selection of a thesis supervisor should be discussed with the programme coordinator of Museum Studies.

**167.900 PhD Museum Studies 120 credits****168****Nursing****168.161 Research and Scholarly Writing in Nursing 15 credits**

An exploration of concepts related to research necessary for evidence-based practice for nurses at an introductory level.

**168.162 Nursing Fundamentals 15 credits**

Fundamental nursing skills are taught and practised in a simulated environment, and legal and ethical issues are considered. A practicum is included to practise and apply fundamental nursing interventions.

**168.163 Health Across the Lifespan I 15 credits**

Guided by theories of human development, this course explores the concepts of health and wellness, and introduces the Aotearoa/New Zealand health care system. It includes exploring the nurse's role in promoting health from the age of 24 until death.

**168.164 Health Across the Lifespan II 15 credits**

Guided by theories of human development, this course explores the concepts of health and wellness from the pre-conceptual period until the age of 24. It

includes the exploration of the nurse's role in promoting health across this specific age range.

**168.165 Health Assessment and Clinical Decision-making I 15 credits**

Introduction of the theory and skills required to undertake a systematic health assessment related to healthy adults. A practicum is included to consolidate fundamental nursing skills as well as apply a range of health assessment skills.

**168.171 Professional Nursing I 15 credits**

A focus on professional identity and the context of nursing in Aotearoa New Zealand.

**168.172 Nursing Practice I: Foundations of Care 15 credits**

An introduction to the experience and reflection on beginning knowledge, skills and attributes within simulated nursing settings.

**168.173 Nursing Practice II: Foundations of Practice 30 credits**

Further development of the experience and reflection on knowledge, skills and attributes within simulated and placement settings.

**168.261 Nursing Research and Evidence-based Practice 15 credits**

A detailed critique of research methods in nursing, and the relevance and impact of evidence-based approaches on health care practice.

**168.262 Nursing People with Long Term Conditions 15 credits**

An exploration of nursing theory and practice as it relates to persons, their families/whanau, and communities adapting to long-term physical health conditions or disability. A practicum is included to gain nursing experience in the context of long term conditions.

**168.263 Mental Health and Addictions Nursing I 15 credits**

An exploration of nursing theory and practice as it relates to interpersonal skill development and working alongside persons, their families/whanau, and communities adapting to mental health conditions. A practicum is included to gain nursing experience in the context of long term mental health conditions.

**168.264 Primary Health Care and Health Promotion 15 credits**

An exploration and application of the principles of primary health care and health promotion for persons, their families/whanau, and communities. A practicum is included to gain nursing experience in the primary health care context.

**168.265 Health Assessment and Clinical Decision-making II 15 credits**

Consolidating and expanding health assessment theory and skill through focussing on a range of ill-health conditions.

**168.266 Professional Nursing Practice 15 credits**

A critical exploration of ethical concepts and legal requirements for nursing as a regulated profession.

**168.271 Professional Nursing II 15 credits**

Explore in more depth an emerging professional identity and the complexities of the nursing context in Aotearoa New Zealand.

**168.272 Nursing Practice III: Integrated Care 60 credits**

Learners experience and reflect on integrated knowledge, skills and attributes within simulated and multiple placement settings.

**168.273 Evidence-based Nursing Practice 15 credits**

An exploration of the relevance and impact of evidence-based nursing on practice.

**168.361 Preparing for Professional Practice 15 credits**

A critical exploration of contemporary health care structures and governing bodies that influence professional nursing.

**168.362 Nursing People with Acute Conditions 30 credits**

Nursing practice is examined in regard to care for people and their families/whanau experiencing episodes of acute physical illness or trauma. A practicum is included to consolidate nursing skills in the acute medical/surgical care context.

**168.363 Mental Health and Addictions Nursing II 15 credits**

Nursing practice is examined in regard to care for people and their families/whanau experiencing episodes of acute mental distress across the age continuum including the selection, and application of diagnostic screening

tools for clinical decision-making. A practicum is included to gain experience and apply nursing skills in the acute care context.

**168.364 Pre-graduate Nursing Practice 30 credits**

The practicum experience consolidates working realities of a novice nurse in a clinical setting.

**168.365 Leadership and Management in Nursing 15 credits**

An exploration of contemporary nursing leadership and management.

**168.366 Contexts of Nursing Practice 15 credits**

A critical examination of care delivery in specialist settings of nursing practice.

**168.371 Professional Nursing III 15 credits**

Advancement of a developing nursing professional identity within the complexities of the global community.

**168.372 Nursing Practice IV: Acute Care 45 credits**

An advanced experience and reflection on knowledge, skills and attributes focused on acute care to care for individuals and whānau within simulated and multiple placement settings.

**168.373 Preparing for Professional Excellence 15 credits**

An opportunity for students to consolidate learning from practice and theory to further their professional identity, sense of agency and contribution to the global nursing community.

**168.374 Nursing Practice V: Pre-Graduate 45 credits**

Students begin the transition to registered nurse practice and meet Nursing Council of New Zealand competencies.

**168.702 Issues in Nursing 30 credits**

Topics relevant to study and/or research into selected aspects of Nursing are investigated.

**168.703 Managing Long Term Conditions 30 credits**

The multidimensional aspects of managing long term conditions within contemporary society, including self-management and models of chronic care, are examined and applied to improve health service delivery, and optimise health and independence.

**168.709 Contemporary Clinical Teaching 30 credits**

An examination of a range of theoretical perspectives and sociopolitical factors underlying approaches to clinical teaching and learning. Alternative approaches to the design and delivery of practice-based education are explored.

**168.711 Health Research Design and Method 30 credits**

Philosophical, ethical and methodological issues in relation to health research are examined. Selected quantitative and qualitative methods are explored in depth, in preparation for developing a research proposal for a thesis, or research project.

**168.712 Pain Management 30 credits**

The multidimensional aspects of pain management including physiological and psychological components are examined. This knowledge is applied to refine nursing interventions in order to manage the pain experienced by people with acute or chronic ill-health conditions and those receiving palliative care.

## Health

**168.713 Evidence-Based Practice 30 credits**

Evidence based practice (EBP) is an approach to problem solving and service provision based on the integration of “best evidence” with expert opinion and client/consumer perspectives. Students will develop EBP skills needed to critically evaluate information available from research findings, professional consensus statements and other sources of information, as well as communicating the results.

## Nursing

**168.714 Advanced Assessment and Therapeutic Intervention in Mental Health 30 credits**

Health assessment across the age continuum including physical assessment, assessment of mental status and the selection and application of diagnostic

tools for clinical decision-making. A range of therapeutic modalities for working with people in crisis and those living with enduring mental illness is introduced (includes 25 hours lab/practicum).

**168.717 Applied Ethics for Professional Practice 30 credits**

Critique of a range of philosophical approaches and practical ethical decision-making frameworks, focussed on practice application across diverse nursing roles. Particular attention is brought to nurses’ role as moral agents in ‘everyday’ practice. Significant themes include social justice; links between biculturalism, cultural safety and ethics; and the ethical implications of the socio-political context of contemporary healthcare.

**168.719 Clinical Specialty: Older Persons’ Health 30 credits**

Selected modules related to providing a health service to older people are offered. The specialist knowledge base and skills for working in a variety of older persons’ health settings will be critically examined and their application in particular practice contexts explored.

**168.720 Clinical Specialty: Mental Health 30 credits**

A range of therapeutic modalities including family therapy and cognitive therapy are examined and their application in particular practice contexts explored. Optional modules are offered in selected areas of advanced speciality practice, e.g. youth and adolescent services, alcohol and drug services, Māori or Pacific Island services, and the knowledge base and skills for practice in each setting are examined.

**168.721 Māori Centred Practice 30 credits**

Strategies for the development of a Māori-centred approach to nursing practice will be examined. Partnership frameworks will be developed based on Māori aspirations and strengths with the aim to achieve positive health outcomes for Māori.

**168.722 Wound Management 30 credits**

The multidimensional aspects of wound management including physiological, pathophysiological and psychological components are examined and applied in the clinical practice setting.

**168.724 Primary Health Care Nursing 30 credits**

A critical examination of primary health care nursing practice in the New Zealand context. The course addresses the notion of aligning nursing practice with community need as understood through the lens of the social determinants of health.

**168.728 Assessment and Clinical Decision-Making 30 credits**

Development of advanced nursing practice knowledge and skills and comprehensive holistic health assessment and clinical decision-making.

**168.731 Leadership in Nursing 30 credits**

Leadership in professional practice is explored within the broader context of health care. The course critically examines the political, legislative, economic, ethical and cultural issues influencing nursing leadership and the provision of health services within particular scopes of practice.

**168.733 Physiology and Pathophysiology 30 credits**

Translational and clinically relevant physiological and pathophysiological concepts as they apply to nursing practice are examined. Selected signs/symptoms are considered in terms of physiological processes at biochemical, cellular and functional levels. The emphasis is on normal physiological processes and their possible subsequent development to pathophysiological phenomena.

**168.734 Clinical Pharmacology 30 credits**

Pharmacology topics relevant to advanced nursing practice are critically examined. These include pharmaceuticals, pharmacodynamics, pharmacokinetics and a range of pharmacotherapeutic topics.

**168.740 Critical Knowledge for Nursing (Bioscience) 15 credits**

An exploration of physiology including an overview of basic function of cells, tissues organs and their role in the human body to maintain homeostasis.

**168.742 Fundamental Partnerships I 30 credits**

Introduction into the fundamentals of care framework (evidence-based nursing framework) as a platform to partner with individuals and whānau to promote wellness in nursing relationships. A practicum is included to gain nursing experience in the context of human wellness.

**168.743 Fundamental Partnerships II 30 credits**

An exploration of the fundamentals of care (evidence-based nursing framework) as it relates to altered health status using a body systems approach. A practicum is included to gain nursing experience in the context of long-term conditions and primary health.

**168.744 Professional Issues 15 credits**

Introduction to the professional discipline of nursing including the regulatory, legal and ethical dimensions of practice.

**168.745 E-Health and Technology in Nursing 15 credits**

Critical evaluation of the desired and unseen effects of technology in nursing including the status of technology and its role in creating an information-literate nursing workforce.

**168.746 Social Justice and Citizenship 15 credits**

Critical consideration of our individual and collective response to vulnerable and marginalised populations to lead in the reduction of health inequity and promote wellbeing.

**168.747 Complex Partnerships I 45 credits**

Nursing practice is examined in relation to caring for people and their whānau experiencing acute distress, illness or trauma across the age continuum. A practicum is included to gain experience and apply nursing knowledge, skills and attributes in the acute care context.

**168.748 Complex Partnerships II [Transition to Practice] 30 credits**

An extended practicum experience designed to consolidate theory and practice and support working realities for a novice nurse in a clinical setting.

**168.750 Registered Nurse Prescribing Practicum 30 credits**

A supervised placement in an approved setting in which assessment, clinical decision-making and prescribing is undertaken in accordance with the Nursing Council of New Zealand competencies for registered nurse prescribing practice.

**168.796 Health and Well-being of Children and Young People 30 credits**

A course designed to equip nurses with knowledge and skills to address the inequities in health that children and young people face on an individual level, nationally and internationally, and to understand the significance of the Sustainable Development Goals (SDGs) for future generations.

**168.802 Advanced Topics in Nursing 30 credits**

Critical reviews, complex case studies, advanced study and/or research into selected aspects of Nursing.

**168.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**168.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**168.820 Scholarship for Clinical Practice 15 credits**

Scholarship through evidence-based practice is examined as a conscientious, problem-solving approach to nursing that incorporates the best evidence from peer reviewed research, patient values and preferences, and a clinician's expertise in making decisions about a patient's care.

**168.821 Leadership in Nursing Practice Project 30 credits**

An in-depth, evidence-based exploration of the potential for change in practice in the clinical environment.

**168.860 Prescribing and Advanced Practice for Nurse Practitioners 60 credits**

A supervised practicum in an approved setting in which assessment, clinical decision-making and prescribing is undertaken in accordance with the Nursing Council of New Zealand competencies for nurse practitioners.

**168.861 Clinical Project for Nurses 60 credits**

The clinical project requires the student to negotiate, plan and implement a project in a clinical setting that meets an identified need related to leading change, quality processes, education or praxis. The project will be guided by an appropriate theoretical perspective and includes a critical review of relevant literature that informs the project purpose and outcomes.

**168.890 Research Report 60 credits**

A supervised and guided independent research project.

**168.896 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**168.897 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**168.898 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**168.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**168.900 PhD Nursing 120 credits****170****Women's Studies****170.102 Women of Ideas and Action 15 credits**

An introduction to some important feminist thinkers and activists from a range of cultures, employing an interdisciplinary approach to the study of their fiction, theory and activism. The women featured are contextualised in their historical and social milieus and their achievements are studied in relation to the social status of women and the development of feminism in their cultures.

**170.201 What is Feminism? 15 credits**

An examination of feminist theories of gender and gendered social relations and the method of gender analysis.

**171****Agriculture/ Horticulture Plants****171.798 Research Report MSc 30 credits****171.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**171.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**171.873 Thesis 90 Credit Part 1 (30 credits) 30 credits**

A supervised and guided independent study resulting in a published work.

**171.874 Thesis 90 Credit Part 2 (60 credits) 60 credits**

A supervised and guided independent study resulting in a published work.

**171.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**171.887 Research Report 60 credits****171.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**171.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**171.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**171.900 PhD Plant Science 120 credits**

## 172

## Linguistics

**172.131 Language and Communication 15 credits**

An introduction to language with particular emphasis on spoken communication.

**172.133 Introduction to Language Studies 15 credits**

Introductory skills of analysing language, at the level of discourse, morphology, syntax, semantics and phonology.

**172.231 Linguistics for Speech Therapists 15 credits**

This course examines the morphology, grammar and discourse structure of spoken language with an emphasis on speech therapy

**172.232 Language and Society in New Zealand 15 credits**

An introduction to sociolinguistics with particular reference to New Zealand: focussing on language and social interaction, regional and social variation in language use, bilingualism and the status of minority languages, and the sociolinguistics of te Reo Māori.

**172.233 Language Learning Processes 15 credits**

An introduction to approaches and theories in applied linguistics with particular focus on language learning processes.

**172.234 Phonetics 15 credits**

A study of the sounds of language and an introduction to the acoustic analysis of speech.

**172.235 Linguistic Analysis of the English Language 15 credits**

An introductory course in linguistic analysis of the English language covering the fundamental concepts of morphology, phonetics, phonology, and syntax.

**172.236 Forensic Linguistics 15 credits**

An introduction to the study of forensic linguistics, focussing on a variety of business and legal contexts and related ethical issues.

**172.237 Language, Discourse and Power 15 credits**

An introduction to critical discourse analysis, exploring how language is used in the reproduction of social inequalities.

**172.239 Language and Culture 15 credits**

An examination of the interrelationship between/of language and culture through a study of various elements of language, language use and language acquisition in a wide range of cultural contexts.

**172.330 Sounds and Structures 15 credits**

Introduces theoretical approaches to phonology and syntactic/grammatical structures and their interfaces.

**172.333 Discourse and Institutions 15 credits**

A critical examination of public and private-sphere discourses in institutional contexts through linguistic theories and methods.

**172.335 Language and Identity 15 credits**

An advanced sociolinguistic study of how language is used to represent and construct aspects of identity relevant to particular social interactions, including the individual's ability to negotiate multiple forms of identity and belonging.

**172.336 Languages of the Pacific 15 credits**

An examination of the three major language subgroups spoken in the Pacific, focussing on their formal elements, the relationship between language and society, and the linguistic consequences of the encounter between Pacific peoples and speakers of non-Pacific languages.

**172.337 Historical and Comparative Linguistics 15 credits**

An advanced study of historical language change and language relationships. The course examines reasons for and types of language change, and methods for reconstructing earlier language forms.

**172.338 Language, Diversity and Mediated Communication 15 credits**

An examination of one-to-many communication in the Web and mediated contexts, focussing on globalised and transcultural communication of linguistic perspectives.

**172.712 Multimodal Discourse Analysis 30 credits**

This course examines communication as a multimodal phenomenon, assessing space and time as key variables in the production of written and spoken utterances.

**172.713 Language and Communication in Late Modernity 30 credits**

This course examines the linguistic construction of some key themes that have emerged in late modernity such as globalising panic, emotions and the imperative to feel, the discursive construction of the body, discourse and the late modernity.

**172.799 Research Report 30 credits**

The supervised undertaking of an original piece of research into discourse and communication from a linguistic perspective.

**172.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**172.816 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**172.817 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**172.850 Thesis 120 credits**

The supervised undertaking of an original piece of research into discourse and communication from a linguistics perspective.

**172.851 Thesis 120 Credit Part 1 60 credits**

The supervised undertaking of an original piece of research into discourse and communication from a linguistics perspective.

**172.852 Thesis 120 Credit Part 2 60 credits**

The supervised undertaking of an original piece of research into discourse and communication from a linguistics perspective.

**172.855 Master of Communication Research Project 60 credits**

An applied research project involving the critical evaluation and application of selected research methodologies to address communication-related challenges.

**172.899 Thesis 120 credits****172.900 PhD Linguistics 120 credits**

## 175

## Psychology

**175.101 Psychology as a Social Science 15 credits**

An introduction to psychology as the scientific study of human behaviour, with emphasis on individual differences and social influences. The course aims to develop an awareness of the issues, terminology, methods and techniques involved in the study of human behaviour.

**175.102 Psychology as a Natural Science 15 credits**

An introduction to methods and findings from the scientific study of psychology and its application to everyday human behaviour. Examination of basic behavioural, perceptual and cognitive processes and how these are influenced by biological mechanisms and cultural context.

**175.103 Introduction to Indigenous Psychologies 15 credits**

The course provides foundational content of indigenous psychologies, including the rationale for their inclusion in the discipline of Western Psychology, as well as overviews of their application across multiple domains (e.g., health, education, social, policy, etc) in Aotearoa New Zealand specifically, and more generally in other cultural contexts across the globe.

- 175.201 Social Psychology** **15 credits**  
A survey of contemporary experimental social psychology. Against this backdrop critical perspectives are introduced with particular emphasis on the practice of discursive psychology in the New Zealand context.
- 175.203 Introduction to Psychological Research** **15 credits**  
An introduction to methods commonly used in psychological research with particular emphasis on measurement, study designs, data analysis, and communicating research results.
- 175.205 Brain and Behaviour** **15 credits**  
An introduction to basic biological processes underpinning behaviour and what happens when these processes are disrupted. Students will develop critical thinking and effective communication skills (both verbal and written) in relation to biological psychology.
- 175.206 Memory and Cognition** **15 credits**  
The central goal of the course is to consider how knowledge is represented and processed in the brain. Students will be introduced to the mental processes involved in thinking and knowing, studied within a converging methods framework that includes evidence from experimental psychology, neuroscience, neuropsychology, and cognitive science.
- 175.210 Ngā Tirohanga Rua o te Taha Hinengaro: Bicultural Perspectives in Psychology** **15 credits**  
This course examines Māori worldviews within the context of psychology in Aotearoa/New Zealand. Māori psychological theories provide valuable insights into an understanding of well being, spirituality, and familial relationships. Students are given guidance on how to competently implement this knowledge to encourage biculturalism in psychological practice, teaching, and research.
- 175.301 Community Psychology** **15 credits**  
Community psychology focuses on people within the contexts of social settings and systems, that is, in ecological relationships with social and physical environments. Conceptual frameworks, the roles of research and practice, and specific intervention strategies developed and used by community psychologists will be among topics considered.
- 175.302 Introduction to Clinical Psychology** **15 credits**  
This course provides an introduction to clinical psychology and mental distress, with an emphasis on current thinking and research in the field. The course examines the core concepts in defining and classifying mental distress, some of the major psychological disorders across the lifespan, and empirically supported approaches to explaining mental illness, and treatments aimed at supporting people towards recovery.
- 175.303 The Practice of Psychological Research** **15 credits**  
Study of the practice of psychological research. Students undertake a range of exercises and class projects to develop practical research skills.
- 175.304 The Psychology of Security** **15 credits**  
An exploration of how psychology can be utilised to improve our understanding of, and responses to, the various security challenges posed by the contemporary environment.
- 175.306 Assessment of Individual Differences** **15 credits**  
Study of the basic concepts of psychological testing within the broad context of the assessment of individual and group differences. Examination of the rationale behind testing and its application to a wide range of assessment situations.
- 175.309 Forensic Psychology** **15 credits**  
The focus of this course is to study the issues and controversies in contemporary relationships between psychology and law. The diversity of the field of forensic practice is reflected in the topics covered, and the themes of violence and justice are used to represent the multidisciplinary influences at the nexus of psychology and law within mental health and legal systems.
- 175.311 Psychology of Women** **15 credits**  
A theory and research-based examination of the Psychology of Women as a sub-discipline with particular focus on how research in the field challenges gender biases and social assumptions. The history of the field is illustrated by classic and contemporary examples of research methodologies suitable for critical studies of sexuality, mothering and gender-based violence.
- 175.313 Gender and Violence** **15 credits**  
A critical, research-based examination of the forms and prevalence of gendered violence, and an examination of selected legislation and intervention practices advocated for reducing and eliminating gendered violence in Aotearoa New Zealand.
- 175.314 Advanced Indigenous Psychologies** **15 credits**  
The course provides advanced content of indigenous psychologies, including their specific application in the theory, research and practice of psychology across multiple domains (e.g., health, education, social, policy, etc) in Aotearoa New Zealand specifically, and more generally in other cultural contexts across the globe.
- 175.316 Evolution, Culture and Mind** **15 credits**  
An evolutionary approach to viewing humans as a species socialized into meaning-making, focusing on biological, cultural, and evolutionary bases of human behaviour, and on applying different approaches to culture to understand the self, and the functioning of societies and culture.
- 175.317 Health Psychology** **15 credits**  
This course consists of an introduction to and critique of general theories and models that have been used to understand, describe, predict and change behaviours related to health and illness and health promotion. It has a strong focus on the application of health psychology in the New Zealand context.
- 175.318 Experimental Psychology** **15 credits**  
An examination of cognitive, neuropsychological and electrophysiological techniques of experimental psychology through a hands-on approach.
- 175.343 Personnel Psychology and Career Development** **15 credits**  
Study of applied aspects of individual differences in organisations. Issues such as selection and training, performance evaluation, occupational health and vocational and career development will be studied.
- 175.345 Organisational Psychology** **15 credits**  
An introduction to key concepts within organisational psychology, concentrating on the interplay between theoretical issues and practical concerns. Students will be enabled to critically evaluate the implications which different psychological perspectives have for understanding organisational problems.
- 175.718 Postmodernism and Psychology** **15 credits**  
The course will focus on some of the ways in which the cultural phenomenon labelled as 'postmodernism' has impacted on/in psychology, with particular emphasis on the poststructuralist theories through which postmodern psychology is developing.
- 175.719 Applied Criminal Psychology** **15 credits**  
An advanced study of the aetiology of recurrent criminal behaviour with reference to cultural and ethnicity issues, familial and societal factors, and cognitive and psychopathological correlates. The underlying emphasis of the course is offender rehabilitation.
- 175.720 Advanced Psychology of Women** **15 credits**  
This course examines contemporary theoretical studies in the psychology of women. It is an advanced study of the history of women in psychology and critiques traditional approaches to research on women and girls. It includes three contemporary approaches focusing on specific areas of concern in the sub-discipline at present.
- 175.721 Child and Family Therapy** **15 credits**  
The course covers a variety of theoretical frameworks which are used in working with children and families. An in-depth case study approach will be used to develop students' skills in working with children and families. The course is designed to build on the students prior knowledge of developmental and abnormal psychology.
- 175.722 Principles of Clinical Neuropsychology** **15 credits**  
This course will focus on the principles of neuropsychological assessment, as they apply across the life span. Factors which influence neuropsychological functioning will be considered including neuroanatomy, cognitive functioning and the conditions that influence these factors.
- 175.724 Advanced Experimental Psychology** **30 credits**  
This course provides an advanced overview of the theoretical and methodological issues that define contemporary experimental psychology with particular focus on affective, cognitive, and social psychology.

**175.725 Advanced Social Psychology 30 credits**

Identity, emotions, prejudice and attitudes are not things hiding in the person which the psychologist can 'discover' but are created by the language which is used to describe them. This course introduces students to discursive psychology in the context of social psychology. The 'turn to language' challenges previous notions of reality, truth, knowledge, objectivity and research methodology. Equal emphasis is placed on understanding both theory and practice.

**175.729 Psychology and Culture 15 credits**

This course examines the wide-ranging influence culture has in people's lives, from their ideological beliefs and values to their behaviour patterns. How cultural influences have been considered in the theory, research, and practice of psychology will be examined.

**175.730 Professional Practice in Psychology 15 credits**

The course provides an in-depth examination of the professional issues that impact on the practice of psychology. Models of practice, ethics, the statutes that affect practitioners, professional interrelationships and cultural issues are all analysed using a case-based approach.

**175.732 Psychological Well-being in Organisations 15 credits**

This course examines the influence of organisational and work characteristics on staff well-being and performance. It covers stress and stress management, designing salutogenic workplaces, implications of disaster and crises for staff, families and communities, psychological aspects of promoting health and safety in organisations.

**175.733 Sustainable Livelihood 15 credits**

According to the UN, Sustainable Livelihoods include not only access to shelter and food but also security, dignity, societal participation for groups and individuals. This course examines how workplaces potentially enable such capabilities, e.g., by respecting cultural foundations, enabling work-life-balance, providing decent work, and reducing inequality, through equitable partnerships between organizations along global supply chains, fair trade, living wages.

**175.734 Child Clinical Neuropsychology 15 credits**

This course is designed to enable students to understand and use theories, research and skills involved in child neuropsychology. An emphasis will be placed on functioning in interdisciplinary teams.

**175.737 Occupational Psychology 15 credits**

This course examines the relationship between people and organisations. Adopting a psychological perspective, it examines strategic aspects of staff development, job, social and cognitive approaches to task and role analysis, recruitment, selection, the training process, equal employment opportunities, industrial relations and performance assessment.

**175.738 Psychological Research: Principles of Design 15 credits**

An advanced study of the principles of research design in psychology. The course will provide a conceptual orientation to the integrated components of the design process. Through a meta-theoretical framework, various approaches to design will be explored to enable advanced engagement with psychological research from scientific, interpretivist and/or indigenous perspectives.

**175.739 Health Psychology: Understanding Health and Illness 15 credits**

An examination of how psychological factors enhance physical health or increase the risk of illness and disease. Theoretical and methodological aspects of etiology are given particular emphasis using examples from such areas as cardiovascular diseases and psychoneuroimmunology.

**175.740 Occupational Health Psychology 15 credits**

The application of psychological principles and theory to health and managing hazards in occupational settings. Students will learn critical skills in psychological evaluation, appropriate for the environmental, cultural and political contexts of the New Zealand workplace.

**175.741 Psychological Assessment in Organisations 15 credits**

This course investigates the application of the principles and theory of psychological measurement in organisational contexts. It covers the development of psychological tests, the implications of organisational factors for latent psychological constructs, test characteristics and test evaluation, and the application of psychological tests for processes such as selection, promotion, performance appraisal.

**175.743 Health Psychology: The Social Context 15 credits**

An examination of psychological theory and research on how social context shapes the experience of physical health and illness. An emphasis will be placed on the individual's understandings of health and experience of illness, and a critical consideration of research methods appropriate for examining these issues.

**175.744 Health Psychology: Promoting Health 15 credits**

An analysis of psychological theories and methods as applied to health promotion and disease prevention, and consideration of their applications at group, community and population levels.

**175.746 Psychological Research: Quantitative Data Analysis 15 credits**

An examination of how psychologists use quantitative data analysis techniques to address complex research problems involving multiple variables. Techniques including multiple regression, factor analysis and structural equation modelling are explored, with an emphasis on the relationships between analyses, research questions and design issues.

**175.747 The Psychology of Sport and Exercise 15 credits**

The course will examine current psychological theories and related research in the sport and exercise domain. Specifically, the focus of the course is on how psychological factors influence involvement and performance in sport and exercise.

**175.748 The Psychology of Organisational Change 15 credits**

This course examines psychological aspects of organisational change. It considers societal and organisational factors driving change and models of both planned and unplanned organisational change, illustrating these issues through the use of case studies of organisational change and psychologists' accounts of their experiences as change agents.

**175.749 Health Psychology Practicum 15 credits**

Practical experience of at least 120 hours working in a community health agency under supervision. Students will participate in the design, implementation or evaluation of a health intervention, and critically reflect on their practice in relation to relevant theories and methods.

**175.750 Qualitative Methods in Psychology 15 credits**

The course provides advanced understanding and skill development to enable students to undertake qualitative research in psychology.

**175.751 Neuropsychological Rehabilitation 15 credits**

This course is designed to enable students to understand and use theories, research, and skills involved in neuropsychological rehabilitation. This course will review interventions that arise from neuropsychological evaluation. An emphasis will be placed on functioning in interdisciplinary teams.

**175.761 Theory and Practice of Cognitive Behaviour Therapy 15 credits**

This course provides a broad overview to the theory and practice of Cognitive Behaviour Therapy. Early research foundations and current empirical support will be examined. In addition to gaining an understanding of the generic cognitive model and its variants, practical experience in the use of basic assessment instruments and procedures for effective behavioural and cognitive intervention will be gained through demonstrations and roleplays.

**175.762 Cognitive Behaviour Therapy for Depression 15 credits**

This course provides an intensive and detailed presentation of the theory, empirical status, and therapeutic methods of Cognitive Behaviour Therapy specific to the assessment and clinical management of depression. Throughout the course, supervised practical experience will be gained in structuring the course of therapy and in the use of a variety of Cognitive Behaviour Therapy techniques including the essential skills of Socratic questioning and guided discovery.

**175.763 Cognitive Behaviour Therapy for Anxiety Disorders 15 credits**

This course examines the success and long-term understanding of the specific cognitive behavioural models, current empirical support, assessment and clinical management strategies for Generalised Anxiety Disorder, Panic Disorder, Social Anxiety and Obsessive Compulsive Disorder.

**175.764 Cognitive Behaviour Therapy for Chronic and Complex Disorders 15 credits**

This course examines the success and long term understanding of specific empirically supported cognitive models, and assessment and clinical strategies

useful in the treatment of chronic and complex disorders including personality disorders, some psychotic disorders, and the management of complex clinical problems.

### **175.765 Cognitive Behaviour Therapy Clinical Practicum 60 credits**

The clinical practicum is a core component in Cognitive Behaviour Therapy training. It is designed to provide close and intensive supervision of clinical casework in Cognitive Behaviour Therapy over the course of the academic year. It consists of weekly supervision around videotaped clinical sessions, formal rating of videotaped clinical sessions, and the written and oral presentation of casework. A final examination is held to assess competence in the practice of Cognitive Behaviour Therapy through the use of written and videotaped clinical vignettes.

### **175.776 On-Line Seminar in Contemporary Professional Development 15 credits**

This is a participatory course conducted through an electronic forum. Students will explore issues of the nature of therapeutic relationships, ethical considerations, and the central theoretical ideas animating the programme reflexively in a conversational format. Particular case studies and current dilemmas arising in the work of participating practitioners from the varying therapeutic schools studied in the other courses of this programme will provide a focus for articulating the practical relevance of the main academic content covered throughout the programme.

### **175.778 Principles of Social Therapy 15 credits**

A consideration of the key elements and objectives of Social Therapy.

### **175.781 Understanding Mental Distress 15 credits**

This course builds on undergraduate study of clinical psychology to provide an advanced understanding of mental distress across the lifespan. The focus is on recognising the most common experiences of mental distress and understanding their etiology using evidence-based theoretical frameworks, emphasising psychological approaches. Attention is given to recovery and lived experience perspectives, and contextual and cultural influences on understanding the experience of mental distress. A case study approach is taken to provide opportunities for applied learning.

### **175.782 Clinical Psychology Assessment 15 credits**

This course will examine a variety of standard objective and subjective clinical assessment instruments, and their use in diagnosis and treatment across the lifespan. Topics covered include cognitive, emotional and behavioural assessment; diagnosis-specific and population-specific instruments; and diagnostic interview systems. Principles of test administration, scoring and interpretation as well as ethical issues surrounding psychological testing will also be covered.

### **175.783 Clinical Psychology Interventions 15 credits**

The course emphasises empirically validated treatments and integration of psychotherapy research and practice across the lifespan. The course covers behavioural and cognitive-behavioural interventions, experiential and brief dynamic psychotherapies as well as other factors in therapy (e.g., the roles of therapist, client, and culture).

### **175.799 Research Report (30) 30 credits**

### **175.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

### **175.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

### **175.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

### **175.811 Clinical Assessment Skills 30 credits**

This is a workshop based course that requires students to engage in learning activities across a full range of applied skills, of clinical psychology assessment across the lifespan, including interview skills, skills in case conceptualisation and psychological formulation, and skills in the selection, administration, scoring, interpretation and reporting of psychological and neuropsychological tests. Training will also include compulsory attendance at workshops and other training opportunities as they arise.

### **175.812 Clinical Intervention Skills 30 credits**

This is a workshop based course that requires students to engage in learning activities across a full range of applied skills, of clinical

psychology interventions across the lifespan, including behavioural and cognitive behavioural interventions, family and systems approaches and neurorehabilitation interventions. Training will also include compulsory attendance at workshops and other training opportunities as they arise.

### **175.813 Clinical Psychology Practica 60 credits**

Provides structured supervision of the student's clinical activities. It includes observation of the work of clinical psychologists, supervised practice of designated clinical psychology skills, and exploration of individualised psychotherapy approaches and formal treatment protocols in a selected domain of practice. And provides opportunities for supervised practice of all the professional activities of a clinical psychologist, including working in professional teams, conducting assessments under supervision, and using the empirical literature to guide clinical decision making.

### **175.814 Clinical Psychology Internship 120 credits**

Supervised experience in all aspects of clinical psychology service delivery in a professional service setting, with increasing emphasis on independent ability to offer specialised assessment and treatment programmes to a diversity of clients in a safe, culturally appropriate, and ethical manner. The internship comprises a minimum of fifteen hundred hours of supervised direct clinical experience in an approved setting. The internship involves supervision, videotaped assessment of work with clients, seminars and workshops designed to deal with specialised clinical issues such as client safety, legal concerns, sophisticated diagnostic methods, bicultural practice and so on, culminating in a practical-oriented exam involving external examiners.

### **175.821 Professional Issues in the Practice of Industrial/Organisational Psychology 60 credits**

This course requires students to review six key topics in the professional practice of I/O psychology, and to write up these reviews into a professionally formatted report. Topics are tailored to each student's work and career path.

### **175.822 Practicum in Industrial/Organisational Psychology 60 credits**

This course provides supervision of the student's I/O psychology activities in the workplace throughout the course of the academic period of study. It includes regular supervised I/O practice, and the written and oral presentation of everyday I/O practices in the workplace via reports, email contact and workplace visits, and a final examination that addresses these.

### **175.832 Advanced Clinical Psychology 15 credits**

Provides an opportunity to gain additional specialisation in an area of student choice in such topics as child and family mental health, forensic/correctional psychology, neuropsychology, health psychology or cognitive behaviour therapy.

### **175.834 Advanced Clinical Practice in Psychology 15 credits**

Provides detailed exposure to the scientist-practitioner model of clinical psychology with diverse client groups, including emphasis on culturally appropriate practices, ethics and professional implications of the Treaty of Waitangi.

### **175.841 Clinical Case Studies 48 credits**

Six case-studies based on both research and clinical psychology practice completed during the enrolment in the Postgraduate Diploma in Clinical Psychology.

### **175.842 Internship Work 36 credits**

An internship where the student engages in supervised practice and training during their enrolment in the Postgraduate Diploma in Clinical Psychology.

### **175.843 Practical/Oral Exam 36 credits**

The culmination of the Postgraduate Diploma in Clinical Psychology: the suitability of the student to practice independently is assessed.

### **175.851 Advanced Professional Issues in Psychological Practice Part I 30 credits**

Part I of a traineeship year which focuses on supervised professional practice.

### **175.852 Advanced Professional Issues in Psychological Practice Part II 30 credits**

Part II of a traineeship year which focuses on supervised professional practice.

### **175.853 Practicum in Psychological Practice Part I 30 credits**

Part I of a traineeship year which provides for supervision of the student's psychological activities in professional practice.

**175.854 Practicum in Psychological Practice Part II 30 credits**

Part II of a traineeship year which provides for supervision of the student's psychological activities in professional practice

**175.873 Research Report Psychology (60) 60 credits**
**175.892 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**175.893 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**175.894 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**175.895 Thesis Part I (30) 30 credits**
**175.896 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**175.898 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**175.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**175.900 PhD Psychology 120 credits**
**175.920 Clinical Psychology Practicum A 15 credits**

Provides structured supervision of the student's clinical activities in the workplace to fulfil clinical psychology practicum requirements. It included observation of the work of clinical psychologists, supervised practice of designated clinical psychology skills, and exploration of individualised psychotherapy approaches and formal treatment protocols in a selected domain of practice.

**175.921 Clinical Psychology Practicum B 15 credits**

Provides further supervision of the student's clinical activities in the workplace to fulfil clinical psychology practicum requirements. It includes supervised practice of all the professional activities of a clinical psychologist, including working in professional teams, conducting assessments under supervision, and using the empirical literature to guide clinical decision making.

**175.922 Clinical Psychology Internship 60 credits**

Supervised experience in all aspects of clinical psychology service delivery in a professional service setting, with increasing emphasis on independent ability to offer specialised assessment and treatment programmes to a diversity of clients in a safe, culturally appropriate, and ethical manner.

**175.935 Skills in Clinical Assessment 15 credits**

Provides advanced training in applied clinical psychology assessment across the lifespan, including interview skills, skills in case conceptualisation and psychological formulation, and skills in the selection, administration, scoring, interpretation and reporting of psychological and neuropsychological tests.

**175.936 Skills in Clinical Interventions 15 credits**

Provides advanced training in applied skills of clinical psychology interventions across the lifespan, including behavioural and cognitive behavioural interventions, family and systems approaches, and neurorehabilitation interventions.

**175.991 Thesis Part A 90 credits**

Thesis research builds the student's ability to carry out independent scientific inquiry which represents a significant contribution to knowledge and understanding in clinical psychology. In the initial stages of thesis preparation, students participate in a group seminar to review a number of specialised methodological issues that exist within clinical psychology.

**175.992 Thesis Part B 90 credits**

Supports continued research activities, normally involving selecting and testing participants; other data collection strategies as needed by the research design; statistical analysis of data, conceptualisation of the findings, and the development of tentative conclusions.

**175.993 Thesis Part C 60 credits**

Integrates the student's emerging ability to carry out independent research of direct relevance to conceptual foundations of clinical psychology. The candidate integrates the major study with clinical follow-up study or studies of a practical nature, derived from the concurrent internship experiences.

**176**
**Sociology**
**176.101 The Sociological Imagination 15 credits**

A foundation course in Sociology covering the key substantive aspects of contemporary society e.g. individual and social processes, globalisation and social inequalities.

**176.106 The Stuff of Everyday Life 15 credits**

An introduction to the sociology of everyday life and everyday material objects in both local and global contexts.

**176.216 Understanding Globalisation 15 credits**

This course examines the complexity of globalisation through a range of images that sociologists use to understand contemporary global change such as the network society, the knowledge society, the consumer society, the risk society, the fundamentalist society. It also explores how these images are played out within local contexts and personal experiences.

**176.218 Race, Nation and Modernity 15 credits**

A review of the development of ideas of race and nation from the early modern era in Europe through to their world-wide crisis of the twentieth century including contemporary attempts to move beyond race via the concepts of ethnicity and indigeneity in Aotearoa New Zealand.

**176.222 Cities in the Twenty-first Century 15 credits**

This course identifies and theorises the sociological issues and complexities associated with contemporary cities. It traverses the development of modern cities and city forms, examines various experiences and theorisations of city life and critically explores the concept of urban sustainability, with particular emphasis on social sustainability and urban housing.

**176.223 Social Inequality and Justice 15 credits**

An examination of how social structures create inequalities with a focus on gender, class, and ethnic diversities and identities and how claims for social transformation are made.

**176.224 Gender: Bodies that Matter 15 credits**

An examination of how people experience gender, how gender inequality relates to other categories of social difference and how feminist approaches reveal and disrupt gender.

**176.302 Research Design and Practice 15 credits**

A practical course that introduces the principles of research design, quantitative and qualitative methods and research dissemination, and students undertake a small sociological research project under supervised conditions.

**176.308 Sociology of the Environment 15 credits**

An advanced examination of the interconnections between society and the environment with a particular emphasis on the roles of science and politics in the creation of environmental knowledge and practice.

**176.318 Sociology of Death and Dying 15 credits**

A grounding in the literature on death and dying and an examination of sociological analyses of dying and death. The course is intended for Sociology and other students.

**176.322 The World of Work: Contemporary Issues 15 credits**

This course provides an in-depth exploration of the changed nature of work in contemporary society. It examines the broader context of change, contemporary forms and patterns of work and occupations and issues and perspectives on global and local labour markets.

**176.324 Imagining Other Worlds 15 credits**

A study of contemporary utopian sociological approaches to social change, based upon models of economy, administrative governance, and social reproduction that differ from those of colonial capitalism.

**176.325 The Politics of Truth 15 credits**

An enquiry into the social contexts and power relationships that influence the production of knowledge, drawing on situations of current political significance. ‘Truth-claims’ are deconstructed in order to identify underlying ideological and political impulses.

**176.701 Current Issues and Theories 30 credits**

An examination of key concepts, theories and debates in contemporary social theory.

**176.702 Advanced Social Inquiry 30 credits**

An advanced study of methodological issues pertinent to social research. The course is designed to assist the planning of postgraduate theses and reports.

**176.704 Working Sociologically: An Advanced Practicum 30 credits**

An advanced course in the practical application of social science knowledge to real world challenges faced by social and governmental agencies and organisations.

**176.718 Environmental Sociology 30 credits**

An exploration of the interrelations between society and the environment, with an examination of major contemporary environmental issues from a sociological point of view. Among the major issues covered are consumerism, population growth, resource limits, development, political conflicts, environmental groups and environmental values.

**176.799 Research Report (30) 30 credits****176.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work

**176.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**176.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**176.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**176.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**176.873 Research Report Sociology (60) 60 credits****176.881 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**176.882 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**176.883 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**176.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**176.900 PhD Sociology 120 credits****178****Economics****178.100 Principles of Economic Policy 15 credits**

The course provides students with a basic understanding of economic policy at industry, national and international levels.

**178.110 The New Zealand Economy 15 credits**

An introduction to the development and structure of the economy of New Zealand, with emphasis on actual issues and policies. International influences from a New Zealand perspective.

**178.111 Quantitative Methods for Economics 15 credits**

This course provides a foundation for students to develop their quantitative and analytical skills in the context of the Economics discipline.

**178.200 Macroeconomics 15 credits**

The development and application of macroeconomic models to globally-oriented economies, and the assessment of real-world policy problems from a practical perspective.

**178.201 Microeconomics 15 credits**

The development and application of models of consumer optimisation, producer behaviour, and competition in markets.

**178.210 Economic Policy 15 credits**

Macroeconomic and microeconomic policies and problems of unemployment, inflation, balance of payments, growth, market distortions and public goods. Justification for government intervention and its effectiveness. Application of economic principles will be stressed and social considerations incorporate emphasis on the New Zealand experience.

**178.221 Methods of Economic Analysis 15 credits**

An introduction to the techniques of quantitative economic analysis. The use of linear algebra and calculus in economics. Constrained optimisation. Simple dynamics.

**178.239 Sport Economics 15 credits**

An introduction to fundamental economic principles and concepts and their application to sports.

**178.240 Managerial Economics 15 credits**

Economic principles applied to decision problems of managers in a business organisation. Analysis of costs, revenues and profits in relation to a firm’s objectives. Emphasis on pricing policy, investment decisions, advertising and promotion expenditure.

**178.242 Land Economics 15 credits**

The treatment of land resource questions in economics, including changing theoretical approaches to land and the income from the land, factors influencing the behaviour of land markets, environmental economics and land use, specific models of land use patterns, the question of the efficient use of land resources, estimating changing land use requirements, taxation in relation to land markets, location decision.

**178.250 Contemporary Economic Issues 15 credits**

A study of selected economic and socio-economic topics in a contemporary framework.

**178.280 Economic Analysis and Applications 15 credits**

An introduction to quantitative analysis and applications in economics.

**178.300 Macroeconomic Policy and Applications 15 credits**

This course incorporates financial markets into macroeconomic models and analyses government policies that address current macroeconomic events.

**178.301 Microeconomic Theory and Applications 15 credits**

The modelling of microeconomic decision-making, with application to real-world issues.

**178.307 Markets, Firms and Consumers 15 credits**

Microeconomic analysis will be applied to problems in consumer behaviour, business strategies and investment choice, resource allocation and regulation.

**178.308 Economic Analysis of Money, Banking and Financial Markets 15 credits**

This course analyses the causes, characteristics and consequences of business cycles. A neo-classical framework is applied to situations commonly seen in small open economies such as New Zealand. The role and importance of financial markets is highlighted and used to prescribe optimal government policy in many frequently observed macroeconomic situations.

**178.328 Project Evaluation 15 credits**

Theoretical and empirical aspects of economics (benefit-cost analysis) and financial project evaluation. Consumption/investment decisions; discounted cash-flow techniques; cost of capital financing; risk and uncertainty; and shadow pricing for economic policy. Emphasis is on practical applications, using microcomputers, to projects and investments in developed and developing countries.

**178.352 Survey of International Economics 15 credits**

This capstone course conducts application-rich and current economic studies of the real and financial transactions between nations and analyses practical problems in the changing world economy.

**178.358 International Trade in Agri-food Products 15 credits**

Agri-food trade today. Gains from trade and barriers to trade. Agri-food trade policies in the EU, USA and selected Asian countries. The WTO and agri-food trade liberalisation. Measuring the impacts of trade liberalisation on developed and developing economies. Macroeconomics of agri-food trade. Linkages between agriculture, trade and environment.

**178.360 Environmental Economics 15 credits**

An introduction to the application of economic analysis, to environmental and climate change related issues and policies.

**178.370 Development Economics 15 credits**

An examination of major development problems and issues, both domestic and international, from a combined economic theory, empirical and policy-oriented perspective.

**178.380 Applied Econometrics 15 credits**

Specification and estimation of econometric models for policy analysis and forecasting. Treatment of common problems encountered in economic and financial data analysis.

**178.702 Macroeconomics 30 credits**

The course provides an advanced exposition and critical assessment of selected topics from macroeconomic theory and policy. The general focus will be on the issues of short and long term effects of macroeconomic policies on the economy. The relationship between theory and empirical research is also examined.

**178.703 The Theory and Practice of Economics 30 credits**

This course is a survey of developments in macroeconomic and microeconomic theory with extension into contemporary issues and practice.

**178.712 International Monetary Economics 30 credits**

This course is concerned with the monetary and macroeconomic relationships between countries. It deals with such issues as balance-of-payments problems and policies, the functioning of foreign exchange rate markets, the determination and causes of exchange-rate movements, the international monetary system, and derivative instruments including swaps, options and futures.

**178.713 Microeconomics 30 credits**

An examination of advanced microeconomic topics. The general focus will be on issues of industrial organisation and game theory.

**178.718 Health Economics 30 credits**

Subject areas to be covered include microeconomics for healthcare, the economics of politics and bureaus, demand for healthcare, the supply and organisation of healthcare, hospital behaviour, moral hazard, cost-benefit analysis in health, private versus public provision of healthcare and contemporary policy issues.

**178.719 Climate Change Economics and Policy 30 credits**

An analysis of the economics of climate change and evaluation of the mitigation options used by policy makers globally.

**178.724 Applied Econometric Methods 15 credits**

This course covers the specification, estimation and validation of econometric models for analysis and forecasting, incorporating in-depth discussions regarding the treatment of common problems encountered in data analysis.

**178.732 Advanced Econometrics 30 credits**

This course introduces students to advanced methods used in econometrics and forecasting. Topics include time-series analysis; testing and model selection; simultaneous equations; nonstationarity; vector autoregressive models; causality and exogeneity; binary choice models and panel data analysis.

**178.740 Global Food Markets and Trade 15 credits**

An economic analysis of the global food markets with emphasis on international trade, agri-food policies, and on the industrial organisation of the contemporary food sector.

**178.741 Research Methods in AgriCommerce 15 credits**

An introduction to advanced methods used in agricommerce research. A selection of the basic research principles illustrated with examples from agricultural production and marketing, agribusiness management and consumer economics. This course has a practical orientation.

**178.742 Environmental Economics for Non-Economists 15 credits**

Economic analysis of policy management issues in the use of natural resources and the environment. Concepts and principles will be discussed and applied to issues such as fisheries, land, water and climate change.

**178.743 Contemporary Agribusiness Management 30 credits**

This course provides a contemporary approach to critical analysis and evaluation of the management, governance and regulation of agribusiness within the global business environment.

**178.755 Economic Growth, International and Development Economics 30 credits**

A critical assessment of topics from economic growth, international economics and the nature and measurement of development. There is an emphasis on the empirical and policy implications of development strategies including the relationship between managing development, role of the State, international economy, globalisation, trade theory and policy, global crises, and macroeconomic policy.

**178.771 Economics 15 credits**

A study of macroeconomic and microeconomic theory in the context of a modern open economy.

**178.775 The Economics of Knowledge and Innovation 30 credits**

An introduction to the complex process of innovation and its many dimensions in advanced and emerging knowledge-based economies. The nature of knowledge, innovation and intellectual property, the microeconomics and macroeconomics of innovation, and policy at the firm and macro levels are examined in the context of a globalised world economy that faces major economic and environmental challenges.

**178.781 Research Project Part 1 15 credits****178.782 Research Project Part 2 15 credits****178.799 Research Project 30 credits****178.894 Research Report 60 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

**178.896 Professional Practice 60 credits**

Candidates will undertake professional practice within the subject area in which the Master of Management is being completed. Professional Practice may be conducted either individually or in groups and assessment of the outcome of the investigation may be in a variety of ways including written and oral presentations and case studies

**178.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**178.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**178.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**178.900 PhD Economics 120 credits****179****Social Work****179.110 Creating a Foundation for Social and Community Work 15 credits**

An introduction to social and community work in Aotearoa New Zealand and internationally. This introduction includes an examination of colonisation throughout the development of social and community work.

**179.120 Environmental Sustainability in Social and Community Work** **15 credits**

An introduction to issues of sustainability, climate change and the environment in social and community work.

**179.121 Identity Development in Aotearoa New Zealand** **15 credits**

An exploration of identity development and how our personal and social histories contribute to our personal, professional and social interactions within the context of social work practice.

**179.155 A Foundation of Interpersonal Skills for the Helping Professions** **15 credits**

An introduction to the role of self and the skills required to develop an effective helping relationship that can be applied in a variety of helping professions in Aotearoa/New Zealand.

**179.202 Applied Research for Social Policy and Social Work** **15 credits**

An introduction to social research and an examination of application of evidence to inform social policy and social work practice.

**179.210 Social Work Theories, Assessment and Interventions** **15 credits**

An examination of the theories and models which inform social and community work practice. Emphasis will be placed on the relevance of these models to the social services in Aotearoa/New Zealand.

**179.230 The Wellbeing of Pacific Peoples in New Zealand** **15 credits**

An examination of social policy and social service delivery from the perspective of Pacific cultures and communities in New Zealand. The course explores Pacific experiences of wellbeing and social development in order to contribute to effective policy and practice approaches with Pacific peoples.

**179.240 Ethics, Values and Law in Social Work and Social Policy** **15 credits**

An examination of the impact of values and ethics in professional practice while addressing issues of law, power, social justice and human rights with a particular focus on social work and social policy.

**179.255 Introduction to Field Education** **15 credits**

An introduction to field education through workshops, field visits and voluntary work.

**179.310 Integrated Practice with Groups and Families** **15 credits**

An advanced approach to the integration of theory and practice in social work with particular emphasis on assessment and intervention in working with groups and families.

**179.320 Community Development** **15 credits**

An examination of the fundamental principles and definitions of community development. Particular emphasis is placed on the theoretical frameworks which inform community work. Individual, group and community action is examined with particular emphasis on the relationship between individual and social change.

**179.330 Māori Development and the Social Services** **15 credits**

Themes in contemporary Māori development (kaupapa Māori) with particular reference to the aspirations of Māori people. Emphasis will be placed on the implications of such themes for the social services as well as the development of appropriate social policies.

**179.340 Developing Practice** **15 credits**

The development of a personal practice framework and clinical skills in diverse social, cultural and professional contexts.

**179.355 Field Education I** **45 credits**

A supervised field education placement of a minimum of 480 hours (60 days) in a social service setting negotiated by a Massey University staff member who is fully registered with the Social Workers Registration Board. Each placement will be supervised by a registered social worker.

**179.410 Social Work Fields of Practice** **30 credits**

An advanced study of selected fields of social and community work practice. Particular emphasis is placed on the knowledge base relevant to each field including theoretical explanations, research, practice principles, models of intervention and current issues.

**179.420 Advanced Social Work Practice** **30 credits**

An advanced study of selected theoretical models and clinical skills in professional practice with individuals, families, groups and communities.

**179.430 Integrated Social Work Practice – Authentising Practice** **15 credits**

An advanced study of selected fields of practice, selected theoretical models, and clinical skills to develop integrated and authentic professional practice.

**179.431 Consolidating Practice** **15 credits**

The consolidation of a social work practice framework and clinical skills in diverse social, cultural and professional contexts.

**179.432 Ahurea ki uta, Ahurea ki tai** **15 credits**

Students will critically reflect on and consolidate Tangata Whenua and Tagata Pasifika cultural learning and cultural humility inside of their own integrated practice framework as they prepare to enter the social work profession.

**179.433 Selected Study in Policy, Practice or Diverse Populations** **15 credits**

A study of the literature and research evidence in a selected area of policy, practice or diverse population group.

**179.440 Management in the Social Services** **15 credits**

An examination of current management theory and its impact on management, administrative systems and professional practice in social service agencies.

**179.455 Field Education II** **45 credits**

An advanced, supervised, field education placement of a minimum of 480 hours (60 days) in a social service setting negotiated by a Massey University staff member who is fully registered with the Social Workers Registration Board. Each placement will be supervised by a registered social worker.

**179.702 Advanced Research Methods** **30 credits**

An examination of research methods, traditions and techniques used in social and health research. The course is designed to assist the planning of Master and Doctoral theses.

**179.736 Substance Misuse and Addictions** **30 credits**

An advanced study of current treatment and intervention models in the substance misuse and addictions area.

**179.740 Social Service Supervision: Theory and Practice** **30 credits**

An examination of the functions and practice and selected theories and models of professional social service supervision.

**179.741 Social Service Management** **30 credits**

An examination of current management theory and its application to the management, administrative systems and professional practice in social service agencies.

**179.742 Learning in Social Service Supervision** **30 credits**

An advanced study of learning in social service supervision including identity development in both the supervisor and the person supervised.

**179.743 Clinical Supervision** **30 credits**

An advanced study of selected theoretical models and clinical supervision skills in professional practice.

**179.761 Current Issues and Theories in Social Service Practice** **30 credits**

An examination of contemporary practice in the context of current trends in social service delivery. Selected fields of practice are analysed with a view to understanding the theoretical underpinnings of practice. Issues relevant to service delivery are identified, and alternative approaches to practice are explored.

**179.763 Clinical Practice** **30 credits**

An advanced study of theoretical models, research evidence and clinical skills in professional social work practice.

**179.771 Child Welfare** **30 credits**

An examination of current social work practice in the area of child welfare. While there is a particular emphasis placed upon child welfare services, programmes and practices in Aotearoa/New Zealand, students are also encouraged to examine international literature and practice.

<b>179.773 Disability Studies</b>	<b>30 credits</b>	<b>179.895 Research Report (30)</b>	<b>30 credits</b>
An examination of the experience of disability, the delivery of disability support services, and the disability industry in Aotearoa/New Zealand. Major theoretical and current policy debates in the area of disability both here and overseas are examined.		An applied study with topics selected from areas relevant to social work, social policy, and/or the social services. Selected topics must be approved by the course coordinator who will assist students in selecting, planning and managing their research.	
<b>179.777 Disability, Consumer Rights and Advocacy</b>	<b>30 credits</b>	<b>179.896 Thesis 90 Credit Part 1</b>	<b>45 credits</b>
A critical examination of the disability rights movement from historical, social and political perspectives. Particular attention will be paid to models of service provision and to consumers as self advocates, parents as mediators and advocates for their children.		A supervised and guided independent study resulting in a published work.	
<b>179.778 Mental Health and Social Work</b>	<b>30 credits</b>	<b>179.897 Thesis 90 Credit Part 2</b>	<b>45 credits</b>
An advanced study of the field of mental health from a social work perspective. It considers conceptual and contextual issues, intervention strategies and current debates.		A supervised and guided independent study resulting in a published work.	
<b>179.781 Social and Community Work Theory and Practice I</b>	<b>30 credits</b>	<b>179.898 Thesis</b>	<b>90 credits</b>
An examination of the key components of social and community work practice utilising an integrated framework. Current theories and models for working with individuals, families and groups are discussed. Laboratories will prepare students for field work placements. Students will develop an approach to practice relevant to the Aotearoa/New Zealand context.		A supervised and guided independent study resulting in a published work.	
<b>179.782 Social Policy Analysis</b>	<b>30 credits</b>	<b>179.899 Thesis</b>	<b>120 credits</b>
An examination of the development of social policy in Aotearoa/New Zealand with special emphasis on the relationship between law and government, and debates about the use of theoretical perspectives and concepts in the study of social policy.		A supervised and guided independent study resulting in a published work.	
<b>179.783 Māori Development and the Social Services</b>	<b>30 credits</b>	<b>179.900 PhD Social Work</b>	<b>120 credits</b>
Themes in contemporary Māori development (kaupapa Māori) with particular reference to the aspirations of Māori people. Emphasis will be placed on the implications of such themes for the social services as well as for the development of appropriate social policies.		<b>179.911 Advanced Social Work and Social Development Theory</b> <b>30 credits</b>	
<b>179.784 Social and Community Work Theory and Practice II</b>	<b>30 credits</b>	A critical analysis of the political, social, cultural, historical and philosophical perspectives underpinning social work and social development and a critical evaluation of the theories informing a chosen field of practice or speciality.	
An advanced study of social and community work practice through an examination of the fundamental principles of social and community work and selected fields of practice. The course builds on previously completed studies and field work practice.		<b>179.912 Advanced Studies in International Social Work</b>	<b>30 credits</b>
<b>179.789 Field Work Practice I</b>	<b>30 credits</b>	A critical examination of International Social Work as it pertains to the nature of social work and social development, international issues, organisations and fields of practice or specialisms.	
A supervised field education placement of a minimum of 480 hours (60 days) in a social service setting negotiated by a Massey University staff member who is fully registered with the Social Workers Registration Board. Each placement will be supervised by a registered social worker.		<b>179.913 Advanced Social Work Research and Evaluation</b>	<b>30 credits</b>
<b>179.792 Management in the Social Services</b>	<b>15 credits</b>	A critical examination of social work research and evaluation methods as they apply to the design, conduct and reporting of social work research and evaluation.	
A critical examination of current management and organisational theory and its impact on management, administrative systems and professional practice in social service agencies.		<b>179.929 Advanced Directed Study in Social Work</b>	<b>30 credits</b>
<b>179.800 MPhil Thesis</b>	<b>120 credits</b>	This course requires students to demonstrate an integration of local and international research, literature, theory and methodology through the production and defence of a research proposal and any necessary pilot work in preparation for undertaking the thesis.	
A supervised and guided independent study resulting in a published work.		<b>179.930 Thesis Doctor of Social Work</b>	<b>240 credits</b>
<b>179.801 MPhil Thesis 120 Credit Part 1</b>	<b>60 credits</b>	This course requires the student to undertake research and produce a doctoral thesis for examination.	
A supervised and guided independent study resulting in a published work		<b>182</b>	
<b>179.802 MPhil Thesis 120 Credit Part 2</b>	<b>60 credits</b>	<b>Māori Multicultural Education</b>	
A supervised and guided independent study resulting in a published work.		<b>182.001 Te Reo Tuatahi</b>	<b>8 credits</b>
<b>179.816 Thesis 120 Credit Part 1</b>	<b>60 credits</b>	Teacher aides who have no previous experience with Māori language will build a foundation of pronunciation and elementary conversation and will examine basic protocol.	
A supervised and guided independent study resulting in a published work.		<b>187</b>	
<b>179.817 Thesis 120 Credit Part 2</b>	<b>60 credits</b>	<b>Social and Policy Studies in Education</b>	
A supervised and guided independent study resulting in a published work.		<b>187.080 Study Skills</b>	<b>15 credits</b>
<b>179.890 Field Work Practice II</b>	<b>30 credits</b>	This course focuses on study skills including time management, note-taking, reading and research skills and exam preparation as well as learning processes appropriate for university studies.	
An advanced, supervised, field education placement of a minimum of 480 hours (60 days) in a social service setting negotiated by a Massey University staff member who is fully registered with the Social Workers Registration Board. Each placement will be supervised by a registered social worker.		<b>188</b>	
<b>179.891 Applied Research in Social Work</b>	<b>15 credits</b>	<b>Natural Resource Management</b>	
An advanced examination of research methods, traditions and techniques used in social work and social policy to promote best practice.		<b>188.263 Introduction to Environmental Management</b>	<b>15 credits</b>
		This course introduces concepts of the environment, environmental science and environmental management. It takes an integrated approach to	

scientific and management issues associated with natural resource use and environmental quality (locally, nationally, globally). It introduces ideas of sustainability and the role of environmental policy and environmental economics. It examines some of the pressures the environment faces and the major problems that result and introduces landscapes as important management units for addressing environmental problems.

**188.363 Applied Environmental Management 15 credits**

This course introduces key environmental management tools and techniques and how they can be applied. The course also examines some of the challenges that face environmental management and the best ways to address these with a particular focus on linking science, policy and practice for more effective environmental management.

**188.705 Environmental Policy 15 credits**

This course introduces key principles and practices relating to environmental policy. The roles and responsibilities of agencies and organisations involved in environmental policy analysis, development, implementation and evaluation are examined. Alternative policy approaches for achieving environmental objectives are explored through selected case studies.

**188.707 Environmental Management Principles and Practice 15 credits**

This course uses a multidisciplinary approach to examine contemporary environmental issues. Key environmental management principles and practices are introduced and explored through a series of applied case studies.

**188.708 Land System Change 15 credits**

The consequences of the processes and activities that pertain to human use of the land are considered. The patterns and distribution of land use and land cover types and the methods for measuring, recording and managing information about land use and land cover and how it changes over time are evaluated, and the implications of land system change are investigated.

**188.751 Advanced Zero Waste for Sustainability 30 credits**

An in-depth exploration of the life cycle and environmental issues of solid material resources upon which all economic production depends. Zero Waste is examined as a resource management paradigm shift in philosophy, policy, technology and practices focused on sustainable development.

**188.764 Advanced Environmental Management I 15 credits**

The course is made up of three parts. It develops project and programme management skills, strengthens students' knowledge of natural resources at an advanced level, and combines these two to produce integrative skills in Environmental Management.

**188.765 Advanced Environmental Management II 15 credits**

This course examines current environmental issues and explores alternative approaches to environmental management. A case study approach is used to develop critical thinking skills, and an in-depth understanding of complex human-environment interactions and possible solutions to environmental problems.

**188.863 Environmental Research and Data Analysis 60 credits**

Students will review the theoretical foundation and recent advances in selected environmental management themes in different countries; apply research methods and selected statistical techniques to analyse and evaluate environment management projects; write a self-directed research report.

**188.881 Thesis 90 Credit Part 1 (30 credits) 30 credits**

A supervised and guided independent study resulting in a published work.

**188.882 Thesis 90 Credit Part 2 (60 credits) 60 credits**

A supervised and guided independent study resulting in a published work.

**188.885 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**188.886 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**188.888 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**188.889 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**188.897 Thesis 120 Credit Part 1 60 credits**  
A supervised and guided independent study resulting in a published work.

**188.898 Thesis 120 Credit Part 2 60 credits**  
A supervised and guided independent study resulting in a published work.

**188.900 PhD Natural Resource Management 120 credits**

**189**

**Soil Science**

**189.006 Soil Productivity 15 credits**

A study of the soil as a resource in farming systems. Modification of soil conditions by various agricultural practices such as fertiliser use, liming, drainage and irrigation. Maintenance of the soil through conservation practices and use of soil and land resource information.

**189.151 Principles of Soil Science 15 credits**

An integrated introductory course in soil science. An exploration of the interaction between soil and the environment, soil formation and morphology, soil physical, chemical, and biological properties and their influence on soil management, nutrient cycling, and soil-plant interactions.

**189.251 Soil Fertility and Fertilisers 15 credits**

Soil conditions in relation to nutrient cycling in agricultural production systems. Macro and micro plant nutrients. The composition, properties and uses of fertilisers. Soil water relationship, interactions with plant nutrient uptake and loss from soil. Methods of evaluating nutrient levels in soils.

**189.252 Land, Soil and Water 15 credits**

Introduction to the main New Zealand soil groups including restored soils; soil attributes, limitations, appropriate land use and management including impact on the wider environment. Basic soil water properties. An introduction to drainage, irrigation, soil conservation, GIS and remote sensing, and their relevance to soil users and environmental management.

**189.362 Soil Fertility and the Environment 15 credits**

A course focusing on the application of knowledge of soil properties and processes to address the compromise required between maximising agricultural production and minimising adverse environmental effects. The course will include consideration of models used for estimating fertiliser requirements as well as consideration of alternative low-input systems and environmental impacts.

**189.363 Soil Resources and Sustainable Land Use 15 credits**

The attributes and limitations of soils for various sustainable land uses. Soil resource mapping systems and land use classification. Conservation and soil water management practices. The entry, storage and manipulation of land resource information using geographic information systems. This course is based on field trips and case studies.

**189.365 Studies in Soil Science 15 credits**

This course is structured on selected topics that demonstrate how a knowledge of soil science explains the impacts of land management practices on the soil resources. Emphasis is placed on aspects relating to soil chemical fertility.

**189.730 Sustainable Land and Water Management 15 credits**

Advanced theoretical and practical experience in the application of soil, water and GHG emission sciences to the sustainable management of New Zealand's land, water and air resources. Sources and pathways for nutrient, contaminant and GHG transfer from soil to water and atmosphere will be analysed, and considered in the context of land use and potential in-field and edge-of-field attenuation technologies and practices.

**189.731 Advanced Studies in Soil Science 15 credits**

A selection of modules from professional development courses: intermediate and advanced sustainable nutrient management; intermediate and advanced farm environment planning; farm dairy effluent system design and management; introduction to NZ agricultural greenhouse gas emissions and management. This course is targeted to students wanting an applied course in soils relevant to production agriculture and horticulture or to environmental management.

## 190

## Aviation Studies

- 190.104 Principles of Navigation I** **15 credits**  
An introduction to navigational principles and operational requirements for visual flight.
- 190.107 Human Performance** **15 credits**  
The application of information processing strategies for improving performance in learning, problem-solving, decision-making, interpersonal interrelations, and an introduction to aviation medicine.
- 190.109 Aviation Studies** **15 credits**  
An introduction to the interaction of components in the aviation system, including human resources, aircraft, airports and airways systems.
- 190.110 Introduction to Flying** **30 credits**  
The first of two courses with modules in aviation law, meteorology, aircraft systems and Flight Radio-Telephone (FRTO).
- 190.111 Introduction to Flying I** **15 credits**  
An integrated flight practicum with topics in aviation law, meteorology, aircraft technical knowledge, human factors and flight radio-telephone, leading to the CAA PPL examination.
- 190.112 Introduction to Flying** **15 credits**  
This course is an introduction to the theory and practice of flight radio, aviation law and principles of flight for pilots.
- 190.113 Aviation Meteorology 1** **15 credits**  
An introduction to aviation meteorology for pilots.
- 190.114 Aircraft Systems 1** **15 credits**  
An Introduction to aircraft systems for pilots
- 190.115 Introduction to Aeronautics** **15 credits**  
An introduction to the non-practical components of airline and commercial pilots' aeronautical knowledge. Emphasis is placed on general aircraft technical knowledge, principles of flight, aeronautical meteorology, flight procedures and aviation law.
- 190.116 Introduction to Management in Aviation** **15 credits**  
An overview of management concepts in the aviation industry.
- 190.117 Introduction to Human Factors** **15 credits**  
The application of information processing strategies for improving performance in learning, problem-solving, decision-making, interpersonal interrelations, coping in situational anxiety and mental rehearsal.
- 190.118 Aeronautics I** **15 credits**  
An introduction to mathematical principles and basic physics as they relate to aerodynamics and aircraft systems.
- 190.119 Aeronautics II** **15 credits**  
An introduction to calculus and advanced physics as they relate to aerodynamics and aircraft systems.
- 190.120 Aeronautical Legislation** **15 credits**  
This course includes the integration of theory and practice for aviation regulations and law pertaining to Visual Flight Rules (VFR) and Instrument Flight Rules (IFR).
- 190.121 Aviation Meteorology 2** **15 credits**  
An examination of fundamental concepts and processes in meteorology and climate.
- 190.122 Introduction to Aviation Safety Systems and Investigation** **15 credits**  
The purposes of aviation safety systems and investigation and basic aircraft technical information relevant to initiating an investigation are introduced. National and international legislation and protocols governing aviation safety system requirements and for aviation accident and incident investigations including the broad principles and practices for conducting an investigation are covered.

**189.752 Advanced Soil Fertility** **30 credits**

A course focusing on skills required to solve problems in selected areas of soil fertility. The course of 6 modules is selected from 8 distinct modules, covering 1. Advanced Nutrient Budgeting, 2. Soil - plant interactions, 3. Soil and plant analysis, 4. Trace elements, 5. Use of GIS in soil fertility and 6. Soil Organic matter, 7 Soil Water balance, 8. Soil fertility case study. Students are required to complete 6 modules.

**189.753 Soil and Land Evaluation** **30 credits**

Advanced theoretical and practical experience in land evaluation. Soil and land suitability, versatility and capability assessment of selected regions in conjunction with land-use problems. Practical experience in land resource inventory mapping using remotely-sensed images. Analyses of land resource inventory information using a geographic information system. Students may take modules of this course as a 15 credit Special Topic.

**189.755 Soil and Water Pollution** **30 credits**

Eutrophication of natural bodies of water; biological interactions between soil materials and water; effect of land disposal methodologies on soil and water quality; organic and mineral pollutants, biological indices of soil and water contamination; and remediation and management strategies for soil and water pollution.

**189.757 Advanced Soil Conservation** **15 credits**

This course will provide the student with the knowledge and integrated skills to produce a NZ industry-standard, farm-scale, land and water management plan. This plan will correctly identify existing and potential soil and nutrient loss pathways, the causes of these losses, and provide justification for a range of mitigation options.

**189.758 Advanced Soil Water Management** **15 credits**

Advanced studies on the distribution and movement of water in soils. Design of drainage systems. Techniques for measuring soil physical properties. Indicators of sustainable land use. Models of water use and movement in soil.

**189.759 Advanced Studies in Soil Science** **30 credits**

A selection of six modules from the courses 189.752 Advanced Soil Fertility, 189.753 Advanced Soil and Land Evaluation, 189.755 Soil and Water Pollution, 189.758 Advanced Soil Conservation, 189.759 Advanced Soil Water Management, and 238.751 Agricultural Greenhouse Gas Emission Science for students wanting a broad course in soils relevant to production agriculture and horticulture or to natural resource management.

**189.761 Applied Remote Sensing** **30 credits**

A study of remote sensing systems and the application of these technologies. Digital image processing and the integration of remotely-sensed data within a GIS.

**189.798 Research Report** **30 credits****189.871 Thesis 90 Credit Part 1** **45 credits**

A supervised and guided independent study resulting in a published work.

**189.872 Thesis 90 Credit Part 2** **45 credits**

A supervised and guided independent study resulting in a published work

**189.873 Thesis 90 Credit Part 1 (30 credits)** **30 credits**

A supervised and guided independent study resulting in a published work.

**189.874 Thesis 90 Credit Part 2 (60 credits)** **60 credits**

A supervised and guided independent study resulting in a published work

**189.875 Thesis** **90 credits**

A supervised and guided independent study resulting in a published work.

**189.887 Research Report** **60 credits****189.895 Thesis 120 Credit Part 1** **60 credits**

A supervised and guided independent study resulting in a published work.

**189.896 Thesis 120 Credit Part 2** **60 credits**

A supervised and guided independent study resulting in a published work

**189.899 Thesis** **120 credits**

A supervised and guided independent study resulting in a published work.

**189.900 PhD Soil Science** **120 credits**

**190.123 Aircraft Systems 2 15 credits**

A study of aircraft systems for light aircraft and their performance management.

**190.124 Aircraft Performance 15 credits**

The study of aircraft performance management for single-engine aircraft, including propeller theory, and operational performance requirements.

**190.154 Principles of Navigation II 15 credits**

An in-depth study of Air Navigation principles; and the construction, properties and usage of aeronautical charts.

**190.164 Aeroscience 15 credits**

This course is an examination of the principles of mathematics, mechanics, and physics as they apply to aeroscience.

**190.189 Basic Gas Turbine Operations 15 credits**

A study of the principles of operation and construction of aircraft gas turbine engines, including identification and rectification of abnormal operation. Students will practice engine starting, shutdown, and normal and emergency procedures in simulated environments (such as in the Hawker Pilot Trainer HPT flight training device). The course is designed to meet the theoretical requirements for CAA examination leading to the award of a Gas Turbine Rating.

**190.201 Aircraft Systems 3 15 credits**

This course is an examination of advanced multi-engine aircraft systems, including structures of heavy aircraft.

**190.203 Air Traffic Control/Aviation Law 15 credits**

The integration of theory and practice for Flight Operations and Flight Standards. This course will enable pilots to use the operational procedures and facilities required by civil aviation and air traffic control organisations. Students will be introduced to international aviation systems, including the Covenants of the International Civil Aviation Organisation (ICAO).

**190.204 Flight Planning and Advanced Navigation (Part 1) 15 credits**

First of two courses on the development of practical flight planning competencies including route planning, fuel planning, load planning and flight plan amending for instrument flight operations. The use of inflight navigation techniques, instrument flight management, and search are included.

**190.205 Crew Resource Management 15 credits**

The development of practical competencies in crew resource management (CRM) in the professional aviation environment.

**190.206 Aerodynamics 1 15 credits**

This course introduces principles of incompressible fluid statics and fluid dynamics, basic concepts of low and high speed aerodynamics, and lift theory.

**190.207 Aviation Psychology 15 credits**

A detailed consideration of the application of psychological principles to flight deck performance, including a range of topics from psycho-physiology to perceptual and cognitive processes.

**190.210 Aviation Safety Management 15 credits**

To provide a comprehensive understanding of safety management in civil flight operations environments, particularly relating to international standards and recommended practices prescribed by the International Civil Aviation Organization (ICAO) for the design and implementation of safety management systems in aviation.

**190.211 Aviation Strategic Management 15 credits**

An examination of the strategic management processes employed in the aviation industry, and how the business environment shapes strategy formulation and implementation in the aviation industry.

**190.215 Heavy Aeroplane Performance 15 credits**

An analysis of fundamental performance considerations and compliance requirements for CAR Part 121 "A" performance aeroplanes, focussing on the relationship between aircraft performance and flight planning in an airline context.

**190.216 Aviation Human Factors 15 credits**

The course provides an overview of the basic concepts of human factors in aviation, human performance, and issues relating to judgement and decision-

making in this high risk environment. Communication and other aspects of social psychology in various aviation environment are also explored.

**190.220 Managing Airline Systems 15 credits**

An examination of the management of airline organisations.

**190.221 Climatology 15 credits**

A study of the global climate and of regional climates at the levels at which modern jet aircraft fly and at lower levels..

**190.222 Basic Air Safety Investigation 15 credits**

The aim of this course is to give students an insight to aircraft accident investigation. The course will also benefit those who need to understand the investigation process, such as managers of airlines and regulatory authorities. The course covers the basic requirements and procedures involved in air safety investigation.

**190.224 Environmental Impacts of Aviation 15 credits**

Advanced study of the environment of aviation, the impacts of aviation on the environment and the methods for reducing the impacts.

**190.225 Introduction to Research Methods in Aviation 15 credits**

An introduction to the theories and methods of research in the aviation industry. A range of both quantitative and qualitative methodologies is explored, and various techniques for aviation research are examined.

**190.237 Heavy Aircraft Performance 15 credits**

This course introduces modern air transport operations including cockpit technology and systems. The practicum for this course will demonstrate significant aspects of air transport operations.

**190.240 Air Power 15 credits**

This course provides an examination of military air power, its characteristics, history and development, including some selected air campaigns and use of Remote Piloted Aerial Systems (RPAS).

**190.249 Aircraft Maintenance Management 30 credits**

An examination of knowledge appropriate to the management of an aircraft maintenance organisation.

**190.251 Aircraft Systems II (Part 2) 15 credits**

The second of two courses about multi-engine aircraft systems, including advanced avionics, environmental control and gas turbine technology.

**190.254 Flight Planning and Advanced Navigation (Part 2) 15 credits**

Second of two courses on the development of practical flight planning competencies, including route planning, fuel planning, load planning and flight plan amending for instrument flight operations, and for long distance heavy transport operations for B747 and B777 aircraft.

**190.256 Aerodynamics II 15 credits**

The second of two courses. This course investigates principles of stability and control of subsonic and transonic flight, theory of supersonic aerodynamics, and the aerodynamic properties of transonic and supersonic aerofoils. It provides students with the methods for analysing aerodynamic forces on the performance of aircraft at transonic and supersonic speeds, and methods for calculating air properties through supersonic waves.

**190.282 Introduction to Flight Instruction 15 credits**

A theoretical and practicum-based study of flight instructional and teaching skills required for employment as Flight Instructor.

**190.283 Aviation Law 15 credits**

This course examines the application of aviation law beyond the initial professional licence issue. The course meets the requirements for the NZ Civil Aviation Authority Air Transport Pilot Licence (ATPL) qualification and introduces the student to international aviation systems, including the International Civil Aviation Organisation (ICAO). A special emphasis is placed on the responsibilities and accountabilities of aviation personnel and management systems under the CAA Rules regime.

**190.285 Aerobatic Aircraft Handling 15 credits**

The theory and practice of advanced aircraft handling techniques, aerobatics and advanced stalling and spinning.

- 190.288 Advanced Aircraft Handling** **30 credits**  
This course covers the theory and practice of aircraft operations to an advanced level. The course's emphasis is on the development of non-technical skills applicable to a pilot working in a multi-crew environment. The student will be introduced to safety management systems (SMS) and optimal decision making under normal, abnormal, and emergency phases of flight. The course bridges the gap between traditional General Aviation Operations and Air Transport Operations.
- 190.297 Aerobatic Aircraft Handling for Flight Instructors** **30 credits**  
This course covers the theory and aircraft handling for basic and advanced aerobatic manoeuvres. Designed to provide flight instructors with advanced aircraft handling techniques, it covers aerobatics, advanced stalling and spinning. Special emphasis is placed on the recognition of and recovery from abnormal attitudes in both visual and instrument flight. The practicum element of the course will involve up to five hours of aerobatic flight.
- 190.298 Turbo-Prop and Jet Handling** **30 credits**  
The theoretical and practical requirements for the safe ground and flight operation of gas-turbine powered aircraft will be examined.
- 190.299 Aviation Special Topic** **15 credits**
- 190.301 Flight Instructor Human Factors** **15 credits**  
Theory and application of human factor issues in decision-making, interpersonal relations, communication styles and personality characteristics as they affect flight deck performance in the instructional environment.
- 190.302 Check and Training for Airlines** **15 credits**  
This course is designed for experienced pilots wishing to develop their knowledge in airline check and training concepts.
- 190.303 Advanced Aero Systems Development** **15 credits**  
An advanced theoretical and practicum based study of the regulatory requirements and operational competencies of the New Zealand Commercial Pilots Licence and Instrument Rating.
- 190.306 Airline Strategic Management** **15 credits**  
A review of the current state of strategic management in the airline industry. The approach is both multidisciplinary in focus and international in scope. Attention will be focused on the Asia-Pacific region, as the potential location of the world's largest aviation market.
- 190.307 Airport Planning** **15 credits**  
A study of demographic, environmental and economic considerations which apply to the design and evaluation of airport facilities.
- 190.308 Airport Operational Management** **15 credits**  
An examination of the management of airport systems, such as air-side and land-side facilities, technical and support services which contribute to the operational effectiveness of modern airports. The course will further examine the relationship between airport authorities and the local community.
- 190.309 Design of Airways and Air Traffic Systems** **15 credits**  
An examination of air traffic and air navigational systems and the principles which apply to their operational infrastructure, including the development of visual and instrument flight procedures.
- 190.313 Advanced Aviation Human Factors** **15 credits**  
This course explores the role of human behaviour and physiological limitations in aviation, how they fit with complex systems, and how behaviour and systems may be modified to improve safety.
- 190.314 Legal Issues in Aviation** **15 credits**  
General principles of law as applied in the context of the airline transport industry. The course will focus on the application of law to flight crew, airline operations and civil aviation authorities in terms of both international conventions and treaties and of national legislation and law. Issues such as contractual and tortious liability will be considered.
- 190.315 Flight Instruction Fundamentals I** **15 credits**  
Principles and techniques for theory, simulator and flight instruction for primary visual flight and day operations, including a review of aircraft performance management requirements. The course will incorporate the theoretical issues which underpin aviation science and aircraft systems.
- 190.316 Flight Instruction Fundamentals II** **15 credits**  
This course will include principles and techniques for theory, simulator and flight instruction for navigation, primary visual night and instrument operations, including a review of aircraft performance management. Students will be given experience in advanced navigational technologies such as Global Positions Systems (GPS), etc.
- 190.317 Evaluation Methods in Aviation** **15 credits**  
The identification, development and analysis of tests and measures in aviation aptitude, achievement and licensing evaluation.
- 190.318 Air Transport Economics** **15 credits**  
This course covers economic aspects of air transport and airline operations and provides insights into the methods employed to manage and evaluate the economic viability of these operations.
- 190.320 Heavy Aeroplane Performance II** **15 credits**  
An analysis of operational performance considerations in normal, abnormal and emergency situations including the management of aircraft performance in extreme environmental conditions. The course will focus on operations in an airline environment.
- 190.321 Air Accident and Incident Investigation** **15 credits**  
The processes and procedures for the conduct of air accident and incident investigations are examined. Investigative techniques as they may apply to aircraft structures, power-plants, maintenance and factors in the operational environment are covered with attention also given to the human performance aspect of investigations. Issues of determining probable cause and methods of effecting safety recommendations are explored.
- 190.327 Managing Cultures in Aviation** **15 credits**  
A critical evaluation of theory and practice of management of cultures in aviation, incorporating: (a) an exploration of theoretical and practical aspects of cultural diversity and its effect on aviation industry in the global business environment; and (b) an assessment and management of international, national, and organisational cultural dimensions and their shaping influence in various aspects of aviation operation.
- 190.328 Aviation Management Practicum** **15 credits**  
Provides a practical experience in an aviation organisation, linking theory to practice.
- 190.335 Flight Instruction** **30 credits**  
This integrated course includes the principles and techniques for theory, simulator and flight instruction.
- 190.340 Contemporary Issues in Aviation Security** **15 credits**  
This course explores aviation security with a particular emphasis on terrorism. Students explore key incidents, areas at risk, and the legislation and practical means by which risks are managed. The trade off between an erosion of civil liberties and increased security will be explored, as will the reasons why risks will always remain.
- 190.351 Aircraft Systems 4** **15 credits**  
An in depth study of mechanical aircraft systems, as they apply to large aircraft.
- 190.356 Aerodynamics 2** **15 credits**  
This course introduces principles of stability and control of aircraft, high speed aerodynamics, and methods for analysing aerodynamic properties of high speed aircraft.
- 190.398 Aviation Internship Project** **15 credits**
- 190.399 Aviation Special Topic** **15 credits**
- 190.701 Human Factors for Professional Aviation** **30 credits**  
An in-depth study of the latest developments in human factors policies and regulations made by the International Civil Aviation Organization (ICAO), with the aim of enhancing the safety, security and reliability of all areas of air transport. Contemporary research and research applications associated with the human factor aspects of aviation complements above study.
- 190.703 Management in Aviation Systems** **30 credits**  
A study of the roles, relationships and functions of senior management systems within the aviation industry. The course will examine the obligations and responsibilities of aviation corporations and their executives (moral,

ethical and legal) to staff, clients, shareholders, the aviation community and the wider community.

**190.704 Research Methods in Aviation 30 credits**

To introduce students to the research design principles of qualitative and quantitative research methodologies, data collection procedures, analysis of data and interpretation of results, and writing the research report.

**190.720 Aviation Strategic Management 30 credits**

The application of economic, political regulatory and management knowledge to the planning and development of airline and aviation organisation product outcomes.

**190.721 Design and Management of Airports 30 credits**

The course will examine the strategic, economic and administrative contexts within which modern airports operate. It will also seek to explore the primary issues that are shaping the development of airports in the current, medium and long terms.

**190.790 Special Topic 30 credits**

**190.791 Special Topic 30 credits**

**190.795 Research Project 30 credits**

**190.890 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**190.891 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**190.892 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**190.893 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**190.894 Professional Practice in Aviation 60 credits**

Candidates will undertake professional practice within the Aviation subject area. Professional Practice may be conducted either individually or in groups and assessment of the outcome of the investigation may be in a variety of ways including written and oral presentations and case studies.

**190.895 Research Report 60 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

**190.898 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**190.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**190.900 PhD Aviation 120 credits**

## 192

### English Language Studies

**192.002 General English/English for Academic Purposes 0 credits**

A course of study in English language at different levels for students from non-English-speaking backgrounds. This course is offered through the English Language Centre. It is a full-time non-credit course.

**192.010 English Language Study 0 credits**

An intensive tailor-made course of study in English language for specific groups of international students that incorporates classroom based learning and field work or visits.

**192.011 Foundation Communications 15 credits**

An introduction to the skills necessary for successful communication both individually and in groups, and across a variety of contexts.

**192.020 Academic Reading and Writing 1 18 credits**

An introduction to academic reading and writing skills required for undergraduate study.

**192.021 Language Skills for Academic Study 1 18 credits**

An introduction to academic language, listening and speaking skills required for undergraduate study.

**192.022 Academic Reading and Writing II 18 credits**

An extension of Academic Reading and Writing 1, focusing on developing critical thinking, academic reading and writing skills for undergraduate study.

**192.023 Language Skills for Academic Study II 18 credits**

An extension of Language Skills for Academic Study 1, focusing on academic language, listening, speaking and presentation skills for undergraduate study.

**192.030 Advanced Academic Reading and Writing I 18 credits**

An introduction to academic reading, writing and critical thinking skills required for postgraduate study.

**192.031 Advanced Academic Language Skills and Conventions I 18 credits**

An introduction to academic language, listening and speaking skills required for postgraduate study.

**192.032 Advanced Academic Reading and Writing II 18 credits**

An extension of Advanced Academic Reading and Writing I, focusing on developing academic reading and writing skills to comprehend and produce texts commonly encountered in postgraduate study.

**192.033 Advanced Academic Language Skills and Conventions II 18 credits**

An extension of Advanced Academic Language Skills and Conventions I, focusing on academic language, listening, speaking and presentation skills for postgraduate study.

**192.040 Academic Language and Writing 1 15 credits**

An introduction to expository genres and high frequency vocabulary and grammatical structures for academic writing.

**192.041 Academic Language and Writing 2 15 credits**

An extension of Academic Language and Writing 1, focusing on further developing academic literacies and research skills for the production of written and oral assignments.

**192.042 Study Skills and Strategies 15 credits**

An introduction to the study skills and strategies necessary to be successful in the undergraduate tertiary environment.

**192.043 Critical Academic Skills 15 credits**

An introduction to critical thinking, reading, writing and numeracy skills essential for undergraduate studies.

**192.062 Elementary Listening and Speaking 18 credits**

Enables learners to listen to and speak about simple biographical, narrative and descriptive information.

**192.063 Elementary Reading and Writing 18 credits**

Enables learners to read and write simple biographical, narrative and descriptive texts.

**192.064 Skills and Strategies for Elementary Listening and Speaking 18 credits**

Enables learners to develop skills and strategies to listen to and speak about familiar ideas and information needed in social situations.

**192.065 Skills and Strategies for Elementary Reading and Writing 18 credits**

Enables learners to develop skills and strategies to read and write simple texts expressing familiar ideas and information needed in social situations.

**192.070 Pre-Intermediate Listening and Speaking 18 credits**

Develops skills in listening to and speaking about biographical, narrative and descriptive texts.

**192.072 Pre-Intermediate Reading and Writing 18 credits**

Develops skills in reading and writing biographical, narrative and descriptive texts.

**192.073 Skills and Strategies for Pre-Intermediate Reading and Writing 18 credits**

Develops skills and strategies in reading and writing about familiar ideas and personal information.

**192.074 Skills and Strategies for Pre-Intermediate Listening and Speaking 18 credits**

Develops skills and strategies in listening to and speaking about familiar ideas and personal information.

**192.075 Intermediate Reading and Writing 18 credits**

Further develops reading and writing skills to understand and produce a range of non-personal texts.

**192.076 Intermediate Listening and Speaking 18 credits**

Further develops listening and speaking skills to understand and communicate a range of less familiar topics.

**192.078 Skills and Strategies for Intermediate Reading and Writing 18 credits**

Further develops reading and writing skills and strategies for understanding and communicating non-personal information.

**192.079 Skills and Strategies for Intermediate Listening and Speaking 18 credits**

Further develops listening and speaking skills and strategies for understanding and communicating non-personal information.

**192.080 Upper Intermediate Reading and Writing 18 credits**

Extends the ability to read and write a range of narrative and academic text types.

**192.082 Upper Intermediate Listening and Speaking 18 credits**

Extends the ability to listen to and express ideas and opinions.

**192.085 Skills and Strategies for Upper Intermediate Listening and Speaking 18 credits**

Extends listening and speaking skills and strategies for study in an academic context.

**192.088 Skills and Strategies for Upper Intermediate Reading and Writing 18 credits**

Extends reading and writing skills and strategies for study in an academic context.

**192.089 Advanced Reading and Writing 18 credits**

Explores strategies in reading and writing. Provides opportunity for analysis of different text types and strategies for reading advanced texts.

**192.090 Expressing Complex Ideas and Relationships 18 credits**

Develops linguistic strategies to process complex information and express complex ideas in a wide range of contexts.

**192.091 Accessing the Community 18 credits**

Explores the community organisations and institutions both locally and internationally. Provides opportunities to achieve identified goals and effectively project personality in English. Explores idiomatic and colloquial language.

**192.092 Advanced Reading and Writing (Special Topic) 18 credits**

Provides opportunities to engage and interact with a wide range of text-types and produce complex texts in response. This course requires students to be highly pro active in the learning opportunities provided.

**192.095 English for Academic Purposes: Advanced 18 credits**

Develops advanced language and learning skills needed for tertiary study in an English-speaking environment.

**192.096 Extending Language Skills and Strategies for Tertiary Studies 18 credits**

Extends advanced language and learning skills needed for tertiary study in an English-speaking environment.

**192.101 English for Academic Purposes for Speakers of Other Languages 15 credits**

An introduction to vocabulary development, critical and analytical reading, seminar presentation, and listening and note-taking for academic purposes. This course is designed for students for whom English is a second or other language, and who are enrolled in degree/diploma programmes. It is most suitable for students who are new to an English-speaking academic environment.

**192.102 Academic Writing in English for Speakers of Other Languages 15 credits**

A course of study in academic English writing for international students and permanent residents for whom English is the second or other language.

**193****Veterinary Nursing****193.103 Animal Behaviour, Handling and Welfare 15 credits**

The animal industries and the principles of ethology and animal welfare and their application to domestication, husbandry and production of farm, companion and sport animals and veterinary science. The principles and practice of safe animal handling and restraint. The diagnosis, treatment and prevention of animal behaviour problems.

**193.105 Veterinary Technology Practical Experience and Farm Training 0 credits**

In this course, students will undertake a week-long farm practicum, as well as clinical experience of at least 80 hours within a veterinary clinic. Students will develop practical skills for working with livestock, knowledge of farm safety practices, an understanding of farm-level agricultural economics, as well as obtain generic observational, technical, fact-finding, analytical, and animal handling skills.

**193.107 Animal Behaviour and Welfare for Veterinary Technologists 15 credits**

An introduction to common ethical frameworks for animal use with a focus on domestic animal species, principles of the behaviour and welfare of domestic animal species and the theory and practice of safe and effective animal handling.

**193.122 Principles and Practice of Veterinary Nursing 15 credits**

Theoretical and practical skills in veterinary nursing including breed identification and basic animal care, terminology, clinical examination of canine, feline, equine and bovine animals, clinical procedures, legal issues of animal care and medical records, evidence and the disciplinary process, negligence and professional conduct. An introduction to immunology.

**193.204 Pathology for Veterinary Technologists 15 credits**

An introduction to pathology, including the relationship of altered body states to laboratory diagnosis. Use of diagnostic procedures for clinical disease in veterinary practice. Specimen collection and handling, quality control, and post-mortem techniques.

**193.205 Anaesthetic Monitoring and Equipment 15 credits**

Anaesthesia physiology. Local, regional and general anaesthesia. Maintenance of anaesthetic equipment. Anaesthetic emergencies. Monitoring patients under anaesthesia. Anaesthesia of high-risk patients. Assessment and control of pain. Intensive care nursing and monitoring.

**193.211 Infectious Diseases of Animals 15 credits**

An introduction to the major groups of organisms that infect animals and the diseases that they cause; treatment and control of disease-causing agents; and diseases of animals that can affect human health.

**193.212 Veterinary Medical Nursing 15 credits**

Diseases, disease presentation and treatment in companion animals, horses, production animals, birds and small mammals. Advanced nursing care and patient monitoring. Topics include infectious diseases, reproduction, obstetrics, paediatric and geriatric care, clinical nutrition.

**193.214 Pharmacology & Toxicology for Veterinary Technologists 15 credits**

Principles of drug formulation, administration, absorption, distribution, metabolism and elimination. Use of common drugs. Toxicities and emergency

treatment. Legal, ethical and economic aspects of animal remedies. Stock control. Drug storage and handling. Sale of animal remedies and client advice.

### 193.219 Surgery and Imaging **15 credits**

Pre-operative assessment, surgical procedures and post-operative care, wound healing and infection, dressings, bandages, splints and casts, dental care and treatment, care and function of specialised surgical equipment, design features of an efficient surgical unit, theatre etiquette, safety practices, principles of veterinary radiography and positioning of animals for radiography. Common procedures in all domestic animals, radiation safety, ultrasonography (MRI, CAT scans) and equipment maintenance procedures.

### 193.220 Veterinary Technology Clinical Experience **0 credits**

Clinical experience of at least 420 hours within the Massey University Veterinary Teaching Hospital and at least 120 hours of work experience in an area related to the students chosen track. Demonstration of satisfactory completion of work experience and generic skill use such as observational, technical, fact-finding and analytical skills is required

### 193.301 Veterinary Biostatistics and Epidemiology for Veterinary Technologists **15 credits**

Statistical principles and methodology, and their application to veterinary science. Emphasis on interpretation of results using computer packages. Principles of applied veterinary epidemiology including patterns of disease, investigation of disease in animal populations, interpretation of diagnostic tests, observational studies and critical appraisal of the literature.

### 193.303 Advanced Clinical Studies **15 credits**

In the context of veterinary technology, the course will develop a student's knowledge on the Aetiology and Pathogenesis of common diseases. Its coverage includes Clinical and Gross Pathology; Diagnostic Imaging; Advanced Anaesthesia including drugs, monitoring and physiological responses; Intensive Care including pain management, blood transfusions; Medical and Surgical procedures; Pharmacology.

### 193.304 Animal Welfare Emergency Management **15 credits**

A study of natural and man-made hazards and their effects on the animal population. The impact of natural disasters on animals in the environment and analysis of the potential consequences of disasters on the human-animal bond. Organisational aspects of international animal welfare emergency management. Reduction, readiness, response and recovery of production and companion animals in the event of a disaster. Technical skills required by Animal Welfare Emergency Management personnel.

### 193.305 Advanced Animal Behaviour **15 credits**

Advanced study of animal behaviour problems and methodologies of management. Integrated studies in the fundamentals of animal behaviour exploring learning theory, pathophysiology, pharmacology and animal management to enhance understanding of animal behaviour problems, identification and management of behaviour problems in domestic and captive animals.

### 193.306 Integrative Studies for Veterinary Technologists **60 credits**

This course provides tuition, demonstration and clinical experience and application in surgery, anaesthesia, medicine and imaging of animals; health and management of production animals. Students will perform nursing care, clinical and pathology procedures and develop nursing and treatment plans for patients. They will have opportunity to concentrate on a selected (small animal, production animal, equine, business) area of veterinary technology. Students will complete a research proposal, case studies and grand rounds. They are required to participate in compulsory elements including external and internal placements.

## 194

### Physiology

#### 194.101 Introductory Physiology **15 credits**

An introduction to the physiology of mammals, including humans, with comparative reference to some other taxa. The course focuses on physiological processes that help maintain a constant internal environment, physiological adaptations to changing external environments, and the relationship between the structure and function of tissues and organs.

#### 194.109 Physiology for Veterinary Technologists **15 credits**

An overview of the major body systems as they apply to veterinary technology. Foundational principles of physiology are examined and applied to multiple body systems and clinical situations.

#### 194.241 Physiological Control Systems **15 credits**

The principles of control systems involving nerves and hormones are examined. Control at the cellular, tissue, organ system and whole-body levels is explained with reference to the basis of cell excitability, basic functions of the nervous system, muscle contraction, actions of hormones, the immune system and the renal system.

#### 194.242 Physiology of Mammalian Organ Systems **15 credits**

An examination of the roles of organ systems in maintaining life and health in mammals, including humans, with emphasis on the alignment between structure and function. Topics include the functions of the heart and blood vessels, breathing, reproduction, and the digestive system.

#### 194.243 Physiological Strategies for Survival **15 credits**

Survival of individual animals, and species of animals, depends on effective physiological mechanisms that allow animals to live in different environments and to respond to changes in their environment, whether benign or extreme. These mechanisms are examined in relation to environmental factors that may include photoperiod, temperature, altitude, and latitude, and in relation to life in the air and underwater.

#### 194.245 Animal Form and Function **15 credits**

An overview of the strategies used by animals to persist in diverse habitats, from deserts to the poles. The course focuses on physiological and morphological strategies; in keeping with the integrative nature of the topic these will be related to behavioural and life history adaptations. Examples span diverse taxonomic groups from invertebrates to vertebrates, including humans.

#### 194.342 Cell Physiology **15 credits**

An examination of the physiology of selected organ systems at the cellular and molecular level, with emphasis on the physiological processes involved in differentiation, development and disease. Contemporary cell physiology laboratory techniques will be used with the aim of preparing students for research in physiology labs.

#### 194.343 Animal Welfare Science **15 credits**

This course explores the ways in which physiological function gives rise to mental experiences such as pain, breathlessness, thirst, nausea and fear in non-human animals and how the behaviour of an animal can be used to make inferences about its welfare state. These concepts will be applied to techniques used in the scientific study of animal welfare to enable students to construct robust strategies for animal welfare assessment.

#### 194.344 Nerves and the Nervous System **15 credits**

The functions of the nervous system of mammals, including humans, are explored using examples of normal and, in some cases, abnormal neural activity. Topics covered may include neuronal physiology, neuroscience methods, general sensory systems, developmental neurobiology and the integrating functions of the brain.

#### 194.345 Comparative Physiology **15 credits**

The physiological mechanisms that enable animals ranging from fish to mammals to live in changing environments. Topics will include adrenal gland hormones and stress, seasonal breeding and photoperiodism, the movement of animals between different environments, and migration.

#### 194.346 Metabolic Physiology **15 credits**

An examination of how the body attempts to maintain adequate nutrient and metabolic substrate levels in response to fluctuating energy demands in health and disease. Topics covered will include fluid and electrolyte balance, blood flow through vital tissues, signalling within the gut, nutrient absorption and utilisation and reflexes regulating metabolic activities

#### 194.348 Adaptive Human Physiology **15 credits**

An integrative study of the human physiological responses and adaptations to internal and external environmental stressors that challenge the normal homeostatic state and how these influence human health and performance.

#### 194.350 Human Lifecycle Physiology **15 credits**

Advanced study of human physiology from conception to death, covering pregnancy, the foetus, birth, lactation, growth, puberty and ageing. The impact

of earlier events on normal and abnormal body function later in the lifecycle will be considered.

### **194.703 Neurophysiology and Neuroendocrinology** **30 credits**

A two-semester course of self-paced guided instruction into the students' choice of one or more of the following areas: 1. advanced concepts in neurophysiology 2. integrated topics in neurophysiology and neuroendocrinology 3. diseases affecting the brain.

### **194.704 Reproductive Physiology** **30 credits**

Emphasis will be on the hormonal control of reproduction in male and female mammals.

### **194.705 Digestive Physiology** **30 credits**

An advanced study of the physiology of digestion in monogastric and ruminant animals. The topics covered may include the mechanisms controlling digestion, functions of gastrointestinal secretions, motility of the stomach and intestines, characteristics of digestion in ruminants and absorption of nutrients.

### **194.707 Perinatal Physiology** **30 credits**

Principle features of perinatal physiology that affect the survival of newborn mammals are considered, as are some ways physiological investigations are used to devise practical methods for reducing death and debility of newborn mammals.

### **194.709 Conservation Endocrinology and Reproductive Biology** **30 credits**

The application of principles and methods in endocrinology to conservation problems will be considered, especially in relation to reproduction and to stress. The topics studied by each student can be chosen from a wide range and will include New Zealand examples.

### **194.731 Animal Welfare Science** **30 credits**

The contents and scope of animal welfare problems, scientific evaluations of them and the use of science to devise practical solutions are considered at an advanced level.

### **194.732 Advanced Cell Physiology** **30 credits**

An advanced course on selected topics in cell physiology. The focus is on the processes involved in maintaining cell viability, the mechanisms involved in cell motility and trafficking, intracellular and intercellular signalling, the control of cell death and opportunities for therapeutic manipulations of these processes.

### **194.799 Research Report** **30 credits**

### **194.870 Research Report** **60 credits**

### **194.871 Thesis 90 Credit Part 1** **45 credits**

A supervised and guided independent study resulting in a published work.

### **194.872 Thesis 90 Credit Part 2** **45 credits**

A supervised and guided independent study resulting in a published work.

### **194.897 Thesis 120 Credit Part 1** **60 credits**

A supervised and guided independent study resulting in a published work.

### **194.898 Thesis 120 Credit Part 2** **60 credits**

A supervised and guided independent study resulting in a published work.

### **194.899 Thesis** **120 credits**

A supervised and guided independent study resulting in a published work.

### **194.900 PhD Anatomy/Physiology** **120 credits**

## 196

## Ecology

### **196.101 Ecology, Evolution and Behaviour** **15 credits**

An introductory biology course on the way organisms react, adapt, and interact. The course investigates the relationships between genotype, phenotype and environment, and the diversity of life on Earth within a phylogenetic framework. The course includes an examination of the dynamic

interactions within and between abiotic and biotic components of ecosystems, including a focus on the evolutionary ecology of behaviours such as foraging, mating, parenting, and cooperation.

### **196.201 Biodiversity of New Zealand** **15 credits**

An introduction to the biodiversity of New Zealand in a world context. This course considers the origins and relationships of New Zealand biota, species' distributions, adaptive features, behaviours and ecology, along with a consideration of characteristic New Zealand ecosystems. Practicals include compulsory field work.

### **196.203 Ecosystem Health** **15 credits**

The study of community and ecosystem ecology of animals, microbes and plants, including the roles that interactions amongst these organisms and their environments play in chemical cycling and the functioning of natural ecosystems. Complex ecological problems affecting ecosystem health will be explored and solutions discussed. Practical classes will involve a research project that develops statistical and writing skills.

### **196.205 Ecology and Conservation** **15 credits**

Terrestrial ecology and the application to conservation biology, including evolutionary ecology, population biology, species interactions, community, ecosystem and landscape ecology. New Zealand and overseas case studies are considered throughout the course. An analytical approach is taken in the field trips and laboratory work including the use of statistics to test ecological hypotheses and to identify patterns in plant and animal distributions. There is one compulsory weekend field trip.

### **196.206 Conservation Ecology** **15 credits**

This course focuses on terrestrial ecology, including evolutionary, population, community, ecosystem and landscape ecology, and the application of ecological theories to conservation biology. New Zealand and overseas case studies are considered throughout the course. An analytical approach is taken in the field trips and laboratory work, including the use of statistics to identify patterns in plant and animal distributions, test ecological hypotheses and the effect of conservation actions. The course consists of lectures, laboratory exercises and a compulsory two-day weekend field trip.

### **196.207 Biological Evolution** **15 credits**

A general review of modern evolutionary biology and evolutionary theories, encompassing micro- and macro-evolution. The course centres on genetic and environmental processes that operate in natural populations and among species. It explores the history and development of evolutionary thinking, the origins and age of life on earth, and prehistoric biodiversity. Other topics include evolutionary changes in DNA, human evolution, origin of life, the nature of species and how species arise. Laboratory classes include a range of theoretical, practical and computing exercises in population genetics, phylogenetics and data management.

## Biology

### **196.213 Microbial Ecology** **15 credits**

Introduction to the diversity of prokaryote and eukaryote microorganisms. Population biology and community ecology including microbe-microbe, microbe-plant, and microbe-animal interactions. Adaptations of microbes to extreme environments. The role of microorganisms in biogeochemical cycles, and aspects of applied microbiology, e.g. bioremediation, biological control, composting and biogas.

## Ecology

### **196.217 Evolutionary Biology** **15 credits**

Understanding the processes and patterns of evolution is central to developing insight into questions of how and why in biology. This course introduces students to the core concepts in evolution, including the geological, biological, phylogenetic and rational evidence for evolution by common descent. Core concepts - including the origins of genetic and phenotypic variation, and micro and macro-evolutionary processes and patterns - will be reinforced and explored in the lab via computer-based simulations and real evolution experiments with digital organisms. Students will be introduced to current theories of human evolution and topics of special interest including the evolution of cooperation and conflict; game theory; the origin of sex; and microbial experimental evolution. Theory will be illustrated, where appropriate, with examples from New Zealand's native species.

**196.223 Freshwater Ecology 15 credits**

The study of freshwater ecosystems, including the physical and chemical processes that occur in streams, lakes, and their interactions with the biota. Ecological concepts are applied to problems of water quality, ecosystem health, monitoring and the restoration of freshwater systems.

**Marine Ecology****196.225 Introductory Marine Biology 15 credits**

An introduction to Marine Biology - the scientific study of life in the sea. First principles of marine biology from history of Marine Biology to use of the sea as a fundamental resource. Studying the ocean as a habitat and examining the form and function of marine taxa within marine biomes, students will discover how the biology, behaviour and ecology of organisms differ between contrasting marine environments.

**Ecology****196.226 Field Marine Ecology 15 credits**

Students will learn about the major groups of organisms inhabiting New Zealand marine ecosystems and the processes governing their stability and resilience. Students will receive hands-on training of the common observational and experimental techniques used by marine ecologists. The knowledge and practical experience will then be used to develop hypotheses and execute experiments in the field.

**196.307 Behavioural and Evolutionary Ecology 15 credits**

An examination of the behavioural adaptations of animals to their environments and the processes involved in the evolution of animal life histories.

**196.313 Freshwater Ecology 15 credits**

The study of freshwater ecosystems, including the physical and chemical processes that occur in streams, lakes, and their interactions with the biota. Ecological concepts are applied to problems of water quality, ecosystem health, monitoring and the restoration of freshwater systems.

**196.315 Conservation Science 15 credits**

The principles and practice of conservation and management of populations. Ecological principles are applied to the sustainable use of natural resources including conservation of threatened species and fisheries management. The practical component includes statistical analysis and modelling. There is a compulsory field trip day.

**196.316 New Zealand Plant Ecology 15 credits**

Global issues in concept-based plant ecology taught from a New Zealand perspective. Topics include plant growth dynamics, community assembly rules, plant successional concepts and models, herbivory impacts, life history strategies, invasion ecology and plant reproduction. Practical work includes compulsory field days.

**196.317 Community and Ecosystem Ecology 15 credits**

A theoretical perspective to the study of community and ecosystem ecology examining the role of interactions between two or more species and their environment. Topics covered include techniques of community description, abiotic and biotic controls of community structure, the effects of disturbance, food web theory, ecosystem function and biodiversity. The emphasis will be on understanding the models and theories relating to this area of science, although examples of the application of these principles will also be given. Practical classes will involve a small research project emphasising the statistical and writing skills important in community and ecosystem ecology.

**196.318 Molecular Ecology 15 credits**

This course explores the application and analysis of molecular markers to address questions within basic and applied ecology. The diversity of genetic techniques, metrics, and analyses used in molecular ecology will be demonstrated. Examples will address how molecular approaches can be applied to gain insights into ecology, demography, behaviour, biodiversity, and conservation.

**196.319 Terrestrial Ecology 15 credits**

The course explores the diversity of plant interactions with other organisms, the molecular and biochemical mechanisms underlying them, their ecological relevance, and the impacts of human activities. The course includes a practical component where students will use molecular and biochemical techniques to investigate these interactions.

**196.320 Biodiversity and Biogeography 15 credits**

This course will explore the biodiversity sciences drawing on evolutionary and ecological theory, and using terrestrial and marine examples on local to global scales. Students will learn practical skills in quantifying patterns and contributing processes, and how to critically synthesise empirical research to advance knowledge and its application to conservation.

**196.326 Topics in Marine Ecology 15 credits**

An in-depth view of topics in the ecology of marine organisms and their habitats. Students will study one or more topics to provide an advanced education in central issues in marine ecological sciences.

**Marine Ecology****196.327 Marine Mammalogy 15 credits**

This course examines the zoogeography of marine mammals and the morphological, physiological and behavioural adaptations which have enabled this diverse group to successfully colonise all of the world's oceans and some freshwater systems. An understanding of the underlying ecological principles not only provides interesting insights into marine mammal biology but also yields consequences for marine mammal conservation and management.

**Ecology****196.328 Marine Environments in the Anthropocene 15 credits**

Humans have interacted with and utilised marine resources for millennia. In this course students will examine how we interact with marine environments and wildlife and the implications of those interactions. In particular, we will focus on how novel approaches are paving the way for more respectful custodianship of our marine resources. Topics include: marine pollution, resource management systems, spatial conservation planning, and aquaculture.

**196.329 Marine Ecology 15 credits**

Students will develop an in-depth understanding of the life histories of marine organisms and the mechanisms that determine the distribution and abundance of biodiversity in our oceans. Topics include: marine organism life histories, connectivity and dispersal, community ecology, trophic ecology, and anthropogenic impacts including climate change.

**Marine Ecology****196.350 Quantitative Marine Ecology 15 credits**

Modern ecology requires quantitative tools to test hypotheses, develop models and make predictions for ecological phenomena in the natural world. This course covers some of the most important advanced statistical modelling tools and software for ecological applications. Topics may include: quantifying biodiversity and modelling species populations, behaviour, interactions or communities with frequentist or Bayesian methods in R and/or WinBUGS software.

**Ecology****196.712 Aquatic Ecology 30 credits**

This course presents an historical and theoretical perspective to the study of freshwaters, building on the general introduction in 196.313. Topics covered include stream ecosystem structure and function, aquatic macrophytes, plankton, freshwater fish, disturbance and land use impacts, and the implications of the Resource Management Act to aquatic ecology.

**196.713 Ecology 30 credits**

This course explores contemporary issues in ecology, emphasising a functional outlook on the role of species in communities. It will focus on biodiversity and the interactions of organisms as stimuli for biodiversity. Topics include diversity and ecosystem function, patterns of species diversity, keystone species, herbivory, community structure, assembly roles and food web studies.

**196.726 Plant Ecology 30 credits**

Theoretical topics in plant ecology and ecophysiology, such as forest dynamics, population structures, reproductive strategies, spatial pattern, pollination biology, and ontogenetic effects, investigated through a coordinated course of practical work and literature investigations.

**196.798 Research Report 30 credits****196.870 Research Report 60 credits**

**196.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work

**196.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**196.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**196.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**196.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work

**196.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**196.900 PhD Ecology 120 credits**

## 197

### Art and Design Studies

**197.119 Coding for Creative Practice 15 credits**

In this studio course students will be introduced to the fundamentals of computer programming as an art and design tool. Students will acquire basic knowledge and fundamental techniques for the creative uses of coding across a range of art and design contexts.

**197.122 Digital Fabrication 15 credits**

In this studio course students will be introduced to open source and consumer software as a means to produce objects with digital fabrication tools. Through an iterative making process, students will develop an understanding of design considerations, workflows and new methods of creating using contemporary digital technologies.

**197.123 Visual Identity Systems 15 credits**

Develop a visual expression for an organisation or event that can be adapted across a range of mediums. Acquire techniques, skills and processes of synthesis, reduction and abstraction.

**197.191 Art and Design: Special Topic I 15 credits**

This course focuses on a specific aspect of art and design. Offerings change from year to year and may not be offered in a particular year.

**197.193 Contemporary Design Project 1A 15 credits**

Engagement with new thinking in contemporary design research and production through a specific lecturer-led project.

**197.194 Contemporary Design Project 1B 15 credits**

Engagement with new thinking in contemporary design research and production through a specific lecturer-led project.

**197.211 Rapid Ideation 15 credits**

In this studio course students will explore techniques and develop methods of rapid conceptual development in response to a range of design challenges. Students will work collaboratively using a variety of creative processes to facilitate and generate original solutions.

**197.228 Contemporary Design Project A 15 credits**

Engagement with new thinking in contemporary design research through a specific lecturer-led project.

**197.229 Contemporary Design Project 2A 15 credits**

Engagement with new thinking in contemporary design research and production through a specific lecturer-led project.

**197.238 Interaction and Interface I 15 credits**

In this studio course students will focus on issues and design considerations particular to the interface between technology and people. Principles of usability and interaction will be applied to a range of situations including hand-held, web located, environmental and spatial.

**197.270 Creative Ecologies I 15 credits**

In this studio course students will focus on the issues raised by human influence on ecology, culture and economy. Students will be exposed to the history and contexts of sustainability and explore a range of creative responses to future scenarios.

**197.288 Creative Collaboration 15 credits**

In this course, students from a broad range of creative practices will work together to conceptualise and create innovative offerings to experience and reflect upon collaboration as creative citizens.

**197.291 Art and Design: Special Topic II 15 credits**

This course focuses on a specific aspect of art and design. Offerings change from year to year and may not be offered in a particular year.

**197.331 Contemporary Design Project B 15 credits**

Engagement with new thinking in contemporary design research through a specific lecturer-led project.

**197.332 Contemporary Design Project C 15 credits**

Engagement with new thinking in contemporary design research through a specific lecturer-led project.

**197.338 Interaction and Interface II 15 credits**

In this studio course students will expand their knowledge and proficiency with specific aspects of human-technology interaction. Students will intensify their focus on areas such as small-screen interface, web-based networking, touch control, reactive environments and spatial interaction.

**197.370 Creative Ecologies II 15 credits**

In this studio course students will explore design issues particular to ecological design. Students will experiment in the development of innovative designs that integrate with their environments to form holistic living systems.

**197.379 Service and Experience Design 15 credits**

In this studio course students will learn and apply human-centred design processes to create a multi-dimensional response to a specific brief. Using a human-centred approach, students will negotiate the opportunities and tensions inherent in the design of services and experiences, offering original solutions that explore current paradigms (including the dynamic interplay of production and consumption).

**197.383 Internship 15 credits**

In this course, and in partnership with the course coordinator, the student will identify an academic researcher, external group, mentor or professional to exercise and develop their creative practice while working within a direct collaborative relationship.

**197.388 Creative Communities 15 credits**

In this course, students from a broad range of creative practices will work together to explore conceptual and strategic dimensions of professional practice through encounters with external partners. Students will develop an understanding of their position as creative citizens within a broader community, and produce strategic, innovative offerings that reflect this relationship.

**197.433 Designing Science Fiction 15 credits**

In this studio course students will, through a process of research-informed practice, investigate design issues particular to the science fiction genre. Students will explore and expand science fiction theory and practice in the development of an original production concept.

**197.434 Design Awards and Competitions 15 credits**

In this studio course you will develop a response to a top-level national or international design brief, award, or competition. You must apply for a specific offered module appropriate to your design specialisation or propose a competition brief to a supervising faculty member. All modules extend your skills in design research, conceptual development and advanced technical application, so that you can produce a high calibre award or competition entry.

**197.435 Design for Festivals and Events 15 credits**

This course focuses on developing creative work that responds to specific festival themes and locations. With a focus on practice and collaboration you will contextualise, define, develop and deliver creative outcomes for a specified festival or event.

<b>197.436 Play, Research and Design</b>	<b>15 credits</b>	<b>197.707 Advanced Digital Fabrication for Creative Res 2</b>	<b>15 credits</b>
Advanced design research informing the meaning and methodology of play within a social, cultural or technological context. This course focuses on the development of design strategies for the formation of original Play activities, games and experiences. Students will explore ways in which Play can engage users to participate in the experience of other perspectives and challenge their worldview through active participation in a multidisciplinary Play scenario.		In this studio course, students will use the latest digital fabrication technologies in Fab Lab Wellington to prototype and manufacture creative outputs, and thereby gain an advanced understanding of open design principles and practices.	
<b>197.440 Contemporary Design Project D</b>	<b>15 credits</b>	<b>197.800 Design Thesis</b>	<b>120 credits</b>
Engagement with new thinking in contemporary design research through a specific lecturer-led project.		Preparation of a thesis consisting of an advanced design-led research project and an exegesis to satisfy the requirements of the Master of Design qualification.	
<b>197.441 Contemporary Design Project E</b>	<b>15 credits</b>	<b>197.801 MPhil Thesis</b>	<b>120 credits</b>
Engagement with new thinking in contemporary design research through a specific lecturer-led project.		A supervised and guided independent study resulting in a published work.	
<b>197.442 Contemporary Design Project F</b>	<b>15 credits</b>	<b>197.802 Design Thesis 120 Credit Part 1</b>	<b>60 credits</b>
Engagement with new thinking in contemporary design research through a specific lecturer-led project.		Preparation of a thesis consisting of an advanced design-led research project and an exegesis to satisfy the requirements of the Master of Design qualification.	
<b>197.443 Contemporary Design Project G</b>	<b>15 credits</b>	<b>197.803 Design Thesis 120 Credit Part 2</b>	<b>60 credits</b>
Engagement with new thinking in contemporary design research through a specific lecturer-led project.		Preparation of a thesis consisting of an advanced design-led research project and an exegesis to satisfy the requirements of the Master of Design qualification.	
<b>197.465 Creative Leadership</b>	<b>15 credits</b>	<b>197.808 MPhil Thesis 120 Credit Part 1</b>	<b>60 credits</b>
In this course, students from a broad range of creative practices will work together to situate themselves within the spectrum of the creative industries. Serving their communities as creative leaders, students will apply research and innovation theories to business and social-enterprise practices in order to conceptualise, develop, and deliver a strategic offering for a defined audience.		A supervised and guided independent study resulting in a published work.	
<b>197.470 Creative Ecologies</b>	<b>15 credits</b>	<b>197.809 MPhil Thesis 120 Credit Part 2</b>	<b>60 credits</b>
In this studio course students will investigate how understanding “ecology” can catalyse research that may transform a current social or environmental issue. This course will engage in practices that include behavioural change frameworks, transformation design and sustainable design. A student will self-select a topic that is independently researched and results in a speculative proposal.		A supervised and guided independent study resulting in a published work.	
<b>197.471 Social Interventions Through Design</b>	<b>15 credits</b>	<b>197.810 Thesis</b>	<b>120 credits</b>
In this studio course students will establish a critical position through theme based experimental projects exploring the intersection between diverse design practices. Students will work collaboratively and interdisciplinary to explore and combine unconventional communication design materials, methods and practices to creative interventions in public spaces.		In this programme of independent research students generate and present a distinctive body of new work that demonstrates innovative engagement with art/ design practice. The thesis comprises the presented creative work and an exegesis.	
<b>197.490 Design Special Topic A</b>	<b>15 credits</b>	<b>197.811 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
		A supervised and guided independent study resulting in a published work.	
<b>197.495 Design Independent Study</b>	<b>15 credits</b>	<b>197.812 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
Supervised independent student work on a negotiated design topic involving the setting of objectives, research and /or project work and the presentation of appropriate written and/or practical outcomes.		A supervised and guided independent study resulting in a published work.	
<b>197.499 Design Special Topic</b>	<b>30 credits</b>	<b>197.821 Advanced Studio Praxis I</b>	<b>60 credits</b>
		Through the generation and presentation of a body of advanced creative work, contextual writing and participation in masterclass sessions, students identify key issues in their practice and critically respond to the research context in which they are working.	
<b>197.701 Creative Research Practices I</b>	<b>30 credits</b>	<b>197.822 Advanced Studio Praxis II</b>	<b>60 credits</b>
Introduction to creative research as a critical practice through advanced methods, processes, technologies and skills.		Students reflect on the advanced creative work they are undertaking and the critical perspectives they have explored to develop a practical and written framework for a significant body of new work. Students develop and present a research proposal for their Thesis Project alongside a selection of creative work.	
<b>197.702 Creative Research Practices II</b>	<b>30 credits</b>	<b>197.900 PhD Design</b>	<b>120 credits</b>
Development of a creative research topic area through application of advanced research methods, processes, technologies and skills.			
<b>197.703 Creative Research Special Topic A</b>	<b>30 credits</b>		
<b>197.704 Creative Research Special Topic B</b>	<b>15 credits</b>		
<b>197.705 Independent Study</b>	<b>15 credits</b>		
<b>197.706 Advanced Digital Fabrication for Creative Res 1</b>	<b>15 credits</b>		
In this studio course in Fab Lab Wellington, students will develop software, systems, and related technical infrastructure for digital fabrication technologies, and thereby develop an advanced understanding of open design principles and practices.			

## 198

## Industrial Design

<b>198.124 Modelling and Prototyping for Product Design</b>	<b>15 credits</b>
In this studio course students will investigate strategies and methods for exploring and modelling the form and function of tangible products. Through the development of skills, techniques and workflows, students will model and prototype three-dimensional design concepts and design resolutions.	
<b>198.157 Studio I (Object)</b>	<b>15 credits</b>
In this studio course students will be introduced to creative and analytical thinking skills, idea generation and visualisation common to art and design practice. They will begin to acquire specific techniques, skills and processes in three dimensional form-giving, resourceful making and user experience. They will learn to discuss and evaluate their work and the work of their peers.	

**198.212 Product Design Visualisation 15 credits**

Introduction to visualisation techniques and processes that are used for the design of tangible products that focus on developing drawing, rendering, concept development and presentation skills across a range of software and traditional media.

**198.213 Furniture Design 15 credits**

In this studio course students will develop skills in the design, development and production of furniture in one-off, batch or mass production. By gaining an understanding of the theoretical, historical and practical applications of the discipline, they will produce a project for a specific design context.

**198.221 Modelling and Prototyping 15 credits**

In this studio course students will explore issues and design considerations particular to modelling and prototyping for three-dimensional design. Through the application of skills and techniques, this course draws on a range of strategies and methods for exploring and representing the form and function of products.

**198.257 Design Studio IIA (Industrial) 30 credits**

In this studio course students will explore and articulate creative responses to design challenges through critical awareness of contextual issues. Students will develop and apply core techniques, skills and processes in industrial design.

**198.258 Design Studio IIB (Industrial) 30 credits**

In this studio course students will continue to explore and articulate creative responses to design challenges through critical inquiry into contemporary issues relevant to industrial design. Students will further develop and apply core design techniques, skills and processes.

**198.308 Industrial Design Special Topic A 15 credits**

The course focuses on one specific aspect of industrial design. Offerings change from year to year or may not be offered in a particular year.

**198.315 Product Development 15 credits**

In this studio course students will explore and articulate issues and design considerations particular to the development of products for manufacture. Through a design and build project, students will explore and apply their individual and collaborative practices required to develop a product from concept to manufacture.

**198.320 Open Design & Digital Fabrication 15 credits**

In this studio course students will utilise open design methodologies and digital fabrication tools to produce an open design project. They will explore the possibilities and articulate issues related to an open design philosophy whilst developing skills in making and digital fabrication.

**198.357 Design Studio IIIA (Industrial) 30 credits**

In this studio course students will establish a critical position through individual or collaborative creative exploration and articulation. With opportunities for varied contextual applications, students will consolidate and expand industrial design concepts, techniques, skills and processes in the production of their creative work.

**198.358 Design Studio IIIB (Industrial) 30 credits**

In this studio course students will negotiate a critical position through individual or collaborative professional practices, with opportunities to apply their specialist skills to a range of contexts. In addition to advancing industrial design concepts, techniques, skills and processes in the production of their creative work, students will develop and apply transferable skills relevant to professional environments.

**198.362 Industrial Design Visualisation 15 credits**

Advanced rendering and visualisation for industrial design, focusing on developing rendering, concept development and presentation skills across a wide range of digital and traditional media.

**198.453 Industrial Design Research and Development 30 credits**

Research methods, processes and practices for industrial design and their application through a research project.

**198.454 Industrial Design Research Project 45 credits**

Development and application of research to an independent industrial design project.

**198.455 Industrial Design Studio Project 45 credits**

Development and realisation of an advanced industrial design project.

**198.463 Industrial Design Digital Representation 15 credits**

Digital design processes and their integration into design research.

**198.490 Industrial Design Special Topic C 15 credits****198.495 Industrial Design Independent Study 15 credits**

Supervised independent student work on a negotiated industrial design topic involving the setting of objectives, research and /or project work and the presentation of relevant written and/or practical outcomes.

**199****Zoology****199.101 Biology of Animals 15 credits**

Animal diversity is studied within an evolutionary framework. Lectures cover the topics of phylogeny, biogeography, community ecology, morphology, embryology, physiology, behaviour and population biology. During laboratory classes students observe and dissect a variety of animals, study tissues and organs, simulate evolutionary events, carry out field work and analyse population data.

**199.103 Animals and the Environment 15 credits**

An introductory biology and natural history course presented within an evolutionary framework that investigates the diversity of animal life, human-animal interactions, nutrient and energy flows, conservation and sustainability. This course places emphasis on wild animals and ecological processes operating within New Zealand and globally.

**199.203 Evolutionary Principles of Animal Behaviour 15 credits**

This course explores how genetics and the environment shape the evolution of animal behaviour and inter- and intraspecific interactions. Practice sessions develop skills on the description, quantification, comparison and statistical analysis of animal behaviour using a variety of animals (vertebrate and invertebrate, wild and domestic). The use of scientific writing to communicate research findings is emphasised.

**199.204 Animal Behaviour 15 credits**

An integration of biological processes through behavioural mechanisms, the functional responses of individuals and the evolution of social behaviour. Practical skills of description, quantification, comparison and experimentation are emphasised.

**199.206 The Fauna of New Zealand 15 credits**

An analysis of the fauna of New Zealand, covering unique and significant elements of the current fauna, and where appropriate, their relationships to past faunas or those elsewhere. Major lifestyle themes, life history adaptations, and habitat characteristics are explored. Practicals include compulsory field work.

**199.211 Invertebrate Zoology 15 credits**

A largely marine-based course that introduces the spectacular diversity amongst invertebrates. An appreciation of the major phyla is gained through learning about their diversity, anatomy, feeding, ecology and reproduction. Practical work focuses on identifying invertebrates, their morphology, and how they function.

**199.212 Vertebrate Zoology 15 credits**

The basic chordate structural plan is compared to the structure of cephalochordates and vertebrates. The evolution, form and function of some major organs and organ systems are examined. Special features of fishes, amphibia, reptiles, birds and mammals are highlighted. The geological timescale, zoogeography, physiology, ecology, local examples and aspects of conservation are discussed. Practical work is important.

**199.214 Invertebrate Form and Function 15 credits**

An exploration of invertebrate diversity, ecology and evolution. Students will examine the major groups of invertebrates and learn about the relationships between form and function in their environment. Laboratory work will focus on developing practical abilities including collection, dissection, identification of invertebrates and research skills.

**199.310 Entomology 15 credits**

Insect diversity, anatomy, physiology, behaviour, plant-insect relationships, biosecurity, and integrated pest management in agriculture, horticulture and forestry. Insect identification and curation skills are taught in the laboratories. An insect collection is required.

**199.312 Behavioural Ecology 15 credits**

An examination of the behavioural adaptations of animals to their environment with particular emphasis on the evolution of this behaviour. Topics will include feeding, reproduction, parental care, cooperation and communication.

**199.313 Environmental Physiology 15 credits**

The physiological mechanisms that enable invertebrate and vertebrate animals to live in changing environments.

**199.317 Animal Biodiversity 15 credits**

An exploration of the origins and maintenance of biodiversity using evolutionary and ecological theory, with an emphasis on New Zealand's unique fauna. Factors that determine the distribution and abundance of genetic variation in natural systems, methods of describing this variation (systematics, phylogeography), and ecological processes that maintain this variation are examined. Evolutionary patterns and processes are studied.

**199.320 Experimental Zoology 15 credits**

An in-depth course in experimental zoology. Students will study the principles of experimental design, critical thinking and analysis in zoological sciences. Practical work will emphasise collection and interpretation of behavioural and ecological data using invertebrate model systems.

**199.330 Ornithology 15 credits**

The evolution, taxonomy, morphology and behaviour of birds. Recognition of New Zealand birds by sight and sound. Practical work includes dissection and analyses of plumage colouration and vocalisations.

**199.714 Animal Behaviour 30 credits**

How do animals choose a mate, rear their young, avoid predators, find a meal and communicate with each other? These problems and applications of behavioural ecology to pest control and conservation are investigated in detail through reading current literature and class discussions. Topics change from year to year and according to the interests of the participants.

**199.717 Entomology 30 credits**

An advanced course of study involving literature reviews, tutorials and personal research on selected aspects of insect evolution, physiology, behaviour and ecology. Topics could include the evolution of insect flight and sociality, pollination of native plants, courtship and mating behaviour, reproductive hormones and pheromones and insect dispersal, pest management and post-harvest disinfestation.

**199.719 Topics in Biodiversity 15 credits**

A review of the theory and methods for the analysis of biodiversity patterns and processes in space and time. Emphasis is placed on the use of phylogenetic trees, phylogeographic analysis and other genetic methods for testing hypotheses in evolution, historical biogeography, and regional biodiversity.

**199.798 Research Report 30 credits****199.870 Research Report 60 credits****199.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**199.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**199.873 Thesis 90 Credit Part 1 (30 credits) 30 credits**

A supervised and guided independent study resulting in a published work.

**199.874 Thesis 90 Credit Part 2 (60 credits) 60 credits**

A supervised and guided independent study resulting in a published work.

**199.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**199.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**199.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**199.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**199.900 PhD Zoology 120 credits****200****Politics****200.100 Politics of Culture and Power 15 credits**

A broad exploration of what counts as politics in the context of cultural identities, social hierarchies and power relations.

**200.161 Introduction to Politics 15 credits**

An introduction to the study and nature of politics, including political theory, political parties, electoral systems, public policy and international relations.

**200.162 Politics and Public Policy in New Zealand 15 credits**

An introduction to politics and public policy in New Zealand, with an emphasis on political institutions, the development of public policy, and the interplay between politics and economics in policy development.

**200.201 Middle Eastern Politics 15 credits**

An examination of the contemporary politics of the Middle East, including North Africa.

**200.215 Foundations of Political Thought 15 credits**

A study of the history of political thought from antiquity to the nineteenth century.

**200.261 World Politics 15 credits**

An introduction to major theories, issues, events and institutions in contemporary world politics.

**200.300 Peace Studies 15 credits**

A critical investigation of the ways that violence, conflict, and peacebuilding are understood within politics, and the resulting sub-discipline of peace studies.

**200.301 Contemporary International Conflict 15 credits**

An examination of contemporary international conflict drawing on case studies from around the world.

**200.302 Israel/Palestine and the Arab World 15 credits**

An exploration of issues in Israeli-Arab relations including the state of Israel's relationships with its Palestinian citizens, the Palestinian Authority, the neighbouring Arab states and the wider Middle East.

**200.303 Global Democratic Politics 15 credits**

This course will critically examine core issues and debates in contemporary democratic theory and practice in a global context, with a focus on diverse forms of and challenges to political participation in contemporary democracies.

**200.315 Contemporary Political Thought 15 credits**

A study of key developments and debates in contemporary political thought.

**200.361 Contemporary New Zealand Politics 15 credits**

A study of selected topics and themes in contemporary New Zealand politics and government, with particular reference to the period from 1984 to the present.

**200.701 Advanced Political Thought 30 credits**

An advanced study of significant and diverse scholarships and debates that frame and contest contemporary political events.

**200.702 Comparative Politics 30 credits**

An in-depth exploration and critical analysis of the operation and nature of politics in different countries and regions around the world.

<b>200.761 International Relations: Theory and Practice</b>	<b>30 credits</b>
An exploration of the theory and practice of international relations.	
<b>200.798 Research Report (30)</b>	<b>30 credits</b>
<b>200.799 Research Report (60)</b>	<b>60 credits</b>
<b>200.800 MPhil Thesis</b>	<b>120 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>200.801 MPhil Thesis 120 Credit Part 1</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>200.802 MPhil Thesis 120 Credit Part 2</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>200.816 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>200.817 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>200.873 Research Report Politics (60)</b>	<b>60 credits</b>
<b>200.881 Thesis 90 Credit Part 1</b>	<b>45 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>200.882 Thesis 90 Credit Part 2</b>	<b>45 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>200.883 Thesis</b>	<b>90 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>200.899 Thesis</b>	<b>120 credits</b>
A supervised and guided independent study resulting in a published work.	
<b>200.900 PhD Politics and International Relations</b>	<b>120 credits</b>

## 201

### Classical Studies

<b>201.103 Magic and Witchcraft</b>	<b>15 credits</b>
A multidisciplinary study of magic and witchcraft in selected societies in different time periods.	
<b>201.112 Greek History</b>	<b>15 credits</b>
This course provides a survey of Greek History from the Bronze Age to the death of Alexander the Great in 323 BC.	
<b>201.113 Greek Mythology</b>	<b>15 credits</b>
A study of the nature and uses of Greek mythology in ancient Greek literature and art.	
<b>201.114 The Roman Republic</b>	<b>15 credits</b>
This course provides an introduction to Roman history, from its mythical beginnings to the battle of Actium in 31 BC.	
<b>201.115 Introductory Latin</b>	<b>15 credits</b>
An introduction to the grammar and translation of Latin. No prior knowledge of Latin assumed.	
<b>201.117 Greek and Roman Warfare</b>	<b>15 credits</b>
An introduction to warfare in antiquity, in its social and political contexts, with an examination of weapons, tactics, strategy, famous battles and generals.	
<b>201.201 The Pursuit of Happiness in the Classical World</b>	<b>15 credits</b>
This course explores views of happiness in the ancient Greek and Roman world from Homer to Marcus Aurelius.	
<b>201.211 Love and Sexuality in Ancient Greece</b>	<b>15 credits</b>
This course offers a systematic study of ancient Greek attitudes and practices relating to love and sexuality as reflected in history, literature, art, and philosophy, and against the background of the family and society at large.	

<b>201.212 Intermediate Latin</b>	<b>15 credits</b>
A development of reading proficiency in classical Latin by increasing core vocabulary key grammatical concepts and translation.	
<b>201.216 The Trojan War</b>	<b>15 credits</b>
A comparative examination of the Trojan War in Greek and Roman literature.	
<b>201.218 Greek and Roman Religion</b>	<b>15 credits</b>
A study of the religion of the Greeks and Romans, approached through both literary and archaeological sources. The course focuses on cult practices and their impacts on the societies of the time.	
<b>201.219 Greek Art and Society</b>	<b>15 credits</b>
A survey of techniques, developments and achievements in Greek architecture, sculpture, wall- and vase-painting, set in their archaeological and social contexts. The period covered is from the Bronze Age through to Late Classical times.	
<b>201.231 Leaders and Leadership in the Classical World</b>	<b>15 credits</b>
A study of leadership in the Classical world from the point of view of the leaders themselves and from those they led.	
<b>201.313 Greek Tragedy, Then and Now</b>	<b>15 credits</b>
This course examines ancient Greek tragedy in translation. It looks at the transformation of myth into tragedy in the fifth century BCE and reflects on why these classical dramas remain popular today.	
<b>201.314 Imperial Rome</b>	<b>15 credits</b>
A study of the first 200 years of Roman imperial rule, from the time of Augustus to the death of Marcus Aurelius.	

<b>201.317 Ancient Multiculturalism: Egypt, Greece and Rome</b>	<b>15 credits</b>
The study of cultural exchange between the ancient Egyptian, Greek, Roman, and Jewish civilizations over the thousand years of classical antiquity, focusing on interactions in literature, art, religion, philosophy, economy, and politics.	

<b>201.318 Greek and Roman Religion</b>	<b>15 credits</b>
A study of the religion of the Greeks and Romans, approached through both literary and archaeological sources. The course focuses on cult practices and their impacts on the societies of the time.	

<b>201.320 Roman Art and Society</b>	<b>15 credits</b>
A detailed survey of techniques, developments and achievements in Hellenistic and Roman architecture, painting, mosaics and sculpture, set in their archaeological and social contexts. The period covered is from the Hellenistic Age through the Republic down to the Late Empire.	

<b>201.901 PhD Classical Studies</b>	<b>120 credits</b>
--------------------------------------	--------------------

## 202

### Medical Laboratory Science

<b>202.701 Clinical Laboratory Haematology</b>	<b>15 credits</b>
Introduction to the homeostatic mechanisms of blood cell production and regulation and the control mechanisms that maintain haemostasis in humans. The role of the haematologist and the laboratory in the diagnosis of diseases such as anaemia, haemophilia, thrombosis, leukaemia and other blood cell neoplasms.	

<b>202.702 Transfusion Science</b>	<b>15 credits</b>
An introduction to the principles of transfusion and transplantation practice. The collection and storage of blood and the manufacture of human blood products for transfusion. The major human blood groups and blood group alloantibodies. Blood borne viruses including the hepatitis viruses and the Major Histocompatibility Complex in the context of donor/recipient matching of organs for transplantation.	

<b>202.703 Diagnostic Clinical Biochemistry &amp; Immunology</b>	<b>15 credits</b>
The biochemistry of human tissue with particular emphasis on disease detection. The practical course will include analytical methods and specialised laboratory techniques applied to clinical biochemistry, immunology and serology.	

**202.704 Diagnostic Medical Microbiology 15 credits**

Bacterial and fungal pathogens of humans in terms of the organisms, their habitats, modes of transmission, disease patterns, laboratory diagnosis and relationship with the human microbiome. Sterilization and disinfection. Antimicrobial agents, resistance to antimicrobial agents and antimicrobial susceptibility testing.

**202.705 Advanced Clinical Sciences 30 credits**

The clinical sciences are studied at an advanced level in one of the specialty areas of: Diagnostic Clinical Biochemistry & Immunology, Diagnostic Microbiology, Clinical Laboratory Haematology, Transfusion Science and Molecular Diagnostics. The role of the Medical Laboratory Scientist in the generation of clinical laboratory results used in the diagnosis and the treatment of disease/disorders and the maintenance of standards of quality and laboratory safety.

**202.781 Current Topics in Medical Laboratory Science 30 credits**

An advanced course of study based on current literature of Medical Laboratory Science selected from Biochemistry, Microbiology, Virology, Haematology, Transfusion Science, Immunology, Histological Technique and Cytology. Candidates will be expected to cover areas of Medical Laboratory Science, including both their current specialist discipline(s) and other areas.

**202.889 Research Project 45 credits****202.900 PhD Medical Laboratory Science 120 credits****203****Genetics****203.202 Genetic Analysis 15 credits**

A general course on methods and applications of genetic analysis. Topics include genetic variation, cytogenetics, gene inheritance, gene mapping, gene function, quantitative genetics, population genetics and evolution, cell and developmental biology.

**203.203 Biomedicine 15 credits**

This course focuses on discoveries important to our understanding of human genetics and disease. The genetic and molecular basis of human diseases will be explored. How links between genotype and phenotype are made, and how such knowledge can lead to new treatments for diseases, will be addressed.

**203.210 Genetics and Evolution 15 credits**

This fundamental course for the biological sciences explores the genetic principles and evolutionary processes important for understanding the relationships among genetic diversity, phenotype variation, and biological evolution. Topics include sources of molecular genetic variation, the genetic basis of traits with simple and complex patterns of inheritance, evolutionary mechanisms and patterns, and molecular evolution.

**203.211 Biomedical Molecular Genetics 15 credits**

The molecular genetics of health and disease. Topics include DNA structure, replication and repair, gene structure and gene expression. Methods used to study and manipulate genes will be explored, and these concepts applied to understanding the molecular basis of disease, diagnostic testing and development of modern treatment strategies. A lecture and problem-based course, complemented by practical laboratory experience.

**203.212 Principles of Genetics 15 credits**

An introductory course on the principles and applications of genetics, with an emphasis on problem solving. Students will review the topics of gene structure and function before they learn about how genetic variation and genetic inheritance affect populations of organisms. Students will be introduced to the details of cellular genetics and chromosome structure, location and function. Students will be given tools that will allow them to consider population genetics, quantitative genetics, genomics and an overview of both classic and modern methods of genetic analysis.

**203.240 Molecular and Cellular Biology 15 credits**

A course on molecular biology including the structure of DNA, its replication, how DNA is repaired when damaged, and how genes are expressed to make proteins in prokaryotic and eukaryotic cells. Topics such as protein transport, protein structure and function, signal transduction, and epigenetics will also

be covered. Students will do practical course work that complements and illustrates concepts presented in the lectures.

**203.300 DNA Technology 15 credits**

DNA structure, topology and recombination. The contributions of bacteriophage to DNA technology. Advanced applications of DNA sequencing, gene cloning, PCR, microarrays and gene targeting, including molecular diagnostics of genetic disorders. Practical experience will be gained with DNA quantification, molecular cloning, PCR, DNA sequencing, molecular diagnostics of genetic disorders, computer analysis and expression of heterologous genes.

**203.305 Advanced Practical Genetics 15 credits**

An advanced course in laboratory techniques used in Genetics. Emphasis is on understanding the theory behind the methods used, on data evaluation and on the application of genetic techniques to various questions in biology. Practicals include microarray analysis, transposon tagging, human microsatellite and SNP analysis and reporter gene expression.

**203.307 Mammalian Cell Biology 15 credits**

A course with a strong emphasis on the structure and function of mammalian cells. Topics covered include chromosome structure and function, cell cycle, signal transduction, cytoskeleton and molecular motors, cell adhesions and interactions, cell motility, stem cells and their biomedical potential, cell death and cancer. The practical component has a strong emphasis on biochemical, genetic and microscopic methods that are used to study eukaryotic cells.

**203.310 DNA Technology 15 credits**

Advanced molecular biology methods to address areas ranging from detection of microbial pollution and vaccine development, to molecular characterization of inherited diseases and cancer. Topics will include gene cloning, PCR, recombination, transposons, transgenes and mutagenesis using state-of-the-art technologies like CRISPR and gene drives. Students will gain practical experience by planning and performing a DNA technology project encompassing primer design, PCR, molecular cloning, DNA quantification, electrophoresis, DNA sequencing and computer analysis of the recombinant construct.

**203.311 Genome Science 15 credits**

This advanced course focuses on the practical computational skills needed to extract biological information from the genome and associated 'omics systems, including transcriptomes, metagenomes and comparative genomics. Delivered via tutorials and hands-on activities, the course is assessed solely through practical assignments and spans topics including the dynamic nature of the genome through to sequence analysis, curation, annotation and data visualization. This introduction to computational analysis is geared towards biologists and assumes no previous knowledge or familiarity with computational methods.

**203.328 Genome Analysis 15 credits**

An interactive and self-directed learning approach will be used to explore the analysis of genomes, transcriptomes and metagenomes. The emphasis will be on understanding and applying a range of practical methodologies to extract biologically significant information from large genetic data sets.

**203.340 Applied Molecular Biology 15 credits**

A course on the advanced methods and applications of molecular biology in academia, agriculture, and industry to address topics ranging from pollution to disease. Topics include cutting edge techniques in molecular biology including CRISPR, gene editing and cloning, protein engineering, genomics, and synthetic biology, with an emphasis on examples from New Zealand. Students will do practical course work that complements and illustrates concepts presented in the lectures.

**203.341 Genome Science 15 credits**

A course on understanding organisms at the level of the genome (the genes), the proteome (the proteins), and the population. Methods in understanding the structure, function, and evolution of the genome and proteome will be discussed. Students will be introduced to methods of computational analysis of genomic data by analysing real biological data. The introduction to computational analysis is geared towards biologists and assumes no previous knowledge or familiarity with computational methods.

**203.342 Molecular and Cellular Biology 15 credits**

Regulation of gene expression including chromatin structure, transcription factors, modulation of transcription (e.g. immunoglobulin genes) and post-transcriptional control mechanisms. Signal transduction, protein structure

and function as it relates to proton pumps, catalytic strategies, translation and protein sorting. The structural organization of the cytoskeleton, knowledge of cell adhesion and the extracellular matrix, cell signalling mechanisms, cell cycles and vesicular transport.

### 203.343 Genetics of Human Health and Ancestry **15 credits**

The use of genetics and genomics to solve modern problems in biology with an emphasis on humans; exploration of the use of genetic, genomic and epigenetic data to understand human ancestry and health, and in forensics. Students will have the opportunity to sequence their own DNA and investigate ethical and genetic counselling issues related to personal genomic data.

### 203.762 Genetic Analysis **30 credits**

An advanced course based on current literature where genetic approaches are used to understand important biological processes. Topics will include DNA recombination, plant-microbe symbiosis, plant-fungal gene interactions, the genetic basis of learning and memory and epigenetics.

### 203.798 Research Report **30 credits**

### 203.870 Research Report **60 credits**

### 203.871 Thesis 90 Credit Part 1 **45 credits**

A supervised and guided independent study resulting in a published work

### 203.872 Thesis 90 Credit Part 2 **45 credits**

A supervised and guided independent study resulting in a published work.

### 203.875 Thesis **90 credits**

A supervised and guided independent study resulting in a published work.

### 203.897 Thesis 120 Credit Part 1 **60 credits**

A supervised and guided independent study resulting in a published work.

### 203.898 Thesis 120 Credit Part 2 **60 credits**

A supervised and guided independent study resulting in a published work.

### 203.899 Thesis **120 credits**

A supervised and guided independent study resulting in a published work.

### 203.900 PhD Genetics **120 credits**

## 204

### Decision Science

### 204.900 PhD Decision Science **120 credits**

## 212

### Fashion Design

### 212.100 Fashion Pattern Making **15 credits**

In this studio course students will be introduced to fundamental patternmaking methods through an applied 3D- 2D developmental process. Students will acquire basic skills for the creation of garment patterns for contemporary fashion design.

### 212.101 Fashion Construction **15 credits**

In this studio course students will be introduced to specialised apparel industrial machinery, techniques and applied processes of apparel manufacture through construction sampling and prototyping. These industrial methods will enrich understanding of design solutions for garment and product assembly and creative exploration.

### 212.157 Studio I (Dress) **15 credits**

In this studio course students will be introduced to creative and analytical thinking skills, idea generation and visualisation common to art and design practice. They will begin to acquire specific techniques, skills and processes in creatively dressing bodies and fashioning garments. They will learn to discuss and evaluate their work and the work of their peers.

### 212.200 Garment Block Pattern Drafting and Grading **15 credits**

In this studio course students will be introduced to pattern drafting and basic size grading techniques. Through manual and digital applications, students will development an understanding of block foundation shapes and how they form the basis of garment styles.

### 212.226 Fashion Communication **15 credits**

Develop your communication skills to explore how fashion is communicated to a global audience. Gain principles, skills, and processes of experimental drawing methods, styling, and marketing through a specialised fashion lens.

### 212.228 Fashion Special Topic A **15 credits**

A selected workshop- or studio-based aspect of fashion design. Offerings change from year to year and may not be offered in a particular year.

### 212.257 Design Studio IIA (Fashion) **30 credits**

In this studio course students will explore and articulate creative responses to design challenges through critical awareness of contextual issues. Students will develop and apply core techniques, skills and processes in fashion design.

### 212.258 Design Studio IIB (Fashion) **30 credits**

In this studio course students will continue to explore and articulate creative responses to design challenges through critical inquiry into contemporary issues relevant to fashion design. Students will further develop and apply core design techniques, skills and processes.

### 212.304 Drape for Design **15 credits**

In this studio course the student will investigate and explore creative and innovative design pattern processes through application and manipulation of fabric directly on the three dimensional form Students will expand their pattern processes through critical analysis of drape techniques with increased understanding of fabric behaviour, fit and relationship of the garment to the body.

### 212.309 Contoured and Knit Apparel **15 credits**

In this studio course students explore the specialised aspects of pattern development and production in the area of contoured and stretch apparel design.

### 212.321 Digital Applications for Fashion Production **15 credits**

In this studio course students will apply their understanding of pattern production and grading methods specifically oriented to developing designs for mass manufacture.

### 212.328 Fashion Special Topic B **15 credits**

A selected workshop- or studio-based aspect of fashion design. Offerings change from year to year and may not be offered in a particular year.

### 212.357 Design Studio IIIA (Fashion) **30 credits**

In this studio course students will establish a critical position through individual or collaborative creative exploration and articulation. With opportunities for varied contextual applications, students will consolidate and expand fashion design concepts, techniques, skills and processes in the production of their creative work.

### 212.358 Design Studio IIIB (Fashion) **30 credits**

In this studio course students will negotiate a critical position through individual or collaborative professional practices, with opportunities to apply their specialist skills to a range of contexts. In addition to advancing fashion design concepts, techniques, skills and processes in the production of their creative work, students will develop and apply transferable skills relevant to professional environments.

### 212.403 Apparel Production Research **15 credits**

In this studio course students will apply a research informed investigation of advanced apparel production processes. Students will expand their advanced technical knowledge through design exploration, sampling and prototyping.

### 212.453 Fashion Design Research and Development **30 credits**

Research methods, practices and processes for fashion design and their application through a research design project.

### 212.454 Fashion Design Research Project **45 credits**

Application and development of research in an independent fashion design project.

## 213

## Fine Arts

**213.150 Painting 15 credits**

In this studio course students will be introduced to aspects of contemporary painting focusing on colour, surface and structure and developing an awareness of the diversity of painting mediums and techniques. While working to a brief, students are expected to undertake independent investigations and develop individual responses.

**213.151 Contemporary Sculpture 15 credits**

In this studio course students will be introduced to aspects of contemporary sculpture with a focus on object making, the exploration of physical materials and applied processes. While working to a brief, students are expected to undertake independent investigations and develop individual responses.

**213.154 Contemporary Drawing 15 credits**

In this studio course students will be introduced to the potential for drawing to become more than a traditional practice of representation. The course will focus on expanding students' observation skills, and modes of expression and representation, in an expanded field of contemporary art and design practice.

**213.155 Drawing the Body I 15 credits**

In this studio course students are introduced to the fundamentals of drawing the human body. Students undertake a project of drawing exercises using various techniques and media.

**213.157 Studio I (Art Lab) 15 credits**

In this studio course students will be introduced to creative and analytical thinking skills, idea generation and visualisation common to art and design practice. They will begin to acquire specific techniques, skills and processes in art-making across different media. They will learn to discuss and evaluate their work and the work of their peers.

**213.158 Studio I (Art Place) 15 credits**

In this studio course students will be introduced to creative and analytical thinking skills, idea generation and visualisation common to art and design practice. They will begin to explore specific techniques, strategies and processes making art works in relation to site and context. They will learn to discuss and evaluate their work and the work of their peers.

**213.211 Fine Arts Special Topic II 15 credits****213.241 Art Studio IIA 30 credits**

In this studio practice course students will develop ideas, practices and processes in the production of contemporary art through a series of prescribed studio projects, media workshops, gallery visits and guest speakers.

**213.242 Art Studio IIB 30 credits**

In this studio practice course students will further develop ideas, practices and processes in the production of contemporary art through a series of prescribed studio projects, media workshops, gallery visits and guest speakers.

**213.254 Drawing in Practice 15 credits**

In this studio course students will be guided by experts, each with a focus on particular approaches and technologies of drawing. Students will experiment with these different methodologies, and critically reflect on the role of drawing within their own practice.

**213.255 Drawing the Body II 15 credits**

A creative response to representation of the human body through a prescribed project. Students apply a range of drawing practices and media to the development of individual work.

**213.256 Contemporary Art Projects A 15 credits**

Engagement with new thinking in contemporary art research through a specific lecturer-led project.

**213.257 Contemporary Art Projects B 15 credits**

Engagement with new thinking in contemporary art research through a specific lecturer-led project.

**213.258 Contemporary Art Projects C 15 credits**

Engagement with new thinking in contemporary art research through a specific lecturer-led project.

**213.259 Contemporary Art Projects D 15 credits**

Engagement with new thinking in contemporary art research through a specific lecturer-led project.

**213.260 Fine Arts Special Topic IIB 30 credits****213.261 Contemporary Art Projects F 15 credits**

Engagement with new thinking in contemporary art research through a specific lecturer-led project.

**213.262 Contemporary Art Projects G 15 credits**

Engagement with new thinking in contemporary art research through a specific lecturer-led project.

**213.263 Contemporary Art Projects H 15 credits**

Engagement with new thinking in contemporary art research through a specific lecturer-led project.

**213.264 Contemporary Art Projects I 15 credits**

Engagement with new thinking in contemporary art research through a specific lecturer-led project.

**213.265 Contemporary Art Projects J 15 credits**

Engagement with new thinking in contemporary art research through a specific lecturer-led project.

**213.311 Fine Arts Special Topic III 15 credits****213.341 Art Studio IIIA 30 credits**

In this studio practice course students will expand content, context, methodology and the role of critical dialogue in the production of contemporary art. Study will be undertaken through a series of studio projects, media workshops, and a programme of gallery visits and guest speakers.

**213.342 Art Studio IIIB 30 credits**

In this studio practice course students will further expand content, context, methodology and the role of critical dialogue in the production of contemporary art. Study will be undertaken through a series of studio projects, media workshops, and a programme of gallery visits and guest speakers.

**213.355 Drawing the Body III 15 credits**

The development of an individual drawing project using the body as subject. A degree of innovation and experimentation is expected in both the practice of drawing and applied understanding of the representation of the human body.

**213.356 Contemporary Art Projects E 15 credits**

An investigation into new thinking in contemporary art research through a specific lecturer-led project.

**213.357 Introduction to Fine Arts Research Methods and Practices 15 credits**

An introduction to a range of methods and practices for undertaking research in a fine art context.

**213.358 Fine Arts Internship 15 credits**

A negotiated programme of study that provides students with the opportunity to gain experience and practice by working alongside visual arts professionals. Students work through self-directed inquiry and collaboration (as appropriate) towards the development of a project and assigned tasks within the professional environment. Prior approval by the course Coordinator is required.

**213.359 Contemporary Art Projects K 15 credits**

Engagement with new thinking in contemporary art research through a specific lecturer-led project.

**213.360 Fine Arts Special Topic IIIB** **30 credits**

**213.411 Fine Arts Special Topic IV** **15 credits**

**213.440 Art Studio IV A Practice** **30 credits**

In this studio practice course students will further advance the exploration of content, context, methodology and the role of critical dialogue in the production of contemporary art. In consultation with lecturers, students develop and present a substantial, innovative and individual body of work.

**213.441 Art Studio IV A Research** **30 credits**

In this studio research course students will advance the exploration of content, context, methodology and the role of critical dialogue in the production of contemporary art. In consultation with lecturers, students develop a substantial, innovative research project that engages in critically reflexive practice.

**213.442 Art Studio IV B** **45 credits**

In this studio course students will further advance the exploration of content, context and engaged dialogue in the production of contemporary art. In consultation with lecturers, students produce a substantial innovative body of work.

**213.463 Fine Arts Research Seminar** **15 credits**

A programme of advanced study that addresses the application, dissemination and discussion of research practices in contemporary art. Emphasis will be placed on selective investigation and presentation of critical issues in the production of art and culture.

**213.464 Art in Context** **15 credits**

The course will discuss, critique and apply a range of exhibition, dissemination and publication conventions and practices within the context of contemporary art including art galleries, social practice, temporary and permanent artworks, public art, publishing, screenings and events

**213.465 Exhibition** **15 credits**

In this studio-based course students situate their creative practice through exhibition. Students work in a collaborative group to develop and realise an exhibition project. One of the key focus points for the course is students' growing understanding of the reality of public presentation of the creative output. This advanced programme of study will encourage discussion and critical reflection on diverse approaches to the exhibition of creative work and its relevance for a range of academic and/or professional contexts.

**213.702 Postgraduate Studio Practice II** **30 credits**

An approved individually designed programme of advanced practice in Fine Arts.

**213.703 Special Topic** **30 credits**

An opportunity to follow a particular academic interest. The topic and the manner in which it is approached require prior approval. With permission of the Head of Department a prescribed course at 700-level may be substituted.

**213.704 Fine Art Theory and Research** **30 credits**

A programme of advanced study that examines the theoretical and historical contexts of Fine Art Practice. Emphasis will also be placed on developing and implementing research strategies.

**213.706 Postgraduate Studio Practice I** **30 credits**

An individually designed programme of advanced studio practice in fine arts.

**213.900 PhD Fine Arts** **120 credits**

## 214

### Health Sciences

**214.003 Foundation Human Bioscience** **15 credits**

An introduction to the core concepts in human biology and basic physiology.

**214.101 Human Bioscience: Normal Body Function** **15 credits**

Human body structure and function (anatomy and physiology), including relevant concepts of homeostasis and metabolism and development throughout the lifespan.

**214.102 Applied Sciences for Health Professionals** **15 credits**

An introduction to the basic scientific concepts that are relevant to the maintenance of human and environmental health.

**214.201 Human Bioscience: Impaired Body Function** **15 credits**

An examination of the aetiology of disease and alteration of health status and the relevant scientific clinical tests, including the role of micro-organisms in disease processes.

**214.202 Pharmacology** **15 credits**

The study of pharmacokinetics, pharmacodynamics and pharmacogenetics; drug groups; principles of adverse drug effects; and drug interactions of prescription and non-prescription medication.

**214.212 Research Methods in the Health Sciences** **15 credits**

Examination of health science research including the research process, research questions, quantitative and qualitative research methods, and the ethics of health research.

**214.213 Toxic Substances, Human Health and the Environment** **15 credits**

A study of the interactions of key groups of toxic substances with the human body and the ecosystem. Provides an overall understanding of the terminology, principles, concepts and methodologies. Discusses applications to human or environmental toxicological risk assessment.

**214.215 Food Safety and Human Health** **15 credits**

Introduces students to the key issues surrounding the preparation, handling and delivery of safe food, and applications of food safety, HACCP, inspection and assessment techniques, food legislation and common problems, will be examined. Will include a study of relevant organisations involved in the food industry.

**214.216 Environmental and Public Health Law** **15 credits**

Legislative, judicial and administrative aspects of the New Zealand legal system as they apply to environmental health. Examination of statutory and common law legal issues, collection of evidence and prosecutions, management of cases, negligence and potential liability. Special focus on the RMA (1991) and Health Act (1956).

**214.231 Nutrition for Special Populations** **15 credits**

Application of food and nutrition principles to special populations throughout the lifecycle and different ethnic groups in New Zealand. A basic knowledge of the scientific reasoning behind the recommendations will be developed. Some factors influencing food choice amongst the populations will be examined. Students will also gain skills in critically evaluating foods and dietary supplements on the market.

**214.301 Environmental Health Risk Management for Disasters** **15 credits**

Advanced theory and practice in environmental health risk management applicable to typical disaster and humanitarian relief scenarios encountered in New Zealand/Pacific Rim.

**214.311 Epidemiology and Communicable Diseases** **15 credits**

The nature of important communicable diseases and the factors that influence the occurrence, prevention and control of infectious diseases. The microbiology of common agents of communicable diseases. Examination of the major reasons for disease emergence and resurgence. Concepts and applications of epidemiology in relation to infectious and non-infectious agents.

**214.312 Environmental Monitoring and Investigative Methods** **15 credits**

Exploration of approaches used to sample and test air, water, soil or food for human health protection purposes; from sampling design to techniques used, and from data validation to the interpretation and regulatory use of results.

**214.314 Water and Waste Treatment** **15 credits**

Water treatment for drinking water supplies and public bathing facilities, the treatment and disposal of liquid (e.g. sewage) and solid wastes for the provision and maintenance of public health, with particular reference to common systems.

**214.316 Bio-Physical Effects of Noise and Vibration** **15 credits**

Sources, propagation, measurement units and effects of noise and vibration on human health. Measurement and assessment of these factors in the

community. Instrumentation, procedures, collection of data and interpretation; legislation, standards and guidelines; and requirements for legal action.

### **214.331 Food Choice and Nutrition Promotion 15 credits**

Examination of factors affecting food choice, including cultural, economic, political, psychological, physiologic and organoleptic. Methods used to promote and enable dietary change will be examined. Aims, methods and evaluation of nutrition interventions will be discussed. Emphasis will be given to the current New Zealand situation.

### **214.335 Food Politics 15 credits**

World food supply, hunger, sustainability, equity, food security. Impact of food industry, politics and consumers on food supply. Trade, economics, globalisation, threats and opportunities affecting the food supply.

### **214.772 Advanced Topics in Food Quality 30 credits**

Critical reviews, case studies, advanced study and/or research into selected aspects of food quality.

### **214.773 Advanced Topics in Water Quality 30 credits**

Critical reviews or applied research on advanced topics in water quality.

### **214.774 Advanced Topics in Sound and its Reception 30 credits**

Critical reviews or applied research on advanced topics in sound and its reception.

### **214.777 Advanced Topics in Air Quality 30 credits**

Critical reviews or applied research on advanced topics in air quality.

### **214.781 Advanced Topics in Health Science 30 credits**

Critical reviews, standards, advanced study and/or research in a selected area of health science.

### **214.798 Research Report 30 credits**

### **214.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

### **214.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

### **214.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

### **214.900 PhD Health Sciences 120 credits**

## 218

### **Building and Construction**

#### **218.100 Construction Materials 15 credits**

Characteristics and properties of construction materials, focusing on concrete, timber and metals. This course includes laboratory sessions related to the lecture material.

#### **218.101 Building Materials, Elements and Regulation 15 credits**

The course introduces the basic principles of construction and building materials within New Zealand's building codes context. Students will examine the basic properties, behaviours, performance and constraints of common construction materials. Students are introduced to key standards, guides and codes to building construction in New Zealand.

#### **218.102 Construction Technology and Services I 15 credits**

This course will enable students to understand how components of residential buildings are assembled to create habitable and usable spaces. Students will explore how the characteristics of various construction materials used in interior finishing are applied. Students are introduced to the principles of services and facilities for comfort and energy performance of residential buildings, including in 3D digital environment.

#### **218.103 Construction Design and Drawings 15 credits**

This course introduces students to basic design, production and interpretation of construction design and drawings. Students will learn basic design principles and will produce 2D and 3D drawings using drafting software.

#### **218.105 Integrating Design and Delivery in Built Environment 15 credits**

This course examines the nature and operations of the New Zealand construction industry. It examines the role and responsibilities of key industry players, their interactions and inter-relationships towards design and delivery of construction projects as a pre-cursor to implementing a collaborative working platform such as Building Information Modelling (BIM). The course reviews the legal position of the Treaty of Waitangi in relation to construction projects in New Zealand.

#### **218.106 Construction Health, Safety and Wellbeing 15 credits**

This course examines the potential hazards and safety strategies of the construction workplace. Students will explore strategies for safe designs, hazard assessment and the implication of health and safety legislation. The course reviews construction-related health conditions and their mitigation strategies.

#### **218.110 Construction Industry Work Experience I 0 credits**

Construction industry work experience for at least 300 hours in a public or private business in an area related to the student's chosen major. A descriptive report demonstrating satisfactory work experience and generic skills such as observational, fact-finding, analytical and reporting skills is required.

#### **218.123 CAD and Building Information Modelling 15 credits**

An introduction to computer aided design (CAD) and Building Information Modelling (BIM).

#### **218.141 Introduction to Facilities Management 15 credits**

Understanding the language and basic concepts in facility management service delivery. The Facility Manager's role in adding value to enhance assets, user experiences, wellbeing and productivity.

#### **218.143 Asset Management 15 credits**

Identification and classification of assets and facilities. Asset lifecycle stages and deliverables. Facility Manager's role in managing assets and stakeholders.

#### **218.146 Facilities Management Planning 15 credits**

Concepts in operation, maintenance and management of assets. Use life stages, obsolescence and maintenance principles for achieving 'fit for purpose' use.

#### **218.147 Workplace Management 15 credits**

Evolution of assets and space usage. Principles and practices in adaptation, change management, and future proofing. Management of multi-user facilities.

#### **218.150 Introduction to Built Environment and Measuring Systems 15 credits**

Introduction to the built environment, construction economics and measuring systems, with emphasis on the nature and operation of the New Zealand built environment, impact of the micro and macro economics on construction, and the basic principles of measurement of building works.

#### **218.151 Construction Health & Safety & Sustainable Buildings 15 credits**

An introduction to the legal and regulatory health and safety requirements on construction sites, the design and construction principles of sustainable buildings, and sustainable building rating systems.

#### **218.172 Construction Technology: Residential 15 credits**

Principles of construction and structural systems for residential buildings, and non specific design of timber framed buildings for resistance to wind and earthquake.

#### **218.201 Construction Technology and Services II 15 credits**

This course covers the construction methods and materials used in commercial buildings. Students will examine installation of services and facilities for comfort and energy performance of commercial buildings including in a 3D digital environment.

#### **218.203 Principles of Measurement and Estimation 15 credits**

The course covers the principles of measurement of building works. Students will integrate and apply preliminary and detailed estimating, and cost planning principles to make cost-related decisions.

**218.204 Construction Contracts and Legal Principles 15 credits**

An introduction to basic legal principles and contexts that may affect construction projects in New Zealand including a basic introduction to the Treaty of Waitangi. It includes an introduction to Commonwealth legal systems and basic principles of the law of contract and tort. These are then extended to legal principles affecting construction contracts and an introduction to construction dispute resolution methods.

**218.210 Construction Industry Work Experience II 0 credits**

This course extends the construction industry work experience gained in first year to additional 300 hours in a public or private business in an area related to the student's chosen major. A descriptive report demonstrating satisfactory work experience and generic skills such as observational, fact-finding, analytical and reporting skills is required.

**218.211 Construction Economics and Estimating 15 credits**

Financial concepts relating to early stages of the construction project including feasibility studies, cost planning, preliminary estimating methods, design economics, basic principles of life cycle costing and value engineering, tender documentation, tendering methods, and tender pricing and evaluation.

**218.213 Measuring Systems I 15 credits**

Measurement and scheduling of quantities for specialist building trades according to Standard Method of Measurement. Introduction to computer aided measuring and scheduling packages.

**218.214 Measuring Systems II 15 credits**

Measurement and scheduling of quantities for specialist building trades according to Standard Method of Measurement. The use of computer aided measuring and scheduling packages.

**218.220 Measurement I 15 credits**

The course develops proficiency in the rules and basic processes of building measurement using appropriate Standard Method of Measurement of building works. Students will perform 2D quantity take-off to produce Bills of Quantities covering major trades and/or building elements using computer aided measuring and scheduling packages.

**218.224 Construction Technology and Services III 15 credits**

The course covers the construction methods and materials used in infrastructure projects, including in 3D digital environment. Students will examine the design and installation of services and lifelines associated with infrastructure projects. The course will also describe the maintenance requirements for large infrastructure projects.

**218.226 Planning and Digital Built Environment for Quantity Surveyors 15 credits**

Students develop construction project-planning skills and apply these to the production of cost-related information for decision-making. Students will cover practical application of cost information to the digital approach to and digital simulation of design, construction and operation of buildings.

**218.228 Planning and Digital Built Environment for Construction Managers 15 credits**

Students develop construction project-planning skills and apply these to the production of schedule-related information for decision-making. The practical application of schedule information to the digital approach to and digital simulation of design, construction and operation of buildings.

**218.230 Construction Site Operations 15 credits**

This course examines site practices, operations and control. Students will undertake planning and coordination of a construction site from project inception to completion. The course covers project documentation, compliance requirements and processes including health and safety management, stakeholder management, payment mechanisms, waste minimisation, and site layout optimisation based on a programme of works using digital simulation tools.

**218.271 Construction Technology: Commercial 15 credits**

Construction technology of low rise commercial and industrial buildings.

**218.273 Building Technology: Commercial Property 15 credits**

Building technology of low rise commercial and industrial buildings.

**218.274 Building Services 15 credits**

Principles of services and facilities in commercial and domestic buildings.

**218.280 Construction Operations and Control 15 credits**

A critical examination of construction-related practices, operations and control. Overall planning and coordination of a construction project from inception to completion aimed at meeting a client's requirements in order to produce a functionally and financially viable project.

**218.311 Construction Contract and Financial Administration 15 credits**

An introduction to construction procurement methods, contractual arrangement methods, contractual risk assessment, and construction contract and subcontract administration including the financial administration.

**218.313 Construction Innovation and Building Information Modeling 15 credits**

An investigation into the process of innovation and opportunities for innovation in the construction sectors. Particular reference is given to current innovations in information technology including the application of Building Information Modeling software.

**218.315 Construction Law 15 credits**

The basics of construction law including construction professional negligence, terms of engagement of construction professionals, legal principles affecting tendering, formation of construction contracts and subcontracts, key principles of construction contracts including those affecting time, cost, and quality obligations, termination of contracts, and resolution of construction disputes.

**218.320 Civil & Services Measurement 15 credits**

The course will develop proficiency in the measurement of civil engineering projects and building services using appropriate Standard Methods of Measurement. Students will perform 2D and 3D quantity take-off to produce Bills of Quantities for civil projects and for engineering services.

**218.321 Construction Estimation & Risks 15 credits**

The course develops further construction estimating skills for bill preparation, tendering and decisions. Students in this course will identify and mitigate construction risks in dealing with preliminaries and strategies for fixing margins for profit and overheads.

**218.323 Measurement II 15 credits**

Students will use industry standard software packages for building measurement and for the production of professional level schedules and Bills of Quantities for complex buildings and structures

**218.324 Integrating Building Information and the Supply Chain 15 credits**

The course provides knowledge and skills on project information management processes based on Building Information Modelling (BIM) platforms across different construction organisations and the supply chain. Students will learn how to integrate digital technologies with the construction supply chain to collaborate and increase productivity.

**218.325 Post Contract Financial Administration 15 credits**

The financial administration of construction projects after a contract has been awarded. Evaluation and preparation of progress claims, variations and fluctuations, extension of time claims and final accounts. Collation and presentation of contract documentation.

**218.326 Quantity Surveying Capstone 15 credits**

This course provides students with the opportunity to consolidate and apply the knowledge and skills they have developed over the course of the degree.

**218.327 Sustainability and Construction Innovation 15 credits**

This course introduces students to the broader concepts of sustainability and innovation applied to the entire building lifecycle. The course examines sustainable development goals, environmental legislation and their implications on building production during the pre-construction phase, use/re-use, recycle, waste and innovations to minimise environmental impacts during the construction phase, innovations for sustainable maintenance during the post-construction phase and also innovations in deconstruction and reclaiming during the demolition phase as a means to enable a circular economy.

**218.328 Construction Professional Practice and Ethics 15 credits**

This course continues the study of basic principles of the law affecting construction contracts into the wider area of construction law. These include principles of professional ethics and the roles and liabilities of construction professionals. The course introduces both legal principles and practical aspects of construction contracts including construction contract

administration. The course also includes an exploration into more common construction dispute resolution methods such as statutory adjudication.

### **218.329 Facilities Management for Construction Managers 15 credits**

The course covers the concepts and principles of managing built facilities. It covers strategic aspects of facilities management, space planning management, support services, building performance, and sustainability. Review of software applications in facility management to also enable 6D digital asset management.

### **218.330 Construction Procurement and Tendering 15 credits**

This course explores the process of procuring and tendering construction projects, including in a digital environment such as e-Procurement and e-Tendering. Students investigate the principles and processes of various traditional and non-traditional procurement and tendering methods, prepare tender and contract documents, undertake contractual risks assessments, and analyse tenders.

### **218.331 Construction Quality Assurance 15 credits**

The course develops knowledge on the principles and concepts of quality in construction. This includes implementation of quality management, a legal and regulatory environment; quality assurance practices (methods, processes and systems); quality costing; quality planning and quality management in construction projects and activities.

### **218.335 Construction Management and Equipment 15 credits**

The course covers concepts and functional application of major categories of construction equipment. Students will develop systems and procedures for the efficient management of construction equipment using underlying concepts in methods and operational characteristics; selection and utilisation; lifecycle analysis; economic and financial considerations; health and safety management; and sustainability.

### **218.336 Construction Management Capstone 15 credits**

This course provides students with the opportunity to consolidate and apply the knowledge and skills they have developed over the course of the degree

### **218.340 Construction Research Project 30 credits**

The construction research project course will enable students to conduct and report on an aspect of construction that demands independent thought and action. It entails an investigation of construction related topics aimed at developing problem identification and solving skills, an appropriate literature review, theories application, laboratory and field work investigation, preparation and submission of a written report, poster or oral presentation on the research topic.

### **218.344 Managing Risk and Operational Sustainability 15 credits**

This course introduces the broader concepts of risk and decision making as they relate to the operation, maintenance and disposal of assets. Application of sustainability principles and practices to meet business objectives. Business continuity and emergency planning at a high level/policy.

### **218.346 Digital Evolution of Facilities Management 15 credits**

Building Information Modelling and other software applications used for efficient management of assets. Information and data management using contemporary software. Current and future trends in efficient asset management.

### **218.352 Facilities and Asset Maintenance 15 credits**

An examination of concepts and strategies for the operation and maintenance of assets and facilities. Students will apply asset management assessment frameworks for planning and maintenance in facilities management.

### **218.374 Construction Technology: Multi-Storey 15 credits**

The construction technology of multi-storey buildings. An appreciation of the environmental impact assessment for multi-storey buildings in the context of sustainable development.

### **218.414 Construction Planning and Scheduling 15 credits**

Principles and practice of construction project planning, programming, scheduling and risk analysis.

### **218.710 Advanced Construction Planning and Scheduling 15 credits**

Advanced principles and practice of construction project planning, scheduling and risk analysis.

### **218.711 Research Methods in Construction 30 credits**

The course develops skills critical to the analysis, synthesis and review of literature; discuss alternative research methodologies; review tools and techniques for data collection; review data analysis techniques and their application in construction research; and the evaluation of research findings.

### **218.712 Advanced Building Information Modelling 15 credits**

This course equips students with the knowledge of Building Information Modelling (BIM) development and management and enables students to apply a range of BIM tools across the lifecycle of a building project. This course is suitable for construction professionals and stakeholders.

### **218.713 Digital Technology Applications in Construction 15 credits**

A study of current application of digital technologies within the construction industry. The course includes the approaches to developing digital technologies that can be applied at all stages of a project's lifecycle.

### **218.714 Sustainable Buildings and Structures 15 credits**

Strategies and techniques of sustainable design and construction for the built environment, including green procurement, Design for Excellence (DfX), construction techniques and practice, zero-carbon buildings, constructability and operation and maintenance considerations.

### **218.715 Sustainability and Climate Change for Construction Industry 15 credits**

Climate change presents specific challenges to the domestic and international construction industry, requiring innovations during the entire lifecycle of projects. This course introduces students to aspects of climate change, principles of sustainability, and the UN Sustainable Development Goals relevant to the built environment. It focuses on the specific implications of climate change for the construction industry and ways in which the industry can take leadership in promoting sustainability.

### **218.716 International Construction 15 credits**

Globalisation and booming regional economies are creating a need for construction professionals who are aware of both local and international construction markets and practices, and who are capable of managing complex construction operations. This course details the critical issues and concepts relevant to managing projects in an international context, such as marketing, negotiations, project procurement, financing, law and contracts, industry regulations, human resources, communications, safety, and risk management.

### **218.717 Research Methods in Built Environment 15 credits**

This course develops skills critical to the analysis, synthesis and review of literature; discusses a range of research methodologies; reviews tools and techniques for data collection; examines data analysis techniques and their application in construction research; and outlines the evaluation of research findings.

### **218.718 Advanced Research Methods in Built Environment 15 credits**

This course addresses the development of research skills required for advanced research in the built environment, from developing a research proposal, reviewing literature and applying analytical processes through to the key features of scientific reporting of findings.

### **218.720 Advanced Construction Site Operations and Control 15 credits**

Advanced principles and practice of construction project site planning and organisation, site operations, progress monitoring and control.

### **218.730 Construction Project Management 15 credits**

Advanced construction project management principles and practice.

### **218.741 Light & Lighting 15 credits**

This course considers photometric concepts and develops the principles of light control and distribution. Human visual processes are considered and colour science is introduced.

### **218.742 Lamps and Luminaires 15 credits**

This course develops the principles of light production as applied to lamps and considers the application of lamps in lighting design. The requirements for lamp control gear are considered together with the application of optical control to achieve accurate and efficient distribution of luminous flux. Methods of photometric testing of lamps and luminaires will be investigated.

### 218.743 Interior Lighting Design **15 credits**

This course develops the principles of interior lighting design. The human requirements and statutory regulations are investigated. Lighting designs are undertaken to demonstrate the techniques involved. The utilisation of daylight to enhance lighting installations and assist with energy savings is considered. Creative lighting techniques are investigated.

### 218.744 Energy Efficient Lighting and Exterior Lighting Design **15 credits**

This course considers the efficiency of lamps and luminaires in producing and distributing luminous flux. Lighting controls for energy saving applications are investigated. Principles of exterior lighting for work places are considered and the flood lighting of building facades is developed. The design of landscape lighting for commercial and public spaces is undertaken. The statutory requirements for, and the techniques associated with, road way and pedestrian lighting are considered. The design of lighting for sports grounds is undertaken.

### 218.761 Design and Management of Healthy Buildings **15 credits**

To provide building practitioners with knowledge of the building components and systems that create a healthy indoor environment for non-industrial buildings. The principles of managing a healthy indoor environment, including methods for investigating indoor air quality and building performance.

### 218.763 Advanced Construction Law **15 credits**

Principles of construction law including construction professional liability, formation, drafting and interpreting construction contracts, and application of construction law principles on issues relating to time, payment, quality, subcontracting, termination of contracts, and alternative dispute resolution.

### 218.764 Construction Contracts and Administration **15 credits**

Specialist areas of construction law including contractual risk analysis, comparative construction contracts, construction contract administration, and specialist topical areas such as modern plain English drafting, subcontracting, and modern methods of resolving disputes.

### 218.765 Construction Adjudication **15 credits**

Statutory adjudication in Commonwealth jurisdictions with a focus on the law and practice of adjudication under the New Zealand Contracts Act 2002 and subsequent amendments including the adjudicator's appointment, jurisdiction, duties, powers and adjudicator's determination.

### 218.769 Energy-Efficient Building Design **15 credits**

This course examines approaches to reducing energy consumption in residential and commercial buildings resulting from the design and use of the building and its energy services. The course covers the principles of energy-efficient building design as well as use and interpretation of energy and sustainability audits. Identification of options for reducing energy use through renovation and retrofitting as well as occupant behaviour are also covered.

### 218.770 Advanced Construction Technology **15 credits**

Construction industry operations, systems and technology including the project life cycle, key stakeholders, sustainable buildings, smart living spaces, innovation, lean production, offsite construction, logistics and current trends.

### 218.780 Quantity Surveying Practice **15 credits**

Pre contract Quantity Surveying practice including feasibility, preliminary estimates, cost plans, cash flow forecasting, life cycle costing and measurement.

### 218.781 Construction Financial Administration **15 credits**

Post- contract financial administration of construction projects including construction procurement and tendering, interim payments, variations, claims, and final accounts.

### 218.810 Research Report **45 credits**

A detailed examination of a specific researchable topic within the field of construction. The course provides the opportunity for the student to demonstrate independence and originality to solve a construction-related problem requiring analytical, design and experimental effort.

### 218.811 Research Report (90 credits) **90 credits**

This course provides the opportunity to undertake research work that demonstrates independence and originality to solve a construction-related problem requiring analytical, design and experimental effort. Students will

be guided through a series of supervised tutorials, workshops, presentations, seminars and written reports to document and disseminate their research.

### 218.820 Dissertation **60 credits**

A detailed examination of a specific researchable topic within the field of construction. The course provides the opportunity for the student to demonstrate independence and originality to solve a construction-related problem requiring analytical, design and experimental effort.

### 218.828 Thesis 90 Credit Part 1 **45 credits**

A supervised and guided independent study resulting in a published work.

### 218.829 Thesis 90 Credit Part 2 **45 credits**

A supervised and guided independent study resulting in a published work.

### 218.830 Thesis **90 credits**

A detailed examination of a specific researchable topic within the field of construction. The course provides the opportunity for the student to demonstrate independence and originality to solve a construction-related problem requiring analytical, design and experimental effort.

### 218.831 Thesis 90 Credit Part 1 (30 credits) **30 credits**

A supervised and guided independent study resulting in a published work.

### 218.832 Thesis 90 Credit Part 2 (60 credits) **60 credits**

A supervised and guided independent study resulting in a published work.

### 218.900 PhD Construction **120 credits**

## 219

### Communication and Journalism

#### 219.100 Introduction to Business Communication **15 credits**

This course teaches key communication skills in the business context. It provides students with communication strategies to solve real-world problems both in and beyond the workplace.

#### 219.101 Media Skills **15 credits**

Understanding and working with the news media combining practical skills with critical and ethical perspectives on media use. Skills include media strategy, writing media releases, broadcast interviewing and running a media conference.

#### 219.108 Introduction to Journalism **15 credits**

An introduction to the role and function of contemporary news media, with special attention to the role of the journalist in society, the diversity of journalism cultures and basic journalism skills.

#### 219.203 Business Communication **15 credits**

A study of the processes and practices of business communication in the context of the private and public sectors. The course is based on those theories of human communication of most relevance in developing an understanding of and facility in skills such as listening, speaking to a group, interviewing and writing in organisations.

#### 219.204 News Media and Society **15 credits**

This course examines the structure and functions of New Zealand news media, including its linkages to global news media systems. It also examines how different social identities are constructed in news media.

#### 219.205 Professional Presentations in Business **15 credits**

This course is about how to persuade, inform, and entertain. In this practical course students will learn about aspects of performance, including character, style, creativity, making meaning, psychology, semantics, and how to read contexts/audiences. Students will explore and develop strategies for managing fear and anxiety.

#### 219.206 Communication and Technological Change **15 credits**

This course examines the impacts of technology on communication, organizations, and cultures. Students will learn to anticipate change and engage with big problems. Students will also design, create and critique human-centric, ethical solutions to help navigate the complex challenges of the 21st century.

- 219.207 Writing for Public Relations and Digital Media 15 credits**  
This course develops students' skills in writing for public relations and relationship management purposes, with particular attention paid to the characteristics and requirements of digital media.
- 219.209 Public Relations Practice 15 credits**  
An introductory study of public relations and its use to create and maintain communication between organisations and their internal and external publics. Theoretical and practical approaches are combined so that students are introduced to the diversity of contemporary public relations theory and techniques and have opportunities to develop key skills in practical assignments.
- 219.223 Advanced News Reporting 15 credits**  
The practice and theory of advanced news reporting, including sourcing and producing multi-platform news stories to a publishable standard.
- 219.230 Sport Communication 15 credits**  
An examination of the theoretical background of sport communication, which includes an application of skills and principles within the topic.
- 219.231 News Media Reporting 15 credits**  
An exploration of current principles and practices and the fundamentals of news gathering and news production.
- 219.234 Editing & Publishing 15 credits**  
Editing text for print and web publication including grammar, punctuation, clarity and style; and the principles of design and layout in publishing.
- 219.302 Gender and Communication in Organisations 15 credits**  
This course closely examines how language and communication are used by women and men, and explores the social and biological factors that contribute to communication differences and similarities. Students study the implications of theories of sex and gender for communication and organizational behaviour, with emphases on identity management, leadership, (in)equality, and harassment.
- 219.303 Organisational Communication 15 credits**  
This course draws on current research and theory to examine the communication process, practice and ethical considerations of organisations' communication with their internal and external stakeholders.
- 219.304 Intercultural Communication 15 credits**  
This course compares the communication behaviours of different cultures. Students will develop skills that help them analyse and address intercultural conflicts and issues, and gain skills that allow them to communicate effectively in intercultural contexts..
- 219.305 Public Relations Management 15 credits**  
This course provides an in-depth examination of public relations theory and shows how it applies to practice. It focuses on strategic engagement with diverse publics, the development of long-lasting and meaningful organisational relationships, and reputation management.
- 219.307 Interpersonal Communication 15 credits**  
This course builds understanding of the struggle to make sense of other people and to build thriving communities and relationships, both in and out of the workplace. Students will examine how communication is used to connect with others, to express and uphold identities, and to manage challenging interactions and relationships.
- 219.309 International Case Studies in Public Relations 15 credits**  
An examination of the practice and theory of public relations internationally, overviewing the increasingly global industry structure, comparing international theoretical approaches, and introducing specialist intercultural communication skills for internationally mobile public relations practice.
- 219.310 Speech Writing 15 credits**  
This course focuses on the art of writing interesting, strong and memorable speeches. Students will analyse some of the world's greatest speeches, and practise applying the techniques to write speeches that audiences will find compelling. The curriculum will assist, but is not exclusively directed at, students pursuing careers in Communication Management and Public Relations.
- 219.311 Communication Internship 15 credits**  
This course provides students with a period of workplace experience with knowledge of communication concepts and terminology gained throughout their degree, in a series of analytical assessments.
- 219.312 Risk and Crisis Communication 15 credits**  
This course critically evaluates ways that organisations can manage reputational risk and communicate in response to crisis situations.
- 219.325 Journalism and Politics 15 credits**  
The theory and practice of political journalism, including researching and writing news stories about political issues and events to a publishable standard.
- 219.335 Media Law and Ethics 15 credits**  
Students develop an understanding of the process of making editorial decisions on matters of media law and ethics, including defamation, privacy and complaints about the media.
- 219.336 Researching Journalism 15 credits**  
An examination of the affinities and tensions between academic research on journalism and journalism practice, highlighting the methodological diversity of the academic field of journalism studies, exploring the research methods used in investigative journalism, and reflecting on the research logic of journalism practice.
- 219.339 History of Journalism 15 credits**  
A study of the development of print journalism in English since the 1500s, concentrating on developments in England, the United States and New Zealand. The course also considers the growing distinction between fact and fiction in reportage, the role of the journalist, and the impact of new media technologies.
- 219.340 Feature Writing and Freelancing 15 credits**  
A study of the theory and practice of professional feature writing. It will examine the process and develop skills necessary for producing freelance feature writing.
- 219.345 Strategic Communication Capstone 15 credits**  
This course integrates the theory and application of strategic communication concepts and methods.
- 219.702 Management Communication 30 credits**  
This course examines the management of internal communication processes within organisations.
- 219.703 Perspectives in Business Communication 30 credits**  
An exploration of the theory and practice of workplace communication in diverse organisational settings. Theory is linked to practice through the analysis of contemporary case studies.
- 219.704 International and Intercultural Communication 30 credits**  
This course uses communication theory and research to explore ways of developing cross-cultural effectiveness, with an emphasis on communication in organisational settings.
- 219.705 Advanced News Media Processes 30 credits**  
A critical examination of news media processes, with a particular concentration on the New Zealand media industries, incorporating both theoretical approaches and practical applications. Particular attention is paid to the role of the journalist, ownership and ethics.
- 219.706 Strategic Public Relations 30 credits**  
This course examines the theory and practice of strategic public relations with particular attention to reputation, issues management and crisis management, and ethics.
- 219.708 Political Communication 30 credits**  
This course is a critical and theoretical inquiry into the nature of contemporary political communication.
- 219.709 Advanced Journalism Issues 30 credits**  
The course develops an understanding of advanced journalism theory in specified topic areas and builds students' ability to produce and analyse diverse journalism practices within contemporary communication contexts.

<b>219.710 Persuasive Communication Practice</b>	<b>30 credits</b>	<b>219.799 Research Report</b>	<b>30 credits</b>
This course provides students with the ability to critically examine processes of interpersonal influence in a broad variety of internal and external organisational settings. Through an exploration of a wide range of theories of persuasive communication and extensive application and practice, students develop skills and knowledge to be more sophisticated consumers and producers of persuasive messages, particularly in the context of everyday negotiation.		Students are required to conduct a piece of independent research.	
<b>219.711 Shorthand</b>	<b>0 credits</b>	<b>219.820 Applied Public Relations Project</b>	<b>45 credits</b>
Students study shorthand for this zero-credit, competency-based course. Students also study and apply correct techniques to prevent Occupational Overuse Syndrome while working.		In this capstone course students apply their learning from the degree programme to developing a critically informed public relations activity plan for a selected organisation.	
<b>219.712 Advanced News Journalism</b>	<b>30 credits</b>	<b>219.850 Thesis</b>	<b>120 credits</b>
Students study the theory and practice of gathering and writing news journalism for publication, including generating news-story ideas, gathering the relevant information, writing these news stories, and publishing them in mainstream media outlets. Students critically reflect on their experience, making links to the relevant scholarly literature.		The supervised undertaking of an original piece of research in communication management.	
<b>219.713 Advanced Audio-Visual Journalism</b>	<b>30 credits</b>	<b>219.851 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
Students study the theory and practice of journalism in various non-print media platforms, including radio, television and multi-media platforms.		A supervised and guided independent study resulting in a published work.	
<b>219.714 Journalism and Society</b>	<b>30 credits</b>	<b>219.852 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
Students study and critically reflect on the role and function of journalism in society. This includes the principles of media law and ethics.		A supervised and guided independent study resulting in a published work.	
<b>219.715 Advanced Data and Investigative Journalism</b>	<b>30 credits</b>	<b>219.853 Thesis 90 Credit Part 1</b>	<b>45 credits</b>
In the era of big data, journalists need the tools of data and investigative journalism to mine, refine and present stories that matter to their audiences. Students in this course will learn the principles and methods of advanced data and investigative journalism and apply them in a data-investigative journalism project.		A supervised and guided independent study resulting in a published work.	
<b>219.716 Public Relations Research Methods</b>	<b>15 credits</b>	<b>219.854 Thesis 90 Credit Part 2</b>	<b>45 credits</b>
An application of contemporary research methods to the demands of public relations practice in both local and transnational campaigns.		A supervised and guided independent study resulting in a published work.	
<b>219.717 Digital Innovation and PR Management</b>	<b>30 credits</b>	<b>219.855 Master of Communication Research Project</b>	<b>60 credits</b>
A critical examination of trends in public relations application of mobile and social media to inform communication planning. Students critically reflect on the implications of the rapid evolution of digital platforms for their own practice.		An applied research project involving the critical evaluation and application of selected research methodologies to address communication-related challenges.	
<b>219.718 Reputational Risk and Ethics</b>	<b>30 credits</b>	<b>219.887 Research Report</b>	<b>60 credits</b>
An evaluation of the implications of reputation management practices and an analysis of how reputation risk can be identified and managed in an ethical fashion as part of an organisation's enterprise-wide risk management framework under the direction of the board.		Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.	
<b>219.719 Public Relations Analytics</b>	<b>30 credits</b>	<b>219.888 Professional Practice</b>	<b>60 credits</b>
Analytical techniques and strategies for PR practitioners using traditional, web, mobile and social media are explored, including the responsible interpretation and communication of the findings 'big data' makes and does not make possible.		Candidates will undertake professional practice within the subject area in which the Master of Management is being completed. Professional Practice may be conducted either individually or in groups and assessment of the outcome of the investigation may be in a variety of ways including written and oral presentations and case studies.	
<b>219.720 Global Public Relations Management</b>	<b>30 credits</b>	<b>219.889 Journalism Project</b>	<b>60 credits</b>
This course identifies and analyses how global public relations management is shaped by emerging technologies, national cultures and diplomacy. A comparative study of public relations practice in different countries is based on an international study trip.		Students investigate and write a supervised 5,000-word piece of long-form journalism on a matter of substance and a 10,000-word scholarly, reflective, critically analytical report.	
<b>219.721 Transdisciplinary Communication Research Methods</b>	<b>30 credits</b>	<b>219.890 Journalism Project (Part I)</b>	<b>30 credits</b>
An advanced introduction to selected communication research traditions and methods. Transdisciplinary competency in applied communication research is developed through the evaluation and application of different methodologies to communication research challenges.		Students investigate and write a supervised 5,000-word piece of long-form journalism on a matter of substance and a 10,000-word scholarly, reflective, critically analytical report.	
<b>219.790 Research Methods in Communication</b>	<b>30 credits</b>	<b>219.891 Journalism Project (Part II)</b>	<b>30 credits</b>
To introduce students to the research design principles of qualitative and quantitative research methodologies, data collection procedures, analysis of data and interpretation of results, and writing the research report.		Students investigate and write a supervised 5,000-word piece of long-form journalism on a matter of substance and a 10,000-word scholarly, reflective, critically analytical report.	
		<b>219.893 Thesis</b>	<b>90 credits</b>
		A supervised and guided independent study resulting in a published work.	
		<b>219.897 Thesis 120 Credit Part 1</b>	<b>60 credits</b>
		A supervised and guided independent study resulting in a published work.	
		<b>219.898 Thesis 120 Credit Part 2</b>	<b>60 credits</b>
		A supervised and guided independent study resulting in a published work.	
		<b>219.899 Thesis</b>	<b>120 credits</b>
		A supervised and guided independent study resulting in a published work.	
		<b>219.900 PhD Communication and Journalism</b>	<b>120 credits</b>

## 221

## Photography

**221.100 Photography as an Agent of Change 15 credits**

In this studio course students from all disciplines will gain a grounding in photographic technologies and how they can be utilised in contemporary photographic practice. Students will explore the ongoing relationship photography has with social and political issues.

**221.157 Studio I (Lens) 15 credits**

In this studio course students will be introduced to creative and analytical thinking skills, idea generation and visualisation common to art and design practice. They will begin to acquire specific techniques, skills and processes in photographic image-making. They will learn to discuss and evaluate their work and the work of their peers.

**221.220 Photography and the Studio 15 credits**

In this studio course students will learn controlled lighting techniques (in the studio and on location). They will develop a self-initiated lighting project in order to enrich other strands of their creative practice.

**221.221 Photography and Digital Practices I 15 credits**

In this studio course students will be introduced to photographic digital image manipulation techniques within a broader discussion of the veracity and consumption of digital photographs. They will develop a self-initiated project in response to their specific area of creative practice.

**221.222 Photography and the Darkroom 15 credits**

In this studio course students will be introduced to a variety of photographic analogue processes, which they will employ to produce a body of work. Selected darkroom and wet-based photographic techniques will be explored.

**221.257 Design Studio IIA (Photography) 30 credits**

In this studio course students will explore and articulate creative responses to project challenges through critical awareness of contextual issues. Students will develop and apply core techniques, skills and processes in photography.

**221.258 Design Studio IIB (Photography) 30 credits**

In this studio course students will continue to explore and articulate creative responses to project challenges through critical inquiry into contemporary issues relevant to photography. Students will further develop and apply core techniques, skills and processes.

**221.291 Photography Special Topic A 15 credits**

This course focuses upon one specific aspect of photography. Offerings change from year to year and may not be offered in either or both semesters.

**221.320 Photography and the Body 15 credits**

This studio course engages with the human form as subject in photography and examines principles of lighting. It also explores the history of representation of the human form, taking in photographic portraiture and approaches to fashion photography along with the central and sometimes controversial history of the nude.

**221.321 Photography and Digital Practices II 15 credits**

This studio course provides students from all disciplines with advanced knowledge in digital photographic technologies and how they can be utilised in contemporary photographic practice. Particular attention will be paid to colour theory, colour management and advanced photographic manipulation and output strategies.

**221.322 Photography and the Advanced Darkroom 15 credits**

Students will engage with the histories of photography by applying analogue processes in studio. Workshops will include cyanotype, salt prints, platinum printing, albumen, as well as the construction of digital negatives. Students will also visit photographic archives, including at Turnbull Library and Te Papa, to study original materials. All of which will help students create an experimental final project using methods of their choice.

**221.357 Design Studio IIIA (Photography) 30 credits**

In this studio course students will establish a critical position through individual creative exploration and articulation. With opportunities for varied contextual applications, students will consolidate and expand photographic

concepts, techniques, skills and processes in the production of their creative work.

**221.358 Design Studio IIIB (Photography) 30 credits**

In this studio course students will negotiate a critical position through individual or collaborative professional practices, with opportunities to apply their specialist skills to a range of contexts. In addition to advancing photographic concepts, techniques, skills and processes in the production of their creative work, students will develop and apply transferable skills relevant to professional environments.

**221.391 Photography Special Topic B 15 credits**

This course focuses upon one specific aspect of photography. Offerings change from year to year and may not be offered in either or both semesters.

**221.453 Photography Research and Development 30 credits**

Research methods, practices and processes for Photographic Design and their application.

**221.454 Photography Research Project 45 credits**

Application and development of research to an independent Photographic Design project.

**221.455 Photography Studio Project 45 credits**

Development and realisation of an advanced photographic design project.

**221.456 Photography and the Archive 15 credits**

A studio-based course that examines photography's engagement with the 'archive' as a cultural repository. Students will investigate the social, political and historical uses of archives through photography.

**221.457 Photography and Visuality 15 credits**

A studio-based course that examines photography's historical and contemporary relationships with vision and visuality. Students will discuss the impact of visual representations on contemporary life and they will develop this discussion through verbal presentations, written work and in the execution of a body of experimental photographic images.

**221.495 Photography Independent Study 15 credits**

Supervised independent student work on a negotiated topic related to photography involving the setting of objectives, research and/or project work and the presentation of appropriate written and/or practical outcomes.

## 222

## Visual Communication Design

**222.103 Social Media Culture 15 credits**

In this studio course students will focus on issues and design considerations particular to social media. They will begin to acquire specific techniques, skills and processes for exploring and producing engaging content for network media, emerging technologies and digital culture.

**222.104 Printmaking 15 credits**

In this studio course students will focus on issues and design considerations particular to printmaking. Students will acquire specific printmaking techniques, skills and processes to gain competence in this hands-on medium.

**222.157 Studio I (Screen) 15 credits**

In this studio course students will be introduced to creative and analytical thinking skills, idea generation and visualisation common to art and design practice. They will begin to acquire specific techniques, skills and processes that form the basis of digital screen areas such as video, web, animation, interaction and emerging technologies. They will learn to discuss and evaluate their work and the work of their peers.

**222.158 Studio I (Type) 15 credits**

In this studio course students will be introduced to creative and analytical thinking skills, idea generation and visualisation common to art and design practice. They will begin to acquire specific techniques, skills and processes for a range of visual communication environments, using type. They will learn to discuss and evaluate their work and the work of their peers.

**222.208 Letterpress 15 credits**

In this studio course students will explore and articulate issues and design considerations particular to letterpress technologies. Students will develop and apply techniques, skills and processes in letterpress typography and print production.

**222.215 Brand Communication 15 credits**

In this studio course students will learn history and methods particular to practices of brand positioning and marketing communication. Students will apply fundamentals of brand strategy to the process of differentiating branded offerings through design.

**222.225 Narrative Illustration 15 credits**

In this studio course students will explore and articulate issues and creative considerations particular to narration and narrative theory. Students will develop and apply techniques, skills and processes in the use of storytelling in their creative practice.

**222.232 Illustrated Characters 15 credits**

In this studio course students will explore the unique area of character creation, design and production. Following an investigative process, students will develop an original character that is meaningfully placed within a social or fantastical context.

**222.248 Typographic Systems 15 credits**

In this studio course students will explore and articulate issues and design considerations particular to managing complex information. Students will develop and apply techniques, skills and processes in communicating through text, symbol, colour and form.

**222.257 Design Studio IIA (Visual Communication) 30 credits**

In this studio course students will explore and articulate creative responses to design challenges through critical awareness of contextual issues. Students will develop and apply core techniques, skills and processes in visual communication design.

**222.258 Design Studio IIB (Visual Communication) 30 credits**

In this studio course students will continue to explore and articulate creative responses to design challenges through critical inquiry into contemporary issues relevant to visual communication design. Students will further develop and apply core design techniques, skills and processes.

**222.290 Visual Communication Design Special Topic I 15 credits**

The course focuses on one specific aspect of visual communication design. Offerings change from year to year or may not be offered in a particular year.

**222.312 Art Direction 15 credits**

In this studio course students will learn art direction practices for the resolution of conceptual executions with an emphasis on typography, image narrative and advertising design hierarchies. Students will explore art direction techniques and processes applied to print and digital media encompassing visual culture theory and practical skills.

**222.313 Copywriting 15 credits**

In this studio course students will establish a critical position through the authority of words to inform, challenge or communicate a narrative within the broad spectrum of visual communication design. Students will explore the expressive characteristics of words and their potential to influence through themes relating to textual creativity and narrative in communication design.

**222.326 Sequential Art 15 credits**

In this studio course students will learn how to create visual narratives in sequential form. The emphasis will be on visual narrative construction for the picture book, with some contextual history of the genre. Production aspects include analogue and design techniques, continuity and image and text relationships.

**222.333 Concept Design for Imaginary Worlds 15 credits**

In this studio course students will learn how to represent ideas, characters, moods, scenes and scenarios which could be used in film, games or animations. Within this area of pre-production students will use both divergent and convergent approaches that will result in multiple concept options as well as technically resolved images.

**222.347 Editorial Design 15 credits**

In this studio course students will explore and articulate design considerations particular to managing editorial content. Students will develop and apply

techniques, skills and processes in communicating through advanced typographic techniques and image composition.

**222.348 Narrative Information Design 15 credits**

In this studio course students will explore information design concepts and expand information design theory and practice. Complex information will be interpreted and translated into precise and accessible form for specific audiences.

**222.357 Design Studio IIIA (Visual Communication) 30 credits**

In this studio course students will establish a critical position through individual or collaborative creative exploration and articulation. With opportunities for varied contextual applications, students will consolidate and expand visual communication design concepts, techniques, skills and processes in the production of their creative work.

**222.358 Design Studio IIIB (Visual Communication) 30 credits**

In this studio course students will negotiate a critical position through individual or collaborative professional practices, with opportunities to apply their specialist skills to a range of contexts. In addition to advancing visual communication design concepts, techniques, skills and processes in the production of their creative work, students will develop and apply transferable skills relevant to professional environments.

**222.390 Visual Communication Design Special Topic A 15 credits**

The course focuses on one specific aspect of visual communication design. Offerings change from year to year or may not be offered in a particular year.

**222.408 Experiential Information Design 15 credits**

This course explores ways in which complex information can be interpreted and translated into sophisticated visual language through analytical and practical design enquiry.

**222.409 Contemporary Letterpress 15 credits**

In this studio course students will apply a visual research process of typography with historical and contemporary printing methods. Students will explore aesthetic and theoretical implications of hand presses, metal type, wood type and digital technologies in the creation of new hybrid visual communication.

**222.417 Image and Identity 15 credits**

In this course students will explore how designers lead and manage the branding process for organisations by communicating with images and words. How an organisation presents itself can be called its identity. How different audiences perceive this is can be called its image. Students research, explore, and develop a flexible design system for an organisation by creating a dynamic brand experience that can adapt to visual, interactive, and sensory modes.

**222.425 Illustration Studio Practice 15 credits**

Advanced exploration and application of illustrative processes, methods and strategies to a range of complex issues.

**222.449 Spatial Type 15 credits**

In this studio course students will apply a research-informed investigation of typography in spatial environments. Students will explore two and three dimensional typographic solutions that may include interpretive, navigational or informational typography.

**222.453 Visual Communication Design Research and Development 30 credits**

Application of research methods and processes to investigate social, cultural, aesthetic and technical issues and strategies in an approved visual communication design project.

**222.454 Visual Communication Design Research Project 45 credits**

Application of research to the development and production of an approved independent visual communication design project.

**222.455 Visual Communication Design Studio Project 45 credits**

Development and realisation of an advanced visual communication design project.

**222.490 Visual Communication Design Special Topic D 15 credits**
**222.491 Visual Communication Design Special Topic E 15 credits**

**222.496 Visual Communication Design Special Topic F 15 credits****222.499 Independent Visual Communication Design Study 15 credits**

Independent student work is undertaken on an approved course of study involving research and/or project work in visual communication design.

**223****Textile Design****223.157 Studio I (Material) 15 credits**

In this studio course students will be introduced to creative and analytical thinking skills, idea generation and visualisation common to art and design practice. They will begin to acquire specific techniques, skills and processes through the investigation of materials, form, surface, image and pattern for the design and making of textiles. They will learn to discuss and evaluate their work and the work of their peers.

**223.207 Materials Lab 15 credits**

In this studio course students will be introduced to identification and testing of materials for design and performance. Students will analyse innovative, technical, and industrial materials for a wide range of design products and contexts through workshops and interaction with industry.

**223.211 Fashion Textiles 15 credits**

This studio course introduces the design and creation of textiles for apparel. Students will explore a variety of textile techniques and processes, and their creative fashion application.

**223.228 Textile Design Special Topic A 15 credits**

The course focuses on one specific aspect of textile design. Offerings change from year to year or may not be offered in a particular year.

**223.257 Design Studio IIA (Textiles) 30 credits**

In this studio course students will explore and articulate creative responses to design challenges through critical awareness of contextual issues. Students will develop and apply core techniques, skills and processes in textile design.

**223.258 Design Studio IIB (Textiles) 30 credits**

In this studio course students will continue to explore and articulate creative responses to design challenges through critical inquiry into contemporary issues relevant to textile design. Students will further develop and apply core design techniques, skills and processes.

**223.301 Contemporary Wallcoverings 15 credits**

In this studio course students will design and develop collections for wallpaper and wall coverings, with emphasis on creative investigation and forecasting.

**223.312 Textile Print Project 15 credits**

In this studio course, students explore the design and development of printed textiles for a specific performance, installation or exhibition.

**223.328 Textile Design Special Topic B 15 credits**

The course focuses on one specific aspect of textile design. Offerings change from year to year or may not be offered in a particular year.

**223.357 Design Studio IIIA (Textiles) 30 credits**

In this studio course students will establish a critical position through individual or collaborative creative exploration and articulation. With opportunities for varied contextual applications, students will consolidate and expand textile design concepts, techniques, skills and processes in the production of their creative work.

**223.358 Design Studio IIIB (Textiles) 30 credits**

In this studio course students will negotiate a critical position through individual or collaborative professional practices, with opportunities to apply their specialist skills to a range of contexts. In addition to advancing textile design concepts, techniques, skills and processes in the production of their creative work, students will develop and apply transferable skills relevant to professional environments.

**223.411 Embroidered Textiles 15 credits**

Students will explore embroidery and advanced technologies for the production of innovative fashion textiles.

**223.412 Sustainable Colouration 15 credits**

Students will explore contemporary design concepts using sustainable dye processing and advanced technology to colour and pattern textiles.

**223.453 Textile Design Research and Development 30 credits**

Research methods processes and practices for Textile Design and their application through a research project.

**223.454 Textile Design Research Project 45 credits**

Application of research to the development and production of an approved textile design project.

**223.455 Textile Design Studio Project 45 credits**

Development and realisation of an advanced textile design project.

**223.490 Textile Design Special Topic C 15 credits****223.495 Textile Design Independent Study 15 credits**

Supervised independent student work on a negotiated topic related to textile design involving the setting of objectives, research and/or project work and the presentation of appropriate written and/or practical outcomes.

**224****Spatial Design****224.157 Studio I (Space) 15 credits**

In this studio course students will be introduced to creative and analytical thinking skills, idea generation and visualisation common to art and design practice. They will begin to acquire specific techniques, skills and processes for the definition and investigation of physical, temporal and digital spatial environments and their inhabitation. They will learn to discuss and evaluate their work and the work of their peers.

**224.204 Design for Performance 15 credits**

In this studio course students will explore the design and making of performances and their settings. Students will apply their investigations through the design or production of performance experiences and events.

**224.205 Design for Display 15 credits**

In this studio course students will investigate concepts for display and design strategies for exhibitions as temporary interventions in public space.

**224.257 Design Studio IIA (Spatial) 30 credits**

In this studio course students will explore and articulate creative responses to design challenges through critical awareness of contextual issues. Students will develop and apply core techniques, skills and processes in spatial design.

**224.258 Design Studio IIB (Spatial) 30 credits**

In this studio course students will continue to explore and articulate creative responses to design challenges through critical inquiry into contemporary issues relevant to spatial design. Students will further develop and apply core design techniques, skills and processes.

**224.302 Spatial Design Special Topic A 15 credits**

This course focuses on one specific aspect of spatial design. Offerings may change from year to year or may not be offered in a particular year.

**224.306 Game Space 15 credits**

In this studio course students will focus on the development of real-time interactive digital environments using game technology. The design constraints and opportunities of game engines will be explored through the development of a range of digital spatial environments.

**224.357 Design Studio IIIA (Spatial) 30 credits**

In this studio course students will establish a critical position through individual or collaborative creative exploration and articulation. With opportunities for varied contextual applications, students will consolidate and expand spatial design concepts, techniques, skills and processes in the production of their creative work.

**224.358 Design Studio IIIB (Spatial) 30 credits**

In this studio course students will negotiate a critical position through individual or collaborative professional practices, with opportunities to apply their specialist skills to a range of contexts. In addition to advancing spatial

design concepts, techniques, skills and processes in the production of their creative work, students will develop and apply transferable skills relevant to professional environments.

#### **224.453 Spatial Design Research and Development 30 credits**

Research methods, processes and practices for Spatial Design and their application through a research project.

#### **224.454 Spatial Design Research Project 45 credits**

Application and development of research in an independent spatial design project.

#### **224.455 Spatial Design Studio Project 45 credits**

Development and realisation of an advanced spatial design project.

#### **224.490 Spatial Design Special Topic C 15 credits**

The course focuses on particular aspects of advanced Spatial Design. Offerings change from year to year or may not be offered in a particular year.

#### **224.495 Spatial Design Independent Study 15 credits**

Supervised independent student work on a negotiated topic related to spatial design involving the setting of objectives, research and/or project work and the presentation of appropriate written and/or practical outcomes.

## 227

### Veterinary Science

#### **227.106 Veterinary Biochemistry 15 credits**

An introductory biochemistry course covering the fundamental concepts of protein structure and function as well as metabolism of carbohydrates, lipids and amino acids. The focus will be on energy transactions in a physiological context including glucose homeostasis and muscle metabolism in mammals. A lecture and problem-based tutorial course will be complemented by case studies relevant to animal health and disease.

#### **227.107 Animal Behaviour and Welfare for Veterinary Science 15 credits**

An introduction to common ethical frameworks for animal use with a focus on domestic animal species. Principles of the behaviour and welfare of domestic animal species. Theory of safe and effective animal handling.

#### **227.108 Introduction to Veterinary Anatomy 15 credits**

An overview of the anatomy of domestic animals. Following an introduction to the general principles of anatomy, the structure and function of each major organ system is considered at a basic level, with an emphasis on veterinary clinical relevance.

#### **227.109 Introduction to Veterinary Physiology 15 credits**

An introduction to body systems as they apply to veterinary science. Foundational principles of physiology are examined and applied to multiple systems and situations, including clinical veterinary problems.

#### **227.110 Farm Practical Training 0 credits**

A practicum during which students will learn practical skills for working with livestock, farm safety and understanding farm-level agricultural economics. Modules on Health and Safety and handling of Agrichemicals useful for practical placements are also provided.

#### **227.212 Animal Production for Veterinarians I 15 credits**

Introduction to animal nutrition (monogastric and ruminant), including feed analysis and feed requirements. Pastoral livestock production systems, including the growth and management of pasture as an animal feed. Animal genetics and breeding.

#### **227.215 Animal Production for Veterinarians II 15 credits**

Ruminant production systems (including dairy and beef cattle, sheep, goats, deer); application of knowledge related to nutrition, growth, reproduction, genetics, lactation and management of young and adult stock.

#### **227.221 Veterinary Structure and Function I 15 credits**

This course follows on from the anatomy and physiology courses in BVSc1 (227.108 and 227.109). Together these courses consider the relevant aspects of the structure and function of domestic animals.

#### **227.222 Professional Practice 15 credits**

An introduction to the clinical and professionalism components of being a veterinarian, including obligations to self, colleagues, clients, the profession and the animal. Skills in basic clinical examination, recording, interpretation and communication of findings in common species of domestic animals will be covered.

#### **227.223 Integrative Studies in Veterinary Science I 15 credits**

This is the first in a series of integrative and contextualising courses that extends through years 2 to 4 of the BVSc programme. A case-based approach to the integration of concurrent and previous veterinary learning will be undertaken at a level appropriate to that of a second-year veterinary science student. Students will be encouraged to develop their clinical reasoning skills and professional competencies through the analysis of a broad range of clinical situations.

#### **227.224 Veterinary Structure and Function II 15 credits**

This course follows on from both the anatomy and physiology courses in BVSc1 (227.108 and 227.109) and 227.221 (Structure and Function I). Together these courses consider the relevant aspects of the structure and function of domestic animals.

#### **227.225 Veterinary Infectious Diseases 15 credits**

An introduction to the viral and bacterial pathogens of animals. Further development of the principles of epidemiology, diagnosis and control of infectious diseases of veterinary importance. Epidemiology, pathogenesis, diagnosis, and control of bacterial and viral diseases, with an emphasis on diseases endemic in New Zealand, economically important diseases and zoonoses. Principles of the functioning of the immune system and development of immunity following infection or vaccination.

#### **227.226 Integrative Studies in Veterinary Science II 15 credits**

This is the second in a series of integrative and contextualising courses that extends through years 2 to 4 of the BVSc programme. A case-based approach to the integration of concurrent and previous veterinary learning will be undertaken at a level appropriate to that of a second year veterinary science student. Students will be encouraged to develop their clinical reasoning skills and professional competencies through the analysis of a broad range of clinical situations.

#### **227.310 BVSc Farm Practical Work 0 credits**

In this course students will undertake farm work in cattle, sheep, horse and other livestock industries. Students will develop practical animal skills, and skills in observation, identification, analysis and communication.

#### **227.311 Farm Animal Population Health and Production 22 credits**

The role of the veterinarian as a key agricultural advisor. Causes and investigation of sub-optimal health and production in farmed species, focusing on groups of animals rather than individuals. Relationships between farm management, husbandry, productivity, health and welfare. Treatment and prevention of sub-optimal health and production, including consideration of costs and benefits.

#### **227.312 Veterinary Infectious and Parasitic Diseases 19 credits**

A further course in Veterinary Infectious Diseases that covers the bacterial, fungal, helminth, arthropod and protozoal pathogens of animals and their role in infectious disease and zoonosis. Epidemiology, pathogenesis, diagnosis, prevention, treatment and control of infectious diseases. Zoonoses and the role of the veterinarian in veterinary public health.

#### **227.313 Veterinary Anatomic and Clinical Pathology I 21 credits**

General pathology. Anatomic and clinical pathology of body systems, including pathophysiology, gross and microscopic lesions. Interpretation of necropsy and laboratory test results (including haematology, serum biochemistry, urinalysis, serology, histology and cytology) for the diagnosis of disease. Specimen collection and handling, test selection, and performance of basic laboratory tests.

#### **227.314 Introductory Veterinary Clinical Studies II 16 credits**

This course provides the basic principles and skills which are the foundation of clinical work. It covers the principles of pharmacology which provide the basis for therapeutics, the principles of anaesthesia and the skills required to use anaesthetic equipment, the principles of surgery and the basic skills required, the different methods for imaging animals, with emphasis on radiology and the practical aspects of taking and interpreting diagnostic radiographs.

### 227.316 Companion Animal Medicine, Surgery and Therapeutics I **18 credits**

This course covers aetiology, pathogenesis, diagnosis and treatment of common and important medical and surgical conditions of companion animals.

### 227.317 Integrative Studies in Veterinary Science V **12 credits**

This course is the fifth in a series of integrative and contextualizing studies that will extend through Years 1 to 4 of the BVSc programme. A case- and problem-based approach to the integration of concurrent and previous veterinary learning will be undertaken at a level appropriate to that of a third year veterinary student. This course will particularly focus on the interaction between therapeutic substances and disease states, alongside the development of professional behaviours. Students will be encouraged to develop a variety of problem solving strategies and professional competencies through the analysis of a broad range of clinical situations.

### 227.325 Integrative Studies in Veterinary Science IV **12 credits**

This course is the fourth in a series of integrative and contextualising studies in the BVSc. Students will identify problems related to veterinary science and investigate these through direct (e.g. field studies) or indirect (e.g. literature) research, at a level appropriate to a third year veterinary student. Students will develop problem solving strategies and professional competencies, including scientific writing.

### 227.410 BVSc Veterinary Practical Work **0 credits**

During this course, students will undertake practical work in external veterinary practices under the supervision of a registered veterinarian, to develop clinical skills and gain experience of client-based veterinary practice.

### 227.411 Veterinary Anatomic and Clinical Pathology II **16 credits**

Further study of anatomic and clinical pathology of additional body systems which builds upon and extends information given in Veterinary Anatomic and Clinical Pathology I. Pathophysiology, gross and microscopic lesions. Interpretation of necropsy and laboratory test results (including haematology, serum biochemistry, urinalysis, serology, histology and cytology) for the diagnosis of disease. Specimen collection and handling, test selection, and performance of basic laboratory tests.

### 227.413 Cattle Health, Production, Population Medicine and Therapeutics **12 credits**

This course covers the medicine, surgery, management and productivity of beef and dairy cattle. The aetiology, pathogenesis, diagnosis and treatment of disease, and the restoration of animals to normal levels of productivity.

### 227.414 Companion Animal Medicine, Surgery and Therapeutics II **25 credits**

A further course covering the aetiology, pathogenesis, diagnosis and treatment of common and important medical and surgical conditions of companion animals. The application of surgical and anaesthetic principles in teaching laboratories is designed to develop competence in simple elective surgical and anaesthetic procedures.

### 227.416 Integrative Studies in Farm Animal Production Medicine **12 credits**

Integration of veterinary medicine and whole farm systems. Farm management and production systems and the relationship between management systems, productivity and patterns of disease. The development of health and production programmes to minimise disease and maximise animal production.

### 227.418 Integrative Studies in Veterinary Science VII **12 credits**

This capstone course is the final in a series of 7 courses in integrative and contextualizing studies that have extended through Years 1 to 4 of the BVSc programme. A case- and problem-based approach to the integration of concurrent and previous veterinary learning will be undertaken at a level appropriate to that of a pre-final year veterinary student. This course will particularly focus on the professional abilities of students, and their ability to synthesise heuristic 'illness scripts' and other intellectual shortcuts based upon the precepts of diagnostic reasoning. Students will be encouraged to develop a variety of problem solving strategies and professional competencies through the analysis of a broad range of clinical situations.

### 227.425 Integrative Studies in Veterinary Science VI **12 credits**

This course is the sixth in a series of integrative and contextualising studies in the BVSc. A case- and problem-based approach to the integration of concurrent and previous veterinary learning will be undertaken at a level

appropriate to a fourth year veterinary student. Students will develop problem solving strategies and professional competencies through the analysis of a range of clinical situations.

### 227.431 Companion Animal Medicine, Surgery and Therapeutics III **10 credits**

This is the final of a series of three courses in BVSc3 and BVSc4 that cover aetiology, pathogenesis, diagnosis and treatment of common and important medical and surgical conditions of companion animals.

### 227.432 Equine Clinical Studies **15 credits**

An overview of common equine diseases and preventative health programmes. This course covers aspects of equine medicine, surgery, lameness, reproduction and pharmacotherapeutics, with an emphasis on a diagnostic and therapeutic approach to the sick or abnormal horse.

### 227.433 Medicine and Surgery of Birds, Reptiles and Amphibians **6 credits**

An introduction to the principles and applications of medicine and surgery of birds, reptiles and amphibians including wildlife, companion animals and backyard flock or collections.

### 227.511 Veterinary Clinics and Public Health **120 credits**

Tuition, demonstration and clinical experience in surgery, anaesthesia, medicine, epidemiology and theriogenology of domestic animals; health and management of production animals; diagnostic procedures, including imaging, necropsies and laboratory tests; and diagnostic reasoning. Professional ethics and legislative obligations to the public and state; the role of veterinary professional organisations and veterinarians as communicators and educators, veterinary business management and the maintenance of physical and mental fitness as a veterinarian. Principles and practical applications of veterinary public health, meat hygiene and quality assurance programmes to meet national and international standards will also be taught. Opportunities for students to gain further experience in chosen areas of interest.

## 228

### Technology and Engineering

#### 228.110 Practicum I **0 credits**

Working in an industrial or commercial setting to gain real experience and apply knowledge, providing a foundation for a future career in industry. Continued development of the skills required to become a professional engineer and technologist.

### Engineering

#### 228.111 Engineering Practice 1: Global Perspectives **15 credits**

Engineering is the application of mathematics, science and technology principles, integrated with business and management, to develop and provide products and processes for industry and the community. In this course you will help solve problems faced by many people in need. Concepts of systematic problem solving, communication and self assessment form an integral part of this project focused course.

#### 228.112 Engineering Practice 2: Creative Solutions **15 credits**

Engineering is the application of mathematics, science and technology principles, integrated with business and management, to develop and provide products and processes for industry and the community. This course allows you to develop your creative skills and encourages a thirst for knowledge. The development of engineering design, prototyping, teamwork and communication through design form an integral part of this project focused course.

#### 228.115 Engineering and Technology Principles **15 credits**

An introduction to the fundamental technology and engineering skills required for professional engineers and technologists. Students will develop practical skills to design and solve engineering and technology problems carrying out simple design projects and creating new innovative solutions. Projects will include consideration of cultural, ethical and safety aspects and students will develop skills to effectively communicate design solutions.

#### 228.153 Introductory Engineering Studies **15 credits**

A broad description of the nature of engineering and technology and the roles of engineers and technologists in society and industry. The range of

engineering and technology disciplines will be presented together with an introduction to the core skills of practitioners including some fundamentals of engineering science, teamwork and presentation skills.

### **228.171 Engineering Mathematics 1A** **15 credits**

This course provides a solid mathematical foundation for further studies in engineering and technology. It consolidates basic concepts and introduces more advanced material on differentiation and numerical techniques, enabling the formation of mathematical models of real-world problems. The course blends topics from calculus with those from linear algebra and includes matrices, linear equations, vectors and geometry.

### **228.172 Engineering Mathematics 1B** **15 credits**

This course builds on the foundation provided by 228.171. Together these courses provide a mathematical platform for more advanced studies in engineering and technology. The topics are a blend of calculus and linear algebra, including complex numbers, linear transformations, eigenvectors, advanced techniques of integration, differential equations and applications.

## **Technology and Engineering**

### **228.210 Practicum I** **0 credits**

Working in an industrial or commercial setting to gain real experience and apply knowledge, providing a foundation for a future career in industry. Continued development of the skills required to become a professional engineer and technologist.

## **Engineering**

### **228.211 Engineering Practice 3: Product Development** **15 credits**

The development of new and improved products is a key role of most practising engineers. This course provides the structured process and tools required for successful product development in the context of an applied project.

### **228.212 Engineering Practice 4: Materials & Manufacturing** **15 credits**

The design and development of solutions to engineering problems with “concurrent engineering” capability is a core activity for engineers. A practical course with emphasis on integrating materials and manufacturing process selection into a structured design methodology based on the application of engineering and scientific principles.

### **228.271 Engineering Mathematics 2** **15 credits**

This is a core course that provides key mathematical tools for modelling and analysing engineering problems. These tools represent a balance of stochastic and deterministic modelling approaches along with their mathematical underpinnings. Topics include random variables and distributions; analytical and numerical solution methods for linear systems of ordinary differential equations including Laplace transform techniques; sensitivity analysis, optimization, curve-fitting and interpolation for data sets.

## **Technology and Engineering**

### **228.310 Practicum II** **0 credits**

Working in an industrial or commercial setting to gain real experience and apply knowledge, providing a foundation for a future career in industry. Continued development of the skills required to become a professional engineer and technologist.

## **Engineering**

### **228.311 Engineering Practice 5: Engineering Design with Constraints** **30 credits**

Technology must be effectively interfaced with society and the environment to succeed. Overarching social and environmental constraints are applied, including impact assessment and efficiency analysis tools. Project based learning is undertaken on the sustainable design of a consumer product underpinned by appropriate technical knowledge.

### **228.312 Engineering Practice 5: Process Engineering with Constraints** **30 credits**

Technology must be effectively interfaced with society and the environment to succeed. Overarching social and environmental constraints are responded to using a systematic application of process engineering. Project based learning is undertaken on supply of utility inputs to and waste treatment outputs from an industrial process.

### **228.371 Statistical Modelling for Engineers and Technologists** **15 credits**

This is a core course that provides essential grounding in statistical inference and modelling for engineers and technologists. Students will learn how to develop statistical models to describe random phenomena, and use them to test engineering questions of practical interest.

### **228.711 Engineering Practice 6: Design Capstone Project** **30 credits**

This course marks the culmination of the BE(Hons) degree, that integrates the skills and knowledge acquired throughout the programme. It places specific emphasis on a commercial basis for complex engineering problem solving where success will be measured not only by the elegance of the engineering solution but also by the appropriateness of that solution within a defined commercial context.

### **228.733 Packaging Technology II** **15 credits**

Packaging design is strongly influenced by product manufacture, supply chain and societal drivers. This course investigates the interactions between these drivers with respect to environment, legislation, package and product safety, packing line and distribution systems.

### **228.734 Packaging Design Technology** **15 credits**

The application of product development methodology to package and package systems for products, including elements of two- and three-dimensional design, application of graphics design, and the interaction between graphics and package design. The relationship between the package and product marketing is explored including consumer evaluation techniques.

### **228.735 Packaging Technology III** **15 credits**

Appropriate packaging design for product shelf life and equipment used to fill and pack liquids, solids and powder products. The impact of new and developing technology on packaging design is explored.

### **228.736 Fast-Moving Consumer Goods Packaging** **15 credits**

This course explores packaging systems for Fast Moving Consumer Goods (FMCG), including the driving forces for their development, with examples by industry sectors including dairy, meat, horticultural, pharmaceutical and personal care.

### **228.737 Packaging Materials I** **15 credits**

The basic functions of packaging and their relationship to the needs and demands of society is explored. The function and manufacturing of packaging materials including paper, paperboard, corrugated fibreboard and plastics are covered. Basic properties will be reviewed in relation to packaging performance. This course will introduce the mechanics of materials, including stress, tension, compression and shear.

### **228.738 Packaging Materials II** **15 credits**

This course covers glass and metal packaging materials. Students will gain an understanding of how these packaging materials are manufactured and how the packaging is formed. The basic properties of these materials are reviewed in relation to their packaging performance. A broad introduction to active and intelligent packaging systems is also provided.

### **228.740 Energy Policy** **15 credits**

The objective of this unit is to provide an understanding of the public policy processes and institutions that give rise to the shape, direction and outcomes in the energy sector. The sources of energy policy objectives are explored and the range of policy instruments to achieve such objectives is outlined. Political and economic drivers of policy formation are explored in the areas of fossil fuel policy, nuclear energy, the global environment, renewable energy, and energy sustainability.

### **228.741 Energy Systems** **15 credits**

An introduction to the design and operation of energy conversion and supply systems. The focus is on the principal small-to-medium scale energy systems currently in use in Australia. Key areas covered include engine-based RAPS systems, hybrid systems, photovoltaic systems, wind power systems and solar thermal systems. Co-generation systems, fuel cells and microhydro systems are also considered.

### **228.742 Energy Economics** **15 credits**

Covers the economic theory relevant to the energy sector, including discounted cash flow analysis, levelised cost, benefit-cost analysis and the internalising of externalities. Another major topic will be price determination and risk management. Attention is given to open access to energy facilities, the taxation of the energy sector, and the role of public utilities and

government industry regulators. The unit emphasises that the role of the market should always be considered within the broader ecological and social context.

### **228.743 Energy Management 15 credits**

A study of the efficient use of energy in buildings, factories and transport systems; techniques for measuring and monitoring energy use; approaches to optimising the performance of electrical appliances and systems; design principles to minimise energy use in buildings and devices and an assessment of the relative costs of energy conservation and energy production in various applications. The unit will include an energy audit and a project report on the results and conclusions.

### **228.744 Case Studies of Renewable Energy Systems 15 credits**

Through a set of case studies of renewable energy systems the principles of innovation, project management, demonstration and commercialisation are developed. These studies include grid connected and remote area applications of the major renewable energy technologies. The course also includes a review of the renewable energy industry, the financing of major projects and a discussion of evaluation methods for renewable energy projects.

### **228.745 Renewable Energy Conversion Devices 15 credits**

This course describes the principles of operation, the design, and the particular installation requirements of the major renewable energy power generation devices, including photovoltaic cells, wind turbines, and solar thermal collectors. The devices used to convert or control power flows within systems are also discussed in terms of their function and operational requirements. These include inverters, maximum power point trackers and battery charge controllers. The various energy storage options are also discussed.

### **228.746 Renewable Energy Resources 15 credits**

This unit examines the availability and distribution of various renewable energy resources such as solar radiation, wind, hydro, tidal, wave and biomass. The methods for measuring, monitoring and analysing these resources are described and some practical sessions are undertaken to illustrate these procedures. Principles for undertaking a resource assessment for a particular site are presented. This includes sources of data, analysis of that data and estimation of data when actual data is not available.

### **228.747 Renewable Energy Systems Design 15 credits**

This course focuses on the design of renewable energy systems and in particular, on estimating the performance and economics of such systems. It will focus heavily on the use of computer-based design and simulation programs to estimate these parameters. The input data requirements, method of operation, and strengths and weaknesses of these computer-based tools will be presented. Students will use many of these computer-based tools to solve component sizing and design problems.

### **228.748 Climate Change Science and Policy 15 credits**

This course addresses the scientific, technological and policy aspects of climate change. This is a global environmental issue that has potentially major implications for all life on earth, including human society. In recent years the subject of climate change has produced an intense international debate over the scientific basis of the measurements and predictions. The policy responses need to be understood in the context of the science and the controversy. This is a dynamic and controversial area and the subject matter and resource materials are undergoing frequent reassessment and change. Many of the sources are only available as research papers or from the web sites of researchers and government agencies.

### **228.750 Renewable Energy and Sustainable Development 15 credits**

Addresses the challenges of assessing, designing, introducing and maintaining small scale renewable energy technologies in developing countries, particularly in rural areas. It is here that the big increases in global population and energy demand are predicted to occur over the coming two decades. Views the problem in a holistic, rather than a purely technical way. Adopts a broad description of what constitutes renewable energy technology since most energy in developing countries rural areas is currently derived from traditional renewable sources.

### **228.755 Sustainable Energy Systems and Society 15 credits**

An overview of low carbon, clean energy, energy efficiency and renewable energy systems from a global perspective that can provide energy services to society in relation to targets for reduction of greenhouse gas emissions and climate change impacts. Scenario evaluations of energy supply and demand options, food supply issues, social and environmental co-benefits, policy

drivers and links to energy security and sustainable development will be studied.

### **228.756 Energy Efficiency (Systems Analysis and Auditing) 15 credits**

Energy survey techniques and auditing, mass and energy balances, thermodynamics, energy analysis, air psychrometrics, heat transfer, introductory process integration (pinch technology).

### **228.757 Energy Efficiency (Industrial and Commercial Technology) 15 credits**

Advanced process integration (pinch technology), heat exchangers, cogeneration, boilers, supply of mechanical power (including electric motors), refrigeration and heat pumps, pumps and fans, dryers, some selected separation and concentration processes.

### **228.766 Integrated Energy Resource Planning 15 credits**

Analytical concepts and tools necessary to approach the problem of planning an adequate energy supply and demand balance across an economy at the local, national or regional levels. Use of Integrated Resource Planning methodology as a tool for the systematic analysis of the energetic, environmental and economic costs and benefits of future energy alternatives.

### **228.767 Greenhouse Gas Mitigation Analysis 15 credits**

Principles of greenhouse gas accounting and the application of sound and verifiable analysis for greenhouse gas mitigation projects. The evolution of regulated and voluntary carbon markets and the development of international monitoring and verifications protocols. Examples from selected greenhouse gas mitigation projects including Kyoto-compliant verified emission reductions (VERs), certified emission reduction and other GHG-offsets traded on international carbon markets.

### **228.791 Special Topic 15 credits**

### **228.792 Special Topic 30 credits**

### **228.797 Research Methods in Engineering and Technology 15 credits**

Research methods for students in engineering and technology. Topics include: statistical design of research experiments; hypothesis testing; use of statistical models to test engineering questions; data analysis; literature searches; development of research proposals; critical assessment of scientific literature.

### **228.798 Individual Research Project 30 credits**

A comprehensive study of a specific area of engineering or technology employing appropriate research practice to derive recommendations with respect to a pre-determined hypothesis.

### **228.893 Research Report 45 credits**

A research dissertation on an agreed topic.

### **228.894 Research Report 30 credits**

Research in a defined area of Technology and Engineering.

### **228.895 Research Report 60 credits**

### **228.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

### **228.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

### **228.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

### **228.900 PhD Engineering 120 credits**

## 230

### **Humanities Social Sciences**

### **230.001 Foundation Humanities 15 credits**

An introduction to a number of humanities disciplines and subject areas through study of the underlying philosophies and values of the humanities.

**230.002 Foundation Social Sciences 15 credits**

An introduction to the concepts, methods and scope of the Social Sciences through study of contemporary social issues in Aotearoa/ New Zealand and in global contexts.

**230.102 Pacific Peoples in New Zealand 15 credits**

An introduction to the distinctive cultures of Pacific Peoples in New Zealand. Students will develop an understanding of core values, traditions, cultural protocols, social processes and world views that are characteristic of Pacific cultures in the New Zealand context.

**230.110 Tūrangawaewae: Identity & Belonging in Aotearoa NZ 15 credits**

This course examines formations of identity and belonging in relation to concepts of place and turangawaewae ('standing place'). The multiple factors shaping identity formation, citizenship and public engagement will be explored, and students will develop awareness of and reflect on diverse perspectives regarding identity and citizenship, and apply this understanding to analyse issues in contemporary New Zealand society.

**230.111 Tū Kupu: Writing and Inquiry 15 credits**

This course introduces students to cultures of writing and inquiry in the Humanities and Social Sciences. It is designed to help students write effectively at undergraduate level by practising a variety of writing tasks, including analytical, persuasive, and research-based writing and argumentation. Students will learn practices of writing, research, peer-review and revision that have application in the university and broader contexts.

**230.112 Tū Arohae: Critical Thinking 15 credits**

This course develops students' foundational analytical and critical thinking skills. It is designed to provide students in any discipline with the ability to describe, evaluate, and generate reasoning / arguments effectively, appropriately, and sympathetically, alongside an understanding of the hidden complexities inherent in this approach and its limits when employed as a form of persuasion.

**230.121 Future State: New Zealand in the 21st Century 15 credits**

An inter-disciplinary exploration of the pressing social, political and economic issues (present and future) facing New Zealand in the 21st century such as globalisation, inequality and environmental challenges from the perspectives of the social science disciplines of geography, anthropology, sociology and politics.

**230.210 Tū Rangaranga: Global Encounters 15 credits**

The course explores our connections, impacts, and roles in the world, and our rights and responsibilities as global citizens. It examines what citizenship means in 21st century Aotearoa/NZ, given its history, cultural diversity, and place in the global arena. The course introduces the notion of global citizenship, and explores the relationship between individual and collective action in addressing global problems.

**230.291 Special Topic HSS 15 credits****230.292 Special Topic HSS 15 credits****230.310 Tū Tira Mai: Practising Engagement 15 credits**

The questions of and possibilities for agency and action form the core of this course, through an enquiry-based exploration of the capacities of the humanities and social sciences for action, intervention and contribution in professional and community contexts. The course also covers the development and application of research skills, problem-solving skills, and ethical awareness in addressing practical issues.

**230.391 Special Topic HSS 15 credits****230.392 Special Topic Humanities & Social Sciences 15 credits****230.701 Evaluation: Theory and Principles 30 credits**

An advanced examination of the context, theories, and principles of evaluation research, and what it means to undertake evaluative activity in a range of social sector settings.

**230.702 Professional Evaluation Practice 30 credits**

An advanced level focus on what 'supports the craft' of evaluation practice: roles and expectations, professional management, ethical practice, innovation, and dissemination of findings.

**230.703 Techniques and Methods in Evaluation Research 30 credits**

An in-depth examination of a range of qualitative, quantitative, mixed and innovative methods, skills and techniques as they would be applied to practical, 'real-life' evaluation questions.

**230.704 Public Policy Analytics: Methodology, Design and Data 30 credits**

The course equips students with an understanding of methodology, research design, data management and the application of analytics in a public policy setting.

**230.705 Interpretation in Geospatial Analytics 15 credits**

An advanced interpretation of the theory and application of geospatial data analytics applied in a variety of social science contexts including public policy, health, environmental planning and business marketing.

**230.706 Integrated Data Infrastructure 15 credits**

An advanced interpretation of the theory and application of integrated data infrastructure analytics applied in public policy contexts. Case studies provide practical examples.

**230.791 Special Topic Humanities & Social Sciences 30 credits****230.792 Special Topic Humanities & Social Sciences 30 credits****230.793 Special Topic Humanities & Social Sciences 15 credits****230.794 Special Topic Humanities & Social Sciences 15 credits****231****Public Health****231.106 Introduction to Public Health 15 credits**

An introduction to public health principles, perspectives, stakeholders and practices that are both internationally recognisable and of local importance to New Zealand.

**231.107 Social Determinants of Health 15 credits**

This course explores the social determinants of health, the complex range of social, cultural and economic interactions that influence individual and population health and help explain health disparities amongst populations.

**231.108 Health Intervention Management 15 credits**

This course introduces a systematic and evidence-based approach to health intervention management relevant to diverse health professional practice.

**231.200 Theories and Models of Health Promotion 15 credits**

An opportunity for students to explore the theoretical foundation of community and population-based health promotion and mental health promotion. The course emphasises the application of models and theories to public health programmes and policies.

**231.306 Public Health Evaluation 15 credits**

An introduction to approaches for evaluating public health and health promotion programmes and systems change.

**231.307 Intervention Design 15 credits**

A practical exploration of approaches and tools for designing interventions in public health and health promotion.

**231.308 Health Promotion Advocacy 15 credits**

An analysis of approaches to advocacy in health promotion with a particular focus on practical facilitation, engagement and reflection.

**231.704 Hauora Māori 30 credits**

This course provides an overview and analysis of hauora Māori perspectives. Historical and contemporary contexts and challenges are used to discuss Māori approaches in public health, with reference to Māori knowledge and Māori leadership. The course focuses on developing critical consciousness for becoming advocates and champions for Māori health through Te Tiriti o Waitangi-led practice.

**231.705 Pacific Health 30 credits**

This course provides an overview and analysis of Pacific health. Topics include: Pacific concepts of health; health effects of migration, urbanisation, demographic transition and economic development on Pacific people in Aotearoa and the Pacific; Pacific health promotion models and Pacific health policies. Pacific case studies will illustrate how providers can contribute effectively to Pacific development and improved Pacific health outcomes.

**231.706 Occupational Health 30 credits**

This course provides an overview of the contribution that exposures in the occupational environment make to adverse health outcomes in the general population, and the appropriate methods of identifying and preventing occupational hazards. Topics include occupational diseases, industrial hygiene and exposure assessment, specific methods of occupational epidemiology, biological and chemical hazards, work physiology and ergonomics, exposure standards and regulatory practice.

**231.707 Environmental Health 30 credits**

Critical reviews or applied research on advanced topics in Environmental Health.

**231.725 Foundations of Public Health 15 credits**

This course presents the overarching framework, principles and core functions of public health in Aotearoa New Zealand. It utilises a multidisciplinary lens to investigate the key determinants of health status across population groups in Aotearoa New Zealand and globally. The course provides the necessary foundation for students to engage in advanced approaches essential for public health practice.

**231.726 Health Systems and Policy 15 credits**

This course uses systems thinking approaches to examine and compare the Aotearoa New Zealand health system within the international context, how it is structured and operates, and how this impacts on public health responses. Health policy and public health advocacy is examined as an instrument to enhance the health system and broader responses to major public health challenges.

**231.727 Epidemiology and Biostatistics 30 credits**

An exploration of the core principles and practice of epidemiology and biostatistics in assessing and responding to population health need. Students will learn the skills necessary to analyse and interpret data, disseminate information, and critically appraise quantitative literature. The focus of the course is on the application of epidemiology and biostatistics for policy development and decision-making across the health system.

**231.728 Public Health Practice 15 credits**

This course aims to provide students with the conceptual, analytical and strategic planning basis for effective public health practice. The course focuses on the theory and practice of designing, developing, implementing and evaluating practice. It draws upon analysis of determinants, stakeholders, Te Tiriti o Waitangi-led and community development approaches, and intervention research.

**231.729 Qualitative and Participatory Research in Public Health 15 credits**

This course provides a foundation in qualitative and participatory research methodologies, and the different approaches to knowledge that inform qualitative and participatory research. Students will develop competencies in qualitative and participatory research processes including design, data collection, analysis, dissemination, and critique of existing literature. The course foregrounds social, cultural, political and ethical considerations in the practice of public health research.

**231.730 Epidemiology and Biostatistics 1 15 credits**

Students will study the principles of epidemiology and biostatistics with an emphasis on learning the skills necessary to analyse and interpret data, disseminate information, and the critical appraisal of literature. The focus of the course is on the application of epidemiology and biostatistics for the development of policy development and decision making across the health system.

**231.731 Epidemiology and Biostatistics 2 15 credits**

Students will study the principles of epidemiology and biostatistics with an emphasis on learning the skills necessary to analyse and interpret data, disseminate information, and the critical appraisal of literature. The focus of the course is on the application of epidemiology and biostatistics for the

development of policy development and decision making across the health system.

**231.732 Physical Activity Promotion 15 credits**

This course draws on the disciplines of epidemiology, health promotion, policy analysis and exercise science to develop public health competencies specific to physical activity promotion at a population level, including knowledge of the relationship between physical activity and health, and skills in population-based physical activity assessment, determinants analysis and intervention design and evaluation.

**231.733 Big Public Health Issues 15 credits**

This course critically examines the big public health issues globally using an analytical framework and case study approach that considers burden of disease, epidemiology, determinant analysis, health and other system responses and evidence of intervention effectiveness. Issues and case studies covered include major infectious diseases, obesity, smoking, alcohol consumption, injury prevention and mental health.

**231.734 Maternal and Child Health 15 credits**

This course explores the epidemiological and health systems-based rationale for ranking maternal and child health as a global public health priority. It describes and critically assesses maternal and child health needs, interventions and the effectiveness of services and interventions in different contexts, including maternal and child health policy and advocacy efforts designed to elevate the health of these population groups at these critical life-stages.

**231.799 Research Report (30) 30 credits**

An investigation of a specific topic in public health, Māori health or Pacific health, which may include aspects of original research, problem investigation, and/or review of pre-existing data or published literature. Emphasis will be given to practical projects that arise out of the course participant's work in public health, Māori health development or Pacific health development.

**231.818 Public Health Praxis 1 30 credits**

A capstone practicum in the public health environment involving supervised and team-based work on defined and contemporary public health issues.

**231.819 Public Health Praxis 2 30 credits**

An integrative capstone practicum in the public health environment involving supervised and team-based work on defined complex contemporary public health issues.

**231.820 Public Health Thesis 90 credits**

A supervised and guided independent study designed to lead to a published work.

**231.821 Public Health Thesis 90 Pt 1 45 credits**

A supervised and guided independent study designed to lead to a published work.

**231.822 Public Health Thesis 90 Pt 2 45 credits**

A supervised and guided independent study designed to lead to a published work.

**231.895 Research Project 60 credits****231.900 PhD Public Health 120 credits****232****Ecology****232.701 Conservation Biology 30 credits**

Conservation biology involves applying theory from several branches of biology to the problem of conserving biological diversity. This course covers a range of general issues in conservation biology, including ethical and cultural issues, population and demographics and genetics, population viability analysis, and community-level conservation. It also covers several specific topics in depth, with an emphasis on New Zealand case studies.

## Zoology

**232.703 Wildlife Management** **30 credits**  
A problem-based course involving fieldwork, data analysis, and report writing. A selection of problems will be tackled each year, and all will be real problems of interest to conservation managers. The problems will involve management of wildlife in its broadest sense, meaning they may focus on plants and invertebrates as well as vertebrates, and on ecosystems as well as single species. There will be a strong emphasis on gaining experience with quantitative analytical methods.

## Ecology

**232.704 Wildlife Disease** **30 credits**  
Techniques and issues fundamental to planning and interpreting wildlife health investigations and incorporating results into species management programmes. A primary focus on issues relevant to New Zealand's fauna together with specific examples from overseas.

**232.705 Captive Breeding and Management** **30 credits**  
Nutritional, management and disease control programmes relevant to the captive breeding of New Zealand's endangered indigenous species. Problems associated with some selected species illustrating how to obtain healthy individuals for release. Para-veterinary techniques applicable to the safe handling and welfare of a variety of captive species.

**232.799 Research Report** **30 credits**

**232.870 Research Report** **60 credits**

**232.871 Thesis 90 Credit Part 1** **45 credits**  
A supervised and guided independent study resulting in a published work.

**232.872 Thesis 90 Credit Part 2** **45 credits**  
A supervised and guided independent study resulting in a published work.

**232.873 Thesis 90 Credit Part 1 (30 credits)** **30 credits**  
A supervised and guided independent study resulting in a published work.

**232.874 Thesis 90 Credit Part 2 (60 credits)** **60 credits**  
A supervised and guided independent study resulting in a published work.

**232.875 Thesis** **90 credits**  
A supervised and guided independent study resulting in a published work.

**232.897 Thesis 120 Credit Part 1** **60 credits**  
A supervised and guided independent study resulting in a published work.

**232.898 Thesis 120 Credit Part 2** **60 credits**  
A supervised and guided independent study resulting in a published work.

**232.899 Thesis** **120 credits**  
A supervised and guided independent study resulting in a published work.

**232.900 PhD Conservation Biology** **120 credits**

## 233

## Earth Science

**233.101 Introductory Earth Science** **15 credits**  
An introduction to earth materials and earth processes with special emphasis on their practical application.

**233.105 Our Dynamic Earth** **15 credits**  
An introductory course exploring the dynamics of Earth and how it changes through time, from the core to the atmosphere, plate tectonics to volcanoes, glaciers to rivers, mountains to oceans, and mass extinctions to the evolution of life. Through exploration of these processes and their interrelationships with environments and society, including natural hazards, climate change, and earth resources, students will develop their practical, problem solving, and communication skills.

**233.202 Earth Science Field Work I** **15 credits**  
A field-camp-based introduction to the skills in the principles of stratigraphy and the construction of geologic maps.

**233.203 Earth Science Field Work II** **15 credits**  
A practical field experience examining volcanological and geothermal deposits of the central North Island. Emphasis will be placed on geologic mapping in volcanic environments, tephrochronology, geothermal processes, geologic hazards and volcanic sedimentology.

**233.205 Volcanology and Mineralogy** **15 credits**  
Principles of mineral and rock formation, including physical and chemical processes in magmas and volcanic eruption products; optical petrography of minerals and rocks; ore deposits and economic geology.

**233.211 Earth Materials** **15 credits**  
This course explores the materials that make up planet Earth, and the processes integral to their genesis and distribution. The course covers the principles of stratigraphy and sedimentation, the processes and products of tectonics, and how mineralogy is key to understanding processes operating on Earth.

**233.212 Earth Surface Processes** **15 credits**  
This course explores surface processes across Earth's dynamic landscapes. Focusing on mountain, hillslope, river and coastal environments, the course investigates how and why these landscapes change over time. The course introduces methods for analysing and predicting landform change, and provides a foundation for managing geomorphic issues impacting society and the environment.

**233.213 Earth Science Fieldwork** **15 credits**  
This course provides a hands-on experience of geoscientific fieldwork, from data collection through to analysis and interpretation of these data to explain geological and geomorphological processes. Analyses and interpretations will be applied to land, resource, and hazard management issues in New Zealand.

**233.214 GIS and Spatial Statistics** **15 credits**  
Introduction to handling and analysis of digital geospatial data. Operation of GIS software, including collection, processing and understanding of data, production of maps and geospatial projection systems. Integration of spatial statistical software with GIS. Introduction to appropriate spatial statistics techniques including kernel smoothing, kriging, point processes and spatially correlated areal data.

**233.250 Understanding New Zealand Geology** **15 credits**  
The geological strata of New Zealand record a complex interaction between sedimentology, stratigraphy and structural geology. This course concentrates on the geological history of New Zealand through the principles of stratigraphy, the processes and products of sedimentation, the basics of structural geology and geological dating techniques. There is an emphasis on the applications of the techniques and methods presented, such as for volcanic hazards, earthquakes and oil and gas exploration.

**233.251 GIS and Remote Sensing** **15 credits**  
A journey of discovery in the world of geospatial information. Learn how to use Geographic Information Systems (GIS) to store, query and manipulate spatial datasets. Develop an understanding of how these data are gathered using remote sensing techniques and analysed using digital image analysis.

**233.301 Advanced Remote Sensing** **15 credits**  
Remote sensing techniques and applications for environmental sciences. Remote sensing/GIS integration. Exploiting relevant World Wide Web resources.

**233.302 Earth Science Field Work III** **15 credits**  
A field-camp in advanced geological mapping, advanced geological structures and relevant Quaternary geology.

**233.310 Pedology and Quaternary Geology** **15 credits**  
An advanced course on the application of soil properties to soil identification and soil genesis in New Zealand. Principles of the Quaternary geological development of New Zealand.

**233.311 Earth Environments Through Time** **15 credits**  
Principles and techniques for investigating and reconstructing past environments in a range of geological time frames and settings, with emphasis

on the value of such reconstructions to understand our current environment and predict what may happen in the future.

### **233.312 Natural Hazards 15 credits**

An exploration and analysis of the nature, causes, impacts, and management of natural hazards, covering earthquakes, volcanic eruptions, landslides, weather, floods and coastal hazards. How climate change and human activity influence the hazards facing society.

### **233.313 Earth Systems 15 credits**

Quantification, forecasting, visualisation and communication of geoscience system dynamics to solve a range of environmental problems. Problems explored range from environmental pollution and instability of geoengineering structures to problems posed by gravity currents, landslides, tsunamis, floods and coastline changes. Students will learn to solve these geoscience problems quantitatively using modern computational, experimental, and analytical techniques.

### **233.314 Remote Sensing and Earth Observation 15 credits**

Principles and applications of Earth observation, remote sensing and spectroscopy in earth and environmental sciences. Spatial mapping and image classification of imagery from a variety of Earth observation and airborne sensors and other observations that contribute to monitoring terrestrial environments. Students will learn how to access, interpret and utilise such satellite and airborne imagery.

### **233.350 How the Earth Works 15 credits**

The principles of plate tectonics, rock deformation, and regional and global tectonic geology.

### **233.701 Advanced Pedology 30 credits**

An advanced course in processes of soil formation, soils in the landscape, soil classification systems, techniques of description and mapping of soils, soil stratigraphy and properties of soils.

### **233.705 Volcanology and Tephrochronology 30 credits**

An advanced course investigating physical volcanology and tephrochronology, including tephra identification, tephra fingerprinting, volcanic mineralogy and geochemistry, and volcanic hazards.

### **233.706 Environmental Geographical Information Systems 30 credits**

Application of geospatial analytical techniques within the environmental sciences, with particular emphasis on cartographic modelling, data fusion, database query, decision support and image integration.

### **233.707 Environmental Remote Sensing 30 credits**

Remote sensing of the environment: techniques and applications. The course will emphasise the use of digital analysis of remotely sensed imagery and data. The integration of Geographic Information Systems (GIS), global positioning systems (GPS), digital elevation models (DEMs) and remotely sensed data will be studied in detail.

### **233.708 Geochemistry 30 credits**

A study of the Earth's geochemical systems, including igneous geochemistry and stable and radiogenic isotope systems. Absolute and relative geochronological methods are a key aspect of this course. Fundamental geochemical concepts, sample preparation, and the use of geochemical standards will be discussed. Analytical techniques of importance to geochemistry will be examined.

### **233.709 Advanced Sedimentology 30 credits**

An advanced course on the analysis of sedimentary basins and the sequences within basins.

### **233.710 Geology, Hazard & Society; Environmental Geology A 15 credits**

The Earth's finite water, soil, mineral and energy resources: engineering geology, geological hazards and hazard assessments; geohydrology and water management.

### **233.711 Applied Environmental Geology; Environmental Geology B 15 credits**

The Earth's finite water, soil, mineral and energy resources: geology in relation to plant, animal and human health, mining and the environment, artisanal and small-scale mining.

### **233.712 Environmental Geographic Information Systems 15 credits**

The application of geospatial analytical techniques within the environmental sciences is required as a key decision support tool in land management. This course will explore the way cartographic modelling, data fusion, database query, geostatistical analysis and image integration are applied to solve common environmental and resource management issues drawing on a range of software currently used in industry.

### **233.713 Environmental Remote Sensing 15 credits**

Remote sensing is the process of detecting and monitoring the Earth by measuring its reflected and emitted radiation, usually from satellites or aircraft. The course will focus on the use of digital analysis of remotely sensed imagery and data. The integration of Geographic Information Systems (GIS) and digital elevation models (DEMs) with remotely sensed data will be used to highlight practical solutions in land management.

### **233.714 Advanced Geoscience Techniques 15 credits**

Studies utilising modern Geoscience techniques require the collection and analysis of complex data and datasets. In this advanced course experience will be gained in modelling and solving complex geoscience processes through advanced geological mapping and the collection of samples and data that will be analysed using specialised equipment and methods.

### **233.715 Environmental and Geological Hazards 15 credits**

One of the biggest issues facing the developed and developing world is exposure to environmental and natural hazards. Practical solutions to recognising, managing and mitigating environmental/natural hazard, risk and disasters will be explored in this course. Advanced quantification of natural hazards and how this informs modern day risk assessment, mitigation and management will be explored.

### **233.721 Global Climate Change 15 credits**

This course provides an advanced coverage of key themes in global Quaternary climate change research, including the methods for investigating, and mechanisms which drive, Quaternary climate change. Students attend a two day short course hosted by GNS Science as part of the course requirements.

### **233.722 Advanced Quaternary Geology 15 credits**

Advanced study into the historical development and principles of the Quaternary chronostratigraphy of New Zealand. Topics include the Quaternary stratigraphy of selected regions or countries, the effects of climate change on Quaternary deposits, Quaternary tectonics and Quaternary deposits as aquifers.

### **233.799 Research Report 30 credits**

### **233.870 Research Report 60 credits**

### **233.871 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

### **233.872 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

### **233.873 Thesis 90 Credit Part 1 (30 credits) 30 credits**

A supervised and guided independent study resulting in a published work.

### **233.874 Thesis 90 Credit Part 2 (60 credits) 60 credits**

A supervised and guided independent study resulting in a published work.

### **233.875 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

### **233.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

### **233.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

### **233.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

### **233.900 PhD Earth Science 120 credits**

## 234

**Sport and Exercise Science****234.111 Training Principles and Practice 15 credits**

An introduction to the knowledge and skills necessary for the planning, implementation and evaluation of goal-oriented training.

**234.121 Functional Anatomy 15 credits**

An introduction to the structure and function of the musculoskeletal, neuromuscular and cardiopulmonary systems and their importance to health, movement and exercise.

**234.131 Introduction to Sport Development 15 credits**

An introduction to the provision of sport, fitness, and physical activity, including the roles of, and relationships between, key organisations and agencies

**234.135 Sociology of Sport and Exercise 15 credits**

An introduction to sociological concepts, principles and theories as applied to sport and exercise.

**Physical Education and Health****234.140 Introduction to Physical Education 15 credits**

An introduction to health and physical education through the exploration of a range of teaching models, management techniques, contemporary issues, and diversity with consideration to the Treaty of Waitangi relevant to undergraduate students.

**234.141 Introduction to Human Movement and Hauora 15 credits**

An introduction to human movement (Te Ao Kori) and its application to the concept of Hauora (holistic health and well-being).

**Health Sciences****234.213 Fitness Assessment 15 credits**

A practical application of fitness assessment methods for healthy individuals.

**Sport and Exercise Science****234.214 Exercise Prescription 15 credits**

A study of prescribing exercise and physical activity for the general population.

**234.215 Fitness and Athletic Conditioning 15 credits**

This course provides an understanding of various exercise techniques and methods to developing fitness and conditioning programmes for the athletic population.

**234.216 Sport and Community Development 15 credits**

This course explores the different meanings and objectives of sport development and the variety of contexts and settings in which it takes place. Particular focus is placed on the role of sport in the community, including sport/health initiatives, policy implications, the use of sport for social, economic, and urban development, and the key skills required for grant-writing and funding applications.

**234.222 Sport Biomechanics 15 credits**

An introduction to the study of the kinematics and dynamics of the human body and the factors that influence skilful and efficient performance of bodily movements in sport and everyday life. Students will be introduced to the techniques and methods required for qualitative analysis of complex skills.

**234.223 Exercise Physiology 15 credits**

A study of the function of human biological systems as they relate to sport and exercise. Acute responses and the chronic adaptations to sport and exercise, specifically in relation to the core topics of human energetics, muscular, cardiovascular and respiratory systems. A strong laboratory focus will reinforce the theory and develop laboratory skills relevant to exercise physiology.

**234.236 Applied Sport Coaching 15 credits**

This course examines aspects of contemporary sport coaching through concepts of long-term athletic development and youth sport.

**234.242 Motor Learning and Control 15 credits**

Students will study the principles and theories of motor control and their practical applications.

**234.243 Sport Pedagogy 15 credits**

A critical examination that extends students' knowledge of the skills and methodologies relating to the learning and instruction of a range of physical activities and sports within educational contexts.

**234.312 Advanced Exercise Prescription and Therapy 15 credits**

This course gives an in-depth knowledge of the role of exercise in rehabilitation. Students will be able to develop and implement exercise programmes to assist with recovery from musculo-skeletal injury and various disease states, and to influence indicators of psychological health.

**234.322 Sport Biomechanics II 15 credits**

An in-depth study of the kinematics and dynamics of the human body and the factors that influence skilful and efficient performance of bodily movements in sport and everyday life. This course will provide students with advanced techniques and methods required to undertake quantitative analysis of complex skills.

**234.323 Exercise Physiology II 15 credits**

An examination of physiological mechanisms relevant to the limits of human sport and exercise performance, and how these change at different stages of the life-cycle and with impaired health. The adaptation and co-ordination of these mechanisms in acute and chronic exercise, and how these can be modulated by training and with the use of ergogenic aids.

**234.324 Applied Sports Science 15 credits**

An integration of sports biomechanics, physiology and psychology designed to provide a broader understanding of elements that contribute to human sporting performance.

**234.327 Investigating Sports Performance 15 credits**

An investigation into the techniques used in training, testing and research in exercise and sport. Students progress by gaining instruction in selected techniques under supervision. Major components of the course will be group projects of the student's own selection and making written and oral presentations. Project supervision will be available.

**Management****234.331 Sport and Physical Activity in the Social Context 15 credits**

An examination of the social, cultural, political, economic and educational contexts of sport and physical activity.

**Sport and Exercise Science****234.338 Sport and Exercise Practicum 30 credits**

The practicum is designed to provide practical experience in sport and exercise areas according to individual interests and experience. Students may choose to undertake a practicum in areas including, but not limited to, sport event management, sport coaching, sport coordination, sport performance, exercise prescription and athlete conditioning.

**234.343 Sport Pedagogy II 15 credits**

This course examines the principles and practices associated with effective sport pedagogy especially as it is applied to the delivery of game instruction in school and sport contexts.

**Physical Education and Health****234.346 Te Ao Kori and Health Promotion 15 credits**

Explores the development of physical activity and health promotion initiatives in school, workplace and community settings, and the practices of Te Ao Kori (The World of Movement).

**Management****234.360 Sport Psychology 15 credits**

This course examines theory, research and practice in aspects of sport psychology.

## Sport and Exercise Science

### 234.361 Exercise Psychology 15 credits

An examination of the association between psychological factors and participation in exercise and physical activity, and, in turn, how such participation affects personal functioning, health and well-being.

### 234.724 Research Seminar in Sport and Exercise 15 credits

Through student and staff presentation and discussion, this course will acquaint students with selected research topics, conducting and disseminating research in this field, and preparation for research endeavours at the postgraduate level.

### 234.725 Athletic Conditioning 30 credits

An advanced focus on physical conditioning as it pertains to athlete performance, with an emphasis on research-led and evidence-based practice.

### 234.726 Exercise and Sport Science 30 credits

An advanced, research-led focus on human physiology, motor control, and biomechanics as it relates to the integrative science underpinning sport and exercise.

### 234.727 Physical Activity for Compromised Health 30 credits

An advanced, integrative focus on physical activity and its impact on compromised health, with particular reference to examining disease aetiology, and the assessment, monitoring and prescription of exercise for a range of non-communicable diseases (e.g. cardiorespiratory, metabolic, musculoskeletal, cancer).

### 234.731 Advanced Sport in the Social Context 30 credits

An advanced examination of the meaning and role(s) of sport and leisure in contemporary society with particular reference to selected topical issues and the implications that these have on the organisation and management of sport.

## Management

### 234.732 Advanced Sport Management 30 credits

An examination of contemporary sport and recreation management practice in New Zealand and overseas.

## Sport and Exercise Science

### 234.736 Advanced Sport Coaching 30 credits

This course offers an advanced examination of contemporary issues and topics related to sport coaching.

### 234.799 Research Report 30 credits

### 234.832 Professional Practice in Sport Management 60 credits

A comprehensive examination of the professional issues that impact on the practice of sport management. Professional leadership and interrelationships may be analysed using a case-study based approach. The focus is on the development of the knowledge and skills required by the sport management professional in practice.

### 234.860 Professional Project 60 credits

Professional practice within the subject area that may be conducted individually or in groups and assessment of the outcome of the investigation may be in a variety of ways including written and oral presentations and case studies.

### 234.870 Research Report 60 credits

### 234.871 Thesis 90 Credit Part 1 45 credits

A supervised and guided independent study resulting in a published work

### 234.872 Thesis 90 Credit Part 2 45 credits

A supervised and guided independent study resulting in a published work.

### 234.891 Thesis 90 Credit Part 1 45 credits

A supervised and guided independent study resulting in a published work.

### 234.892 Thesis 90 Credit Part 2 45 credits

A supervised and guided independent study resulting in a published work.

### 234.897 Thesis 120 Credit Part 1 60 credits

A supervised and guided independent study resulting in a published work.

### 234.898 Thesis 120 Credit Part 2 60 credits

A supervised and guided independent study resulting in a published work.

### 234.900 PhD Sport & Exercise Science 120 credits

## 235

## Māori Resource and Environmental Management

### 235.211 Māori Agribusiness Systems 15 credits

An introduction to Māori agribusiness systems including the values, science and business processes aligned to these. Particular emphasis will be placed on the concepts of land and resource utility, kaitiakitanga and the relationship of these kaupapa Māori based systems to the present day. These systems will be discussed in context with Te Tiriti o Waitangi and present day legislation.

### 235.311 Māori Policy and Agribusiness 15 credits

This course examines the key issues and practice of Māori agribusiness policy. The roles and responsibilities of policy agencies in relation to Māori policy, research and development, implementation and monitoring relative to agribusiness are considered. Alternative policy approaches to achieving Māori driven outcomes are examined and presented. These processes will be discussed in context with Te Tiriti o Waitangi and natural resource management.

### 235.312 Case Studies in Māori Agribusiness 15 credits

This course explores Māori agribusiness through a series of case studies in the field with an emphasis on the temporal understanding of Māori agribusiness. Each case study has an emphasis on analysis and decision making and is applied to a range of Māori agribusinesses.

### 235.701 Māori Values and Resource Management 15 credits

In this applied course students will learn about Māori concepts and values associated with the management of natural resources. Students will gain an appreciation of the importance of indigenous values, and in particular Māori values and management approaches to sustainable resource management. Case studies will be undertaken to develop skills in the management of natural resources.

### 235.702 Māori Resource and Environmental Management - Whenua 15 credits

This course offers the opportunity for postgraduate students to learn and apply Māori concepts, values and science processes to the management of whenua or land and whenua sustainability. These values will be discussed in context with Te Tiriti o Waitangi and present day legislation. Case studies will be undertaken to develop skills in the management of Māori whenua or land resources.

### 235.703 Māori Resource and Environmental Management - Fresh Water 15 credits

A course that offers the opportunity for postgraduate students to learn about the Māori concepts, values and science processes associated with the management of fresh water. Particular emphasis is placed on the importance of Māori values as they apply to sustainable fresh water management. These values will be discussed in context with Te Tiriti o Waitangi and present day legislation. Case studies will be undertaken to develop skills in the management of Māori fresh water resources.

### 235.704 Māori Resource and Environmental Management - Flora and Fauna 15 credits

This course offers the opportunity for postgraduate students to learn about the Māori concepts, values and science processes associated with the management of native flora and fauna. Particular emphasis is placed on the importance of Māori values and practices as they apply to sustainable management of native flora and fauna resources. These values will be discussed in context with Te Tiriti o Waitangi and present day legislation. Case studies will be undertaken to develop skills in the Māori component of management of native flora and fauna.

### 235.705 Māori Resource and Environmental Management - Foreshore and Oceans 15 credits

A course that offers the opportunity for postgraduate students to learn about the Māori concepts, values and science processes associated with the management of the foreshore and ocean resources. Particular emphasis is placed on the importance of Māori values and practices as they apply to

sustainable management of foreshore and ocean resources. These values will be discussed in context with Te Tiriti o Waitangi and present day legislation. Case studies will be undertaken to develop skills in the Māori component of management of foreshore and ocean resources.

### **235.706 Maara kai - Traditional and Contemporary Māori Food Production** **15 credits**

A course that offers the opportunity for postgraduate students to learn about traditional and contemporary Māori food production including the values and science processes aligned to this activity. Particular emphasis will be placed on the concepts of land and crop management systems, kaitiakitanga and the relationship of these kaupapa Māori based systems to the present day. These systems will be discussed in context with Te Tiriti o Waitangi and present day legislation.

### **235.707 Māori Natural Resource Policy** **30 credits**

This course examines the key issues and practice of Māori resources policy. The roles and responsibilities of policy agencies in relation to Māori resources policy research, development, implementation and monitoring are considered. Alternative policy approaches to achieving Māori and natural resource management outcomes are examined through selected case studies. These processes will be discussed in context with Te Tiriti o Waitangi.

## 236

### **Nanoscience**

#### **236.201 Nanoscience** **15 credits**

A study of the interdisciplinary field of nanoscience with examination of contemporary theories, topics and issues.

#### **236.301 Advanced Nanoscience** **15 credits**

Investigation of nanoscale systems and materials using principles of physical chemistry and quantum mechanics. Advanced techniques for characterising nanoscale materials are discussed. A project-based laboratory course reinforces taught concepts.

#### **236.798 Research Report** **30 credits**

#### **236.870 Research Report** **60 credits**

#### **236.871 Thesis 90 Credit Part 1** **45 credits**

A supervised and guided independent study resulting in a published work.

#### **236.872 Thesis 90 Credit Part 2** **45 credits**

A supervised and guided independent study resulting in a published work.

#### **236.875 Thesis** **90 credits**

A supervised and guided independent study resulting in a published work.

#### **236.897 Thesis 120 Credit Part 1** **60 credits**

A supervised and guided independent study resulting in a published work.

#### **236.898 Thesis 120 Credit Part 2** **60 credits**

A supervised and guided independent study resulting in a published work.

#### **236.899 Thesis** **120 credits**

A supervised and guided independent study resulting in a published work.

#### **236.900 PhD Nanoscience** **120 credits**

## 237

### **Visual and Material Culture**

#### **237.117 Māori Art and Design Studio I - Toi Atea** **15 credits**

An introduction to the development of personal forms of expression through an engagement with the values, concepts, traditions, art/design forms and structures of the whare whakairo.

#### **237.130 Communication for Makers** **15 credits**

This course introduces students to academic writing and oral communication skills in the creative arts with a focus on stylistic characteristics and critical

thinking. The course is underpinned by a basic overview of historical epochs from the 18th century to the present day.

#### **237.131 Conversations in Creative Cultures** **15 credits**

This course introduces students to the concept of world views, to key issues and debates concerning cultural identity in Aotearoa New Zealand and their implications for creative practices.

#### **237.211 Māori Visual and Material Culture - Toi Atea** **15 credits**

An exploration of the conventions and values that underpin Māori visual and material culture. Emphasis is given to identifying the major art forms and the key continuities and changes that characterise development from customary to contemporary practice.

#### **237.217 Māori Art and Design Studio IIA - Toi Atea** **15 credits**

The development of individual work that grows out of the investigation of a select range of Māori concepts, art forms, imagery, values and approaches that reflect a Māori world view.

#### **237.218 Māori Art and Design Studio IIB - Toi Atea** **15 credits**

Further development of individual work that grows out of the investigation of a select range of Māori concepts, art forms, imagery, values and approaches that reflect a Māori world view.

#### **237.230 Creative Cultures & Contexts I** **15 credits**

This course introduces students to histories of design and art to develop a critical appreciation of change and context. It will include the analysis of selected visual and material cultural practices in a series of theme based modules that explore the origins and impacts of consumerism, globalisation, sustainability.

#### **237.231 Creative Cultures & Contexts II** **15 credits**

In this course students will explore and discover a broad range of critical perspectives relevant to the creative arts. They will select from a series of thematic modules, designed to prompt further consideration and questioning of creative practices.

#### **237.317 Māori Art and Design Studio IIIA - Toi Atea** **15 credits**

Developing visual responses to the exploration of issues (social, political, environmental, global) significant to Māori people and their communities.

#### **237.318 Māori Art and Design Studio IIIB - Toi Atea** **15 credits**

Further development of a range of visual responses to issues (social, political, environmental, global) of significance to Māori people and their communities.

#### **237.330 Creative Cultures & Ideas** **15 credits**

In this course students will explore and appraise a range of ideas that support the critical positioning of creative practices. The selected ideas will be explored through interdisciplinary engagement.

#### **237.331 Creative Cultures & Display** **15 credits**

In this course students will critically engage with a range of curatorial concepts in order to investigate modes of representation, collection, archiving, display and distribution. The course will overview key historical developments in 19th, 20th, and 21st century museum practices and examine selected cultural and ethical concerns for both community and institutional contexts.

#### **237.401 The Material Turn** **15 credits**

Students will apply selected theories from the fields of material culture studies in Aotearoa New Zealand and internationally to inform and evaluate understandings of creative practices.

#### **237.402 The Visual Field** **15 credits**

Students will apply selected theories from visual culture studies in Aotearoa New Zealand and internationally to inform and evaluate understandings of creative practices.

#### **237.403 Studies in Material Culture B** **15 credits**

A variety of case studies which include materiality as cultural process, material culture and remembering, and the reification of domestic everyday life.

#### **237.404 Studies in Visual Culture B** **15 credits**

A series of case studies which examine the shift from art history and film studies to contemporary visual culture.

**237.417 Māori Art and Design Studio IV - Toi Atea 30 credits**

An advanced course to focus and refine visual language and personal tikanga through negotiated projects that explore topics of direct reference to Māori people and their communities.

**237.465 Creative Exposition 15 credits**

In this course students will situate their creative practice through writing. They will extend and hone their critical, analytical and reflective skills through written exposition that focuses on projecting themselves and their practice externally. This advanced programme of study will encourage discussion on diverse approaches to creative research exposition and its relevance for a range of academic and/or professional contexts.

**237.701 Studies in Material Culture 30 credits**

A critical consideration of major theories in the field of material culture studies and how these inform research approaches and findings in Aotearoa New Zealand and internationally. After an initial survey of the historical development of the field, these theories will be explored through a variety of case studies which may include materiality as cultural process, material culture and remembering, and material culture and the domestic.

**237.702 Studies in Visual Culture 30 credits**

A survey of major theories about and current approaches to the social construction of visual experience in Aotearoa New Zealand and internationally. After considering the shift from art history and film studies to visual culture, these theories will be explored through a series of topics which may include practices of looking, cultural history and visuality, the photographic image, painting and visual culture, and popular visual culture.

**237.791 Special Topic 30 credits****237.799 Research Report 30 credits**

This course consists of an individually supervised piece of work to provide training in research and writing for a thesis. It provides the opportunity for critical examination of a topic, issue or problem within the fields of visual and material culture studies. An initial module of research training is followed by the completion of the independent research project.

**237.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**237.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**237.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**237.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**237.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**237.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**237.900 PhD Visual & Material Culture 120 credits****238****Agriscience****238.700 Life Cycle Assessment (LCA) and Footprinting Principles 15 credits**

The concept of life cycle thinking and its application to support decision-making for product systems. The course will provide an overview of the principles and methodology for Life Cycle Assessment (LCA) according to the ISO 14040 and 14044 standards, and introduce related environmental footprinting approaches (carbon and water footprinting).

**238.710 Life Cycle Assessment and Footprinting Methods 15 credits**

The practical application and critical evaluation of current methods and assumptions of Lifecycle Analysis and Footprinting particularly with respect to public policy and agri-food, fibre and forestry systems. Use of specialised

software applications to improve understanding and demonstrate operational competency.

**238.711 Life Cycle Assessment and Footprinting Case Studies 15 credits**

Case studies, selected to meet learner requirements, are used to examine the philosophical, methodological and empirical issues in LCA and Footprinting across different scales (e.g. product, company, city or country), contexts (e.g. , supply chain management, product design, eco-certification, urban planning and public policy evaluation) and sectors (e.g. dairy, energy, fibre, forestry, horticulture, manufacturing, meat, or tourism).

**238.712 Use of Life Cycle Assessment to Support Decision-Making 15 credits**

An advanced examination of quantitative and qualitative issues in Life Cycle Assessment and Footprinting.

**238.751 Agricultural Greenhouse Gas Emission Science 15 credits**

The contribution by agro-ecosystems to greenhouse gas (GHG) emissions at both a national and global scale. Process-based consideration of the distinctive features of the carbon and nitrogen biogeochemical cycles in New Zealand's pastoral, arable, horticulture and forest systems. The influences of key factors regulating the source/sink strengths of the land use and land managements systems.

**238.798 Research Report 30 credits****238.885 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**238.886 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**238.887 Research Report 60 credits****238.888 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**238.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**238.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**238.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**239****Agricommerce****239.373 AgriCommerce Capstone 15 credits**

An integrative course designed to capture the breadth of knowledge gained in the degree and utilise the value of teams in addressing international food and agribusiness challenges to New Zealand industries. Emphasis will be placed on the application of knowledge to understand and analyse international environments and identify sustainable, competitive export strategies for an agribusiness firm.

**239.391 Special Topic 15 credits****239.885 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**239.886 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**239.887 Research Report 60 credits****239.888 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**239.889 Thesis 90 Credit Part 1 (30 credits) 30 credits**

A supervised and guided independent study resulting in a published work.

**239.890 Thesis 90 Credit Part 2 (60 credits) 60 credits**

A supervised and guided independent study resulting in a published work.

**239.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**239.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**239.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**240****Logistics and Supply Chain Management****240.260 Logistics and Supply Chain Fundamentals 15 credits**

A study of logistics and supply chain management fundamental concepts. The supply chain management paradigm that underpins modern business is fully explored with a specific focus on customer service, forecasting, process integration, relationship management, and performance measurement.

**240.262 Transportation Systems 15 credits**

This course studies transportation systems with an emphasis on international intermodal transportation. The economic and operating characteristics of differing transportation systems will be examined, along with costs and regulations of transportation services and the role of information technology on transportation systems.

**240.263 Logistics Operations 15 credits**

A study of the role and structure of integrated logistics systems, including performance measurement and the application of information technology. Fundamental operational trade-offs are explored in relation to inventory, warehousing and capacity utilisation.

**240.362 Supply Chain Trends and Applications 15 credits**

A study of the impact of current industry trends on how businesses can engineer and operate their logistics and supply chains to create greater value for the organisation.

**240.363 Supply Chain Integration 30 credits**

A study of the functioning of modern supply chains, their design, coordination, management and the crucial role of collaboration. Focus will be placed on inter-organisational integration and internal process alignment.

**240.364 Purchasing and Supply Management 15 credits**

A study of the scope of purchasing and procurement and the principles, structures and key variables of supply management.

**240.365 Demand Chain Management 15 credits**

A study of distribution management concepts and strategy together with an exploration of demand chains. Methods to align supply chain strategies with market drivers are examined. A range of distribution channel approaches are also discussed in regard to alternative customer demands.

**240.366 Global Logistics 15 credits**

A study of international logistics and its role in modern supply chains. Focus will be placed on international trade routes and global partnerships. Both the strategic effects of international free-trade agreements and operational level import/export processes will be explored in relation to international logistical flows.

**240.752 Integrated Logistics 30 credits**

Logistics is a foundation block within any successful business. Unless an organization can manage and coordinate in an integrated manner the movement of materials, information and cash through its business, and those of partner organisations, it is unlikely to outperform its competitors.

**240.753 Supply Chain Analytics 15 credits**

Determining information required for management of the supply chain. Includes a systems dynamics view of production management, process improvement methodologies, supply chain measurements and analysis.

**240.755 Executive Supply Chain Management 30 credits**

The operational disciplines of the successful organisation are responsible for developing and managing its response to market opportunities and supply chain management is the key to a successful response. This course looks at the role supply chain management has in supporting organisations to create value within supply nets, webs and chains through the relationships created downstream with customers and upstream with suppliers.

**240.756 Value Chain Management 15 credits**

Value chains are explored through a supply chain operations management lens. Value chain networks are examined in the context of supply chain collaboration and coordination. The purpose is to provide students with the core principles of value creation and management, and to introduce them to supply chain analytical approaches to facilitate business decision making.

**240.757 Humanitarian Logistics 15 credits**

Students will analyse the logistics of humanitarian aid projects in zones of conflict and relief assistance in natural disaster areas, from rapid assessment missions to the management of international supply chains for humanitarian aid. Case studies of integrated logistics management procedures during historical and ongoing emergency operations, as well as future trends in humanitarian logistics will also be addressed.

**240.758 Research Methods and Skills 30 credits**

The scientific method will be explored through discussion of alternative research methodologies and the capabilities required to conduct academic research. The course has two interrelated goals; to develop postgraduate study skills and to prepare to undertake a quality or supply chain management research project. Students will develop the skills to synthesise literature, design research processes and structure a research report. During the course students will decide to focus on either a practical application or a more theoretical research project.

**240.759 Integrated Logistics 15 credits**

Logistics is a foundation block within any successful business. Unless an organisation can manage and coordinate in an integrated manner the movement of materials, information and cash through its business, and those of partner organisations, it is unlikely to outperform its competitors.

**240.887 Research Report 60 credits**

An empirical supply chain management research investigation. During this course students will develop intellectual independence by conducting supply chain research. Supervision will be provided to guide students, however, the responsibility for framing and conducting the investigation will be the student's alone. Students will develop the skills to articulate, analyse and evaluate their research findings.

**240.888 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**240.895 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**240.896 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**240.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**240.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**240.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**240.900 PhD Logistics and Supply Chain Management 120 credits****241****Chinese****241.101 Chinese 1A 15 credits**

The course provides the students with a basic proficiency in Putonghua (Mandarin Chinese). Upon successful completion of this course, students

## Japanese

**242.101 Japanese 1A 15 credits**

This course provides students with introductory level proficiency in Japanese listening, speaking, reading and writing skills. Students learn romanised script, the two phonetic scripts (hiragana and katakana) and approximately 60 Japanese characters (kanji), as well as basic sentence structures and vocabulary useful for everyday life in Japan.

**242.102 Japanese 1B 15 credits**

This course builds on the introductory level proficiency in Japanese established in 242.101 Japanese 1A developing further basic competence in Japanese listening, speaking, reading and writing skills. An additional 87 kanji are learnt. An increased range of sentence structures and vocabulary useful for everyday situations and interactions in Japan are introduced.

**242.103 Introduction to Japanese Culture 15 credits**

An overview of the cultural development of Japan from early times to the present.

**242.201 Japanese 2A 15 credits**

This course provides students with a pre-intermediate level of reading, writing, listening and speaking proficiency in Japanese building on skills established in prior study. Student will use a range of written and oral exercises to practise new grammatical structures, vocabulary and approximately 80 new kanji, and will acquire the tools to discuss topics of relevance to themselves and Japanese culture and society at an appropriate level.

**242.202 Japanese 2B 15 credits**

This course further develops students' reading, writing, listening and speaking proficiency in Japanese at pre-intermediate level, extending skills gained in 242.201 Japanese 2A. Student will continue to use a range of written and oral exercises to practise new grammatical structures, vocabulary and approximately 100 new kanji, and will improve their ability to discuss topics of relevance to themselves and Japanese culture and society at an appropriate level. The use of respect language (keigo) will also be introduced.

**242.205 Japanese Cinema 15 credits**

This course will introduce Japanese cinema in English translation as an art form that strongly reflects its culture. Traditional samurai films, contemporary social problem films and animations are used to explore how films address issues of modernity and national identity. No previous knowledge of Japanese language, history, or culture is required.

**242.301 Japanese 3A 15 credits**

This course provides students with a pre-advanced level of reading, writing, listening and speaking proficiency in Japanese building on skills established in prior study. Students will continue to extend and refine their ability in Japanese through using a range of exercises practising more advanced vocabulary and idioms, grammatical structures, respect language (keigo) and approximately 244 new kanji. Students will be expected to develop comprehension and communication skills to deal confidently and accurately with various situations.

**242.302 Japanese 3B 15 credits**

This course further extends students' Japanese proficiency in reading, writing, listening and speaking to advanced level, building on skills established in 242.301 Japanese 3A. Students will continue to further extend and refine their ability in Japanese through practising an increased range of vocabulary and idioms, grammatical structures, respect language (keigo) and approximately 208 new kanji. Students will be expected to develop their comprehension and communication skills for confident and accurate use in more varied situations.

**242.304 Reading and Writing about Current Japan 15 credits**

Selected issues of contemporary Japanese society will be studied through the medium of texts in the Japanese language. Further development of Japanese skills in reading and writing.

**242.305 Readings in Modern Japanese Literature 15 credits**

A study of selected extracts in the original Japanese from the work of major modern writers.

will have acquired the phonetics, knowledge of a set of characters, and the vocabulary and basic sentence constructions.

**241.102 Chinese 1B 15 credits**

The course builds on the proficiency in Putonghua (Mandarin) that is developed in 241.101 Chinese 1A. Upon successful completion of this course, students will have acquired the phonetics, a further set of characters and vocabulary, and more complex sentence constructions.

**241.103 Ancient Chinese World pre-republic (1912) 15 credits**

A course of Chinese history, philosophy, literature and arts before 1912.

**241.107 China under Transformation: Economy, Society and Diplomacy 15 credits**

An introduction to the multifaceted nature of China's recent transformation from economic, societal, political and diplomatic perspectives.

**241.201 Chinese 2A 15 credits**

Provides students with intermediate level of proficiency in Putonghua (Mandarin), building on skills in reading, writing, listening and speaking. Intermediate level structures, vocabulary and characters are reinforced through oral and written exercises. Students acquire the tools appropriate to this level to discuss topics relevant to themselves and to Chinese culture and society.

**241.202 Chinese 2B 15 credits**

Aims to further develop intermediate level proficiency in Putonghua (Mandarin), building on skills in reading, writing, listening and speaking. Entails a further set of intermediate level structures, vocabulary and characters that are reinforced through oral and written exercises. Students discuss topics appropriate to this level and that are relevant to themselves and to Chinese culture and society.

**241.207 Chinese Diaspora 15 credits**

This course will examine the emergence and transformation of Chinese international migration in the global context of China's interactions with the outside world and diaspora's changing patterns of political, social and cultural adaptations in various regions in the world.

**241.208 Contemporary Chinese Society in Literature and Film 15 credits**

An integrated account of social and historical developments of contemporary China (from 1912 to the early 1990s) through a study of selected literary texts and films. No knowledge of Chinese is required.

**241.301 Chinese 3A 15 credits**

Provides students with pre-advanced level proficiency in Putonghua (Mandarin), building on skills in reading, writing, listening and speaking. Pre-advanced level structures, vocabulary and characters extend and refine linguistic capabilities through oral and written exercises, and students will acquire comprehension and communication skills to deal confidently and accurately with various situations.

**241.302 Chinese 3B 15 credits**

Provides students with advanced level proficiency in Putonghua (Mandarin), building on skills in reading, writing, listening and speaking. Advanced level structures, vocabulary and characters extend and refine linguistic capabilities through oral and written exercises, and students will acquire greater comprehension and communication skills to deal confidently and accurately with various situations.

**241.304 Contrastive Study of Chinese and English 15 credits**

A systematic study of Chinese grammar based on contrastive analysis as an approach to develop communicative skills through increased language awareness. Topics include basic concepts, sentence structure, special verbal constructions, tense and aspect, and complements.

**241.305 Translation from and into Chinese 15 credits**

An advanced introduction to the theory and practice of translation from and into Chinese, with an emphasis on the development and application of written translation skills.

**241.395 Individual Research Project in Chinese Studies 15 credits**

An advanced-level research project on an approved topic about Chinese language, literature, history, politics or other cultural aspect.

**241.900 PhD Chinese Studies 120 credits**

## 243

## French

**243.101 Introductory French Language I 15 credits**

A communicative approach to developing skills in spoken and written French, including vocabulary acquisition, grammatical competency, reading and listening comprehension, and oral practice.

**243.102 Introductory French Language II 15 credits**

For students with beginners level of French. Extending skills in spoken and written French, including vocabulary acquisition, grammatical competency, reading and listening comprehension, and oral practice.

**243.201 Intermediate French Language I 15 credits**

An intermediate-level review of written and spoken French, further developing skills in vocabulary, grammar, composition, comprehension, and oral communication.

**243.202 Intermediate French Language II 15 credits**

For students with intermediate level of French. An Autonomous level review of written and spoken French, further developing skills in vocabulary, grammar, composition, comprehension, and oral communication.

**243.301 Advanced French Language 15 credits**

For students with an autonomous level of oral and written French. An advanced-level course in French to further develop written and oral comprehension, expression and analysis, based on contemporary texts and recordings.

**243.304 Contemporary French Popular Culture 15 credits**

For students with Advanced level of French. Practical study of contemporary examples of French popular language and culture in a range of fields. An Advanced level review of written and spoken French, further developing skills in vocabulary, grammar, composition, comprehension and oral communication.

## 245

## Spanish

**245.101 Introductory Spanish Language I 15 credits**

An introduction to basic communication skills in spoken and written Spanish. Aspects of contemporary Hispanic culture and society are also studied.

**245.102 Introductory Spanish Language II 15 credits**

An extension of basic communication skills in spoken and written Spanish. Aspects of contemporary Hispanic culture and society are also studied.

**245.103 Hispanic Culture and Heritage 15 credits**

An introduction to significant aspects of modern Hispanic history, literature, art and culture in Spain and the Spanish-speaking world. No prior knowledge of Spanish is required.

**245.201 Intermediate Spanish Language I 15 credits**

Intermediate level written and oral comprehension and communication skills in Spanish, providing a broad linguistic base for the study of Spanish and Latin American culture, literature and civilisation.

**245.202 Intermediate Spanish Language II 15 credits**

An extension of intermediate skills in reading, free composition, listening comprehension and oral communication to illustrate aspects of contemporary Spanish and Latin American culture and society.

**245.203 The Sound of Spanish: Diction, Dialects and Diversity 15 credits**

An introduction to socio-linguistic aspects of the use of Spanish around the world, including dialectal variations and bilingualism, through a study of basic Spanish phonetics and phonology.

**245.204 Latin American Voices 15 credits**

An introduction to 20th century Latin American literature and its historical and political contexts through short literary works in Spanish.

**245.301 Advanced Spanish Language 15 credits**

Advanced level skills in reading, free composition, listening comprehension and oral communication in Spanish, illustrating aspects of contemporary Spanish and Latin American culture and society.

**245.302 Theory and Practice of Spanish Translation 15 credits**

An advanced introduction to the theory and practice of translation from and into Spanish and the role and responsibility of the translator.

**245.303 Latin American Rhythms and Politics: From Tango to Rock 15 credits**

Study of representative twentieth century Latin American music styles and their links to key social and political events that have shaped Latin American history. This course will be taught in Spanish.

**245.304 Travellers' Tales: the Invention of Latin America 15 credits**

An exploration of how Latin American people, landscapes and cultures have been defined through the writings of European, North American, Australasian and Latin American travellers. This course will be taught in Spanish.

**245.305 Spanish Conversation on Film 15 credits**

An advanced study of contemporary Latin American cinema within the context of current socio-political debates.

**245.700 Advanced Spanish Communication 30 credits**

Advanced development of Spanish written and oral comprehension, expression and analysis based on contemporary print, audiovisual and online materials.

**245.701 Latin American Cultural Identities 30 credits**

Study of cultural productions from Latin American countries in order to explore the construction of various cultural identities in different historical and geographical contexts within Spanish-speaking America.

**245.702 Hispanic Postcolonial Representations 30 credits**

Study of a diversity of literary and cultural discourses that exemplify the legacy and impact of and response to the various colonial and neo-colonial encounters that have characterised the Spanish-speaking cultures in different regions worldwide.

**245.798 Research Report 30 credits**

A supervised and guided independent study resulting in a final Report.

**245.799 Research Report Spanish (60) 60 credits****245.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study presented in a form suitable for publication.

**245.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study presented in a form suitable for publication.

**245.881 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study presented in a form suitable for publication.

**245.882 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study presented in a form suitable for publication.

**245.883 Thesis 90 credits**

A supervised and guided independent study presented in a form suitable for publication.

**245.899 Thesis 120 credits**

A supervised and guided independent study presented in a form suitable for publication.

## Natural Sciences

### 246.101 Science and Sustainability 15 credits

This course examines the major scientific issues behind our understanding of sustainability including: biodiversity, population, food and water resources, energy, climate change, and policy-making. Learning will be achieved through lectures, class discussions and enquiry-based group projects.

### 246.102 Core Skills for Natural Scientists 15 credits

This course introduces the sociology of science and develops the fundamental tools necessary for undertaking scientific inquiry and disseminating the scientific knowledge and understanding gained from these inquiries.

### 246.201 Systems and Models in the Natural Sciences 30 credits

This course integrates the scientific concepts of Systems and Models into the study of the Natural Sciences. Critical analyses of these concepts are used to enhance the students' understanding and development of the fundamental tools required for undertaking scientific inquiry.

## Genetics

### 246.202 Bacteriophage Discovery 15 credits

A course in which students will participate in a "hunt" for new bacteriophages - viruses that target and destroy specific strains of bacteria. Students in this course will isolate, name, purify DNA from, and characterise the bacteriophage that they discover, while practising scientific skills such as critical thinking and experimental design. This course is part of the Howard Hughes Medical Institute's Science Education Alliance Phage Hunters Advancing Genomics & Evolutionary Science (SEA-PHAGES) programme. Students will learn about this aspect of the microbial world while building practical laboratory skills. In addition, students in this course will personally and publicly hone their written and oral communication skills.

## Natural Sciences

### 246.301 Special Topic in Natural Sciences 15 credits

In this course students will undertake in-depth investigations into aspects of one area within the Natural Sciences. Topics will be chosen by the students in consultation with the staff members who are facilitating the learning.

### 246.302 Research Themes in Natural Sciences 30 credits

This course integrates the scientific concepts of Scale and of Constancy & Change into the study of the Natural Sciences. Critical analyses of these concepts are used to enhance the students understanding and development of the fundamental tools required for undertaking scientific inquiry. Topics will be chosen by the students in consultation with the staff members who are facilitating the learning.

### 246.303 Systems and Models in the Natural Sciences 15 credits

This course integrates the scientific concepts of Systems and Models, including mathematical, computational and biological models, into the study of the Natural Sciences. Critical analyses of these concepts are used to enhance the students' understanding and development of the fundamental tools required for undertaking scientific inquiry.

### 246.700 Advanced Research Themes In Natural Sciences 30 credits

Students will critically examine and evaluate a selection of scientific concepts and theories, within the Natural Sciences, which integrate aspects of Systems, of Scale and of Constancy & Change from across the Natural Sciences.

## College of Sciences Courses

### 247.004 Foundation Biological Sciences 15 credits

An introduction to cells as the unit of life, evolution as biology's unifying theme, DNA and molecular genetics; the diversity of life, and organisms and their environment.

### 247.005 Foundation Mathematics A 15 credits

An introductory course designed to increase understanding and application of basic mathematics and statistics concepts and skills.

### 247.006 Foundation Mathematics B 15 credits

An introductory course designed to increase understanding and application of fundamental concepts and skills in mathematics, statistics and geometry. Students are prepared for 100-level courses that require algebraic fluency.

### 247.007 Foundation Chemistry 15 credits

An introduction to the structure of atoms and matter, chemical bonding, simple chemical reactions, calculations involving the mole, acids and bases, reaction rates and equilibrium. Students will learn to name/draw simple organic compounds and conduct basic lab experiments.

### 247.008 Foundation Physics 15 credits

An introduction to physics concepts including motion, forces, energy, electricity, fluids and waves. Students learn to make observations, take measurements and apply problem-solving techniques to answer problems and relate theory to observation.

### 247.111 Science and Sustainability for Agriculture and Horticulture 15 credits

A problem-based, interdisciplinary course introducing students to the context of scientific thinking that underpins sustainability. An exploration of how the Treaty of Waitangi underpins a partnership between Pākehā and Māori and how global citizenship and Tikanga Māori contribute to agriculture, horticulture and animal science. By examining the interactions between economic, environmental and social drivers of sustainability, students will develop their critical thinking, communication and literacy skills as they evaluate contemporary challenges in the agriculture, horticulture and animal industries.

### 247.112 Science and Sustainability for ICT 15 credits

A project-based course developing students' practical skills for critical thinking, analysis and collaboration to address IT-related sustainability challenges in Aotearoa New Zealand. Students will learn to communicate effectively with users, clients, colleagues and managers in the IT industry. The course includes an exploration of how the Treaty of Waitangi underpins a partnership between Pākehā and Māori, focussing on ways in which IT can be guided by Tikanga Māori (including culture, ethics and knowledge systems).

### 247.113 Science and Sustainability for Science 15 credits

A problem-based, interdisciplinary course introducing students to the scientific thinking and theories that underpin the relationship between science and sustainability. An exploration of how the Treaty of Waitangi underpins a partnership between Pākehā and Māori, focussing on ways in which science can be guided by Tikanga Māori (including culture, ethics and knowledge systems); and how Māori knowledge contributes to knowledge production in science, including the protection of Taonga species and resources within the context of sustainability of lands and waterways in Aotearoa. By examining the interactions between human, environmental and technological systems, students will develop their critical thinking, communication and literacy skills as they evaluate solutions to contemporary challenges in sustainability.

### 247.114 Science and Sustainability for Engineering and Technology 15 credits

A project-based, interdisciplinary course introducing students to the applied scientific thinking and theories that underpin the relationship between applied science and sustainability. An exploration of how the Treaty of Waitangi underpins a partnership between Pākehā and Māori, focussing on ways in which Applied Science can be guided by Tikanga Māori (including culture, ethics and knowledge systems). By examining the interactions between human, cultural, environmental and technological systems, students will develop their critical thinking, communication and literacy skills as they develop solutions to contemporary challenges in sustainability in a team-based project.

### 247.155 Communication in the Sciences 15 credits

A course designed to introduce science students to the communication skills required for a science-related career. Students will learn how knowledge is made in science, how science documents are developed to communicate to a target audience, and how to work within a team in a science-related context. Students will develop skills in information literacy, rhetorical analysis, report writing, developing a position course, presenting information to an audience through a structured seminar, accurate integration of secondary source material (primary, secondary and tertiary literature), data collection and

presentation, team analysis and appropriate scientific style (clarity, concision, correctness, and narrative technique).

### **247.177 Written Communication for Information Sciences 15 credits**

Students learn to express their ideas effectively in writing in a manner appropriate to both the university and the information technology industry. Regular and focused writing practice is an essential component of the course.

### **247.192 Special Topic 15 credits**

A course of study which will be designed to either meet the individual requirements of a student in a special circumstance or be used to facilitate development of a new course.

### **247.222 New Zealand Internship Experience 15 credits**

Practice and experience working within the New Zealand agrifood or wildlife management sector. Students will follow an agreed work plan and will document and present their internship experience through various communication channels.

### **247.292 Special Topic 15 credits**

A 200-level course available for use in special cases to assist in completion of a student undergraduate programme.

## **Biology**

### **247.300 Research in Biosciences 15 credits**

The course provides an opportunity for third year undergraduate students in the biological sciences to gain research experience in an academic laboratory. Under supervision of faculty students will develop a short research proposal, carry out the proposed research, write a research report, and present their findings.

## **College of Sciences Courses**

### **247.310 ICT Industry Engagement Project 30 credits**

Students participate in the production of a significant software application in an ICT industry context. Students work in an industry-led team and are fully engaged at a detailed level in at least one (or more) of the research, design, implementation, management and/or testing phases of software development.

### **247.392 Special Topic 15 credits**

A 300-level course available for use in special cases to assist in completion of a student undergraduate programme.

### **247.712 Advanced Topics in Molecular Biology 30 credits**

This course will involve use of the current literature to critically examine the experimental systems used to advance knowledge in Molecular Biology.

### **247.782 Special Topic 15 credits**

A course of study which will be designed to either meet the individual requirements of a student in a special circumstance or be used to facilitate development of a new course.

### **247.783 Special Topic 15 credits**

A course of study which will be designed to either meet the individual requirements of a student in a special circumstance or be used to facilitate development of a new course.

## **Statistics**

### **247.790 Special Topic Applied Statistics 15 credits**

### **247.791 Special Topic in Data Analysis 15 credits**

## **College of Sciences Courses**

### **247.792 Special Topic 15 credits**

A course of study which will be designed to either meet the individual requirements of a student in a special circumstance or be used to facilitate development of a new course.

### **247.793 Special Topic 15 credits**

A course of study which will be designed to either meet the individual requirements of a student in a special circumstance or be used to facilitate development of a new course.

## **Inclusive Education**

### **249.284 Introduction to Equity and Inclusion in Education 15 credits**

Students will examine and evaluate equity and inclusion in New Zealand education for children and young people with disabilities, including: historical and human rights developments; cultural implications; influential theoretical models; and the development of inclusive cultures and approaches to teaching and learning.

### **249.285 Understanding Learners with Diverse Needs 15 credits**

An examination of teaching strategies, educational implications and learning needs associated with particular disabilities and impairments.

### **249.286 Equity and Diversity in Education 15 credits**

Explores critical issues related to equity and diversity in life-long and life-wide learning. Examines the role of education in the marginalisation and exclusion of learners, how these inequities are reproduced, and the principles and practices that promote equity.

### **249.287 Early Intervention 15 credits**

An investigation of current early intervention services and of the methods used in identification, assessment and teaching of young children with special needs.

### **249.334 Creating Inclusive Classrooms 15 credits**

A study of children who have special needs, including learning disabilities, intellectual, sensory or physical handicaps, behavioural disorders or special abilities. Emphasis is placed on the translation of research findings and theory into practice.

### **249.382 Teaching Strategies for Diverse Learners 15 credits**

An examination of teaching strategies, educational implications and learning needs associated with diverse student populations.

### **249.384 Consultation and Collaboration in Inclusive Education 15 credits**

An examination of methods and practices used in a consultative approach to assist learners with special needs in an inclusive educational environment.

### **249.700 Braille Proficiency 0 credits**

In order to complete the Postgraduate Diploma in Specialist Teaching (Blind and Low Vision), evidence that the candidate has successfully completed the Trans-Tasman Braille Proficiency Examination (Unified English Braille) must be submitted.

### **249.730 Learning Support: Networked Learning 30 credits**

An advanced study of the principles and practices of learning support provision in the school sector.

### **249.731 Learning Support: Professional Practice 30 credits**

An in-depth exploration and application of the specialist knowledge base and skills required for school leaders of learning support.

### **249.732 Learning Support: Professional Inquiry 45 credits**

A research-based professional inquiry into teaching and learning in the area of school learning support.

### **249.740 Theory and Practice of Deaf and Hard of Hearing 30 credits**

An advanced study of the theory and practice of specialist teachers in the area of Deaf and Hard of Hearing.

### **249.741 Assessment and Planning for Learners with Diverse Needs 30 credits**

A study of contemporary assessment and programming practices for students with special needs. The implications of theory and research for teaching practice will be stressed.

### **249.742 Teaching Methods for Learners with Diverse Needs 30 credits**

A study of contemporary teaching approaches for different areas of special needs, with a particular emphasis on the implications of theory and research for teaching practice.

**249.743 Practicum in Deaf and Hard of Hearing 30 credits**

Professional and field-based practice in the area of Deaf and Hard of Hearing

**249.744 Understanding Learners with Behaviour Difficulties 30 credits**

An advanced study of emotional and behavioural difficulties. Major topics include terminology, definition, classification, contributing causes, theoretical perspectives, behavioural characteristics, educational and ethical considerations, and remediation with a focus on the ecological perspective.

**249.745 Theory and Foundations of Autism Spectrum Disorder 30 credits**

An advanced study of theoretical and research-based foundations of specialist teaching relating to understanding, recognising, assessing and providing for learners with Autism Spectrum Disorder.

**249.746 Theory and Practice of Blind and Low Vision Education 30 credits**

An advanced study of the theory and practice of specialist teachers in the area of blind and low vision

**249.747 Theory and Practice of Early Intervention 30 credits**

An advanced study of the theory and practice of specialist teachers in the area of Early Intervention.

**249.748 Practicum in Early Intervention 30 credits**

Professional and field-based practice in the area of Early Intervention

**249.749 Evidence-based Interprofessional Practice in Autism Spectrum Disorder 30 credits**

An examination of evidence-based practices in the education of learners with Autism Spectrum Disorder, including common professional practices of specialist teachers and other educational and health professionals involved in special and inclusive education.

**249.750 Practicum Autism Spectrum Disorder 30 credits**

A supervised practicum working with learners with Autism Spectrum Disorder.

**249.751 Evidence-based Interprofessional Practice in Blind and Low Vision Education 30 credits**

An examination of evidence-based practices for specialist teachers of learners who are blind or low vision, including common professional practices of specialist teachers and other educational and health professionals involved in special and inclusive education.

**249.752 Practicum in Blind and Low Vision Education 30 credits**

A professional and field-based practicum in the area of blind and low vision

**249.753 Theory and Practice of Learning and Behaviour Diversity 30 credits**

An advanced study of the theory and practice of specialist teachers in the area of learning and behaviour diversity

**249.754 Evidence-based Interprofessional Practice in Learning and Behaviour Diversity 30 credits**

An examination of evidence-based practices in the area of Learning and Behaviour, including common professional practices of specialist teachers and other educational and health professionals involved in special and inclusive education.

**249.755 Practicum in Learning and Behaviour Diversity 30 credits**

Professional and field-based practice in the area of learning and behaviour diversity

**249.756 Theory and Practice of Adviser on Deaf Children 30 credits**

An advanced study of the theory and practice of AODC (Adviser on Deaf Children).

**249.757 Practicum in Adviser on Deaf Children 30 credits**

A professional and field-based practicum in the area of AoDC (Adviser on Deaf children).

**249.758 Theory and Practice of Te Kaupapa o Te Kōhanga Reo 30 credits**

An advanced study of the theory and practice of Kaihāpai in the area of Te Kaupapa o Te Kōhanga Reo.

**249.759 Practicum in Te Kaupapa o Te Kōhanga Reo 30 credits**

Professional and field-based practice in the area of Te Kōhanga Reo.

**249.760 Theory and Practice of Complex Educational Needs 30 credits**

An advanced study of the theory and practice of specialist teachers in the area of complex educational needs

**249.761 Evidence-based Interprofessional Practice in Complex Educational Needs 30 credits**

An examination of evidence-based practices for specialist teachers of learners who have complex educational needs, including common professional practices of specialist teachers and other educational and health professionals involved in special and inclusive education.

**249.763 Practicum in Complex Educational Needs 30 credits**

Professional and field-based practice in the area of complex educational needs

**249.770 Supervision and Mentoring in Specialist Teaching 15 credits**

This course critically examines advanced theory and practice in the area of mentoring and supervision in special and inclusive education. Students will engage in practical applications in their teaching and learning context.

**Teacher Education****249.771 Additional Areas of Specialist Teaching 15 credits**

An advanced study of theoretical and research-based foundations of specialist teaching relating to understanding, recognising, assessing and providing for learners who have needs in the areas of: Autism Spectrum Disorder; Blind and Low Vision; Complex Educational Needs; Gifted and Talented; and Learning and Behaviour.

**Inclusive Education****249.772 New Zealand Sign Language 1 0 credits**

The practice of communicating through New Zealand Sign Language 1

**249.773 New Zealand Sign Language 2 0 credits**

The practice of communicating through New Zealand Sign Language 2

**249.774 New Zealand Sign Language 3 0 credits**

The practice of communicating through New Zealand Sign Language 3

**250****Health****250.100 Health Communication 15 credits**

This course examines the key principles, ethics and theories of effective health communication for positive health change in individuals and communities. Students will learn to develop and critically analyse health-related messages and research, engage with culturally diverse audiences, and consider social, biological and environmental determinants in health communication.

**250.205 Principles and Practice of Epidemiology 15 credits**

The course provides an introduction to epidemiology; the study of the distribution and determinants of human health.

**250.210 Independent Study 15 credits****250.218 Special Topic 15 credits****250.303 Systems Thinking and Design for Health 15 credits**

An analysis of ideas and methods from both systems thinking and design for the purpose of understanding health issues in order to create good health experiences for people.

**250.310 Independent Study 15 credits****250.318 Special Topic 15 credits****250.320 Work Integrated Learning in Health Sciences 15 credits**

This course will provide an experiential environment to gain practical experience within the Health Sciences.

**250.331 Health of Communities 15 credits**

Strategies for assessing and promoting the health of populations are examined and local, national and international responses to health issues explored.

**250.701 Quantitative Methods in Public Health 30 credits**

The course provides advanced training in the selection and application of quantitative methods in public health. Topics will include: the analysis of national, regional and local health data systems, coding of disease and injury, survey design and analysis, sampling and questionnaire development, critical evaluation of statistic literature, bivariate and multivariate methods for analysing continuous and discrete public health data, and privacy and ethical considerations in the storage and analysis of health data. The course will involve using the software packages such as SAS and Stata as well as online statistical analysis software.

**Public Health****250.703 Health Communication 15 credits**

This course examines the primary factors that influence the effective communication and adoption of positive health behaviours by individuals and communities. Students will review: micro and macro-level theories of health communication; audience engagement and persuasion; the impact of evolving public attitudes to health knowledge; innovative methods for health communication.

**Health****250.704 Special Topic 15 credits****250.705 Special Topic 30 credits****250.706 Applied Health Analytics 15 credits**

This course provides students with the analytical, writing and communication skills and tools to formulate a project to investigate a client's research question.

**250.710 Independent Study 15 credits****250.711 Independent Study 30 credits****250.801 Special Topic 30 credits****250.808 Independent Study 15 credits****250.809 Independent Study 30 credits****250.810 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**250.811 Thesis 90 Credits Part I 45 credits**

A supervised and guided independent study resulting in a published work.

**250.812 Thesis 90 Credits Part II 45 credits**

A supervised and guided independent study resulting in a published work.

**250.813 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**250.814 Thesis 120 Credits Part I 60 credits**

A supervised and guided independent study resulting in a published work.

**250.815 Thesis 120 Credits Part II 60 credits**

A supervised and guided independent study resulting in a published work.

**250.816 Professional Project 60 credits**

Professional practice within the subject area that will be conducted individually and assessment of the outcome of the investigation may be in a variety of ways.

**250.817 Research Report 60 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

**250.818 Research Report 30 credits**

Candidates are required to conduct a piece of independent research under supervision and to produce a report of the research for examination.

**251****Occupational Health and Safety****251.271 Occupational Health and Safety I 15 credits**

An introduction to Occupational Health and Safety and its application to workplaces in New Zealand. The course will explore the complex relationship between health and safety, factors in the working environment affecting health and safety and systems intended to regulate and manage the working environment.

**251.272 Occupational Health and Safety II 15 credits**

A detailed study of hazards commonly found in the work environment.

**251.370 Health and Safety Auditing 15 credits****251.372 Occupational Hygiene 15 credits**

A study of the principles of occupational hygiene and their application to the workplace in New Zealand. Topics include the recognition, evaluation and control of health hazards in the work environment; noise measurement and control; relevant legislation and standards; dust, vapour and gas measurement techniques; ventilation and case studies.

**251.374 Project in Occupational Health and Safety 15 credits**

An applied research course in which the student conducts an extended, systematic enquiry into a particular topic in occupational safety and health.

**251.731 Advanced Occupational Safety and Health 30 credits**

An examination of current issues in Occupational Safety and Health and issues commonly found in the work environment.

**251.732 Research Report 30 credits**

A research report requiring a piece of independent research with guidance and academic supervision.

**251.770 Health and Safety Auditing 30 credits**

A comprehensive examination and critical analysis of current theories and practice in relation to auditing and assessing organisational health and safety performance.

**251.772 Advanced Occupational Hygiene 30 credits**

An advanced course studying the current issues in occupational safety and health, which involves the recognition, evaluation and control of health hazards in the work environment, including the study of noise, ventilation systems and air pollution.

**251.773 Hazard Management 30 credits**

A comprehensive analysis of Hazard Management and the application of Hazard Management methodologies and legislation.

**252****Health Sciences****252.201 Sleep, Circadian Rhythms, and Shift Work 15 credits**

This course provides an introduction to sleep and circadian science, emphasising their vital importance for understanding human health, recovery, and performance. It explores the challenges to sleep and circadian physiology posed by the 24/7 society, and examines the sleep health of New Zealanders.

**Sleep and Circadian Science****252.301 Sleep, Health and Performance 15 credits**

This course extends fundamental concepts in sleep and circadian science. It examines the causes and consequences of sleep loss, as well as misalignment of the circadian body clock with the day/night cycle. The course has a particular emphasis on the impact of sleep duration, quality and timing, and circadian dysregulation, on health and performance.

## Public Health

### 252.701 Sleep and Circadian Science for Health Practitioners **30 credits**

An examination of sleep and circadian science in relation to health and healthcare, including healthy sleep, sleep disorders and sleep in those with medical conditions.

### 252.702 Sleep, Fatigue Risk Management and Occupational Safety and Health **30 credits**

The application of sleep and circadian science in fatigue risk management, shift work, and occupational health and safety. An overview of the organisational processes required to implement a fatigue risk management system, as well as regulatory requirements for management of fatigue and shift work in occupational safety and health.

## 253

## Counselling and Guidance

### 253.250 Counselling Principles and Practice **15 credits**

An examination of the fundamental principles of counselling, with particular emphasis on the central assumptions, theoretical constructs and applications of major approaches.

### 253.255 Cultural Issues in Counselling **15 credits**

An examination of selected cultural issues relevant to counselling theory and process.

### 253.353 Guidance Principles and Practice **15 credits**

An examination of the fundamental principles of guidance. Guidance practice is studied, focusing on roles, organisation and intervention procedures.

### 253.355 Professional Issues in Counselling **15 credits**

An in-depth consideration of significant professional issues in the field of counselling.

### 253.750 Counselling Theory **30 credits**

A study of the theoretical bases of counselling. The course examines the place of counselling in society, its philosophical foundations, empirical status and major principles. Particular emphasis is given to selected approaches.

### 253.753 Guidance in Education **30 credits**

A study of guidance in educational settings. Attention is given to the philosophical foundations of guidance, its social implications, organisation and roles. Intervention procedures for individuals and groups are examined.

### 253.754 Family and Couples Counselling **30 credits**

A study of the theoretical bases of family and couples counselling. Attention is given to the concepts of 'family' and 'couple' and to systems theory. The processes of counselling families and couples are examined with regard to various approaches.

### 253.755 Culture and Counselling **30 credits**

An examination of the significance of culture in counselling. A multicultural perspective is adopted but with particular attention to the context in Aotearoa/New Zealand.

### 253.761 Professional Development in Counselling I **45 credits**

The development of attitudes and skills for effective counselling practice, informed by current research and undertaken in the context of campus-based workshops and field-based supervised practice.

### 253.762 Professional Development in Counselling II **30 credits**

A continuation and integration of personal and professional development undertaken in Professional Development I whilst pursuing field-based practice and campus-based workshops.

### 253.800 Research Project in Counselling **45 credits**

A negotiated research project related to relevant aspects of counselling or counselling-related activity.

## 254

## Education Studies

### 254.101 An Introduction to Social and Cultural Studies in Education **15 credits**

A critical examination of social, cultural, political, historical and philosophical influences on the development of education in Aotearoa/New Zealand and internationally.

### 254.102 Introduction to Professional and Ethical Practice in Education and Health Contexts **15 credits**

An introduction to the practice of professionals working with individuals and families who have multicultural backgrounds and diverse needs within education and health settings.

### 254.103 Learning in the Digital Age **15 credits**

An introduction to the relationship between learning and digital technologies within formal, non-formal and informal settings. An emphasis is placed on the changing conceptions of literacy in the digital age.

### 254.162 Introduction to Literacy and Numeracy **15 credits**

An introduction to the development of specialised subject content and pedagogical content knowledge for teachers of literacy and numeracy in Aotearoa/New Zealand.

### 254.200 Learning in the Digital World **15 credits**

This course is an exploration of what it means to be a learner in digital social worlds.

### 254.201 Philosophy of Education **15 credits**

This course explores the philosophical complexities of education in its personal, institutional and social dimensions. Students will be introduced to some of the major debates in philosophy of education and engage in the critical and continual practice of applying philosophy across the many contexts of education.

### 254.203 Sociologically Imagining Education **15 credits**

This course explores the sociology of education by critically inquiring into the relationship between personal experience, education and society. Students will be introduced to primary sociological concepts like race, class and gender to critically reflect on education.

### 254.210 Historical Perspectives on Education **15 credits**

An exploration of the ways New Zealand's current education institutions have been influenced by evolving philosophies of education, alongside key historical, sociological, ideological, political, and economic forces.

### 254.231 Curriculum Theory, Policy and Practice **15 credits**

An introduction through the skills of critical analysis to the politics of curriculum formation and implementation. A study of the historical basis of curriculum formation in Aotearoa/New Zealand, broad curriculum traditions, curriculum in relation to class, cultural, ethnic and gender differences and the move to education marketisation.

### 254.300 Historical Perspectives on Education **15 credits**

An exploration of the ways New Zealand's current education institutions have been influenced by evolving philosophies of education, alongside key historical, sociological, ideological, political, and economic forces.

### 254.301 Philosophy of Education II **15 credits**

A philosophical study of teaching with a focus on the ethics of selected aspects of educational and classroom practice of concern to teachers, parents and students.

### 254.304 Critical Theories of Education **15 credits**

Education as an everyday practice is the focus for critical theories of education. This course explores ways education has been theorized as a practice of liberation as well as a practice of oppression. Students will use these concepts to examine the role of education in shaping the social structure of Aotearoa New Zealand.

### 254.330 Philosophy for Children **15 credits**

An introduction to the history, theory and practices of encouraging children to think philosophically.

**254.336 Learning in the Digital World 15 credits**

This course is an exploration of what it means to be a learner in digital social worlds.

**254.337 Teaching and Learning with Pasifika Peoples in NZ 15 credits**

An examination of the educational experiences of Pasifika peoples in New Zealand in formal and informal settings both in the past and present with a focus on effective teaching and learning practices.

**254.340 Politics of Education 15 credits**

This course considers the politics of education in Aotearoa New Zealand, using current social issues and education policy reforms to examine role of education in a democracy.

**254.377 Teaching and Learning Languages up to Year 10 15 credits**

This course provides students with an overview of the theory and practice of teaching languages in New Zealand schools up to Year 10 level.

**254.702 Facing Big Questions in Education 30 credits**

An interdisciplinary study of important questions around pedagogy, learning, curriculum and assessment, which challenge teachers in a variety of educational settings. The course will help teachers develop purposeful and practical connections between scholarly work and their own practice.

**254.706 Advanced Studies in Curriculum Policy and Practice 30 credits**

A study of historical and contemporary curriculum from formation to practice. Changes in curriculum and assessment are examined in the light of local and global influences. Students apply theory and practice-based research to issues of knowledge, learning, teachers' work, students' experiences and school-based curricula.

**254.744 Educational Issues Among Pacific Islands Peoples in New Zealand 30 credits**

A critical examination of current issues in education which affect Pacific Islands peoples in New Zealand. Students will consider the place of Pacific Islands peoples in New Zealand society and design strategies for meeting their educational needs within specified professional fields of interest.

**254.765 Core Theory and Foundations of Specialist Teaching 30 credits**

Advanced study of generic core theory and foundations of specialist teaching common to professionals working in relevant areas.

**254.766 Professional Learning Pathways 30 credits**

Bespoke learning modules for professional educational practice

**254.767 Community-based Practice 30 credits**

Theory and practice of culturally responsive and relational engagement in local learning communities

**254.773 Educational Policy Analysis 30 credits**

An analysis of selected policy issues, theories and methods in the analysis of educational policies.

**254.774 Evaluation of Educational Organisations 30 credits**

A study of approaches used for evaluating educational institutions with emphasis on issues around school effectiveness and improvement including global influences of standardization and control, and ethical and culturally appropriate practices.

**254.775 Management of Human Resources in Educational Organisations 30 credits**

A study of issues in and strategies for the effective management of personnel in educational organisations.

**256****Educational and Developmental Psychology****256.201 Educational Psychology 15 credits**

An examination of the contribution of psychology to an understanding of educational processes with a focus on the learner, learning processes and instruction. Issues of theory, research and application will be studied in a variety of educational situations.

**256.303 Sustainable Learning 15 credits**

An analysis of how to best support learning and teaching in educational settings through the application of Western and Māori frameworks.

**256.304 Positive Behaviour for Learning 15 credits**

This course provides in depth exploration of the strategies and interventions for maintaining positive learning environments that support effective school engagement and achievement.

**Psychology****256.701 Ako: Psychology of Learning and Teaching 15 credits**

A study of learning and teaching processes within an ecological and developmental framework emphasising what learners bring to their learning and factors that support and hinder engagement. A focus on the use of psychological tools for learning/teaching (use of language, literacy and numeracy) allows in depth consideration of complex higher order processes and how they can be developed.

**256.702 Ahurei: The Psychology of Unique Differences 15 credits**

A study of how learners and teachers bring their diversity (defined by sociocultural, medical, developmental, and psychological frameworks) to their learning and teaching. A critical analysis of the way society and government systems defines and responds to diversity is central to this course, as is consideration of how contemporary inclusive education and positive psychology can better support learning for all.

**256.703 He Taiao Ako: Psychology of Educational Settings 15 credits**

A study of formal and informal educational settings, beginning with the teaching-learning relationship that is parenting, and moving through formal child and adolescent educational contexts into adult education. The psychological frameworks that help us understand the complexity of these settings and the interactions that occur within them are examined, along with how best to approach professional work in these settings.

**256.704 Waioara: Psychology of Wellbeing and Ako 15 credits**

A study of traditional and contemporary positive approaches to understanding and responding to mental health and wellbeing needs. A focus on the roles of schools in promotion and prevention is provided with reference to systemic, whole school, small group, and individual interventions. Evidence-based approaches to intervention are introduced, along with processes for risk-assessment in relation to mental health.

**256.705 Whanaungatanga: Psychology of Relationships in Ako 15 credits**

A study into space for relationships and relationship trust that underpin development and learning. The role of tikanga and psychological approaches that rely on relationships, such as interviewing, counselling, mediation, conflict resolution are explored, along with the multi-disciplinary situations that are inherent in educational and developmental psychology.

**256.706 Whakapiki: Psychology of Change and Development 15 credits**

A study of models and approaches that support the instigation and facilitation of change at the system, classroom, home, or individual levels. Contemporary practice in talking therapies, motivational interviewing, and brief therapy are explored and consideration is also given to specific issues such as disaster response, the impacts of trauma, principles of psychological recovery and the development of resilience.

**Educational and Developmental Psychology****256.707 Mānuka Tākoto - Behaviour Challenges 15 credits**

A study of the challenges experienced by teachers, specialists, children and whānau when individual or group behaviours challenge the ability to learn, socialise, retain relationships and impact on culture and identity, and to provide the tools to pick up the challenge for all involved to address these.

**256.754 Assessment in Educational Psychology 30 credits**

An in-depth analysis and application of traditional and contemporary approaches to assessment in Educational Psychology.

**256.755 Professional Practice in Educational Psychology 30 credits**

Competencies, attitudes and dispositions that contribute to professional practice in Educational Psychology are examined, critiqued and developed. Particular attention is given to bicultural issues, professional ethical issues, accountability and reflective practice.

**256.756 Applied Behaviour Analysis for Educators 30 credits**

This course focuses on applied behaviour analysis oriented to analysis, assessment and intervention within school and other educational settings. The course is designed to assist students to be aware of environmental/behavioural relationships, to be able to observe, analyse and assess interactive behaviour in an educational setting, and be able to recommend, implement, evaluate and adjust therapeutic interventions.

**256.841 Applied contemporary practice in educational psychology 30 credits**

Casework involving early childhood, children and adolescents and their caregivers/teachers/whanau is undertaken during the year under supervision of registered psychologists. Analysis of the casework is presented to be assessed throughout the course. The folio of casework includes projects that centre on working with individuals, groups and systems. The casework undertaken will be decided according to the individual and professional development needs of the student.

**256.843 Evidence-based practice in educational psychology 30 credits**

Evidence-based practice and application to formal and informal learning contexts. Developing a professional practice portfolio with reference to the Core Competencies of the New Zealand Psychologists' Board.

**256.844 Competencies for Educational Psychologists 30 credits**

Advanced study and supervised professional practice in educational and developmental psychology with a focus on competencies and critical professional reflection.

**256.845 Advanced Professional Practice in Educational Psychology II 30 credits**

Continued advanced study and supervised professional practice in Educational Psychology with particular emphasis on the Core Competencies (NZ Psychologists Board) required for clinical practice.

**Psychology****256.846 Professional Leadership in Educational Psychology 30 credits**

Professional Leadership and application of discipline knowledge, scholarship and research in supervised professional practice in educational and developmental psychology

**256.847 Applied Research in Educational Psychology 60 credits**

A supervised and guided research study presented in a research report.

**256.854 Educational and Developmental Psychology Assessment 30 credits**

Advanced study in contemporary assessment in educational and developmental psychology.

**256.855 Educational and Developmental Psychology Practice 30 credits**

Advanced study of professional practice in educational and developmental psychology. Principles, frameworks, competencies, attitudes and dispositions that underpin professional practice are critiqued and developed. Particular attention is given to bicultural issues, professional ethics, professional leadership, accountability and reflective practice.

**257****English Language Teaching****257.370 Teaching Learners of English as Another Language 15 credits**

A reflective approach to developing effective skills in the teaching of English as another language (TESOL), including assessment, planning, and the design of resource materials. Students will explore strategies for facilitating language learning in a range of specific contexts.

**257.375 Learning English as Another Language 15 credits**

A specialised study of the skills and processes involved in learning English as another language (ESOL) and the factors affecting success. Consideration will be given to the variety of learners in New Zealand; the interrelationship between language, culture and world-view; current theories on second language learning; and the analysis of the spoken and written language of new learners of English.

**257.766 Leading TESOL in Diverse Contexts 30 credits**

A study of the historical development of leadership theory and a contrastive examination of TESOL leadership in different international contexts.

**257.767 Current Issues and Innovations in TESOL Leadership 30 credits**

A study of issues and innovations in TESOL leadership and professional development, including factors such as context, global impacts, and new technologies.

**257.769 Teaching Content to English Language Learners 30 credits**

An in-depth, critical examination of theory, research, practice and issues relevant to integrated teaching and learning of content and English as an additional language for specific and academic purposes.

**258****Literacy Education****258.301 Language, Literacy and Cognitive Development 15 credits**

A critical study of contemporary research on language, literacy and cognitive development particularly in the context of growing up in New Zealand in diverse cultural contexts (including Māori) and with reference to Treaty of Waitangi considerations.

**258.720 Foundations of Literacy Education 30 credits**

An advanced study of the acquisition of literacy skills in students focusing on how knowledge of language structure and the cognitive processes involved in literacy learning can be translated into effective teaching practices.

**258.721 Teaching Students with Literacy Learning Difficulties 30 credits**

An examination of best practices for the assessment and teaching of students with literacy learning difficulties.

**258.722 The Nature, Prevention and Remediation of Literacy Learning Difficulties 30 credits**

An advanced study of theory and research on reading and writing difficulties experienced by students focusing on intervention strategies/programmes that can be used to help these students overcome their literacy learning problems.

**258.723 Teaching Writing in the Classroom 30 credits**

An advanced study of research into written composition development; strategies for enhancing student competencies and for overcoming specific areas of need in writing in contemporary classrooms.

**259****Educational Administration and Leadership****259.771 Educational Leadership in Action 30 credits**

A study of leadership in action including reflective practice, professional and curriculum leadership, and decision-making in education, based on selected organisational and policy contexts.

**259.772 Theory and Process in Educational Leadership 30 credits**

A critical examination of discourses, policies and practices of educational organisation, leadership and reform.

**English Language Teaching****259.780 Language Policy and Assessment 30 credits**

A critical study of theory, research, practice and current trends in English language policy, planning and assessment in an educational context.

## Secondary Teaching

### 260.410 Professional Practice 1 (Secondary) 30 credits

This course provides an introduction to professional practice in secondary school settings in Aotearoa New Zealand, through observation, teaching, critical self-reflection and evaluation of practice.

### 260.411 Professional Practice 2 (Secondary) 30 credits

This course provides further development of professional practice in secondary school settings in Aotearoa New Zealand, through observation, teaching, critical self-reflection and evaluation of practice.

### 260.412 Curriculum and Pedagogy A (Secondary Maths, Science, Technology) 30 credits

This course engages students with the theory and practice of curriculum, pedagogy and assessment in maths or science or technology within the context of secondary schools in Aotearoa New Zealand guided by commitment to Te Tiriti o Waitangi and tangata whenuatanga.

### 260.413 Curriculum and Pedagogy A (Secondary English, Languages, Social Sciences) 30 credits

This course engages students with the theory and practice of curriculum, pedagogy and assessment in English, or languages or the social sciences within the context of secondary schools in Aotearoa New Zealand guided by commitment to Te Tiriti o Waitangi and tangata whenuatanga.

### 260.414 Curriculum and Pedagogy A (Secondary Arts, Physical Education & Health) 30 credits

This course engages students with the theory and practice of curriculum, pedagogy and assessment in the arts, or physical education and health within the context of secondary schools in Aotearoa New Zealand guided by commitment to Te Tiriti o Waitangi and tangata whenuatanga.

### 260.415 Curriculum and Pedagogy B (Secondary) 30 credits

This course provides pathways for students to engage with the theory and practice of curriculum, pedagogy and assessment in a second learning area within the context of secondary schools in Aotearoa New Zealand. It also examines connections between curriculum areas and explores wider issues pertaining to secondary education guided by commitment to Te Tiriti o Waitangi and tangata whenuatanga.

### 260.420 Teaching Mathematics 15 credits

This course provides students with an overview of the theory and practice of teaching Mathematics in the context of the New Zealand Curriculum Framework at secondary school level.

### 260.421 Teaching Senior Mathematics 15 credits

An introduction to the teaching of Mathematics in Years 11, 12 and 13.

### 260.422 Teaching Science 15 credits

This course provides students with an overview of the theory and practice of teaching Science in the context of the New Zealand Curriculum Framework at secondary school level.

### 260.423 Teaching Senior Agriculture/Biology/Horticulture 15 credits

An introduction to the teaching of Agriculture/Biology/Horticulture in Years 11, 12 and 13.

### 260.424 Teaching Senior Chemistry 15 credits

An introduction to the teaching of Chemistry in Years 11, 12 and 13.

### 260.425 Teaching Senior Physics 15 credits

An introduction to the teaching of Physics in Years 11, 12 and 13.

### 260.426 Teaching Technology 15 credits

This course provides students with an overview of the theory and practice of teaching technology in the context of the New Zealand curriculum at secondary school level.

### 260.427 Teaching Senior Technology 15 credits

An introduction to the teaching of Technology in Years 11, 12 and 13.

### 260.428 Teaching Design and Visual Communication 15 credits

An introduction to the teaching of Design and Visual Communication in Years 9 to 13.

### 260.429 Teaching Languages 15 credits

An introduction to the teaching of languages in the New Zealand secondary school setting.

### 260.430 Teaching Senior Languages 15 credits

An introduction to the teaching of languages in Years 11,12 and 13

### 260.431 Teaching English 15 credits

This is a generic course which will provide an overview of the theory and practice of teaching English in the context of the New Zealand Curriculum Framework at secondary school level.

### 260.432 Teaching Senior English 15 credits

An introduction to the teaching of English in Years 11, 12 and 13

### 260.433 Teaching Drama 15 credits

An introduction to the teaching of Drama in Years 9 to 13.

### 260.434 Teaching Social Sciences 15 credits

This course provides students with an overview of the theory and practice of teaching Social Sciences in the context of the New Zealand Curriculum Framework at secondary school level.

### 260.435 Teaching Senior History 15 credits

An introduction to the teaching of History in Years 11, 12 and 13.

### 260.436 Teaching Senior Geography 15 credits

An introduction to the teaching of Geography in Years 11, 12 and 13

### 260.437 Teaching Senior Commerce 15 credits

An introduction to the teaching of Economics in Years 11, 12 and 13.

### 260.438 Teaching Music 15 credits

This course provides students with an overview of the theory and practice of teaching music in the context of the New Zealand curriculum at secondary school level.

### 260.439 Teaching Senior Music 15 credits

This course provides students with an overview of the teaching of secondary school music in years 11, 12 and 13.

### 260.440 Musicianship for School Instrumental Music Teachers 15 credits

The development of skills and knowledge in musical performance and leadership as appropriate to instrumental Music teaching in the school setting.

### 260.441 Teaching Health and Physical Education 15 credits

This course provides students with an overview of the theory and practice of teaching Health and Physical Education in the context of the New Zealand Curriculum Framework at secondary school level.

### 260.442 Teaching Senior Physical Education 15 credits

An introduction to the teaching of Health and Physical Education in Years 11, 12 and 13.

### 260.443 Teaching Health 15 credits

An introduction to the teaching of Health Education in years 9 and 10.

### 260.444 Teaching Visual Arts 15 credits

This course provides students with an overview of the theory and practice of teaching the visual arts in the context of the New Zealand curriculum at secondary school level.

### 260.445 Teaching Senior Visual Arts 15 credits

This course provides students with an overview of the theory and practice of teaching the visual arts in years 11, 12 and 13.

### 260.446 Teaching Senior Art History 15 credits

An introduction to the teaching of Art History in years 12 and 13

### 260.447 Teaching Performing Arts 15 credits

An overview of the theory and practice of teaching performing arts in Years 9 – 13 in the context of the New Zealand Curriculum.

**260.448 Teaching Senior Social Sciences 15 credits**

An overview of the theory and practice of teaching senior social sciences in Years 11 – 13 in the context of the New Zealand Curriculum.

**260.483 Secondary Teaching Experience I 15 credits**

This course introduces students to pedagogical knowledge in educational contexts and prepares for personal and professional growth through ongoing reflection.

**260.484 Secondary Teaching Experience II 15 credits**

This course provides students with the opportunity to extend and diversify their pedagogical knowledge through the synthesis and application of teaching skills and reflective practice.

**260.490 Teaching in Context I 15 credits**

An examination of the roles and responsibilities of teachers in promoting learning for all learners. Drawing on international research, students will reflect on themselves as learners and teachers together with factors that influence learning and teaching.

**260.491 Teaching in Context II 15 credits**

An examination of the roles and responsibilities of teachers in promoting learning. Drawing on international research, students will reflect on and analyse the relationship between social, cultural, historical, and contemporary educational contexts and their influence on learning and teaching.

**260.492 Teaching and Learning in a Secondary Context 15 credits**

An examination of the roles and responsibilities of teachers in promoting learning for adolescent learners within a secondary context. Drawing on international research, students will reflect on and analyse a range of contextual factors and their influence on learning and teaching in secondary school educational settings.

**261****E-Learning****261.760 Digital Education and Design for Learning 30 credits**

This course provides a framework for considering the design of digitally-enhanced learning situations (in formal, non-formal or professional contexts).

**261.764 Foundations of Digital Education 30 credits**

This course offers an overview of the theories, concepts, principles and history, which underpin contemporary digital education, including historical links between emerging and earlier versions of digital education.

**261.765 Trends in Digital Education 30 credits**

The course offers a critical overview of emerging trends, challenges and technological innovation in education.

**261.766 Teaching and Digital Education 30 credits**

This course examines and critiques theoretical perspectives, principles and practices of teaching and learning with digital technologies.

**262****Gifted and Talented****262.339 The Education of Gifted and Talented Students 15 credits**

A study of conceptual issues associated with the education of the gifted and talented in a multicultural context. Methods of identification and educational programmes for children with special abilities are examined as well as contemporary issues.

**262.751 Theory and Practice of Gifted and Talented Education 30 credits**

An advanced study of the theory and practice of specialist teachers in the area of gifted and talented

**262.752 Evidence-based Interprofessional Practice in Gifted and Talented Education 30 credits**

An examination of evidence-based practices in the education of gifted and talented students, including common professional practices of specialist

teachers and other educational and health professionals involved in special and inclusive education.

**262.753 Practicum in Gifted and Talented Education 30 credits**

Professional and field-based practice in the area of gifted and talented

**263****Learning and Teaching****263.200 Teaching as an Act of Influencing Others 15 credits**

An exploration of the ethics, principles, and key processes of everyday teaching and learning as a basic form of social interaction, giving students the opportunity to explore teaching and learning across the lifespan.

**263.301 Learning and Motivation 15 credits**

A study of contemporary theory and research on motivation in educational contexts with emphasis on implications for learning and for educational practice.

**263.315 Teaching and Learning in Everyday Settings 15 credits**

A study of informal teaching and learning practices in a workplace, volunteer, leisure, cultural or community organisation setting. Focus is on the application of everyday teaching and learning theory in a real community context where access is self-negotiated by the student.

**263.331 Assessment and Learning 15 credits**

Assessment concepts and procedures for learning and teaching, the construction and use of educational assessments, and contemporary issues in evaluation.

**263.400 Learning and Teaching 1 15 credits**

This course uses a research informed, evidence-based approach to introduce how learning happens in its social, cultural and historical context and what this means for effective teaching for all learners. The multiple factors shaping identity will be introduced, and students will develop awareness of and reflect on diverse perspectives regarding identity.

**263.401 Learning and Teaching 2 15 credits**

This course uses a research informed, evidence-based approach to examine how learning happens in its social, cultural and historical context and what this means for effective teaching for all learners. The multiple factors shaping identity will be explored, and students will develop awareness of, and critically reflect on, diverse perspectives regarding identity.

**263.701 Enhancing Teacher Learning and Mentoring 30 credits**

An advanced study of teacher learning in which a teacher examines and alters their practice and influences others in light of research and professional learning literature.

**263.704 Advanced Studies in Motivation and Learning 30 credits**

A study of learning and the applications of national and international theory and research within learning contexts with an emphasis on contemporary learning themes.

**263.705 Assessment for Learning and Teaching 30 credits**

Contemporary New Zealand and international assessment theory, practice and policy are examined and critiqued with application for educators in their learning context.

**263.706 Adolescent Learning and Engagement 30 credits**

An in-depth study of the developmental and learning needs of adolescent students and the implications for teaching, assessment and curriculum. Issues are critically examined, such as international and national trends in achievement for various groups of students, engaging students in learning, schooling options and transitions.

**264****Education Support****264.101 How People Learn 15 credits**

An examination of how people learn in formal and informal settings.

**264.102 Classroom Management 15 credits**

An examination of classroom management that addresses the management of diverse behaviours whilst creating a positive learning environment.

**264.200 How People Learn 15 credits**

An examination of how people learn in formal and informal settings

**265****Early Childhood Education****265.120 Principles of the Early Years Curriculum 15 credits**

The principles and practices of the New Zealand Early Childhood Curriculum and the junior years of the New Zealand Curriculum (essential learning areas, essential learning skills), including implementation through routines and programmes as well as the role of the adult in facilitating children's learning.

**265.289 Learning and Development in the Early Years 15 credits**

A study of the dynamic, socially constructed learning and development of infants, toddlers and young children (birth to eight years old). Implications for working with young children in the early years and working in partnership with family/whanau are considered.

**265.293 Studies in Infants and Toddlers 15 credits**

Study of content knowledge and the development of clear philosophy which is supportive of the learning and development of children from conception to age two, with an emphasis on ecological influences.

**265.322 Perspectives in Early Years Education 15 credits**

A critical analysis of the development and theoretical basis of historical and contemporary early years education programmes, including early childhood, in New Zealand and overseas.

**265.344 Issues in Early Childhood Education 15 credits**

An analysis of contemporary policies and issues in early childhood services in New Zealand and overseas and how these policies and issues are influenced by political, cultural and social forces.

**265.374 Leadership in Early Childhood 15 credits**

An examination of issues in theory and practice in educational leadership in early childhood services in the Aotearoa/New Zealand context.

**265.410 Professional Practice 1 (ECE) 30 credits**

This course provides an introduction to professional practice in early childhood education settings in Aotearoa New Zealand, through observation, teaching, critical self-reflection and evaluation of practice.

**265.411 Professional Practice 2 (ECE) 30 credits**

This course provides further development of professional practice in early childhood education settings in Aotearoa New Zealand, through observation, teaching, critical self-reflection and evaluation of practice.

**265.412 Curriculum and Pedagogy A (ECE) 30 credits**

This course introduces students to the theory and practice of curriculum, pedagogy and assessment in the context of early childhood education settings in Aotearoa New Zealand guided by commitment to Te Tiriti o Waitangi and tangata whenuatanga.

**265.413 Curriculum and Pedagogy B (ECE) 30 credits**

This course provides further development with the theory and practice of curriculum, pedagogy and assessment in the context of early childhood education settings in Aotearoa New Zealand guided by commitment to Te Tiriti o Waitangi and tangata whenuatanga.

**265.470 ECE Professional Inquiry and Practice 1 15 credits**

Student teachers will explore and apply current curriculum, philosophy, pedagogy and practices of teaching in early childhood settings. The course will consist of both taught and practical experiences.

**265.471 Learning and Development in Early Childhood Education Contexts 15 credits**

Children's learning and development is examined from a range of research and practice perspectives relevant for inclusive early childhood education contexts. The course will focus on early childhood curriculum, working in partnerships with families and whanau, creating high-quality early childhood

environments, and promoting positive teacher-child interactions to support child learning and development.

**265.472 Advanced Studies of Infants and Toddlers 15 credits**

This course fosters a critical examination of research and practice in early childhood education associated with the learning, development and care of infants and toddlers from conception to age two, with consideration of the critical role of early childhood teachers.

**265.473 Integrating Early Childhood Curriculum: Mathematics and Literacy 15 credits**

A course exploring early childhood curriculum as an integrated process with a focus on the foundations of mathematics and literacy.

**265.474 ECE Curriculum, Assessment, Planning & Evaluation 15 credits**

Study of the key principles and practices of early childhood curriculum, assessment planning and evaluation for coherence and continuity in young children's learning.

**265.475 The Arts in Early Childhood Education 15 credits**

A study of the provision of arts education experiences for children in early childhood. The course will enable students to critically examine theories relating to arts education in early childhood and to apply this knowledge in a range of early childhood settings.

**265.476 Curriculum and Teacher Inquiry in ECE 15 credits**

An individual, research-informed supervised teacher inquiry where students plan, undertake and report on an investigation with a group of children in order to refine teaching, planning, assessment and evaluation skills in the context of early childhood curriculum.

**265.485 ECE Professional Inquiry and Practice 2 15 credits**

Student teachers will develop and demonstrate competent and confident practices in current curriculum, philosophy, pedagogy and practices of teaching in early childhood settings. The course will consist of both taught and practical experiences.

**265.736 Quality in Early Years Education 30 credits**

A critical study of research and theory which has shaped beliefs about quality in education from infancy through to early school years. Students are assisted to consider different viewpoints on quality and different approaches to quality assurance and management. Opportunity is provided for students to explore issues and implications for policy and professional practice.

**265.737 Young Children and Their Families 30 credits**

This course provides a critical analysis of contemporary theory and research relating to young children and their families. The implications for working with young children and their families will be considered in relation to early education.

**265.738 Children's Play and Learning in an Intentional Teaching Practice 30 credits**

This course examines the concepts of play and learning and the integration of these concepts with content knowledge in an intentional teaching practice with children from 0-8 years.

**265.740 Advanced Studies on Learning in the Early Years 30 credits**

An advanced study of contemporary cognitive research and theory on young children's learning (birth to eight years of age). Considers implications for educational practice in early childhood centres and junior primary classes, including teaching strategies, curriculum implementation and culturally-responsive practice.

**267****Education Research****267.390 Educational Research Literacy 15 credits**

This course takes an applied orientation to educational research literacy through an understanding of diverse educational research methodologies and how research findings are presented to the public.

<b>267.740 Mixed Methods Research in Education</b>	<b>15 credits</b>	<b>267.891 Thesis</b>	<b>120 credits</b>
A study of mixed methods research design in education. Theoretical and practical issues of mixed methods research are studied under three course themes: context for research, mixed methods research designs, analysis and communication of mixed methods research.		A supervised and guided independent study resulting in a published work.	
<b>267.741 Indigenous Research Methodologies</b>	<b>15 credits</b>	<b>267.894 MPhil Thesis</b>	<b>120 credits</b>
A study of Māori research frameworks, philosophies and processes and an examination of their contribution to the growing body of indigenous scholarship as relevant to educational settings.		A supervised and guided independent study resulting in a published work.	
<b>267.781 Research Methods in Professional Practice</b>	<b>30 credits</b>	<b>267.895 MPhil Thesis 120 Credit Part 1</b>	<b>60 credits</b>
An in-depth analysis of research methods and designs used in professional practice. Involves critical examination and evaluation of specific research designs.		A supervised and guided independent study resulting in a published work.	
<b>267.782 Quantitative Research in Education</b>	<b>15 credits</b>	<b>267.896 MPhil Thesis 120 Credit Part 2</b>	<b>60 credits</b>
A study of quantitative research methods in education focusing on basic group designs for research and evaluation, analytic methods for exploring relationships with both categorical and continuous measures, and statistical analysis procedures for group design data.		A supervised and guided independent study resulting in a published work.	
<b>267.783 Qualitative Research in Education</b>	<b>15 credits</b>	<b>267.899 Thesis</b>	<b>120 credits</b>
A study of qualitative research methods in education. Theoretical and practical issues of research are studied under three course themes: context for research, qualitative research designs, analysis and communication of qualitative research.		An advanced scholarly application of theory and practice using academic research conventions.	
<b>267.790 Indigenous Research Methodologies</b>	<b>30 credits</b>	<b>267.900 PhD Education</b>	<b>120 credits</b>
A study of Māori research frameworks, philosophies and processes and an examination of their contribution to the growing body of indigenous scholarship as relevant to educational settings. Research methodologies congruent with Māori cultural values are examined for their potential to advance indigenous development in Aotearoa New Zealand. The development of a research proposal will be an integral component of the course.		<b>267.911 Advanced Professional Education</b>	<b>30 credits</b>
<b>267.792 Research Exercise</b>	<b>30 credits</b>	A critical analysis of the political, social, cultural, historical and philosophical perspectives of professionalism relating to education in Aotearoa/New Zealand. Particular attention will be focused on professionalism in action and professional lives.	
<b>267.860 Professional Inquiry</b>	<b>60 credits</b>	<b>267.912 Advanced Studies in Education</b>	<b>30 credits</b>
An advanced analysis of a significant professional situation to which a proposed solution is applied and evaluated, based on a critique of educational theory and literature.		A critical examination of educational theory, policy and practice in educational settings with a particular emphasis on reflective professional practice.	
<b>267.861 Professional Inquiry</b>	<b>45 credits</b>	<b>267.913 Advanced Research and Evaluation Methodology</b>	<b>30 credits</b>
A critical evaluation and inquiry into an educational issue of professional interest, based on a critique of relevant theory and literature.		This course prepares students to design, conduct and write a research thesis.	
<b>267.870 Specialist Teaching Research Project</b>	<b>45 credits</b>	<b>267.929 Advanced Directed Study in Education</b>	<b>30 credits</b>
This course allows students to conduct and report research in an area of specialist teaching using academic research conventions.		This course provides the vehicle for students to integrate the work in Parts I and II of the programme through the production and defence of a research proposal and any necessary pilot work in preparation for undertaking the thesis.	
<b>267.871 Thesis 120 Credit Part 1</b>	<b>60 credits</b>	<b>267.930 Thesis Doctor of Education</b>	<b>120 credits</b>
An advanced preparation for research, including a critical review of research literature, methodological design, ethics application and a refined research proposal.		This component involves undertaking research based on the courses that precede it in the programme. In those courses students will develop the perspectives and strategies necessary to enable them within this component to pursue responses to research questions within the domain of professional education.	
<b>267.872 Thesis 120 Credit Part 2</b>	<b>60 credits</b>		
An advanced realisation of proposed research, subsequent analysis and scholarly report.			
<b>267.875 Specialist Teaching Professional Inquiry</b>	<b>45 credits</b>		
An advanced analysis of a professional practice in an area of specialist teaching to inquire into the impact of that practice. Addresses the inquiry skills fundamental to quality culturally responsive professional thinking and action in an area of specialist teaching.			
<b>267.880 Thesis</b>	<b>90 credits</b>		
Course enables students to conduct and report research using academic research conventions.			
<b>267.881 Thesis 90 Credit Part 1</b>	<b>45 credits</b>		
Course enables students to conduct and report research using academic research conventions.			
<b>267.882 Thesis 90 Credit Part 2</b>	<b>45 credits</b>		
Course enables students to conduct and report research using academic research conventions.			

## 268

## Māori Medium Primary Teaching

**268.107 Te Aho Matua Taiao o ngā Kura Kaupapa Māori I** 15 credits

He fīmatanga ki te titiro ki te tū ngaiotanga o te kaiako, ki ngā akoranga taiao Māori, whakahaere ā-akomanga, te ako takitahi, ā-rōpū, ā-akomanga, ā-marautanga hoki e hāngai pū ana ki Te Aho Matua. An introduction to the professional role of the teacher with reference to Te Aho Matua and to Māori medium professional practices, classroom organisation, learning of individuals and groups, learning environments and key curriculum areas.

**268.110 Te Hā** 15 credits

He titiro ki te āhua o te tū i runga i te marae, me te ako i ngā tikanga me ōna reo. An introduction to the knowledge, language and customary practices pertaining to the elements of marae as a context for education.

**268.120 Tikanga Pāngarau I** 15 credits

Ka fīmata te ako i ngā whakamārama me ngā tukanga o te akoako pāngarau ki tā te Māori titiro, ki tā te Pākehā titiro, me tōna whakamahinga ki te reo Māori. An introduction to the processes of numeracy learning in te ao Māori and western contexts and its application to numeracy learning in te reo Māori.

**268.121 Te Kupu Tā I - Pānui Tuhituhi i Te Kura Kaupapa** 15 credits

He fīmatanga kia mārāma ki ngā tukanga o te ako i te pānui ki tā te Māori, ki tā tauīwi, me tōna whakamahinga ki Te Reo Māori. An introduction to the processes of literacy learning in Te Ao Māori and western contexts and their application to literacy learning in Te Reo Māori.

**268.130 Te Irarua 15 credits**

He whakamātau i te orokohanga mai o te tipuranga mai o te tangata ki tōna ake ao ki tā te whānau, hapū, iwi titiro, ā, he aronga ā-wairua, ā-hinengaro, ā-tinana. An introduction to the self in relation to cosmological narratives, the life-span of human development and learning from Māori whānau, hapū, and iwi perspectives.

**268.131 Te Aho Matua Marautanga I 30 credits**

He fīmatanga tēnei ki te wherawhera i ngā ariā me ngā āhuatanga ako, me te whakaako ki ngā akoranga ā tini e hangai pū ki ngā marautanga e whakaakohia ana i roto i ngā kura tuatahi tae atu hoki ki ngā kura taiao Māori. Mā te ako i ngā āhuatanga e pā ana ki ngā Pou Toi e whai kiko e whai tikanga, e whakatinana ai ēnei āhuatanga katoa. An introduction to the theory and practice of learning and teaching through a multidisciplinary approach to subject knowledge relevant to primary schools and Māori Medium sites. Subject knowledge is explored through the practical application of Māori performing and visual arts.

**268.207 Te Taiao mō Te Aho Matua o ngā Kura Kaupapa Māori II 30 credits**

Ka ako te tauria ki te whakariterite i te taiao ako mā te whakamahi i ngā akoaranga katoa o te tau tuatahi. Me whakawhanake te ākongia i ngā pukenga whakahaere, i ngā rautaki whakaako, i ngā mahinga aromatawai ki tā Te Aho Matua tauria. Students will learn to prepare the learning environment by drawing on their learnings from the first year. Using Te Aho Matua as a framework, students develop management and pedagogical strategies and assessment practices.

**268.211 Te Tiringa 15 credits**

He whakawhānui i te mātauranga i te reo me ngā tikanga o te marae hei ako, hei whakaako i ēnei mātauranga. He āta titiro kia mārāma te ahurei o te tamaiti me tōna whānau i ngā taiao ako. Further development of the knowledge, language and customary practices pertaining to the marae as a particular context for educational exchange and knowledge transfer. There is an emphasis on the uniqueness of the individual child and their whānau within diverse learning settings.

**268.217 Te Kawa o Te Kura II 30 credits**

Me whakawhanake te ākongia i ngā pukenga whakahaere, ngā rautaki whakaako, ngā mahinga aromatawai ki tā Te Aho Matua tauria. Using Te Aho Matua as a framework, students develop management and pedagogical strategies and assessment practices.

**268.220 Tikanga Pāngarau II 15 credits**

Ka whakawhanakehia ētahi mātauranga pāngarau Motuhake me ngā ariā pāngarau hei kawē i te pāngarau i roto i te ako reo Māori. Development of specific mathematical concepts and pedagogical knowledge for teaching of mathematics in the Māori medium.

**268.221 Te More 15 credits**

He whakawhanake i ōna māramatanga ki ngā kawenga mō te reorua, te reo-ā-tini ki tā te ao Māori rangahau mō te whakaako i te reo ā-pānui i roto i te Reo Rangatira. Development of an understanding of the processes for bi-lingual, multi-lingual literacy learning in Te Ao Māori and its research based application to literacy teaching in Te Reo Māori.

**268.222 Te Kupu Tā II - Te Pānui Tuhituhi i Te Kura Kaupapa Māori 15 credits**

He whakawhanake i ōna māramatanga ki ngā kawenga mō te reorua, te reo-ā-tini ki tā te ao Māori rangahau mō te whakaako i te kupu tā, arā ko te reo ā-pānui, ā-tuhituhi i roto i te Reo Rangatira. Kia hāngai ki te taiao o Te Aho Matua. Development of an understanding of the processes for bi-lingual, multi-lingual literacy learning in Te Ao Māori and its research-based application to literacy teaching in Te Reo Māori.

**268.230 Te Irarua II 15 credits**

Kia whānui atu tōna mōhio ki tōna tipuranga, ki tō ētahi atu, me te aro haehae i ngā hononga ki tā te Māori titiro. The study of the self and others, with a focus on an analysis of human relationships, interactions, knowledge development and learning within evolving Māori historical and social, cultural and spiritual contexts.

**268.231 Te Aro ā-Wai 15 credits**

He toro i ngā kaupapa tūtioka, mātauranga ā-marau, ngā whakaakoranga e pā ana ki tā te taiao Māori o Aotearoa. Ka aro nui ki ngā tikanga tawhito me ngā tīkanga hou e hāngai pū ana ki ngā hangarau me ōna whakamahinga, ki tā te tirohanga Māori. Interdisciplinary subject and curriculum knowledge and the

relevant pedagogy as applied to Māori medium education in Aotearoa New Zealand are explored. An emphasis on customary and contemporary Māori practices and their associated technologies.

**268.240 Te Ira Tangata o Te Aho Matua Ko Te Tupu o Te Tangata 15 credits**

Ka hohonu ake te ruku ki ngā māramatanga o Te Aho Matua ake me te tupu o te tangata i te ao nei. Kia whānui atu tōna mōhio ki tōna tipuranga, ki tō ētahi atu, me te aro haehae i ngā hononga ki tā te Māori titiro. A deeper exploration of Te Aho Matua itself and human development. The study of the self and others, with a focus on an analysis of human relationships, interactions, knowledge development and learning within evolving Māori historical and social, cultural and spiritual contexts.

**268.241 Te Marautanga o Te Aho Matua o ngā Kura Kaupapa Māori II: ko te tuitui i ngā kaupapa hei marautanga 15 credits**

Whai muri mai i Te Aro ā-Kapa i te tau tuatahi ka huri ke He tūhonohono tonu i ngā marau hei raro i te kaupapa matua e ai ki ngā Kura Kaupapa Māori. Ka aro nui ki ngā tikanga tawhito me ngā tīkanga hou e hāngai pū ana ki ngā hangarau me ōna whakamahinga, ki tā te tirohanga Māori. Ko te wai, ko te waka ama te tauria. After the introduction to the integrated curriculum approach, students will continue to develop their ability to integrate subjects under a principal theme in ways Kura Kaupapa Māori do. An emphasis on customary and contemporary Māori practices and their associated technologies. Water and waka ama provide the example.

**268.307 Te Taiao mō Te Aho Matua - te whakarite i te taiao ki te poipoi i te ako i roto i ngā Kura Kaupapa Māori III 30 credits**

Ka tūhonotia te kawa, ngā ritenga, ngā whakahaere, ngā whakamaheretanga kia tupu te taiao e tika ana mō Te Aho Matua, hei painga mō ngā tamariki. He āta arohaehae, he toro i ngā mahinga rangahau, i ngā whakaakoranga huritao, i ngā mahinga whakahaere mō tētahi wā roa ki tā Te Aho Matua. The combination of the protocol, the preparations, administration and planning appropriate for the Te Aho Matua environment maximising benefits for the children. An in-depth analysis and engagement in research-informed, reflective teaching and management practices for a sustained period using a Te Aho Matua framework.

**268.310 Te Puanga 15 credits**

He āta mātakitaki, he tauriterite i ngā kawa me ngā tikanga o tauwiwi, ki ērā o ngā iwi taketake hei aromatawai i ngā pātanga o tā tauwiwi aro ki te mātauranga me ngā pūnaha mātauranga. An examination and comparison of western perspectives of knowledge with Māori and indigenous world views in order to assess the implications of contemporary western perspectives on education and educational systems.

**268.317 Te Kawa o Te Kura III 30 credits**

He āta arohaehae, he toro i ngā mahinga-rangahau, i ngā whakaakoranga-huritao, i ngā mahinga whakahaere o ngā kura iwi-maha, o ngā kura Māori mō tētahi roa ki tā Te Aho Matua tauria. An in-depth analysis and engagement in research-informed, reflective teaching and management practices, in multicultural and Māori medium classrooms for a sustained period using a Te Aho Matua framework.

**268.320 Tikanga Pāngarau III 15 credits**

Ka āta rangahau i te mātauranga pāngarau me ngā ariā pāngarau me te āta aro ki te tika o te whakaako i te pāngarau i ngā ako Māori. Advanced study of mathematical concepts and pedagogical content knowledge for primary teachers with a focus on effective pedagogical practices in Māori medium settings.

**268.321 Te Weu 15 credits**

He āta rangahau i ngā whakaakoranga, i ngā aromatawai, i ngā whakahaere rerekē noa e hāngai ana ki te pai o te ako i te reo pānui ki ngā ākongia rerenga kē i tētahi taiao Māori. An in-depth study of differentiated instruction, assessment and management as it applies to effective practice of teaching literacy skills for diverse learners, within a Māori context.

**268.322 Te Kupu Tā - Te Pānui Tuhituhi i Te Kura Kaupapa Māori III 15 credits**

He āta rangahau i ngā whakaakoranga, i ngā aromatawai, i ngā whakahaere rerekē noa e hāngai ana ki te pai o te ako i te reo pānui, reo tuhituhi ki ngā ākongia rerenga kē i tētahi taiao Māori. An in-depth study of differentiated instruction, assessment and management as it applies to effective practice of teaching literacy skills for diverse learners, within a Māori context.

**268.330 Te Irarua III****15 credits**

Kia whānui atu tōna mōhio ki tōna tipuranga, ki tā ngā akomanga reorua, reo rūmaki, me te aro haehae i ngā hononga o tā te kaupapa Māori titiro ki te whānau, ki te hapū, ki te iwi i tēnei ao hurihuri. An in-depth study of the self within an array of Māori medium and mainstream educational contexts, with a focus on a kaupapa Māori theoretical analysis of whānau, hapū, iwi relationships, interactions, and learning within contemporary social, cultural and spiritual contexts.

**268.331 Te Aro ā-Tū, ā-Rongo****15 credits**

He āta aro i ētahi akoranga tawhito, akoranga hou a te Māori hei tūāpapa i ngā tūtioka ā-marau. Ka āta whakawhanakehia ki ngā marau me ōna mātauranga, ka whātoro hoki i ngā ariā o tā te taiao ako Māori kia āhei te whakahaere i ngā whakaakoranga tūtioka ā-marau. An in-depth study of customary and contemporary Māori practices using an interdisciplinary approach. Further development of subject and curriculum knowledge and the relevant pedagogy as applied to Māori medium education in Aotearoa New Zealand is explored to facilitate inclusive interdisciplinary teaching.

**268.340 Te Tino Uaratanga o Te Aho Matua - Ngā Hua o te Ako****15 credits**

Ko te tuituitanga o te katoa o ngā whāinga o Te Aho Matua e tohua ana ki Te Tino Uaratanga. Ka whakatupuhia ngā pūkenga o ngā taurira ki te āta aromatawai, arotake, anromātauria, arohaehae, aro ā-mihi i te taiao ako, i ngā tamariki anō hoki. The culmination of all the objectives of Te Aho Matua are outlined in Te Tino Uaratanga. Students' skills will be developed to critically assess, evaluate, moderate, critique and appraise the learning environment and learners. An in-depth study of the self within an array of Māori medium and mainstream educational contexts, with a focus on a kaupapa Māori theoretical analysis of whānau, hapū, iwi relationships, interactions, and learning within contemporary social, cultural and spiritual contexts.

**268.341 Te Marautanga o Te Aho Matua o ngā Kura Kaupapa Māori III: ko te tuitui i ngā kaupapa hei marautanga****15 credits**

Kia tū motuhake te taurira e waihangā ana i te marautanga o te akomanga kei reira a ia e whakangungu ana. He āta aro i ētahi akoranga tawhito, akoranga hou a te Māori hei tūāpapa i ngā tūtioka ā-marau. Ka āta whakawhanakehia ki ngā marau me ōna mātauranga, ka whātoro hoki i ngā ariā o tā te taiao mō Te Aho Matua. Independently create and implement the curriculum within the classroom the student is based for practicum. An in-depth study of customary and contemporary Māori practices using an interdisciplinary approach. Further development of subject and curriculum knowledge and the relevant pedagogy as applied to the Te Aho Matua environment.

**268.417 Te Kawa o Te Kura IV****30 credits**

He whai wāhi ki te rōnaki me te rangahau ā akomanga i ngā whakaakoranga i roto i te taiao Māori, ka whakamahere, ka whakahaere, ka pūrongo i tētahi kaupapa rangahau o ōna tirohanga ā-rōpū. An individual, research-informed supervised classroom enquiry, in a Māori Medium setting, where students plan, undertake and report on an investigation with a group of children.

**268.421 Te Aka****15 credits**

Ka āta arohaehae i ngā ariā, i ngā rangahau, i ngā tikanga ako o te pānui e aro nui ana ki te hanganga me te kawenga o te pānui mō ngā momo katoa. A critical analysis of theories, research and pedagogies of literacy with a particular focus on Māori literacy programme design and implementation for all learners.

**268.430 Te Kura Nui****30 credits**

He rangahau motuhake tēnei e aro nui ana ki ngā tikanga ako, tikanga whakaako o tā te Māori rānei, o tā tētahi iwi taketake rānei i roto i tētahi taiao ako whai tautoko. An in-depth self selected study of Māori or indigenous pedagogical theory and practice undertaken within a supervised field based inquiry.

**268.431 Te Aro ā-Tahi****15 credits**

He tātari, he arotakenga whakaritenga ā akomanga, whakanaungatanga ngaioatanga ki tā te kura, ki tā te hāpori, ki tā ngā kaupapa here. An analysis and evaluation of a whole-class programme and professional relationships in the wider context of school, community and policy environments.

**269****Māori Education****269.232 Multicultural Education****15 credits**

Education in multicultural societies. An examination of the significance of language and culture to learning and teaching through the study of policy, practices and processes, with special references to the New Zealand situation.

**269.332 Māori Issues in Education****15 credits**

A study of relationships between cultural values and education and of the extent of Māori educational needs and aspirations.

**269.372 Understanding Migrant Cultures in Aotearoa/New Zealand****15 credits**

A study of immigrants and immigration in Aotearoa/New Zealand with a focus on developing effective cross-cultural teaching skills.

**269.711 Policy and Development in Māori Education****30 credits**

The course provides a critical analysis of policies for Māori education and of selected education policies which impact on Māori education. The role of the state and of school, urban and iwi communities of influence in relation to particular perceptions of Māori, and therefore of appropriate educational policy and development and practice will be explored.

**269.732 Cultural Differences and Education****30 credits**

An examination of the sources and consequences of cultural differences and their interaction with educational practice.

**269.733 Mana Motuhake: Contemporary Issues in Māori & Indigenous Education****30 credits**

An analysis of power, politics and resistance that underpin a range of contemporary and topical social issues which impact on Māori and/or indigenous education. A critical examination of the role of advocacy, activism and protest in advancing Māori and indigenous rights and aspirations in the context of education.

**269.734 Mana Whānau: Whānau Engagement in Education****30 credits**

A critical examination of the role of whanau participation in education and the ways in which educators, educational institutions and organisations are able to engage with their Māori community to ensure successful social, cultural and educational outcomes for their Māori students within the paradigm of whanau ora.

**269.735 Mana Kura: Leadership in Māori Education****30 credits**

A critical examination of traditional and contemporary forms of Māori professional, personal and cultural leadership and the role of iwi, community and tribal organisations in educational governance.

**269.736 Mana Matauranga: Indigeneity, Innovation & Information****30 credits**

A critical examination of the role of information in indigenous societies and the impact of new technologies, social media, and the use of e-learning in indigenous education contexts.

**271****Speech and Language Therapy****271.150 Holistic Approaches to Communication Disorders****15 credits**

This course uses holistic and biopsychosocial frameworks to describe and understand the nature and impact of communication disorders across the lifespan. Environmental and conversational partner strategies are highlighted to promote communication access for children and adults with speech, language and communication support needs.

**271.151 Anatomy and Physiology of Speech and Hearing****15 credits**

An introduction to the anatomy and physiology of the speech and hearing systems in humans.

**271.154 Communication Development in Children 15 credits**

Explores communication development in children including communication milestones and the influence of sociocultural factors related to cultural and linguistic diversity and conversational partners' support.

**271.253 Early Years Language and Communication Support 15 credits**

An exploration of language and communication support needs in infants and young children and the application of evidenced-based early intervention that considers neurodevelopmental, ecological, and sociocultural factors.

**271.254 Speech Sound Disorders in Children 15 credits**

An examination of speech sound acquisition and the impact of speech sound disorders in children. Assessment and intervention approaches will be evaluated and applied to partnership-oriented and culturally safe practice with children and their families/whānau.

**271.255 Assessment Frameworks and Procedures for Speech-language Therapy Practice 15 credits**

This course introduces students to frameworks for planning and analysing assessments and provides supported opportunities to practice assessment procedures.

**271.256 Introduction to Speech-language Therapy Practice 15 credits**

This course supports students to begin to apply their speech-language therapy knowledge and skills to practice in well-supported contexts. The workplace learning is primarily with adults and/or children and their families/whānau.

**271.257 Language and Communication Support in Educational Contexts 15 credits**

An exploration of language and communication support needs experienced by school-aged children and young people in educational and community contexts. Support for their participation and learning in these contexts is based on evidence, neurodevelopmental, ecological, and sociocultural factors.

**271.258 Neurogenic Communication Disorders I 15 credits**

A theoretical and applied overview of neurological communication disorders, including acquired aphasia and related disorders.

**271.259 Deaf and Hard of Hearing 15 credits**

An exploration of the auditory system and functions, how these may be disrupted, and the lived experience of individuals who are deaf or hard of hearing. The course has a focus on assessment and support services, and strategies for facilitating communication across the lifespan.

**271.392 Augmentative and Alternative Communication 15 credits**

A study of augmentative and alternative communication for individuals with complex communication needs.

**271.393 Neurogenic Communication Disorders II 15 credits**

An examination of neurological cognitive communication disorders as a result of acquired brain injury including right hemisphere disorders (RHD), traumatic brain injury (TBI) and dementia.

**271.394 Motor Speech Disorders 15 credits**

An examination of motor speech disorders, such as dysarthria and apraxia that result from cortical injury, and the principles and practices of the assessment and management of motor speech disorders will be addressed.

**271.395 Fluency Disorders 15 credits**

This course examines fluency disorders that occur during childhood and into adulthood. Characteristics of fluency disorders, including related developmental and etiological factors, assessment and treatment methodologies, and relevant research, will be addressed.

**271.396 Field Work and Clinical Skills II 15 credits**

An extension of Fieldwork and Clinical Skills I focusing on more advanced issues related to fieldwork or clinical practice, including data collection for workplace and clinical/fieldwork with particular attention to developing and consolidating speech and language therapy clinical competencies, and tangata whenua case management.

**271.397 Adult Dysphagia 15 credits**

An examination of the assessment, analysis and interpretation, planning and management of swallowing disorders (dysphagia) in adults.

**271.398 Research Methods for Speech and Language Therapy 15 credits**

The study and application of research designs, relevant to current theory, research and practice, in speech and language therapy.

**271.486 Speech and Language Therapy Practice and Diverse Clinical Populations 15 credits**

An advanced examination of speech and language therapy clients with diverse communication disorders as associated with, for example, cleft palate, down syndrome or autism spectrum disorders. Interdisciplinary learning and whānau/family-centred practice associated with these disorders is also examined.

**271.487 Paediatric Dysphagia and Feeding Disorders 15 credits**

This course covers the neuro-anatomical and physiological principles of swallowing and feeding development in infants and children. The course will cover specific developmental disorders and conditions that contribute to or cause paediatric dysphagia and/or feeding disorders.

**271.488 Aural Rehabilitation, Assessment and Intervention 15 credits**

This course examines aural rehabilitation for children and adults with hearing disorders. Emphasis is given to auditory system function and disorders, audiologic assessment procedures and assessment of communication performance. Devices and technologies for individuals with hearing loss will be evaluated.

**271.489 Voice Disorders, Assessment and Treatment 15 credits**

The study of the assessment, analysis and interpretation, planning and implementation of evidence based interventions for voice disorders in adults and children.

**271.490 Advanced Topics in Speech and Language Therapy 15 credits**

This course involves in-depth evaluation of the evidence related to a topic relevant to current speech and language therapy practice.

**271.496 Advanced Clinical Course I 15 credits**

An application of Entry-level speech and language therapy clinical competency skills of professional communication, professional conduct, observation, data management and professional writing through participation in case management.

**271.498 Advanced Clinical Course II 15 credits**

This course addresses advanced aspects of clinical competency skills involved in working with clients and their whānau. Students will be responsible for assessment, treatment and management of children and adults with a variety of communication and swallowing disorders.

**271.710 Evidenced-Based Practice in Speech and Language Therapy 30 credits**

Advanced study of contemporary evidence-based practice in speech and language therapy. The implications of evidence-based practice in speech language therapy clinical settings are explored.

**271.711 Critical and Current Issues in Speech and Language Therapy 30 credits**

An in-depth evaluation and analysis of critical and current trends arising in, and impacting on the work of speech language therapy clinicians and researchers.

**271.712 Theoretical Issues in Speech and Language Therapy 30 credits**

Critical examination of theories and models and their impact on research and clinical practice in speech and language therapy.

**271.720 Research Report 30 credits**

A research project based on systematic and analytical consideration of theory, research methods, practice and culture in speech therapy.

**271.786 Advances in SLT and Diverse Clinical Populations 15 credits**

An advanced analysis and evaluation of communication disorders associated with diverse clinical populations, for example, cleft palate, down syndrome or autism spectrum disorders. Approaches to practice for complex cases is considered with a focus on interdisciplinary practice, embedded interventions, and communication partner engagement.

**271.787 Advanced Paediatric Dysphagia and Feeding Disorders** **15 credits**

The advanced study of neuro-anatomical and physiological principles of feeding and swallowing skills from a developmental perspective. Investigate specific developmental disorders and conditions that contribute or cause paediatric dysphagia and/or feeding disorders.

**271.788 Advances in Aural Rehabilitation** **15 credits**

This course examines aural rehabilitation for children and adults with hearing disorders. Emphasis is given to advances in evidence-based practice relating to assessment and intervention associated with hearing disorders.

**271.789 Advanced Voice Disorders, Assessment and Treatment** **15 credits**

The advanced study of the assessment, analysis and interpretation, planning and implementation of evidence-based interventions for voice disorders in adults and children.

**271.796 Advanced Clinical Practicum 1** **15 credits**

Develop Entry-level competency in clinical skills related to current evidence-based practice across a range of complex communication and swallowing disorders in children or adults.

**271.798 Advanced Clinical Practicum II** **15 credits**

This course addresses advanced aspects of speech and language therapy Entry-level clinical practice and the theoretical frameworks that underpin assessment and intervention.

**271.808 Thesis 120 Credit Part 1** **60 credits**

A supervised and guided independent study resulting in a published work.

**271.809 Thesis 120 Credit Part 2** **60 credits**

A supervised and guided independent study resulting in a published work.

**271.810 Thesis** **120 credits**

A supervised and guided independent study resulting in a published work.

**272****Applied Linguistics****272.702 Second Language Learning Theories and Processes** **30 credits**

A critical examination of theoretical perspectives accounting for second language learning processes.

**272.703 Contemporary Approaches to Language Teaching Methodology** **30 credits**

A critical survey of different approaches and methods used to develop language skills.

**272.704 Contextualising Curriculum and Materials Design** **30 credits**

A study of the principles, practice and contextualised nature of curriculum and materials design.

**272.705 Advanced TESOL for diverse learners and contexts** **30 credits**

An advanced and critical survey of current trends, policy, theory, and practice for diverse learners and contexts.

**272.715 Current Issues in Applied Linguistics** **30 credits**

A critical examination of current issues in applied linguistics research from both theoretical and practical perspectives.

**272.800 MPhil Thesis** **120 credits**

A supervised and guided independent study resulting in a published work.

**272.801 MPhil Thesis 120 Credit Part 1** **60 credits**

A supervised and guided independent study resulting in a published work.

**272.802 MPhil Thesis 120 Credit Part 2** **60 credits**

A supervised and guided independent study resulting in a published work.

**Linguistics****272.816 Thesis 120 Credit Part 1** **60 credits**

A supervised and guided independent study resulting in a published work.

**272.817 Thesis 120 Credit Part 2** **60 credits**

A supervised and guided independent study resulting in a published work.

**Applied Linguistics****272.873 Research Report** **60 credits**

A supervised and guided independent study.

**272.881 Thesis 90 Credit Part 1** **45 credits**

A supervised and guided independent study resulting in a published work.

**272.882 Thesis 90 Credit Part 2** **45 credits**

A supervised and guided independent study resulting in a published work.

**272.883 Thesis** **90 credits**

A supervised and guided independent study resulting in a published work.

**Linguistics****272.899 Thesis** **120 credits**

A supervised and guided independent study resulting in a published work.

**Applied Linguistics****272.900 PhD Applied Linguistics** **120 credits****273****Adult Education****273.721 Knowledge and Power in Tertiary Education** **30 credits**

This course involves critical reflection on the relationship between knowledge and power within the teaching/learning process. Concepts and theories within the sociology of knowledge are applied to tertiary education contexts.

**273.722 Adult Learning: Myths and Realities** **30 credits**

This course examines in depth the development of thinking about adult learning and critically evaluates adult learning theories and their relevance to current New Zealand contexts and participants' own teaching practice.

**273.723 Cultures and Learning: Diversity in Tertiary Education** **30 credits**

This course critically examines how people are expected to learn in selected cultural contexts explores participants' own attitudes to cultural diversity and enables construction of practical strategies to provide effective learning experiences in diverse cultural contexts.

**273.724 The Expert Teacher of Adults: Principles and Practice** **30 credits**

This course critically examines concepts such as expertise, quality teaching, the student experience and student outcomes in adult teaching. It considers the impact of new technologies on tertiary teaching and training; and evaluates the implications of research for the participant's own practice in diverse cultural contexts.

**273.725 Leadership and Communication in Tertiary Education** **30 credits**

This course critically examines the concepts of leadership and communication in tertiary education contexts, and develops a practical insight into the uses and misuses of those concepts and their related practices in specific teaching/learning contexts.

**273.784 Learning and Teaching in Tertiary Education** **30 credits**

This course introduces participants to and extends their understanding on theories and practices of tertiary teaching, including theories of learning and motivation relevant to learners in tertiary and professional contexts. Participants will apply their learning in their own practice.

**273.785 Assessment and Evaluation in Tertiary Education** **30 credits**

This course offers an in-depth examination of principles, theories and practices underpinning diverse assessment tools, models and approaches in tertiary contexts to facilitate student learning. The course will enable participants to examine assessment policy in context, and create assessment approaches within their practice.

## 274

## Physical Education and Health

**274.707 Issues in Health and Physical Education 30 credits**

An advanced analysis of the theory and practice of health and physical education through a range of international/national perspectives on cultural issues and controversies with consideration to the Treaty of Waitangi.

## 275

## Human Development

**275.102 Human Development 15 credits**

An introduction to the study of lifespan human development and learning within changing social and physical contexts.

**275.202 Development through Relationships 15 credits**

Investigates lifespan development within the context of relationships from an attachment perspective.

**275.203 Development in Childhood 15 credits**

An examination of physical, cognitive and psychosocial development during infancy and childhood in diverse contexts.

**275.204 Adult Development 15 credits**

A consideration of the developmental characteristics of adults in various contexts.

**275.208 Development in Adolescence 15 credits**

An examination of the physical, cognitive and psychosocial development during adolescence and emerging adulthood in diverse contexts.

**275.237 Narrative in Human Development 15 credits**

An introduction to narrative as a research methodology in human development through the thematic analysis of autobiography.

**275.304 Development of Gender 15 credits**

An in-depth study of gender development across the lifespan, including consideration of biological, sociological, and developmental perspectives of gender.

**275.320 Risk and Resilience across the Lifespan 15 credits**

An applied study of human development, examining risk, protective, and promotive factors which contribute to resilience and positive developmental outcomes across the lifespan.

## 276

## Mathematics Education

**276.330 Mathematics and Literacy in Society 15 credits**

An exploration of the importance of being literate and numerate through an indepth study of our engagement with mathematics and literacy in everyday life.

**276.396 Mathematics in the Middle Years 15 credits**

This course examines the development of mathematics knowledge in the middle years with a focus on the development of students' mathematical thinking and understanding of rational numbers, algebra, geometry and measurement, and statistics.

**276.700 Developing Mathematical Inquiry Communities 30 credits**

An in-depth study of the research, theory and evidence-based practices associated with mathematical inquiry aimed at raising student achievement. Participants will analytically investigate how mathematical inquiry learning communities are constructed and how they support all learners to engage in mathematics at a high level of achievement.

**276.731 STEM in Education and Society 30 credits**

Students will develop scholarship, engagement, and teaching in the areas of science, technology, engineering, and mathematics (STEM).

**276.782 Mathematics Education 30 credits**

An exploration of the role of mathematics in education and society - with a focus on the nature of mathematics, the mathematics curriculum and learning theories and trajectories associated with rational number, algebra, geometry and statistics.

**276.784 Current Issues in Teaching Mathematics 30 credits**

A critical study of contemporary pedagogical issues in mathematics education, including issues related to the social context, learning and assessment and the culture of mathematics teaching.

**276.785 Making Mathematics Accessible 30 credits**

An in-depth study of the research, theory and evidence-based practices associated with equitable classroom practices that make mathematics accessible for all learners.

## 278

## Primary Teaching

**278.410 Professional Practice 1 (Primary) 30 credits**

This course provides an introduction to professional practice in primary school settings in Aotearoa New Zealand, through observation, teaching, critical self-reflection and evaluation of practice.

**278.411 Professional Practice 2 (Primary) 30 credits**

This course provides further development of professional practice in primary school settings in Aotearoa New Zealand, through observation, teaching, critical self-reflection and evaluation of practice.

**278.412 Curriculum and Pedagogy A (Primary) 30 credits**

This course introduces students to the theory and practice of curriculum, pedagogy and assessment in the context of primary school settings in Aotearoa New Zealand guided by commitment to Te Tiriti o Waitangi and tangata whenuatanga.

**278.413 Curriculum and Pedagogy B (Primary) 30 credits**

This course provides further development of the theory and practice of curriculum, pedagogy and assessment in the context of primary school settings in Aotearoa New Zealand guided by commitment to Te Tiriti o Waitangi and tangata whenuatanga.

**278.420 Teaching Experience I 15 credits**

A preparation for professional practice in school contexts, through teaching, critical self-reflection and evaluation of practice. Students will critique theory, content knowledge and pedagogical content knowledge in light international research.

**278.421 Teaching Experience II 15 credits**

An advanced preparation for professional practice through the application, integration, synthesis, and critical self evaluation of theory, content knowledge and pedagogical content knowledge in light of international research.

**278.422 Teaching in Context I 15 credits**

An examination of the roles and responsibilities of teachers in promoting learning for all learners. Drawing on international research, students will reflect on themselves as learners and teachers together with factors that influence learning and teaching.

**278.423 Teaching in Context II 15 credits**

An examination of the roles and responsibilities of teachers in promoting learning. Drawing on international research students will reflect on and critically analyse the relationship between social, cultural, historical, and contemporary educational contexts and their influence on learning and teaching.

**278.424 Mathematics Teaching in the Primary School 15 credits**

A study of content knowledge and pedagogical content knowledge for teaching mathematics in primary schools in Aotearoa/New Zealand.

**278.425 Effective Pedagogy in Mathematics 15 credits**

A study of the teaching of mathematics for diverse learners in primary classrooms in Aotearoa/New Zealand.

**278.426 Literacy Development and Pedagogy 15 credits**

An evaluation of the theory and practice of the teaching of reading and writing. An examination of the processes involved in skillful reading and writing and analysis of research-based practices in reading and writing instruction at the primary levels.

**278.427 Literacy Assessment and Instruction 15 credits**

An examination of the theory, research, and methods of reading and writing assessment that inform instruction.

**278.428 Education in Science, Social Science and Technology 15 credits**

An overview and critical appraisal of the theory and practice of learning and teaching in Science, Social Science and Technology through an inquiry-based approach to curriculum knowledge, content knowledge and pedagogical content knowledge relevant to primary school education in Aotearoa/New Zealand.

**278.429 Education in the Arts, Hauora and Learning Languages 15 credits**

An overview and appraisal of the theory and practice of learning and teaching in the Arts, Hauora and Learning Languages through a multidisciplinary approach to curriculum knowledge, content knowledge and pedagogical content knowledge relevant to primary school education in Aotearoa/New Zealand.

**278.461 Classroom Enquiry 15 credits**

An individual, research-informed supervised classroom enquiry where students plan, undertake and report on an investigation with a group of children in order to refine teaching, diagnostic and formative assessment skills.

**279****Social Policy****279.101 Social Policy: An Introduction 15 credits**

A foundational knowledge of social policy, providing a broad introduction introducing students to the history of social policy in Aotearoa New Zealand and key theories and concepts informing the development of social policy.

**279.201 Social Policy: Concepts and Theories 15 credits**

An exploration of the influence of different political theories and key concepts (such as freedom, equality and justice) on the development of social policy in New Zealand. Applications to contemporary policy case studies are included.

**279.203 Law, Government and Social Policy 15 credits**

An introduction to law, politics and the role of government in a democratic society. Examination of the constitutional framework of government in New Zealand and focus on the part played in public policy processes by the executive, legislative and judicial branches of government. A number of specific statutes are studied as examples of the outcomes of legislative processes.

**279.301 Government Policy, Planning and Administration 15 credits**

An examination of government policy, planning and administration. Attention will be focussed on providing the conceptual tools for analysing the policy process and then applying them to specific legislation.

**279.302 Policy Research and Evaluation 15 credits**

An examination of the relationship between policy and research and the concepts, techniques and issues involved in policy and programme evaluation. The course includes practical experience in evaluation research.

**279.401 Social Policy Evaluation 15 credits**

An examination of social policy programmes and/or legislation which provides students with an opportunity to explore areas of particular interest.

**279.701 Social Policy and Political Economy 30 credits**

An advanced study of the nature and prospects for social policy (and the welfare state in particular) in contemporary societies. An examination of

key political concepts, alternative models of political economy, competing theoretical perspectives of the state and social policy, and empirical developments both in New Zealand and internationally.

**279.703 Social Policy Studies 30 credits**

A critical review of social policy in New Zealand with particular emphasis on policy processes, institutional frameworks, social policy delivery systems, outcomes.

**279.796 Research Report (30) 30 credits**

A systematic enquiry into an area of public policy which is to be presented in the form of a research report. The policy analysis will be expected to use appropriate research techniques, and most typically will be in the form of a piece of applied policy or programme evaluation.

**279.798 Research Report (60) 60 credits****279.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**279.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**279.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**279.816 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**279.817 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**279.873 Research Report Social Policy (60) 60 credits****279.881 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**279.882 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**279.898 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**279.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**279.900 PhD Social Policy 120 credits****280****Process and Environmental Technology****280.016 Elementary Meat Science 30 credits**

Elementary chemistry, biology and physics as they apply to meat science. Atomic and molecular structure, bonding, chemical equilibria, acids and bases as well as an introduction to organic chemistry. Biological systems including single and multicellular organisms. The study of force, work, energy, heat, light and electricity.

**280.017 Elementary Meat Mathematics 15 credits**

Elementary mathematics applicable to the operation of a meat processing plant including mathematical principles as linear equations and statistics.

**280.101 Animal Production Through to Carcass Classification 15 credits**

Current and future practices for meat production from farm to carcasses leaving the slaughter floor. Topics include animal growth and development, genetics and breeding, on-farm opportunities to influence carcass and meat quality, pre-slaughter handling of meat-producing animals, slaughter and carcass dressing procedures, carcass classification, animal welfare, occupational safety and health, and factory farming.

**280.102 Preparation and Preservation of Fresh Meat 15 credits**

The microbiology, biochemistry and technology involved in the production of fresh and frozen meat and meat products as well as ways of increasing their

chilled and frozen shelf life. Includes a review of hazardous microbes carried by fresh meat and meat products and their control in a modern processing facility.

### **280.103 Meat Plant Services and Utilities 15 credits**

Theory and application of services into the meat plant, including refrigeration, steam, hot water, air and the supply of potable water and the handling of wastewater as well as other waste streams. Issues such as waste minimisation, legislation environmental management, and resource optimisation will also be considered.

### **280.104 Co-products Derived from Meat Animals 15 credits**

Technology including the applied microbiology and chemistry involved in the processing of hides and pelts to the finished leather stage, inedible and edible processing of blood, foetal blood and co-products, casings, specialised chemicals, collagen and yields for the various co-product options.

## **Process Engineering**

### **280.105 Quality Assurance for the Meat Industry 15 credits**

Food safety from farm to the consumer's plate will be examined using methods for product and process control and improvement including, HACCP, risk management, ante- and post-mortem inspection, auditing principles, general food safety principles and occupational safety and health. Consideration will also be given to current legislation and OMAR requirements that impact on the meat processing industry.

## **Process and Environmental Technology**

### **280.106 Added-Value Processing of Meat and Meat Products 15 credits**

The chemistry, microbiology and processing of the production of a wide range of added value meat products will be covered in the course. Topics include restructured meat technologies, hamburger manufacture, ready-to-eat meals, packaging, canned products, surimi processing, bone and mechanically recovered meat processing, tallow refining, fine chemical processing, additive properties and uses, yields and product costing.

### **280.107 Automation & New Technology in the Meat Industry 15 credits**

Introduction to automation, new technology and product development methods in the international meat industry including consideration of drivers and constraints and case studies. Technologies covered will include but are not limited to: sensors and machine vision, data capture, traceability, factory farming, biotechnology, cultured meats, and advances in packaging, preservation, decontamination.

## **Process Engineering**

### **280.201 Industrial Microbiology 15 credits**

An industry focused course in microbiology with particular reference to the importance of microorganisms and their application in selected industries. This programme of study examines the growth and control of industrially important microorganisms, the role of microbes in the production of food products, their application in both waste treatment and in industrial fermentation, and the role of microbes in the health sector. A laboratory course.

### **280.271 Heat and Mass – Conservation and Transfer 15 credits**

This course extends the concepts of the conservation and transport of heat and mass and thermodynamics in processing systems, the material and system properties that affect these processes and the sourcing or prediction of appropriate material and system data. Unit operations in food or chemical processing industries will be used to demonstrate the application of these principles. A practical course.

### **280.272 Fluid Flow and Particle Technology 15 credits**

This course extends the concepts of fluid flow and particulate systems. The principles of fluid mechanics and characterization of rheological properties are applied for Newtonian and non-Newtonian fluids. The characterization and dynamics of particulate systems are introduced and applied to unit operations used in the food and chemical industries, such as cyclones, settlers, centrifuges, fluid beds and filtration. A practical course.

### **280.273 Engineering Properties of Food and Food Systems 15 credits**

This course introduces methods to measure, predict and calculate the thermo-physical engineering properties of complex food systems including heat transfer, mass transfer, thermodynamic and Newtonian and non-Newtonian

fluid properties. Refrigeration, fluid flow, and mass transfer based unit operations from the food industries are examined and used to demonstrate the application of these principles and properties. A practical course.

### **280.304 Bioseparation and Purification Processes 15 credits**

The principles and practice of bioseparations and purification processes. The following unit operations will be included: distillation, leaching, liquid/liquid extraction, protein fractionation, flocculation and chromatographic separations. A laboratory course.

### **280.341 Environmental Technology 15 credits**

This course will review physical, chemical, and biological principles and processes to treat pollutants with emphasis on the design and operation of biological treatment processes based on bioenergetics and biokinetics principles. Students are introduced to the processes for waste management, nutrient removal, hazardous pollutant detoxification, energy generation from waste, and the use of algae and macrophytes in environmental technology.

### **280.371 Process Engineering Operations 15 credits**

The application of engineering principles to operations used in the food or chemical processing industries. Operations such as evaporation, drying, membrane technologies, refrigeration and process cooling systems will be used as examples of how the underlying principles of thermodynamics, conservation and transport of heat, mass and momentum can be used to select, design and optimise industrial processes.

### **280.372 Reaction Technologies and Process Modelling 15 credits**

A systematic approach to modelling processing operations in terms of heat, mass and momentum transfer. Modelling reactions and reactor systems to predict the progress of reactions in food preservation and processing operations, chemical and enzymatic catalysis, and biochemical reaction systems. A laboratory course.

### **280.702 Process Control 15 credits**

Practical process control techniques including tuning single proportional integral derivative controllers, choosing appropriate control loops for a processing plant and measurement instrumentation. An overview of advanced control techniques. Programmable logical controllers. A practical course.

### **280.721 Process Improvement 15 credits**

This course critically appraises key industrial processes by establishing their core reaction engineering and thermodynamics, identifying theoretical limits in terms of material and heat balances across product life cycles and by defining their current effectiveness. 'Potential for further improvement' is evaluated, such as new emerging competitor processes, alternative reaction pathways, process intensification concepts, hazard mitigation, or emerging life cycle custodianship practises.

### **280.760 Industrial Refrigeration 15 credits**

The customer/contractor interface and preparation of specifications; ozone depletion, global warming and refrigerant choice; estimation of heat loads; prediction of chilling and freezing and design of chillers and freezers; product weight loss; refrigeration plant layout and design; operational efficiency of refrigeration systems; absorption refrigeration; water vapour and refrigeration.

### **280.771 Chemical and Bioprocess Engineering 15 credits**

Integrated design of processes based on the application of thermodynamic and transport phenomena principles. Systematic methods for the development of dynamic modelling, simulation and visualisation of heat and mass transport applied to chemical and bioprocessing industries.

## **281**

## **Electronics and Information Engineering**

### **281.272 Signals and Systems 15 credits**

A study of signals and linear systems and their applications in modern engineering. Representation of continuous and discrete time signals and systems in the time and frequency domains. Stability, feedback, sampling and aliasing. Introduction to design of analogue and digital filters. Provides a foundation for later studies in control engineering, advanced signal processing and communications.

**281.273 Communication Network Architectures 15 credits**

This course presents the underlying concepts for modern communication network architectures, which includes an overview of network architectures and their functions. It explores the fundamental operating principles of current physical systems that transport electrical signals across a network. It investigates technologies that enable the transmission of vast quantities of information across a modern network.

**281.281 Analogue Electronic Systems 15 credits**

This course builds on the fundamentals of DC and AC electrical circuit analysis. It provides an introduction to the design and building of analogue electronic systems. The course will cover a blend of circuit theories, operational amplifier circuits and applications, filters, oscillators, diodes and transistors circuits.

**281.282 Digital Electronic Systems 15 credits**

This course builds on the fundamentals of digital logic and the principles of computing. It provides the methodology for designing and building complex digital electronic systems. The topics are a blend of combinatorial circuits, sequential circuits, finite state machines, and Field-Programmable Gate Arrays (FPGAs). It establishes a foundation for further advanced design in embedded systems.

**281.353 Control Engineering 15 credits**

This course provides the foundation for the analysis and implementation of feedback control systems. Design and tuning of PID and other linear controllers to meet time and frequency specifications are studied in detail. Both analogue and digital control are considered. Non-linear control is introduced through fuzzy logic control. Practical engineering applications are used to illustrate theory and concepts.

**281.362 Multimedia Content Creation 15 credits**

A creative, hands-on course exploring multimedia content creation and delivery using a range of professional editing and authoring software.

**281.363 Design for Multimedia Systems 15 credits**

Individual and group project work supported by project-centred lectures on issues and technologies supporting multimedia systems design and development.

**281.374 Communication Systems 15 credits**

A study of modern communication system fundamentals including wireless communications. This course builds a sound understanding of how communication systems work, covering practical communication systems. Topics include random process and bandpass signaling principles, analogue and digital modulation, communication circuit components, basics of error control coding, and advanced wireless communication technologies.

**281.375 Data Communication Networks 15 credits**

The Internet is a fundamental platform for communication in our world. The architecture and protocols of this network of networks are essential to how they operate. This course focusses on the associated multi-layer protocol structure of the Internet by showing how it is constructed and how protocols underpin the variety of applications developed to support business, education and social networking.

**281.384 Embedded Systems Design 15 credits**

This course lays the foundation for designing and building embedded electronic systems. The topics are a blend of advanced features of a modern mixed-signal microcontroller, real-time operating systems (RTOS) and Field-Programmable Gate Arrays (FPGAs)

**281.385 Advanced Electronic Circuits 15 credits**

This course covers the foundation for designing and building advanced electronic circuits and systems. It also lays the foundation for more advanced studies in electronic circuits. The topics are a blend of electronic circuits, sensor interfacing and instrumentation amplifiers, low-noise amplifiers, oscillators and filters, radio frequency and communication circuits, power amplifiers, power supply design fundamentals, and phase locked loops.

**281.755 Digital Signal Processing 15 credits**

This course studies the processing of discrete-time signals in the time and frequency domains. Students are introduced to the design and realisations of digital filters; the theory and application of transform techniques including discrete Fourier transform and discrete wavelet transform; the application of multi-rate signal processing concepts to efficient sample rate conversion and filter banks; and adaptive filtering algorithms.

**281.756 Image and Video Processing 15 credits**

Fundamental image processing operations are introduced, including point operations, linear and non-linear local filters, segmentation and classification operations. Several different vision systems are examined in detail. Machine vision system design is considered, analysing both technical and economic feasibility. Image and video compression technologies are analysed, with particular emphasis on transform coding. Techniques for the mitigation of compression artefacts are discussed.

**281.776 Advanced Communication Engineering 15 credits**

This course covers the foundation of modern communication systems, satellite communication systems and wireless networks. It provides an in-depth study of the wireless medium, wireless network planning and operation, communication systems and standards. There is thorough examination of advanced topics including equalization, rake receivers, MIMO & smart antenna systems, wireless network security.

**281.785 Advanced Computer Engineering 15 credits**

A study of the architecture of computer systems. It investigates different number representations and techniques of computer arithmetic. Multi-core and multi-processor systems are introduced and techniques for managing concurrency are covered. This course builds an understanding of the design and development of microprocessors and microcontrollers.

**281.786 Advanced Micro- and Nano-electronics 15 credits**

This course will cover microelectronic and nanoelectronic devices, fabrication processes and CMOS integrated circuit design. CMOS integrated MEMS sensor design will also be introduced. Computer aided design tools will be used for design, layout and verification of integrated circuits.

**282****Mechatronics and Automation Engineering****282.260 Manufacturing Engineering and Computer Aided Design 15 credits**

This course provides students with knowledge in the working principles of, and the concepts needed to design for, traditional and modern manufacturing processes. Processes covered include a range of manufacturing methods dealing with plastics and metals. It also teaches Computer Aided Design (CAD) as an engineering communication and design tool. A practical course with projects that link manufacturing and CAD.

**282.371 Mechanics and Materials 15 credits**

Properties of materials including stress and strain, yield, strengthening methods and failure. Selection of materials by property profiles, and manipulation of material properties. Mechanics of materials including axial loading, shear, beams, torsion, stress concentrations and structures.

**282.372 Mechanism and Component Design 15 credits**

This course is a study of advanced static and dynamic analysis of loaded structures and mechanisms and it will introduce the finite element method of stress analysis.

**282.373 Fluid Mechanics & Thermodynamics 15 credits**

This course applies fluid mechanics to systems which might be encountered in engineering practice. Topics include fluid properties, hydrostatics, laminar and turbulent flow, energy and continuity equations in one dimension. The course also covers basic concepts of thermodynamics, including perfect gas properties and zero<sup>th</sup>, first and second laws.

**282.758 Simulation, Modelling and Optimisation 15 credits**

A practical course in modelling, simulation and optimisation of systems in industry.

**282.762 Robotics and Automation 15 credits**

A study of automation and industrial robotics, its elements and systems. This course uses projects that allow students to integrate multiple mechatronic and robotic systems capable of automating specific, repetitive tasks such as those commonly found in industry. Students will study the control of industrial robots and design vision systems for component identification. Subsystems will be integrated to follow a systems approach to the design of Industrial robotic applications with consideration of programming, control and process design. A practical, project based course.

**282.772 Industrial Systems Design and Integration 15 credits**

Design of mechatronic elements and components to form a working system. Review of sensors for integration into a microcontroller- and/or PC-controlled, mechatronics system. Robotics, the use of simulation packages to effectively analyse mechatronics systems, future manufacturing technologies and how they may impact on the field of mechatronics. A practical, project based course.

**282.778 Mechatronics 15 credits**

An advanced study of mechatronics design philosophy, its elements, and systems. The course focuses on motion control and interfacing, sensors and interfacing, microcontroller and programming applications, behaviour control and implementation, dynamics simulation of working machines, mechatronics in PC-based control system, integration of mechanical, pneumatic and electric and electronics systems. A practical, project based course.

**283****Agronomy****283.006 Pasture and Crop Production 15 credits**

An introduction to the importance of pastoral farming to New Zealand agriculture and the role of legumes in pastures. The identification, selection, and establishment of pasture species and crops, including weed control. The seasonality of pasture growth and matching pasture growth with animal requirements, through monitoring of grazing systems, supplementary feeding, and crop management.

**Agriculture/ Horticulture Plants****283.101 Plants in Agriculture 15 credits**

An introduction to the pasture, arable crop and tree species that are important to New Zealand's agriculture. The growth and development of agricultural plants, their responses to the environment, and how these responses affect both vegetative and reproductive yield. Identification of agricultural plants. Introduction to the identification and biology of weeds, pest and pathogens important to agricultural plant production.

**283.201 Pasture and Crop Agronomy 15 credits**

The husbandry of agricultural plants and the management of plant communities at the farm level. Topics include balancing pasture growth and animal demand, pasture assessment, pasture establishment, cash crops, growth and utilisation of forage crops and control of weeds and pests.

**283.301 Pasture Production and Practice 15 credits**

The practical application of pasture production and grazing management principles to grazing systems. An introduction to sward dynamics and the herbage factors influencing both the productivity and utilisation of grazed pastures.

**Agronomy****283.305 Arable Production 15 credits**

Production of arable and seed crops. Emphasis will be on achieving production objectives associated with yield and quality as well as the scheduling of key operations such as planting and harvesting. The physiological aspects of yield in arable and seed crops.

**283.311 Controlling Weeds 15 credits**

Aspects of weed biology will be studied to help understand how to obtain efficient and effective weed control. The full range of control techniques, both chemical and non-chemical, will be discussed. Students will learn how to develop integrated weed control programmes for their specific area of interest in agriculture, horticulture, forestry or conservation.

**283.321 Trees on Farms 15 credits**

A study of aspects of the biology and ecology of trees which influence their use on farms and in farming systems. Woodlots and wood products; biomass production and effluent disposal; agroforestry systems and forage production. The value of trees for soil stabilisation, shelter, amenity and landscape management.

**Agriculture/ Horticulture Plants****283.322 Landscape Revegetation 15 credits**

Consideration of plant and environmental factors affecting establishment of plants by informal means in the landscape; techniques for establishment of species - rich herbaceous and woody vegetation; maintenance factors affecting vegetation structure and species composition; links between ecological aspects of plant science and management of created landscapes.

**283.701 Advanced Pasture Production and Practice 15 credits**

An advanced course in the understanding and application of the principles of pasture production and pasture management to grazing systems. Each student will have an approved course of study designed to meet their individual requirements.

**Agronomy****283.702 Advanced Agronomy 30 credits**

Advanced studies in agronomy based on a selection of two modules from within the following: seed technology, seed science, arable crop, pasture management, pasture science, weed science and forestry.

**283.704 Urban and Farm Forestry 15 credits**

Advanced studies in forestry including management and environmental issues. Students are required to select either the farm forestry or urban forests and landscapes modules.

**283.707 Molecular Plant Breeding 30 credits**

An overview of methods used in plant breeding. Special emphasis is given to molecular breeding and breeding for tolerance to abiotic stress with topics including mapping, markers and QTL, transgenics, metabolomics, polyploidy, cytogenetics, tissue culture, IP and ethics. A block course allows students to see application of these techniques to plant breeding programmes in industry, and encourages discussion and networking.

**283.708 Quantitative Plant Breeding 30 credits**

A career development course on the application of quantitative genetics and plant breeding. Topics include objective setting, plant genetic resources, base population development, quantitative genetic variation, selection efficiency, selection of multiple traits, GXE interactions, line development, backcross breeding, recurrent selection and variety development. Two block courses allow students to visit plant breeders, and encourage discussion and networking.

**284****Horticulture(Production and Landscape)****284.101 Production Horticulture 15 credits**

The dynamic interaction between plants, people and the environment, primarily in the fruit and vegetable sectors. An integrative analysis of the underlying production systems, industry structures and organisation including an introduction to seed science and technology. An intensive practical programme.

**284.201 Horticultural Production Systems 15 credits**

An interdisciplinary study of the major vegetable and fruit production systems in NZ, and overseas. Different systems and subsystems will be analysed using indicators including productivity, quality, profitability and sustainability.

**284.301 Horticultural Crop Development & Yield 15 credits**

Physiological and applied aspects of monitoring, predicting and manipulating crop growth and development in production horticulture in order to optimize yield, quality and timeliness. Prediction of crop growth and development in response to changes in the environment and the associated decisions made by growers.

**Plant Health****284.322 Managing the Landscape 15 credits**

A study of the issues and processes of landscape management using botanic gardens and urban and rural parks as the study example. Topics include deterioration and restoration of vegetation and formation of long-term vegetation plans; managing biodiversity and visual value; formation of a management plan. Management processes include; inventory and evaluation;

development of goals for preservation, enhancement and use; and strategies for vegetation and visual quality. Field trips and field exercises are used to illustrate the study topics

## Agriculture/ Horticulture Plants

### 284.342 Horticultural Productivity and Quality 15 credits

The role of crop architecture and the modification of the aerial environment for optimising yield and pre-harvest product quality, as well as the factors affecting quality and shelf life of horticultural commodities through the handling chain.

## Horticulture(Production and Landscape)

### 284.703 Vegetable Production Science 15 credits

The science and production of quality vegetable products from establishment to harvest. Topics will align to student interests in vegetable crop science including: factors affecting productivity and quality, specialist production systems including root, tuber and leafy crops, crop nutrition, irrigation and harvest.

### 284.704 Fruit Production Science 15 credits

Production of quality products of subtropical, warm and cool temperate fruits. Topics meet student interest and could include factors affecting productivity and quality; manipulation of tree, flower and fruit development; biological production systems; pre-harvest factors influencing product quality; quality management.

### 284.741 Post-harvest Physiology 30 credits

Reviews the role of physiological principles in post-harvest systems. Topics covered depend upon class interests, and may include control of water loss, functions of cell walls and membranes; calcium; ethylene; chilling injury; genetic manipulation; modified atmospheres and non-chemical disease control.

## 285

## Plant Health

### 285.201 Understanding Plant Protection 15 credits

The importance of diseases, pests and weeds to horticultural, agricultural and forestry production, trade, gardening and conservation is outlined. The course introduces the biology of these organisms and gives an understanding of their management and control. An introduction to strategies available for chemical, non-chemical and integrated control methods is included together with examples. A course of practical work.

### 285.301 Controlling Plant Pests and Diseases 15 credits

Aspects of plant pest and pathogen biology will be studied to help understand how to obtain efficient and effective control. The full range of control techniques, both chemical and non-chemical, will be discussed. Students will learn about pests and diseases in their specific area of interest in agriculture, horticulture, forestry or conservation, be shown how to diagnose problems, and obtain experience in managing an integrated pest and disease control program in a simulated crop.

### 285.742 Topics in Advanced Plant Protection 30 credits

Selected topics in Advanced Plant Protection, including host defence and disease resistance mechanisms, weed control and herbicide activity, as well as principles and methods of integrated arthropod pest (insect and mite) management.

## 286

## Agriscience

### 286.101 Equine Production 15 credits

A study of equine production in New Zealand, and in other countries with major equine populations. Using the different equine production systems as examples, the processes from birth to intended use are compared. The effects of various industries' controls and regulations on owners, trainers and administrators are considered.

## Equine

### 286.131 Introduction to Equine Nutrition and Health 15 credits

An introductory course on principles and knowledge relevant to equine nutrition, behaviour and to selected disease management.

### 286.201 Equine Production 15 credits

An exploration of horse production systems within New Zealand with comparison to the methods used in other major equestrian countries. Using different equine production systems as examples, the processes from birth to intended use are compared including how the industry is controlled and regulated and the impact this has on owners, trainers and administrators.

### 286.211 Equine Reproduction and Breeding 15 credits

Aspects of stud management, reproductive anatomy and physiology, and factors that affect breeding management, fertility and conception, the onset of puberty, breeding season, fertility and conception, and parturition. Common health problems and applied nutrition of the foal, mare and stallion.

### 286.221 Structure and Function of the Equine Athlete 15 credits

Anatomy and physiology of the respiratory, cardiovascular and musculoskeletal systems of the horse; methods of assessment of these systems; alterations in normal function and the means to treat or manage these alterations.

### 286.222 The Equine Lower Limb 15 credits

Introduction and exploration of the basic and unique aspects of the tissues of the foot and lower limb of the horse. The emphasis is placed on the structure and functions of the moving parts of the lower limb, how alterations in the functioning of the limb can lead to changes in the horse's gait, and how corrective measures can be rationally proposed.

### 286.251 Equine Behaviour, Training and Welfare 15 credits

The course will describe the ethology of the horse. Particular emphasis will be placed on understanding the theory of learning and how it underpins basic training and training for the different disciplines. It will describe the welfare of horses associated with different equine management systems both in New Zealand and overseas. The legislation which protects horses will be described.

### 286.301 The Equine Lower Limb 15 credits

Exploration of the unique aspects of the tissues of the foot and lower limb of the horse. The emphasis is placed on the structure and functions of the moving parts of the lower limb, how alterations in the functioning of the limb can lead to changes in the horse's gait and how corrective measures can be rationally proposed.

### 286.321 Responses to Training in the Equine Athlete 15 credits

As the equine athlete is trained changes occur in the cardiovascular, respiratory and musculoskeletal systems. The basic and applied aspects, and the detection of changes, will be discussed, in the context of training regimens for different equine activities.

### 286.701 Advanced Equine Production 15 credits

An advanced course in the principles and practises of equine production. Emphasis will be placed on examining current industry practises relating to growth and development, health and injury, and industry organisation.

### 286.711 Equine Science 15 credits

Advanced studies of aspects of equine nutrition and reproduction. Students will be familiar with the principles of animal nutrition, metabolism and reproduction in other mammalian species, but will need to relate these to the horse by obtaining their own evidence from the literature and applying it to in-depth studies of selected aspects of nutrition and reproduction.

## 287

## Industrial Innovation

### 287.320 Product Design 15 credits

A study of the aesthetic and user-interface aspects of products focusing on the relationship of these aspects to engineering design. Key design techniques are introduced and practised through a series of activities based on a range of product applications.

**287.341 Quality Systems Design 15 credits**

The principles of quality systems including total quality management ISO system standards, Baldrige awards, organisational culture, the management of change and continuous improvement and workforce empowerment. Tools and principles for quality management such as quality function deployment, statistical process control and process capability analysis. An introduction to technological systems and the role of the technologist as a change agent and manager in such systems.

**Production Technology****287.342 Agile Manufacturing 15 credits**

Agile Manufacturing is the capability of surviving and prospering in a competitive environment by reacting quickly and effectively to changing markets, technologies and business relationships. This course explores how a company can become Agile through improving product development, technologies, production systems, information and people management within its organisation and developing appropriate strategies with its supply chain.

**Industrial Innovation****287.455 Advanced Industrial Management Practices 15 credits**

This course covers the development of professional skills essential for management roles in industrial businesses, e.g. in manufacturing, food and beverage, etc. It involves developing skills such as: managing conflict and change, building teams and setting goals; through the study of World Class manufacturing practices. This is achieved through case studies and relates to real-life scenarios through self-reflection. It also develops a defined career plan to attain management level positions in industry.

**287.706 New Product Development Practices 15 credits**

An advanced study of new product development principles and best practices that combined, provide structure and discipline for bringing successful new products and services to market. An analysis of new product development processes, market and customer research for product development decision making, and the tools, techniques and metrics that underpin new product development.

**287.733 Quality Management for Medical Laboratories 30 credits**

Principles of quality management using a management systems approach. Total quality and continuous improvements as they relate to the delivery of services. Application of the New Zealand Code of Good Practice and other documents relevant to the operation of medical laboratories, with particular emphasis on the validation of test methods, calibration and an understanding of repeatability and reproducibility. Quality systems management in the medical laboratory with particular reference to specific codes of good practice related to Medical Laboratory Science. The above topics will be set in the context of the basic principles of quality management.

**287.735 Quality Improvement 15 credits**

Concepts of and the major approaches to quality improvement. The full range of quality improvement methodologies, tools and techniques as well as team-based problem-solving methods.

**287.740 Innovation Management 15 credits**

An advanced course of study of innovation management practices applied to product innovation, including new product strategy, portfolio management, organisational management and performance measurement and knowledge management. Investigation of current literature and industry practice, applied to companies of different sizes and types.

**287.741 Quality System Development and Management 15 credits**

All organisations are required to effectively manage the quality of their goods and services, and that of the processes and systems that produce or deliver them. This course introduces the key principles of quality systems and their control and management. This includes core definitions, key theories, relevant standards, documentation requirements, and associated tools, methods and principles for managing and controlling quality.

**287.742 Business Process Improvement 15 credits**

In order to remain competitive all organisations need to continually improve their processes. Major approaches to business process improvement include business process reengineering, benchmarking, business excellence and six sigma (DMAIC). This course introduces the student to the major tools, techniques and strategic approaches to process improvement, applicable within any type of industry or organisation.

**287.743 Lean Operations 15 credits**

A Lean organisation is based upon the principles of creating customer value and minimising waste. This course reviews theory and techniques required to analyse operational performance and to design improved methods. It also considers the various approaches to implement a Lean transformation. The skills learnt could be applied in manufacturing, a supply chain or any service business.

**287.744 Advanced Manufacturing Strategies 15 credits**

Advanced studies of manufacturing and technological systems and the role of the technologist as a change agent and manager. Problem-solving skills, the Goldratt Thinking Processes, advanced scheduling concepts. Emphasizes the needs of technology managers, including the development of professional skills and thinking processes applied to improvement of systems. Significant components of case study, computer simulation laboratories, computer applications, group work.

**287.745 Lean Six Sigma 30 credits**

This course examines continuous organisational systems improvement using the philosophies, tools and techniques of lean six sigma. It covers core essential concepts such as value and waste; process variation; and performance measurement. The block courses utilise a range of practical games and activities that simulate: measurement studies and analysis; process and problem definition; and production or service delivery system improvement.

**287.886 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a thesis.

**287.887 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a thesis.

**287.888 Thesis 90 credits**

A supervised and guided independent study resulting in a thesis.

**287.897 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a thesis.

**287.898 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a thesis.

**287.899 Thesis 120 credits**

A supervised and guided independent study resulting in a thesis.

**289****Creative Media Production****289.100 Introduction to Creative Media Production 15 credits**

Students will be introduced to the challenges and responsibilities facing a new practitioner of the production of film, television, animation, visual effects, games, augmented reality, and emerging media. Through the lenses of intention, ethics, and reception, students will critically investigate their course work methodologies and products, gaining a greater understanding of their own values and processes as a creative practitioner.

**289.101 Introduction to Web Development 15 credits**

In this course students will be introduced to industry standard web platforms and authoring tools. Students will gain a creative and technical knowledge and understanding of media concepts and production processes essential for the production of interactive media on multiple platforms.

**289.102 Visualisation for Media Production 15 credits**

In this studio course students develop visualisation and rendering techniques to enable them to give visual form to abstract ideas and concepts. These visualisations will be applied to a range of formats including storyboarding, concept visualisation and character development.

**289.103 Introduction to Computer Animation 15 credits**

In this course students will be introduced to industry standard digital tools for 2D and 3D computer animation. Students will gain a creative and technical knowledge and understanding of character, movement and rendering processes essential for the production of computer animation.

**289.104 Introduction to Visual Effects 15 credits**

In this studio course students will develop and apply digital special effects techniques to a range of disciplines within visual effects production. Students will acquire fundamental skills with a range post-production tools including dynamics, particles, fluids, lighting and rendering.

**289.105 Introduction to Digital Video Production 15 credits**

In this course students will be introduced to industry standard digital video production tools and environments. Students will gain a creative and technical knowledge and understanding of camera, lighting, editing and post-production processes essential for the creation of moving image formats.

**289.106 Introduction to Game Technologies and Mechanics 15 credits**

In this course students will be introduced to industry standard digital tools for games. Students will gain a basic creative and technical knowledge and understanding of game mechanics, concepts and production processes essential for the production of games platforms.

**289.107 Introduction to Audio Production and Sound Design 15 credits**

In this course students will be introduced to industry standard digital audio production tools and environments. Students will gain a creative and technical knowledge and understanding of sound design concepts and audio production processes essential for the production of sound and music for multiple media and platforms.

**289.108 Introduction to Animatronics and Modelling 15 credits**

In this course students will be introduced to basic electronics and animatronics modelling. Students will gain a creative and technical knowledge and understanding of animatronics and modelling and physical computing required for the production of computer-controlled objects and physical effects.

**289.110 Introduction to Time-based Editing 15 credits**

In this course students will be introduced to industry standard digital tools for time-based editing. Students will gain a creative and technical knowledge and understanding of approaches and methodologies essential for editing material for film, television, animation, game, augmented reality and emerging media.

**289.111 Introduction to 3D Modelling and Texturing 15 credits**

In this course students will be introduced to industry standard digital tools for the creation of 3D assets. Students will gain a creative and technical knowledge and understanding of approaches and methodologies essential for the production of 3D assets for computer animation, visual effects, games, augmented reality and emerging media.

**289.112 Introduction to Scripted Film and Video Production 15 credits**

In this course students will be introduced to industry standard techniques for scripted film and video production. Students will gain a creative and technical knowledge and understanding of lighting and digital recording processes essential for the creation and development of externally-based (non-studio) scripted productions.

**289.113 Introduction to Prototyping for Creative Technologies 15 credits**

This course introduces students to industry standard prototyping techniques for creative media projects. The content covers hardware and software development, which includes basic electronics design, manufacturing processes, and micro-controller programming. Students can create software and hardware for a range of emerging media.

**289.114 Intro to Programming for Interactive Projects 15 credits**

In this course students extend their programming skills in a creative context. Students will gain a creative and technical knowledge of programming methodologies essential for the development of software, hardware, creative media production pipeline tools, and other emerging technology.

**289.115 Introduction to Producing and Directing 15 credits**

In this course students will be introduced to techniques and practices in producing and directing for creative media. Through practical and critical engagement, students will gain a creative and technical knowledge and understanding of approaches and methodologies essential for producing and directing for film, television, animation, visual effects, games, augmented reality and other emerging media.

**289.116 Introduction to Immersive Media 15 credits**

Students will be introduced to industry standard digital tools for immersive media. Students will gain a basic creative and technical knowledge and

understanding of immersive production technologies and concepts, and a critical understanding of a wide range of immersive applications.

**289.116 Introduction to Immersive Media 15 credits**

Students will be introduced to industry standard digital tools for immersive media. Students will gain a basic creative and technical knowledge and understanding of immersive production technologies and concepts, and a critical understanding of a wide range of immersive applications.

**289.120 Working with Scripted Material 15 credits**

Students will be introduced to the processes of reading, interpreting, and working with scripted content with the intent of realising the material through various creative media production practices. Students will work with scripts and student-created material for film, television, animation, game, augmented reality, and other emerging media, engaging with them through lenses of production, interpretation, self-reflection, and indigenous making.

**289.190 Creative Media Production Special Topic 1a 15 credits**

This course focuses on a particular aspect of creative media production at introductory level focusing on digital platforms or technologies to result in outputs that demonstrate creativity and/or innovation. Offerings change from year to year and the course may not be offered in a particular year.

**289.191 Creative Media Production Special Topic 1b 15 credits**

This course focuses on a particular aspect of creative media production at introductory level focusing on digital platforms or technologies to result in outputs that demonstrate creativity and/or innovation. Offerings change from year to year and the course may not be offered in a particular year.

**289.192 Creative Media Production Special Topic 1c 15 credits**

This course focuses on a particular aspect of creative media production at introductory level focusing on digital platforms or technologies to result in outputs that demonstrate creativity and/or innovation. Offerings change from year to year and the course may not be offered in a particular year.

**289.202 Media Innovation and Creativity 15 credits**

In this course students will gain an understanding of how formats have been disrupted by digital technology, challenging old models and creating new opportunities. Students will then explore applied research and innovation techniques used for developing and assessing the social, cultural and commercial viability of cross-media proposals.

**289.204 Cross-Media Production 15 credits**

In this course, students choose two media production subjects with the aim of developing cross-media competences. While furthering technical knowledge, students examine media forms critically with appropriate reference to social and cultural values. Students apply aesthetic and narrative processes and forms through the production of short creative media projects.

**289.205 Intermedia 15 credits**

In this course, students work collaboratively with a range of production technologies to create examples of intermedia arts practices. Students work across disciplines integrating extant technologies and developing new technologically-focused practices in order to better understand how experimental electronic arts practices can integrate new and emerging media technologies.

**289.206 Media Production Development 15 credits**

In this course students work professionally with trans-disciplinary teams assisting in the production of externally focused projects. Students take on assistant production roles that support various scheduled production tasks.

**289.207 Media Post-production Development 15 credits**

In this course students work professionally with trans-disciplinary teams assisting in the production of externally focused projects. Students take on assistant post-production roles that support various scheduled post-production tasks.

**289.208 Computer Animation Production 15 credits**

In this course students will further their application of industry standard digital tools for 2D and 3D computer animation for animation production. Students will gain extended creative and technical knowledge and understanding of character, movement and rendering processes and develop their knowledge and application of aesthetics and form.

**289.209 Visual Effects Production 15 credits**

In this studio laboratory course students will further develop their application of digital special effects and motion graphic effects for production. Students will gain extended skills with effects such as dynamics, particles, fluids, light and rendering, and develop their knowledge and applications of aesthetics and form.

**289.210 Game Technologies Project 15 credits**

In this course students will further their application of industry standard digital tools for a games project. Students will gain extended creative and technical knowledge and understanding of game mechanics, concepts and production processes essential for the production of games platforms and develop their knowledge and application of aesthetics and form.

**289.211 Video and Sound Production 15 credits**

In this course students will further their application of industry standard digital audio and video production tools for video and sound productions. Students will gain extended creative and technical knowledge and understanding of video production, sound design concepts and audio production processes and develop their knowledge and application of aesthetics and form.

**289.212 Web and Interactive Production 15 credits**

In this course students will further their application of industry standard digital tools and techniques for development of interactive projects across different platforms. Students will gain extended creative and technical knowledge and understanding of development processes and programming, and develop their knowledge and application of aesthetics and form.

**289.215 Applied Producing and Directing 15 credits**

In this course students will further their application of industry-standard tools and techniques for producing and directing of projects across different platforms. Students will gain extended creative and technical knowledge and understanding of development and protection of creative work.

**289.220 Working with Scripted Material 15 credits**

In this course students will be reading, interpreting, and working with scripted content with the intent of realising the material through various creative media production practices. Students will work with scripts and student-created material for film, television, animation, game, augmented reality, and other emerging media.

**289.221 Portfolio and Dissemination 15 credits**

In this course students will prepare for progression to postgraduate study or transition to industry in the development of an online portfolio managing processes advantageous to their graduate progression and future networks. Students will also develop creative and organisational approaches to devising a range of events such as exhibitions, screenings and performances and gain a critical understanding of audience, site, experience, liveness, and spectacle.

**289.290 Creative Media Production Special Topic 2a 15 credits**

This course focuses on a particular aspect of creative media production at intermediate level focusing on digital platforms or technologies to result in well-developed outputs that demonstrate creativity and/or innovation. Offerings change from year to year and the course may not be offered in a particular year

**289.291 Creative Media Production Special Topic 2b 15 credits**

This course focuses on a particular aspect of creative media production at intermediate level focusing on digital platforms or technologies to result in well-developed outputs that demonstrate creativity and/or innovation. Offerings change from year to year and the course may not be offered in a particular year.

**289.301 Portfolio and Dissemination 15 credits**

In this course students will prepare for progression to postgraduate study or transition to industry in the development of an online portfolio managing processes advantageous to their graduate progression and future networks. Students will also develop creative and organisational approaches to devising a range of events such as exhibitions, screenings and performances and gain a critical understanding of audience, site, experience, live-ness, and spectacle.

**289.302 Major Project Innovation Lab 15 credits**

In this course students will apply research, ideation and value proposition methodologies with a view to developing content solutions in response to cross-media industry briefs. Students will be required to prepare presentations

using appropriate audio-visual media in the form of a professional pitch to the client.

**289.303 Major Project Pre-production 15 credits**

In this course, students engage in technical prototyping, technical ideation, and practical experimentation associated with preparing for Major Project Production and Post-production studio courses. Techniques are project-specific and may include developing new technologies and learning pipeline-specific methods and tools. Students will be required to work effectively as a team and communicate professionally at all times, agreeing on scope and schedules of work with clients.

**289.304 Major Project Production 15 credits**

In this studio course students will be required to work creatively and professionally in cross media teams leading in the process of producing assets responding to industry briefs developed in the Major Project Innovation Lab and Preproduction courses. Students will again be required to communicate with the client and manage and meet deadlines according to schedules and budgets.

**289.305 Major Project Postproduction 30 credits**

In this studio course students will demonstrate their ability to put into practice postproduction skills and knowledge learned throughout the degree. Students will be required to work creatively and professionally in interdisciplinary post-production teams and deliver finished works and assets as agreed with the client for final signoff.

**289.306 Major Project Production 45 credits**

In this studio production course, students will be required to work to an advanced technical, creative and professional standard through cross-media teams to complete their Year 3 Major Project. Students will put into production the projects developed in the Major Project Innovation Lab and Preproduction courses, producing digital assets, content, programming, and executables/deliverables appropriate to their brief. Students will be required to manage deadlines, schedules, budgets and external communications to ensure project completion.

**289.307 Critical Response and Reflection 15 credits**

In this course students develop an understanding of disciplinary specific theoretical and methodological frameworks relevant to creative media production. Through engagement with pertinent critical texts, students will become equipped with the intellectual tools for the critical exploration and reflection of creative work undertaken in their Major Project.

**289.308 Advanced Computer Animation Practice 15 credits**

In this course students will gain an advanced knowledge of computer animation techniques, approaches, and methodologies, and apply them to the production of a group project. Students will gain an understanding of professional computer animation production pipeline and advanced digital rendering techniques.

**289.309 Advanced VFX Practice 15 credits**

In this course students will gain advanced knowledge of digital visual effects techniques, technologies approaches, and methodologies and apply them to the production of a group project. Students will gain an understanding of professional computer VFX production pipelines digital tool programming, and advanced rendering techniques.

**289.310 Advanced Game Practice 15 credits**

In this course students will gain advanced knowledge of game development techniques. Students will also gain an advanced understanding of desktop, mobile and console packaging techniques, and strategies for online distribution.

**289.311 Advanced Video and Sound Practice 15 credits**

In this course students will gain advanced knowledge of video and sound recording techniques. Students will also gain an advanced understanding of professional production pipeline, international travel procedures and equipment.

**289.312 Advanced Creative Technologies 15 credits**

In this course students will gain advanced knowledge of web, mobile, interactive, and creative media development techniques. Students will gain an advanced understanding of front and back-end technologies and techniques, as well as strategies for online distribution.

**289.315 Advanced Producing and Directing 15 credits**

In this course students will gain advanced knowledge of producing and project directing techniques. Through a high-level project, students will also gain an advanced understanding of professional production distribution pipeline, contracts, and promotion.

**289.390 Creative Media Production Special Topic 3a 15 credits**

This course focuses on a particular aspect of creative media production at an advanced level focusing on digital platforms or technologies to result in professional standard outputs that demonstrate creativity and/or innovation. Offerings change from year to year and the course may not be offered in a particular year.

**289.701 Prototyping and Development for Advanced Creative Media Production Projects 30 credits**

Students undertake research toward developing a project relevant to their creative practice. Students learn prototyping techniques in order to produce an early prototype and synopsis, or equivalent concept. This culminates in the preparation of a proposal for their major projects.

**289.702 Critical Frameworks for Creative Media Production 15 credits**

Students become competent in situating their work within research methodologies and principles to support their development as critically-informed creative practitioners. Students learn to frame and present their creative practice as research via the development of critical reflexive and analytical skills, and engage in the development of a research proposal for their project.

**289.703 Contemporary Creative Media Production Project 15 credits**

Engagement with new thinking in creative media production research through a specific lecturer-led project.

**289.803 Advanced Creative Media Production Research Project 60 credits**

In this course students will explore and develop an advanced creative work in their chosen creative media production format. Students will be guided through a series of seminars and supervised sessions to develop, document and disseminate their research.

**290****Retail****290.100 Retail Practice Internship 15 credits**

The internship will provide an overview of product and service delivery to customers in the retail environment. The internship will focus on a chosen retail industry and contrast the differences between competing retailers of varying sizes and retail models.

**290.102 Contemporary Retail Management 15 credits**

An introduction to the fundamental concepts and principles of contemporary retail management from local and international viewpoints.

**290.201 Retail Knowledge Internship 15 credits**

The internship provides the participant with a practical understanding of the components of a retail operation from buying (supply end) to delivery (customer end).

**290.202 Design Thinking for Business Operations 15 credits**

This course applies the principles of design thinking to examine the operations of a business (physical and virtual), and how they are integrated to deliver the business proposition to satisfy customer needs and wants.

**290.203 Buying and Category Management 15 credits**

A study of the theory and practice of effective product buying from suppliers, and the planning of product range construction and execution of merchandising the range to the customer in the retail environment.

**290.204 Managing the Customer Experience 15 credits**

This course examines the customer experience when navigating physical and virtual service environments. It explores the theory and practice regarding customer experience.

**290.301 Retail Experience Internship 30 credits**

This capstone internship involves extensive work within a retail business to analyse and critique current practices against retail and business theories and international best practice.

**290.302 Strategic Transformation in Retailing 15 credits**

A study of the strategic models and frameworks used by retail businesses to construct strategies to ensure business transformation and viability. This course evaluates historical practices of strategy formation as well as how changes in the modern marketplace are affecting retail strategy.

**292****Portuguese****292.101 Introductory Portuguese Language I 15 credits**

An introduction to basic communication skills in spoken and written Portuguese. Aspects of contemporary Brazilian culture and society are also studied.

**292.102 Introductory Portuguese Language 2 15 credits**

An extension of basic communication skills in spoken and written Portuguese. Aspects of contemporary Brazilian culture and society are also studied.

**292.201 Intermediate Portuguese Language I 15 credits**

Intermediate level written and oral comprehension and communication skills in Portuguese, providing a broad linguistic base for the study of Brazilian culture, literature and civilisation.

**292.202 Intermediate Portuguese Language 2 15 credits**

An extension of intermediate skills in reading, free composition, listening comprehension and oral communication to illustrate aspects of contemporary Brazilian culture and society.

**292.301 Advanced Portuguese Language 15 credits**

Advanced level skills in reading, free composition, listening comprehension and oral communication in Portuguese, illustrating aspects of contemporary Brazilian culture and society.

**292.305 Brazilian Culture and Heritage 15 credits**

Significant aspects of modern Brazilian history, literature, art and culture. This course is taught in Portuguese.

**293****Creative Arts****293.001 Foundation Drawing 15 credits**

In this course students are introduced to working in a creative arts studio to develop skills in a variety of hand drawing and computer aided methods and materials. The drawing techniques taught will enable students to use drawing as a mode to generate, record and develop creative ideas.

**293.002 Foundation Sound and Image 15 credits**

In this course students will be introduced to working in a creative studio environment, learning techniques and processes which will enable them to create their own video project. Students will be guided to set their own brief, developing initially from their own soundtrack and storyboard plan.

**293.003 Foundation Fabricate 15 credits**

In this course students will be guided in the process of creating a character profile. Students will engage with ideation and analysis in developing their creative work. Students will work in a creative studio environment and be introduced to model-making, industrial sewing and 3D printing to develop a costume element, prop or character bust model.

**293.453 Integrated Design Research and Development 30 credits**

Using integrated design strategies, explore and apply methods, processes and practices through a research investigation that incorporates diverse design approaches. Students will undertake advanced research on a project of their choice.

**293.454 Integrated Design Research Project 45 credits**

Realise and manifest a research-led independent project that communicates integrated design strategies and methods.

**293.455 Integrated Design Studio Project 45 credits**

Realise and manifest a research-led independent project that communicates integrated design strategies and methods.

**293.701 Prototype and Synopsis 30 credits**

Students prepare an early prototype and synopsis or equivalent concept that is relevant to their creative endeavour. This culminates in the preparation of a proposal for the Major Project.

**293.702 Commercial Viability 15 credits**

An exploration of approaches to commercialisation that are intrinsic to professional practice in creative disciplines, in this course, students learn how to create an effective value proposition as part of their creative strategy. Students learn research methodologies, including market and competition analysis, to test market viability via theoretical tools relating to new ideas and innovation.

**293.703 Contextualising Creative Enterprise Practice Part 2 15 credits**

A further development of strategies and skills specific to creative enterprise, resulting in actionable insights that contribute to taking creative projects as close as possible to market. Students will be expected to demonstrate a plan, and execute appropriate stages, for the commercialisation of their Major Project.

**293.730 Critical Frameworks for Creative Practice 15 credits**

An exploration of a broad range of cross-disciplinary approaches and critical frameworks that students can apply to critique and analyse their own creative practice. Students will learn to frame their creative practice as part of an ideological/artistic movement and develop reflexive and analytical skills through engagement with texts and case studies.

**293.731 Contextualising Creative Enterprise Practice Part 1 15 credits**

An exploration of advanced critical and enterprise frameworks, and ways they may be applied to creative practice. Students work towards a proposal of a plan to take their Major Project to market, along with a text through which their Major Project is critically framed.

**293.810 MCE Thesis Project 90 credits**

In this course students produce a creative work through practical, critical and technical enquiry.

**293.811 MCE Thesis Project Part 1 45 credits**

In this course students produce a creative work through practical, critical and technical enquiry.

**293.812 MCE Thesis Project Part 2 45 credits**

In this course students produce a creative work through practical, critical and technical enquiry.

**294****Defence and Security Studies****294.101 Introduction to Biosecurity 15 credits**

This course exposes students to a range of contemporary biosecurity issues and practices and incorporates a preliminary understanding of conceptual approaches to the management of pest and diseases.

**294.115 War and Society 15 credits**

An examination of the nature of war and its impact on society. The course explains how contemporary armed conflict and the use of force affects the world order, people and their communities, human behaviour, culture, and the environment.

**294.140 Military Power 15 credits**

An introduction to military operations in a joint (interservice) environment. It examines the application of military power in conventional warfare across the air, land, maritime, joint, interagency and multinational domains.

**294.151 History of Warfare 15 credits**

An introduction to the history of warfare on land, at sea, and in the air. The course examines how armed forces and the conduct of war have evolved in response to broad military, societal, political, and technological change.

**294.170 Introduction to Border Security 15 credits**

An introduction to the concept of border security. It will explore security challenges and the implications of these to border security both internationally and for New Zealand. It will also look at the various border security agencies and their responses to managing border security risks with a focus on interagency collaboration, risk management and the impact of policy.

**294.180 Introduction to Security Studies 15 credits**

An introduction to contemporary security studies focusing on traditional and non-traditional security challenges and the ways in which security is understood and conceptualized in security studies discourse.

**294.201 States, Borders and Resource Security 15 credits**

This course examines the dynamics of states seeking to secure resources for their own requirements, alongside the need to sustain and protect global resources such as oceans and the poles.

**294.202 Human Security 15 credits**

This course explores the theory and practice of security from multiple perspectives including individual, community, social, economic and environmental.

**294.215 Global Defence Challenges 15 credits**

An examination of emerging and re-emerging defence challenges within the global environment, in particular their impact on the character of contemporary warfare and the employment of military forces.

**294.245 Irregular Warfare 15 credits**

The theory and conduct of irregular warfare including in joint (interservice), combined (multinational) and interagency environments, and incorporating both historical and contemporary case studies.

**294.255 Conventional Warfare 15 credits**

An examination of the theory and conduct of contemporary conventional warfare by studying the combat and non-combat use of military forces within joint (inter-service), combined (multinational) and interagency environments.

**294.272 Intelligence in the Security Environment 15 credits**

This course provides a critical examination of intelligence focusing on the security environment. It looks at contemporary global and New Zealand-specific security risks, the intelligence cycle, and intelligence models that collect and analyse information to produce intelligence products that inform decision making.

**294.280 Security and Diplomacy 15 credits**

This course examines the nexus of security and diplomacy and the related theoretical and explanatory approaches with a particular emphasis on the Asia-Pacific region.

**294.301 Legacies of War 15 credits**

This course explores the legacies of war remaining after war and violent conflict ends, using case studies to examine the social, cultural and political responses to those legacies.

**294.304 Cyber and Information Security 15 credits**

This course examines the threats posed by Cyber Crime, Cyber Terrorism, Cyber Intelligence, Cyber Infrastructure and Cyber Warfare to individuals, organisations and government agencies. Studies include the origins of threats, the evolution of technologies, the role of the state in offensive and defensive applications, and ethical considerations.

**294.325 Contemporary Peace Operations 15 credits**

A critical examination of the theories, concepts, evolution, and contemporary practice of peacekeeping (including peace-making, peace support, and humanitarian interventions) with application to the regional and global environments.

**294.350 The History of Defence and Security Intelligence 15 credits**

A study of defence and security intelligence from ancient times through to today, with emphasis on the evolution of intelligence organisations and activities, the impact of technological advances, and the wider political, social and ethical issues surrounding its practice.

**294.381 Terrorism and Political Violence 15 credits**

This course critically explores the concept of 'Terrorism' and related forms of political conflict and violence. New Zealand's understanding and responses to the phenomena labelled as 'terrorism' will be a key aspect of the course. The course will also address such substantive issues as the how non-state actors engaged in political conflict and violence fund their activities.

**294.382 Advanced Biosecurity 15 credits**

This course provides an advanced exploration of biosecurity from a social science perspective and exposes students to a range of contemporary biosecurity issues and their management.

**294.701 New Zealand National Security 30 credits**

A study of security theory and the domestic and international factors affecting New Zealand's strategic environment.

**294.704 Command, Leadership and Management 30 credits**

An advanced study of the interrelated components of command, leadership and management with an emphasis on how these are applied in the contemporary security environment.

**294.709 Terrorism 30 credits**

This course is an advanced study of terrorism, violent extremism and radicalisation. It critically examines the various theories, concepts and typologies of these phenomena, as well as response options and the challenges they pose in the contemporary international security environment.

**294.711 Theories in Defence and Security 30 credits**

Advanced theoretical thinking in Defence & Security Studies drawing from International Relations, Conceptualisations of Power, Ancient and Modern Conceptualisations of War, and Human Security, Ethics and Identity. Students will select and apply one of the theory sets to a case study in order to develop the analytical skills for advanced research in the field of defence and security.

**294.712 Economic and Environmental Security 30 credits**

This course offers an in-depth exploration and critical examination of contemporary environmental and economic security issues using theoretical analyses of case studies to propose alternative options for negotiating and/or governing wide ranging complex security issues.

**294.713 Counter-Terrorism 30 credits**

The course provides an overview of international Counter-Terrorism policy, strategy and operations as context for considering the challenges around implementing Counter-Terrorism operations and policy analysis in the New Zealand.

**294.714 Applied Security Planning Exercise 30 credits**

An applied professional practice course that seeks to apply the NZ whole of government problem solving framework to develop potential solutions to evolving security challenges.

**294.715 Asia-Pacific Security Environment 30 credits**

An advanced study of security theory and domestic and international factors affecting the Asia-Pacific security environment with emphasis given to strategic, national security and defence policy in the region

**294.716 Securing Mobility in an Uncertain World 30 credits**

This course is an advanced study of the dynamics of mobility and security in a globalised world. Mobility is central to the movement of goods, people, bio-organisms and ideas around the globe. The course will equip students with methodological tools to deconstruct the dynamics of mobility and construct solutions.

**294.717 Human Security in Application 30 credits**

This course examines critical analysis and application of human security in national and international contexts. This would allow the participants to understand and engage in a wide range of theoretical studies and practical projects on human security.

**294.720 Security Concepts and Structures 30 credits**

This course develops core conceptual and structural understandings of the study of security. It outlines the philosophical frameworks underpinning the international security environment with particular attention given to foundational challenges in defence, terrorism, intelligence, regional security and border and biosecurity. Exploring these challenges provides a basis for examining a diverse range of international security factors, and evaluating the major ethical implications of security issues and responses.

**294.741 Intelligence in the International Security Environment 30 credits**

An analysis of intelligence in the international security environment, focusing on key concepts and methodologies of intelligence gathering and analysis, the intelligence cycle, and analysis of applied intelligence in investigations and detection.

**294.744 Intelligence Operations 30 credits**

This course provides a critical analysis of security intelligence operations, utilising research and observations from selected case studies to understand the changing nature of intelligence and critically appraise the role of intelligence in national and international security operations.

**294.790 Research Methods in Defence and Security Studies 30 credits**

Theory, practice and application of research for scholarly and professional works in defence and security studies including: qualitative and quantitative research methodologies, data collection and analysis, and interpretation to be applied to historical, contemporary or future-focused research.

**Defence and Strategic Studies****294.798 Research Report (30) 30 credits****294.799 Research Report (60) 60 credits****294.800 MPhil Thesis 120 credits**

A supervised and guided independent study resulting in a published work

**294.801 MPhil Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**294.802 MPhil Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**Defence and Security Studies****294.820 Applied Security Research Project 60 credits**

Students undertake a research project that is relevant to and builds on their professional experience in international security.

**294.873 Research Report Defence and Security Studies (60) 60 credits****294.881 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**294.882 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**294.883 Thesis 90 credits**

A supervised and guided independent study resulting in a published work.

**294.891 Thesis 90 Credit Part 1 45 credits**

A supervised and guided independent study resulting in a published work.

**294.892 Thesis 90 Credit Part 2 45 credits**

A supervised and guided independent study resulting in a published work.

**294.894 Thesis 120 Credit Part 1 60 credits**

A supervised and guided independent study resulting in a published work.

**294.895 Thesis 120 Credit Part 2 60 credits**

A supervised and guided independent study resulting in a published work.

**294.896 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**294.899 Thesis 120 credits**

A supervised and guided independent study resulting in a published work.

**294.900 PhD Defence and Security Studies 120 credits**

## 295

## Business

**295.700 Examining Business Dilemmas 30 credits**

This course delivers a comprehensive examination of business dilemmas. It connects theory around globalisation, governance, strategy, and performance to practice, in order to conduct rigorous applied investigations and solve problems.

## 296

## Concept Design

**296.157 Studio I (Imagine) 15 credits**

In this studio course students will be introduced to creative and analytical thinking skills, idea generation and visualisation common to art and design practice. They will begin to acquire specific techniques, skills and processes for the definition and investigation of imagined conceptual worlds, stories, characters, and tools through the practice of iterative drawing, modelling and prototyping.

**296.257 Design Studio IIA (Concept) 30 credits**

In this studio course students will explore and articulate creative responses to design challenges through critical awareness of contextual issues. Students will develop and apply core techniques, skills and processes in concept design.

**296.258 Design Studio IIB (Concept) 30 credits**

In this studio course students will continue to explore and articulate creative responses to design challenges through critical inquiry into contemporary issues relevant to concept design. Students will further develop and apply core design techniques, skills and processes.

**296.357 Design Studio IIIA (Concept) 30 credits**

In this studio course students will establish a critical position through individual or collaborative creative exploration and articulation. With opportunities for varied contextual applications, students will consolidate and expand concept design concepts, techniques, skills and processes in the production of their creative work.

**296.358 Design Studio IIIB (Concept) 30 credits**

In this studio course students will negotiate a critical position through individual or collaborative professional practices, with opportunities to apply their specialist skills to a range of contexts. In addition to advancing concept design concepts, techniques, skills and processes in the production of their creative work, students will develop and apply transferable skills relevant to professional environments.

**296.453 Concept Design Research and Development 30 credits**

Application of research methods and processes to investigate social, cultural, aesthetic and technical issues and strategies in an approved concept design project.

**296.454 Concept Design Research Project 45 credits**

Application of research to the development and production of an independent concept design project.

**296.455 Concept Design Studio Project 45 credits**

Development and realisation of an advanced concept design project.

## 300

## Te Reo Māori

**300.110 Te Reo Whakahoahoa: Socialising in Te Reo 15 credits**

An introduction to elementary Māori language structures, Māori terminology and the correct pronunciation of the Māori language.

**300.111 Te Reo Kōnakinaki: Developing Te Reo 15 credits**

Ko tēnei whakaakoranga reo Māori hei mahinga mā te tauria kua tīmata kē ki te ako i te reo Māori. Ko tōna tino kaupapa, ka whakamahia te reo hei reo whakawhitiwhiti whakaaro, hei reo kōrerorero i waenganui i te tangata. This course extends listening, speaking and writing competency to enable students to express themselves in Te Reo on a wide range of topics at an introductory level. Emphasis is on spoken and written Māori as a language of communication and interaction.

**300.209 Te Reo Torangapu: Political Te Reo 15 credits**

An examination of the language of struggle this course develops the use and understanding of political discourse in Māori both spoken and written through the use of text types associated with activism, essential customary and contemporary concepts, intermediate language patterns, and the use of oral genre such as proverbs and song to support political communication. He āta tūhura i ngā āhuatanga o te reo tohe te kaupapa o te pepa nei. Ka nui ake tō mōhiotanga ki te reo tōrangapū ā-waha, ā-tuhi mā te whakamahi i ngā momo kōrero e hāngai ana ki te mahi mātātoa, ngā ariā tūturu me ngā whakaha hou, ngā takotoranga reo tau tuarua, tae atu ki ngā momo ā-waha pērā i te whakataukī, i te waiata hei tautoko i te whakawhitinga tōrangapū.

**300.210 Te Reo Kōrerorero: Discussing in Te Reo 15 credits**

Nei rā te reo kōrero, te reo tuhituhi hei reo whakawhitiwhiti i roto i roto i te nohotahitanga a te tangata. Ka tirohia te takotoranga o te reo, ngā kupu kei te hāngai ki ngā kaupapa maha, otirā, ka tirohia ngā kīpeha pēnei i te kīwaha. Taught in te reo, this course emphasises the use and understanding of spoken and written Māori, focusing on the structure of the language, expanding vocabulary and using figures of speech such as colloquialisms.

**300.211 Te Reo Whakanakonako: Embellishing Te Reo 15 credits**

Ka ākona te momo reo e ahu mai ana i te kawa o ō tātou marae e hāngai ana ki te tangihanga, ki te whakataukī, ki te pepeha, ki te kōrero pūrākau, ki te waiata tawhito. I roto i ēnei kaupapa kōrero katoa ka wānangahia te momo reo hei whakapakari i tō reo kōrero, i tō reo tuhituhi, i tō reo whakamārama. Ko ngā whakahaere katoa mō tēnei pepa kei roto i te reo Māori. Taught in te reo, this course examines te reo as a formal language associated with tangihanga, whakatauki, pepeha, korero purakau and waiata tawhito.

**300.310 Te Reo Auaha: Creative Writing in Te Reo 15 credits**

Taught in te reo, this course applies critical analysis to literature in te reo by authors and composers across a range of genres and disciplines. Students engage in creative composition and explore a range of literary techniques and processes, including editing, peer review and critical revision.

**300.311 Te Reo Papa: Strengthening Te Reo 15 credits**

Tuatahi he ako i te momo reo e ahu mai ana i te moteatea-a-korero, korero purakau, me nga korero mo tetahi o ou na tipuna. I roto i enei kaupapa katoa ka wanangatia tenei momo reo hei whakapakari i te reo korero, to reo tuhituhi, to reo whakamarama. Ko nga whakahaere katoa mo tenei pepa kei roto i te reo Māori. Taught in te reo this course explores Māori poetry, tribal legends and writings about ancestors, linking Māori philosophies, idioms and metaphors with Māori as a modern oral and written language.

**300.312 Te Reo o te Marae: Karanga and Whaikororero 15 credits**

Taught in te reo, this course develops the language and skill of the formal mediums of karanga, whaikorero and other genres, including karakia, waerea, tauparapara and poroporoaki. Students appraise and develop aspects of tikanga, style, form and structure.

## 502

## Workplace-Based Learning in the Sciences

**502.701 Workplace-based Learning in the Sciences 60 credits**

Portfolio of study using technical and clinical experiences in the sciences

**502.702 Extended Workplace-based Learning in the Sciences 60 credits**

Portfolio of study using technical and clinical experiences in the sciences
